|                                            | räntesatser för insättningar i SEK för den relevanta perioden på Stockholms interbankmarknad som erbjuds av Referensbankerna eller, där bara ett eller inga erbjudande ges (b) den Räntesats som enligt Emittentens uppfattning erbjuds av Londons affärsbanker för lån i SEK för den relevanta perioden på Stockholms interbankmarknad. |
| <b>"Strike Level"</b>                      | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                         |
| <b>"Lösenprisnivå"</b>                     | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                                  |
| <b>"Strike Lower"</b>                      | Means the value specified in the Final Terms;                                                                                                                                                                                                                                                                                            |
| <b>"Lösenpris Lägre"</b>                   | avser det värde som anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                            |
| <b>"Strike Upper"</b>                      | Means the value specified in the Final Terms;                                                                                                                                                                                                                                                                                            |
| <b>"Lösenpris Högre"</b>                   | avser det värde som anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                            |
| <b>"TARGET2"</b>                           | means the Trans-European Automated Real-Time Gross Settlement Express Transfer payment system which utilises a single shared platform and which was launched on 19 November 2007;                                                                                                                                                        |
| <b>"TARGET2"</b>                           | avser betalningssystemet Trans-European Automated Real-Time Gross Settlement Express Transfer som använder sig av en delad plattform och som lanserades den 19 november 2007;                                                                                                                                                            |
| <b>"TARGET Settlement Day"</b>             | means any day on which TARGET2 is open for the settlement of payments in euro;                                                                                                                                                                                                                                                           |
| <b>"TARGET Avvecklingsdag"</b>             | avser dag på vilken TARGET2 är öppet för avveckling av betalningar i EUR;                                                                                                                                                                                                                                                                |
| <b>"Target Redemption Amount"</b>          | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                         |
| <b>"Eftersträvat Återbetalningsbelopp"</b> | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                                  |
| <b>"TOM Period"</b>                        | means the dates specified as such in the applicable Final Terms;                                                                                                                                                                                                                                                                         |
| <b>"TOM Period"</b>                        | avser de datum som närmare anges i de Slutliga Villkoren;                                                                                                                                                                                                                                                                                |
| <b>"Tranche Attachment Point"</b>          | the percentage specified in the Final Terms;                                                                                                                                                                                                                                                                                             |
| <b>"Tranch Fästpunkt"</b>                  | den procentsats som närmare anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                    |
| <b>"Tranche Attachment Range"</b>          | means the result obtained by subtracting the Tranche Attachment Point from the Tranche Detachment Point;                                                                                                                                                                                                                                 |
| <b>"Tranch Fästspann"</b>                  | avser det resultat som fås fram genom att subtrahera Tranch Fästpunkt med Tranch Avskiljningspunkt;                                                                                                                                                                                                                                      |
| <b>"Tranche Detachment Point"</b>          | the percentage specified in the Final Terms;                                                                                                                                                                                                                                                                                             |
| <b>"Tranch Avskiljningspunkt"</b>          | den procentsats som närmare anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                    |
| <b>"Transaction Date"</b>                  | a day on which an agreement is reached between an Issuing Agent and Issuer regarding placement of Notes or, where the Issuer itself offers Notes, as determined by the                                                                                                                                                                   |

|                              |                                                                                                                                                                                                                                |
|------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                              | Issuer;                                                                                                                                                                                                                        |
| "Affärsdag"                  | dag på vilket avtal sluts mellan ett Administrerande Institut och Emittenten avseende placeringen av Lånen eller, när Emittenten själv erbjuder Lånen, såsom fastställs av Emittenten;                                         |
| "Valuation Date(s)"          | as specified in the Final Terms;                                                                                                                                                                                               |
| "Värderingsdag"              | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                        |
| "Valuation Period"           | means the period from (but excluding) each Valuation Date (including the Initial Valuation Date), to and including the immediately following Valuation Date.                                                                   |
| "Värderingsperiod"           | avser perioden från (men exklusive) varje Värderingsdag (inklusive Startdagen, till och inklusive den närmast efterföljande Värderingsdagen;                                                                                   |
| "Valuation Time"             | unless otherwise specified in the Final Terms, with respect to each Reference Asset, the time at which its official closing price is determined or the value thereof is otherwise determined as specified in the Final Terms;  |
| "Värderingstidpunkt"         | avser, om inte annat anges i de Slutliga Villkoren, för varje Referenstillgång, den tidpunkt då dess officiella stängningskurs fastställs eller värdet av densamma bestäms på annat sätt som närmare anges i Slutliga Villkor; |
| "Weighted Asset Return"      | means, unless otherwise specified in these Conditions, the product of the Reference Asset Return and the Basket Participation in respect of each relevant Reference Asset;                                                     |
| "Viktad Tillgångsavkastning" | Avser, om inte annat anges i Slutliga Villkor, produkten av Referenstillgångsavkastning och Korgandelen avseende varje relevant Referenstillgång;                                                                              |
| "Zero Coupon Notes"          | has the meaning given to it in Condition 5(f) ( <i>Zero Coupon Notes</i> ).                                                                                                                                                    |
| "Nollkupongslån"             | Har den innebörd som givits det i Punkt 5(f) ( <i>Nollkupongslån</i> );                                                                                                                                                        |

## 2. **Form och Valör**

### (a) **Form**

Lån (förutom VP-Lån, VPS-Lån, Svenska Lån och Finska Lån) ges ut antingen som fysiska värdepapper eller registreras på värdepapperskonto, vilket närmare specificeras i relevanta Slutliga Villkor. Dessa lån ges också ett serienummer.

VP-Lånen registreras på ett värdepapperskonto i VP i enlighet med den vid var tid gällande danska lagen *Værdipapirhandelsloven*, såsom vid var tid gällande, och i enlighet med den danska förordningen *Bekendtgørelse om registrering, m.v. af fondsaktiver i en værdipapircentral*, såsom vid var tid gällande.

VPS-Lånen registreras på ett värdepapperskonto i VPS i enlighet med den norska lagen *Lov om registrering av finansielle instrumenter (2002 5. juli nr. 64)*.

Svenska Lånen registreras på värdepapperskonto i enlighet med den vid var tid gällande svenska lag (1998:1479) om *kontoföring av finansiella instrument*.

Finska Lånen registreras på värdepapperskonto i enlighet med finska lagen *laki arvo-osuusjärjestelmästä ja selvitystoiminnasta* (749/2012), vid var tid gällande, den finska lagen *laki arvo-osuustileistä* (827/1991), vid var tid gällande samt Euroclear Finlands regelverk.

(b) **Form för Innehavarlån**

Lån som ges ut i form av fysiska värdepapper ("**Innehavarlån**") kommer efter en emission att representeras av antingen ett temporärt globalt lån ("**Temporärt Globalt Lån**") eller ett permanent globalt lån ("**Permanent Globalt Lån**"), i båda fallen huvudsakligen med den utformning som framgår av bilaga till Fiscal Agency-avtalet (med förbehåll för att detta kan komma att ändras och ska färdigställas).

Ett Temporärt Globalt Lån och/eller ett Permanent Globalt Lån kommer att förvaras av en så kallad common depositary eller common safekeeper för Euroclear Bank SA/NV ("**Euroclear**"), Clearstream Banking, société anonyme ("**Clearstream Luxembourg**") eller annat clearingsystem till vilket Lån eller rättigheter knutna därtill från tid till annan kan komma att anslutas. Betalningar av kapitalbelopp eller ränta (om sådan finns) på ett Permanent Globalt Lån kommer att ske genom Euroclear och Clearstream Luxembourg.

Räntebärande Definitiva Lån kommer, om så anges i relevanta Slutliga Villkor, vid dess initiala leverans att ha kuponger ("**Kuponger**") fogade till sig. Uppvisande av dessa Kuponger kommer att vara ett villkor för utbetalning av ränta under vissa nedan angivna omständigheter förutsatt att räntebärande Definitiva Lån, om så anges i relevanta Slutliga Villkor, vid initial leverans har Kuponger fogade till sig tillsammans med en Talong som berättigar till ytterligare Kuponger ("**Talong**", och tillsammans med Kuponger när sammanhanget så tillåter, "**Kupongerna**", vilken berättigar innehavaren till ytterligare Kuponger och en ytterligare Talong).

Innehavarlån vilkas kapitalbelopp ska återbetalas genom amorteringar ("**Amorterade Lån**") har vid initial leverans utbetalningsPayment Receipts ("**Payment Receipts**") fogade till sig vilka avser de amorteringar som ska ske av kapitalbeloppet.

(c) **Form för Registrerade Lån**

Lån som registreras på värdepapperskonto ("**Registrerade Lån**") kommer huvudsakligen att ha den utformning som framgår av bilaga till Fiscal Agency-avtalet (med förbehåll för att detta kan komma att ändras och ska färdigställas). Registrerade Lån kommer inte att kunna omvandlas till Innehavarlån.

(d) **Form för Lån i Schweiziska Franc**

Lån i Schweiziska Franc kommer att denomineras i Schweiziska Franc och emitteras i innehavarform samt att representeras exklusivt av ett Permanent Globalt Lån vilket kommer att förvaras hos SIS eller hos en annan förvarare godkänd av SIX Regulatory Board vid SIX Swiss Exchange. Då det Permanenta Globala Lånet deponerats hos Mellanhanden och förts in på konton hos en eller flera medlemmar av Mellanhanden, kommer Lånen utgöra mellanhandsförvarade värdepapper (*Bucheffekten*) ("**Mellanhandsförvarade Värdepapper**") i enlighet med den schweiziska lagen *Bucheffekengesetz*.

Varje Innehavare (såsom definierats i Villkor 3 nedan) ska ha ett proportionellt samägande (*Miteigentumsanteil*) i det Permanenta Globala Lånet i den omfattning som motsvarar Innehavarens fordran på Emittenten, **förutsatt att**, samägandet i det Globala Permanenta Lånet, under den tid som det är deponerat hos Mellanhanden, är vilande och att Lånen endast får överföras eller på annat sätt avyttras i enlighet med bestämmelser i den schweiziska lagen *Bucheffekengesetz*, d.v.s. vid införandet av de överförda Lånen på ett värdepapperskonto hos förvärvaren.

Varken Emittenten eller Innehavarna ska vid någon tidpunkt ha rätten att påverka eller kräva konvertering av det Permanenta Globala Lånet (*Globalurkunde*) till, eller leverans av, ocertifierade värdepapper (*Wertrechte*) eller Definitiva Lån (*Wertpapiere*).

Ingen fysisk leverans av Lånen ska ske förrän, alternativt om, Definitiva Lån skrivits ut. Definitiva Lån får endast skriva ut i sin helhet, och inte delvis, om den schweiziska Betalningsagenten, efter eget skön, bestämmer att utskriften av Definitiva Lån är nödvändig eller

lämpliga. Om den schweiziska Betalningsagenten skulle ta ett sådant beslut ska denne tillse att utskrifter av Definitiva Lån (*Wertpapiere*) sker utan kostnad för Innehavarna. Vid leverans av Definitiva Lån (*Wertpapiere*) ska det Permanenta Globala Lånet sägas upp och det Definitiva Lånet ska levereras till Innehavarna i utbyte mot uppsägning av Lånen i Innehavarnas värdepapperskonton.

(e) **Form för VP-Lån**

En Tranch eller Serie Lån kan, om så anges i tillämpliga Slutliga Villkor, clearas genom VP i enlighet med dansk rätt och de förfaranderegler som från tid till annan tillämpas av och/eller ges ut av VP ("**VP-Reglerna**"). I dessa Villkor ska VP-Lån anses vara Registrerade Lån. Inga fysiska Lån eller certifikat kommer att ges ut i förhållande till VP-Lån och regleringar i dessa Villkor relaterade till uppvisande, återlämnande eller utbyte av fysiska Lån eller certifikat ska inte tillämpas på VP-Lånen. Emittenten kommer att intyga att Nordea Bank Danmark A/S är, på dagen för utgivande av en Tranch eller Serie VP-Lån, antecknad i VP som konförende institut (*konførende institut*) för den registrerade innehavaren av sådan Tranch eller Serie Lån.

(f) **Form för VPS-Lån**

I dessa Villkor ska VPS-Lån anses vara Registrerade Lån under förutsättning att detta är i linje med norsk rätt och de förfaranderegler som från tid till annan tillämpas av och/eller ges ut av VPS ("**VPS-Reglerna**"). Inga fysiska VPS-Lån eller certifikat kommer att ges ut i förhållande till VPS-Lån och regleringar i dessa Villkor relaterade till uppvisande, återlämnande eller utbyte av fysiska Lån eller certifikat ska inte tillämpas på VPS-Lånen.

(g) **Form för Svenska Lån**

I dessa Villkor ska Svenska Lån anses vara Registrerade Lån under förutsättning att detta är i linje med svensk rätt och de förfaranderegler som från tid till annan tillämpas av och/eller ges ut av Euroclear Sverige ("**Euroclear Sverige-reglerna**"). Inga fysiska Svenska Lån eller certifikat kommer att ges ut i förhållande till Svenska Lån och regleringar i dessa Villkor relaterade till uppvisande, återlämnande eller utbyte av fysiska Lån eller certifikat ska inte tillämpas på Svenska Lån.

(h) **Form för Finska Lån**

I dessa Villkor ska Finska Lån anses vara Registrerade Lån under förutsättning att detta är i linje med finsk rätt och de förfaranderegler som från tid till annan tillämpas av och/eller ges ut av Euroclear Finland ("**Euroclear Finland-reglerna**"). Inga fysiska Finska Lån eller certifikat kommer att ges ut i förhållande till Finska Lån och regleringar i dessa Villkor relaterade till uppvisande, återlämnande eller utbyte av fysiska Lån eller certifikat ska inte tillämpas på Finska Lån.

(i) **Valör för Innehavarlån**

Innehavarlån kommer att ha en eller flera valörer (varje sådan valör är delbar med varje mindre valör) såsom närmare angivet i Slutliga Villkor. Innehavarlån med en valör kan inte bytas ut mot Innehavarlån med en annan valör.

(j) **Valör för Registrerade Lån**

Registrerade Lån kommer att ha en minsta valör såsom närmare angivet i Slutliga Villkor och, om inget annat anges i Slutliga Villkor, multiplar därav.

(k) **Valör för VP-Lån**

VP-Lån kommer att ha en eller flera valörer (varje sådan valör är delbar med varje mindre valör) såsom närmare angivet i Slutliga Villkor. VP-Lån med en valör kan inte bytas ut mot VP-Lån med en annan valör.

(l) **Valör för VPS-Lån**

VPS-Lån kommer att ha en eller flera valörer (varje sådan valör är delbar med varje mindre valör) såsom närmare angivet i Slutliga Villkor. VPS-Lån med en valör kan inte bytas ut mot VPS-Lån med en annan valör.

(m) **Valör för Svenska Lån**

Svenska Lån kommer att ha en eller flera valörer (varje sådan valör är delbar med varje mindre valör) såsom närmare angivet i Slutliga Villkor. Svenska Lån med en valör kan inte bytas ut mot Svenska Lån med en annan valör.

(n) **Valör för Finska Lån**

Finska Lån kommer att ha en eller flera valörer (varje sådan valör är delbar med varje mindre valör) såsom närmare angivet i Slutliga Villkor. Finska Lån med en valör kan inte bytas ut mot Finska Lån med en annan valör.

(o) **Lånens valuta**

Lån kan anges i vilken valuta som helst förutsatt att alla tillämpliga legala och/eller regulatoriska krav och/eller krav från relevant centralbank är uppfyllda.

En hänvisning till Lån i dessa Villkor ska, när sammanhanget så kräver, anses inkludera Temporära Globala Lån, Permanenta Globala Lån, Definitiva Lån och i förekommande fall Registrerade Lån.

Emittenten kan under vissa omständigheter konsolidera Lån med en eller flera andra Trancher av Lån i samma Serie, såsom närmare beskrivet i Punkt 18 ([Övrigt]) nedan.

3. **Äganderätt**

(a) **Äganderätt till Innehavarlån, Registrerade Lån, VP-Lån, VPS-Lån, Svenska Lån och Finska Lån**

Äganderätten till Innehavarlån, Payment Receipts och Kuponger övergår genom överlämnandet. Hänvisningar till "**Innehavare**" av ett Fysiskt Lån eller av Payment Receipts eller Kuponger avser innehavaren av sådant Fysiskt Lån eller sådana Payment Receipts och Kuponger.

Äganderätten till Registrerade Lån övergår genom registrering i det register som hanteras av Registreringsagenten såsom angiven i relevanta Slutliga Villkor. Hänvisningar till "**Innehavare**" av ett Registrerat Lån avser personerna i vilkas namn sådana Lån är registrerade.

Äganderätten till VP-Lån övergår genom registrering i registret ("**Danska Lånregistret**") fört av VP-Administrerande Institutet i enlighet med VP-Reglerna. Emittenten ska ha rätt att erhålla information från VP i enlighet med VP-Reglerna. Om inget annat har beslutats av behörig domstol eller fordras av gällande rätt ska Innehavare (som definierat nedan) av ett VP-Lån anses vara och behandlas som oinskränkt ägare i alla avseenden, oavsett överskridna tidsfrister, meddelanden om äganderättens övergång eller andra intressen i Lånet, och ingen person ska kunna lida skada av sådan behandling av en Innehavare. Enbart i relation till VP-Lån avses i dessa med "**Fordringshavare**" eller "**Innehavare**", mot bakgrund av relevant kontext, den person i vars namn ett VP-Lån är registrerat i det danska VPS-registret och ska även inkludera en person som i vederbörlig ordning blivit auktoriserad att agera som förvaltare och registrerad innehavare av VP-Lånen. Om Lån i en sådan Tranch slutar vara registrerade i VP ska Nordea Bank Danmark A/S som kontoförande institut för de registrerade ägarna tillhandahålla VP-Administrerande Institutet all nödvändig information avseende sådana registrerade ägare och VP-Administrerande Institutet ska föra in denna information i Danska Lånregistret.

Äganderätten till VPS-Lån övergår genom registrering i registret ("**VPS-Registret**") i enlighet med norska VPS-Reglerna. Emittenten ska ha rätt att erhålla information från VPS i enlighet med VPS-Reglerna. Om inget annat har beslutats av behörig domstol eller fordras av gällande rätt ska Innehavare (som definierat nedan) av ett VPS-Lån anses vara och behandlas som oinskränkt ägare i alla avseenden, oavsett överskridna tidsfrister, meddelanden om äganderättens övergång

eller andra intressen i Lånet, och ingen person ska kunna lida skada av sådan behandling av en Innehavare. Med "**Fordringshavare**" eller "**Innehavare**" avses, mot bakgrund av relevant kontext, den person i vars namn ett VPS-Lån är registrerat i VPS-registret och ska även inkludera en person som i vederbörlig ordning blivit auktoriserad att agera som förvaltare (*forvalter*) och registrerad innehavare av VPS-Lånen.

Äganderätten till Svenska Lån övergår genom registrering på ett värdepapperskonto i det system och register som tillhandahålls av Euroclear Sweden ("**Euroclear Sverige-Registret**"). Om inget annat har beslutats av behörig domstol eller fordras av gällande rätt ska Innehavare (som definierat nedan) av ett Svenskt Lån anses vara och behandlas som oinskränkt ägare i alla avseenden, oavsett överskridna tidsfrister, meddelanden om äganderättens övergång eller andra intressen i Lånet, och ingen person ska kunna lida skada av sådan behandling av en Innehavare. I dessa Villkor, i relation till svenska Lån endast, avses med "**Fordringshavare**" eller "**Innehavare**", mot bakgrund av relevant kontext, den person i vars namn ett Svenskt Lån är registrerat i Euroclear Sverige-Registret och ska även inkludera en person som i vederbörlig ordning blivit auktoriserad att agera som förvaltare och registrerad innehavare av de Svenska Lånen

Om en förvaltare är registrerad i enlighet med Kontoföringslagen ska denna behandlas av Emittenten som Innehavare av relevanta Svenska Lån.

Äganderätten till Finska Lån övergår genom registrering i det datoriserade registret fört av eller för Euroclear Finland. Om inget annat har beslutats av behörig domstol eller fordras av gällande rätt ska Innehavare (som definierat nedan) av ett Finskt Lån anses vara och behandlas som oinskränkt ägare i alla avseenden, oavsett överskridna tidsfrister, meddelanden om äganderättens övergång eller andra intressen i Lånet, och ingen person ska kunna lida skada av sådan behandling av en Innehavare. Hänvisningar till "**Innehavare**" av ett Finskt Lån avser personerna i vilkas namn sådana Finska Lån är registrerade.

Innehavare av ett Lån eller Kupong ska (om inget annat fordras av gällande rätt eller regulatoriska krav) anses vara och behandlas som oinskränkt ägare i alla avseenden, oavsett överskridna tidsfrister, meddelanden om äganderättens övergång, andra intressen i Lånet eller Kupongen, anteckningar på dessa eller stöld eller förlust av dessa, och ingen person ska kunna lida skada av sådan behandling av en Innehavare.

(b) **Överlåtelse av Registrerade Lån, VP Lån, VPS Lån, Svenska Lån och Finska Lån**

*Registrerade Lån*

Ett Registrerat Lån kan, beroende på villkoren i Fiscal Agency-avtalet, överföras helt eller delvis bara (**förutsatt att** sådan del är likvärdig med, eller är tillåten en heltalsmultipel som överskrider minimumvalören som specificeras i de relevanta Slutliga Villkoren, vid återlämnandet av det Registrerade Lånet att överföras, tillsammans med överföringsformuläret påskrivet på detta, korrekt fullbordat och exekverat, vid det specificerade kontoret hos Registreringsagenten. Ett nytt Registrerat Lån kommer att utföras till överlåtaren och i fall där endast en del av ett Registrerat Lån överförs, kommer ett nytt Registrerat Lån som täcker den del som inte överförs att utfärdas till överföraren.

Varje nytt Registrerat Lån som ska utfärdas vid överföring av Registrerade Lån skall, vid faktiskt mottagande hos Registreringsagenten i hans specificerade kontor, vara tillgängligt för leverans till Registreringsagenten specificerade kontor. För dessa ändamål så ska ett överföringsformulär mottaget av Registreringsagenten under en period av femton Bankdagar i London, med slut vid förfallodagen för alla betalningar för de relevanta Registrerade Lånen betraktas som inte varande i kraft hos Registreringsagenten förrän dagen efter förfallodagen för sådan betalning.

Utfärdandet av nya Registrerade Lån vid överföring ska ske utan avgift av eller för Emittenten eller Registreringsagenten, men efter betalning från sökanden av (eller efter att sökanden har givit sådan säkerhet som Registreringsagenten kan kräva med avseende på) tillämpligt skatt eller andra myndighetsbestämda avgifter som kan avkrävas i relation till detta.

### VP-Lån

Ett eller fler VP-Lån kan överföras i enlighet med VP-regler. Varje nytt VP-Lån som ska utfärdas ska finnas tillgänglig för leverans inom tre Bankdagar efter mottagandet av begäran och avgivandet av VP-Lån för utbyte. Leverans av de nya VP-Lånen/ det nya VP-Lånet ska ske till samma VP-konto på vilket de ursprungliga VP-Lånen var registrerade. I detta Villkor 2(b) (*Överföring av Registrerade Lån, Svenska Lån och Finska Lån*) ska "**Bankdag**" ha samma betydelse avseende VP-Lån som tillskrivs en sådan term av de då gällande reglerna och procedurerna för VP.

Utbyte eller överföring av VP-Lån vid registrering, överföring, partiell inlösen eller exekverandet av en sälj- eller köption ska verkställas utan avgift av Administrerande Institutet för VP, men mot betalning av tillämplig skatt eller andra myndighetsföreskrivna avgifter som kan komma att utkrävas med avseende på denna VP (eller ställande av sådan säkerhet som Administrerande Institutet för VP kan komma att kräva).

Ingen Fordringshavare får kräva att överföring av ett VP-Lån ska registreras under någon stängd period i enlighet med de tillämpliga VP-reglerna.

Alla överföringar av VP-Lån är föremål för cut-off datum tillämpliga på sådana VP-Lån och de andra regler och procedurer som för tillfället gäller för VP. VP:s regler och bestämmelser kan laddas ner från dess webbsida: <http://www.vp.dk>.

### VPS-Lån

Ett eller fler VPS-Lån kan överföras i enlighet med VPS-reglerna. I fall av exekvering av en option, som resulterar i att VPS-Lån hos samma innehavare har olika villkor, så ska separata VPS-Lån som är registrerade i VPS-registret utfärdas med avseende på de VPS-Lån som denna innehavare har som har samma villkor. Sådana VPS-Lån ska bara utfärdas under avgivande av de existerande VPS-Lånen i enlighet med VPS-reglerna.

Varje ny VPS-Lån som ska utfärdas i enlighet med det ovanstående ska vara tillgänglig för leverans inom tre Bankdagar efter mottagande av begäran och avgivandet av VPS-Lånen för utbyte. Leverans av VPS-Lånen ska ske till samma VPS-konto där de ursprungliga VPS-Lånen var registrerade. I detta Villkor 3(b) (*Överföring av Registrerade Lån, VP-Lån, VPS-Lån, Svenska Lån och Finska Lån*) med avseende bara på VPS-Lån, "**Bankdag**" betyder en dag annan än lördag eller söndag när VPS är öppet för transaktioner.

Utbyte och överföring av VPS-Lån vid registrering, överföring, partiell inlösen eller exekvering av en option ska exekveras utan avgift till eller för Emittentens räkning eller till VPS-Betalningsagenten, men efter betalning av tillämplig skatt eller annan avgift till myndigheter som kan avkrävas med avseende på den (eller ställandet av sådan säkerhet som VPS-Betalningsagenten kan komma att kräva).

Ingen Fordringshavare kan kräva överföring av en VPS-aktie för att registreras under en stängd period, i enlighet med de för tillfället gällande VPS-reglerna.

Under dessa villkor betyder "**Fordringshavare**" eller "**Innehavare**" avseende VPS-Lån, som sammanhanget kräver, den person i vars namn en VPS-Lån är registrerad i VPS-registret, och ska också inkludera personer som är auktoriserade att fungera som förvaltare (på norska "forvalter") och registrerad som en innehavare av VPS-Lån.

### Svenska Lån

Ett eller fler Svenska Lån kan överföras i enlighet med Euroclear Sverige-reglerna. Utbyte och överföring av Svenska Lån rörande överföring, partiell återbetalning, eller exekvering av en köp- eller säljoption ska exekveras utan avgift till eller för Emittentens räkning eller för det svenska Emissionsinstitutet, men efter betalning av tillämplig skatt eller andra avgifter till myndigheter som kan avkrävas med avseende på den (eller ställande av sådan säkerhet som det svenska Administrerande Institutet kan kräva).

Ingen Fordringshavare kan kräva överföring av ett Svenskt Lån att registreras under en stängd period i enlighet med de vid tillfället gällande Euroclear Sverige-reglerna.

Alla överföringar av Svenska Lån är föremål för cut-off datum tillämpliga på sådana Svenska Lån och de andra regler och procedurer som för tillfället gäller hos Euroclear Sverige. Euroclear Sveriges Regler kan laddas ner från deras webbsida: [www.euroclear.com](http://www.euroclear.com)

#### *Finska Lån*

Ett eller fler Finska Lån kan överföras i enlighet med Euroclear Finland Rules. Utbyte och överföring av Finska Lån beträffande registrering, överföring, partiell återbetalning eller exekverandet av en köp- eller sälgooption ska exekveras utan avgift till eller till förmån för Emittenten eller det finska Administrerande Institutet, men efter betalning av tillämplig skatt eller andra avgifter krävda av myndigheter i samband med det (eller ställande av sådan säkerhet som det finska Administrerande Institutet kan kräva).

Ingen Fordringshavare får kräva att överföringen av ett Finskt Lån ska registreras under en stängd period i enlighet med de för tillfället gällande Euroclear Finland Rules.

Alla överföringar av Finska Lån är föremål för cut-off datum tillämpliga på sådana Finska Lån, och de andra regler och procedurer som för tillfället gäller hos Euroclear Finland. Euroclear Finlands regler och förordningar kan laddas ner från deras webbsida: <http://www.euroclear.com>.

#### *Lån i Schweiziska Franc*

Mellanhandens register avgör antalet Lån som innehas av varje medlem av Mellanhanden. Avseende Lån som är Värdepapper förvarade hos Mellanhanden, ska innehavaren av Lånen ("**Innehavaren**") vara den person som innehar Lånen på ett värdepapperskonto (*Effektenkonto*) utställt i eget namn, eller för det fall att mellanhand (*Verwahrungsstellen*) finns, att mellanhanden (*Verwahrungsstellen*) innehar Lånen för egen räkning på ett värdepapperskonto (*Effektenkonto*) utställt i eget namn.

#### 4. **Status**

Lånen i varje Serie utgör ej säkrade och ej eftersälda förpliktelser av Emittenten och rankas jämsides (*pari passu*) utan någon preferens bland de själva och åtminstone jämställt (*pari passu*) med alla andra nuvarande och framtida utestående ej säkerställda och ej efterställda förpliktelser av Emittenten,.

#### 5. **Ränta**

Lån kan vara räntebärande eller icke-räntebärande, såsom specificerats i de relevanta Slutliga Villkoren. Den ränta som ska betalas per Beräkningsbelopp på varje Räntebetalningsdag ("**Räntebeloppet**") beräknas i enlighet med ett av följande alternativ och såsom ytterligare specificerats i de Slutliga Villkoren. Såvida inte annat anges i dessa Villkor, ska Räntebeloppet vara ett belopp per Beräkningsbelopp och ska betalas i efterskott på varje Räntebetalningsdag.

##### (a) **Ränta – Fast Ränta**

Om Lånen är specificerade som Lån med Fast Ränta ska Lånen bära ränta enligt Räntesatsen, från och inklusive Lånedatumet till men exklusive Återbetalningsdagen **förutsatt att**, såvitt gäller Svenska Lån, sådana Svenska Lån ska vara räntebärande från, men exklusive deras Lånedatum till och inklusive Återbetalningsdagen.

Ränta som upplupit under varje Ränteperiod ska vara betalningsbar i efterhand på varje relevant Räntebetalningsdag och ska beräknas genom att tillämpa Räntesatsen på Beräkningsbeloppet, och multiplicera produkten med Dagsräkningsmetoden, och avrunda det resulterande beloppet till den närmaste underenheten för den specificerade valutan (en halv subenhet avrundas uppåt) och multiplicera detta avrundade tal med en bråkdel som är lika med den specificerade Valören för sådant Lån dividerad med Beräkningsbeloppet. I detta Villkor 5 (*Ränta*), avser en "**underenhet**" för alla valutor utom Euro, den minsta enhet av sådan valuta som finns tillgänglig som lagligt betalningsmedel i valutans hemland, och i fallet Euro betyder det en cent.

Om inte annat specificerats i de Slutliga Villkoren så tillämpas Bankdagskonventionen i Villkor 8 (8)(c) nedan på Lån med Fast Ränta.

(b) **Ränta – Räntejustering**

Om Lånen är specificerade som Lån med Räntejustering får detta Villkor 5 (*Ränta*), som ska användas för beräkning av den Ränta som ska betalas för Lånen, justeras periodiskt i enlighet med de tillämpliga Slutliga Villkoren.

(c) **Ränta – Kombination**

Om specificerat i de tillämpliga Slutliga Villkoren, kan Lån även ge ränta i enlighet med fler än ett av räntealternativen i detta Villkor 5 (*Ränta*), och de två Räntebeloppen som sålunda fastställs ska aggregeras i syfte att fastställa det totala belopp som ska betalas till innehavarna vid den relevanta Räntebetalningsdagen.

(d) **Ränta – Lån med Rörlig Ränta (FRN)**

Om Lånen är specificerade som Lån med Rörlig Ränta ska Lånen ge ränta från och inklusive Lånedatumet till men exklusive Återbetalningsdagen **förutsatt att**, såvitt gäller Svenska Lån, sådana Svenska Lån ska vara räntebärande från, men exklusive deras Lånedatum till och inklusive Återbetalningsdagen. Räntesatsen som är tillämplig för varje Ränteperiod ska fastställas av Emissionsinstitutet (eller, där det är tillämpligt, Beräkningsagenten) eller Emittenten, vid den relevanta Räntebestämningsdagen, såsom summan av Basräntan och Räntemarginalen för den relevanta perioden. Basräntan för varje Ränteperiod ska meddelas Innehavarna i enlighet med Villkor 16 (*Meddelanden*).

Ränta för varje Ränteperiod betalas i efterskott vid den relevanta Räntebetalningsdagen och beräknas genom att tillämpa Räntesatsen, och att multiplicera med Dagberäkningsmetoden, och avrunda till den närmaste underenheten för den specificerade valutan (en halv underenhet avrundas uppåt) och att multiplicera med sålunda avrundade tal med en bråkdel som är lika den specificerade Valören för sådant Lån dividerad med Beräkningsbeloppet. I detta Villkor 4 avser en "**underenhet**" för alla valutor utom Euron, den minsta enheten av en sådan valuta som finns tillgänglig som lagligt betalningsmedel i hemlandet för denna valuta, och avseende Euron, en cent.

Om inte annat specificerats i de Slutliga Villkoren, så tillämpas Bankdagskonventionen i Villkor 8(8)(c) nedan på Lån med Rörlig Ränta.

(e) **Ränta – Inflationslänkad**

(f) Om Lånen är specificerade som Inflationslänkade Lån ska Lånen ge Inflationslänkad Ränta från och inklusive Lånedatumet till men exklusive Återbetalningsdagen **förutsatt att**, såvitt gäller Svenska Lån, sådana Svenska Lån ska vara räntebärande från, men exklusive deras Lånedatum till och inklusive Återbetalningsdagen. Räntesatsen kan vara fast eller rörlig och räntebeloppet för varje Ränteperiod ska beräknas på det sätt som specificeras i Villkor 5(a) (*Ränta – Fast Ränta*) eller Villkor 5(d) (*Ränta – Lån med Rörlig Ränta (FRN)*) och multipliceras med ett tal i enlighet med den kvot som beräknats genom att dividera Slutligt KPI med Bas-KPI. Mängden ränta som är kopplad till inflationen för varje Ränteperiod ska meddelas Innehavarna i enlighet med Villkor 16 (*Meddelanden*), så snart beloppet har fastställts av Emittenten.

Såvida inte annat specificerats i de Slutliga Villkoren, så ska Bankdagskonventionen specificerad i Villkor 8(8)(c) nedan tillämpas på Inflationslänkade Lån.

(g) **Nollkupongslån**

Om Lånen är specificerade som Nollkupongslån ska de inte vara räntebärande. Nollkupongslån kan utfärdas med rabatt och lösas in till Kapitalbeloppet. Alternativt kan Nollkupongslån utfärdas till Kapitalbeloppet och lösas in till ett högre värde i enlighet med de tillämpliga Slutliga Villkoren och vilket, i ett sådant fall, ska betalas på Inlösningsdagen.

Om inte något annat anges i Slutliga Villkor, så tillämpas Bankdagskonventionen i Villkor 8(8)(c) nedan för Nollkupongslån.

Om inget annat anges i Slutliga Villkor ska Lånen inte bära ränta såsom ett Nollkupongslån och vid inlösen av Lånen ska betalning av Återbetalningsbelopp som understiger eller överstiger Kapitalbeloppet anses vara ränta eller avkastning.

(h) **Kupongbärande Autocalllån**

Om Lånen är specificerade som Kupongbärande Autocalllån och om Korgvärdet vid någon Värderingsdag är högre än eller lika med en eller flera specificerade Kupongbarriärnivå(er), då ska Lånen betala ränta ("**Kupongen**") på den omedelbart efterföljande Räntebetalningsdagen. Beloppet av en sådan Kupongbetalning fastställs enligt följande.

- (i) Om "**Flat Kupong**" är specificerad i Slutliga Villkor, så är Kupongbetalningen lika med Kapitalbeloppet på Lånen multiplicerat med den relevanta Kupongnivån;
- (ii) Om "**Memory Kupong**" är specificerad i de Slutliga Villkoren, så blir Kupongbetalningen lika med Kapitalbeloppet på Lånen multiplicerat med den relevanta Kupongnivån, multiplicerat med antalet omedelbart föregående Räntebetalningsdagar (fram till och inklusive den Räntebetalningsdag som omedelbart följer den tillämpliga Värderingsdagen) för vilka en Kupong inte har betalats;
- (iii) Om "**Plus Flat Kupong**" är specificerad i Slutliga Villkor så kommer Kupongbetalningen att bli lika med Kapitalbeloppet för Lånen multiplicerat med det högre av: (a) den relevanta Kupongnivån och (b) Bonusfaktorn, och
- (iv) Om "**Plus Memory Kupong**" är specificerad i Slutliga Villkor, så blir betalningen lika med Kapitalbeloppet för Lånen multiplicerat med det högre av: (a) den relevanta Kupongnivån, multiplicerat med antalet omedelbart föregående Räntebetalningsdagar (upp till och inklusive den Räntebetalningsdag som omedelbart följer den tillämpliga Värderingsdagen) för vilket en Kupong inte har betalats och (b) Bonusfaktorn.

"**Bonusfaktorn**" och "**Korgvärdet**" blir:

- (i) Om "**Korgnivån**" är specificerad i de Slutliga Villkoren, kommer Bonusfaktorn vara Korgvärdeutvecklingen och Korgvärdet kommer vara Korgvärdeutvecklingen plus Startkursen;
- (ii) Om "**Bästa/Sämsta Kurs**" är specificerat i Slutliga Villkor, blir Bonusfaktorn Referenstillgångsavkastningen för den Nth bästa värdeutvecklande Referenstillgången och Korgvärdet kommer vara Slutkursen för den Nth bästa värdeutvecklande Referenstillgången på den relevanta Värderingsdagen delat med den Nth bästa Startkursen av den värdeutvecklande Referenstillgången.

Om Korgvärdet på någon Värderingsdag är under den lägsta Kupongbarriärnivån, så betalas ingen ränta ut på den omedelbart följande Räntebetalningsdagen.

Den "Nth bästa värdeutvecklande" Referenstillgången kommer att vara den Nth högsta Referenstillgångsavkastningen.

"**Referenstillgångsavkastningen**" och "**Korgavkastningen**" kommer att beräknas i enlighet med den Värdeutvecklingsstruktur som är tillämplig på Lånen i enlighet med Villkor 6(a) (Återbetalning på Förfallodagen).

(h) **Non-tranched CLN Ränta**

Om Lånen är specificerade som Non-tranched CLN Ränta så kan räntesatsen vara fast eller rörlig och mängden ränta för varje Ränteperiod ska beräknas på det sätt som specificeras i någon av de andra bestämmelserna i detta Villkor 5 (Ränta), utom att Beräkningsbeloppet på vilket Räntesatsen tillämpas ska vara antingen:

- (i) om "**Bestämningsdag Exponering**" är specificerad i de Slutliga Villkoren, multiplicerad med Justerad Portföljavkastning (Ränta) vid den Observationsdag som omedelbart föregår den relevanta Räntebetalningsdagen, eller

- (ii) om "**Viktad Genomsnittlig Exponering**" är specificerad i de Slutliga Villkoren, multiplicerat med det viktade medelvärdet av Justerad Portföljavkastning (ränta) under varje kalenderdag från och med det omedelbart föregående Observationsdag (men exklusive) Observationsdag som är omedelbart föregående den relevanta Räntebetalningsdagen, såsom fastställts av Emittenten enligt dennes gottfinnande.

Den "**Justerade Portföljavkastningen (Ränta)**" ska vara skillnaden mellan 1 och den Justerade Portföljförlusten (Ränta).

Den "**Justerade Portföljförlusten (Ränta)**" betyder summan av Default-viktningen för varje Referensenhet (ränta) inom Korgen.

"**Default-viktningen**" ska beräknas genom att multiplicera Korgandelen (Ränta) med Default-värdet med avseende på varje Referensenhet (Ränta).

"**Default-Värdet**" med avseende på varje Referensenhet (Ränta) blir skillnaden mellan 100% och Återvinningsvärdet.

"**Återvinningsvärdet**" blir 100 procent om en Kredithändelse (såsom definieras i Del 3; *Ytterligare villkor för Kreditlänkade Lån*) inte har inträffat i förbindelse med denna Referensenhet (Ränta) sedan Inledande Observationsdag eller, om en sådan Kredithändelse har inträffat, så blir den noll.

(i) **Tranched CLN Ränta**

Om Lånen är specificerade som Tranched CLN Ränta, så kan räntesatsen vara fast eller rörlig och mängden ränta för varje Ränteperiod ska beräknas på det sätt som specificerats i någon av de andra bestämmelserna i detta Villkor 5 (*Ränta*), utom att Beräkningsbeloppet på vilket Räntesatsen ska användas ska vara antingen:

- (i) om "**Bestämningsdag Exponering**" är specificerat i Slutliga Villkor, multiplicerat med Justerad Portföljavkastning (Ränta) såsom vid Observationsdag omedelbart föregående den relevanta Räntebetalningsdagen, eller
- (ii) om "**Viktad Genomsnittlig Exponering**" är specificerat i de Slutliga Villkoren, multiplicerat med det viktade medelvärdet av Justerad Portföljavkastning (ränta) under varje kalenderdag från och med den omedelbart föregående Observationsdagen (men exklusive) Observationsdagen som är omedelbart föregående den relevanta Räntebetalningsdagen, såsom fastställts av Emittenten enligt dennes gottfinnande.

"**Justerad Portföljavkastning (Ränta)**" ska vara resultatet som erhålles genom att subtrahera Justerad Tranchförlust (Ränta) (Justerad skiva, förlust (Ränta)) från 1.

"**Justerad Tranchförlust (Ränta)**" blir resultatet som erhålls genom att dividera det lägre av a) Tranch Fästspann och b) Tranchförlust (Ränta), med Tranch Fästspann.

"**Tranchförlust (Ränta)**" beräknas genom att lägga till Kupongriskfaktorn till det högre av:

- (i) noll och
- (ii) det resultat som erhållits genom att subtrahera Tranch Fästpunkt från summan av den Viktade Tillgångsförlusten (Ränta) för varje Referensenhet (ränta) inom Korgen.

"**Viktad Tillgångsförlust (Ränta)**" betyder produkten av Korgdeltagande (Ränta) och Referensenhetsförlusten (Ränta) för den relevanta Referensenheten (Ränta).

"**Referensenhetsförlusten (Ränta)**" blir resultatet som erhålles genom att subtrahera Återvinningsvärdet med avseende på den relevanta Referensenheten (Ränta) från 1,

"**Återvinningsvärdet**" blir 100 procent om en Kredithändelse såsom definieras i Del 3; *Ytterligare villkor för Kreditlänkade Lån*) inte har inträffat med avseende på denna Referensenhet (Ränta) sedan Inledande Observationsdag eller, om en sådan Kredithändelse har inträffat, så blir det antingen ett Fast Återbetalningsbelopp (såsom specificerats i de Slutliga Villkoren) eller ett Marknadsåtervinningsvärde, i alla fallen uttryckt som ett procentvärde.

**"Kupongriskfaktorn"** betyder det högre av (i) noll och (ii) summan av Viktat Tillgångsåtervinningssvärde (Ränta) minus resultatet som erhålls genom att subtrahera Tranch Avskiljningspunkt från 1.

Den **"Viktade Tillgångsåtervinningen (Ränta)"** betyder produkten av Korgandelen (Ränta) och Återvinningssvärdet för den relevanta Referensenheten (Ränta).

(j) ***Nth till Default CLN Ränta***

Om Lånen är specificerade som att de ger Nth till Default CLN Ränta, så kan räntesatsen vara fast eller rörlig och mängden ränta för varje Ränteperiod ska beräknas i enlighet med den metod som specificerats i någon av de bestämmelserna i detta Villkor 5 (*Ränta*), utom att Beräkningsbeloppet till vilket Räntesatsen ska appliceras ska vara antingen:

- (i) om **"Bestämningsdag Exponering"** är specificerat i Slutliga Villkor, multiplicerat med Justerad Portföljavkastning (Ränta) såsom vid Observationsdag omedelbart föregående den relevanta Räntebetalningsdagen, eller
- (ii) om **"Viktad Genomsnittlig Exponering"** är specificerat i de Slutliga Villkoren, multiplicerat med det viktade medelvärdet av Justerad Portföljavkastning (ränta) under varje kalenderdag från och med den omedelbart föregående Observationsdagen (men exklusive) Observationsdagen som är omedelbart föregående den relevanta Räntebetalningsdagen, såsom fastställts av Emittenten enligt dennes gottfinnande.

Den **"Justerade Portföljavkastningen (Ränta)"** ska vara resultatet som erhålls genom att subtrahera den Justerade Portföljförlusten (Ränta) från 1.

Den **"Justerade Portföljförlusten (Ränta)"** betyder a) om antalet Kredithändelser som har inträffat med avseende på någon eller några Referensenheter (Ränta) inom Korgen under den period som börjar med Inledande Observationsdag och slutar med Observationsdagen som infaller närmast före den relevanta Räntebetalningsdagen, är större än större än eller lika med N, 1; eller b) om antalet Kredithändelser som har inträffat i relation till någon Referensenhet (Ränta) inom Korgen under den period som börjar med Inledande Observationsdag och slutar med Observationsdagen som infaller närmast före den relevanta Räntebetalningsdagen är mindre än N, noll.

"N" ska vara det tal som specificerats i de Slutliga Villkoren.

