

The Financial Services and Markets Authority (FSMA) warns the public against the activities of MetalInvesting, a company that offers investments without complying with Belgian financial legislation.

MetalInvesting is not allowed to provide banking and/or investment services in or from Belgium.

Furthermore, since 18 August 2016, no investment firm (authorized or not) is permitted to distribute actively, within the territory of Belgium, binary options or certain other derivative instruments. Specifically, the instruments concerned are derivatives whose maturity is less than one hour and/or that directly or indirectly use leverage (including forex derivatives and CFDs).

The FSMA therefore **strongly advises against responding to any offer of financial service** made by MetalInvesting and **against transferring money** to any account number it might mention.

The FSMA also reminds the public that in the vast majority of cases, persons who invest in firms that do not hold the requisite authorization **never recover the sums invested**. These are cases of **investment fraud**.