(k) ***Nth och Nth + 1 till Default CLN Ränta***

Om Lånen som specificerats som att de ger Nth och Nth + 1 till Default CLN Ränta, så kan räntesatsen vara fast eller rörlig och mängden ränta för varje Ränteperiod ska beräknas på det sätt som specificerats i en av bestämmelserna i detta Villkor 5 (*Ränta*), utom att Beräkningsbeloppet på vilken Räntesatsen tillämpas ska vara antingen:

- (i) om **"Bestämningsdag Exponering"** är specificerat i Slutliga Villkor, multiplicerat med Justerad Portföljavkastning (Ränta) såsom vid Observationsdagen omedelbart föregående den relevanta Räntebetalningsdagen, eller
- (ii) om **"Viktad Medelvärdesexponering"** är specificerad i de Slutliga Villkoren, multiplicerad med det viktade medelvärdet av Justerad Portföljavkastning (Ränta) varje kalenderdag från och med den omedelbart föregående Räntebetalningsdagen till (men exklusive) Observationsdagen omedelbart föregående den relevanta Räntebetalningsdagen, såsom fastställt av Emittenten enligt dennes gottfinnande.

Den **"Justerade Portföljavkastningen (Ränta)"** ska vara resultatet som erhålls genom att subtrahera den Justerade Portföljförlusten (Ränta) från 1.

Den **"Justerade Portföljförlusten (Ränta)"** kommer att betyda:

- (i) om antalet Kredithändelser som har inträffat med avseende på någon Referensenhet (Ränta) inom Korgen under den period som börjar på Inledande Observationsdagen och slutar på Observationsdagen som infaller närmast före den relevanta

Räntebetalningsdagen är större än N, summan av Korgandelen för Nth Referensenheten (Ränta) till brott och den Nth plus 1 (dvs. den omedelbart följande) Referensenheten (Ränta) till brott inom Korgen; eller

- (ii) om antalet Kredithändelser som har inträffat med avseende på någon Referensenhet (Ränta) inom Korgen under den period som började vid Inledande Observationsdag och slutade vid Observationsdagen som infaller närmast före den relevanta Räntebetalningsdagen är lika med N, ett belopp lika med Korgandelen hos Nth Referensenheten (Ränta) med avseende på vilken en Kredithändelse inträffar; eller
- (iii) om antalet Kredithändelser som har inträffat med avseende på någon Referensenhet (Ränta) inom Korgen under den period som började vid Inledande Observationsdag och slutade vid Observationsdagen som infaller närmast före den relevanta Räntebetalningsdagen är mindre än N, noll.

"N" ska vara det tal som specificerats i de Slutliga Villkoren.

(l) ***Tak Golv Float***

Om Villkoret 5(l) (*Tak Golv Float*) är specificerat i de relevanta Slutliga Villkoren, så blir Räntebeloppet för den tillämpliga Ränteperioden lika med Beräkningsbeloppet multiplicerat med:

- (a) det lägre av Lösenpristak och Justerad Referensräntesatsavkastning; och
- (b) Dagberäkningsmetoden;

Den "**Justerade Referensräntesatsavkastningen**" blir det högre av:

- (a) summan av Referensräntesatsen och den tillämpliga Spread; och
- (b) Lösenprisgolv.

"**Spread**" blir det värde som är specificerat i de tillämpliga Slutliga Villkoren

(m) ***Tak Golv Spread***

Om detta Villkor 5(m) (*Tak Golv Spread*) är specificerad som tillämplig i de relevanta Slutliga Villkoren, så blir Räntebeloppet för den tillämpliga Ränteperioden lika med summan av Tak-Spreadbeloppet och Golvspreadbeloppet.

"**Tak-Spreadbeloppet**" blir lika med Beräkningsbeloppet multiplicerat med:

- (a) Takvärdet;
- (b) Hävstång (Tak);
- (c) Takavkastningen; och
- (d) Dagberäkningsmetoden.

"**Takvärdet**" kommer att bli antingen 1, minus 1 eller noll, såsom specificerats i de tillämpliga Slutliga Villkoren.

"**Hävstång (Tak)**" blir det värde som specificerats i de tillämpliga Slutliga Villkoren.

"**Takavkastningen**" blir det lägre av:

- (a) det resultat som erhålls genom att subtrahera Lösenpristak Lägre från Lösenpristak Högre; och
- (b) det högre av (x), resultatet som erhålls genom att subtrahera Lösenpristak Lägre från Referensräntesatsen; och (y) noll.

**"Golvspreadbeloppet"** är lika med Beräkningsbeloppet multiplicerat medan:

- (a) Golvvärdet;
- (b) Hävstång (Golv);
- (c) Golvavkastningen; och
- (d) Dagberäkningsmetoden.

**"Golvvärdet"** är antingen 1, minus 1 eller noll, såsom specificerats i de tillämpliga Slutliga Villkoren.

**"Hävstång (Golv)"** kommer att vara det värde som specificerats i de tillämpliga Final Terms.

**"Golvavkastningen"** kommer att vara det lägre av:

- (a) det resultat som erhålles genom att subtrahera Lösenprisgolv Lägre från Lösenprisgolv Högre; och
- (b) det högre av (x) - det resultat som erhålles genom att subtrahera Referenskursen från Lösenprisgolv Högre och (y) noll.

(n) ***Range Accrual***

Om detta Villkor 5(n) (*Range Accrual*) är specificerat såsom tillämplbart i de relevanta Slutliga Villkoren, så är räntebeloppet för den tillämplbara ränteperioden lika med Beräkningsbeloppet multiplicerat med:

- (a) X
- (b) den Relevanta Proportionen; och
- (c) Dagberäkningsmetoden.

**"X"** ska vara det värde som specificerats i de tillämpliga Slutliga Villkoren

Den **"Relevanta Proportionen"** ska beräknas genom att dividera antalet dagar under den relevanta Ränteperioden under vilket Referenskursen, Referenstillgången eller Korgen är lägre än eller lika med Startkurs Högre och högre än eller lika med Startkurs Lägre, med det totala antalet dagar under den tillämpliga ränteperioden.

(o) ***Range Accrual In/Ut***

Om detta Villkor 5(o) (*Range Accrual In/Ut*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, så kommer Räntebeloppet för den tillämpliga Ränteperioden att vara lika med Beräkningsbeloppet multiplicerat med:

- (a) Justerad Spännviddsvärdeutveckling; och
- (b) Dagberäkningsmetoden.

**"Justerad Spännviddsvärdeutveckling "** kommer att vara högre än Lösenprisgolv och Spännviddsvärdeutveckling.

**"Spännviddsvärdeutveckling"** beräknas genom att subtrahera Spännviddsfallerande Värde från Spännviddsframgångsvärde, och dividera resultatet med det totala antalet dagar under den tillämpliga Ränteperioden.

**"Spännviddsframgångsvärde"** är produkten av X och antalet dagar under den relevanta Ränteperioden då Referenskursen var lägre än Startkurs Högre och högre än Startkurs Lägre.

Så **"Spännviddsfallerande Värde "** är produkten av Y och antalet dagar under den relevanta Ränteperioden där Referenskursen är högre än Startkurs Högre eller lägre än Startkurs Lägre.

"X" och "Y" är de värden som specificeras i de tillämpliga Slutliga Villkoren

(p) ***Knock-Out Range Accrual***

Om detta Villkor 5(p) (*Knock-Out Range Accrual*) är specificerat som tillämbart i de relevanta Slutliga Villkoren, så är räntesatsen för den tillämbara Rän-tepe-rioden lika med Beräk-nings-belopp-et multi-pli-cer-at med:

- (a) X
- (b) den Relevanta Proportionen; och
- (c) Dagberäk-nings-metoden.

"X" ska vara det värde som specificerats i de tillämpliga Slutliga Villkoren

Den "**Relevanta Proportionen**", i förhållande till varje tillämbig Rän-te-pe-riod:

- (a) ska, om ingen Knock-Out-Händelse har inträffat i tidigare Rän-te-pe-rioder eller i den innevarande Rän-te-pe-rioden, vara 1 (ett);
- (b) ska, om en Knock-Out-Händelse inträffar för första gången i den innevarande Rän-te-pe-rioden, beräknas genom att dividera antalet Observationsdagar i den innevarande Rän-te-pe-rioden som infallit före Knock-Out-Händelsen med det totala antalet Observationsdagar i den tillämbiga Rän-te-pe-rioden;
- (c) ska, om en Knock-Out-Händelse har inträffat i en tidigare Rän-te-pe-riod, vara 0 (noll).

"**Knock-Out-Händelse**" definieras som varje Observationsdag då Referenskursen är högre än Startkurs Högre eller lägre än Startkurs Lägre.

(q) ***Binärt Tak/Golv***

Om detta Villkor 5(q) (*Binärt Tak/Golv*) är specificerat som tillämbart i de relevanta Slutliga Villkoren, då:

Om Referenskursen är högre än eller lika med Lösenpristaket då är Rän-te-belopp-et för den tillämbara Rän-te-pe-rioden lika med Beräk-nings-belopp-et multi-pli-cer-at med:

- (a) X; och
- (b) Dagberäk-nings-metoden.

Om Referenskursen är lägre än Lösenpristaket, så är Rän-te-belopp-et för den tillämbara Rän-te-pe-rioden lika med Beräk-nings-belopp-et multi-pli-cer-at med:

- (a) Z; och
- (b) Dagberäk-nings-metoden.

Om Referenskursen är lägre än eller lika med Lösenprisgolv, så är Rän-te-belopp-et lika med Beräk-nings-belopp-et multi-pli-cer-at med:

- (a) Y; och
- (b) Dagberäk-nings-metoden.

Om Referenskursen är högre än Lösenprisgolv, så är Rän-te-belopp-et lika med Beräk-nings-belopp-et multi-pli-cer-at med:

- (a) W; och
- (b) Dagberäk-nings-metoden.

"W", "X", "Y" och "Z" kommer att vara värdena som specificerats i de tillämpliga Slutliga Villkoren.

(r) ***Binär Nollkupong***

Om detta Villkor 5(r) (*Binär Nollkupong*) är specificerat i de relevanta Slutliga Villkoren, så kommer Räntebeloppet att vara utbetalningsbart bara vid Återbetalningsdagen, och kommer att vara lika med:

- (a) produkten av Beräkningsbeloppet och den Periodisk Avkastningen, minus
- (b) Beräkningsbeloppet.

Den "**Periodiska Avkastningen**" är produkten av Referenskursavkastningen.

"**Referenskursavkastningen**" för varje tillämplig Referenskurs blir summan av:

- (a) 1; och
- (b) Rate-värdet multiplicerat med den tillämpliga Dagberäkningsmetoden

Där "**Rate-värdet**" kommer att vara X om Referenskursen är högre än K, eller Y om Referenskursen är lägre än eller lika med K.

"K", "X" och "Y" har de värden som specificerats i Slutliga Villkor.

(s) ***Inverterad Floater***

Om detta Villkor 5(s) (*Inverterad Floater*) är specificerad som tillämplig i de relevanta Slutliga Villkoren, så är Räntebeloppet för den tillämpliga Ränteperioden lika med produkten av Beräkningsbeloppet, Referenskursavkastningen och den tillämpliga Dagberäkningsmetoden.

"**Referenskursavkastningen**" blir summan av Y och det lägre av

- (a) Z och
- (b) det högre av: (x) noll; och (y) k multiplicerat med resultatet av att subtrahera Referenskursen från X.

"k", "X", "Y" och "Z" är värdena specificerade i de tillämpliga Slutliga Villkoren..

(t) ***Autocall***

Om detta Villkor 5(t) (*Autocall*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, då om Autocall-villkoret är uppfyllt vid någon tillämplig Värderingsdag under Ränteperioden, så kommer Räntebeloppet för den relevanta ränteperioden att vara lika med Beräkningsbeloppet, multiplicerat med X, multiplicerat med N och multiplicerat med den tillämpliga Dagberäkningsmetoden.

Om Autocallvillkoret inte är uppfyllt vid någon tillämplig Värderingsdag under den relevanta Ränteperioden, så blir Räntebeloppet för den relevanta Ränteperioden noll.

"N" betyder antalet Ränteperioder som har förlupit fram till och inklusive Ränteperioden då Autocallvillkoret är uppfyllt.

"X" är det värde som är specificerat i de tillämpliga Slutliga Villkoren.

Så "**Autocallvillkoret**" betyder att Referenskursen är högre än Kupongbarriärnivån, är lika med Kupongbarriärnivån, eller är lägre än Kupongbarriärnivån, såsom specificerats i de tillämpliga Slutliga Villkoren.

(u) ***Digital Long***

Om detta Villkor 5(u) (*Digital Long*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, om Korgavkastningen för någon Räntebestämningsdag är lika med eller överskrider

Korglösennivån så blir Räntebeloppet lika med Beräkningsbeloppet multiplicerat med Kupongen..

Om Korgavkastningen inte är lika med eller överskrider Korglösennivån vid någon Räntebestämningsdag så blir Räntebeloppet noll.

(v) **Digital Short**

Om detta Villkor 5(v) (*Digital Short*) är specificerat som tillämbart i de relevanta Slutliga Villkoren, om Korgavkastningen vid någon Räntebestämningsdag är lika med eller lägre än Korglösennivån så blir Räntebeloppet för den relevanta Ränteperioden Beräkningsbeloppet multiplicerat med Kupongen.

Om Korgavkastningen är högre än Korglösennivån vid någon Räntebestämningsdag så blir Räntebeloppet för den relevanta Ränteperioden noll.

(w) **Worst of Digital Long**

Om detta Villkor 5(w) (*Worst of Digital Long*) är specificerat i de relevanta Slutliga Villkoren, då, om Referenstillgångsavkastningen för Referenstillgången med Sämst Värdeutveckling vid någon Räntebestämningsdag är lika med eller överskrider Barriärnivån, blir Räntebeloppet för den relevanta Ränteperioden Beräkningsbeloppet multiplicerat med Kupongen.

Om Referenstillgångsavkastningen för Referens för Referenstillgången med Sämst Värdeutveckling understiger Barriärnivån vid någon Räntebestämningsdag, så blir Räntebeloppet för den relevanta Ränteperioden noll.

Referenstillgången med "**Sämst Värdeutveckling**" blir den Referenstillgång som har sämst Referenstillgångsavkastningen, i enlighet med Villkor 6(a)(ii) ("*Basket Long*" struktur).

(x) **Worst of Digital Short**

Om detta Villkor 5(x) (*Worst of Digital Short*) är specificerat som tillämbart i de relevanta Slutliga Villkoren, då:

Om Referenstillgångsavkastningen för Referenstillgången med Sämst Värdeutveckling vid någon Räntebestämningsdag är lika med eller lägre än Barriärnivån, så blir Räntebeloppet för den relevanta Ränteperioden Beräkningsbeloppet multiplicerat med Kupongen.

Om Värdeutvecklingen för Referenstillgången med Sämst Värdeutveckling överstiger Barriärnivån vid någon Räntebestämningsdag, så blir Räntebeloppet för den relevanta Ränteperioden noll.

Referenstillgången med "**Sämst Värdeutveckling**" blir den Referenstillgång som har sämsta Referenstillgångsavkastningen i enlighet med Villkor 6(a)(iii) ("*Basket Short*" struktur).

(y) **Worst of Digital Memory Kupong 2**

Om detta Villkor 5(y) (*Worst of Digital Memory Kupong 2*) är specificerat som tillämbart i de relevanta Slutliga Villkoren, då kommer Räntebeloppet för den relevanta Ränteperioden beräknas genom att multiplicera Beräkningsbeloppet multipliceras med Deltagandegraden, och det högre av: (i) Räntenivån minus den Utbetalda Räntan och (ii) noll. Innehavarna kommer även ha rätt att motta ett belopp som är lika med Lånens Kapitalbelopp vid Återbetalningsdagen.

"**Räntenivå**" syftar, med hänsyn till alla Värderingsdagar, till det högre av: (i) Räntenivån vid den direkt föregående Värderingsdagen (eller, avseende Startdagen, Ingångsräntan), (ii) och produkten av N, Kupongbarriärnivån och Bonusnivån.

"N" kommer vara antalet Värderingsdagar, i enlighet med det angivna i de Slutliga Villkoren

"**Årlig Kupong**" kommer vara det värde som angivits i de tillämbbara Slutliga Villkoren, och

**"Kupongbarriärnivån"** kommer vara 1 om Referenstillgångsavkastningen (i enlighet med det angivna i Villkor 6(a)(ii) ("*Basket Long*" struktur) för varje Referenstillgång inom Korgen är högre än, eller lika med, Barriärnivån vid varje Räntebestämningsdag, och annars lika med noll.

**"Utbetald ränta"** syftar till summan av alla räntor som har blivit betalda fram till (men exklusive) den relevanta Räntebestämningsdagen.

(z) **Digital Podium Long**

Om detta Villkor 5(z) (*Digital Podium Long*) är specificerat som tillämbart i de relevanta Slutliga Villkoren:

Om Referenstillgångsavkastningen hos varje Referenstillgång vid någon Räntebestämningsdag är lika med eller överskrider den relevanta Barriärnivån, så blir Räntebeloppet för den relevanta Ränteperioden Beräkningsbeloppet multiplicerat med Kupongen.

Om Referenstillgångsavkastningen av var och en av de N Referenstillgångarna med bästa Värdeutvecklingarna är lika med eller överskrider den relevanta Barriärnivån vid någon Räntebestämningsdag, så blir Räntebeloppet för den relevanta Ränteperioden Beräkningsbeloppet multiplicerat med Kupong 2.

De "**N Referenstillgångarna med bästa Värdeutvecklingarna**" Referenstillgångarna kommer att bli det förutbestämda antalet Referenstillgångar med den bästa Referenstillgångsavkastningen, såsom det bestäms i enlighet med Villkor 6(a)(ii) ("*Basket Long*" struktur), såsom specificerat i Slutliga Villkor.

Om Referenstillgångsavkastningen för var och en av de N bästa Referenstillgångarna inte är lika med eller överskrider den relevanta Barriärnivån vid någon Räntebestämningsdag, så blir Räntebeloppet för den relevanta Ränteperioden noll.

(aa) **Digital Podium Short**

Om detta Villkor 5(aa) (*Digital Podium Short*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, då:

Om Referenstillgångsavkastningen hos varje Referenstillgång vid någon Räntebestämningsdag är lika med eller under den relevanta Barriärnivån, så blir Räntebeloppet för den relevanta Ränteperioden Beräkningsbeloppet multiplicerat med Kupongen.

Om Referenstillgångsavkastningen hos var och en av de N Referenstillgångarna med bästa Värdeutvecklingarna är lika med eller under den relevanta Barriärnivån vid någon Räntebestämningsdag, så blir Räntebeloppet för den relevanta Ränteperioden Beräkningsbeloppet multiplicerat med Kupong 2.

De "**N Referenstillgångarna med bästa Värdeutvecklingarna**" kommer att bli ett på förhand specificerat antal Referenstillgångar med bäst Referenstillgångsavkastning, såsom det bestäms i enlighet med Villkor 6(a)(iii) ("*Basket Short*" struktur), såsom specificerats i Slutliga Villkor.

Om Referenstillgångsavkastningen för var och en av de N Referenstillgångarna med bästa Värdeutvecklingarna inte är lika med eller under den relevanta Barriärnivån vid någon Räntebestämningsdag, så blir Räntebeloppet för den relevanta Ränteperioden noll.

(bb) **Serier av Digitala**

Om detta Villkor 5(bb) (*Serier av Digitala*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, då blir Räntebeloppet för den relevanta Ränteperioden lika med det Justerade Beräkningsbeloppet multiplicerat med Kupongen.

Det "**Justerade Beräkningsbeloppet**" är Beräkningsbeloppet multiplicerat med ett bråk där täljaren är antalet Referenstillgångar med en Slutkurs som är lika med eller högre än den relevanta Barriärnivån varje dag upp till och inklusive den relevanta Räntebestämningsdagen och nämnaren är antalet Referenstillgångar inom Korgen.

(cc) **Cash Settled Swaption Straddle**

Om detta Villkor 5(cc) (*Cash Settled Swaption Straddle*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden summan av Cash Settled Payer Swaption och Cash Settled Received Swaption.

**"Cash Settled Payer Swaption"** betyder ett belopp lika med Beräkningsbeloppet multiplicerat med:

- (a) Gearing Payer;
- (b) det högsta av noll och resultatet som fås genom att subtrahera Payer Strike från Referenskursen på den relevanta Värderingsdagen; och
- (c) Payer Annuity (Cash).

**"Gearing Payer"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

**"Payer Strike"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

**"Payer Annuity (Cash)"** betyder värdet som det nuvarande värdet av en "annuity payment" av 1 baserat på samma betalningsdagar och konventioner som den bestämda räntefoten i den underliggande swappen av swaptionen och beräknad av Beräkningsagenten på Värderingsdagen med användning av Referenskursen som rabattkurs.

**"Cash Settled Receiver Swaption"** betyder ett värde motsvarande Beräkningsbeloppet multiplicerat med:

- (a) Gearing Receiver;
- (b) det högsta av noll och resultatet som fås genom att subtrahera Referenskursen på Värderingstidpunkten på den relevanta Värderingsdagen från Receiver Strike; och
- (c) Receiver Annuity (Cash).

**"Gearing Receiver"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

**"Receiver Strike"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

**"Receiver Annuity (Cash)"** betyder värdet som det nuvarande värdet av en "annuity payment" av 1 baserat på samma betalningsdagar och konventioner som den bestämda räntefoten i den underliggande swappen av swaptionen och beräknad av Beräkningsagenten på Värderingsdagen med användning av Referenskursen som rabattkurs.

(dd) **Power Tak/Golv**

Om detta Villkor 5(dd) (*Power Tak/Golv*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med Beräkningsbeloppet multiplicerat med:

- (a) Räntesatsen; och
- (b) Dagberäkningsmetoden.

**"Räntesatsen"** betyder det lägsta av den Maximala Räntesatsen och Poweravkastningen.

**"Poweravkastningen"** betyder det högsta av: (i) noll och (ii) Justerade Referensräntesatsavkastningen, i bägge fall höjda till styrkan av Powerfaktorn.

**"Justerade Referensräntesatsavkastningen"** betyder produkten av Gearing och resultatet som fås av att subtrahera Startkursen från Referenskursen vid Värderingstidpunkten på den relevanta Värderingsdagen.

**"Gearing"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

**"Powerfaktorn"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

(ee) ***Compounding Floater***

Om detta Villkor 5(ee) (*Compounding Floater*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, kommer Räntebeloppet för den relevanta Ränteperioden betalas på Återbetalningsdagen och vara lika med Beräkningsbeloppet multiplicerat med den Kapitaliserade Räntesatsen.

**"Kapitaliserade Räntesatsen"** är den periodiskt kapitaliserade Räntesatsen, med hänsyn till den tillämpliga Dagberäkningsmetoden.

**"Räntesatsen"** är det lägsta av den Maximala Räntesatsen och Justerade Referensräntesatsavkastningen.

**"Justerade Referensräntesatsavkastningen"** betyder det högsta av:

- (i) Golvet, och
- (ii) Gearing multiplicerad med summan av Referenskursen på den tillämpliga Värderingsdagen och Spread.

**"Spread"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

**"Gearing"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

(ff) ***Lock-In 1***

Om detta Villkor 5(ff) (*Lock-In 1*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Räntesatsen och den tillämpliga Dagberäkningsmetoden.

**"Räntesatsen"** betyder:

- (a) om Referenskursen har uppfyllt Lock-In Villkoret vid Värderingstidpunkten på var Värderingsdag, kommer Räntesatsen vara lika med den Fasta Rântan;
- (b) om Referenskursen inte har uppfyllt Lock-In Villkoret vid Värderingstidpunkten på var Värderingsdag, kommer Räntesatsen vara det lägre av den Maximala Räntesatsen och Justerade Referensräntesatsavkastningen;

**"Lock-In Villkoret"** är uppfyllt om Referenskursen är antingen högre än Startkurs Högre eller lägre än Startkurs Lägre.

**"Fasta Rântan"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

**"Justerade Referensräntesatsavkastningen"** betyder det högsta av:

- (i) Golvet, och
- (ii) summan av Referenskursen på Värderingstidpunkten på den relevanta Värderingsdagen och Spread, minus Startkursen.

**"Spread"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

(gg) ***Lock-In 2***

Om detta Villkor 5(gg) (*Lock-In 2*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Räntesatsen och den tillämpliga Dagberäkningsmetoden.

**"Räntesatsen"** betyder:

- (a) om Referenskursen inte har uppfyllt Lock in Villkoret vid Värderingstidpunkten på var Värderingsdag, kommer Räntesatsen vara lika med den Fasta Rântan;

- (b) om Referenskursen har uppfyllt Lock-In Villkoret vid Värderingstidpunkten på var Värderingsdag, kommer Räntesatsen var det lägre av den Maximala Räntesatsen och Justerade Referensräntesatsavkastningen;

**"Lock-In Villkoret"** är uppfyllt om Referenskursen är antingen högre än Startkurs Högre eller lägre än Startkurs Lägre.

**"Fasta Räntan"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

**"Justerade Referensräntesatsavkastningen"** betyder det högsta av:

- (i) Golvet, och
- (ii) summan av Referenskursen på Värderingstidpunkten på var Värderingsdag och Spridningen, minus Startkursen.

**"Spread"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

(hh) ***Snowball***

Om detta Villkor 5(hh) (*Snowball*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Räntesatsen och den tillämpliga Dagberäkningsmetoden.

**"Räntesatsen"** kommer vara lika med summan av Kupongavkastningen för varje tillämplig Värderingsperiod.

**"Kupongavkastningen"** kommer:

- (i) på Startdagen, vara Kupongen;
- (ii) på varje följande Värderingsdag, vara den Justerade Kupongen.

**"Justerade Kupongen"** kommer vara det högre av:

- (i) noll; och
- (ii) summan av:
  - (a) Kupongavkastningen på den direkt föregående Värderingsdagen; och
  - (b) produkten av (X) resultatet som fås genom att subtrahera Referenskursen på Värderingsdagen på den tillämpliga Värderingsdagen från Startkursen, och (Y) K.

**"K"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

(ii) ***Ackumulator***

Om detta Villkor 5(ii) (*Ackumulator*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Räntesatsen och den tillämpliga Dagberäkningsmetoden.

**"Räntesatsen"** kommer vara lika med Kupongavkastningen för varje tillämplig Värderingsperiod.

**"Kupongavkastningen"** kommer vara:

- (i) på Startdagen, den Initiala Kupongen;
- (ii) på varje följande Värderingsdag, summan av:
  - (a) Kupongavkastningen på den direkt föregående Värderingsdagen; och
  - (b) Justerade Kupongen.

**"Justerade Kupongen"** kommer vara Gearing multiplicerat med det högre av:

- (i) Golvet; och
- (ii) resultatet som fås genom att subtrahera Startkursen från Referenskursen på Värderingstidpunkten på den relevanta Värderingsdagen.

**"Gearing"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

**"Floor"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

(jj) ***Binär Ackumulator***

Om detta Villkor 5(jj) (*Binär Ackumulator*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Räntesatsen och den tillämpliga Dagberäkningsmetoden.

**"Räntesatsen"** kommer vara lika med Kupongavkastningen för varje tillämplig Värderingsperiod.

**"Kupongavkastningen"** kommer:

- (i) på Startdagen, vara den Initiala Kupongen;
- (ii) på varje följande Värderingsdag, vara summan av:
  - (a) Kupongavkastningen på den direkt föregående Värderingsdagen; och
  - (b) Justerade Kupongen.

**"Justerade Kupongen"** kommer vara Gearing multiplicerat med det högre av:

- (i) Golvet; och
- (ii) Kupongnivån.

**"Floor"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

**"Kupongnivån"** betyder:

- (a) om Referenskursen på Värderingstidpunkten på den tillämpliga Värderingsdagen är lägre än eller lika med X och större än eller lika med Y, Kupongen; eller
- (b) annars, noll.

(kk) ***Betingat Tak/Golv***

Om detta Villkor 5(kk) (*Betingat Tak/Golv*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Räntesatsen och den tillämpliga Dagberäkningsmetoden.

**"Räntesatsen"** kommer:

- (a) om Referenskursen 2 på Värderingstidpunkten på den tillämpliga Värderingsdagen är större än eller lika med Lösenpris 2, vara det högsta av:
  - (i) noll, och
  - (ii) Gearing multiplicerad med resultatet som fås av att subtrahera Startkursen från Referensnivån på den tillämpliga Värderingsdagen.
- (b) om Referensräntan 2 på den tillämpliga Värderingsdagen är mindre än Lösenpris 2, vara noll.

**"Referenskursen 2"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

**"Lösenpris 2"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

**"Gearing"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

(ll) **Dubbel Digital Tak**

Om detta Villkor 5(ll) (*Dubbel Digital Tak*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Räntesatsen och den tillämpliga Dagberäkningsmetoden.

**"Räntesatsen"** kommer:

- (a) om Referenskursen på Värderingstidpunkten på den tillämpliga Värderingsdagen är större än eller lika med Startkursen och Referenskursen 2 vid Värderingstidpunkten på den tillämpligt Värderingsdagen är större än eller lika med Lösenpris 2, vara Kupongen,
- (b) om Referenskursen på Värderingstidpunkten på den tillämpliga Värderingsdagen är lägre än Startkursen och/eller Referenskursen 2 vid Värderingstidpunkten på den tillämpliga Värderingsdagen är lägre än Lösenpris 2, vara noll.

**"Referenskursen 2"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

**"Lösenpris 2"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

(mm) **Dubbel Digital Golv**

Om detta Villkor 5(mm) (*Dubbel Digital Golv*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Räntesatsen och den tillämpliga Dagberäkningsmetoden.

**"Räntesatsen"** kommer:

- (a) om Referenskursen på Värderingstidpunkten på den tillämpliga Värderingsdagen är mindre än eller lika med Startkursen och Referenskursen 2 vid Värderingstidpunkten på den tillämpligt Värderingsdagen är mindre än eller lika med Lösenpris 2, vara Kupongen,
- (b) om Referenskursen på Värderingstidpunkten på den tillämpliga Värderingsdagen är större än Startkursen och/eller Referenskursen 2 vid Värderingstidpunkten på den tillämpliga Värderingsdagen är större än Lösenpris 2, vara noll.

**"Referenskursen 2"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

**"Lösenpris 2"** betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

(nn) **Binärt Inflationstak**

Om detta Villkor 5(nn) (*Binärt Inflationstak*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Räntesatsen och den tillämpliga Dagberäkningsmetoden.

**"Räntesatsen"** kommer:

m Inflationstakten är större än eller lika med Startnivån vid Värderingstidpunkten på den tillämpliga Värderingsdagen, vara lika med Kupongen, annars kommer Räntesatsen vara noll.

(oo) **Binärt Inflationsgolv**

Om detta Villkor 5(oo) (*Binärt Inflationsgolv*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Räntesatsen och den tillämpliga Dagberäkningsmetoden.

**"Räntesatsen"** kommer:

om Inflationstakten är lägre än eller lika med Startnivån vid Värderingstidpunkten på den tillämpliga Värderingsdagen, vara lika med Kupongen, annars kommer Räntesatsen vara noll.

(pp) ***Binärt Inflationsspann***

Om detta Villkor 5(pp) (*Binärt Inflationsspann*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Räntesatsen och den tillämpliga Dagberäkningsmetoden.

"**Räntesatsen**" kommer:

om Inflationstakten är större än eller lika med Startkurs Lägre och lägre än eller lika med Startkurs Högre vid Värderingstidpunkten på den tillämpliga Värderingsdagen, vara lika med Kupongen, annars kommer Räntesatsen vara noll.

(qq) ***Inflationsspann Periodiserad***

Om detta Villkor 5(qq) (*Inflationsspann Periodiserad*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Räntesatsen och den tillämpliga Dagberäkningsmetoden.

"**Räntesatsen**" kommer vara lika med Kupongen multiplicerad med resultatet av bråket där täljaren är antalet Värderingsperioder som uppfyller det Periodiserat Spann Villkoret, och där nämnaren är det totala antalet Värderingsperioder.

"**Periodiserat Spann Villkoret**" betyder att Inflationstakten är högre än eller lika med Startkurs Lägre och lägre än Startkurs Högre vid Värderingstidpunkten på den tillämpliga Värderingsdagen.

(rr) ***Inflation Tak/Golv***

Om detta Villkor 5(rr) (*Inflation Tak/Golv*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Gearing, Inflationsavkastningen och den tillämpliga Dagberäkningsmetoden.

"**Gearing**" betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

"**Inflationsavkastningen**" kommer vara det högre av:

- (a) noll, och
- (b) produkten av Flaggan och resultatet av att subtrahera Startkursen från Inflationstakten vid Värderingstidpunkten på den tillämpliga Värderingsdagen.

"**Flaggan**" betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

(ss) ***Inflation Ömsesidig***

Om detta Villkor 5(ss) (*Inflation Ömsesidig*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av summan av Inflationstaket och Inflationsgolvet, Beräkningsbeloppet den tillämpliga Dagberäkningsmetoden.

"**Inflationstaket**" kommer vara lika med produkten av Gearing (Tak) och det högre av;

- (a) resultatet som fås av att subtrahera Startkursen (Tak) från Inflationstakten vid Värderingstidpunkten på den tillämpliga Värderingsdagen; och
- (b) noll.

"**Inflationsgolvet**" kommer vara lika med produkten av Gearing (Golv) och det högre av;

- (a) resultatet som fås av att subtrahera Startkursen (Golv) från Inflationstakten vid Värderingstidpunkten på den tillämpliga Värderingsdagen; och

(b) noll.

"**Gearing (Tak)**" betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

"**Gearing (Golv)**" betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

"**Lösenpris (Tak)**" betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

"**Lösenpris (Golv)**" betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

(tt) ***Inflation Tak Golv Spread***

Om detta Villkor 5(tt) (*Inflation Tak Golv Spread*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av summan av Inflationstak Spread och Inflationsgolv Spread, Beräkningsbeloppet och den tillämpliga Dagberäkningsmetoden.

"**Inflation Tak Spread**" kommer vara lika med produkten av:

- (a) Takvärdet;
- (b) Hävstång (Tak); och
- (c) Takavkastningen

"**Takvärdet**" kommer vara antingen 1, minus 1 eller noll, såsom specificerat i de tillämpliga Slutliga Villkoren.

"**Hävstång (Tak)**" betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

"**Takavkastningen**" kommer vara det lägre av:

- (a) resultatet som fås av att subtrahera Lösenpristak Lägre från Lösenpristak Övre; och
- (b) det högre av (x) resultatet som fås av att subtrahera Lösenpristak Lägre från Inflationstakten vid Värderingstidpunkten på den tillämpliga Värderingsdagen; och (y) noll.

"**Inflation Golv Spread**" kommer vara lika med produkten av:

- (a) Golvvärdet;
- (b) Hävstång (Golv); och
- (c) Golvavkastningen

"**Golvvärdet**" kommer vara antingen 1, minus 1 eller noll, såsom specificerat i tillämpliga Slutliga Villkoren.

"**Hävstång (Golv)**" betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

"**Golvavkastningen**" kommer vara det lägre av:

- (a) resultatet som fås av att subtrahera Lösenprisgolv Lägre från Lösenprisgolv Högre; och
- (b) det högre av (x) resultatet som fås av att subtrahera Inflationstakten Värderingstidpunkten på den tillämpliga Värderingsdagen från Lösenprisgolv Högre; och (y) noll.

(uu) ***ZC Inflation Tak Golv***

Om detta Villkor 5(uu) (*ZC Inflation Tak Golv*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Gearing och det högre av:

- (a) noll; och
- (b) Inflationsavkastningen.

"**Gearing**" betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

"**Inflationsavkastningen**" kommer vara produkten av:

- (i) Flaggan, och
- (ii) resultatet som fås av att subtrahera Startkurs Avdragsbar från Inflationstakten vid Värderingstidpunkten på den tillämpliga Värderingsdagen.

"**Startkurs Avdragsbar**" betyder:

- (i) summan av 1 och Startkursen;
- (ii) upphöjd med Löptiden;
- (iii) minskat med 1.

"**Flaggan**" betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

"**Löptid**" betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

(vv) ***Inflationslänkad 1***

Om detta Villkor 5(vv) (*Inflationslänkad 1*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Gearing och Inflationsavkastningen.

"**Gearing**" betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

"**Inflationsavkastningen**" kommer vara det högre av:

- (i) noll, och
- (ii) summan av Inflationstakten vid Värderingstidpunkten på den tillämpliga Värderingsdagen och Spreaden.

"**Spreaden**" betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

(ww) ***Inflation Linker 2***

Om detta Villkor 5(ww) (*Inflation Linker 2*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet, Kupongen och Inflationsjustering.

"**Inflationsjustering**" kommer vara lika med resultatet som fås av att dela Inflationsindex vid Värderingstidpunkten på den tillämpliga Värderingsdagen med Inflationsindex på Startdagen.

"**Inflationsindex**" betyder värdet som specificeras i de tillämpliga Slutliga Villkoren.

(xx) ***Strip of Call Spreads***

Om detta Villkor 5(xx) (*Strip of Call Spreads*) är specificerat som tillämpligt i de relevanta Slutliga Villkoren, är Räntebeloppet för den relevanta Ränteperioden lika med produkten av Beräkningsbeloppet och det högre av:

- (a) Lägsta Korgavkastningen; och
- (b) det lägre av (i) Kupongen och (ii) Korgavkastningen (Ränta).

"**Korgavkastningen (Ränta)**" kommer vara summan av den Viktade Tillgångsavkastningen (Ränta) för varje Referenstillgång (Ränta) i Korgen.

**"Viktade Tillgångsavkastningen (Ränta)"** är genomsnittet av Referenstillgångsavkastningen (Ränta) multiplicerat med den tillämpliga Korgandelen (Ränta) för den relevanta Referenstillgången på varje Räntebestämningsdag.

**"Referenstillgångsavkastningen (Ränta)"** kommer vara resultatet som fås genom att dela Slutkursen för den relevanta Referenstillgången (Ränta) på den tillämpliga Räntebestämningsdagen med Startkursen och subtrahera Lösenprisnivån.

(yy) **Allmänna Villkor rörande ränta**

Om en Räntesats av någon anledning inte kan fastställas, vare sig det beror på en oförmåga att värdera någon specifik Referenstillgång eller en händelse som refereras till i första stycket av Villkor 22 (*Ansvarsbegränsning etc.*) eller beror på vilket som helst annat skäl, så ska ränta fortsätta att upplupas på Lånen till den räntesats som är tillämplig för den dåvarande Ränteperioden. Administrerande Institut (eller i tillämpliga fall Beräkningsagenten) skall, så snart den relevanta händelsen har upphört, beräkna den nya Räntesatsen som ska tillämpas från den andra Bankdagen efter det datum beräkningen gjordes tills den aktuella Ränteperioden utlöper.

Emittenten har rätt att utse en annan person, fysisk eller juridisk, för att utföra beräkningar i enlighet med dessa Villkor (**"Beräkningsagenten"**). Namnet på sådan Beräkningsagent ska specificeras i de tillämpliga Slutliga Villkoren.

Om Emittenten enligt eget gottfinnande beslutar att räntan som faktiskt betalats till Fordringshavarna vid någon Räntebetalningsdag översteg beloppet på hur mycket ränta skulle betalas till Fordringshavarna, vid en sådan Räntebetalningsdag, såsom beräknats i enlighet med Villkor 5 (sådan belopp är en **"Överbetalning"**), så kan Emittenten reducera det belopp som ska betalas vid vilken som helst Räntebetalningsdag för att kompensera Emittenten för en sådan Överbetalning. Beloppet för ränta som ska dras av vid någon Räntebetalningsdag ska inte överstiga summan av alla Överbetalningar med avseende på de relevanta Lånen, minus alla eventuella tidigare avdrag i enlighet med Villkor 5(yy). Emittenten ska meddela Låneinnehavare om eventuell reduktion av den räntesumma som är planlagd att betalas på en Räntebetalningsdag, och anledningarna därtill, åtminstone 2 Bankdagar före Räntebetalningsdagen. Sådan meddelande ska ges till Låneinnehavare i enlighet med bestämmelserna i Villkor 16 (*Meddelanden*).

6. **Återbetalning och köp**

(a) **Återbetalning på Återbetalningsdagen**

Emittenten ska lösa in Lånen till deras Återbetalningsbelopp på Återbetalningsdagen specificerad i de Slutliga Villkoren. Återbetalningsbeloppet fastställs i enlighet med en eller flera av resultatstrukturerna specificerad nedan (alltid föremål för Villkor 6(c) (*Lägst Återbetalning*) eller 6(d) (*Inflationsskyddat Kapitalbelopp*), om tillämpligt, och de Slutliga Villkoren specificerar vilken av de följande resultatstrukturerna är tillämplig på varje Serie. Om Räntebeloppet som ska betalas på Återbetalningsdagen är ett negativt belopp, ska det dras av från Återbetalningsbeloppet som bestäms i enlighet med detta Villkor 6(a) (*Återbetalning på Återbetalningsdagen*), med iakttagande av att Återbetalningsbeloppet aldrig skavara lägre än noll.

Om resultatstrukturen specificerad i de Slutliga Villkoren är:

(i) **"Par" struktur**

kommer Återbetalningsbeloppet att vara lika med Lånens Kapitalbelopp.

(ii) **"Basket Long" struktur**

kommer Återbetalningsbeloppet att vara lika med Lånens Kapitalbelopp och en ytterligare summa beräknad genom att multiplicera Lånens Kapitalbelopp med: (x) Korgavkastningen och (y) Deltagandegraden.

**"Korgavkastningen"** är summan av den Viktade Tillgångsavkastningen för varje Referenstillgång i Korgen, **under förutsättning att**, om "Korggolv" är specificerat som

tillämpligt i de relevanta Slutliga Villkoren, ska Korgavkastningen vara det högre av a) den Lägsta Korgavkastningen, och b) summan av den Viktade Tillgångsavkastningen för varje Referenstillgång i Korgen.

Den "**Viktade Tillgångsavkastningen**" är Referenstillgångsavkastningen multiplicerad med det tillämpliga Korgandelen.

"**Referenstillgångsavkastningen**" är resultatet som erhålls genom division av Slutkursen för varje Referenstillgång med Startkursen och subtraktion av Lösenprisnivån.

(iii) *"Basket Short" struktur*

Återbetalningsbeloppet kommer att vara summan av Lånens Kapitalbelopp och en ytterligare summa beräknad genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och med Korgavkastningen.

"**Korgavkastning**" är summan av den Viktade Tillgångsavkastningen för varje Referenstillgång i Korgen.

Den "**Viktade Tillgångsavkastningen**" är Referenstillgångsavkastningen multiplicerad med det tillämpliga Korgandelen.

"**Referenstillgångsavkastningen**" kommer att fastställas genom att subtrahera från Startkursen och resultatet som erhållits genom att dividera Slutkursen för varje Referenstillgång med Startkursen.

(iv) *"Barriär Outperformance" struktur*

om Korgavkastningen (fastställd i enlighet med Villkor 6(a)(ii) ("*Basket Long*" struktur) eller Villkor 6(a)(iii) ("*Basket Short*" struktur)), såsom specificerat i de Slutliga Villkoren, på någon Värderingsdag överstiger Barriärnivån, kommer Återbetalningsbeloppet att vara den Maximala Korgavkastningen. Om Korgavkastningen inte överstiger Barriärnivån på någon Värderingsdag, kommer Återbetalningsbeloppet att vara Lånens Kapitalbelopp.

(v) *"Barriär Underperformance" struktur*

om Korgavkastningen (fastställd i enlighet med Villkor 6(a)(ii) ("*Basket Long*" struktur) eller Villkor 6(a)(iii) ("*Basket Short*" struktur)), såsom specificerat i de Slutliga Villkoren, på någon Värderingsdag faller under Barriärnivån, kommer Återbetalningsbeloppet att vara den Maximala Korgavkastningen. Om Korgavkastningen inte faller under Barriärnivån på någon Värderingsdag, kommer Återbetalningsbeloppet att vara Lånens Kapitalbelopp.

(vi) *"Best of/Worst of Barriär Outperformance" struktur*

om Referenstillgångsavkastningen av den Nth bäst presterande Referenstillgången (såsom fastställt i enlighet med Villkor 6(a)(ii) ("*Basket Long*" struktur) eller Villkor 6(a)(iii) ("*Basket Short*" struktur)), såsom specificerat i de Slutliga Villkoren, på någon Värderingsdag överstiger Barriärnivån, kommer Återbetalningsbeloppet att vara den Maximala Korgavkastningen. Om Referenstillgångsavkastningen av den Nth bäst presterande Referenstillgången inte överstiger Barriärnivån på någon Värderingsdag, kommer Återbetalningsbeloppet att vara Lånens Kapitalbelopp.

Den "Nth bäst presterande" Referenstillgången ska vara den Referenstillgång med de Nth högsta Referenstillgångsavkastningen, där "N" ska vara värdet som specificeras i de Slutliga Villkoren.

(vii) *"Best of/Worst of Barriär Underperformance" struktur*

om Referenstillgångsavkastningen av den Nth bäst presterande Referenstillgången (såsom fastställt i enlighet med Villkor 6(a)(ii) ("*Basket Long*" struktur) eller Villkor 6(a)(iii) ("*Basket Short*" struktur)), såsom specificerat i de Slutliga Villkoren, på någon

Värderingsdag faller under Barriärnivån, kommer Återbetalningsbeloppet att vara den Maximala Korgavkastningen. Om Referenstillgångsavkastningen av den Nth bäst presterande Referenstillgången inte faller under Barriärnivån på någon Värderingsdag, kommer Återbetalningsbeloppet att vara Lånens Kapitalbelopp.

Den "Nth bäst presterande" Referenstillgången ska vara den Referenstillgång med de Nth högsta Referenstillgångsavkastningen, där "N" ska vara värdet som specificeras i de Slutliga Villkoren.

(viii) *"Max" struktur*

Återbetalningsbeloppet är det lägre av: a) Återbetalningsbeloppet fastställt i enlighet med en eller flera av de andra värdeutvecklingsstrukturerna specificerade i detta Villkor 6(a) (*Återbetalning på Återbetalningsdagen*) och b) det Maximala Återbetalningsbeloppet.

(ix) *"Autocallstruktur Long"*

Om Lånen inte varit föremål för förtida återbetalning i enlighet med Villkor 6(j) (*Förtida Återbetalning av Lån med Värdeutvecklingsstrukturen Autocall*), kommer Återbetalningsbeloppet att beräknas såsom följer:

- (A) Om Korgavkastningen på den slutliga Värderingsdagen är lika med eller under slutliga Barriärnivån minus Korgens Startkurs, kommer Återbetalningsbeloppet att vara summan av Lånens Kapitalbelopp och en ytterligare summa beräknad genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och Korgavkastningen;
- (B) Om Korgavkastningen på den slutliga Värderingsdagen är vid eller högre än slutliga Barriärnivån minus Korgens Startkurs, kommer Återbetalningsbeloppet att vara summan av Lånens Kapitalbelopp och en ytterligare summa som är lika med det högsta av a) Korgavkastningen multiplicerad med Deltagandegraden 2 eller b) den Lägsta Korgavkastningen;. eller
- (C) Till undvikande av tvivel kan en Kupong (om någon) vara betalbar i enlighet med Villkor 5(g) (*Kupongbärande Autocalllån*);

**"Korgavkastningen"** beräknas på samma sätt som för "Basket Long" strukturen framställd i Villkor 6(a)(ii).

För beräkning av Korgavkastningen, ska **"Referenstillgångsavkastning"** vara resultatet som erhålls genom division av Slutkursen för varje Referenstillgång med Startkursen, och subtraktion av Startkursen.

(x) *"Autocallstruktur – Short"*

Om Lånen inte varit föremål för förtida återbetalning i enlighet med Villkor 6(j) (*Förtida Återbetalning av Lån med Värdeutvecklingsstrukturen Autocall*), så kommer Återbetalningsbeloppet att beräknas på samma sätt som Autocallstrukturen – Long beskriven i Villkor 6(a)(ix) (*Autocallstruktur Long*) ovan, förutom att definitionen av **"Referenstillgångsavkastning"** ska vara som följer:

**"Referenstillgångsavkastning"** ska fastställas genom att subtrahera från Startkursen resultatet som erhålls genom att dividera Slutkursen för den relevanta Referenstillgången med Startkursen och uttryckt som en procentsats.

(xi) *"Best of/Worst of Autocall" struktur*

Om Lånen inte har varit föremål för förtida återbetalning i enlighet med Villkor 6(k) (*Förtida Återbetalning av Lån med Värdeutvecklingsstrukturen Best of/Worst of Autocall*), så ska Återbetalningsbeloppet vara såsom följer:

- (A) Om Slutkursen för den Nth bäst presterande Referenstillgången på den slutliga Värderingsdagen delad med Startkursen för den Nth bäst presterande

Referenstillgången är lika med eller högre än den slutliga Barriärnivån, ska summan av Lånens Kapitalbelopp och ett ytterligare belopp beräknad genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och det högsta av a) Korgavkastningen och b) noll.

- (B) Om Slutkursen för den Nth bäst presterande Referenstillgången på den slutliga Värderingsdagen delad med Startkursen för den Nth bäst presterande Referenstillgången är lägre än den slutliga Barriärnivån, ska summan av Lånens Kapitalbelopp och ett ytterligare belopp beräknad genom att multiplicera Lånens Kapitalbelopp med Deltagandegrad 2 och Referenstillgångsavkastningen av den Nth bäst presterande Referenstillgången.

För detta Villkor 6(a)(xi), ska den "Nth bäst presterande" Referenstillgången vara den Referenstillgång med den Nth bästa Referenstillgångsavkastningen, där "N" ska vara värdet specificerat i de Slutliga Villkoren.

**"Referenstillgångsavkastningen"** ska vara det resultat som nås genom att dela Slutkursen för den relevanta Referenstillgången med Startkursen och subtrahera Lösenprisnivån.

- (xii) *"Replacement Basket" struktur*

Återbetalningsbeloppet kommer att vara summan av Lånens Kapitalbelopp beräknad genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och Korgavkastningen.

**"Korgavkastning"** är summan av den Viktade Tillgångsavkastningen för varje Referenstillgång i Korgen.

Den **"Viktade Tillgångsavkastningen"** är Referenstillgångsavkastningen multiplicerad med den tillämpliga Korgandelen, *förutsatt att* Referenstillgångsavkastningen av de Nth bäst presterande Referenstillgångarna kommer att ersättas med Ersättningsfaktorn i syfte att fastställa den Viktade Referensavkastningen av de relevanta Referenstillgångarna.

De **"N bäst presterande Referenstillgångarna"** kommer att vara antalet "N" av Referenstillgångar (såsom specificerat i de Slutliga Villkoren) med den högsta Referenstillgångsavkastningen.

**"Referenstillgångsavkastningen"** är resultatet som erhålls genom division av Slutkursen för varje Referenstillgång med Startkursen och subtraktion av Lösenprisnivån.

- (xiii) *"Locally Capped Basket" struktur*

Återbetalningsbeloppet kommer att vara summan av Lånens Kapitalbelopp och en ytterligare summa beräknad genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och med Korgavkastningen.

**"Korgavkastning"** är summan av den Viktade Tillgångsavkastningen för varje Referenstillgång i Korgen.

Den **"Viktade Tillgångsavkastningen"** är den lägre av: (i) Referenstillgångsavkastningen och (ii) den Maximala Värdeutvecklingen, i bägge fall multiplicerad med den tillämpliga Korgandelen.

**"Referenstillgångsavkastningen"** är resultatet som erhålls genom division av Slutkursen för varje Referenstillgång med Startkursen och subtraktion av Lösenprisnivån.

- (xiv) *"Rainbow Basket" struktur*

Återbetalningsbeloppet kommer att vara summan av Lånens Kapitalbelopp och en ytterligare summa beräknad genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och med Korgavkastningen.

**"Korgavkastning"** är summan av den Viktade Tillgångsavkastningen för varje Referenstillgång i Korgen.

Den **"Viktade Tillgångsavkastningen"** är Referenstillgångsavkastningen multiplicerad i bägge fall med den tillämpliga Korgandelen.

**"Referenstillgångsavkastningen"** är resultatet som erhålls genom division av Slutkursen för varje Referenstillgång med Startkursen och subtraktion av Startkursen.

**"Korgandelen"** kommer att fastställas på basis av Rainbow Basketandelen.

(xv) *"Booster Short" struktur*

Om Korgavkastningen är positiv, kommer Återbetalningsbeloppet att vara summan av Lånens Kapitalbelopp och en ytterligare summa beräknad genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och med Korgavkastningen.

Om Korgavkastningen är negativ, kommer Återbetalningsbeloppet vara summan av Lånens Kapitalbelopp och ett ytterligare belopp som beräknas genom att multiplicera Lånens Kapitalbelopp med Deltagandegrad 2 och Korgavkastningen (vilket kommer resultera i ett Återbetalningsbelopp som är lägre än Lånens Kapitalbelopp).

**"Korgavkastningen"** beräknas på samma sätt som för "Basket Short" strukturen i Villkor 6(a)(iii) (*"Basket Short" struktur*).

I syfte att beräkna Korgavkastningen, ska **"Referenstillgångsavkastning"** vara resultatet som erhålls genom att subtrahera från Startkursen resultatet som erhålls genom att dividera Slutkursen för varje Referenstillgång med Startkursen.

(xvi) *"Booster Long" struktur*

Om Korgavkastningen är positiv, kommer Återbetalningsbeloppet att vara summan av Lånens Kapitalbelopp och en ytterligare summa beräknad genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och med Korgavkastningen.

Om Korgavkastningen är negativ, kommer Återbetalningsbeloppet att vara summan av Lånens Kapitalbelopp och en ytterligare summa beräknad genom att multiplicera Lånens Kapitalbelopp med Deltagandegrad 2 och med Korgavkastningen (vilket kommer resultera i ett Återbetalningsbelopp som är lägre än Lånens Kapitalbelopp).

**"Korgavkastningen"** beräknas på samma sätt som för "Basket Long" strukturen framställd i Villkor 6(a)(ii) (*"Basket Long" struktur*).

(xvii) *"Booster Riskbarriär Short" struktur*

Om summan av Korgavkastningen och 1 är lika med eller högre än den Initiala Barriärnivån på den slutliga Värderingsdagen, kommer Återbetalningsbeloppet vara summan av Lånens Kapitalbelopp och ett ytterligare belopp som beräknas genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och Korgavkastningen.

Om summan av Korgavkastningen och 1 är lika med eller högre än Barriärnivån på alla Värderingsdagar men under Korgs Startvärde på den slutliga Värderingsdagen, kommer Återbetalningsbeloppet att vara Lånens Kapitalbelopp.

Om summan av Korgavkastningen och 1 är under Barriärnivån vid någon Värderingsdag och under den Korg Startvärde på den slutliga Värderingsdagen, blir Återbetalningsbeloppet summan av Lånens Kapitalbelopp och ett ytterligare belopp som beräknas genom att multiplicera Lånens Kapitalbelopp med Deltagandegrad 2 och Korgavkastningen (vilket kommer resultera i ett Återbetalningsbelopp som är lägre än Lånens Kapitalbelopp).

**"Korgavkastningen"** beräknas på samma sätt som för "Basket Short" strukturen i Villkor 6(a)(iii) (*"Basket Short" struktur*).

(xviii) *"Booster Risk Barriär Long" struktur*

Om summan av Korgavkastningen och 1 är lika med eller högre än Korgs Startvärde på den slutliga Värderingsdagen, kommer Återbetalningsbeloppet att vara summan av Lånens Kapitalbelopp och en ytterligare summa beräknad genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och med Korgavkastningen.

Om summan av Korgavkastningen och 1 är lika med eller högre än Barriärnivån vid alla Värderingsdagar men under Korgs Startvärde på den slutliga Värderingsdagen, kommer Återbetalningsbeloppet att vara Lånens Kapitalbelopp.

Om summan av Korgavkastningen och 1 är under Barriärnivån vid någon Värderingsdag och under Korgs Startvärde på den slutliga Värderingsdagen, blir Återbetalningsbeloppet summan av Lånens Kapitalbelopp och ett tillkommande belopp som beräknas genom att multiplicera Lånens Kapitalbelopp med Deltagandegrad 2 och Korgavkastningen vilket kommer resultera i ett Återbetalningsbelopp som är lägre än Lånens Kapitalbelopp).

**"Korgavkastningen"** kommer att beräknas på samma sätt som för den "Basket Long"-struktur angiven i Villkor 6(a)(ii) (*"Basket Long" struktur*).

För beräkning av Korgavkastningen, ska **"Referenstillgångsavkastning"** vara resultatet som erhålls genom division av Slutkursen för varje Referenstillgång med Startkursen, och subtraktion av Startkursen.

(xix) *"Bonus Booster Short" struktur*

Om summan Korgavkastningen och 1 är lika med eller högre än Barriärnivån vid någon Värderingsdag och under Korg Startvärde på den slutliga Värderingsdagen, blir Återbetalningsbeloppet summan av Lånens Kapitalbelopp och ett tillkommande belopp som beräknas genom att multiplicera Lånens Kapitalbelopp med Deltagandegrad och med Korgavkastningen.

Om summan av Korgavkastningen och 1 är under Barriärnivån vid någon Värderingsdag och under Korgs Startvärde på den slutliga Värderingsdagen, blir Återbetalningsbeloppet summan av Lånens Kapitalbelopp och ett ytterligare belopp som beräknas genom att multiplicera Lånens Kapitalbelopp med Deltagandegrad 2 och Korgavkastningen (vilket kommer resultera i ett Återbetalningsbelopp som är lägre än Lånens Kapitalbelopp).

Om summan av Korgavkastningen och 1 aldrig är under Barriärnivån vid någon Värderingsdag, blir Återbetalningsbeloppet summan av Lånens Kapitalbelopp och ett tillkommande belopp lika med det högre av:

- (A) Kupongen; och
- (B) det beräknade beloppet genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och med Korgavkastningen.

**"Basket Return"** kommer att beräknas på samma sätt som för den "Basket Short"-struktur angiven i Villkor 6(a)(iii) (*"Basket Short" struktur*).

För syftet att beräkna Korgavkastningen, ska **"Referenstillgångsavkastning"** vara resultatet som erhålls genom att subtrahera från Startkursen resultatet som erhålls genom att dividera Slutkursen för varje Referenstillgång med Startkursen.

(xx) *"Bonus Booster Long" struktur*

Om summan av Korgavkastningen och 1 är lika med eller högre än Korgs Startvärde på den slutliga Värderingsdagen, kommer Återbetalningsbeloppet att vara summan av Lånens Kapitalbelopp och en ytterligare summa beräknad genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och med Korgavkastningen.

Om summan av Korgavkastningen och 1 är under Barriärnivån vid någon Värderingsdag och under Korgs Startvärde på den slutliga Värderingsdagen, blir Återbetalningsbeloppet summan av Lånens Kapitalbelopp och ett tillkommande belopp som beräknas genom att

multiplitera Lånens Kapitalbelopp med Deltagandegrad 2 och Korgavkastningen (vilket kommer resultera i ett Återbetalningsbelopp som är lägre än Lånens Kapitalbelopp).

Om summan av Korgavkastningen och 1 aldrig är under Barriärnivån vid någon Värderingsdag, blir Återbetalningsbeloppet summan av Lånens Kapitalbelopp och ett tillkommande belopp som är lika med det högre av:

- (A) Kupongen; och
- (B) det beräknade beloppet genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och med Korgavkastningen.

**"Korgavkastningen"** kommer att beräknas på samma sätt som för den "Basket Long"-struktur angiven i Villkor 6(a)(ii) ("*Basket Long*" struktur).

I syfte att beräkna Korgavkastningen, kommer "Referenstillgångsavkastningen" att vara det resultat som erhålles genom att dividera det Slutkursen för varje Referenstillgång med Startkursen, och subtrahera Startkursen.

(xxi) "*Periodsumme*" struktur

Återbetalningsbeloppet kommer att vara summan av Lånens Kapitalbelopp och ett belopp som beräknas genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och det högsta av:

- (i) den Slutliga Lock-In-Nivån;
- (ii) Periodsumme-Avkastningen; och
- (iii) det Globala Golvet.

Den "**Slutliga Lock-In-Nivån**" innebär den högsta Lock-In-Nivå som nås eller överskrids av den sammantagna Korgavkastningen vid någon Värderingsdag.

**"Lock-In-Nivån"** innebär varje nivå som specificeras som sådan i de tillämpliga Slutliga Villkoren.

**"Periodsumme-Avkastningen"** innebär det lägre av:

- (i) det Globala Taket; och
- (ii) den Justerade Kupongen.

Den "**Justerade Kupongen**" innebär den Initiala Kupongen plus den sammantagna Korgavkastningen vid den senaste Värderingsdagen.

Det "**Globala Taket**" innebär det värde som specificerats i de tillämpliga Slutliga Villkoren. Om det Globala Taket är specificerat som inte tillämpligt i Slutliga Villkoren, ska det Globala Taket tillskrivas ett noterat oändligt värde i syfte att beräkna Återbetalningsbeloppet.

Det "**Globala Golvet**" innebär det värde som specificerats i de tillämpliga Slutliga Villkoren. Om det Globala Golvet har specificerats som inte tillämpligt i de Slutliga Villkoren, ska det Globala Golvet tillskrivas ett noterat värde på noll, i syfte att beräkna Återbetalningsbeloppet.

Den "**Initiala Kupongen**" innebär det värde som specificerats i de tillämpliga Slutliga Villkoren.

Den "**Sammantagna Korgavkastningen**" för varje Värderingsperiod (den "**Relevanta Värderingsperioden**") kommer att vara summan av de Justerade Periodiska Korgavkastningarna för varje Värderingsperiod fram till och inkluderande den relevanta Värderingsperioden.

Den "**Justerade Periodiska Korgavkastningen**" för varje tillämpbar Värderingsperiod kommer att vara det högre av:

- (A) Det Lokala Golvet; och
- (B) det lägre av: (a) det Lokala Taket och (b) den Ojusterade Periodiska Korgavkastningen.

Det "**Lokala Taket**" innebär det värde som specificerats i de tillämpliga Slutliga Villkoren. Om det Lokala Taket är specificerat som inte tillämpligt i de Slutliga Villkoren, ska det Lokala Taket tillskrivas ett noterat oändligt värde i syfte att beräkna Återbetalningsbeloppet.

Det "**Lokala Golvet**" innebär det värde som specificerats i de tillämpliga Slutliga Villkoren. Om det Lokala Golvet är specificerat som inte tillämpligt i de Slutliga Villkoren, ska det lokala golvet tillskrivas ett noterat värde om noll i syfte att beräkna Återbetalningsbeloppet.

Den "**Ojusterade Periodiska Korgavkastningen**" är det resultat som erhålles genom att ta summan av de viktade avkastningarna på tillgångarna vid tillämplig Värderingsdag, och subtrahera summan av de viktade avkastningarna på tillgångarna vid den omedelbart föregående Värderingsdagen, och uttrycka detta resultat som en procentandel av summan av de viktade avkastningarna på tillgångarna vid den omedelbart föregående Värderingsdagen.

Den "**Viktade Tillgångsavkastningen**" är Referenstillgångsavkastningen multiplicerad med den tillämpliga Korgandelen.

"**Referenstillgångsavkastningen**" är resultatet som erhålls genom division av Slutkursen för varje Referenstillgång med Startkursen och subtraktion av Startkursen.

(xxii) "*Omvänd Periodsumme*" struktur

Avkastningsbeloppet kommer att beräknas på samma sätt som för den "*Periodsumme*"-struktur som anges i Villkor 6(a)(xxi), med reservation för att definitionen av "Justerad Kupong" ska lyda som följer:

Den "**Justerade Kupongen**" innebär den Initiala Kupongen minus den sammantagna Korgavkastningen vid den allra senast inträffade Värderingsdagen

(xxiii) "*Ersättande periodsumme*" -struktur

Återbetalningsbeloppet kommer att beräknas på samma sätt som för den "*Periodsumme*"-struktur som anges i Villkor 6(a)(xxi), med reservation för att definitionen av "Justerad Periodisk Korgavkastning" ska lyda som följer:

Den "**Justerade Periodiska Korgavkastningen**" för varje tillämpbar Värderingsperiod ska vara den ojusterade periodiska Korgavkastningen, med reservation för att med avseende på Värderingsperioderna med de N högsta ojusterade periodiska Korgavkastningarna, ska den ojusterade periodiska Korgavkastningen ersättas med den relevanta låsta periodiska Korgavkastning som specificerats i de Slutliga Villkoren.

"N" ska ha ett sig tilldelat värde i de tillämpliga Slutliga Villkoren.

"**Låst periodisk Korgavkastning (Fixed Periodic Basket Return)**" ska vara efter vad som specificerats i de tillämpliga Slutliga Villkoren.

(xxiv) "*Omvänd Ersättning Periodsumme*" struktur

Återbetalningsbeloppet kommer att beräknas på samma sätt som för den "*Reverse Periodsumme*"-struktur som anges i Villkor 6(a)(xxii), med reservation för att definitionen av "*justerad periodisk Korgavkastning*" ska lyda som följer:

Den "**justerade periodiska Korgavkastningen**" för varje tillämpbar Värderingsperiod ska vara den ojusterade periodiska Korgavkastningen, med reservation för att med avseende på Värderingsperioderna med de N högsta ojusterade periodiska Korgavkastningarna, ska den ojusterade periodiska Korgavkastningen ersättas med den relevanta låsta periodiska Korgavkastning som specificerats i de Slutliga Villkoren.

"N" ska ha ett sig tilldelat värde i de tillämpliga Slutliga Villkoren.

"**Låst periodisk Korgavkastning**" ska vara så som specificerats i de tillämpliga Slutliga Villkoren

(xxv) *"Rainbow Ersättande periodsumme" -struktur*

Återbetalningsbeloppet kommer att vara summan av Lånens Kapitalbelopp och ett tillkommande belopp som beräknas genom att multiplicera Lånens Kapitalbelopp med Deltagandegrad och det högre av:

- (i) den Lägsta Korgavkastningen; och
- (ii) summan av den Viktade Ersättningen av Periodsummeprestationen för varje Referenstillgång i Korgen.

Den "**Viktade Ersättningen av Periodsummeprestationen**" kommer att vara Periodsummeersättningsprestationen för den relevanta Referenstillgången, multiplicerad med den tillämpliga Korgandelen.

"**Korgandelen**" bestäms baserat på Korgandelen i Periodsumme-ersättningen.

"**Periodsummeersättningsprestationen**" kommer att vara summan av de Justerade Periodiska Referenstillgångarnas Avkastning för den relevanta Referenstillgången i varje Värderingsperiod.

"**Justerade Periodiska Referenstillgångarnas Avkastning**" för varje tillämpbar Värderingsperiod kommer att vara avkastningen från den Periodiska Referenstillgången, med reservation för att med avseende på Värderingsperioderna med de N högsta avkastningarna från den periodiska Referenstillgången ska avkastningen från Referenstillgången ersättas med den relevanta avkastningen från den låsta Referenstillgång som som specificerats i de Slutliga Villkoren.

"N" ska ha det värde som det tilldelats under de tillämpliga Slutliga Villkoren

"**Avkastningen från den Fasta Referenstillgången**" ska vara enligt vad som specificerats under de tillämpliga Slutliga Villkoren.

"**Avkastningen från den Periodiska Referenstillgången**" kommer att vara det resultat (uttryckt som en procentandel) som erhålles genom att dividera det Slutkursen för varje Referenstillgång med startpriset, och subtrahera 100 procent.

"**Startpriset**" kommer att vara Stängningskursen för den relevanta Referenstillgången på Värderingsdagen omedelbart föregående början på applikationens Värderingsperiod.

"**Slutkursen**" kommer att vara Stängningskursen för den relevanta Referenstillgången på Värderingsdagen vid slutet av den tillämpliga Värderingsperioden.

(xxvi) *Omvänd Konvertibel struktur*

Om summan av Korgavkastningen och 1 är lika med eller högre än Korgs Startvärde, kommer Återbetalningsbeloppet att bli lika med Lånens Kapitalbelopp.

Om summan av Korgavkastningen och 1 är under den Korgs Startvärde, kommer Återbetalningsbeloppet att beräknas genom att multiplicera Lånens Kapitalbelopp med en Deltagandegrad och Korgavkastningen, och addera det resulterande negativa beloppet till från Lånens Kapitalbelopp (i vilket fall Återbetalningsbeloppet kommer vara lägre än Lånens Kapitalbelopp).

**"Korgavkastningen"** kommer att beräknas på samma sätt som för "Basket Short"-strukturen som anges i Villkor 6(a)(ii)

(xxvii) *Omvänd Konvertibel Riskbarriärstruktur*

Om summan av Korgavkastningen och 1 är lika med eller högre än Korgs Startvärde på den slutliga Värderingsdagen, kommer Återbetalningsbeloppet att bli lika med Lånens Kapitalbelopp.

Om summan av Korgavkastningen och 1 är under Barriärnivån vid någon Värderingsdag, och på den slutliga Värderingsdagen Korgavkastningen är under den Korgs Startvärde, kommer Återbetalningsbeloppet att beräknas genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och Korgavkastningen, och addera det resulterande negativa beloppet till Lånens Kapitalbelopp (i vilket fall Återbetalningsbeloppet kommer vara lägre än Lånens Kapitalbelopp).

**"Korgavkastningen"** kommer att beräknas på samma sätt som för den "Basket Long"-struktur som anges i Villkor 6(a)(ii).

För syftet att beräkna den Viktade Tillgångsavkastningen (utom för syftet att beräkna Korgavkastningen) ska "Referenstillgångsavkastningen" vara resultatet som nås genom att dela Stängningskursen för varje Referenstillgång med Startkursen och subtrahera Lösenprisnivån.

(xxviii) *"Worst of" Omvänd Konvertibel struktur*

Om summan av den Sämsta Referenstillgångsavkastningen och 1 är lika med eller högre än Barriärnivån, kommer Återbetalningsbeloppet vara lika med Lånens Kapitalbelopp.

Om summan av den Sämsta Referenstillgångsavkastningen och 1 är under den ursprungliga Korgnivån, ska Återbetalningsbeloppet beräknas genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och den Sämsta Referenstillgångsavkastningen och addera det negativa resultatet till Lånens Kapitalbelopp. I detta fall kommer Återbetalningsbeloppet bli lägre än Lånens Kapitalbelopp.

Den **"Sämsta Referenstillgångsavkastningen"** är den Avkastning på Referenstillgången som är lägst.

**"Referenstillgångsavkastningen"** är det resultat som fås genom att dela Slutkursen för varje Referenstillgång med Startkursen och subtrahera Lösenprisnivån.

(xxix) *Up and In Long*

Återbetalningsbeloppet kommer att vara lika med summan av Lånens Kapitalbelopp och ett tillkommande belopp, som beräknas genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden, Knock-In-Faktorn och det högre av:

- (A) noll, och
- (B) Korgavkastningen.

**"Knock-In-Faktorn"** innebär:

- (A) ett värde lika med 1 om summan av Korgavkastningen och 1 vid någon Värderingsdag är på eller över Barriärnivån,
- (B) ett värde lika med noll om summan av Korgavkastningen och 1 inte är på eller över Barriärnivån vid någon Värderingsdag.

**"Korgavkastningen"** kommer att beräknas på samma sätt som för "Basket Long"-strukturen som anges i Villkor 6(a)(ii).

(xxx) *Up and Out Long*

Återbetalningsbeloppet kommer att vara lika med summan av Lånens Kapitalbelopp och ett tillkommande belopp, som beräknas genom att multiplicera Lånens Kapitalbelopp och det högsta av:

- (A) noll;
- (B) summan av att multiplicera Rabatten och Knock-Out-Faktorn; och
- (C) resultatet av att multiplicera Deltagandegraden, Knock-Out-Differentialen och Korgavkastningen, och Knock-Out-Faktorn.

**"Knock-Out-Faktorn"** innebär:

- (A) ett värde lika med 1 om summan av Korgavkastningen och 1 på någon Värderingsdag är över Barriärnivån;
- (B) ett värde lika med noll om summan av Korgavkastningen och 1 inte är över Barriärnivån på någon Värderingsdag.

**"Rabatten"** syftar till det värde som anges i de Slutliga Villkoren

**"Knock-Out-Differentialen"** syftar till skillnaden mellan 1 och Utslagsfaktorn.

**"Korgavkastningen"** kommer att beräknas på samma sätt som för "Basket Long"-strukturen som anges i Villkor 6(a)(ii).

(xxxi) *Worst of Down and Out Basket Long*

Återbetalningsbeloppet kommer att vara lika med summan av Lånens Kapitalbelopp och ett tillkommande belopp, som beräknas genom att multiplicera Lånens Kapitalbelopp med det högsta av:

- (A) noll, och
- (B) resultatet av att multiplicera Rabatten och Knock-Out-Faktorn, och
- (C) resultatet av att multiplicera Deltagandegraden, Knock-Out-Differentialen och Korgavkastningen.

**"Knock-Out-Faktorn"** innebär:

- (A) ett värde lika med 1 om summan av den Lägsta Värdeutvecklingen och 1 vid någon Värderingsdag är lägre än eller lika med Barriärnivån,
- (B) ett värde lika med noll om summan av den Lägsta Värdeutvecklingen och 1 är högre än Barriärnivån vid någon Värderingsdag.

**"Knock-Out-Differentialen"** syftar till skillnaden mellan 1 och Knock-Out-Faktorn.

**"Lägsta Värdeutvecklingen"** syftar till den Lägsta Värdeutvecklingen för en Underliggande tillgång bland alla Referenstillgångar inom Korgen.

**"Utfall för Referenstillgång"** syftar till kvoten av:

- (A) Stängningskursen för den relevanta Referenstillgången på den tillämpliga Värderingsdagen, i enlighet med de Slutliga Villkoren, genom
- (B) medelvärdet av Stängningskurserna för den relevanta Referenstillgången för varje Inledande Värderingsdag.

**"Rabatten"** betyder det värde som specificeras i de tillämpliga Slutliga Villkoren.

**"Korgavkastningen"** kommer att beräknas på samma sätt som för "Basket Long"-strukturen som anges i Villkor 6(a)(ii).

(xxxii) *Down and Out Basket Long*

Återbetalningsbeloppet kommer vara lika med summan av Lånens Kapitalbelopp och ett ytterligare belopp som beräknas genom att multiplicera Lånens Kapitalbelopp med det högsta av:

- (A) noll;
- (B) resultatet av att multiplicera Rabatten och Knock-Out-Faktorn; och
- (C) resultatet av att multiplicera Deltagandegraden, Knock-Out-Differentialen och Korgavkastningen.

**"Knock-Out-Faktorn"** innebär:

- (A) ett värde lika med 1 om summan av Korgavkastningen och 1 på någon Värderingsdag är lägre än eller lika med Barriärnivån;
- (B) ett värde lika med noll om summan av Korgavkastningen och 1 är högre än Barriärnivån på någon Värderingsdag.

**"Rabatten"** betyder det värde som specificeras i de tillämpla Slutliga Villkoren.

**"Knock-Out-Differentialen"** syftar till skillnaden mellan 1 och Knock-Out-Faktorn.

**"Korgavkastningen"** kommer att beräknas på samma sätt som för "Basket Long"-strukturen som anges i Villkor 6(a)(ii) ("*Basket Long*" struktur).

(xxxiii) *Worst of Digital Memory Coupon 1*

Återbetalningsbeloppet kommer vara lika med summan av Lånens Nominella belopp och ett extrabelopp som beräknas genom att multiplicera Lånens Nominella belopp med Deltagandegraden, och det högre av: (i) noll och (ii) Kupongnivån.

**"Kupongnivå"** syftar, med hänsyn till alla Värderingsdagar, till det högre av: (i) Kupongnivån vid den direkt föregående Värderingsdagen (eller Initiala Kupongen, avseende Startdagen) (ii) och produkten av N, Kupongbarriärnivån och den Kupongen.

**"N"** kommer vara antalet Värderingsdagar, i enlighet med det angivna i de Slutliga Villkoren.

**"Kupongbarriärnivån"** kommer vara 1 om den Referenstillgångens avkastning (i enlighet med det angivna i Villkor 6(a)(ii) ("*Basket Long*" struktur) för varje Referenstillgång inom Korgen är högre än, eller lika med, Startkursen vid varje Värderingsdag, annars är det lika med noll.

(xxxiv) *Worst of Call Option*

Återbetalningsbeloppet kommer vara lika med summan av Lånens Nominella belopp och ett extrabelopp som beräknas genom att multiplicera Lånens Nominella belopp med Deltagandegraden, och det högre av: (i) den Lägsta Värdeutvecklingen och (ii) noll.

**"Lägsta Värdeutvecklingen"** betyder den lägsta Referenstillgångsvärdeutvecklingen för alla Referenstillgångar i Korgen.

**"Referenstillgångsvärdeutvecklingen"** betyder resultatet av att dela:

- (A) stängningskursen för den relevanta Referenstillgången på den tillämpliga Värderingsdagen, såsom specificerat i de Slutliga Villkoren, genom

- (B) genomsnittet av Stängningspriset för den relevanta Referenstillgången på varje Startdag,

och dra av Lösenprisnivån.

(xxxv) *Outperformance Option*

Återbetalningsbeloppet kommer vara lika med summan av Lånens Kapitalbelopp och ett extrabelopp som beräknas genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden, och det högre av:

- (A) noll, och
- (B) det lägre av:
- (1) den Högsta Utbetalningen, och
  - (2) Värdeutvecklingsdifferensen

Den "**Högsta Utbetalningen**" kommer vara värdet som angivits i de tillämpbara Slutliga Villkoren

"**Värdeutvecklingsdifferensen**" kommer att beräknas genom att subtrahera den Värdeutveckling Short från den Värdeutveckling Long.

"**Värdeutveckling Long**" kommer beräknas på samma sätt som "Korgavkastning" för strukturen "Basket Long" som anges i Villkor 6(a)(ii) ("*Basket Long*" struktur); och

"**Värdeutveckling Short**" kommer beräknas på samma sätt som "Korgavkastning" för strukturen "Basket Short" som anges i Villkor 6(a)(iii) ("*Basket Short*" struktur).

De Referenstillgångar som används i syfte att beräkna det Longa och Värdeutveckling Short respektive kommer att grupperas i två separata Korgar ("**Korg Long**" och "**Korg Short**" respektive, och en "**Korg**"), i enlighet med de tillämpbara Slutliga Villkoren. Referenser till "**Korg**" i Villkor 6(a)(ii) ska tolkas som referenser till Korg Long, och referenser till "**Korg**" i Villkor 6(a)(iii) ska tolkas som referenser till Korg Short för tillämpningen av detta Villkor 6(a)(xxxv).

(xxxvi) *Non-tranched CLN struktur*

Återbetalningsbeloppet kommer vara lika med Lånens Kapitalbelopp multiplicerat med summan av:

- (A) 1 minus Portföljexponeringen, och
- (B) produkten av Portföljexponeringen, Eftersträvat Återbetalningsbelopp och Portföljavkastningen.

"**Portföljavkastningen**" syftar till skillnaden mellan 1 och Portföljens förluster.

"**Portföljens förluster**" syftar till summan av den vägda avkastningen på tillgång för varje Referensenhet inom Korgen.

"**Viktad Tillgångsförlust**" syftar till produkten av Korgandelen och Referensenhets förlust för relevant Referensenhet.

"**Referensenhetsförlust**" kommer bestämmas av differensen mellan Återvinningsvärdet med hänsyn till den relevanta Referensenheten och 1.

"**Återvinningsvärde**" kommer vara 100 procent. Om en Kredithändelse (i enlighet med angivna i Del 3: *Kompletterande Villkor för Kreditlån*) inte har inträffat med hänsyn till den Referensenheten under perioden som börjar på Inledande Observationsdag och som avslutas på Slutlig Observationsdag, eller om sådan Kredithändelse har inträffat,

kommer det antingen vara ett Fast Återbetalningsbelopp eller ett Marknadsmässigt Återvinningsbelopp, i enlighet med det angivna i de tillämpbara Slutliga Villkoren.

(xxxvii) *Tranched CLN struktur*

Återbetalningsbeloppet kommer vara lika med Lånens Kapitalbelopp multiplicerat med summan av:

- (A) 1 minus Portföljexponeringen, och
- (B) produkten av Portföljexponeringen, Eftersträvat Återbetalningsbelopp och Portföljavkastningen.

**"Portföljavkastningen"** syftar till differensen mellan den Justerade Tranchförlusten och 1.

**"Justerad Tranchförlust"** syftar till kvoten av det lägre av a) Tranchens fastställda värde och b) Tranchens förlust, genom Tranchens fastställda värde.

**"Tranchförlust"** syftar till det högre av:

- (A) noll och
- (B) differensen mellan Tranchens fastställda värde och summan av den vägd tillgångsförlusten för varje Referensenhet inom Korgen.

**"Vägd tillgångsförlust"** syftar till produkten av Korgandelen och Förlusten för relevant Referensenhet.

**"Förlust för Referenstillgång"** kommer bli differens mellan Återvinningsvärde med hänsyn till den relevanta Referensenheten och 1.

**"Återvinningsvärde"** kommer vara 100 procent. Om en Kredithändelse (i enlighet med angivna i Del 3: *Kompletterande Villkor för Kreditlån*) inte har inträffat med hänsyn till den Referensenheten under perioden som börjar på Inledande Observationsdag och som avslutas på Slutlig Observationsdag, eller om sådan Kredithändelse har inträffat, kommer det antingen vara ett Fast Återbetalningsbelopp eller ett Marknadsmässigt Återvinningsbelopp, i enlighet med det angivna i de tillämpbara Slutliga Villkoren.

(xxxviii) *Nth to Default CLN struktur*

Återbetalningsbeloppet kommer vara lika med Lånens Kapitalbelopp multiplicerat med summan av:

- (A) 1 minus Portföljexponeringen, och
- (B) produkten av Portföljexponeringen, Eftersträvat Återbetalningsbelopp och Portföljavkastningen.

**"Portföljavkastningen"** syftar till skillnaden mellan 1 och Portföljförluster.

**"Portföljförluster"** syftar till:

- (A) Förlust på Referensenhet för den Nth Referensenheten inom Korgen där en Kredithändelse inträffar, om antalet Kredithändelser som har inträffat med hänsyn till någon Referensenhet inom Korgen under perioden som börjar på Inledande Observationsdag och som avslutas på Slutlig Observationsdag är större än, eller lika med, N, eller
- (B) om antalet Kredithändelser som har inträffat med hänsyn till någon Referensenhet inom Korgen under perioden som börjar på Inledande Observationsdag och som avslutas på Slutlig Observationsdag är lägre än N, noll.

"N" ska vara det tal som specificerats i de Slutliga Villkoren.

**"Förlust på Referensenhet"** kommer att vara differensen mellan 1 och Återvinningsvärdet med hänsyn till den relevanta Referensenheten.

**"Återvinningsvärde"** kommer vara 100 procent. Om en Kredithändelse (i enlighet med angivna i Del 3: *Kompletterande Villkor för Kreditlån*) inte har inträffat med hänsyn till den Referensenheten under perioden som börjar på Inledande Observationsdag och som avslutas på Slutlig Observationsdag, eller om sådan Kredithändelse har inträffat, kommer det antingen vara ett Fast Återbetalningsbelopp eller ett Marknadsmässigt Återvinningsbelopp, i enlighet med det angivna i de tillämplbara Slutliga Villkoren.

(xxxix) *Nth och Nth+1 Default CLN struktur*

Återbetalningsbeloppet kommer vara lika med Lånens Kapitalbelopp multiplicerat med summan av:

- (A) 1 minus Portföljexponeringen, och
- (B) produkten av Portföljexponeringen, Eftersträvat Återbetalningsbelopp och Portföljavkastningen.

**"Portföljavkastning"** syftar till differensen mellan Portföljförlusten och 1.

**"Portföljförlust"** syftar till:

- (A) om antalet Kredithändelser som har inträffat med hänsyn till någon Referensenhet inom Korgen under perioden som börjar på Inledande Observationsdag och som avslutas på Slutlig Observationsdag, är större än N kommer summan av de Viktade Tillgångsförlusten för den Nth Referensenheten till dröjsmål och den Nth plus 1 (d.v.s. den omedelbart efterföljande) Referensenheten till dröjsmål inom Korgen, eller
- (B) om antalet Kredithändelser som har inträffat med hänsyn till någon Referensenhet inom Korgen under perioden som börjar på Inledande Observationsdag och som avslutas på Slutlig Observationsdag är lika med N, en summa som är lika med den Viktade Tillgångsförlusten av den Nth Referensenheten avseende vilken en Kredithändelse inträffar;
- (C) noll, om antalet Kredithändelser som har inträffat med hänsyn till någon Referensenhet inom Korgen under perioden som börjar på Inledande Observationsdag och som avslutas på Slutlig Observationsdag är lägre än N.

"N" ska vara det tal som specificerats i de Slutliga Villkoren.

**"Viktade Tillgångsvkastningen"** syftar till produkten av Korgandelen och Referensenhets avkastning för relevant Referensenhet.

**"Referensenhetsförlusten"** kommer vara differensen mellan Återvinningsvärdet med hänsyn till den relevanta Referensenheten och 1.

**"Återvinningsvärde"** kommer vara 100 procent. Om en Kredithändelse (i enlighet med angivna i Del 3: *Kompletterande Villkor för Kreditlänkade Lån*) inte har inträffat med hänsyn till den Referensenheten under perioden som börjar på Inledande Observationsdag och som avslutas på Slutlig Observationsdag, eller om sådan Kredithändelse har inträffat, kommer det antingen vara ett Fast Återbetalningsbelopp eller ett Marknadsmässigt Återvinningsbelopp, i enlighet med det angivna i de tillämplbara Slutliga Villkoren.

(xl) *Digital Long*

Om Korgavkastningen på den slutliga Värderingsdagen överstiger Korglösennivån, kommer Återbetalningsbeloppet vara Lånens Kapitalbelopp multiplicerat med Kupongen.

Om Korgavkastningen inte överstiger Korglösennivån på den slutliga Värderingsdagen kommer Återbetalningsbeloppet vara noll.

(xli) *Digital Short*

Om Korgavkastningen på den slutliga Värderingsdagen understiger Korglösennivån, kommer Återbetalningsbeloppet vara Lånens Kapitalbelopp multiplicerat med Kupongen.

Om Korgavkastningen på den slutliga Värderingsdagen är lika med eller överstiger Korglösennivån kommer Återbetalningsbeloppet vara noll.

(xlii) *Worst of Digital Long*

Om Referenstillgångsavkastningen på den sämst presterande Referenstillgången på den slutliga Värderingsdagen överstiger den relevanta Barriärnivån, kommer Återbetalningsbeloppet vara Lånens Kapitalbelopp multiplicerat med Kupongen.

Om Referenstillgångsavkastningen på den sämst presterande Referenstillgången på den slutliga Värderingsdagen inte överstiger den relevanta Barriärnivån, kommer Återbetalningsbeloppet vara noll.

Den "sämst presterande" Referenstillgången kommer vara den Referenstillgång som har den lägsta Referenstillgångsavkastningen (såsom definierat i Villkor 6(a)(ii) "*Basket Long*" Struktur) eller Villkor 6(a)(iii) ("*Basket Short*" Struktur).

(xliii) *Worst of Digital Short*

Om Referenstillgångsavkastningen på den sämst presterande Referenstillgången på den slutliga Värderingsdagen understiger den relevanta Barriärnivån, kommer Återbetalningsbeloppet vara Lånens Kapitalbelopp multiplicerat med Kupongen.

Om Referenstillgångsavkastningen på den sämst presterande Referenstillgången på den slutliga Värderingsdagen är lika med eller överstiger den relevanta Barriärnivån kommer Återbetalningsbeloppet vara noll.

Den "sämst presterande" Referenstillgången kommer vara den Referenstillgång som har den lägsta Referenstillgångsavkastningen (såsom definierat i Villkor 6(a)(ii) "*Basket Long*" Struktur) eller Villkor 6(a)(iii) ("*Basket Short*" Struktur).

(xliv) *Series of Digitala*

Återbetalningsbeloppet kommer vara det samma som Lånens Kapitalbelopp multiplicerat med kvoten av täljaren, som är antalet Referenstillgångar med ett Stängningskurs som ligger på eller över den relevanta Barriärnivån på varje Bankdag upp till och inklusive den relevanta Värderingsdagen, och nämnaren, som är antalet Referenstillgångar i Korgen.

(xlv) *Delta 1 strukturer*

I händelse av en Uppskjuten Återbetalning, i enlighet med nedan, ska Återbetalningsbeloppet utbetalas på den Planerade Återbetalningsdagen och det kommer vara ett belopp som är lika med Inlösenbeloppet relaterat till de relevanta Referenstillgångarna, minus Avgifter och gällande Skatter.

**"Avgifter"** syftar till en struktureringsavgift som betalas till Emittenten genom ett belopp som beräknas som en procentsats per år på det totala beloppet av Lånens Kapitalbelopp som står specificerat i de tillämplbara Slutliga Villkoren multiplicerat med den relevanta Dagberäkningsmetoden.

**"Hedging Party"** syftar till någon av Emittenten, någon annan enhet inom Nordeagruppen (som väljs av Emittenten från tid till annan efter dennes egna diskretion), eller en hypotetisk investerare bosatt i Danmark, Finland eller Sverige, som kommer anses inneha de Referenstillgångarna.

"Skatter" syftar till alla skatter, avgifter eller andra avdrag relaterade till en Hedging Partys köp, ägarskap, inlösen eller överföring av de Referenstillgångarna, eventuella utdelningar tillhörande de Referenstillgångarna eller några valutaomvandlingar med hänsyn till byte av Lånelikvid för valutan för de(n) relevanta Referenstillgången(-arna).

#### *Uppskjuten Återbetalning*

Om Hedging Party inte har möjlighet att lösa in Referenstillgångar innan den planliga Återbetalningsdagen eller Förtida Återbetalningsdagen på grund av att de Referenstillgångarna omfattas av en restriktion gällande inlösen eller av någon annan anledning, eller om Hedging Party bedömer att denne inte kommer erhålla det fullständiga Återbetalningsbeloppet på eller innan den planliga Återbetalningsdagen eller den Förtida Återbetalningsdagen (varje sådan händelse kallas en "**Uppskjuten Återbetalning**"), ska Emittenten omedelbart meddela Fordringshavarna om detta (ett "**Meddelande om Uppskjuten Återbetalning**").

Efter ett Meddelande om Uppskjuten Återbetalning ska Emittenten göra en delåterbetalning av Lån på (i) den planliga Återbetalningsdagen eller den förtida återbetalningsdagen förutsatt att, och i den utsträckning som, Hedging Party har mottagit (eller anses ha mottagit) någon del av tillgångarnas Återbetalningsbelopp ej senare än på den tionde Bankdagen innan sådant datum, och därefter (ii) inom fem Bankdagar efter varje datum då Hedging Party mottar (eller anses ha mottagit) alla eller delar av Återbetalningsbeloppet (varje sådant datum kallas för ett "**Uppskjutet Återbetalningsdag**").

Beloppet för varje sådan delåterbetalning av Lån ska beräknas i enlighet med formeln för beräkning av Återbetalningsbelopp angivet ovan och för detta ändamål ska "Återbetalningsbeloppen" anses vara det senaste delbeloppet av de Återbetalningsbelopp som mottagits (eller anses ha mottagits) av Hedging Party innan den relevanta Uppskjutna Återbetalningsdagen och "Avgiften" ska anses vara den totala avgiften per det relevanta Uppskjutna Återbetalningsdagen minus den eventuella del av Avgiften som tidigare har avdragits från (i) Återbetalningsbelopp eller (ii) Återbetalningsbeloppet i anknytning till tidigare delåterbetalningar av Lån.

Summan av alla delinlösenbetalningar ska aldrig överstiga de totala Återbetalningsbeloppen som Hedging Party har mottagit (eller anses ha mottagit) på eller innan Back-Stop datumet *minus* (i) totala Avgifter och *minus* (ii) den totala summan av alla Skatter.

Om Emittenten har fastställt att en Uppskjuten Återbetalning har inträffat och fortgår, och att det skäligen kan förväntas att någon del av Återbetalningsbeloppen inte har mottagits av Hedgingparten på eller innan Back-Stop datumet, kan Emittenten (i) förlänga Back-Stop datumet för att detta ska anpassas till förväntade framtida erhållna Återbetalningsbelopp i enlighet med det som fastställts av Emittenten, eller (ii) genom meddelande till Innehavarna och till relevanta Clearingsystem terminera Lånen med omedelbar effekt varpå Emittenten inte ska vara förpliktigad att göra, och Fordringshavare ej heller ska vara berättigade att motta, någon återbetalning eller andra belopp med avseende till Lånen.

Återbetalningsbelopp som har mottagits av Emittenten eller Hedging Party efter Back-Stop datumet ska inte betalas till Innehavarna och Innehavarna ska inte ha någon rätt att motta någon sådan återstående del av Återbetalningsbeloppet efter Back-Stop datumet.

#### (xlv) *TOM Ackumulerande-struktur*

Om detta Villkor 6(a)(xlv) (*TOM Ackumulerande-struktur*) finns specificerat i de tillämplbara Slutliga Villkoren kommer Återbetalningsbeloppet vara lika med Lånens Kapitalbelopp multiplicerat med Deltaandegraden och multiplicerat med TOM-Värdet.

"**TOM-Värdet**" kommer vara 100 vid den Startdagen och därefter lika med TOM-Värdet på den föregående Bankdagen multiplicerat med den tillämpliga TOM-Värdeutvecklingen på den relevanta Bankdagen.

"**TOM-Värdeutvecklingen**" kommer vara lika med Korgavkastningen för TOM Perioden och Referensränteavkastningen för varje Bankdag som inte faller inom TOM Perioden.

"**Korgavkastningen**" kommer beräknas som summan av den Viktade Värdeutvecklingen för Referenstillgång inom Korgen.

"**Viktade Värdeutvecklingen för Referenstillgång**" kommer vara Värdeutvecklingen för Referenstillgång multiplicerat med Korgens tillämpliga deltagande i den relevanta Referenstillgången.

"**Värdeutvecklingen för Referenstillgång**" kommer vara kvoten av Stängningskursen för den relevanta Referenstillgången på Bankdagen vid slutet av den tillämpliga TOM Perioden genom Stängningskursen för den relevanta Referenstillgången på Bankdagen vid starten av den tillämpliga TOM Perioden.

"**Referensränteavkastning**" kommer vara lika med den tillämpliga underliggande räntan multiplicerad med den relevanta Dagberäkningsmetoden.

(xlvii) *Valutakomponenter*

(A) *Valutakomponenter – Korg*

(A) Om "Valutakomponenter – Korg" finns specificerat som tillämplig i de relevanta Slutliga Villkoren kommer Korgavkastningen, som fastställts i enlighet med villkoren av de föregående avsättningarna till detta Villkor 6(a) (*Återbetalning på Återbetalningsdagen*) och finns specificerat i de tillämpliga Slutliga Villkoren, vidare att multipliceras med den tillämpliga Valutakvoten i syfte att fastställa det totala betalbara Återbetalningsbeloppet till Fordringshavarna vid Återbetalningsdagen. Valutakomponentkorgen kan endast vara tillämpligt när Korgavkastningen är positiv, eller kan endast vara tillämpligt när Korgavkastningen är negativ, i bägge fall såsom specificeras i de Slutliga Villkoren.

(B) *Valutakomponent – Referenstillgång*

(B) Om "Valutakomponent – Referenstillgång" finns specificerat som tillämpligt i de relevanta Slutliga Villkoren, kommer varje Referenstillgångsavkastning av en eller flera Referenstillgångar specificerade i de Slutliga Villkoren, som fastställts i enlighet med villkoren av de föregående bestämmelserna i detta Villkor 6(a) (*Återbetalning på Återbetalningsdagen*) och som specificerats i de tillämpliga Slutliga Villkoren, vidare att multipliceras med den tillämpliga Valutakvoten i syfte att fastställa det Återbetalningsbeloppet på det sätt som finns specificerat i det Villkoret.

(xlviii) *Best of/ Worst of Modifier*

Om detta Villkor (xlviii) (*Best of/Worst of Modifier*) är angivet som tillämpligt i de relevanta Slutliga Villkoren, ska hänvisningar till Korgavkastning ersättas med hänvisningar till "Referenstillgångsavkastning av den Nth bäst presterande Referenstillgången" för beräkningen av Återbetalningsbeloppet i enlighet med de föregående värdeutvecklingsstrukturerna angivna i detta Villkor 6(a).

Den Nth bäst presterande Referenstillgången ska vara den Referenstillgång som har den Nth högsta Referenstillgångsavkastningen, där "N" ska vara det värde som anges i de Slutliga Villkoren.

(xlix) *Inflation Linker 2*

Återbetalningsbeloppet kommer vara Lånens Kapitalbelopp multiplicerat med det högsta av:

(A) 1; och

(B) resultatet som fås genom att dela Inflationsnivån på den Slutliga Värderingsdagen med Inflationsnivån på Startdagen.

(l) **"Barrier Outperformance" struktur 2**

om Korgavkastningen (fastställd i enlighet med Villkor 6(a)(ii) ("*Basket Long*" struktur) eller Villkor 6(a)(iii) ("*Basket Short*" struktur)), såsom specificerat i de Slutliga Villkoren, på någon Värderingsdag överstiger Barriärnivån, kommer Återbetalningsbeloppet att vara summan av Lånens Kapitalbelopp och en ytterligare summa beräknad genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och det högre av Kupongen och Korgavkastningen. Om Korgavkastningen inte överstiger Barriärnivån på någon Värderingsdag, kommer Återbetalningsbeloppet att vara Lånens Kapitalbelopp.

(li) **"Barrier Underperformance" struktur 2**

om Korgavkastningen (fastställd i enlighet med Villkor 6(a)(ii) ("*Basket Long*" struktur) eller Villkor 6(a)(iii) ("*Basket Short*" struktur)), såsom specificerat i de Slutliga Villkoren, på någon Värderingsdag faller under Barriärnivån, kommer Återbetalningsbeloppet att vara summan av Lånens Kapitalbelopp och en ytterligare summa beräknad genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och det högre av Kupongen och Korgavkastningen. Om Korgavkastningen inte faller under Barriärnivån på någon Värderingsdag, kommer Återbetalningsbeloppet att vara Lånens Kapitalbelopp.

(b) **Kombinationer av strukturer**

Om "Kombination av strukturer" finns specificerad som tillämplig i de Slutliga Villkoren kan det betalbara Återbetalningsbeloppet till Innehavarna på Återbetalningsdagen vara en kombination av två eller fler av de Värdeutvecklingsstrukturer som finns specificerade i de föregående bestämmelserna i Villkor 6(a) (*Återbetalning på Återbetalningsdagen*). Återbetalningsbeloppet som fastställts i enlighet med varje tillämplig underparagraf i Villkor 6(a) (*Återbetalning på Återbetalningsdagen*) ska multipliceras med den tillämpliga Värdeutvecklingsprocentsatsen och därefter summeras i syfte att beräkna det totala Återbetalningsbeloppet som ska betalas av Emittenten vid den tillämpliga Återbetalningsdagen.

**"Värdeutvecklingsprocentsatsen"** kommer vara procentsatsen på det övergripande Återbetalningsbeloppet för den relevanta värdeutvecklingsstrukturen, såsom specificerad i de Slutliga Villkoren.

(c) **Lägsta Återbetalning**

Om detta Villkor 6(c) (*Lägsta Återbetalning*) finns specificerat som tillämpligt i de relevanta Slutliga Villkoren ska Återbetalningsbeloppet vara det högre av beloppet som fastställts i enlighet med Villkor 6(a) (*Återbetalning på Återbetalningsdagen*) och det Lägsta Återbetalningsbeloppet.

(d) **Inflationsskyddat Kapitalbelopp**

Om detta Villkor 6(d) (*Inflationsskyddat Kapitalbelopp*) finns specificerat som tillämpligt i de relevanta Slutliga Villkoren kommer Återbetalningsbeloppet som fastställts i enlighet med Villkor 6(a) (*Återbetalning på Återbetalningsdagen*) att multipliceras med proportionen som erhålls genom att dividera Slutligt KPI med Bas KPI.

(e) **Amorterande Återbetalning**

Vissa Lån kan amorteras om detta specificeras i de Slutliga Villkoren. Om så är fallet kommer Återbetalningsbeloppet betalas i utbetalningar motsvarande Amorteringsbeloppet vid ett eller flera Amorteringsdagar, i enlighet med de Slutliga Villkoren.

(f) **Förtida Återbetalning av Skatteskäl**

Om Emittenten skulle komma behöva betala extrabelopp i enlighet med Villkor 7 (*Beskattning*), för någon Seriea av Lån, som en konsekvens av någon lagändring i Emittentens jurisdiktion eller av någon politisk underavdelning därav eller någon myndighet eller organ som däri eller därav har befogenhet att beskatta eller genom tolkning eller administration av någon sådan lag eller bestämmelse som träder i kraft på eller efter Lånedatumet av sådana Lån eller något tidigare datum specificerat i de relevanta Slutliga Villkoren vid nästkommande utbetalning med hänsyn till sådana Lån, har denne möjlighet att med minst trettio och högst sextio dagars notifiering, eller sådan annan period som specificeras i de Slutliga Villkoren (utgående, i händelse av Lån som genererar rörlig ränta, på en dag då räntan är betalbar), hos Innehavarna, i enlighet med Villkor 16 (*Meddelanden*) (vilket meddelande ska vara oåterkalleligt) inlösa hela (men inte delar därav, såvida inte och i den utsträckning som de relevanta Slutliga Villkoren specificerar annat) Lånesinnehavet i den relevanta serien till dess Kapitalbelopp (eller sådant annat Återbetalningsbelopp som kan finnas specificerat i de relevanta Slutliga Villkoren), tillsammans med upplupen ränta (om någon) därtill.

I händelse av att kupongskatt införs i Finland eller Sverige och, enligt sådan finsk eller svensk kupongskatt Emittenten förpliktigas att utföra sådana avdrag som syftas till i den föregående paragrafen, reserverar sig Emittenten rätten att erhålla följande information gällande varje Innehavare:

- (i) Innehavarens namn, personnummer eller annat identifieringsnummer och postadress, samt
- (ii) antal Lån som innehas av Innehavaren och dess Kapitalbelopp.

Informationen som hänvisas till ovan behöver endast tillgängliggöras med avseende på Lån som utställts under detta Program.

En förfrågan om information enligt detta Villkor 6(f) (*Förtida Återbetalning av Skatteskäl*) ska ges in till Euroclear Sverige eller Euroclear Finland (som tillämpligt) i tillräckligt god tid för Euroclear Sverige eller Euroclear Finland att handlägga denna.

(g) **Frivillig Förtida Återbetalning (Call)**

Emittenten kan, om så anges i de relevanta Slutliga Villkoren, inlösa Lån i förtid, i sin helhet eller delvis, till det Förtida Återbetalningsbeloppet tillsammans med upplupen ränta (om någon), på de(t) datum som angivits i de Slutliga Villkoren.

Emittenten ska tillkännage Innehavarna om varje förtida återbetalning i enlighet med Villkor 16 (*Meddelanden*) senast 10 dagar innan den relevanta förtida återbetalningsdagen. Sådant meddelande om förtida återbetalning ska vara oåterkalleligt.

(h) **Frivillig Förtida Återbetalning (Put)**

Om det står specificerat i de relevanta Slutliga Villkoren ska Innehavaren vara berättigad att kräva en förtida återbetalning av Lån till det Förtida Återbetalningsbeloppet tillsammans med upplupna räntor (om några) på de(t) datum som anges i de Slutliga Villkoren och omfattas av Villkoren i de Slutliga Villkoren.

För att nyttja sådan möjlighet måste Innehavaren minst 45 dagar innan den relevanta Förtida Återbetalningsdagen meddela detta till Emittenten. Sådant meddelande om Förtida Återbetalning ska vara oåterkalleligt.

(i) **Förtida Återbetalning av icke-räntebärande Lån**

Vid förtida återbetalning av Nollkupongare ska de relevanta Lånen återbetalas till ett belopp som fastställs på Bokföringsdagen (eller förfallodagen för betalningen, gällande Innehavarlån) i enlighet med följande formel:

### Kapitalbelopp

$$(1 + r)^t$$

r = Referensavkastningen enligt de Slutliga Villkoren.

t = den återstående löptiden på Lånen, uttryckt som antal dagar dividerat på 360 (där varje månad antas bestå av 30 dagar) eller baserat på det faktiska antalet dagar/faktiska antalet dagar.

(j) **Förtida Återbetalning av Lån med Värdeutvecklingsstrukturen Autocall**

Om Korgavkastningen på någon Värderingsdag (annan än den slutliga Värderingsdagen) är på eller över den relevanta Inlösenbarriärnivån minus Startkursen kommer Emittenten tillkännage detta för Innehavaren i enlighet med Villkor 16 (*Meddelanden*) och inlösa Lånen i förtid, i sin helhet men inte delvis, på nästkommande Förtida Återbetalningsdag till sitt Förtida Återbetalningsbelopp vilket kommer vara Kapitalbeloppet för de relevanta Lånen tillsammans med alla betalbara räntor på nominellt belopp (om några) i enlighet med Villkor 5(g) (*Räntebärande automatiskt inlösbara Lån*).

(k) **Förtida Återbetalning av Lån med Best of/Worst of Autocallstruktur**

Om Stängningskursen för den Nth bäst presterande Referenstillgången (i enlighet med Villkor 6(a)(xi) (*Best of/Worst of Autocallstruktur*) på någon Värderingsdag (annat än den slutliga Värderingsdagen) delat med Startkursen för den Nth bäst presterande Referenstillgången är på eller över den relevanta Inlösenbarriärnivån kommer Emittenten tillkännage detta för Innehavarna i enlighet med Villkor 16 (*Meddelanden*) och inlösa Lånen i förtid, i sin helhet men inte delvis, på nästkommande Förtida Återbetalningsdag till sina Förtida Återbetalningsbelopp som kommer vara Kapitalbeloppet för de relevanta Lånen tillsammans med alla betalbara Kuponger (om några) i enlighet med Villkor 5(g) (*Räntebärande Autocalllån*).

(l) **Förtida Återbetalning av Kreditlänkade Lån**

Om "Accelererad CLN Betalning" finns specificerad och är tillämplig i de relevanta Slutliga Villkoren och i händelse av att Återvinningsvärdet i förhållande till en eller flera Referensenheter (var och en kallade för en "**Fallerad Referensenhet**") fastställs till det planerade Återbetalningsdagen för Lån kan Emittenten välja att göra en Förtida Återbetalning av alla eller delar av Lånen på en Räntebetalningsdag genom att tillkännage detta till Innehavarna i enlighet med Villkor 16 (*Meddelanden*). Det tillämpliga Förtida Återbetalningsbeloppet ska fastställas av Emittenten i god tro och på ett kommersiellt rimligt sätt och ska beräknas på en proportionerlig grund så att Innehavaren mottar en del av Återbetalningsbeloppet som annars skulle (utan hinder av vad som anges om förtida återbetalning av Lån i enlighet med detta Villkor 6(1) (*Förtida Återbetalning av Kreditlänkade Lån*)) vara förfallet och betalbart på Återbetalningsdagen i enlighet med de tillämpliga avsättningarna från Villkor 6(a) (*Återbetalning på Förfallodagen*) som är proportionerliga till vägningen av den relevanta Fallerade Referensenheten eller Fallerade Referensenheterna med hänsyn till Korgen som helhet.

(m) **Köp av Lån**

Emittenten och dess dotterbolag (om några) kan när som helst köpa Lån på den öppna marknaden eller på annat sätt för vilket pris som helst **förutsatt att**, gällande räntebärande Lån som är Definitiva Lån, alla ej förfallna Payment Receipts och Kuponger därtill tillhörande köps därmed.

(n) **Förfarande för Betalning vid Återbetalning**

Alla återbetalningar av Lån av typen VP, VPS, Svenska eller Finska Lån enligt detta Villkor 6 (*Återbetalning och Köp*) ska ske i enlighet med reglerna för VP gällande Lån av typen VP, reglerna för VPS gällande Lån av typen VPS, reglerna för Euroclear Sverige gällande Svenska Lån och reglerna för Euroclear Finland gällande Finska Lån.

(o) **Betalning av Korrigeringsbelopp vid Förtida Inlösen**

Om detta Villkor 6(o)(*Betalning av Korrigeringsbelopp vid Förtida Inlösen*) finns specificerat som tillämpligt i de Slutliga Villkoren ska det betalbara Förtida Återbetalningsbeloppet till Innehavarna reduceras med alla gällande Korrigeringsbelopp, där: "**Korrigeringsbelopp**" syftar till ett belopp som fastställs av Beräkningsombudet efter eget gottfinnande på ett kommersiellt rimligt sätt motsvarande summan av (utan duplicering) alla kostnader, utgifter (inklusive förlust av finansiering), skatter och förpliktelser som ingåtts av Emittenten i anslutning till sådan tidigare återbetalning, samt det relaterade avslutandet, kvittandet eller återinförandet av någon hedge eller liknande handelsposition, plus varje belopp som ska betalas av någon hedgemotpart eller swapmotpart till Emittenten eller minus varje belopp som ska betalas av Emittenten till den relevanta hedgemotparten eller swapmotparten lika med varje belopp som ska betalas som ett resultat av avslutande av någon swaptransaktion som har ingåtts i samband med Lånen, **förutsatt att** ett sådant belopp är större än noll.

7. **Beskattning**

- (a) Alla belopp (vare sig kapital, återbetalningsbelopp, ränta eller annat) avseende Lånen kommer betalas utan innehållande av eller avdrag för, eller med anledning av, nuvarande eller framtida skatter eller annan avgift oavsett om dessa påförs eller påläggs av eller på uppdrag av jurisdiktionen för Emittentens hemvist eller någon politisk underavdelning därav eller någon myndighet eller organ som däri eller därav berättigas att beskatta, såvida innehållandet eller avdraget av sådana skatter eller andra avgifter krävs av lag. I händelse därav ska Emittenten betala sådana extrabelopp som krävs för att Innehavarnas nettofordran efter sådant innehållande eller avdrag ska vara lika med respektive belopp som skulle ha utgjort fordran i avsaknad av nämnda innehållande eller avdrag, dock att inga sådana extrabelopp ska vara betalbara för Lån eller Kuponger som presenterats för betalning:
- (i) inom jurisdiktionen för Emittentens hemvist,
  - (ii) av eller till förmån för en Fordringshavare som är ansvarig för sådana skatter eller förpliktelser med hänsyn till sådana Lån eller Kuponger med anledning av att sådan Fordringshavare har någon anknytning med jurisdiktionen för Emittentens hemvist annan än själva innehavet av sådant Lån eller Kupong, eller
  - (iii) fler än trettio dagar efter det Relevanta Datumet, förutom i sådan utsträckning som den relevanta Innehavaren skulle vara berättigad till sådana extrabelopp vid presentation av den samma för betalning vid utlöpan av sådan trettiodagarsperiod, eller
  - (iv) av eller på uppdrag av en Fordringshavare som inte skulle vara förpliktad eller omfattas av innehållandet eller avdraget genom att lämna en deklaration för utomlandsboende eller andra liknande yrkande till relevant skattemyndighet, eller
  - (v) där sådant innehållande eller avdrag påläggs på en betalning till en individ och så måste påläggas i enlighet med EU-direktiv 2003/48/EG eller lag i syfte att tillämpa eller uppfylla, eller introducerats för att överensstämma med, sådant Direktiv, eller
  - (vi) av eller på uppdrag av en Fordringshavare som skulle kunna ha möjligheten att undvika sådant innehållande eller avdrag genom att presentera det relevanta Lånet, Payment Receiptst eller Kupong för ett annat Betalningsombud i en Medlemsstat inom den Europeiska Unionen.
- (b) Vid tillämpning av dessa Villkor syftar "**Relevant datum**" till det datum när sådan betalning först förfaller och blir betalbar, men om det fullständiga beloppet av de betalbara pengarna inte har mottagits av Fiscal Agent eller, om fallet är sådant, Registreringsagenten på eller innan sådant förfallodatum syftar det till det första datumet när det fullständiga beloppet har mottagits och tillkännagivande om detta har givits till Innehavarna av sådana Lån i de relevanta serierna i enlighet med Villkor 16 (*Meddelanden*).
- (c) Alla referenser i dessa Villkor till kapitalbelopp, återbetalningsbelopp och/eller ränta med hänsyn till Lån ska omfatta eventuella extrabelopp som kan bli betalbara under detta Villkor 7 (*Beskattning*) eller eventuella åtaganden som ges därtill eller som ersättning därför.

- (d) Utan hinder av detta Villkor 7 (*Beskattning*) eller Villkor 8 (*Betalningar*) ska Emittenten tillåtas att innehålla och göra avdrag för eller till följd av eventuella skatter som pålagts i enlighet med avsnitten 1471 till 1474 under U.S. Internal Revenue Code of 1986, såsom ändrad, och lagstiftning som utfärdats därunder i enlighet med alla mellanstatliga avtal, eller implementering av lagstiftning som antagits av andra jurisdiktioner i anslutning till dessa bestämmelser, eller i enlighet med avtal med U.S. Internal Revenue Service, för alla betalbara belopp gällande Lånen och ska inte krävas på betalning av extrabelopp gällande sådana skatter.

## 8. **Betalningar**

### (1) ***Betalningar — Innehavarlån***

- (a) Detta Villkor 8(1) är tillämpligt för Innehavarlån.
- (b) Betalning av förfallna belopp (inklusive upplupen ränta) vid inlösen av Innehavarlån kommer göras mot uppvisande och återlämnande av relevanta Innehavarlån till något av Betalningsombuden eller order, förutom i händelse av en delvis inlösen till följd av otillräckliga medel eller betalning av ett Amorteringsbelopp (annat än det slutliga Amorteringsbeloppet).

Betalning av Amorteringsbelopp (andra än slutliga Amorteringsbeloppet) för Amortering Lån kommer ske mot presentation av det Innehavarlånet tillsammans med (i förekommande fall) det relevanta Payment Receiptst och återlämnandet av sådant Payment Receipts.

Payment Receiptsa är inte och ska inte under några som helst omständigheter anses utgöra ägarbevis och om de separeras från det Innehavarlånet som de tillhör kommer de ej heller vara bärare av någon förpliktelse för Emittenten.

Således ska presentationen av Innehavarlån utan tillhörande Payment Receiptst eller uppvisande av ett Payment Receipts utan det Innehavarlånet som detta tillhör inte berättiga Innehavaren till någon betalning med hänsyn till det relevanta Amorteringsbeloppet.

- (c) Betalning av förfallna belopp avseende ränta på Innehavarlån kommer ske:
- (i) i de fall det rör sig om ett Temporärt Globalt Lån eller Permanent Globalt Lån, mot presentation av det relevanta Temporära Globala Lånet eller Permanent Globala Lånet vid det angivna kontoret hos något av Betalningsombuden utanför USA och, gällande Temporära Globala Lån, med vederbörlig certifiering som krävs däri,
- (ii) i de fall det rör sig om Definitiva Lån utan bifogade Kuponger därtill vid tidpunkten för deras ursprungliga leverans, mot presentation av de relevanta Definitiva Lånen vid det angivna kontoret hos något av Betalningsombuden utanför USA, och
- (iii) i de fall det rör sig om Definitiva Lån som levererats med bifogade Kuponger därtill vid tidpunkten för deras ursprungliga leverans, mot avträdet av relevanta Kuponger vid det angivna kontoret hos något av Betalningsombuden utanför USA.
- (d) Om förfallodagen för betalning av något förfallet belopp (vare sig det gäller kapital, räntor eller annat) gällande något Fysiskt Lån inte är en Bankdag kommer Innehavaren därav inte vara berättigad betalning därav förrän nästkommande sådan Bankdag och inga ytterligare betalningar kommer bero på sådan fördröjning förutom i händelse av en efterföljande underlåtenhet till betalning i enlighet med dessa Villkor inträffar.
- (e) Varje Definitivt Lån som ursprungligen levererats med bifogade Kuponger eller Payment Receipts ska återlämnas för slutlig inlösen tillsammans med alla tillhörande, ej förfallna Kuponger eller Payment Receipts, i annat fall ska:

- (i) i de fall det rör sig om Definitiva Lån som är räntebärande till en fast ränta eller fasta räntor, beloppet för eventuella saknade ej förfallna Kuponger dras av från det belopp som annars är betalbart vid sådan slutlig inlösen, där beloppet som dras av blir betalbart mot återlämnas från den relevanta Kupongen vid det angivna kontoret hos något av Betalningsombuden när som helst innan tioårsdagen efter förfallodatumet för sådan slutlig inlösen eller, om senare, femårsdagen från förfallodatumet för sådan Kupong, och
- (ii) i de fall det rör sig om Definitiva Lån som är räntebärande till en rörlig ränta, eller till en marginal över eller under en sådan, alla ej förfallna Kuponger relaterade till sådana Definitiva Lån (oavsett om de återlämnas därmed) bli ogiltiga och ingen betalning kommer därefter utgå för dem.
- (iii) i de fall det rör sig om Innehavarlån som ursprungligen levererats med bifogade Payment Receipts därtill, alla Payment Receipts gällande sådana Innehavarlån med hänsyn till en betalning av ett Amorteringsbelopp som (men för sådan inlösen) skulle ha förfallit på ett datum efter sådant förfallodatum för inlösen (oavsett om de därmed återlämnas), bli ogiltiga och ingen betalning kommer därefter att utgå för dem.

(2) **Betalningar — Registrerade Lån**

- (a) Detta Villkor 8(2) är tillämpligt för Registrerade Lån.
- (b) Betalning av förfallna belopp (inklusive upplupen ränta) vid den slutliga inlösen av Registrerade Lån kommer ske mot presentation och återlämnande av de relevanta Registrerade Lånen vid det specificerade kontoret hos Registreringsagenten, förutom i händelse av en delvis inlösen till följd av otillräckliga medel. Om förfallodatumet för betalning av det slutliga Återbetalningsbeloppet för de Registrerade Lånen inte är en Bankdag kommer Innehavaren inte vara berättigad till betalning därav förrän nästföljande sådan Bankdag och ingen ytterligare betalning kommer bero därav till följd av sådan fördröjning förutom i händelse av en efterföljande underlåtenhet till betalning i enlighet med dessa Villkor inträffar.
- (c) Betalning av förfallna (förutom gällande den slutliga inlösen av Registrerade Lån) belopp (huruvida kapital, ränta eller eljest) med hänsyn till Registrerade Lån kommer betalas till Innehavarna därav (eller, i de fall det rör sig om flera Fordringshavare, den förstnämnda) som framgår i registret som förs av Registreringsagenten vid öppningen av verksamheten (New York-tid) på den femtonde Bankdagen i New York före sådant förfallodatum för sådan betalning ("**Avstämningsdagen**").
- (d) Oaktat bestämmelserna i Villkor 8(8)(b), kommer betalning av förfallen ränta (annan än avseende slutgiltig inlösen av Registrerade Lån) gällande Registrerade Lån att ske med check utfärdad i bank i tillämpligt finanscentrum och postas till adressen (enligt register som upprättats av registrator) till dess Fordringshavare (eller vid flera Fordringshavare, den förstnämnde) på den Bankdag som närmast föregår gällande betalningsdag, om inte Innehavaren (eller vid flera Fordringshavare, den förstnämnde) före gällande avstämningsdag har ansökt till registrator och registrator har godkänt sådan ansökan om att betalning ska ske till ett härför avsett konto (i nämnda fall ett utländskt konto i en auktoriserad valutahandelsbank).

(3) **Betalningar – Lån i Schweiziska Franc**

Detta Villkor 8(3) gäller för Lån i Schweiziska Franc.

Betalning av kapitalbelopp och/eller ränta ska ske i fritt tillgängliga Schweizerfranc utan uppbördskostnader i Schweiz till Fordringshavarna och/eller Innehavare av Kuponger, utan några begränsningar, under alla omständigheter, oavsett nationalitet, hemort eller vistelseort för Fordringshavarna och/eller Innehavarna av Kuponger och utan att någon certifiering, skriftlig försäkran eller något uppfyllande av någon annan formalitet krävs.

Betalning till den Schweiziska Betalningsagenten av Emittenten och mottagandet av den schweiziska betalningsagenten av förfallen punktlig betalning i Schweiziska Franc i Schweiz ska

frita Emittenten från dess förpliktelser enligt Lån och Kuponger vad gäller betalning av huvudkapital och förfallen ränta till betalning på respektive betalningsdatum enligt omfattningen på dessa betalningar.

(4) **Betalningar – VP-Lån**

Betalningar av kapitalbelopp och/eller ränta avseende VP-Lån ska ske till innehavarna enligt VP:s register per den femte Bankdagen (enligt definition i gällande VP-regler) före förfallodagen för sådan betalning, om denna dag är en dansk Bankdag eller annan Bankdag som ligger närmare förfallodagen enligt vad som anges i VP-reglerna och kommer att ske enligt nämnda VP-regler. Denna dag ska vara "**Bokföringsdag**" avseende VP-Lån enligt VP-reglerna.

(5) **Betalningar – VPS-Lån**

Betalningar av kapitalbelopp och/eller ränta avseende VPS-värdepapper ska ske till registrerade Fordringshavare i VPS-Systemet (enligt definition i gällande VPS-regler) som anges i tillämpliga VPS-register före förfalldatum för sådan betalning eller annan Bankdag som ligger närmare förfalldatum som anges i VPS-reglerna och kommer att ske enligt nämnda VPS-regler. Denna dag ska vara "**Bokföringsdag**" avseende VPS-värdepapper enligt VPS-reglerna. *Vid dagen för detta Grundprospekt är utgångspunkten för VPS bokföringsdag med avseende på Återbetalningsbelopp att den infaller två dagar före den relevanta betalningsdagen. Bokföringsdagar för räntebetalningar infaller femton bankdagar före den relevanta betalningsdagen.*

(6) **Betalningar – Svenska Lån**

Betalningar av kapitalbelopp och/eller ränta avseende Svenska Lån ska göras till Fordringshavare enligt register förda av Euroclear Sverige, på den femte Bankdagen (enligt definition i Euroclear Sveriges gällande regler) före förfallodagen för sådan betalning om denna dag är Bankdag i Stockholm eller annan Bankdag som ligger närmare förfallodagen enligt vad som anges i Euroclear Sveriges regler och kommer att ske enligt Euroclear Sveriges regler. Denna dag ska vara "**Bokföringsdag**" avseende Svenska Värdepapper enligt Euroclear Sveriges regler.

(7) **Betalningar – Finska Lån**

Betalningar av kapitalbelopp och/eller ränta avseende Finska Lån ska göras till Fordringshavare enligt register förda av Euroclear Finland på den femte Bankdagen (enligt definition i Euroclear Finlands gällande regler) före förfallodagen för sådan betalning om denna dag är Bankdag i Helsingfors eller annan Bankdag som ligger närmare förfallodagen enligt vad som anges i Euroclear Finlands regler och kommer att ske enligt Euroclear Finlands regler. Denna dag ska vara "**Bokföringsdag**" avseende Finska Lån enligt Euroclear Finlands regler.

(8) **Betalningar – allmänna villkor**

(a) Förutom i de fall som anges på andra ställen i detta dokument gäller detta Villkor 8 (*Betalningar*) för Lån i fysisk eller registrerad form.

(b) Betalningar av förfallet belopp (vare sig gällande kapitalbelopp, ränta eller annat) avseende Lån i en annan valuta än euro sker med check utställd på eller överförs till ett konto som tillhör betalningsmottagaren hos en bank i tillämpligt finanscentrum och gällande Lån i euro med check utställd på eller genom överföring till ett eurokonto (eller annat konto till vilket euro kan krediteras eller överföras) som innehas av betalningsmottagaren hos en bank i huvudfinanscentret i en medlemsstat i Europeiska unionen. Betalningar lyder under alla omständigheter under gällande skattelagstiftning och annan lagstiftning, utan inverkan på bestämmelserna i Villkor 7 (*Beskattning*).

(c) För dessa Villkor:

Lån med Fast Ränta, Inflationslänkade Lån, Lån med Räntjustering eller Nollkuponglån lyder under Bankdagskonventionen Efterföljande Bankdag, om inte annat anges i de Slutliga Villkoren. Ränta utgår därefter endast fram till och med Återbetalningsdagen respektive Förtida Återbetalningsdagen.

Lån med Rörlig Ränta lyder under Bankdagskonventionen Modifierad Efterföljande Bankdag, om inte annat anges i de Slutliga Villkoren. Ränta kommer därefter att beräknas justerat eller ojusterat, enligt vad som anges i de Slutliga Villkoren.

För andra värdepapper gäller Bankdagskonventionen Efterföljande Bankdag, om inte annat anges i de Slutliga Villkoren.

Om någon annan Bankdagskonvention än ovan gäller för Lånen i fråga, ska den tillämpliga Bankdagskonventionen anges och beskrivas i de Slutliga Villkoren.

- (d) Om tillämpligt Clearinginstitut förhindras att göra en betalning enligt Villkoren ovan på grund av en försening av Emittentens fullgöranden eller av någon annan anledning, gör Clearinginstitutet i fråga betalningen till varje person som är registrerad som Fordringshavare per gällande avstämningsdag så snart som betalning mottagits från Emittenten eller anledningen till förseningen har upphört.
- (e) Om Emittenten förhindras från att göra betalningar till Innehavarna genom tillämpligt Clearinginstitut på grund av att Clearinginstitutet i fråga drabbats av en händelse eller omständighet som anges i första stycket av Villkor 22 (*Ansvarsbegränsning etc.*), är Emittenten berättigad till att skjuta upp betalningen till dess händelsen eller omständigheten som påverkar Clearinginstitutet i fråga har upphört. I sådana fall utgår ränta enligt Villkor 8 (9) (*Dröjsmålsränta*).
- (f) Om en person eller juridisk person till vilken betalning skett enligt Villkoren ovan, inte varit berättigad till sådan betalning, ska Emittenten och tillämpligt Clearinginstitut vara befriade från sina respektive betalningsförpliktelser, om inte Emittenten eller tillämpligt Clearinginstitut hade kännedom om att betalningen gjordes till en person eller juridisk person som inte var berättigad till betalningen eller om Emittenten eller tillämpligt Clearinginstitut inte agerade med tillbörlig aktsamhet.

(9) **Dröjsmålsränta**

- (a) Vid försenad betalning utgår dröjsmålsränta på det förfallna och obetalda beloppet från förfallodatum fram till och med den dag betalning sker med en räntesats som är lika med basräntesatsen (enligt de Slutliga Villkoren) för en vecka plus två procent. Basräntesatsen ska därpå fastställas av Emittenten på den första Bankdagen i varje kalendervecka under dröjsmålsperioden. Oaktat ovanstående ska dröjsmålsräntesatsen på räntebärande Lån inte vara lägre än den ränta som gällde för värdepappren i fråga på förfallodagen plus två procent (förutom vid de omständigheter som anges i paragraf (b) nedan). Dröjsmålsränta får inte kapitaliseras.
- (b) Om förseningen av betalningen gällande Lån beror på någon händelse eller omständighet som drabbat Emittenten eller tillämpligt Clearinginstitut enligt första paragrafen i Villkor 22 (*Ansvarsbegränsning etc.*) får dröjsmålsräntan avseende räntebärande Lån inte överskrida den räntesats som gällde för värdepappren i fråga på förfallodagen (utan två procents tillägg enligt föregående paragraf) och, avseende icke räntebärande Lån, ska ingen dröjsmålsränta tillkomma eller utgå.

9. **Lagändring**

Följande Villkor ska gälla om "Lagändring" anges vara tillämplig i gällande Slutliga Villkor.

- (a) Om det, enligt Emittentens åsikt som en följd av lagändring, påbud, bestämmelse eller motsvarande eller på grund av beslut av myndighet eller ändring av tillämpningen därav eller på grund av moratorium, valutarestriktion, embargo, blockad eller bojkott av centralbank, nationell regering eller annan offentlig myndighet som Förenta nationerna eller Europeiska unionen (vardera en "**Lagändring**") skulle bli olagligt, betydligt svårare eller leda till betydande skadat rykte för Emittenten att utfärda och inneha Lån eller om det blir olagligt eller svårare för Emittenten eller tredje part eller leda till betydande skadat rykte för Emittenten att inneha, förvärva eller avveckla Referenstillgångar eller att ingå i derivattransaktioner gällande Referenstillgång, som kan ingås för att skydda Emittentens exponering på grund av värdepappren, kan Emittenten bestämma att den drabbade Referenstillgången ska ersättas av en

ersättningsreferenstillgång (som väljs av Emittenten enligt dennes gottfinnande) eller alternativt justera beräkningen av Återbetalningsbeloppet.

- (b) Om Emittenten fastställer att det inte skulle ge ett rimligt resultat att ersätta den drabbade Referenstillgången eller att justera den tillämpliga beräkningen kan Emittenten genomföra en förtida beräkning av Återbetalningsbeloppet och eller avkastningen. En sådan beräkning ska baseras på det senaste publicerade värdet för Referenstillgången. När Emittenten har fastställt Återbetalningsbeloppet och/eller avkastningen ska Emittenten meddela Innehavarna om beloppet för Återbetalningsbelopp och/eller avkastning och den räntesats som ska fortsätta att utgå på värdepappren, vilket ska vara en marknadsränta. Återbetalningsbeloppet (inklusive ackumulerad ränta, om så är tillämpligt) ska betalas på inlösendagen.
- (c) Emittenten ska vara berättigad till att göra eventuella tillägg, justeringar eller ändringar av Villkoren efter vad Emittenten finner nödvändigt i samband med en lagändring.

#### 10. **Ökade Riskhanteringskostnader**

Följande Villkor ska gälla om "Ökade Riskhanteringskostnader" anges gälla i tillämpliga Slutliga Villkor:

- (a) Om Emittentens kostnader för innehav, förvärv eller avveckling av Referenstillgångar eller inträdande i, underhåll eller avslut av derivatinstrument som hör till Referenstillgången för ändamålet att hantera Emittentens exponering på grund av värdepappren, enligt Emittentens åsikt som en följd av eventuell ändring av lagändring, påbud, bestämmelse eller motsvarande eller beslut av myndighet eller ändring av tillämpningen därav eller på grund av någon annan händelse eller omständighet som inte direkt kan tillskrivas försämrade kreditbedömning av Emittenten, enligt Emittenten, skulle öka på ett sätt som inte är obetydligt för Emittenten eller om Emittentens riskhanteringskostnader, av någon annan anledning än ovanstående enligt Emittenten skulle öka eller om riskhanteringskostnaderna enligt emittentens åsikt skulle öka betydligt (alla utgör en "**Ökad Kostnad**"), får Emittenten bestämma att den drabbade Referenstillgången ska ersättas av en ersättningsreferenstillgång eller alternativt justera beräkningen av Återbetalningsbeloppen.
- (b) I fall där Emittenten anser att det inte skulle leda till ett kommersiellt skäligt resultat att ersätta den berörda Referenstillgången eller att justera den tillämpliga beräkningen kan Emittenten genomföra en tidig beräkning av Återbetalningsbeloppet och/eller avkastningen. Dylika tidiga beräkningar ska grundas på senast publicerade värde på Referenstillgången. När Emittenten har fastställt Återbetalningsbeloppet och/eller avkastningen ska Emittenten meddela Innehavarna om beloppet för Återbetalningsbelopp och/eller avkastning och den räntesats som ska fortsätta att utgå på värdepappren, vilket ska vara en marknadsränta. Återbetalningsbeloppet (inklusive ackumulerad ränta, om så är tillämpligt) ska betalas på Återbetalningsdagen.
- (c) Emittenten ska ha rätt att göra eventuella tillägg, justeringar eller ändringar till de Villkor som Emittenten anser nödvändiga i samband med en Ökad Kostnad.

#### 11. **Störning av Riskhantering**

Följande Villkor ska gälla om "Störning av Riskhantering" sägs gälla för de Slutliga Villkoren i fråga.

- (a) I fall där Emittenten anse, efter att ha nyttjat affärsmässigt rimliga insatser, det skulle vara avsevärt mycket svårare eller omöjligt att inneha, införskaffa, upprätta, återupprätta, byta ut, underhålla, avveckla eller avyttra Referenstillgångar eller ingå transaktioner eller införskaffa finansiella instrument för att använda vid hedging/riskhantering med hänvisning till Referenstillgångar som har införskaffats för att säkerställa Emittentens exponering/leveransskuldighet enligt Notes), (varje dylik tilldragelse är en "**Störning av Riskhantering**") kan Emittenten besluta att den berörda Referenstillgången ska bytas ut mot en ny Referenstillgång eller alternativt justera beräkningen av Återbetalningsbeloppet.
- (b) Om Emittenten anser att det inte skulle leda till ett rättvist resultat om man byter ut den berörda Referenstillgången eller om man justerar den gällande beräkningen kan Emittenten genomföra en tidig beräkning av Återbetalningsbeloppet och/eller avkastningen. När Emittenten har fastslagit Återbetalningsbeloppet och/eller avkastningen ska Emittenten meddela Innehavarna om de extra

summorna och/eller summan av avkastningen och vilken ränta som ska fortsätta att utgå på Notes, en ränta som ska vara marknadsmässig. Återbetalningsbeloppet (inklusive ackumulerad ränta, om så är tillämpligt) ska betalas på inlösendagen.

12. **Preskription**

- (a) Innehavarlån och tillhörande Kuponger blir ogiltiga om de inte löses in inom tio år (eller, avseende Kuponger och med förbehåll för Villkor 8(1)(e), fem år) efter förfallodatumet för betalning.
- (b) Krav mot Emittenten avseende Registrerade Lån kommer att preskriberas om de inte görs inom 10 år (eller, avseende krav i samband med ränta, fem år) efter förfallodagen för betalning.
- (c) Krav avseende Finska Lån ska preskriberas tre år efter relevant betalningsdatum (avseende krav på både kapital och ränta).
- (d) Krav mot Emittenten på betalning av ett Återbetalningsbelopp avseende Svenska Lån eller VPS-Lån kommer att preskriberas såvida de inte reses inom tio år efter den relevanta Återbetalningsdagen. Krav mot den Emittenten gällande betalning av ränta eller annan avkastning avseende Svenska Lån eller VPS Lån ska avskrivas såvida inte kravet görs inom tre år räknat från räntans förfallodag.

Om preskriptionstiden för Svenska Lån avbryts kommer en ny preskriptionstid på tio år att påbörjas för fordringar avseende lösenbelopp och tre år för fordringar avseende räntebelopp och annan avkastning. När preskriptionstiden avbryts på grund av eventuell bekräftelse, krav eller påminnelse, ska en ny preskriptionstid börja på den dag då avbrottet inträffade eller om preskriptionen avbryts genom rättsliga förfaranden eller ett krav på betalning väcks vid en domstol, tillsynsmyndighet eller skiljeförfarande, konkurs process eller för ett rättsligt ackordsförfarande, ska en ny preskriptionstid börja den dag då en dom eller slutligt beslut meddelas eller förfarandet avslutas på annat sätt.

13. **Betalningsombuden och Registreringsombudet**

Det första Betalningsombudet och Registreringsombudet och deras respektive första specificerade kontor anges nedan. Emittenten förbehåller sig rätten att när som helst ändra eller avbryta uppdraget åt Betalningsombud (vilket omfattar Fiscal Agent) eller Registreringsombud och utse ytterligare eller annat Betalningsombud eller annat Registreringsombud **förutsatt att** det alltid kommer att finnas (i) en Fiscal Agent, (ii) ett Registreringsombud (iii) ett betalningsombud med ett angivet kontor på det europeiska fastlandet men utanför den lagsaga där Emittentens företag är registrerat, (iv) ett betalningsombud i en medlemsstat i den europeiska unionen som inte ska åläggas att undanhålla eller dra av skatt enligt Europeiska rådets direktiv 2003/48/EC eller någon lag som genomför eller uppfyller, eller som introduceras för att efterleva dylika direktiv (v) förutsatt att eventuella VPS-Lån hanteras av VPS, ett betalningsombud med ett specificerat kontor i Norge, (vi) förutsatt att Svenska Lån hanteras av Euroclear Sverige, ett Emittentombud med ett specificerat kontor i Sverige och (vii) förutsatt att Finska Lån hanteras av Euroclear Finland, ett Administrerande Institut med ett specificerat kontor i Finland. Betalningsombudet och Registreringsombudet förbehåller sig rätten att ändra sina respektive specificerade kontor till annat specificerat kontor i samma stad, och förutsatt att VP-Lån clearas genom VP, ska Emittenten, Fiscal Agent och VP Administrerande Institut ha samma respektive rättigheter och skyldigheter som uppkommer under Fiscal Agency-avtalet och ingen annan Betalningsagent ska ha några rättigheter eller skyldigheter därtill. Meddelanden om eventuella ändringar avseende identiteter eller specificerade kontor till betalningsombuden eller Registreringsombudet ska i god tid meddelas Innehavarna.

Avseende Lån i Schweiziska Franc ska Emittenten vid varje given tidpunkt tillse att en Betalningsagent har sitt specificerade kontor i Schweiz och att inte vid något tillfälle ha en Betalningsagent som har sitt specificerade kontor utanför Schweiz.

14. **Utfärdande av nya Lån för att ersätta gamla**

Om ett Lån, ett Payment Receipts eller en Kupong skulle tappas bort, stjälas, skadas, utplånas eller förstöras, kan den/det ersättas på Fiscal Agents angivna kontor (avseende Innehavarlån och Kuponger) eller om Registreringsagenten (avseende Registrerade Lån), i enlighet med alla

tillämpliga lagar och de krav som ställs av eventuella börser och/eller noteringsmyndighet där de relevanta Lånen är noterade, efter betalning av Innehavaren av alla kostnader för sådan ersättning och på sådana villkor som omfattar bevisning, säkerhet, gottgörelse och i övrigt enligt Emittentens och Fiscal Agent eller, i förekommande fall, Registreringsagenten kan begära. Skadade eller vanställda Lån, Payment Receipts och Kuponger måste överlämnas innan nya kan utfärdas.

15. **Fordringshavarmöten; Ändringar**

Fiscal Agency-avtalet innehåller bestämmelser som är bindande för Emittenten och Fordringshavarna eller innehavare av Kuponger, avseende sammankallande av möten för Innehavare av Lån av varje Serie för att behandla frågor som berör deras intressen, innefattande ändringar av eller upphävande av de Villkor som gäller för alla Serier av Lån.

För VPS-Lån ska Fordringshavarmöten hållas i enlighet med Fiscal Agency-avtalet och relevanta regleringar för VPS. Avseende Fordringshavarmöten ska den person vars namn står på certifikatet från VPS betraktas som den Innehavare som anges i certifikatet i fråga **förutsatt att** han har åtagit sig att inte överföra några angivna VPS-Lån (före mötet är över).

För Svenska och Finska Lån ska Fordringshavarmöten hållas i enlighet med Fiscal Agency-avtalet.

Emittenten har rätt att göra ändringar i dessa Villkor som har godkänts vid ett möte med Innehavare av de relevanta Lånen. Emittenten ska i god tid meddela Innehavarna om ändringar av Villkoren i enlighet med Villkor 16 (*Meddelande*).

Utöver ovanstående har Emittenten rätt att utan medgivande av Innehavarna ändra i dessa Villkor: (i) för att korrigera ett uppenbart fel eller (ii) i den utsträckning det krävs efter en förändring av gällande lag, eller (iii) i den mån en sådan ändring inte enligt Emittenten skulle vara till väsentlig nackdel för Innehavare av Lån.

16. **Meddelanden**

(a) ***Till innehavare av Innehavarlån***

Meddelande till innehavare av Innehavarlån ska, förutom i fall där ett annat effektivt sätt att kommunicera har angivits i de relevanta Slutliga Villkoren, betraktas som överlämnade om de offentliggörs i en rikstäckande dagstidning med allmän spridning i Storbritannien (vilket förväntas vara *Financial Times*) och avseende ett Temporärt Globalt Lån eller Permanent Globalt Lån som levereras till Euroclear och Clearstream, Luxemburg för kommunikation till de personer som anges ha intresse därav i deras annaler **under förutsättning av** att för Lån som givits tillstånd till notering och/eller handel på börser, att de regler som den börsen eller noteringsmyndigheten har ska efterföljas. Meddelanden som överlämnas på detta sätt ska betraktas som överlämnade på det datum då de offentliggörs (eller, om de offentliggörs mer än en gång, det datum då de först offentliggjordes) eller, i förekommande fall det datum då en dylik leverans äger rum.

(b) ***Till innehavare av Registrerade Lån***

Meddelanden till innehavare av Registrerade Lån ska betraktas som överlämnade om de skickas med post till dem (eller, avseende gemensamma innehavare, den vars namn kommer först i det register som administreras av Registreringsombudet) till deras respektive adresser enligt inskrivning i det register som administreras av Registreringsombudet, och ska betraktas som överlämnat på den fjärde Bankdagen efter poststämpeln på brevet.

(c) ***Till Emittenten***

Meddelanden till NBAB ska betraktas som överlämnade om de levereras till Smålandsgatan 17, SE 105 71, Stockholm och om det tydligt står på utsidan "**Brådskande—Attn: Group Treasury**" och till NBF om det levereras till Aleksanterinkatu 36 B FIN-00020 Nordea (Helsingfors och om det tydligt står på utsidan "**Brådskande—Attn:Group Treasury** (eller till annan adress och för annan person som meddelats till innehavare av Lån i enlighet med detta

Villkor 16) och ska betraktas som överlämnade vid öppningsdags på nästa Bankdag då Emittentens huvudkontor är öppet.

(d) **Meddelanden avseende Lån i Schweiziska Franc**

Meddelanden avseende Lån i Schweiziska Franc ska, förutsatt att Lånen är noterade på SIX Swiss Exchange och att reglerna för SIX Swiss Exchange kräver det, betraktas som överlämnade om de offentliggörs av det schweiziska Betalningsagenten på bekostnad av Emittenten (i) på elektronisk väg på internet på hemsidan för SIX Swiss Exchange under avsnittet med rubriken "Official Notices" (där meddelanden för tillfället publiceras på adressen: [http://www.six-exchange-regulation.com/publications/published\\_notifications/official\\_notices\\_en.html](http://www.six-exchange-regulation.com/publications/published_notifications/official_notices_en.html)) eller (ii) på annat sätt i enlighet med reglerna för SIX Swiss Exchange. Meddelanden ska betraktas som överlämnade på det datum då offentliggörandet sker eller om de offentliggörs mer än en gång, på det datum då de offentliggörs första gången.

Avseende Lån i Schweiziska Franc som inte finns noterade på SIX Swiss Exchange ska meddelanden till innehavare av Lån överlämnas med hjälp av kommunikation via det schweiziska betalningsombudet till SIS (eller annan mellanhand) för vidarebefordran till Innehavare av Lån. Meddelanden som lämnas på detta sätt ska betraktas som överlämnade när kommunikationen kommer SIS tillhanda (eller annan mellanhand).

(e) **Meddelanden avseende VP-Lån**

Meddelanden avseende VP-Lån ska göras skriftligen och adresseras till Innehavare av VP-Lån på den adress som anges i det danska registret för Lån som administreras av VP:s emissionsinstitut i enlighet med reglerna för VP.

(f) **Meddelanden avseende VPS-Lån**

Meddelanden avseende VPS-Lån ska göras skriftligen och skickas med post eller elektronisk post, adresserat till Innehavare på den adress som anges i VPS-registret i enlighet med reglerna för VPS och ska betraktas som överlämnade på den fjärde Bankdagen efter poststämpeln på kuvertet.

(g) **Meddelanden avseende Svenska Lån**

Meddelanden avseende Svenska Lån ska göras skriftligen och adresseras till Innehavare på den adress som anges i Euroclear Sveriges register och ska betraktas som överlämnade på den fjärde Bankdagen efter poststämpeln på kuvertet.

(h) **Meddelanden avseende Finska Lån**

Meddelanden avseende Finska Lån ska offentliggöras av Emittenten i en rikstäckande dagstidning i den jurisdiktion där Lån har bjudits ut till allmänheten eller på Emittentens hemsida [www.nordea.fi/joukkolainat](http://www.nordea.fi/joukkolainat) eller annan hemsida som angivits i de Slutliga Villkoren för Lån i fråga. Skriftligt besked kan dessutom komma att skickas till Innehavare på den adress som finns antecknad i Emittentens register. I de fall besked har skickats ut som dematerialiserade säkerheter kan besked till Innehavare komma att skickas via Euroclear Finland och kontoansvariga. Meddelanden ska anses vara mottagna av Innehavare på den dag de publiceras i en rikstäckande dagstidning, på en relevant webbplats eller hos Euroclear Finland, eller, i de fall beskedet har skickats med brev, på den sjunde dagen efter dess avsändande.

17. **Tillhandahållande av information**

I förhållande till VP-Lån gäller att varje Innehavare samtycker till och ger godkännande till VP att till VPs Administrerande Institut på begäran tillhandahålla den information som finns registrerad hos VP som är relaterad till VP-Lån och innehavarna av VP-Lån, så att VPs Administrerande Institut kan tillhandahålla till alla relevanta danska myndigheter, inklusive det danska Finanstilsynet och de danska skattemyndigheterna all den information som erfordras under tillämpliga danska lagar. Sådan information ska inkludera, men inte vara begränsad till, identiteten på Innehavaren av VP-Lån, bostadsort för Innehavaren av VP-Lån, antalet VP-Lån hos den relevanta Innehavaren och adressen till den relevanta Innehavaren.

VPS Betalningsombud är förpliktigad, att på begäran förse alla relevanta norska myndigheter, inklusive den norska *Kredittilsynet* och den norska skattemyndigheten med information registrerad på relevant VPS-konto(n). Sådan information kan utgöras av vem som är den registrerade Innehavaren av Lånen, boplatssort för den registrerade Innehavaren av Lånen, antal Lånen registrerade för den registrerade Innehavaren av Lånen, den relevanta Innehavarens adress, den kontoansvarige med avseende på det relevanta VPS-kontot och huruvida Lånen är förvaltarregistrerade och identiteten för varje sådan förvaltare.

I förhållande till Svenska Lån gäller att varje Innehavare samtycker till och ger godkännande till Euroclear Sverige att till det svenska Administrerande Institutet på begäran tillhandahålla information till Euroclear Sverige, som är relaterad till Svenska Lån, och Innehavare av Svenska Lån, så att det svenska Administrerande Institutet kan tillhandahålla till alla relevanta svenska myndigheter, inklusive svenska Finansinspektionen och de svenska skattemyndigheterna all den information som erfordras under tillämpliga svenska lagar. Sådan information ska inkludera, men inte vara begränsad till, identiteten på den registrerade Innehavaren av Svenska Lån, bostadsort för den registrerade Innehavaren av de Svenska Lånen, antalet Svenska Lån som finns registrerade för den relevanta Innehavaren, adressen till den relevanta Innehavaren, den kontoansvarige med avseende på det relevanta kontot för Euroclear Sverige (*Kontoförande*) och huruvida de Svenska Lånen är förvaltarregistrerade och identiteten för varje sådan förvaltare.

I förhållande till Finska Lån gäller att varje Innehavare samtycker till och ger godkännande till Euroclear Finland att till det svenska Administrerande Institutet på begäran tillhandahålla information till Euroclear Finland, som är relaterad till Finska Lån, och Innehavare av Finska Lån, så att det finska Administrerande Institutet kan tillhandahålla till alla relevanta finska myndigheter, inklusive finska finansinspektionen (*Finanssivalvonta*) och de finska skattemyndigheterna all den information som erfordras under tillämpliga finska lagar. Sådan information ska inkludera, men inte vara begränsad till, identiteten på den registrerade Innehavaren av Finska Lån, bostadsort för den registrerade Innehavaren av de Finska Lånen, antalet Finska Lån som finns registrerade för den relevanta Innehavaren, adressen till den relevanta Innehavaren, den kontoansvarige med avseende på det relevanta kontot för Euroclear Finland (*Tilinhoitaja*) och huruvida de Finska Lånen är förvaltarregistrerade och identiteten för varje sådan förvaltare.

18. **Ytterligare emissioner**

Emittenten kan från tid till annan komma att, utan godkännande från Innehavarna av eventuella Lån, i varje Serie skapa och utge ytterligare Lån och andra skuldsäkerheter, som har samma föreskrifter och villkor som de som gäller för Lån i sådana serier eller desamma, med undantag för beloppet på den första utbetalningen av ränta (om det blir någon), vilka kan komma att konsolideras och bilda en enda serie tillsammans med de utestående Lånen i en sådan Serie.

19. **Tillgång till information**

Emittenten har rätt att begära och erhålla från det relevanta Clearinginstitut information rörande ett konto i det relevanta clearing-systemets innehavar-register för Lån (med undantag för Svenska Lån), inklusive, men inte begränsat till: (i) Innehavarens namn, personnummer eller annat identifieringsnummer, liksom postadress, (ii) de Lån som innehas och föreskrifterna och villkoren för sådana Lån, och (iii) där så är tillämpligt, antalet Lån och deras nominella belopp.

Med avseende på Svenska Lån har Emittenten rätt att erhålla information om sådana Lån och dess Innehavare från Euroclear Sveriges innehavarregister.

20. **Lagstiftning och jurisdiktion**

- (a) Lånen och alla utomkontraktuella förpliktelser som uppkommer utifrån eller i samband med dem kan komma att regleras av engelsk lagstiftning, svensk lagstiftning, finsk lagstiftning, dansk lagstiftning eller norsk lagstiftning, efter vad som specificeras i de Slutliga Villkoren. I förhållande till VP-Lån kommer dansk lagstiftning och jurisdiktion att vara tillämplig med avseende på registreringen av sådana sedlar i VP, och VP-Lån måste efterleva den danska lagen om värdepappershandel (*Lov om værdipapirhandel m.v.*), såsom vid var tid gällande, den danska lagen *Bekendtgørelse om registrering m.v. af fondsaktiver i en værdipapircentral*, såsom vid var tid gällande och den danska statens bestämmelse nr. 4, 4:e januari 2008, enligt ändringar. Norsk lagstiftning och jurisdiktion kommer att vara tillämplig med avseende på registreringen av

sådana VPS-Lån i VPS. Svensk lagstiftning och jurisdiktion kommer att vara tillämpbar med avseende på registreringen av sådana Svenska Lån i Euroclear Sverige, och de Svenska Lån måste efterleva Kontoföringslagen. Finsk lagstiftning och jurisdiktion kommer att vara tillämpbar med avseende på registreringen av sådana Finska Lån i Euroclear Finland, och de Finska Lånen måste efterleva den finska lagen *laki arvo-osuusjärjestelmästä ja selvitystoiminnasta* (749/2012), enligt ändringar, och den finska lagen *laki arvo-osuustileistä* (827/1991), enligt ändringar, såväl som reglerna och bestämmelserna hos Euroclear Finland.

- (b) Med förbehåll för föreskrifterna i Villkor 20(a), godtar Emittenten oåterkalleligen för sedelinnehavarnas förmån, att de engelska domstolarna ska ha domsrätt att höra och fastställa varje eventuell stämning, rättsprocess eller förhandling, och att bilägga varje tvist som kan uppkomma från eller i samband med Lån som regleras av engelsk lagstiftning (inkluderande en tvist som rör varje icke-kontraktmässig förpliktelse som uppkommer ur eller i samband med Lånen) ("**Rättsprocesser**" respektive "**Tvister**") och, för sådana ändamål, oåterkalleligen rätta sig efter domsrätten hos sådana domstolar. Emittenten avstår oåterkalleligen från varje eventuell invändning som denne nu eller i det följande skulle kunna ha gentemot de engelska domstolar som är utsedda till forum för att höra och avgöra alla eventuella Rättsprocesser, och att överenskomma alla eventuella Dispyter, och samtycker till att inte hävda att någon sådan domstol inte är ett lämpligt eller passande forum. Emittenten bekräftar att den process med vilken Tvister i England påbörjas kan delgivas Emittenten genom att delgivningen levereras till Nordea Bank Finland Plc, Londonkontoret vid deras registrerade adress i London från tid till en annan, deras nuvarande adress är 8th Floor, City Place House, 55 Basinghall Street, London EC2V 5NB eller, om annat, deras registrerade kontor kan från en tid till en annan vara någon av Emittentens adresser i Storbritannien vid vilken processen kan delges i enlighet med Companies Act 2006. Om en sådan person inte är eller upphör att vara funktionellt kapabel att ta emot delgivning på Emittentens vägnar, så ska Emittenten med omedelbar verkan utse en ytterligare person i England att kunna ta emot delgivning för process på Emittentens vägnar, och, om personen uraktlåter att sålunda utse någon inom 15 dagar, så varje Fordringshavare ha rätt att utse en sådan person med hjälp av ett skriftligt meddelande till Emittenten och levererat till Emittenten och meddelandet levererat till Emittenten eller till dennes Ekonomiska Agent. Ingenting som innehålls häri ska påverka rätten att delge process på vilket som helst annat sätt som tillåts enligt lag. Underkastelsen till Englands rättsväsen ska inte (och ska inte tolkas såsom att) det begränsar rätten för Fordringshavare eller någon av dem att vidta Rättsprocesser i någon annan domstol hos en kompetent jurisdiktion, och inte heller ska startande av Rättsprocesser i någon annan jurisdiktion förhindra att starta en Rättsprocess i någon annan jurisdiktion (vare sig Rättsprocesserna går samtidigt eller ej) om och i den utsträckning som det är tillåtet enligt tillämplig lag.
- (c) Om svensk rätt är specificerad i de Slutliga Villkoren som gällande rätt, så ska Tvister rörande tolkningen av dessa Villkor fastställas av svenska domstolar. Stockholms Tingsrätt ska vara domstol i första instans.
- (d) Om finsk rätt är specificerad i de Slutliga Villkoren som gällande rätt, så ska Tvister rörande tolkningen av dessa Villkor fastställas av finska domstolar. *Helsingin käräjäoikeus /Helsingfors' Tingsrätt* ska vara domstol i första instans.
- (e) Om dansk rätt är specificerad i de Slutliga Villkoren som gällande rätt, så ska Tvister rörande tolkningen av dessa Villkor fastställas av danska domstolar. *Københavns Byret* ska vara domstol i första instans.
- (f) Om norsk rätt är specificerad i de Slutliga Villkoren som gällande rätt, så ska Tvister rörande tolkningen av dessa Villkor fastställas av norska domstolar. *Oslo Tingrett* ska vara domstol i första instans.
- (g) Oavsett att en Fordringshavare avseende Svenska Lån under Kontoföringslagen eller de operationella procedurerna, reglerna och förordningarna hos Euroclear Sverige (tillsammans, "**Svenska Åtgärder**") kan ha rätt att vidta åtgärder gentemot Emittenten i anledning av obetalda belopp eller underlåtenhet att vidta åtgärder enligt Villkoren för sådana Svenska Lån, måste en svensk Fordringshavare uttömma alla tillgängliga åtgärder under den för Villkoren gällande rätten innan någon Rättsprocess kan bringas mot Emittenten med avseende på Svenska Åtgärder. Oavsett Villkoret 20(b), och bara i detta begränsade avseende, kan en Fordringshavare avseende Svenska Lån inte initiera samtida Rättsprocesser i Sverige.

21. **Tredjemansrättigheter**

Ingen person ska ha några rättigheter att verkställa något Villkor fört Lån under Contracts (Rights of Third Parties) Act 1999.

22. **Ansvarsbegränsningar etc.**

Emittenten och det relevanta Clearinginstitutet ska inte, i förbindelse med utförandet eller det påstådda utförandet av sina respektive skyldigheter med avseende på Lån, hållas ersättningsskyldiga för någon som helst skada som uppstår genom någon rättslig åtgärd eller annan åtgärd vidtagen av en officiell myndighet, eller krig, strejk, lockout, bojkott, blockad eller någon liknande omständighet. Reservationen gällande strejker, lockouter, bojkotter och blockader gäller även om den nämnda enheten vidtar sådana åtgärder, eller är föremål för sådana åtgärder.

Emittenten eller det relevanta Clearinginstitutet ska inte hållas ansvarigt för någon annan skada som uppstått, om denna enhet har använt normal omsorg. De förutnämnda enheterna ska inte i något fall hållas ansvariga för någon indirekt skada, följdskada och/eller förlust av vinst, annat än som ett resultat av eller i samband med grov försummelse hos Emittenten eller det relevanta Clearinginstitutet.

Skulle det föreligga något hinder för Emittenten eller det relevanta Clearinginstitutet att vidta någon åtgärd i enlighet med dessa Villkor på grund av omständigheter visade i det första stycket av detta Villkor 22 (*Ansvarsbegränsningar etc.*), så får sådana åtgärder uppskjutas tills hindret har upphört.

Reglerna enligt detta Villkor 22 (*Ansvarsbegränsningar etc.*) ska gälla om inte annat stadgat i tillämplig lag.

## DEL 2: SÄRSKILDA VILLKOR FÖR VISSA STRUKTURERADE LÅN

### 1. Marknadsavbrott

Följande bestämmelser gäller då det särskilt anges i Slutliga Villkor.

- (a) Marknadsavbrott avseende Referenstillgång föreligger om någon av följande händelser, enligt Emittentens bedömning, inträffar:
- (i) notering av officiell slutkurs för Referenstillgång eller väsentlig andel av de underliggande tillgångar som ingår i Referenstillgång saknas, är otillgänglig eller upphör;
  - (ii) i förekommande fall, om en sammanställning och/eller offentliggörande av Referenstillgångs värde upphör;
  - (iii) relevant Börs och/eller Options- eller terminsbörs öppnar inte för handel under sin normala öppettid eller stänger för handel innan ordinarie stängningstid;
  - (iv) handeln med Referenstillgång eller en väsentlig del av de underliggande tillgångar som ingår i Referenstillgång eller options- eller terminskontrakt relaterade till Referenstillgång, vilken/vilka handlas på Börs respektive Options- eller terminsbörs upphör, stoppas eller begränsas på ett väsentligt sätt;
  - (v) marknadsaktörernas möjligheter att göra avslut i eller erhålla marknadsvärden för Referenstillgång eller väsentlig del av de underliggande tillgångar som ingår i Referenstillgång eller options- eller terminskontrakt relaterade till Referenstillgång vilken/vilka handlas vid Börs respektive Options- eller terminsbörs upphör, avbryts eller försämras på ett väsentligt sätt på grund av någon annan händelse; eller
  - (vi) gällande enbart Fondobligationer, värderingen av Referenstillgång, som utgör fond eller fondandel, på en Värderingsdag för Referenstillgången uteblir eller full betalning för inlösenbeloppet avseende sådan Referenstillgång uteblir på en inlösendag för Fonden.
- (b) En begränsning av det antal timmar eller dagar när handel sker skall inte anses utgöra ett Marknadsavbrott om begränsningen följer av en offentliggjord förändring av den normala öppethållandetiden för aktuell Börs och/eller Options- eller terminsbörs.
- (c) En begränsning av handeln som införs under loppet av en dag på grund av förändringar i priser som överstiger tillåtna nivåer enligt aktuell Börs och/eller Options- eller terminsbörs skall anses utgöra ett Marknadsavbrott.
- (d) Om Marknadsavbrott enligt Emittentens bedömning inträffat på Observations-, Ombalanserings-, Start- eller Värderingsdag skall sådan Observations-, Ombalanserings-, Start- eller Värderingsdag för fastställande av Stängningskurs, Startkurs och/eller Slutkurs vara Efterföljande Börsdag (avseende respektive Påverkad Referenstillgång) då Marknadsavbrott ej föreligger för respektive Påverkad Referenstillgång, dock att om Marknadsavbrott föreligger på de åtta Börsdagar (avseende respektive Påverkad Referenstillgång) som följer omedelbart efter den ursprungliga Start- eller Stängningsdagen eller annan relevant dag såsom anges i dessa villkor skall sådan åttonde Börsdag (avseende respektive Påverkad Referenstillgång) anses vara Observations-, Ombalanserings-, Start- eller Värderingsdag eller annan relevant dag såsom anges i dessa villkor oberoende av att Marknadsavbrott föreligger, och Emittenten skall då fastställa det värde av Stängningskurs, Startkurs och/eller Slutkurs som skall tillämpas vid beräkningen av Återbetalningsbelopp, Räntebelopp eller vid annan beräkning enligt dessa Villkor.
- (e) Emittenten äger göra samtliga de tillägg och justeringar till Villkoren som Emittenten bedömer vara nödvändiga i samband med Marknadsavbrott eller Avbrott.

## 2. Marknadsavbrott Råvara

Följande bestämmelser gäller då det särskilt anges i Slutliga Villkor.

- (a) Marknadsavbrott avseende Referenstillgång föreligger om någon av följande händelser, enligt Emittentens bedömning, inträffar:
- (i) notering, sammanställning, beräkning eller offentliggörande av officiell slutkurs för Referenstillgång eller de underliggande tillgångar som ingår i Referenstillgång saknas, är otillgänglig eller upphör;
  - (ii) notering, sammanställning, beräkning eller offentliggörande av Referenstillgångs värde eller värdet av de underliggande tillgångar som ingår i Referenstillgång saknas, är otillgänglig eller upphör;
  - (iii) relevant Börs öppnar inte för handel under sin normala öppettid;
  - (iv) handeln med Referenstillgång eller de underliggande tillgångar som ingår i Referenstillgång eller options- eller terminskontrakt relaterade till Referenstillgång, vilken/vilka handlas på Börs upphör, stoppas eller begränsas på ett väsentligt sätt;
  - (v) marknadsaktörernas möjligheter att göra avslut i eller erhålla marknadsvärden för Referenstillgång eller väsentlig del av de underliggande tillgångar som ingår i Referenstillgång eller options- eller terminskontrakt relaterade till Referenstillgång, vilken/vilka handlas på Börs upphör eller avbryts eller försämras på ett väsentligt sätt på grund av någon annan händelse;
  - (vi) sättet att beräkna Referenstillgång eller de underliggande tillgångar som ingår i Referenstillgång eller värdet därav förändras på ett väsentligt sätt;
  - (vii) innehåll, sammanställning eller struktur av Referenstillgång eller de underliggande tillgångar som ingår i Referenstillgång eller relevanta options- eller terminskontrakt förändras på ett väsentligt sätt; eller
  - (viii) införande, ändring eller upphävande av skattebestämmelse för Referenstillgång eller skattebestämmelse för skatt som beräknas med hänvisning till de underliggande tillgångar som ingår i Referenstillgång (dock ej skatt på eller som beräknas med hänvisning till brutto- eller nettointkomst) efter Startdagen vilken gör att slutkursen på Värderingsdagen förändras i förhållande till hur den skulle ha blivit om skattebestämmelsen inte hade införts, ändrats eller upphävts.
- (b) Om Marknadsavbrott enligt Emittentens bedömning inträffat på Observations-, Ombalanserings-, Start- eller Värderingsdag skall sådan Observations-, Ombalanserings-, Start- eller Värderingsdag för fastställande av Stängningskurs, Startkurs och/eller Slutkurs vara Efterföljande Börsdag (avseende respektive Påverkad Referenstillgång) då Marknadsavbrott ej föreligger för respektive Påverkad Referenstillgång, dock att om Marknadsavbrott föreligger på de åtta Börsdagar (avseende respektive Påverkad Referenstillgång) som följer omedelbart efter den ursprungliga Start- eller Stängningsdagen eller annan relevant dag såsom anges i dessa villkor skall sådan åttonde Börsdag (avseende respektive Påverkad Referenstillgång) anses vara Observations-, Ombalanserings-, Start- eller Värderingsdag eller annan relevant dag såsom anges i dessa villkor oberoende av att Marknadsavbrott föreligger, och Emittenten skall då fastställa det värde av Stängningskurs, Startkurs och/eller Slutkurs som skall tillämpas vid beräkningen av Återbetalningsbelopp eller vid annan beräkning enligt dessa Villkor.
- (c) Om Emittenten bedömer att det inte är möjligt eller inte skulle ge ett skäligt resultat att fastställa eller ersätta värdet av Påverkad Referenstillgång vid sådant Marknadsavbrott, får Emittenten göra en förtida beräkning av Återbetalningsbeloppet och/eller avkastningen eller Räntebeloppet och fastställa Återbetalningsbeloppet och/eller avkastningen eller Räntebeloppet. Då Emittenten fastställt Återbetalningsbeloppet och/eller avkastningen eller Räntebeloppet skall Emittenten informera Fordringshavarna om Återbetalningsbeloppet och/eller avkastningens eller Räntebeloppets storlek och till vilken räntesats Lånet fortsättningsvis löper. Emittenten skall på Återbetalningsbeloppet erlagga marknadsmässig ränta. Återbetalningsbeloppet (jämta upplupen ränta, om någon) återbetalas på Återbetalningsdagen.

- (d) Emittenten äger göra samtliga de tillägg och justeringar till Villkoren som Emittenten bedömer vara nödvändiga i samband med Marknadsavbrott.

### 3. **Avbrott Valuta**

Följande bestämmelser gäller då det särskilt anges i Slutliga Villkor.

- (a) Avbrott avseende Valutakurs (inklusive avseende Valutakurs som utgör en Referenstillgång) föreligger om någon av följande händelser, enligt Emittentens bedömning, inträffar:
  - (i) om avista- eller terminskurs inte finns att tillgå för Valutakursen eller de underliggande tillgångar som ingår i Valutakursen;
  - (ii) om beräkning eller offentliggörande av slutkurs/växelkurs/valutakurs på angiven referensskälla för en Valutakurs eller de underliggande tillgångar som ingår i Valutakursen saknas är otillgänglig eller upphör att publiceras på angiven referensskälla;
  - (iii) en väsentlig prisavvikelse mellan priset på olika valutor, växelkurser och/eller valutakurser;
  - (iv) om en kvotering av avista- och/eller terminskurs inte kan erhållas på föranstaltat minimibelopp i en eller ett rimligt antal valutatransaktioner som tillsammans uppgår till föranstaltat minimibelopp; eller
  - (v) om valutareglering eller valutarestriktioner införs som påverkar möjligheten att utväxla valuta som utgör en Valutakurs mot annan valuta samt att föra ut valuta ur relevant jurisdiktion.
- (b) Om Avbrott enligt Emittentens bedömning inträffat på Observations-, Ombalanserings-, Start-, Värderingsdag, Startdag Valuta eller Värderingsdag Valuta skall Emittenten fastställa värdet av Valutakurs, Valutakvot, Startkurs, Slutkurs eller Stängningskurs på basis av all tillgänglig information som Emittenten bedömer vara relevant vid beräkningen av Återbetalningsbelopp, Räntebelopp eller annat relevant värde.
- (c) Emittenten äger göra samtliga de tillägg och justeringar till Villkoren som Emittenten bedömer vara nödvändiga i samband med Avbrott.

### 4. **Ändrad Beräkning**

Följande bestämmelser gäller då det särskilt anges i Slutliga Villkor.

- (a) Om sammanställning, beräkning eller offentliggörande av någon Referenstillgång skulle upphöra, helt eller delvis eller Referenstillgångens egenskaper skulle förändras på ett väsentligt sätt, enligt Emittentens bedömning, äger Emittenten vid beräkningen av Återbetalningsbeloppet ersätta sådan Påverkad Referenstillgång med ett jämförbart alternativ. Skulle ett jämförbart alternativ till sådan Påverkad Referenstillgång, enligt Emittentens bedömning, inte sammanställas, beräknas och offentliggöras, eller om sättet att beräkna någon Påverkad Referenstillgång eller värdet därav förändras på ett väsentligt sätt, enligt Emittentens bedömning, äger Emittenten göra sådana justeringar i beräkningen såsom Emittenten på goda grunder anser nödvändiga i syfte att uppnå en beräkning av värdet av Påverkad Referenstillgång som avspeglar och är grundad på hur denna tidigare sammanställts, beräknats och offentliggjorts. Det sålunda beräknade värdet skall då ersätta värdet av Påverkad Referenstillgång vid beräkning av relevant Återbetalningsbelopp eller Räntebelopp.
- (b) Om Emittenten bedömer att det inte skulle ge ett skäligt resultat att ersätta Påverkad Referenstillgång eller justera tillämplig beräkning, får Emittenten göra en förtida beräkning av Återbetalningsbeloppet och/eller avkastningen och fastställa Återbetalningsbeloppet och/eller avkastningen. Då Emittenten fastställt Återbetalningsbeloppet och/eller avkastningen eller Räntebeloppet skall Emittenten informera Fordringshavarna om Återbetalningsbeloppets och/eller avkastningens eller Räntebeloppets storlek och till vilken räntesats Lånet fortsättningsvis löper. Emittenten skall på Återbetalningsbeloppet erlagga marknadsmässig ränta. Återbetalningsbeloppet (jämte upplupen ränta, om någon) återbetalas på Återbetalningsdagen.

- (c) Emittenten äger göra samtliga de tillägg och justeringar till Allmänna Villkor och Slutliga Villkor som Emittenten bedömer vara nödvändiga i samband med Ändrad Beräkning.

5. **Korrigerings**

Följande bestämmelse gäller då det särskilt anges i Slutliga Villkor.

Om den officiella stängningskursen för Referenstillgång blir korrigerad inom det antal dagar från det ursprungliga offentliggörandet som normalt förflyter mellan avslut och likviddag vid avistahandel med Påverkad Referenstillgång eller med de underliggande tillgångar som ingår i Referenstillgång, dock senast tre Börsdagar efter Värderingsdagen eller Observationsdagen, och sådan kurs använts för att bestämma en Stängningskurs och/eller Start- och/eller Slutkurs äger Emittenten göra motsvarande korrigerings.

6. **Korrigerings Råvara**

Följande bestämmelser gäller då det särskilt anges i Slutliga Villkor.

Om den officiella stängningskursen för Referenstillgång blir korrigerad inom 30 dagar från det ursprungliga offentliggörandet och sådan kurs använts för att bestämma en Stängningskurs och/eller Start- och/eller Slutkurs äger Emittenten göra motsvarande korrigerings.

7. **Korrigerings Valuta**

Följande bestämmelser gäller då det särskilt anges i Slutliga Villkor.

Om den officiella stängningskursen för Referenstillgång blir korrigerad och sådan kurs använts för att bestämma en Stängningskurs och/eller Start- eller Slutkurs äger Emittenten göra motsvarande korrigerings, dock ej senare än sex Handelsdagar Valuta från det att den officiella stängningskursen för Referenstillgång blev offentliggjord.

8. **Särskilda Händelser**

Följande bestämmelser gäller då det särskilt anges i Slutliga Villkor.

- (a) Om avnotering, nationalisering, konkursförfarande, likvidation, företagsrekonstruktion, tvångsinlösen, fusion, fission, verksamhetsöverlåtelse, aktieutbyte, utbyteserbjudande, offentligt uppköpserbjudande eller annan liknande händelse, enligt Emittentens bedömning, inträffar beträffande Referenstillgång eller avseende företag till vilka Referenstillgången relaterar, eller om split, nyemission, fondemission, utgivande av optioner eller konvertibler, sammanläggning eller återköp såvitt avser Referenstillgång, enligt Emittentens bedömning, sker, eller annan händelse sker som närmare anges i dessa Slutliga Villkor eller som enligt praxis på marknaden för aktierelaterade derivatprodukter kan föranleda justering i beräkningar under utestående transaktioner (varje sådan en "Särskild Händelse"), äger Emittenten göra sådana justeringar i beräkningen av Återbetalningsbelopp, Räntebelopp och/eller sammansättningen av Referenstillgångar, eller ersätta Påverkad Referenstillgången med en Ersättande Referenstillgång, som Emittenten därmed anser nödvändiga i syfte att uppnå en beräkning av Återbetalningsbeloppet som avspeglar och är grundad på hur denna tidigare beräknats.
- (b) Om Emittenten bedömer att det inte skulle ge ett skäligt resultat att ersätta Påverkad Referenstillgången eller justera tillämplig beräkning eller sammansättningen av Referenstillgångar, får Emittenten göra en förtida beräkning av Återbetalningsbeloppet och/eller avkastningen eller Räntebeloppet och fastställa Återbetalningsbeloppet och/eller avkastningen eller Räntebeloppet. Då Emittenten fastställt Återbetalningsbeloppet och/eller avkastningen eller Räntebeloppet skall Emittenten informera Fordringshavarna om Återbetalningsbeloppet och/eller avkastningens eller Räntebeloppets storlek och till vilken räntesats Lånet fortsättningsvis löper. Emittenten skall på Återbetalningsbeloppet erlagga marknadsmässig ränta. Återbetalningsbeloppet (jänte upplupen ränta, om någon) återbetalas på Återbetalningsdagen.
- (c) Emittenten äger göra samtliga de tillägg och justeringar till Villkoren som Emittenten bedömer vara nödvändiga i samband med Särskilda Händelser.

### DEL 3: SÄRSKILDA VILLKOR FÖR KREDITLÄNKADE LÅN

Följande bestämmelser gäller då det särskilt anges i Slutliga Villkor.

|                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| Obligation:                         | Varje Skuldförbindelse som är i formen av, eller representeras av, en obligation, skuldebrev, skuldinstrument i fysisk form eller annan skuldförbindelse.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Anståndsperiod:                     | Avser: (i) anståndsperiod för betalning, vilken har avtalats i samband med utgivandet eller upptagandet av en Skuldförbindelse såsom tillämplig vid senare av Lånedatum för Lånen eller dagen då sådan Skuldförbindelse emitterades eller uppstod; eller (ii) om sådan anståndsperiod inte avtalats eller den avtalade anståndsperioden är kortare än tre (3) Bankdagar, så skall Anståndsperioden vara tre (3) Bankdagar, dock gäller att Anståndsperiod skall anses löpa ut senast på Återbetalningsdagen.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Offentligt Tillgänglig Information: | Avser information som bekräftar att en Kredithändelse har inträffat och: (i) som har offentliggjorts i minst en Nyhetskälla; (ii) som är information som offentliggjorts av relevant Referensbolag eller agent, trustee eller liknande för relevant Skuldförbindelse; (iii) som är information baserad på innehåll i konkursansökan, konkursbeslut, korrespondens med myndigheter, domstolar eller liknande, eller annan likartad information; eller (iv) Beräkningagenten bekräftar i intyg till Emittenten att Kredithändelse har inträffat och Kredithändelsens natur.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Potentiellt Avstående/Moratorium:   | Avser inträffandet av den händelse som beskrivs i (i) i definitionen av Avstående/Moratorium.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Ersättande Referenstillgång:        | Sådan Referenstillgång som Emittenten bestämmer.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Insolvensförarande:                 | <p>Avser att något av Referensbolagen;</p> <ul style="list-style-type: none"> <li>(a) upplöses (annat än genom fusion);</li> <li>(b) blir insolvent, blir oförmögen att betala sina skulder vid förfall, ställer in betalningarna eller skriftligen i ett rättegångsförfarande, administrativt förfarande, myndighetsförfarande eller annars medger eller förklarar generell oförmåga att betala sina skulder vid förfall;</li> <li>(c) genomför en generell överlåtelse, förlikning, rekonstruktion eller liknande åtgärd med avseende på tillgångar eller skulder till förmån för sina borgenärer;</li> <li>(d) inleder eller blir föremål för förfarande som syftar till en dom eller ett beslut om insolvens, betalningsoförmåga eller konkurs, eller annat beslut med stöd av konkurs-, insolvens- eller liknande lagar eller förordningar som påverkar borgenärers rätt (innefattande även företagsrekonstruktion), eller ansökan om att upplösa eller försätta Referensbolaget i likvidation har lämnats och ett sådant förfarande eller en sådan ansökan: <ul style="list-style-type: none"> <li>(i) leder till en dom eller ett beslut om insolvens, betalningsoförmåga eller konkurs, ett beslut som generellt påverkar borgenärernas rätt eller ett beslut om att försätta det relevanta Referensbolaget i likvidation, eller</li> <li>(ii) inte återkallas, ogillas, avskrivs, avbryts eller generellt begränsas inom trettio dagar efter det att förfarandet inletts eller ansökan inlämnats;</li> </ul> </li> <li>(e) omfattas av ett beslut av bolagsstämma eller annat organ om att upplösa Referensbolaget, ställa Referensbolaget under företagsrekonstruktion eller tvångsförvaltning, eller försätta Referensbolaget i likvidation (annat än genom fusion);</li> <li>(f) ansöker om eller blir föremål för ett förordnande om förvaltare</li> </ul> |

(innefattande varje form av konkurs- eller insolvensförvaltning), syssloman, utredningsman, god man eller annan motsvarande befattningshavare med avseende på Referensbolaget och samtliga eller en väsentlig del av Referensbolagets tillgångar;

- (g) låter en borgenär med säkerhet i någon av Referensbolagets tillgångar komma i besittning av samtliga eller en väsentlig del av Referensbolagets tillgångar eller Referensbolaget blir föremål för utmätning, kvarstad, annan verkställighetsåtgärd eller annat förfarande med avseende på samtliga eller en väsentlig del av Referensbolagets tillgångar, och sådan borgenär behåller besittningen eller sådant förfarande inte återkallas, ogillas, avskrivs, avbryts eller begränsas inom trettio dagar; eller
- (h) orsakar eller utsätts för en händelse eller omständighet som enligt en på Referensbolaget tillämplig lag har motsvarande effekt som en eller flera av de händelser som nämns i punkterna (a)-(g).

Korg: Avser den korg av Referenstillgångar såsom anges i Slutliga Villkor.

Nyhetskälla: Nyhetskälla såsom Bloomberg Service, Dow Jones Telerate Service, Reuter Monitor Money Rates Services, Dow Jones News Wire, Wall Street Journal, New York Times, NihonKezain Shinbun, Asahi Shinbun, Yomiuri Shinbun, Financial Times, La Tribune, Les Echos, The Australian Financial Review (eller ersättande publikation eller elektronisk nyhetskälla), huvudkällan för affärsnyheter i Referensbolagets hemlandsjurisdiktion och varje annan internationellt erkänd nyhetskälla.

Stat: Avser en stat eller dessa administrativa organ eller politiska underdivisioner (såsom regering, ministerium, civilförvaltning och liknande), myndigheter som bedriver ekonomisk verksamhet, myndigheter, centralbanker, kommuner, städer, och andra funktioner som kan åtnjuta juridisk immunitet.

Omläggning av Skulder: (a) Med "Omläggning av Skulder" avses, i förhållande till en eller flera Skuldförbindelser, att (A) antingen det relevanta Referensbolaget eller en domstol, skiljenämnd, centralbank, myndighet eller annat offentligrättsligt eller privaträttsligt organ med normgivningsmakt träffar överenskommelse med innehavaren/innehavarna av Skuldförbindelsen med bindande verkan för samtliga innehavare av Skuldförbindelsen med den innebörd som framgår i någon av punkterna (i)-(v) nedan, eller (B) att Referensbolaget eller en domstol, skiljenämnd, centralbank, myndighet eller annat offentligrättsligt eller privaträttsligt organ med normgivningsmakt tillkännager eller förordnar en eller flera av de i punkterna (i)-(v) nedan nämnda åtgärderna med bindande verkan för samtliga innehavare av Skuldförbindelsen. Därutöver förutsätts att den Skuldförbindelse eller de Skuldförbindelser som är föremål för åtgärden/åtgärderna i punkterna (i)-(v) nedan sammanlagt uppgår till Tröskelbeloppet.

- (i) en minskning av räntesats, räntebelopp eller upplupen ränta;
- (ii) en minskning av kapitalbelopp, avgift eller liknande belopp som förfaller till betalning på slutförfallodagen eller på annan förfallodag;
- (iii) en senareläggning eller annat uppskjutande av (A) förfallodagen för betalning av ränta eller tidpunkten för ränteberäkning eller (B) förfallodagen för betalning av kapitalbelopp, avgift eller liknande belopp;
- (iv) en förändring av Skuldförbindelsens förmånsrätt som innebär

att Skuldförbindelsen blir efterställd i förhållande till någon annan Skuldförbindelse; eller

- (v) en ändring av den valuta (eller i sammansättningen av valutor) i vilken betalning av ränta, kapitalbelopp eller avgift under Skuldförbindelsen skall erläggas, om ändring sker till någon annan valuta än en valuta som är:
  - (A) lagligt betalningsmedel i något av G7-länderna (inklusive tillkommande G7-länder, om nya medlemmar antas till G7-gruppen), eller
  - (B) lagligt betalningsmedel i något land, som vid tiden för ändringen ifråga är OECD-medlem och vars hemmavaluta har en långfristig rating som är antingen minst AAA hos Standard & Poor's, a division of The MacGraw-Hill Companies, Inc (eller hos en eventuell efterträdare till deras ratingverksamhet), minst Aaa hos Moody's Investor Service, Inc (eller hos en eventuell efterträdare till deras ratingverksamhet) eller minst AAA hos Fitch Ratings (eller hos en eventuell efterträdare till deras ratingverksamhet).
- (b) Inget av följande skall utgöra en "Omläggning av Skulder":
  - (i) betalning i euro av ränta eller kapitalbelopp avseende en Skuldförbindelse i en till Europeiska unionen hörande medlemsstats nationella valuta, då medlemsstaten ifråga har infört eller ska införa den gemensamma valutan enligt fördraget om etablerandet av den Europeiska Gemenskapen;
  - (ii) om någon av de i punkterna (a) (i)-(v) ovan nämnda åtgärderna inträffar, avtalas eller tillkännages som en följd av en administrativ, bokföringsmässig, skattemässig eller annan teknisk justering eller korrigering inom ramen för normal affärsverksamhet;
  - (iii) om någon av de i punkterna (a) (i)-(v) ovan nämnda händelserna inträffar, avtalas eller tillkännages under omständigheter som innebär att händelsen inte är en direkt eller indirekt följd av en försämring av Referensbolagets kreditvärdighet eller finansiella ställning.
- (c) I punkterna (a) och (b) ovan avses med "Skuldförbindelse" även de förbindelser för vilka Referensbolaget har ställt en garanti eller borgen, varvid med Referensbolag i punkt (a) avses gäldenären i den förbindelse för vilken borgen eller garanti ställts och i punkt (b) avses Referensbolaget.

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Referensbolag:          | Varje bolag (inklusive Ersättande Referenstillgång) vilket från tid till annan utgör Referenstillgång).                                                                                                                                                                                                                                                                                                                                                            |
| Referenstillgång:       | Varje Referensbolag och Stat som från tid till annan ingår i Korgen.                                                                                                                                                                                                                                                                                                                                                                                               |
| Skuldförbindelse:       | Referensbolags samtliga nuvarande, framtida, villkorade eller övriga betalningsförpliktelser under (a) med upplåning förknippade avtal, såsom bland annat kreditavtal, obligations-, eller certifikatlån (oavsett löptid) eller finansieringslimiter, betalningsförpliktelse avseende insättning eller remburs och (b) borgen eller annan skriftlig garanti eller förbindelse, som ett Referensbolag ställt eller ställer för någon annans betalningsförpliktelse. |
| Uppsägning av Åtagande: | En eller flera Skuldförbindelser som tillsammans uppgår till det belopp som anges i Slutliga Villkor (" <b>Uppsägning av Åtagande – Belopp</b> ") förfaller                                                                                                                                                                                                                                                                                                        |

till förtida betalning (genom uppsägning eller på annat sätt) som ett resultat av, eller på basis av att en uppsägningsgrund inträffar eller annat liknande villkor eller händelse som relaterar till Referenstillgången (och sådant kontraktsbrott inte relaterar till Utebliven Betalning).

**Utebliven Betalning:** Ett Referensbolags eller Stats underlåtenhet att i enlighet med villkoren för en eller flera Skuldförbindelser erlagga förfallen betalning (och efter att eventuell Anståndsperiod löpt ut) och det belopp som är förfallet till betalning eller summan av de belopp som är förfallna till betalning uppgår till lägst det belopp som anges i Slutliga Villkor ("**Utebliven Betalning – Belopp**").

**Ersättande Referensbolag:** Avser vardera bolag som var för sig övertar (direkt eller indirekt) 25 % eller mer av Skuldförbindelserna från ett Referensbolag genom en Särskild Händelse. Om mindre än 25 % av Skuldförbindelserna stannar hos Referensbolaget skall Referensbolaget upphöra att vara ett "Referensbolag". Om något bolag övertar 75% av Skuldförbindelserna genom en Särskild händelse ska sådant bolag ensamt utgöra Ersättande Referensbolag. Om ett eller flera bolag var för sig övertar en del av Skuldförbindelserna men inget bolag övertar mer än 25 % av Skuldförbindelserna och det relevanta Referensbolaget upphör att existera, skall det eller de bolag som övertar störst andel av Skuldförbindelserna utgöra Ersättande Referensbolag och Referensbolaget skall upphöra att vara ett "Referensbolag".

Emittenten ska utföra de beräkningar och avgöranden som är nödvändiga för att kunna bestämma om trösklarna som anges ovan har passerats och ska meddela parterna om detta. Emittenten ska göra relevanta justeringar i Slutliga Villkor för att reflektera att ett Ersättande Referensbolag och omfattningen av Skuldförbindelser samt samtliga övriga ändringar som Emittenten finner nödvändiga i anslutning till en Särskild Händelse.

**Särskild Händelse:** För det fall samtliga eller merparten av ett Referensbolags Skuldförbindelser genom lag eller avtal, direkt eller indirekt övergår till en eller flera juridiska personer genom fusion, sammanslagning, överlåtelse av tillgångar eller skulder, fission, uppdelning, avyttring eller annan liknande händelse skall vad som anges under Effekt av Särskild Händelse nedan, gälla. Särskild Händelse är inte tillämplig för det fall ett Referensbolags samtliga förpliktelser byts ut mot ett annat bolags förpliktelser, i annat fall än om sådant utbyte sker i samband med någon av de händelser som anges ovan.

Emittenten skall fastställa om en Särskild Händelse föreligger och skall utföra de beräkningar och bedömningar som föranleds av vad som anges under "Ersättande Referensbolag" nedan och underrätta Fordringshaverna därom.

Emittenten äger rätt att med bindande verkan för Fordringshaverna genomföra de justeringar till Slutliga Villkor som Emittenten anser vara behövliga i anledning av att en Särskild Händelse har inträffat eller förväntas inträffa.

**Effekt av Särskild Händelse:** För det fall Emittenten bedömer att en Särskild Händelse har inträffat (vilken kan inträffa upp till 90 dagar innan första dagen i Observationsperioden, i enlighet med definitionen av "Succession Event Backstop Date" i ISDA Definitionerna (se "Övriga Bestämmelser" nedan), skall det Ersättande Referensbolaget, från och med den dag som Beräkningsagenten bestämmer, ersätta det relevanta Referensbolaget som "Referensbolag" vid tillämpning av villkoren för Lånet. Emittenten har rätt att i fall av Särskilda Händelser justera det eller de relevanta Referensbolagens, eller Ersättande Referensbolagens, andelstal i korgen.

Uppskjuten Betalning:

Om Hedging Party inte har möjlighet att bestämma Återbetalningsbeloppet med avseende på en eller flera Referenstillgångar innan den Planerade Återbetalningsdagen eftersom ett auktionsförfarande in har avslutats, eller av någon annan anledning, eller om Emittenten eller den relevanta Hedging Party rimligen bedömer att den inte kommer att ta emot det fulla av Återbetalningsbeloppet vid eller innan den Planerade Återbetalningsdagen eller Förtida Återbetalningsdag (såsom tillämpligt) (varje sådan händelse kallas en "**Uppskjuten Återbetalning**"), ska Emittenten omedelbart meddela Fordringshavarna om detta (ett "**Meddelande om Uppskjuten Återbetalning**").

Efter ett Meddelande om Uppskjuten Återbetalning ska Emittenten göra en delåterbetalning av Lån på (i) den planerade Återbetalningsdagen eller den förtida återbetalningsdagen förutsatt att, och i den utsträckning som, Hedging Party har mottagit (eller anses ha mottagit) någon del av tillgångarnas Återbetalningsbelopp ej senare än på den tionde Bankdagen innan sådant datum, och därefter (ii) inom fem Bankdagar efter varje datum då Hedging Party mottar (eller anses ha mottagit) alla eller delar av Återbetalningsbeloppet (varje sådant datum kallas för en "**Uppskjutet Återbetalningsdag**").

Beloppet för varje sådan delåterbetalning av Lån ska beräknas i enlighet med formeln för beräkning av Återbetalningsbelopp angivet ovan och för detta ändamål ska "**Återbetalningsbeloppet**" anses vara det senaste delbeloppet av de Återbetalningsbelopp som mottagits (eller anses ha mottagits) av Hedging Party innan den relevanta Uppskjutna Återbetalningsdagen och "Avgiften" ska anses vara den totala avgiften per det relevanta Uppskjutna Återbetalningsdagen minus den eventuella del av Avgiften som tidigare har avdragits från (i) Återbetalningsbelopp eller (ii) Återbetalningsbeloppet i anknytning till tidigare delåterbetalningar av Lån.

Summan av alla delinlösenbetalningar ska aldrig överstiga de totala Återbetalningsbeloppen som Hedging Party har mottagit (eller anses ha mottagit) på eller innan Back-Stop datumet minus (i) totala Avgifter och minus (ii) den totala summan av alla Skatter.

Om Emittenten har fastställt att en Uppskjuten Återbetalning har inträffat och fortgår, och att det skäligen kan förväntas att någon del av Återbetalningsbeloppen inte har mottagits av Hedgingparten på eller innan Back-Stop datumet, kan Emittenten (i) förlänga Back-Stop datumet för att detta ska anpassas till förväntade framtida erhållna Återbetalningsbelopp i enlighet med det som fastställts av Emittenten, eller (ii) genom meddelande till Innehavarna och till relevanta Clearingsystem terminera Lånen med omedelbar effekt varpå Emittenten inte ska vara förpliktigad att göra, och Fordringshavare ej heller ska vara berättigade att motta, någon återbetalning eller andra belopp med avseende till Lånen.

Återbetalningsbelopp som har mottagits av Emittenten eller Hedging Party efter Back-Stop datumet ska inte betalas till Innehavarna och Innehavarna ska inte ha någon rätt att motta någon sådan återstående del av Återbetalningsbeloppet efter Back-Stop datumet.

Övriga Bestämmelser:

I händelse av oklarhet rörande tolkningen eller tillämpningen av viss bestämmelse för Lånet skall ledning sökas i de definitioner som publicerats av ISDA under benämningen "2003 ISDA Credit Derivatives Definitions" jämte samtliga från tid till annan publicerade tillägg ("**ISDA Definitionerna**").

#### DEL 4: SÄRSKILDA VILLKOR FÖR FONDLÄNKADE LÅN

Följande bestämmelser gäller då det särskilt anges i Slutliga Villkor.

|                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

Fonden eller Fondbolaget fusioneras eller blir föremål för försäljning helt eller delvis;</li><li>9. Fond bryter mot de bestämmelser som gäller för Fondens verksamhet vilket inkluderar dess investment guidelines och Fondens konstituerande dokument;</li><li>10. Fond eller Fondbolag genomför förändringar i bestämmelserna för Fonden eller Fondens verksamhet såsom förändring av riskprofilen i Fonden, förändring i rösträtten för fondandelarna, förändring görs av investeringsriktlinjerna för Fonden, förändring av vilken valuta</li></ol> |

fondandelarna är denominerade i eller sådan annan förändring som Emittenten bedömer är av materiell betydelse;

11. Fonden bryter mot avtal som den är bunden av eller mot domstols eller annan myndighets beslut;
12. ändring i lag, förordning eller annat regelverk (inklusive skattelagstiftning och redovisningsregler), eller beslut av myndighet, domstol eller annat organ som har en negativ effekt på Fond eller Fondbolag eller Emittentens möjligheter att investera i eller inlösa Referenstillgången;
13. Fond, Fondbolag, administratör, förvaringsinstitut eller styrelse blir föremål för utredning, process eller liknande från myndigheter eller annan som avser överträdelse av relevant lagstiftning eller andra regler som är tillämpliga för Fond, Fondbolag, administratör, förvaringsinstitut eller styrelse eller tillståndet att bedriva relevant verksamhet för någon av dessa dras in;
14. Fondbolaget, administratören, förvaringsinstitutet eller styrelsen byts ut;
15. Referenstillgången konverteras till annan fondandel;
16. Referenstillgången omfattas av tvångsinlösen eller tvångsförsäljning;
17. Fond har inte möjlighet att genomföra investeringar;
18. en förändring sker med avseende på någon av Fondernas derivatinstrument som på ett ogynnsamt påverkar värdet av dess fondandelar eller Fondens möjlighet att medge inlösen därav;
19. Fonden, Fondbolaget eller administratören av Fonden underlåter att tillhandahålla sådan information inom sådan tidsgräns som någon av dessa har åtagit sig att tillhandahålla information till en eller flera investerare;
20. händelse som, enligt Emittentens bedömning, har en negativ effekt på tillämpningen av Slutliga Villkor.

Om en Fondhändelse inträffar med avseende på en eller flera Fonder som utgör en Referenstillgång äger Emittenten göra sådana justeringar i beräkningen av Återbetalningsbelopp, Räntebelopp och/eller sammansättningen av Referenstillgångar, eller ersätta Påverkad Referenstillgången med en Ersättande Referenstillgång, som Emittenten därmed anser nödvändiga i syfte att uppnå en beräkning av Återbetalningsbeloppet som avspeglar och är grundad på hur denna tidigare beräknats.

Om Emittenten bedömer att det inte skulle ge ett skäligt resultat att ersätta Påverkad Referenstillgången eller justera tillämplig beräkning eller sammansättningen av Referenstillgångar, får Emittenten senarelägga Back Stop-Datomet att infalla på ett datum enligt Emittentens bedömning, eller göra en förtida beräkning av Återbetalningsbeloppet och/eller avkastningen eller Räntebeloppet och fastställa Återbetalningsbeloppet och/eller avkastningen eller Räntebeloppet. Då Emittenten fastställt Återbetalningsbeloppet och/eller avkastningen eller Räntebeloppet skall Emittenten informera Fordringshavarna om Återbetalningsbeloppet och/eller avkastningens eller Räntebeloppets storlek och till vilken räntesats Lånet fortsättningsvis löper. Emittenten skall på Återbetalningsbeloppet erlagga marknadsmässig ränta. Återbetalningsbeloppet (jämta upplupen ränta, om någon) återbetalas på Återbetalningsdagen.

Emittenten äger göra samtliga de tillägg och justeringar till Villkoren som Emittenten bedömer vara nödvändiga i samband med Fondhändelser.

## FORMS OF FINAL TERMS FOR NOTES

### MALLAR FÖR SLUTLIGA VILLKOR FÖR LÅN

*Form of Final Terms for Certain Structured Notes with a denomination of less than €100,000 to be admitted to trading on the Main Securities Market of the Irish Stock Exchange and/or offered to the public in the EEA*

*Mall för Slutliga Villkor för Särskilda Strukturerade Lån med valörer om mindre än €100 000 som ska bli föremål för handel på Irish Stock Exchanges Main Securities Market och/eller erbjudas till allmänheten inom EES.*

#### IMPORTANT NOTICE

#### VIKTIGT MEDDELANDE

***In accessing the attached final terms (the "Final Terms") you agree to be bound by the following terms and conditions.***

***Genom att ta del av de bilagda slutliga villkoren ("Slutliga Villkoren") godkänner du att bli bunden av följande villkor.***

The information contained in the Final Terms may be addressed to and/or targeted at persons who are residents of particular countries only as specified in the Final Terms and/or in the Base Prospectus (as defined in the Final Terms) and is not intended for use and should not be relied upon by any person outside those countries and/or to whom the offer contained in the Final Terms is not addressed. **Prior to relying on the information contained in the Final Terms, you must ascertain from the Final Terms and/or the Base Prospectus whether or not you are an intended addressee of the information contained therein.**

Informationen i dessa Slutliga Villkor är endast adresserad till och/eller riktad till personer som bor i de särskilda länder som anges i de Slutliga Villkoren och/eller i Grundprospektet (definierat i de Slutliga Villkoren) och är inte ämnad för användning och ska inte förlitas på av någon person utanför de länderna och/eller till vilka erbjudandet i dessa Slutliga Villkor inte är adresserat. **Innan du förlitar dig på innehållet i dessa Slutliga Villkor måste du säkerställa att du är en avsedd adressat av informationen i de Slutliga Villkoren och/eller Grundprospektet.**

Neither the Final Terms nor the Base Prospectus constitutes an offer to sell or the solicitation of an offer to buy securities in the United States or in any other jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration, exemption from registration or qualification under the securities law of any such jurisdiction.

Varken de Slutliga Villkoren eller Grundprospektet utgör ett erbjudande att sälja eller en inbjudan att köpa värdepapper i USA eller i någon annan jurisdiktion i vilka ett sådant erbjudande, inbjudan eller försäljning skulle vara olagligt innan de har registrerats, ett undantag från registrering har erhållits eller enligt annan bestämmelse under värdepapperslagarna i en sådan jurisdiktion.

The securities described in the Final Terms and the Base Prospectus have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**") and may not be offered or sold directly or indirectly within the United States or to, or for the account or benefit of, U.S. persons or to persons within the United States of America (as such terms are defined in Regulation S under the Securities Act ("**Regulation S**")). The securities described in the Final Terms will only be offered in offshore transactions to non-U.S. persons in reliance upon Regulation S.

De värdepapper som beskrivs i de Slutliga Villkoren och i Grundprospektet har inte, och kommer inte, registreras i enlighet med U.S. Securities Act of 1933, såsom den har ändrats ("**Securities Act**") och får inte erbjudas eller säljas direkt eller indirekt inom USA eller till, för, eller till förmån för, amerikanska medborgare eller till personer i USA (såsom termerna definieras i Regulation S i Securities Act ("**Regulation S**")). De värdepapper som beskrivs i dessa Slutliga Villkor kommer endast erbjudas i offshore-transaktioner till icke-amerikanska medborgare i enlighet med Regulation S.

**Final Terms dated [•]**

**NORDEA BANK AB (PUBL) / NORDEA BANK FINLAND PLC**  
**Utgivande av [Sammanlagt Nominellt Belopp av Tranch] [Namn på Lån]**  
**under ett €10 000 000 000**  
**Program för Strukturerade Lån**

[The Base Prospectus referred to below (as completed by these Final Terms) has been prepared on the basis that, except as provided in sub-paragraph (ii) below, any offer of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Member State, from the requirement to publish a prospectus for offers of the Notes. Accordingly any person making or intending to make an offer of the Notes may only do so:

- (a) in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer; or
- (b) in those Public Offer Jurisdictions mentioned in Paragraph 10 of Part B below, provided such person is one of the persons described in Paragraph 10 of Part B below [and which satisfies conditions set out therein] and that such offer is made during the Offer Period specified for such purpose therein.

[Grundprospektet som det hänvisas till nedan (som kompletteras av dessa Slutliga Villkor) har tagits fram under förutsättningen att, förutom såsom anges i punkten (ii) nedan, varje erbjudande om Lån i varje Medlemsstat i det Europeiska Ekonomiska Samarbetsområdet som har implementerat Prospektdirektivet (var och en benämnda en "**Relevant Medlemsstat**") kommer att göras under med stöd av ett undantag i Prospektdirektivet, såsom det har implementerats i den Medlemsstaten, från kravet på att publicera ett prospekt för erbjudanden om Lån. Följaktligen kan personer som lämnar eller som avser att lämna erbjudanden avseende Lånen göra det enbart:

- (a) under omständigheter då ingen förpliktelse uppstår för Emittenten eller något Emissionsinstitut att publicera ett prospekt i enlighet med Artikel 3 i Prospektdirektivet eller att komplettera ett prospekt i enlighet med Artikel 16 i Prospektdirektivet, i bägge fall i samband med ett sådant erbjudande; eller:
- (b) i de Erbjudande till Allmänheten – Jurisdiktioner som anges i punkt 10 av Del B nedan, under förutsättning att sådana personer är en av de personer som beskrivs i punkt 10 av Del B nedan [och som uppfyller de villkor som anges däri] och att erbjudandet görs under den Erbjudandeperiod som specificeras däri för sådant syfte.

With respect to any subsequent resale or final placement of Notes as provided in sub-paragraph (ii) above, the Issuer consents to the use of the Base Prospectus and accepts responsibility for the content of the Base Prospectus. Neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any offer of Notes in any other circumstances.

Avseende varje senare återförsäljning eller slutlig placering av Lånen såsom anges i punkt (ii) ovan, samtycker Emittenten användandet av Grundprospektet och accepterar ansvar för innehållet i Grundprospektet. Varken Emittenten eller något Emissionsinstitut har godkänt, eller godkänner, att några erbjudanden avseende Lånen görs under några andra omständigheter.

The expression "**Prospectus Directive**" means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive and the expression "**2010 PD Amending Directive**" means Directive 2010/73/EU **provided, however, that** all references in this document to the "Prospectus Directive" in relation to any Member State of the European Economic Area refer to Directive 2003/71/EC (and

amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the relevant Member State), and include any relevant implementing measure in the relevant Member State.]]<sup>5</sup>

Uttrycket "**Prospektdirektivet**" avser direktivet 2003/71/EG (och därmed tillhörande ändringar, inklusive ändringsdirektivet 2010 för prospektdirektivet och uttrycket "**Ändringsdirektivet 2010 för Prospektdirektivet**" avser direktivet 2010/73/EU **under förutsättning, att** alla hänvisningar i detta dokument till "Prospektdirektivet" i relation till varje Medlemsstat i det Europeiska Ekonomiska Samarbetsområdet hänvisar till direktiv 2003/71/EG (och därmed tillhörande ändringar inklusive Ändringsdirektivet 2010 för Prospektdirektivet, i den utsträckning som det har implementerats i den relevanta Medlemsstaten), och inkluderar varje relevant implementeringsåtgärd i den relevanta Medlemsstaten).]]<sup>6</sup>

[The Base Prospectus referred to below (as completed by these Final Terms) has been prepared on the basis that any offer of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Member State, from the requirement to publish a prospectus for offers of the Notes. Accordingly any person making or intending to make an offer in that Member State of the Notes may only do so in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any offer of Notes in any other circumstances.

[Grundprospektet som det hänvisas till nedan (som kompletteras av dessa Slutliga Villkor) har tagits fram under förutsättningen att varje erbjudande om Lån i varje Medlemsstat i det Europeiska Ekonomiska Samarbetsområdet som har implementerat Prospektdirektivet (var och en benämnda en "**Relevant Medlemsstat**") kommer att göras med stöd av ett undantag i Prospektdirektivet, såsom det har implementerats i den Medlemsstaten, från kravet på att publicera ett prospekt för erbjudanden om Lån. Följaktligen kan personer som lämnar eller som avser att lämna erbjudanden avseende Lånen göra det enbart under omständigheter då ingen förpliktelse uppstår för Emittenten eller något Emissionsinstitut att publicera ett prospekt i enlighet med Artikel 3 i Prospektdirektivet eller att komplettera ett prospekt i enlighet med Artikel 16 i Prospektdirektivet, i bägge fall i samband med ett sådant erbjudande. Varken Emittenten eller något Emissionsinstitut har godkänt, eller godkänner, att några erbjudanden avseende Lånen görs under några andra omständigheter.

The expression "**Prospectus Directive**" means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive and the expression "**2010 PD Amending Directive**" means Directive 2010/73/EU **provided, however, that** all references in this document to the "Prospectus Directive" in relation to any Member State of the European Economic Area refer to Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the relevant Member State), and include any relevant implementing measure in the relevant Member State.]]<sup>7</sup>

Uttrycket "**Prospektdirektivet**" avser direktivet 2003/71/EG (och därmed tillhörande ändringar, inklusive ändringsdirektivet 2010 för prospektdirektivet och uttrycket "**Ändringsdirektivet 2010 för Prospektdirektivet**" avser direktivet 2010/73/EU **under förutsättning, att** alla hänvisningar i detta dokument till "Prospektdirektivet" i relation till varje Medlemsstat i det Europeiska Ekonomiska Samarbetsområdet hänvisar till direktiv 2003/71/EG (och därmed tillhörande ändringar inklusive Ändringsdirektivet 2010 för Prospektdirektivet, i den utsträckning som det har implementerats i den relevanta Medlemsstaten), och inkluderar varje relevant implementeringsåtgärd i den relevanta Medlemsstaten).]]<sup>8</sup>

<sup>6</sup> Inkludera detta avsnitt om ett icke-undantaget erbjudande av Lånen förväntas.

<sup>7</sup> Include this legend where a non-exempt offer of Notes is NOT anticipated.

<sup>8</sup> Inkludera detta avsnitt om ett icke-undantaget erbjudande av Lånen INTE förväntas.

## PART A – CONTRACTUAL TERMS

### DEL A – KONTRAKTUELLA VILLKOR

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (the "**Conditions**") set forth in the Base Prospectus dated [•] [and the supplemental Base Prospectus dated [•]] [which [together] constitute[s] a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Directive<sup>9</sup>]. This document constitutes the Final Terms of the Notes described herein [for the purposes of Article 5.4 of the Prospectus Directive<sup>10</sup>] and must be read in conjunction with the Base Prospectus a summary of the Notes (which comprises the summary in the Base Prospectus as amended to reflect the provisions of these Final Terms) is annexed to these Final Terms. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus [as so supplemented]. The Base Prospectus [and the base prospectus supplement[s]] [is] [are] available for viewing during normal business hours at, and copies may be obtained from, the principal office of the Issuer, Smålandsgatan 17, SE-105 71 Stockholm, Sweden].

Ord som används häri ska anses ha samma innebörd som i Villkoren ("**Villkoren**") som anges i Grundprospektet daterat [•] [och i supplement till Grundprospektet daterat [•]] [vilka/[et] [tillsammans] utgör ett grundprospekt ("**Grundprospektet**") i Prospektdirektivets mening<sup>11</sup>]. Det här dokumentet utgör de Slutliga Villkoren för Lånen som beskrivs häri [i enlighet med artikel 5.4 i Prospektdirektivet<sup>12</sup>] och måste läsas tillsammans med Grundprospektet. En sammanfattning av Lånen (innefattande sammanfattningen i Grundprospektet modifierad för att reflektera bestämmelserna i dessa Slutliga Villkor) är bilagt till dessa Slutliga Villkor. Fullständig information om Emittenten och erbjudandet om Lån kan endast fås genom dessa Slutliga Villkor och Grundprospektet (tillsammans med eventuella tillägg) i kombination. Grundprospektet [och tillägg till Grundprospektet] [är] tillgängligt för granskning under normal arbetstid och kopior kan erhållas från Emittentens huvudkontor på Smålandsgatan 17, 105 71 Stockholm, Sverige].

*Include whichever of the following apply or specify as "Not Applicable" (N/A). Note that the numbering should remain as set out below, even if "Not Applicable" is indicated for individual paragraphs (in which case the sub-paragraphs of the paragraphs which are not applicable can be deleted). Italics denote guidance for completing the Final Terms.]*

*[Inkludera samtliga av följande som är tillämpliga eller ange "Inte Tillämpligt" (N/A). Notera att numreringen ska bibehållas såsom den har angetts nedan, även om "Inte Tillämpligt" har angetts för enkilda punkter (i vilket fall underpunkterna till sådana punkter som inte är tillgängliga kan raderas). Kursiv text är vägledning för att färdigställa de Slutliga Villkoren.]*

## **[PURPOSE OF FINAL TERMS**

## **[SYFTE MED SLUTLIGA VILLKOR**

These Final Terms comprise the final terms required for the issue [and admission to trading on the regulated market of the Irish Stock Exchange of the Notes described herein pursuant to the €10,000,000,000 Structured Note Programme of Nordea Bank AB (publ) and Nordea Bank Finland Plc.]

Dessa Slutliga Villkor omfattar de slutliga villkor som erfordras för utgivandet [och upptagande till handel på den reglerade marknaden vid Irish Stock Exchange av Lånen som beskrivs häri enligt det €10 000 000 000 Strukturerade Lån Programmet med Nordea Bank AB (publ) och Nordea Bank Finland Plc. som emittent]

## **RESPONSIBILITY**

### **ANSVAR**

The Issuer accepts responsibility for the information contained in these Final Terms. [*Relevant third party information*] has been extracted from [*specify source*]. The Issuer confirms that such information has been accurately reproduced and that, so far as it is aware, and is able to ascertain from information published by [*specify source*], no facts have been omitted which would render the reproduced information inaccurate or misleading.

Emittenten åtar sig ansvar för den informationen som innefattas i dessa Slutliga Villkor. [*Relevant information från tredje man*] har hämtats från [*specificera källa*]. Emittenten bekräftar att sådan information har återgivits korrekt och att, såvitt Emittenten känner till, och har möjlighet att bekräfta genom information som publicerats av [*specificera källa*], inga fakta har utelämnats som skulle innebära att den återgivna informationen är felaktig eller misvisande.

## PART B – OTHER INFORMATION

### DEL B – ÖVRIG INFORMATION

1. **LISTING AND ADMISSION TO TRADING**

[Application has been made by the Issuer (or on its behalf) for the Notes to be admitted to the official list and to trading on the Irish Stock Exchange with effect from [•].] [Application is expected to be made by the Issuer (or on its behalf) for the Notes to be admitted to the official list and to trading on the Irish Stock Exchange with effect from [•].] [Not Applicable.]

**LISTNING OCH UPPTAGANDE TILL HANDEL**

[Ansökan har gjorts av Emittenten (eller på dennes vägnar) för att Lånen ska listas på den officiella listan vid Irish Stock Exchange samt handlas från och med [•].] [Ansökan förväntas ges in av Emittenten (eller på dennes vägnar) för att Lånen ska listas på den officiella listan vid Irish Stock Exchange samt handlas från och med [•].] [Inte Tillämpligt].
2. **RATINGS**

The Notes to be issued have not been rated.

**BETYG**

Lånen som ska emitteras har inte givits något kreditbetyg.
3. **INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER**

**INTRESSEN FRÅN FYSISKA OCH JURIDISKA PERSONER SOM ÄR INVOLVERADE I EMISSIONEN/ERBJUDANDET**

Need to include a description of any interest, including conflicting ones, that is material to the issue/offer, detailing the persons involved and the nature of the interest. May be satisfied by the inclusion of the following statement:

"Save as discussed in ["Subscription and Sale"], so far as the Issuer is aware, no person involved in the offer of the Notes has an interest material to the offer." *(Amend as appropriate if there are other interests)*

*[(When adding any other description, consideration should be given as to whether such matters described constitute "significant new factors" and consequently trigger the need for a supplement to the Prospectus under Article 16 of the Prospectus Directive.)]*

Inkludera beskrivning av alla intressen, inklusive intressekonflikter, vilka är av materiell betydelse för emissionen/erbjudandet, som beskriver de personer som är involverade och vilken typ av intresse det rör sig om.

"Utöver beskrivningen i ["Teckning och Försäljning"], har, såvitt Emittenten känner till, ingen person som är involverad i erbjudandet av Lånen något väsentligt intresse i erbjudandet." *(Ändras om det finns andra intressen)*

*[(När någon annan beskrivning läggs till, ska det övervägas om sådana beskrivningar utgör sådana "nya omständigheter" som aktualiserar behovet av ett tillägg till Prospektet under Artikel 16 i Prospektdirektivet.)]*
4. **REASONS FOR THE OFFER, ESTIMATED NET PROCEEDS AND TOTAL EXPENSES**

**SKÄL FÖR ERBJUDANDET, BERÄKNADE NETTOLIKVID OCH TOTALA KOSTNADER**

- [(i) Reasons for the offer [•]
- [(i) Skäl för erbjudandet: [•]
- [(ii)] Estimated net proceeds: [•]
- [(ii)] Beräknad nettolikvid: [•]
- [(iii)] Estimated total expenses: [•]
- [(iii)] Beräknade totala kostnader: [•]

5. **[Fixed Rate Notes only – YIELD**

**[Lån med Fast Ränta enbart - AVKASTNING**

- Indication of yield: [•]
- Indikation om avkastning: [•]

6. **[Floating Rate Notes only - HISTORIC INTEREST RATES**

**[Lån med Rörlig Ränta enbart – HISTORISKA RÄNTENIVÅER**

Details of historic [LIBOR/EURIBOR/STIBOR/NIBOR/CIBOR] rates can be obtained from [Reuters].]

Uppgifter om historiska nivåer avseende [LIBOR/EURIBOR/STIBOR/NIBOR/CIBOR] kan erhållas från [Reuters].]

7. **[Index-linked or other variable-linked notes only – PERFORMANCE OF INDEX/FORMULA/OTHER VARIABLE, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT AND ASSOCIATED RISKS AND OTHER INFORMATION CONCERNING THE UNDERLYING**

**Indexlänkade eller andra variabelldänkade lån endast – VÄRDEUTVECKLING FÖR INDEX/FORMULA/ANDRA VARIABLER, FÖRKLARING AV EFFEKTEN PÅ VÄRDET AV INVESTERINGEN OCH ASSOCIERADE RISKER OCH ANNAN INFORMATION OM DET UNDERLIGGANDE**

*Need to include details of where past and future performance and volatility of the index/formula/other variable can be obtained.<sup>13]</sup>*

*Uppgifter om när tidigare och framtida värdeutveckling och volatilitet av index/formula/andra variabler kan erhållas.<sup>14]</sup>*

## 8. OPERATIONAL INFORMATION

### OPERATIONELL INFORMATION

ISIN Code: [•]

ISIN Kod: [•]

Common Code: [•]

Börskod: [•]

[Intended to be held in a manner which would allow Eurosystem eligibility: [Yes][No]

[Avsedd att hållas på ett sätt som skulle möjliggöra Eurosystem-tillgänglighet] [Ja] [Nej]

[Note that the designation "yes" means that the Notes are intended upon issue to be deposited with one of the ICSDs as common safekeeper [and registered in the name of a nominee of one of the ICSDs acting as common safekeeper,]<sup>17</sup> and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all

<sup>15</sup> Required for derivative securities to which Annex XII to the Prospectus Directive Regulation applies.

<sup>16</sup> Erfordras för derivatvärdepapper till vilka Annex XII till Prospektdirektivförordningen är tillämpligt.

<sup>17</sup> Insert this text for registered notes.

times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.]

[Whilst the designation is specified as "no" at the date of these Final Terms, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them, the Notes may then be deposited with one of the ICSDs as common safekeeper [and registered in the name of a nominee of one of the ICSDs acting as common Safekeeper]. Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.]<sup>18</sup>

[Notera att valet "ja" innebär att Lånen är avsedda att från utgivandet förvaras vid någon ICSD som "common safekeeper" [och förvaltarregistrerade vid den ICSD som är "common safekeeper"],<sup>19</sup> och innebär inte nödvändigtvis att Lånen kommer erkännas som användbara säkerheter för Eurosystems monetära policy och intradags kredithantering av Eurosystem, varken vid utgivandet eller vid var annan tid under deras livstid. Sådant erkännande kommer vara avhängigt uppfyllandet av Eurosystems användbarhetskriterier.]

[Även om valet "nej" har gjorts vid datumet för dessa Slutliga Villkor, kan Lånen förvaras hos en ICSD som "common safekeeper" [och förvaltarregistreras av den ICSD som är "common safekeeper"], om Eurosystems kriterier för tillgänglighet ändrats framöver på ett sådant sätt att Lånen uppfyller dem. Notera att detta inte nödvändigtvis innebär att Lånen då kommer erkännas som användbara säkerheter för Eurosystems monetära policy och intradags kredithantering av Eurosystem vid någon tid under deras livstid. Sådant erkännande kommer vara avhängigt att ECB är tillfredsställda med Eurosystems användbarhetskriterier.]<sup>20</sup>

## 9. DISTRIBUTION

### DISTRIBUTION

- (i) Method of distribution: [Syndicated/Non-syndicated]

<sup>18</sup> Include this text if "yes" is selected, in which case bearer Notes must be issued in NGN form.

<sup>19</sup> Inkludera denna text för registrerade lån.

<sup>20</sup> Inkludera denna text om "ja" anges, i vilket fall Innehavarlån måste vara emitterade i NGN-form.

- (ii) Public Offer: [The Issuer does not consent to the use of the Base Prospectus in connection with a Public Offer of the

Notes by any person.]

[The Issuer consents to the use of the Base Prospectus in connection with a Public Offer of the Notes during the period from *[specify date]* until *[specify date]* (the "**Offer Period**") in *[specify relevant Member State(s) - which must be one or more of the Republic of Ireland and those jurisdictions where the Base Prospectus and any supplements have been passported]* ("**Public Offer Jurisdictions**") by any financial intermediary which is authorised to make such offers under the Markets in Financial Instruments Directive (Directive 2004/39/EC) and which satisfies the conditions set out in the Base Prospectus [and the additional following conditions: *[set out clear and objective conditions]*].

The Issuer consents to the use of the Base Prospectus in connection with a Public Offer of the Notes during the period from *[specify date]* until *[specify date]* (the "**Offer Period**") by *[insert names of financial intermediaries]* specified in *[specify relevant Member State(s) - which must be jurisdictions where the Base Prospectus and any supplements have been passported]* ("**Public Offer Jurisdictions**") [and subject to the following conditions: *[set out clear and objective conditions]*], for so long as they are authorised to make such offers under the Markets in Financial Instruments Directive (Directive 2004/39/EC).

(ii) Erbjudande till Allmänheten:

[Emittenten samtycker inte till användning av Grundprospektet i samband med ett Erbjudande till Allmänheten av Lånen från någon person.]

[Emittenten samtycker till användandet av Grundprospektet i samband med ett Erbjudande till Allmänheten av Lånen under perioden från *[ange datum]* till *[ange datum]* ("**Erbjudandeperioden**") {XE "Erbjudandeperioden"} i *[ange relevant(a) Medlemsstat(er) – vilka måste vara jurisdiktioner dit Grundprospektet och eventuella supplement har passerats]* (**Erbjudande till Allmänheten - Jurisdiktioner** { XE "Erbjudande till Allmänheten - Jurisdiktioner" }) av någon finansiell mellanhand som är auktoriserad att göra sådana erbjudanden under Direktivet om Marknader för Finansiella Instrument (Direktiv 2004/39/EG) och uppfyller villkoren i Grundprospektet [och de följande ytterligare villkoren: *[ange tydliga och objektiva villkor]*].

[Emittenten samtycker till användandet av Grundprospektet i samband med ett Erbjudande till Allmänheten av Lånen under perioden från *[ange datum]* till *[ange datum]* ("**Erbjudandeperioden**") {XE "Erbjudandeperioden"} av *[ange namn på finansiella mellanhänder]* specificerade i *[ange relevant(a) Medlemsstat(er) – vilka måste vara jurisdiktioner dit Grundprospektet och eventuella supplement har passerats]* (**Erbjudande till**

**Allmänheten - Jurisdiktioner** { XE " Erbjudande till Allmänheten - Jurisdiktioner" }") [i enlighet med följande villkor: [*ange tydliga och objektiva villkor*], under förutsättning att de är auktoriserade att göra sådana erbjudanden under Direktivet om Marknader för Finansiella Instrument (Direktiv 2004/39/EG).

## 10. TERMS AND CONDITIONS

### VILLKOR

Offer Price: [•]

Pris för Erbjudandet: [•]

Conditions to which the offer is subject: [Not Applicable/[•]]

[The Issuer reserves its rights to cancel the offer under the following circumstances;

- (a) if the aggregate principal amount of Notes subscribed on or before [*insert date*] is less than [*insert amount*];
- (b) if the [*insert relevant variable*] cannot be set at [*relevant value corresponding to the indicated minimum value*]; or
- (c) if any event of an economic, financial or political nature occurs and which may jeopardise a successful offer, as determined by the Issuer].

[The Issuer may also replace any Reference Asset listed in the table(s) above at any time on or prior to [*insert date*] with a comparable type of underlying Reference Asset].

Villkor för erbjudandet: [Inte Tillämpligt/[•]]

[Emittenten förbehåller sig rätten att dra tillbaka erbjudandet under följande omständigheter;

- (a) om det sammanlagda beloppet av Lån som tecknats på eller före [*ange datum*] är mindre än [*ange belopp*];
- (b) om [*ange relevant variabel*] inte kan anges till [*relevant värde som korresponderar till det indikerade lägsta värdet*]; eller
- (c) om någon händelse av ekonomisk, finansiell eller politisk natur inträffar och som kan äventyra ett framgångsrikt erbjudande, enligt Emittentens bedömning].

[Emittenten kan också ersätta varje Referenstillgång som listas i tabellerna ovan vid var tid på eller före [*ange datum*] med en jämförbar typ

av underliggande Referenstillgång.

|                                                                                                                                                  |                        |

## IMPORTANT NOTICE

## VIKTIGT MEDDELANDE

***In accessing the attached final terms (the "Final Terms") you agree to be bound by the following terms and conditions.***

***Genom att ta del av de bilagda slutliga villkoren ("Slutliga Villkoren") godkänner du att bli bunden av följande villkor.***

The information contained in the Final Terms may be addressed to and/or targeted at persons who are residents of particular countries only as specified in the Final Terms and/or in the Base Prospectus (as defined in the Final Terms) and is not intended for use and should not be relied upon by any person outside those countries and/or to whom the offer contained in the Final Terms is not addressed. **Prior to relying on the information contained in the Final Terms, you must ascertain from the Final Terms and/or the Base Prospectus whether or not you are an intended addressee of the information contained therein.**

Informationen i dessa Slutliga Villkor är endast adresserad till och/eller riktad till personer som bor i de särskilda länder som anges i de Slutliga Villkoren och/eller i Grundprospektet (definierat i de Slutliga Villkoren) och är inte ämnad för användning och ska inte förlitas på av någon person utanför de länderna och/eller till vilka erbjudandet i dessa Slutliga Villkor inte är adresserat. **Innan du förlitar dig på innehållet i dessa Slutliga Villkor måste du säkerställa att du är en avsedd adressat av informationen i de Slutliga Villkoren och/eller Grundprospektet.**

Neither the Final Terms nor the Base Prospectus constitutes an offer to sell or the solicitation of an offer to buy securities in the United States or in any other jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration, exemption from registration or qualification under the securities law of any such jurisdiction.

Varken de Slutliga Villkoren eller Grundprospektet utgör ett erbjudande att sälja eller en inbjudan att köpa värdepapper i USA eller i någon annan jurisdiktion i vilka ett sådant erbjudande, inbjudan eller försäljning skulle vara olagligt innan de har registrerats, ett undantag från registrering har erhållits eller enligt annan bestämmelse under värdepapperslagarna i en sådan jurisdiktion.

The securities described in the Final Terms and the Base Prospectus have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**") and may not be offered or sold directly or indirectly within the United States or to, or for the account or benefit of, U.S. persons or to persons within the United States of America (as such terms are defined in Regulation S under the Securities Act ("**Regulation S**")). The securities described in the Final Terms will only be offered in offshore transactions to non-U.S. persons in reliance upon Regulation S.

De värdepapper som beskrivs i de Slutliga Villkoren och i Grundprospektet har inte, och kommer inte, registreras i enlighet med U.S. Securities Act of 1933, såsom den har ändrats ("**Securities Act**") och får inte erbjudas eller säljas direkt eller indirekt inom USA eller till, för, eller till förmån för, amerikanska medborgare eller till personer i USA (såsom termerna definieras i Regulation S i Securities Act ("**Regulation S**")). De värdepapper som beskrivs i dessa Slutliga Villkor kommer endast erbjudas i offshore-transaktioner till icke-amerikanska medborgare i enlighet med Regulation S.

**Final Terms dated [•]**

**Slutliga Villkor daterade [•]**

**NORDEA BANK AB (PUBL) / NORDEA BANK FINLAND PLC**  
**Issue of [Aggregate Nominal Amount of Tranche] [Title of Notes]**  
**under the €10,000,000,000**  
**Structured Note Programme**

**NORDEA BANK AB (PUBL) / NORDEA BANK FINLAND PLC**  
**Utgivande av [Sammanlagt Nominellt Belopp av Tranch] [Namn på Lån]**  
**under ett €10 000 000 000**  
**Program för Strukturerade Lån**

The Base Prospectus referred to below (as completed by these Final Terms) has been prepared on the basis that any offer of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Member State, from the requirement to publish a prospectus for offers of the Notes. Accordingly any person making or intending to make an offer in that Member State of the Notes may only do so in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any offer of Notes in any other circumstances.

Grundprospektet som det hänvisas till nedan (som kompletteras av dessa Slutliga Villkor) har tagits fram under förutsättningen att varje erbjudande om Lån i varje Medlemsstat i det Europeiska Ekonomiska Samarbetsområdet som har implementerat Prospektdirektivet (var och en benämnda en "**Relevant Medlemsstat**") kommer att göras med stöd av ett undantag i Prospektdirektivet, såsom det har implementerats i den Medlemsstaten, från kravet på att publicera ett prospekt för erbjudanden om Lån. Följaktligen kan personer som lämnar eller som avser att lämna erbjudanden avseende Lånen göra det enbart under omständigheter då ingen förpliktelse uppstår för Emittenten eller något Emissionsinstitut att publicera ett prospekt i enlighet med Artikel 3 i Prospektdirektivet eller att komplettera ett prospekt i enlighet med Artikel 16 i Prospektdirektivet, i bägge fall i samband med ett sådant erbjudande. Varken Emittenten eller något Emissionsinstitut har godkänt, eller godkänner, att några erbjudanden avseende Lånen görs under några andra omständigheter.

The expression "**Prospectus Directive**" means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive and the expression "**2010 PD Amending Directive**" means Directive 2010/73/EU **provided, however, that** all references in this document to the "Prospectus Directive" in relation to any Member State of the European Economic Area refer to Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the relevant Member State), and include any relevant implementing measure in the relevant Member State.]

Uttrycket "**Prospektdirektivet**" avser direktivet 2003/71/EG (och därmed tillhörande ändringar, inklusive ändringsdirektivet 2010 för prospektdirektivet och uttrycket "**Ändringsdirektivet 2010 för Prospektdirektivet**" avser direktivet 2010/73/EU **under förutsättning, att** alla hänvisningar i detta dokument till "Prospektdirektivet" i relation till varje Medlemsstat i det Europeiska Ekonomiska Samarbetsområdet hänvisar till direktiv 2003/71/EG (och därmed tillhörande ändringar inklusive Ändringsdirektivet 2010 för Prospektdirektivet, i den utsträckning som det har implementerats i den relevanta Medlemsstaten), och inkluderar varje relevant implementeringsåtgärd i den relevanta Medlemsstaten).]

## PART A – CONTRACTUAL TERMS

### DEL A – KONTRAKTUELLA VILLKOR

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (the "**Conditions**") set forth in the Base Prospectus dated [•] [and the supplemental Base Prospectus dated [•]] [which [together] constitute[s] a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Directive<sup>21</sup>]. This document constitutes the Final Terms of the Notes described herein [for the purposes of Article 5.4 of the Prospectus Directive<sup>22</sup>] and must be read in conjunction with the Base Prospectus. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus [as so supplemented]. The Base Prospectus [and the base prospectus supplement[s]] [is] [are] available for viewing during normal business hours at, and copies may be obtained from, the principal office of the Issuer, Smålandsgatan 17, SE-105 71 Stockholm, Sweden.]

Ord som används häri ska anses ha samma innebörd som i Villkoren ("Villkoren") som anges i Grundprospektet daterat [•] [och i supplement till Grundprospektet daterat [•]] [vilka/[et] [tillsammans] utgör ett grundprospekt ("Grundprospektet") i Prospektdirektivets mening ]. Det här dokumentet utgör de Slutliga Villkoren för Lånen som beskrivs häri [i enlighet med artikel 5.4 i Prospektdirektivet ] och måste läsas tillsammans med Grundprospektet. En sammanfattning av Lånen (innefattande sammanfattningen i Grundprospektet modifierad för att reflektera bestämmelserna i dessa Slutliga Villkor) är bilagt till dessa Slutliga Villkor. Fullständig information om Emittenten och erbjudandet om Lån kan endast fås genom dessa Slutliga Villkor och Grundprospektet (tillsammans med eventuella tillägg) i kombination. Grundprospektet [och tillägg till Grundprospektet] [är] tillgängligt för granskning under normal arbetstid och kopior kan erhållas från Emittentens huvudkontor på Smålandsgatan 17, 105 71 Stockholm, Sverige.]

*[Include whichever of the following apply or specify as "Not Applicable" (N/A). Note that the numbering should remain as set out below, even if "Not Applicable" is indicated for individual paragraphs (in which case the sub-paragraphs of the paragraphs which are not applicable can be deleted). Italics denote guidance for completing the Final Terms.]*

*[Inkludera samtliga av följande som är tillämpliga eller ange "Inte Tillämpligt" (N/A). Notera att numreringen ska bibehållas såsom den har angetts nedan, även om "Inte Tillämpligt" har angetts för enskilda punkter (i vilket fall underpunkterna till sådana punkter som inte är tillgängliga kan raderas). Kursiv text är vägledning för att färdigställa de Slutliga Villkoren.]*

## **[PURPOSE OF FINAL TERMS]**

### **[SYFTE MED SLUTLIGA VILLKOR]**

These Final Terms comprise the final terms required for the issue [and admission to trading on the regulated market of the Irish Stock Exchange of the Notes described herein pursuant to the €10,000,000,000 Structured Note Programme of Nordea Bank AB (publ) and Nordea Bank Finland Plc.]

Dessa Slutliga Villkor omfattar de slutliga villkor som erfordras för utgivandet [och upptagande till handel på den reglerade marknaden vid Irish Stock Exchange av Lånen som beskrivs här enligt det €10 000 000 000 Strukturerade Lån Programmet med Nordea Bank AB (publ) och Nordea Bank Finland Plc. som emittent]

## **RESPONSIBILITY**

### **ANSVAR**

The Issuer accepts responsibility for the information contained in these Final Terms. [*Relevant third party information*] has been extracted from [*specify source*]. The Issuer confirms that such information has been accurately reproduced and that, so far as it is aware, and is able to ascertain from information published by [*specify source*], no facts have been omitted which would render the reproduced information inaccurate or misleading.

Emittenten åtar sig ansvar för den informationen som innefattas i dessa Slutliga Villkor. [*Relevant information från tredje man*] har hämtats från [*specificera källa*]. Emittenten bekräftar att sådan information har återgivits korrekt och att, såvitt Emittenten känner till, och har möjlighet att bekräfta genom information som publicerats av [*specificera källa*], inga fakta har utelämnats som skulle innebära att den återgivna informationen är felaktig eller misvisande.

## PART B – OTHER INFORMATION

### DEL B – ÖVRIG INFORMATION

1. **LISTING AND ADMISSION TO TRADING**

[Application has been made by the Issuer (or on its behalf) for the Notes to be admitted to the official list and to trading on the Irish Stock Exchange with effect from [•].] [Application is expected to be made by the Issuer (or on its behalf) for the Notes to be admitted to the official list and to trading on the Irish Stock Exchange with effect from [•].] [Not Applicable.]

**LISTNING OCH UPPTAGANDE TILL HANDEL**

[Ansökan har gjorts av Emittenten (eller på dennes vägnar) för att Lånen ska listas på den officiella listan vid Irish Stock Exchange samt handlas från och med [•].] [Ansökan förväntas ges in av Emittenten (eller på dennes vägnar) för att Lånen ska listas på den officiella listan vid Irish Stock Exchange samt handlas från och med [•].] [Inte Tillämpligt].
2. **RATINGS**

The Notes to be issued have not been rated:

**BETYG**

Lånen som ska emitteras har inte erhållit något kreditbetyg.
3. **INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER**

**INTRESSEN FRÅN FYSISKA OCH JURIDISKA PERSONER SOM ÄR INVOLVERADE I EMISSIONEN/ERBJUDANDET**

Need to include a description of any interest, including conflicting ones, that is material to the issue/offer, detailing the persons involved and the nature of the interest. May be satisfied by the inclusion of the following statement:

"Save as discussed in ["Subscription and Sale"], so far as the Issuer is aware, no person involved in the offer of the Notes has an interest material to the offer." *(Amend as appropriate if there are other interests)*

*[(When adding any other description, consideration should be given as to whether such matters described constitute "significant new factors" and consequently trigger the need for a supplement to the Prospectus under Article 16 of the Prospectus Directive.)]*

Inkludera beskrivning av alla intressen, inklusive intressekonflikter, vilka är av materiell betydelse för emissionen/erbjudandet, som beskriver de personer som är involverade och vilken typ av intresse det rör sig om.

"Utöver beskrivningen i ["Teckning och Försäljning"], har, såvitt Emittenten känner till, ingen person som är involverad i erbjudandet av Lånen något väsentligt intresse i erbjudandet." *(Ändras om det finns andra intressen)*

*[(När någon annan beskrivning läggs till, ska det övervägas om sådana beskrivningar utgör sådana "nya omständigheter" som aktualiserar behovet av ett tillägg till Prospektet under Artikel 16 i Prospektdirektivet.)]*
4. **REASONS FOR THE OFFER, ESTIMATED NET PROCEEDS AND TOTAL EXPENSES**

**SKÄL FÖR ERBJUDANDET, BERÄKNADE NETTOLIKVID OCH TOTALA KOSTNADER**

- [(i) Reasons for the offer [•]
- [(i) Skäl för erbjudandet: [•]
- [(ii)] Estimated net proceeds: [•]
- [(ii)] Beräknad nettolikvid: [•]
- [(iii)] Estimated total expenses in relation to admission to trading: [•]
- [(iii)] Beräknade totala kostnader: [•]

5. **[Fixed Rate Notes only – YIELD**

**[Lån med Fast Ränta enbart - AVKASTNING**

Indication of yield: [•]

Indikation om avkastning: [•]

6. **[Floating Rate Notes only - HISTORIC INTEREST RATES**

**[Lån med Rörlig Ränta enbart – HISTORISKA RÄNTENIVÅER**

Details of historic [LIBOR/EURIBOR/STIBOR/NIBOR/CIBOR] rates can be obtained from [Reuters].]

Uppgifter om historiska nivåer avseende [LIBOR/EURIBOR/STIBOR/NIBOR/CIBOR] kan erhållas från [Reuters].]

7. **[Index-linked or other variable-linked notes only – PERFORMANCE OF INDEX/FORMULA/OTHER VARIABLE, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT AND ASSOCIATED RISKS AND OTHER INFORMATION CONCERNING THE UNDERLYING**

**Index-länkade eller andra variabel-länkade lån endast – VÄRDEUTVECKLING FÖR INDEX/FORMULA/ANDRA VARIABLER, FÖRKLARING AV EFFEKTEN PÅ VÄRDET AV INVESTERINGEN OCH ASSOCIERADE RISKER OCH ANNAN INFORMATION OM DET UNDERLIGGANDE**

Need to include details of where past and future performance and volatility of the index/formula/other variable can be obtained.<sup>23]</sup>

Uppgifter om när tidigare och framtida värdeutveckling och volatilitet av index/formula/andra variabler kan erhållas.<sup>24]</sup>

## DESCRIPTION OF THE ISSUERS

### Overview

The Nordea Group (NBAB and its subsidiaries, the "**Nordea Group**" or the "**Group**") is the largest financial services group in the Nordic markets (Denmark, Finland, Norway and Sweden) measured by total income, (based on research by Nordea Markets (Nordea Bank Finland plc)) with additional operations in Poland, Russia, the Baltic countries and Luxembourg, as well as branches in a number of other international locations.

The Nordea Group's parent company, NBAB, is a public Swedish limited liability company incorporated under Swedish law. NBAB's shares are listed and traded on the Stockholm, Copenhagen and Helsinki stock exchanges. The Nordea Group's head office is located in Stockholm at Smålandsgatan 17, SE-105 71 Stockholm, Sweden.

As at 31 December 2012, the Nordea Group's assets totalled EUR 677 billion and Tier 1 capital EUR 24.0 billion. As of the same date, the Nordea Group had approximately 11 million customers across the markets in which it operates, of which approximately 9.0 million are household customers in customer programmes and 0.6 million are active corporate customers.

As of 31 December 2012, the Nordea Group had approximately 1,000 branch office locations of which more than 210 were located in Russia, Poland, Lithuania, Latvia and Estonia. In addition, the Group has a very large number of telephone and Internet customers. The Nordea Group is very active within e-based financial services and, at the end of 2012, had approximately 6.9 million users of such services.

In addition, the Nordea Group acts as an asset manager within the Nordic region with EUR 218 billion in assets under management as per 31 December 2012. The Nordea Group also provides life insurance products.

### The Formation of the Nordea Group

The Nordea Group was created through international mergers among four large Nordic financial institutions which gradually resulted in the creation of a single unit. Nordea's predecessors were Nordea Bank Sverige AB (publ) (formerly Nordbanken AB (publ)) in Sweden ("**Nordea Bank Sverige**"), which, on 1 March 2004, merged with the Group's parent company and underwent a change of name to Nordea Bank AB (publ); Nordea Bank Danmark A/S (formerly Unibank A/S) in Denmark ("**Nordea Bank Danmark**"); Nordea Bank Finland Plc (formerly Merita Bank Abp) in Finland ("**Nordea Bank Finland**"); and Nordea Bank Norge ASA (formerly Christiania Bank og Kreditkasse ASA) in Norway ("**Nordea Bank Norge**").

After the Group's parent company had adopted the name Nordea AB (publ) at the end of 2000, the name "Nordea" was gradually introduced within the Group and, by December 2001, the banks and branch offices within the Group had adopted the name Nordea.

### Legal Structure

To improve operating capacity, reduce risk exposure and enhance capital efficiency, Nordea's Board of Directors initiated a change in the Group's legal structure in June 2003. The internal restructuring commenced in 2003 when NBAB, the parent company of the Nordea Group, acquired Nordea Bank Sverige, Nordea Bank Danmark and Nordea Bank Norge from Nordea Bank Finland. At the same time, Nordea AB (publ) also acquired Nordea North America, Inc. from Nordea Bank Finland. Following these transactions, NBAB was established as a bank and its name was changed to Nordea Bank AB (publ). Thereafter, Nordea Bank Sverige merged with Nordea Bank. The merger was registered with the Swedish Patent and Registration Office (currently the Swedish Companies Registration Office) on 1 March 2004.

The Nordea Group aims at continuous simplification of its legal structure and the aim is that NBAB will be converted into a European company, a "Societas Europaea". The conversion is conditional on, among other things, NBAB obtaining necessary approvals from the relevant authorities. As all regulatory responses to the financial crisis and the "New Normal" are yet to be evaluated, the Nordea Group is following up and analysing the changes in process which are not expected to be finalised during 2013.

The following chart sets forth the general legal structure of the Nordea Group, including its material subsidiaries, as of 31 December 2012.

The Nordea Group's banking business in the Baltic countries is operated as branches of Nordea Bank Finland. For additional information on the legal structure of the Nordea Group, see "Note P21" to the audited consolidated financial statements of the Nordea Group for the year ended and as of 31 December 2012 set out in Annex 1 to this Base Prospectus.

## **The Nordea Group's Organisation**

### **Overview**

The Nordea Group's organisational structure, which was implemented in June 2011, is built around three main business areas: Retail Banking, Wholesale Banking and Wealth Management. In addition to the business areas, the Nordea Group's organisation includes the business unit Group Operations and Other Lines of Business. Group Corporate Centre and Group Risk Management which are the other central parts of the Nordea Group's organisation. The Nordea Group's financial reporting structure has been based on the new organisational structure from and including the third quarter of 2011.

In the Nordea Group's organisation, all parts of the value chains – customer responsibility, support, products, staff and IT development – have been incorporated into the three main business areas with the objective to improve efficiency, increase return on equity and deepen customer relationships. By organising the business areas around value chains, the Nordea Group believes that the responsibilities for creating efficiencies will be clearer and that it will be able to respond to new regulatory and investor demands in a more agile manner. The purpose of the organisational structure is also to enable all people within the Nordea Group to work even closer to customers, including understanding and delivering on their needs and preferences. Segmentation of customers and differentiating both the value proposition and resource allocation according to customer needs are at the core of the Nordea Group's customer strategy in the new organisation.

Of the Nordea Group's business areas, Retail Banking is responsible for customer relations with household customers as well as large, medium-sized and small corporate customers in the Nordic and Baltic Sea markets. Retail Banking is responsible for segmentation (customer groups) as well as value propositions (customer programmes), cross-border customer strategies and sales processes. The Retail Banking business is operated through Banking Denmark, Banking Finland, Banking Norway, Banking Sweden and Banking Poland and Banking Baltic countries.

The Wholesale Banking business area further builds on the Nordea Group's customer-centric relationship banking approach and aims to ensure that all service and product competences of the Nordea Group reach its large corporate customers. The Wholesale Banking business area includes the business units Corporate & Institutional Banking, Shipping, Offshore & Oil Services, Banking Russia, Nordea Markets, Transaction Products and International Units.

Wealth Management includes the business units Private Banking (Nordic and International), Asset Management and Life & Pensions. The Private Banking business is operated through an integrated model with Retail Banking.

The business unit Group Operations operates the Nordea Group's common development and services, including IT, Processes, Services, and Premises and Property.

Group Corporate Centre and Group Risk Management are group functions that continue to operate in the same structure as they did in the Nordea Group's previous operating model.

### **Business Areas**

At the core of the Nordea Group's strategy is segmentation of customers and differentiating both value proposition and resource allocation according to customer needs. The Nordea Group's customer activities are organised around two major customer groups: household customers and corporate customers. With both its household customers and corporate customers, the Nordea Group seeks to build long-term banking relationships and to become a lifetime financial partner by gaining an understanding of the customers' specific product and service needs and by offering products and advice tailored to meet those requirements.

To serve its household customers and corporate customers, the Nordea Group has divided its operations into three main business areas (Retail Banking, Wholesale Banking and Wealth Management) and the

business unit Group Operations and Other Lines of Business. The business areas each comprise a number of business units which operate as separate profit units.

The following chart sets forth the Nordea Group's organisation.

### Retail Banking

Retail Banking is the largest of the business areas within the Nordea Group. As of 31 December 2012, Retail Banking served close to 10 million household and corporate customers in eight markets. Retail Banking is responsible for customer relations with household customers as well as large, medium-sized and small corporate customers in the Nordic and Baltic Sea markets. Household and corporate customers are served on all financial needs and the Nordea Group's ambition is to be a full service provider to its customers. The business area incorporates the whole value chain including sales force, channels, product units, back office and IT. Retail Banking is responsible for segmentation (customer groups) as well as value propositions (customer programmes), cross-border customer strategies and sales processes. Retail Banking operates under one strategy, one operating model and one governance system in Banking Denmark, Banking Finland, Banking Norway, Banking Sweden, Banking Poland and Banking Baltic countries. Retail Banking's ambition is to create a leading retail banking franchise in Europe in terms of profitability, efficiency and customer experience. The plan builds on a strong commitment to relationship banking and a controlled approach to develop this strategy from the current branch-centric model to a true multichannel relationship retail bank.

Within Retail Banking, the Nordea Group operates a multi-channel distribution strategy in the household customer segment to ensure that household customers can access the bank when and how it suits them. The three core elements of Retail Banking's distribution strategy are branches, contact centres and on-line

and mobile banking. Through the Nordea Group's common customer relationship system, the three distribution channels are fully integrated so that customer interaction in one channel is simultaneously recorded in all other channels. The Nordea Group assigns household customers in each of the Nordic markets to different segments based on the business volume and number of products and services the customer has with the Nordea Group, namely Premium, Gold, Silver and Bronze customers in the Nordea Group's customer programmes. Retail Banking advisors work to develop relationships with the Nordea Group's household customers and to provide them with product solutions tailored to meet their individual banking needs.

In the Nordic markets, Retail Banking divides its corporate customers further into the following customer segments: Large, Medium and Small corporates. The aim for the Large, Medium and Small customer segments is to develop customer relationships and to become the house bank for their respective customers. For customers in the Large and Medium segments, the Nordea Group is also continuing to integrate corporate risk management products and capital market transactions into its basic product offering. Within the Small segment, the Nordea Group has launched a concept to service small corporate customers with one adviser for both their corporate and their household business.

#### *Wholesale Banking*

Wholesale Banking provides services and financial solutions to the largest corporate and institutional customers of the Nordea Group. The business area incorporates the whole value chain, including customer and product units as well as the supporting IT and infrastructure. This allows for an integrated service offering, including tailor-made solutions aimed to fit the needs of individual customers. Wholesale Banking as a business area was established to further build on the Nordea Group's customer-centric relationship banking approach and to ensure that all service and product competences of the Nordea Group reach its large corporate customers. The Nordea Group believes that as the leading wholesale banking provider in the Nordic region it has the ability to provide its customers with the best financial tools to optimise their business and manage their risks. The operating model built on Nordic scale and strong local presence enables full alignment between the customer units and product experts.

The Nordea Group believes that its strategy for the largest corporate customers has proven robust during the ongoing transformation of the banking industry. It further believes that the Nordea Group's local sales organisations combined with a global production platform enable it to capitalise on the benefits of relationship banking and economies of scale. The relationship strategy provides the Nordea Group with a deep knowledge of its customers and their industries, which allows Wholesale Banking to strengthen its customer offering.

Currently, the Wholesale Banking business area includes the units Corporate & Institutional Banking, Shipping, Offshore & Oil Services, Banking Russia, Nordea Markets, Transaction Products and International Units.

#### *Corporate & Institutional Banking*

The Corporate & Institutional Banking organisation serves the Nordea Group's largest Nordic corporate customers and institutional customers in one central unit in each market. The Nordea Group seeks to establish strategic partnerships with its Corporate & Institutional Banking customers by becoming their primary source for a wide range of financial services, including day-to-day banking services such as cash management. The Nordea Group provides Corporate & Institutional Banking with tailored, highly individualised product solutions and terms. A central part of the Nordea Group's corporate strategy is to create value by relationship banking, and, in the upper corporate customer segments, the Nordea Group's goal is to remain a strong partner, which it aims to achieve by strict resource management and efficient resource application, combined with continued high service levels, active business selection and increased operational efficiency. When serving large financial institution customers, such as banks, investment banks, hedge funds and other financial institutions, the Nordea Group employs a similar relationship banking concept, seeking to establish a strategic partnership with the customer and to provide specialised advice and tailored products and services.

#### *Shipping, Offshore & Oil Services*

Shipping, Offshore & Oil Services is the Wholesale Banking division responsible for customers within the shipping, offshore, oil services, cruise and ferries industries worldwide. Customers are served from

the Nordic offices as well as the international branches in New York, London and Singapore. The Nordea Group believes that it is a leading bank to the global shipping and offshore sector with strong brand recognition and a world leading loan syndication franchise. The business strategy of Shipping, Offshore & Oil Services is founded on long-term customer relationships and strong industry expertise.

#### *Nordea Markets*

The Nordea Group believes that Nordea Markets is the leading capital markets and investment banking operation in the Nordic region. Nordea Markets is responsible for handling trading, research and sales within areas such as foreign exchange, fixed income, equities, structured products, commodities, and capital markets services, financial advisory and corporate finance. Nordea Markets offers its products to corporate and financial institutions and through Wealth Management to household customers. The activities in Nordea Markets are purely customer-driven. The strategy of the Nordea Group is to further increase business in risk management products with the Nordea Group's corporate customers and to provide efficient financing solutions.

#### *Banking Russia*

The Nordea Group offers banking services to corporate and household customers in Russia through its wholly owned subsidiary, OJSC Nordea Bank, a full service bank. Banking Russia has a particular focus on making business with large global companies and core Nordic clients in Russia and offers all regular banking products, including cash management, lending and capital markets services. Based on its strong presence in the Nordic countries, the Nordea Group believes that it can offer companies active both there and in Russia solutions that meet their needs for banking services.

#### *Transaction Products*

The Transaction Products product division consists of three units, Cash Management, Trade Finance and Payment Operations. The division is responsible for the product offering within, among others, transaction products and services, working capital related services, corporate e-channels and trade financing.

#### *International Units*

The Nordea Group operates an international network of branches in New York, London, Frankfurt, Shanghai and Singapore, as well as representative offices in São Paulo and Beijing. In addition to its own network, the Nordea Group has entered into various cooperation agreements with banks around the world. As a result, the Nordea Group is able to offer its corporate customers high-quality solutions for their international business. The product offering focuses on day-to-day banking services, credit products, cash management, trade finance and capital markets products.

#### *Wealth Management*

Wealth Management provides investment, savings and risk management products, manages the Nordea Group's customers' assets and advises affluent and high-net-worth individuals as well as institutional investors on their financial situation. The goal of Wealth Management is to become the leading wealth manager in all Nordic markets, with a global reach and global capabilities. To achieve and maintain that position, Wealth Management believes it needs to ensure that its business model provides high-quality advice and a high standard of service and a full offering of high-quality products through a cost and capital-efficient delivery model. The business area consists of Private Banking, Asset Management and Life & Pensions business units as well as the service unit Savings & Wealth Offerings.

#### *Private Banking*

The Nordea Group operates its Private Banking business through an integrated model with Retail Banking. The Nordea Group believes that this integrated operating model enables it to fully leverage the distribution capabilities and customer base of the whole Group as well as to utilise the investment and product development competencies in the Group.

In addition to its Nordic Private Banking operations, the Nordea Group engages in International Private Banking operations that are targeted to both customers of a Nordic origin domiciled outside the Nordic region and international customers of non-Nordic origin.

### *Asset Management*

Asset Management is responsible for delivering the Nordea Group's savings products to household customers, including private banking customers. The savings product offering consists of actively managed investment products such as investment funds, life insurance and pension products and discretionary mandates. Asset Management is also responsible for the Nordea Group's asset management offerings to large corporate and institutional customers.

### *Life & Pensions*

Life & Pensions covers product development and packaging of life insurance and pension products to corporate and household customers. Customers are served through banking branches, Life & Pensions' own sales force or via tied agents and brokers.

### **Strategy**

Since 2007, the Nordea Group has consistently pursued its relationship strategy. The Nordea Group has maintained this strategic direction despite the challenging macroeconomic environment during the past years and remains committed to servicing customers supporting the real economy (i.e. the part of the economy that is concerned with producing goods and services). The Nordea Group's strategy is based on its "2015 plan", which is focused on the continued development of the relationship banking business model. At the centre of this strategy is the Nordea Group's ambition to understand, advice, service and commit to its customers for the benefit of building long-term core relationships where the main focus areas are:

- balanced customer focus, building on a customer-centric organisational design, in which the right products are delivered in the right way at a fair price based on the true cost of providing the products;
- people focus, clear values and principles are reflected in the objectives and incentives that are set within the Group, with the economic profit framework remaining at the heart of how management and support are pursued; and
- optimised value chain integration, adoption and development of best practices where loyalty to simplicity, transparency and reduction of complexity is promoted while keeping the Nordea Group's clients and their objectives in focus.

The Nordea Group believes that having one operating model and business area ownership of the end-to-end value chain ensures overview, accountability and congruence. This focused relationship strategy provides the basis for reaching the Nordea Group's financial target, as further discussed below.

The Nordea Group believes that profitability will be key to maintaining a high credit rating, low funding costs and flexibility within the Nordea Group's capital position, and further believes that sound profitability is a prerequisite for providing customers with excellent customer experiences in a sustainable manner. For the Nordea Group to stay in what it sees as the top league in performance for its peer group of European banks, the Nordea Group believes it needs to increase the Group's return on equity by taking actions on both cost and capital efficiency, and at the same time continue to grow the Group's income. In line with this strategy, the Nordea Group has set a single financial target for the Group, which is to reach a return on equity of 15 per cent. in a normalised interest environment and with a core Tier 1 capital ratio of above 13 per cent.

### *Capital Policy*

The Nordea Group has established a capital policy to reflect the new regulatory environment. Under this capital policy, the target is for the Group's core tier 1 capital ratio to be above 13 per cent. and for the total capital ratio to be above 17 per cent. not later than 1 January 2015. The capital policy is based on management's current best view on capitalisation although there is still uncertainty regarding the final framework for new capital adequacy standards, including the CRD IV. The Nordea Group considers these targets as minimum targets under normal business conditions, given that the regulatory framework is dynamic.

## ***Efficiency Initiatives***

The Nordea Group has introduced efficiency initiatives aimed at both cost efficiency and asset and capital efficiency in order to mitigate the anticipated higher costs for banking in the changed business environment that is often referred to as the "New Normal". In June 2011, the Nordea Group implemented a new organisational structure, which the Nordea Group believes will enable a continued focus on efficiency across value chains and on assisting customers in finding efficient solutions in the "New Normal". The new organisational structure aims to ensure improved accountability and a focused implementation of identified cost efficiency measures. In the second half of 2011, the Nordea Group undertook a range of additional cost efficiency measures, including the reduction in the number of employees of the Group by approximately 2,700 since the second quarter of 2011, and expects to initiate further efficiency measures. The Nordea Group expects to initiate further cost efficiency measures and aims to maintain the Group's costs in 2013 and 2014, at least, at a largely unchanged level as compared to costs in 2011 and 2012. The Nordea Group strives for further capital efficiency by focusing the business on capital-light products on the advisory and relationship business as well as ancillary income in customer relations. The Nordea Group's asset and capital efficiency initiatives further aim at taking actions to maintain RWA at an unchanged level despite income growth. These initiatives include reviews of credit risk processes for further improving RWA efficiency as well as further roll-out of internal ratings-based ("IRB") models.

## ***Household and Corporate Relationships***

The Nordea Group's relationship strategies are divided into a household relationship strategy and a corporate relationship strategy.

### ***Household Relationship Strategy***

Household customers are divided into four segments based on their business with the Nordea Group. For each segment, the Nordea Group has developed a value proposition, including contact policy, service level, pricing and product solutions. The core philosophy of this strategy is to provide the best service, advice and product solutions to the customers and thereby to ensure loyalty, brand value and increase business and income. The Nordea Group's household pricing is transparent and generally non-negotiable. Product development is geared at reducing complexity and developing products with a low capital requirement in order to meet both the demands of customers and regulatory requirements. The Nordea Group's savings product offering is designed to take account of customers' wealth, their level of involvement, stage of life and risk appetite.

The Nordea Group pursues a multichannel distribution strategy, aiming to improve customer satisfaction while reducing the cost of serving. Proactive contact with customers is conducted by local branches and supplemented by contact centres, online services and the mobile bank. The Nordea Group aims at having recurring advisory meetings with all existing and potential relationship customers, taking their entire finances and long-term preferences into account in order to provide a comprehensive financial solution.

### ***Corporate Relationship Strategy***

Corporate customers comprise four segments based on their business potential and banking needs complexity. For each segment, the Nordea Group has developed a value proposition including contact policy, service level and product solutions to provide comprehensive financial solutions and ensure "house bank" relationships. Relationship managers take a holistic view of the customer's situation and targets and organise the relationship accordingly. The Nordea Group believes that its strength and size as a banking group enable it to offer highly competitive solutions, capitalising on its balance sheet to the benefit of corporate customers. The Nordea Group believes that its strategy for the largest corporate customers has proven robust during the ongoing transformation of the banking industry. The Nordea Group further believes that its local sales organisations combined with a global production platform enable it to capitalise on the benefits of relationship banking and economies of scale.

The Nordea Group is committed to its goal of becoming the leading bank in the wholesale segment in all its Nordic markets. For corporate customers in the Large and Medium segments, the Nordea Group is continuing to integrate corporate risk management products and capital market transactions into its basic product offering. Within the Small segment, the adviser profile and the Small Entrepreneur service concept is being expanded to meet business and personal banking needs in the segment.

## **Recent Developments**

### ***Dividend***

On 14 March 2013, the 2013 annual general meeting of NBAB's shareholders (the "**2013 AGM**") decided on a dividend for 2012 payment of EUR 0.34 per share. The payment was made place on 26 March 2013 and the total dividend payment by NBAB was EUR 1,370 million.

### ***Acquisition of Own Shares***

The 2013 AGM resolved that the Issuer, in order to facilitate its securities business, may purchase its own ordinary shares according to chapter 7 section 6 of the Swedish Securities Market Act (*lagen (2007:528) om värdepappersmarknaden*) for the period until the next annual general meeting. The purchase by the Issuer of its own shares is subject to the limitation that the Issuer's holding of such shares in its trading book must never exceed 1 per cent. of the total number of shares in the Issuer. The price for the ordinary shares shall equal the market price prevailing at the time of the purchase.

The 2013 AGM also authorised the Board of Directors, for the period until the next annual general meeting, to decide on the acquisitions of ordinary shares in the Issuer on a regulated market where its ordinary shares are listed, or by means of an acquisition offer directed to all holders of ordinary shares in the Issuer. However, the Issuer's holding of its own shares must not exceed 10 per cent. of its total number of shares. The authorisation also includes other limitations for acquisitions.

In addition, the 2013 AGM authorised the Board of Directors, for the period until the next annual general meeting, to decide on conveyance of ordinary shares in the Issuer to be used as payment in connection with acquisitions of companies or businesses or in order to finance acquisitions of companies or businesses. Conveyance of ordinary shares may also be made in another way than on a regulated market up to the number of ordinary shares in the Issuer that at any time are held by the Issuer. Conveyance of ordinary shares in the Issuer shall be made at an estimated market value and may be made with derogation from shareholders' pre-emption right. Payment for ordinary shares conveyed pursuant to the authorisation may be made in cash, by contribution in kind, or through set-off of debt against the Issuer.

### ***Convertible Notes***

The 2013 AGM authorised the Board of Directors, for the period until the next annual general meeting, on one or several occasions, with or without preferential rights for existing shareholders, to decide on the issue of convertible instruments. The amount that the share capital may be increased by full exercise of the convertible instruments shall not exceed 10 per cent. of the Issuer's share capital, which corresponds to the issuance of 404,995,191 new ordinary shares calculated on the amount of ordinary shares in the Issuer as of the date of the 2013 annual general meeting. Any issue of convertible instruments by virtue of the authorisation shall be done according to market conditions.

### ***Executive Incentive Programme***

The 2013 AGM decided that the executive officers, who include the Nordea Group CEO and members of the Group Executive Management, will be offered an Executive Incentive Programme 2013 ("**GEM EIP 2013**") to reward performance meeting predetermined targets on a group, business unit and individual level. The effect on the long-term result is to be considered when determining the targets. The payout from GEM EIP 2013 shall be paid over a five-year period in cash and be subject to forfeiture clauses, total shareholder return indexation and retention based on the SFSA's regulations on remuneration systems, taking into account domestic rules and practices, where relevant. GEM EIP 2013 has a one-year performance period and the payout shall not exceed the executive officer's fixed salary.

### ***Capital Adequacy***

The Nordea Group uses a variety of capital measurements and capital ratios to manage its capital. The Nordea Group calculates its regulatory capital requirements under the Basel II framework. The Nordea Group is, however, still restricted by regulatory transitional rules based on the Basel I capital adequacy calculation. The Nordea Group received approval from the relevant financial supervisory authorities in July 2007, permitting it to use the IRB approach of Basel II for its corporate and institutional credit portfolios in Denmark, Finland, Norway and Sweden (with exceptions for foreign branches and subsidiaries). In December 2008, the Nordea Group also received approval to use IRB models for its

retail credit portfolio. In May 2011, Nordea was approved to use the IRB approach for the corporate and retail portfolios stemming from the acquisition of the Danish Fionia Bank A/S. In January 2012, the Nordea Group received approval to use the IRB approach for corporate and institutional portfolio in the international units (i.e., branches in Shanghai, London, Singapore, Frankfurt, New York and the Cayman Islands). In November 2012, the Nordea Group received approval to use the IRB approach for corporate and institutional portfolio for the Baltic branches in Estonia, Latvia and Lithuania. In December 2012, Nordea was approved by the SFSA and FFSA to use the internal model method (IMM) for calculating regulatory capital for counterparty credit risk, which will be implemented in the capital adequacy calculation during the first quarter of 2013. The Nordea Group uses the standardised approach for its remaining portfolios. The Nordea Group aims to continue the roll-out of the IRB approaches. The main focus is the development of advanced IRB models for corporate customers in the Nordic markets, including internal estimates of loss given default (LGD) and credit conversion factors (CCF). The Nordea Group is also approved to use its own internal Value at Risk (VaR) models to calculate capital requirements for the major parts of the market risk in the trading books.

The Capital Policy is related to the Internal Capital Adequacy Assessment Process (ICAAP), which according to the CRD, should, for each bank, review the management, mitigation and measurement of material risks to assess the adequacy of internal capital and determine an internal capital requirement reflecting the risk appetite of the institution.

As of 31 December 2012, the Nordea Group's Tier 1 capital and capital base exceeded the regulatory minimum requirements outlined in the CRD. Considering results of capital adequacy stress testing, capital forecasting and growth expectations, the Nordea Group assesses that the buffers held for current regulatory capital purposes are sufficient.

In addition to the Nordea Group's internal capital requirements, ongoing dialogues with third parties affect the Nordea Group's capital requirements, in particular, views of the external rating agencies.

The Nordea Group uses a "pillar 1 plus pillar 2" approach in order to assess the internal capital requirement. This methodology uses the pillar 1 capital requirement for credit risk, market risk and operational risk as outlined in the CRD as the starting point for its risk assessment. Following this, pillar 2 risks, that is, risks not included in pillar 1, are considered. Pillar 2 risks include interest rate risk in the banking book, risk in the Nordea Group's internal defined benefit plans, real estate risk, concentration risk and business risk.

The Nordea Group uses its Economic Capital framework to identify and assess pillar 2 risks, and as its primary tool for internal capital allocation considering all risk types. Another important component of assessing capital adequacy is stress testing. The Nordea Group stress tests both pillar 1 and pillar 2 risks and considers the results of such tests when determining the Nordea Group's internal capital requirements. The Nordea Group uses its existing internal capital measurements as the basis for any additional capital buffers, subject to the judgment of the aforementioned third parties.

## NORDEA BANK AB (PUBL)

### Operational Overview

Nordea Bank AB (publ) or, as the case may be, a predecessor to NBAB, has operated as a part of the Nordea Group since 1998, which was formed as a result of the merger between Merita and Nordbanken. The merger between Merita and Nordbanken has been addressed in detail above; see "*The Nordea Group—Formation of the Nordea Group*".

NBAB conducts banking operations in Sweden within the scope of the Nordea Group's business organisation. NBAB develops and markets financial products and services to personal customers, corporate customers and the public sector.

### Legal Structure and Subsidiaries

Nordea Bank Sverige AB (publ) was a wholly owned subsidiary of NBAB (formerly Nordea AB (publ)) until 1 March 2004, when Nordea Bank Sverige merged with NBAB (see above "*The Nordea Group—Legal Structure*" for further information). NBAB was incorporated on 8 October 1997 in accordance with Swedish law. NBAB's registered office is located in Stockholm, Sweden. NBAB is subject to the Swedish Companies Act (2005:551) and is licensed to conduct banking operations in accordance with the Banking and Finance Business Act (2004:297), and further to pursue financing operations and operations related thereto including, among other things, carrying out securities business. NBAB is subject to substantial regulation in all markets in which it operates. NBAB is registered at the Swedish Companies Registration Office under the name Nordea Bank AB. Nordea Bank is a public (publ) limited liability company with registration no. 516406-0120. The head office is located in Stockholm at the following address: Smålandsgatan 17, 105 71 Stockholm (telephone no. +46 8-614 70 00). NBAB has a number of directly and indirectly owned subsidiaries. NBAB shares are listed on the stock exchanges in Stockholm, Helsinki and Copenhagen.

### The Main Subsidiaries

The three main subsidiaries of NBAB are Nordea Bank Danmark, Nordea Bank Finland and Nordea Bank Norge.

Nordea Bank Finland is a public limited liability company and has been granted a licence from the Finnish Financial Supervisory Authority to conduct banking business in Finland. Banking and financing business in Finland is regulated by the Finnish Act on Credit Institutions (9.2.2007/121) (*laki luottolaitostoiminnasta*) as amended and by the Finnish Act on Commercial Banks and Other Credit Institutions in the form of a Limited Company (*laki liikepankeista ja muista osakeyhtiömuotoisista luottolaitoksista*) as amended.

Nordea Bank Danmark is a Danish public limited liability company (*Da. Aktieselskab*) and has been granted a license from the Danish Financial Supervisory Authority (*Da. Finanstilsynet*) to conduct banking business in Denmark. Banking business in Denmark is regulated by the Danish Financial Business Act (*Da. Lov om finansiel virksomhed*).

Nordea Bank Norge is regulated under the Norwegian Act on Commercial Banks (*Nw. lov 25. mai 1961 om forretningsbanker*) and the Act on Financial Institutions (*Nw. lov 10. juni 1988 nr. 40 om finansieringsvirksomhet og finansinstitusjoner*). In addition, Nordea Bank Norge holds a licence as an investment firm and is therefore also regulated by the Norwegian Securities Trading Act (*Nw. lov 29. juni 2007 nr. 75 om verdipapirhandel*).

### Share Capital and Shareholders

According to article 6 of its Articles of Association, the number of shares in Nordea Bank is not less than 2,700,000,000 and not more than 10,800,000,000. Shares may be issued in two classes, Ordinary shares and C-shares. Ordinary shares may be issued up to a maximum amount of 10,800,000,000 and C-shares may be issued up to a maximum amount of 10,000,000. In voting at a general meeting, each of the Ordinary shares confers one vote and each of the C-shares one tenth of one vote. C-shares do not entitle holders to any dividend.

As of the date of this Base Prospectus, NBAB's share capital is EUR 4,049,951,919, consisting of 4,049,951,919 ordinary shares with a nominal value of EUR 1.00. Each share entitles the holder to one vote. NBAB is not entitled to vote with any shares it holds in itself. The following table sets forth information relating to NBAB's five largest shareholders as of 28 February 2013:

| Shareholder                  | Number of shares (million) | Percent of share capital and votes |
|------------------------------|----------------------------|------------------------------------|
| Sampo plc .....              | 860.4                      | 21.4%                              |
| Swedish State.....           | 544.2                      | 13.5%                              |
| Nordea fonden .....          | 158.2                      | 3.9%                               |
| Swedbank Robur Funds .....   | 133.5                      | 3.3%                               |
| AMF Insurance and Funds..... | 78.8                       | 2.0%                               |

## Board of Directors

According to the Articles of Association, the Board of Directors shall consist of at least six and no more than fifteen members elected by the shareholders at the shareholders' meeting. As of the date of this Base Prospectus, the Board of Directors consists of nine members elected by the shareholders at the shareholders' meeting for the period until and including the annual general meeting in 2014. In addition, three members and one deputy member are appointed by the employees. Employees have a right, according to Swedish legislation, to be represented in the board. The CEO of Nordea is not a member of the Board of Directors.

The following table sets forth, for each member of the Board of Directors, his or her year of birth and the year of his or her initial appointment to the Board of Directors.

| Name                       | Year of birth | Board member since | Position        |
|----------------------------|---------------|--------------------|-----------------|
| Björn Wahlroos.....        | 1952          | 2008               | Chairman        |
| Marie Ehrling.....         | 1955          | 2007               | Deputy Chairman |
| Elisabeth Grieg .....      | 1959          | 2013               | Member          |
| Peter F. Braunwalder ..... | 1950          | 2012               | Member          |
| Svein Jacobsen.....        | 1951          | 2008               | Member          |
| Tom Knutzen .....          | 1962          | 2007               | Member          |
| Lars G. Nordström .....    | 1943          | 2003               | Member          |
| Sarah Russell .....        | 1962          | 2010               | Member          |
| Kari Stadigh.....          | 1955          | 2010               | Member          |

In addition, the Board of Directors includes the following employee representatives (one of whom at any time is a deputy member) appointed by the trade unions.

| Name                       | Year of birth | Board member since | Position                       |
|----------------------------|---------------|--------------------|--------------------------------|
| Toni H. Madsen .....       | 1959          | 2013               | Employee Representative        |
| Steinar Nickelsen .....    | 1962          | 2007               | Employee Representative        |
| Hans Christian Riise ..... | 1961          | 2009               | Employee Representative        |
| Kari Ahola .....           | 1960          | 2006               | Deputy Employee Representative |

The members of the Board of Directors have the following office address: c/o Nordea Bank AB (publ), Smålandsgatan 17, SE-105 71 Stockholm, Sweden.

With the exception of the employee representatives, all members of the Board of Directors work outside the Nordea Group. No potential conflicts of interest exist between any duties to NBAB of a member of the Board of Directors and the private interests or other duties of such persons.

*Björn Wahlroos* has been a member of the Board of Directors since 2008 and has served as its Chairman since 2011. As of the date of this Base Prospectus, Mr. Wahlroos also serves as the Chairman of the Board of Directors of Sampo plc, UPM-Kymmene Corporation and Hanken School of Economics. He is also a member of the Board of Directors of several organisations and charities, including the Finnish Business and Policy Forum EVA/ETLA and the Mannerheim Foundation.

*Marie Ehrling* has been a member of the Board of Directors since 2007 and has served as its Deputy Chairman since 2011. As of the date of this Base Prospectus, Ms. Ehrling is a member of the Board of Directors of Securitas AB, Loomis AB, Oriflame Cosmetics SA, Schibsted ASA, Safe Gate AB, Axel Johnson AB, Centre for Advanced Studies of Leadership at the Stockholm School of Economics, World

Childhood Foundation. She is also the Chairman of the Board of Directors of the Norwegian Swedish Chamber of Commerce and a member of the Royal Swedish Academy of Engineering Sciences (IVA).

*Elisabeth Grieg* has been a member of the Board of Directors since 2013. As of the date of this Base Prospectus, Ms. Grieg is the Chairman of the Board of Directors of Grieg Star Group AS and Norwegian Guarantee Institute for Export Credits, a board member of Grieg Foundation and various companies within the Grieg group as well as SOS Children's Villages Norway. Ms. Grieg is also a member of the Council of Det Norske Veritas.

*Peter F. Braunwalder* has been a member of the Board of Directors since 2012. As of the date of this Base Prospectus, Mr. Braunwalder is the Chairman of the Board of Directors of Thommen Medical AG and a member of the Board of Directors of the Menuhin Festival Gstaad.

*Svein Jacobsen* has been a member of the Board of Directors since 2008. As of the date of this Base Prospectus, Mr. Jacobsen is the Chairman of the Board of Directors of Vensafe AS, PSI Group ASA and Falkenberg AS. He is also a member of the Board of Directors of Heidenreich Holding AS and Isco Group AS and a member of the Advisory Board of CVC Capital Partners.

*Tom Knutzen* has been a member of the Board of Directors since 2007. As of the date of this Base Prospectus, Mr. Knutzen is the CEO of Jungbunzlauer Suisse AG. He is also a member of the Board of Directors of FLSmidt & Co A/S.

*Lars G. Nordström* has been a member of the Board of Directors since 2003. As of the date of this Base Prospectus, Mr. Nordström is the Chairman of Vattenfall AB and the Finnish-Swedish Chamber of Commerce and a member of the Board of Directors of Viking Line Abp and the Swedish-American Chamber of Commerce and a member of the Royal Swedish Academy of Engineering Sciences (IVA). Mr. Nordström is also an Honorary Consul of Finland in Sweden.

*Sarah Russell* has been a member of the Board of Directors since 2010. As of the date of this Base Prospectus, Ms. Russell is the CEO of AEGON Asset Management.

*Kari Stadigh* has been a member of the Board of Directors since 2010. As of the date of this Base Prospectus, Mr. Stadigh is the Group CEO and President of Sampo plc. Mr. Stadigh also serves as the Chairman of the Board of Directors of If P&C Insurance Holding AB (publ), Kaleva Mutual Insurance Company and Mandatum Life Insurance Company Limited and is a member of the Board of Directors of Nokia Corporation. He is also the Vice Chairman of the Confederation of Finnish Industries EK.

## Group Executive Management

Group Executive Management currently consists of seven members, including the CEO. The President and CEO is appointed by the Board of Directors and is charged with the day-to-day management of the Nordea Group and the Nordea Group's group-wide affairs in accordance with applicable laws and regulations, including the Swedish Code of Corporate Governance (*Svensk kod för bolagsstyrning*) (the "**Swedish Corporate Governance Code**"), as well as the instructions provided by the Board of Directors. The instructions regulate the division of responsibilities and the interaction between the CEO and the Board of Directors. The CEO works closely with the Chairman of the Board of Directors, for example, in planning the meetings of the Board of Directors.

The following table sets forth each member of Group Executive Management, his or her year of birth, the year of his or her initial employment as a member of Group Executive Management and his or her current position.

| Name                         | Year of birth | Group Executive Management member since | Position                                                                                             |
|------------------------------|---------------|-----------------------------------------|------------------------------------------------------------------------------------------------------|
| Christian Clausen.....       | 1955          | 2001                                    | President and Group CEO                                                                              |
| Lennart Jacobsen .....       | 1966          | 2013                                    | Executive Vice President, Head of Retail Banking and Country Senior Executive in Sweden              |
| Torsten Hagen Jørgensen..... | 1965          | 2011                                    | Executive Vice President, CFO, Head of Group Corporate Centre and Head of Group Operations           |
| Ari Kaperi.....              | 1960          | 2008                                    | Executive Vice President, CRO, Head of Group Risk Management and Country Senior Executive in Finland |

| <b>Name</b>             | <b>Year of birth</b> | <b>Group Executive Management member since</b> | <b>Position</b>                                                                                                |
|-------------------------|----------------------|------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| Casper von Koskull..... | 1960                 | 2010                                           | Executive Vice President and Head of Wholesale Banking                                                         |
| Peter Nyegaard.....     | 1963                 | 2011                                           | Executive Vice President, Chief Operating Officer of Wholesale Banking and Country Senior Executive in Denmark |
| Gunn Wærsted.....       | 1955                 | 2007                                           | Executive Vice President, Head of Wealth Management and Country Senior Executive in Norway                     |

The members of the Group Executive Management have the following office address: c/o Nordea Bank AB (publ), Smålandsgatan 17, SE-105 71 Stockholm, Sweden.

No potential conflicts of interest exist between any duties to NBAB of a member of the Group Executive Management and the private interests or other duties of such persons.

*Christian Clausen* has been the President and Group CEO of Nordea since 2007 and a member of Group Executive Management since 2000. Mr. Clausen joined the Nordea Group in 2000 as Executive Vice President, Head of Asset Management & Life. Mr. Clausen participates in meetings of the Board of Directors of Nordea in his capacity as the CEO. As of the date of this Base Prospectus, Mr. Clausen is the President of the European Banking Federation and the Chairman of the Swedish Bankers' Association.

*Lennart Jacobsen* has been Executive Vice President, Head of Retail Banking and Country Senior Executive in Sweden and a member of Group Executive Management since 2013. Mr. Jacobsen joined the Nordea Group in 2013 as Head of Implementation & Execution Service, Retail Banking. Prior to joining the Nordea Group, Mr. Jacobsen held various positions within GE Capital, including Country Manager of GE Money Bank in Sweden from 2003 to 2008 and CEO of GE Money Bank Nordics from 2009 to 2012.

*Torsten Hagen Jørgensen* has been Executive Vice President, Head of Group Operations and a member of Group Executive Management since 2011 and CFO and Head of Group Corporate Centre since 2013. Mr. Jørgensen joined the Nordea Group in 2005 and has held several executive positions within the Nordea Group.

*Ari Kaperi* has been Executive Vice President and a member of Group Executive Management since 2008. He became CRO and Head of Group Risk Management as well as Country Senior Executive in Finland in 2010. Mr. Kaperi joined the Nordea Group in 2001 and has held several executive positions within the Nordea Group. As of the date of this Base Prospectus, Mr. Kaperi is the Chairman of the Board of Directors of the Federation of Finnish Financial Services and a member of the Board of Directors of Varma Mutual Pension Insurance Company, a member of the Supervisory Board of Directors of Luottokunta Oyj, a board member of Foundation for Economic Education and Art Foundation Merita, and a member of the Advisory Board of Central Chamber of Commerce, Finnish Business and Policy Forum Eva/ETLA and University of Turku Foundation.

*Casper von Koskull* has been Executive Vice President and a member of Group Executive Management since 2010 and Head of Wholesale Banking since 2011. Mr. von Koskull joined the Nordea Group in 2010 and was Head of Corporate Merchant Banking & Capital Markets from 2010 to 2011. As of the date of this Base Prospectus, Mr. von Koskull is a member of the International Chamber of Commerce ICC Finland.

*Peter Nyegaard* has been Executive Vice President, Chief Operating Officer of Wholesale Banking and a member of Group Executive Management since 2011 and Country Senior Executive in Denmark since 2013. Mr. Nyegaard joined the Nordea Group in 2000 and has held several executive positions within the Nordea Group.

*Gunn Wærsted* has been Executive Vice President, Country Senior Executive in Norway and a member of Group Executive Management since 2007, and Head of Wealth Management since 2011. Ms. Wærsted was Head of Shipping, Private Banking & Savings Products from 2010 to 2011. As of the date of this Base Prospectus, Ms. Wærsted is a member of the Board of Directors of the Norwegian Depository Guaranty Fund and Finance Norway (FNO), a member of the Nomination Committee of Schibsted ASA, the Corporate Assembly of Orkla ASA and a member of the Council of Det Norske Veritas (DnV).

## **Independence**

NBAB complies with applicable rules set forth in the Swedish Corporate Governance Code regarding the independence of the Board of Directors. The Nomination Committee considers all members of the Board of Directors elected by the shareholders, apart from Björn Wahlroos and Kari Stadigh, independent in relation to the Company's major shareholders. As of the date of this Base Prospectus, Björn Wahlroos is Chairman of the Board of Directors of Sampo plc and Kari Stadigh is managing director and the Group CEO of Sampo plc which owns more than 10 per cent. of all shares and votes in NBAB.

All of the members elected by the shareholders are independent of the Company and its executive management.

No member of the Board of Directors elected by the annual general meeting is employed by or working in an operative capacity in the Nordea Group. The members and the deputy members of the Board of Directors appointed by the employees are employed by the Nordea Group and therefore not independent of the Nordea Group.

The number of members of the Board of Directors who are independent in relation to the Nordea Group and its executive management as well as independent in relation to the Company's major shareholders exceeds the minimum requirement set forth in the Swedish Companies Act (*aktiebolagslagen (2005:551)*) and the Swedish Corporate Governance Code, which states that at least two of the Board members elected by the general meeting of shareholders who are independent of the company and the company's executive management shall also be independent of the company's major shareholders. The Nordea Group complies with these requirements.

## **External Auditors**

The annual general meeting of NBAB's shareholders in 2011 approved an amendment to NBAB's Articles of Association changing the auditors' term of office to one year. Prior to this amendment, auditors were elected by the general meeting for a term of four years, after which the general meeting could extend the term for an additional three years.

The auditor appointed by the 2013 AGM for the period until the end of the next annual general meeting is: KPMG AB with Hans Åkervall as auditor-in-charge, Box 16106, SE-103 23 Stockholm. The auditor is authorised by, and a member of, FAR SRS.

## **Legal Proceedings**

Within the framework of the normal business operations, the Nordea Group faces claims in civil lawsuits and disputes, most of which involve relatively limited amounts. None of the current disputes may have, or have had, significant effects on the Nordea Group's position or profitability.

The Articles of Association were last amended on 12 May 2011.

## **Dividends**

The Issuer's annual shareholder general meeting has approved, and the Issuer has paid, the following dividends in the last five years:

- 2012: EUR 0.34 per share, total dividend payment of EUR 1,370 million;
- 2011: EUR 0.26 per share, total dividend payment of EUR 1,047 million;
- 2010: EUR 0.29 per share, total dividend payment of EUR 1,168 million;
- 2009: EUR 0.25 per share, total dividend payment of EUR 1,006 million; and
- 2008: EUR 0.20 per share, total dividend payment of EUR 519 million.

## **Notices**

Notices to the Noteholders are given in accordance with Condition 16 (*Notices*) of the Terms and Conditions of the Notes.

## **Articles of Association**

The objects of NBAB can be found in article 3 of its Articles of Association. The objects of NBAB are to conduct such banking business referred to in Chapter 1 section 3 of the Swedish Banking and Financing Business Act (SFS 2004:297), to conduct financing operations and operations naturally connected therewith in accordance with Chapter 7 section 1 of the Swedish Banking and Financing Business Act and, in its capacity as parent company, to attend to and be responsible for overall functions in the Nordea Group, such as management, supervision, risk management and staff functions.

## **Material Agreements**

NBAB is not a party to any material agreement outside of its normal course of business which may result in another Nordea Group company obtaining a right or incurring an obligation which may materially affect the NBAB's ability to perform its obligations.

## **Corporate Governance**

Corporate governance in Nordea follows generally adopted principles of corporate governance. The external framework which regulates the corporate governance work include the Swedish Companies Act, Banking and Financing Business Act, Annual Accounts Act, the NASDAQ OMX rules and the rules and principles of the Swedish Code of Corporate Governance.

## **NBAB's Recent Developments**

For further information regarding any recent developments, see the sections entitled "*Legal Structure*" and "*Recent Developments*" in "*The Nordea Group*" above.

## **Nordea Bank Finland plc**

### *Operational overview*

NBF has, since 1998, been a part of the Nordea Group which was formed following the merger between Merita and Nordbanken which is addressed in more detail above (see "*The Nordea Group–Formation of the Nordea Group*").

NBF conducts banking operations in Finland as a part of the Nordea Group and its operations are fully integrated into the Nordea Group's operations.

### *Legal structure and subsidiaries*

NBF is a wholly-owned subsidiary of NBAB. NBF was incorporated on 2 January 2002 in accordance with Finnish law. NBF has its registered office in Helsinki, Finland and is a company with limited liability pursuant to the Finnish Companies Act (*Osakeyhtiölaki*) and holds a licence to conduct banking operations in accordance with the Credit Institutions Act (*Laki luottolaitostoiminnasta*). All the operations of NBF are integrated into the operations of the Nordea Group. NBF is subject to substantial regulation in all markets in which it operates. NBF is registered in the trade register with business identity code 1680235-8. Nordea Finland has its head office in Helsinki at the following address: Aleksanterinkatu 36 B, 00100 Helsinki, Finland (telephone number +358 9 1651).

NBF holds a license from the FIN-FSA to issue Covered Bonds in accordance with the Finnish Act on Covered Bonds (*Laki kiinnitysluottopankkitoiminnasta*).

NBF has subsidiaries in Finland and abroad. The most significant subsidiary is Nordea Finances Finland Ltd.

## *Board of Directors*

At the date of this Base Prospectus, NBF's board of directors consists of the following members:

Torsten Hagen Jørgensen, chairman

Casper von Koskull, vice chairman

Carl-Johan Granvik

Gun Wærsted

All board members, except for Carl-Johan Granvik, are employed by the Nordea Group:

| <b>Name</b>                   | <b>Year of birth/<br/>Member since</b> | <b>Position</b>                                                                                                          |
|-------------------------------|----------------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| Torsten Hagen Jørgensen ..... | 1965/2013                              | Executive Vice President, CFO, Head of Group Corporate Centre and Head of Group Operations                               |
| Casper von Koskull .....      | 1960/2010                              | Executive Vice President, Head of Wholesale Banking                                                                      |
| Carl-Johan Granvik .....      | 1949/2012                              | Former positions in Nordea: President of NBF, Head of Group Risk Management, CRO and country Senior Executive in Finland |
| Gun Wærsted .....             | 1955/2010                              | Executive Vice President, CEO in Nordea Bank Norge ASA, Head of Wealth Management and Country Senior Executive in Norway |

*Torsten Hagen Jørgensen* has been Executive Vice President, Head of Group Operations and a member of Group Executive Management since 2011 and CFO and Head of Group Corporate Centre since 2013. Mr. Jørgensen joined the Nordea Group in 2005 and has held several executive positions within the Nordea Group.

*Casper von Koskull* has been Executive Vice President and a member of Group Executive Management since 2010 and Head of Wholesale Banking since 2011. Mr. von Koskull joined the Nordea Group in 2010 and was Head of Corporate Merchant Banking & Capital Markets from 2010 to 2011. As of the date of this Base Prospectus, Mr. von Koskull is a member of the International Chamber of Commerce ICC Finland.

*Carl-Johan Granvik* is not employed by the Nordea Group. Former positions in the Nordea Group: President of NBF, Head of Group Risk Management, CRO and country Senior Executive in Finland. As of the date of this Base Prospectus Mr. Granvik is Chairman of the Board of Julius Stjernvalls Donationsfond, William Thuring's Foundation, Technopolis plc and also Emilie and Rudolf Gesellius fund. He is the Chairman of the Investment Committee of Sponsor fund II Ky. He is a member of Kelonia Ab plc, Kelonia Placerings Ab plc and Sigrid Juselius Foundation. He is a member of the Investment Committee of Forum Fastighets Kb. He is a Supervisory board member of the Foundation Svenska Handelshögskolan

*Gunn Wærsted* has been Executive Vice President, Country Senior Executive in Norway and a member of Group Executive Management since 2007, and Head of Wealth Management since 2011. Ms. Wærsted was Head of Shipping, Private Banking & Savings Products from 2010 to 2011. As of the date of this Base Prospectus, Ms. Wærsted is a member of the Board of Directors of the Norwegian Depository Guaranty Fund and Finance Norway (FNO), a member of the Nomination Committee of Schibsted ASA, the Corporate Assembly of Orkla ASA and a member of the Council of Det Norske Veritas (DnV).

The address of the board members is c/o Nordea Bank Finland Plc, Aleksanterinkatu 36 B, 00100 Helsinki, Finland.

To the best knowledge of NBF, no potential conflicts of interest exist between any duties to NBF of a member of the board of directors or the Nordea Group executive management and the private interests or other duties of such persons.

## **Auditors**

NBF's auditors are elected at the annual general meeting of the shareholders for a period of one year. The auditors elected at the annual general meeting with respect to the years 2003, 2004, 2005, 2006 2007, 2008, 2009, 2010, 2011, 2012 and 2013 are KPMG Oy Ab of Mannerheimintie 20 B, 00100 Helsinki,

Finland. CGR Raija-Leena Hankonen is the auditor-in-charge. KPMG Oy Ab are members of the Finnish Institute of Authorised Public Accounts.

### **Legal and arbitration proceedings**

Within the framework of the normal business operations, the Nordea Group faces claims in civil lawsuits and disputes, most of which involve relatively minimal amounts. NBF has not been involved in any legal or arbitration proceedings (including any such proceedings which are pending or threatened of which NBF is aware of) during the last 12 months that may have, or have had, recent significant effects on NBF's or the Nordea Group's financial position or profitability.

### **Material agreements**

NBF is not a party to any material agreement outside of its normal course of business which may result in another Group company obtaining a right or incurring an obligation which may materially affect the NBF's ability to perform its obligations under the Notes issued.

### **Corporate governance**

All the operations of NBF are integrated into the operations of the Nordea Group. The Nordea Group has established a corporate governance framework at group level and the framework is reviewed on a continuous basis.

## NORDEAKONCERNEN

### Översikt

Nordeakoncernen (Nordea Bank AB (publ) och dess dotterbolag, "**Nordeakoncernen**", "**Koncernen**" eller "**Nordea**") är den största finanskoncernen i Norden (Danmark, Finland, Norge och Sverige) mätt i totala intäkter. Därutöver bedriver Nordea verksamhet i Polen, Ryssland, Estland, Lettland, Litauen samt Luxemburg och på ett antal andra platser i världen.

Nordeakoncernens moderbolag, Nordea Bank AB (publ) ("**NBAB**") är ett svenskt publikt bankaktiebolag som bildats enligt svensk lag. NBAB:s aktier är börsnoterade och handlas på börserna i Stockholm, Köpenhamn och Helsingfors. Nordeakoncernens huvudkontor ligger i Stockholm med adress Smålandsgatan 17, SE-105 71 Stockholm.

Per den 31 december 2012 uppgick Nordeakoncernens tillgångar till EUR 677 miljarder och koncernens primärkapital uppgick till EUR 24,0 miljarder. Per samma datum hade Nordeakoncernen omkring 11 miljoner kunder på de marknader där man bedriver verksamhet, varav 9,0 miljoner är privatkunder i fördelsprogram och 0,6 miljoner är aktiva företagskunder.

Antalet lokalkontor inom Nordeakoncernen uppgick den 31 december 2012 till omkring 1 000 varav cirka 210 återfinns i Ryssland, Polen, Estland, Lettland och Litauen. Därutöver har Koncernen ett mycket stort antal telefon- och Internetkunder. Nordeakoncernen är mycket aktiv inom e-baserade finansiella tjänster och hade vid utgången av år 2012 cirka 6,9 miljoner användare av sådana tjänster.

Dessutom agerar Nordeakoncernen som kapitalförvaltare inom Norden och den övriga Östersjöregionen med EUR 218 miljarder i förvaltade tillgångar per den 31 december 2012. Nordeakoncernen tillhandahåller även livförsäkringsprodukter.

### Bildandet av Nordeakoncernen

Nordea skapades genom internationella samgåenden som gradvis resulterade i att fyra större nordiska finansiella institutioner bildade en enhet. Föregångare till Nordea var Nordbanken AB (publ) i Sverige, namnändrad till Nordea Bank Sverige AB (publ), ("**Nordea Bank Sverige**"), och därefter, den 1 mars 2004, fusionerad med Koncernens moderbolag, och namnändrad till Nordea Bank AB (publ); Unibank A/S i Danmark, namnändrad till Nordea Bank Danmark A/S ("**Nordea Bank Danmark**"); Merita Bank Abp i Finland, föregångare till Nordea Bank Finland Abp ("**Nordea Bank Finland**"); och Christiania Bank og Kreditkasse ASA i Norge, namnändrad till Nordea Bank Norge ASA ("**Nordea Bank Norge**").

Efter det att Koncernens moderbolag i slutet av år 2000 antagit namnet Nordea AB (publ) rullades namnet Nordea successivt ut inom Koncernen och i december 2001 hade bankerna och lokalkontoren inom Koncernen antagit namnet Nordea.

### Legal struktur

För att förbättra driftskapaciteten, minska riskexponeringen och förstärka kapitaleffektiviteten inledde Nordeakoncernens styrelse i juni 2003 en förändring av Koncernens legala struktur. Arbetet med den interna omstruktureringen inleddes under 2003 genom att Nordea AB (publ), moderbolaget i Nordeakoncernen, förvärvade Nordea Bank Sverige, Nordea Bank Danmark och Nordea Bank Norge från Nordea Bank Finland. Samtidigt förvärvade Nordea AB (publ) även Nordea North America, Inc. från Nordea Bank Finland. Efter att dessa transaktioner ägt rum ombildades Nordea AB (publ) till bank och namnet ändrades till Nordea Bank AB (publ). Därefter fusionerades Nordea Bank Sverige med Nordea Bank AB (publ). Patent- och registreringsverket (numera Bolagsverket) registrerade fusionen den 1 mars 2004.

Nordea strävar efter att ständigt förenkla sin koncernstruktur, och vad gäller de nordiska bankerna är målet att Nordea Bank AB (publ) ska omvandlas till ett europabolag. En ombildning förutsätter bland annat att Nordea får tillstånd från berörda myndigheter. De slutliga regler som kommer att införas till följd av den turbulens som råder på finans marknaden samt det "Nya Normala" återstår fortfarande att ta del av och utvärdera. Nordea följer upp och analyserar förändringarna fortlöpande. Dessa förändringar väntas dock inte slutföras under 2013.

ytterligare information om Nordeakoncernens legala struktur se not "M21 till balansräkningen – Moderföretaget" i årsredovisningen 2012 för NBAB bifogat detta Grundprospekt i Bilaga 1.

## Nordeas Organisationsstruktur

### Överblick

Nordeakoncernens nuvarande organisationsstruktur som introducerades juni 2011 bygger på tre huvudsakliga affärsområdena Retail Banking, Wholesale Banking och Wealth Management. Dessutom har en organisationsenhet med namnet Group Operations and Other Lines of Business skapats. Group Corporate Centre och Group Risk Management som är de andra centrala delarna av organisationen. Nordeakoncernens finansiella rapportering är baserad på den nya organisationen från och med det tredje kvartalet 2011.

Alla delar av värdekedjorna – kundansvar, stöd, produkter, personal och IT-utveckling – har införlivats i affärsområdena med målet att öka effektiviteten, höja avkastningen på eget kapital och fördjupa kundrelationerna. Genom att organisera affärsområdena kring värdekedjor, så anser Nordea, att skapandet av ansvaret för effektivitet blir tydligare och Nordea kommer att vara beredd på att snabbt bearbeta regelverk och krav från investerare. Syftet är också att göra det möjligt för Nordeas medarbetare att arbeta ännu närmare kunderna och kunna förstå och svara på kundernas behov och preferenser. Segmentering av kunder och differentiering såvitt avser såväl erbjudanden som resursallokering med hänsyn taget till kundens behov är kärnan i Nordeas strategi inom den nya organisationen.

Retail Banking ansvarar för kundrelationer vad gäller hushåll samt stora-, mellanstora- och småföretag i Norden och Baltikum. Retail Banking ansvarar för kundindelning (kundgrupper) samt värdeskapande kunderbjudanden (kundprogram), gränsöverskridande kundstrategier och försäljningsprocesser. Verksamhetsområdet agerar genom Banking Denmark, Banking Finland, Banking Norway, Banking Sweden och Banking Poland & Baltic countries.

Wholesale Banking bygger på Nordeas kundorienterade relationsbankstrategi och siktar på att tillförsäkra att samtliga tjänster och produkter inom Nordeakoncernen når de stora företagskunderna. Detta affärsområde inkluderar affärsenheterna Corporate & Institutional Banking, Shipping, Offshore & Oil Services, Banking Russia, Nordea Markets, Transactions Products and International Units.

Wealth Management innefattar affärsområdena Private Banking (Nordic och International), Asset Management och Life & Pensions. Private Bankings verksamhet bedrivs genom en integrerad modell med Retail Banking.

Group Operations and Other Lines of Business ansvarar för "Group common development and services" såsom IT, Processer, Services och Premises and Property.

Group Corporate Centre och Group Risk Management är affärsområden som kommer att fortsätta att bedriva sin verksamhet som tidigare.

## Affärsområden

Kärnan i Nordeas strategi är segmentering av kunder och differentiering såvitt avser såväl erbjudanden som resursallokering med hänsyn taget till kundens behov. Nordeas kunder är indelade i framförallt två större kundgrupper: privatkunder och företagskunder. Nordea arbetar för att bygga långsiktiga bankrelationer och för att bli en livslång finansiell partner till dessa kunder genom att förstå kundens specifika behov av produkter och tjänster samt genom att erbjuda produkter och rådgivning utformad för kundens specifika behov.

För privatkunder och företagskunder har Nordea delat in affärsverksamheten i tre huvud-affärsområden (Retail Banking, Wholesale Banking and Wealth Management) samt affärsområdet Group Operations and Other Lines of Business. Varje affärsområde består av ett antal affärsenheter som fungerar som självständiga resultatenheter.

Nedanstående figur visar Nordeakoncernens organisationsstruktur.

## *Retail Banking*

Retail Banking är det största affärsområdet i Nordea. Per den 31 december 2012 betjänade Retail Banking nästan 10 miljoner hushålls- och företagskunder i åtta marknader. Retail Banking ansvarar för kundrelationer och försäljning till hushållskunder samt stora, mellanstora och små företagskunder i Norden och Baltikum. Hushålls- och företagskunder får hjälp med samtliga finansiella behov och ambitionen är att erbjuda dem alla tjänster de behöver. Affärsområdet omfattar hela värdekedjan, inklusive säljstyrka, kanaler, produktenheter, back office och IT. Retail Banking är ansvarig för kundindelning (kundgrupper) och även värdeskapande kunderbudanden (kundprogram), gränsöverskridande kundstrategier samt säljprocesser. Affärsområdet arbetar efter en strategi, en verksamhetsmodell och ett styrningssystem i Banking Denmark, Banking Finland, Banking Norway, Banking Sweden, Banking Poland och Banking Baltic countries. Retail Bankings ambition är att skapa den ledande retailbanken i Europa sett till lönsamhet, effektivitet och kundupplevelser. Hörnstenen i planen är att vara en relationsbank och att på ett genomtänkt sätt att utveckla denna strategi från den nuvarande kontorscentrerade modellen till en retailbank som skapar goda kundrelationer oavsett kanal.

Inom Retail Banking använder sig Nordea av en multifunktionell distributionsstrategi för sina hushållskunder i syfte att försäkra sig om att kunderna har tillgång till bankens tjänster när kunderna vill och behöver dessa. Nordeas strategi bygger på en flerkanalsdistribution med kontor, kundcenter, Internetbank och banktjänster i mobilen som de tre viktigaste kanalerna. Dessa kanaler integreras genom Nordeas kundrelationssystem som registrerar kundens uppgifter i samtliga kanaler innebärande att ett agerande från kunden i en kanal samtidigt registreras i övriga kanaler. Nordea placerar hushållskunderna i kundsegment utifrån affärsvolym och det antal produkter och tjänster som kunden har hos Nordea. Kundsegmenten är indelade i Premium-, Guld-, Silver- och Bronskunder. Rådgivarna inom Retail Banking arbetar med att erbjuda kunderna inom dessa segment produktlösningar som tillgodoser kundens individuella bankbehov.

I Norden delas företagskunderna inom Retail Banking in i följande företagssegment: stora företag, medelstora företag och små företag. För segmenten stora företag och medelstora företag och små företag är målet att utveckla kundrelationerna och att bli husbank för deras respektive kunder. För stora och medelstora företagskunder fortsätter Nordea att göra risk-hanteringsprodukter och kapitalmarknadstransaktioner till en integrerad del av grunderbudandet. När det gäller små företagskunder så har man sjösatt konceptet kunden erhåller en rådgivare för både företagstjänster och privat tjänster.

## *Wholesale Banking*

Wholesale Banking erbjuder tjänster och finansiella lösningar till Nordeas största företagskunder och institutionella kunder. Affärsområdet täcker in hela värdekedjan, med kund- och produktenheter såväl som stödjande IT-funktioner och infrastruktur. Därmed kan man erbjuda produkter och tjänster för varje behov, inklusive skraddarsydda lösningar för enskilda kunder. Affärsenheterna inom Wholesale Banking bildades som ett led i att utveckla Nordeas målsättning att vara en kundfokuserad relationsbank och i syfte att försäkra att alla bankens produkter och tjänster når Nordeas största företagskunder. Nordea är av den uppfattningen att man är den ledande storföretagsbanken i Norden och har den styrka som behövs för att förse sina kunder med de bästa finansiella verktygen så att de kan optimera sin verksamhet och hantera sina risker. Verksamhetsmodellen, som bygger på Nordeas storlek och starka lokala närvaro, möjliggör ett mycket nära samarbete mellan kundenheter och produktexperter.

Nordea anser att Wholesale Bankings affärsmodell har visat sin styrka under den pågående omvandlingen i branschen. Med lokala säljorganisationer anser Nordea att i kombination med en global produktionsplattform kan Nordea dra nytta av både kundrelationer och storskalighet. Relationsstrategin säkerställer djupgående kunskap om kunder och deras branscher, vilket stärker Wholesale Bankings erbjudande till kunderna.

För närvarande inkluderar verksamhetsområdet affärsenheterna Corporate & Institutional Banking, Shipping, Offshore & Oil Services, Banking Ryssland, Nordea Markets, Transaction Products samt International Units.

### *Corporate & Institutional Banking*

Corporate & Institutional Banking betjänar Nordeas största nordiska företags- och institutionella kunder från en central enhet i varje land. Nordeas målsättning är att etablera strategiska relationer med sina kunder inom segmentet Corporate & Institutional Banking genom att bli deras huvudbank avseende ett brett utbud av finansiella tjänster och produkter, inklusive dagliga banktjänster såsom exempelvis likviditetshantering. Nordea erbjuder dessa kunder skräddarsydda, i hög grad individuellt anpassade lösningar och villkor. En grundkomponent i Nordeas företagsstrategi är att skapa värde genom relationsbankkonceptet och i de övre kundsegmenten är Nordeakoncernens målsättning att fortsättningsvis vara en stark partner genom sin strikta resurshantering och effektiva resursanvändning kombinerat med fortsatt hög servicenivå, aktiv affärsselektering och ökad operationell effektivitet. När kunder som är stora finansiella institut, såsom banker, investmentbanker och hedgefonder, ska betjänas så använder sig Nordeakoncernen av en liknande relationsstrategi för att möjliggöra en etablering av strategiskt partnerskap med kunden samt att tillhandahålla specialiserad rådgivning och specialgjorda produkter och service.

### *Shipping, Offshore & Oil Services*

Shipping, Offshore & Oil Services är den division inom Wholesale Banking som betjänar kunder i sektorerna shipping, offshore och oljeservice samt kryssnings- och färjerederier över hela världen. Kunderna betjänas från kontoren i Norden såväl som från utlandskontoren i New York, London och Singapore. Nordea anser att man är en ledande bank i den globala shipping- och offshoresektorn, med ett välkänt varumärke och en världsledande ställning inom lånesyndikering. Affärsstrategin bygger på långsiktiga kundrelationer och gedigen branschexpertis.

### *Nordea Markets*

Enligt Nordeas uppfattning är Nordea Markets ledande i Norden inom kapitalmarknadstjänster och investment banking. Nordea Markets ansvarsområden är handel med finansiella instrument, analys samt försäljning inom områden som exempelvis valutaväxling, räntebärande papper, aktier, strukturerade produkter, råvaror, finansmarknadstjänster, finansiell rådgivning och bolagsfinansiering. Nordea Markets erbjuder sina produkter till företag och finansiella institutioner och via Wealth Management till privatkunder. Nordea Markets verksamhet är uteslutande kundorienterad. Nordeas strategi är att öka försäljningen av riskhanteringsprodukter till Nordeas företagskunder och att erbjuda effektiva finansiella lösningar.

### *Banking Russia*

Nordea betjänar såväl företags- som privatkunder i Ryssland genom ett helägt dotterbolag, OJSC Nordea Bank, en fullservicebank som fokuserar särskilt på stora globala bolag i Ryssland och nordiska kärnkunder. Förutom grundutbudet erbjuder OJSC Nordea Bank cash management, utlåning och kapitalmarknadstjänster. Tack vare Nordeas starka ställning i Norden anser Nordea att man kan erbjuda lösningar, som motsvarar deras behov, till företag som är aktiva både i Norden och Ryssland.

### *Transaction Products*

Produktområdet Transaction Products består av följande tre enheter; Cash Management, Trade Finance och Payment Operations. Avdelningen är ansvarig för tillhandahållandet av bland annat följande produkter; transaktionsprodukter och tjänster, tjänster relaterade till rörelsefinansiering, internetjänster för företag samt handelsfinansiering.

### *Internationella enheter*

Nordeakoncernen driver ett internationellt nätverk av filialer i New York, London, Frankfurt, Shanghai och Singapore, samt representationskontor i Sao Paolo och Beijing. Utöver Nordeas eget nätverk så har Nordeakoncernen träffat olika samarbetsavtal med banker globalt. Som ett resultat av detta kan Nordeakoncernen erbjuda sina företagskunder högkvalitativa lösningar för deras internationella verksamhet. Produkterbjudandena fokuserar på dagliga banktjänster, krediter, cash management, trade finance och kapitalmarknadsprodukter.

## *Wealth Management*

Wealth Management erbjuder högklassiga placerings-, spar- och riskhanteringsprodukter och förvaltar tillgångar för Nordeas kunder samt ger placeringsråd åt förmögna privatkunder och institutionella investerare. Wealth Managements ambition är att vara den ledande förmögenhetsförvaltaren på alla nordiska marknader, med en global räckvidd och kapacitet. Wealth Management anser att detta förutsätter en affärsmodell där vi kan erbjuda kunderna kvalificerad rådgivning, hög servicenivå och ett heltäckande utbud av kvalitetsprodukter med hjälp av en kostnads- och kapitaleffektiv leveransmodell. Affärsområdena består av affärsenheterna Private Banking, Asset Management, Life & Pensions samt serviceenheten Savings & Wealth Offerings.

## *Private Banking*

Nordea bedriver Private Bankingverksamheten via en integrerad modell med Retail Banking. Genom den integrerade verksamhetsmodellen kan Nordea fullt ut dra nytta av hela koncernens distributionsnät och kundbas liksom den samlade kompetensen inom placeringar samt produktpaketering och utveckling inom Nordea-koncernen.

Utöver den Nordiska Private Bankingverksamheten bedriver Nordeakoncernen även Private Banking internationellt som är inriktad både på kunder av nordisk härkomst bosatta utomlands och internationella kunder som inte är av nordisk härkomst.

## *Asset Management*

Asset Management tillhandahåller Nordeas placeringsprodukter till privatkunder vilket inkluderar Private Bankingkunder. Utbudet består av aktivt förvaltade placeringsprodukter såsom fonder, livförsäkringskapital, pensionsprodukter och diskretionära mandat. Asset Management ansvarar också för tillhandahållandet av placeringsprodukter till stora företags- och institutionellakunder.

## *Life & Pensions*

Life & Pensionsenheten omfattar produktutveckling och paketering av liv- och pensionsprodukter till privat- och företagskunder. Kunderna betjänas via bankkontor, Life & Pensions egen säljkår eller via agenter och mäklare.

## **Strategi**

Sedan 2007 har Nordea fokuserat på sin relationsstrategi. Nordeakoncernen har fortsatt sin strategiska inriktning trots de svåra makroekonomiska förutsättningarna de senaste åren och fortsätter att hjälpa våra kunder och bidra till samhällsutvecklingen. Nordeakoncernens strategi är baserad på "Planen 2015" som är fokuserad på utvecklandet av relationsbanks affärsmodellen. Kärnan i Nordeakoncernens strategi baseras på Nordeas ambition att förstå rådgivning, tjänster och åtaganden till kunderna för att främja bygget av långsiktiga relationer där fokusområdena är:

- balanserad kundfokus, som bygger på en kundorienterad organisatorisk struktur, där de rätta produkterna tillhandahålls på ett korrekt sätt, till ett rimligt pris baserat på den faktiska kostnaden för att tillhandahålla produkten;
- fokus på personal, tydliga principer och värderingar reflekteras i mål och initiativ som fastställts inom Nordeakoncernen med den ekonomiska vinstströmen som kvarstår som central del i hur ledning och support utövas; och
- integration av optimerad värdekedja, antagande och genomförande av riktlinjer där lojalitet till enkelhet, transparens och minskning av komplexitet främjas samtidigt som att behålla Nordeakoncernens kunder och deras målsättning är i fokus.

Nordea anser att en verksamhetsmodell och ett affärsområdes ansvar från början till slutet av värdekedjan säkerställer överblick, ansvar och kongruens. Denna fokuserade relationsstrategi utgör grunden för att nå Nordeakoncernens finansiella mål, såsom vidare diskuteras nedan.

Nordea anser att lönsamhet kommer att vara lösningen till att upprätthålla ett högt kreditbetyg, låga kostnader för upplåning och flexibilitet inom Nordeakoncernens kapital position och anser därtill att solid

lönsamhet är en nödvändig förutsättning för att kunna tillhandahålla en utomordentlig kunderfarenhet på ett hållbart sätt till kunder. För att Nordeakoncernen skall kunna kvarstå i vad den själv anser vara toppklass avseende prestation i sin jämförelsegrupp av europeiska banker, anser Nordea att Nordea behöver öka koncernens avkastning på kapital genom att vidta åtgärder avseende både kostnader och kostnadseffektivitet och samtidigt fortsätta att öka koncernens intäkter. I linje med denna strategi har Nordea fastställt en finansiell målsättning för koncernen, vilket är att uppnå en avkastning på eget kapital om 15 procent i en normalt sett makroekonomisk tillvaro med ett kapitaltäckningskrav överstigande 13 procent på primärkapital.

### *Kapitalpolicy*

Nordea har fastställt en kapitalpolicy för de nya bankreglerna. Kapitalpolicyn anger att kärnprimärkapitalrelationen ska överstiga 13 procent och kapitaltäckningsgraden ska överstiga 17 procent senast den 1 januari 2015. Kapitalpolicyn baseras på ledningens aktuella bedömning av kapitaliseringen, men det är fortfarande oklart vad CRD IV/CRR kommer att leda till i slutändan. De fastställda målen sätter miniminivåer som ska gälla under normala affärsförhållanden eftersom bankreglerna anpassas till de olika stadierna i konjunkturcykeln.

### *Effektiviseringsinitiativ*

Nordea har introducerat effektiviseringsinitiativ avseende både kostnadseffektivitet och effektivitet avseende utnyttjande av tillgångar och kapital med målsättningen att minska den förväntade högre kostnaden för att bedriva bankverksamhet i det förändrade affärsklimat som av Nordea benämns det "Nya Normala". I juni 2011 implementerade Nordeakoncernen en ny organisationsstruktur vilken Nordea anser kommer att möjliggöra en fortsatt fokus på effektivitet avseende värdekedjorna samt tillhandahållandet av effektiva lösningar för Nordeas kunder i det Nya Normala. Avsikten med den nya organisationsstrukturen är att säkerställa förbättrad ansvarskänsla och fokusera på implementering av identifierade kostnadseffektiva åtgärder. Under andra halvåret av 2011 vidtog Nordea ytterligare konstandseffektiva åtgärder, inklusive minskning av antalet anställda i Nordeakoncernen med cirka 2 700 personer sedan andra kvartalet 2011 och förväntas påbörja ytterligare effektivitets åtgärder framöver. Nordea har även tagit initiativ till kostnadseffektivitet inom bland annat områden såsom IT-utveckling. Nordea eftersträvar vidare effektivitet avseende utnyttjande av kapital genom att fokusera affärerna på produkter som inte kräver hög kapitaltäckning inom rådgivning och relationsverksamheten såväl som sidoinkomster från kundrelationer. Nordeakoncernens effektivitet avseende utnyttjande av tillgångar och kapitalinitiativ strävar vidare efter att vidta åtgärder för att uppnå modest tillväxt i RWA oavsett inkomstökning. Dessa initiativ inkluderar genomgång av kreditriskprocesser för att ytterligare förbättra RWA effektiviteten såväl som ytterligare spridning av den interna kreditbetygs modeller (IRB modeller).

### *Privat- och företagskundrelationer*

Nordeakoncernens strategier för kundrelationer är uppdelade mellan strategi för privatkundsrelationer och strategi för företagskundrelationer.

#### *Strategi för privatkundsrelationer*

Privatkunder är indelade i fyra segment baserat på den typ av affärer de gör med Nordea. För varje segment har Nordea utvecklat en värderingsproposition som inkluderar kontaktpolicy, servicepolicy, prissättande och produktlösningar. Kärnfilosofin i denna strategi är att erbjuda de bästa service-, rådgivnings- och produktlösningarna till kunden och därmed säkerställa lojalitet, varumärkesvärde och öka mängden affärer och intäkter. Nordeas privatkundsprissättning är genomlyst och generellt inte förhandlingsbar. Produktutveckling ska minska komplexiteten och utveckla produkter med ett lågt kapitaltäckningskrav för att möta krav från kunder samt regulatoriska krav. Nordeas sparprodukter som erbjuds är utvecklade för att ta höjd för kundens förmögenhet, inkomst, storleken på kundens engagemang, stadiet i livet och storlek på risktagande.

Nordea strävar efter en flerkanalsdistributionsstrategi som siktar på att förbättra kundnöjdhet samtidigt som kostnader för service ska reduceras. Proaktiv kundkontakt utförs av lokala kontor och komplementeras med kontakcenter, "online" service och mobilbank. Nordea siktar på att ha återkommande rådgivningsmöten med samtliga- och potentiellakundrelationer. Detta för att kunna erbjuda en fullständig finansiell lösning genom att beakta kundernas samtliga finansierings- och långsiktiga preferenser.

## *Strategi för företagskundrelationer*

Företagskunder består av fyra segment baserat på kundens affärspotential och komplexiteten av behovet av banktjänster. För varje segment så har Nordea utvecklat en värderingsproposition som omfattar kontaktpolicy, servicenivå och produktlösningar för att tillhandahålla finansiella lösningar och försäkra "husbanks"-relation. Kundens variga tar ett helhetsgrepp om respektive kunds situation och mål och utformar relationen därefter. Nordea anser att dess styrka och storlek som bankkoncern gör att Nordea kan erbjuda unika lösningar till nytta för dess företagskunder. Nordea anser att strategin gentemot dess största företagskunder har visat sig varakraftfull under den pågående omvandlingen i bankbranschen. Nordea anser också att de lokala säljorganisationerna i kombination med en global produktionsplattform gör att Nordea kan utnyttja värdet av både kundrelationer och storskalighet.

Nordea är fast besluten att bli den ledande banken i wholesalesegmentet på samtliga Nordeas nordiska marknader. För stora och medelstora företagskunder fortsätter Nordea att göra riskhanteringsprodukter och kapitalmarknadstransaktioner till en integrerad del av grunderbudandet. För små företagskunder utvidgas rådgivarprofilen och servicekonceptet för att göra det möjligt att hantera såväl företags- som privataffärer för kunderna i detta segment.

## **Utveckling under senare tid**

### ***Utdelning***

Nordeas årsstämma för 2013 ("**Årsstämman 2013**") har beslutat om utdelning för 2012 om EUR 0,34 per aktie. Den totala utdelningen uppgår till EUR 1 370.

### ***Förvärv av egna aktier***

Årsstämman 2013 beslöt att NBAB, för att underlätta sin värdepappersrörelse, under tiden fram till nästa årsstämma löpande får förvärva egna stamaktier i enlighet med Kap 7 § 6 i den svenska lagen (2007: 528) om värdepappersmarknaden. Innehavet av sådana aktier får inte överstiga en procent av samtliga aktier i NBAB. Förvärv skall ske till rådande marknadspriser.

Årsstämman 2013 beslöt att bemyndiga styrelsen att för tiden intill nästa årsstämma fatta beslut om förvärv av stamaktier i NBAB på en reglerad marknad där NBABs stamaktier är noterade eller enligt förvärvserbjudande till samtliga ägare av stamaktier i NBAB, dock att NBABs innehav av egna aktier inte vid något tillfälle får överstiga tio procent av samtliga aktier i NBAB. Bemyndigandet innehåller också andra begränsningar för förvärv.

Årsstämman 2013 beslöt, också, att bemyndiga styrelsen att för tiden intill nästa årsstämma fatta beslut om överlåtelse av stamaktier i NBAB att användas som likvid vid eller finansiering av förvärv av företag eller verksamhet. Överlåtelse av stamaktier får ske på annat sätt än på en reglerad marknad intill det antal stamaktier i NBAB som vid var tid innehas av NBAB. Överlåtelse av stamaktier i NBAB skall ske till ett bedömt marknadsvärde och får ske med avvikelse från aktieägarnas företrädesrätt. Ersättning för överlåtna stamaktier får erläggas kontant, genom apport eller genom kvittning av fordran mot Bolaget.

### ***Convertibler***

Årsstämman 2013 beslöt att bemyndiga styrelsen att för tiden före nästa årsstämma, vid ett eller flera tillfällen, med eller utan företrädesrätt för befintliga aktieägare, fatta beslut om emission av konvertibler, varvid det belopp som aktiekapitalet skall kunna ökas med vid fullt utnyttjande av konvertiblerna uppgår till maximalt 10 procent av NBABs aktiekapital, vilket skulle motsvara utgivande av 404 995 191 nya stamaktier beräknat efter nuvarande antal stamaktier utgivna av NBAB. Emission av konvertibler med stöd av bemyndigandet skall ske på marknadsmässiga villkor.

### ***Riktlinjer för ersättning till ledande befattningshavare/Executive Incentive Programme***

Årsstämman 2012 beslöt att ledande befattningshavare vilket inkluderar verkställande direktör i NBAB och medlemmar i koncernledningen (Group Executive Management) ska erbjudas en "Executive Incentive Programme 2013 ("**GEM EIP 2013**") för att belöna uppfyllelsen av i förväg övernskomna mål på koncern-, affärsenhets- och individuell nivå. Hur resultatet påverkas på lång sikt ska beaktas när målen beslutas. Utfallet från GEM EIP 2013 ska utbetalas över en femårsperiod i form av kontant ersättning och ska vara föremål för justering av uppskjuten ersättning, indexering till Nordeas totalavkastning och

förfoganderestriktioner baserat på FI:s föreskrifter om ersättningssystem, med beaktande av lokala regler och förhållanden när detta är relevant. GEM EIP 2013 har en resultatmättningsperiod om ett år och utfallet ska inte överstiga den fasta lönen.

Ersättning till ledande befattningshavare kommer att beslutas av styrelsen i enlighet med Nordeas interna riktlinjer och rutiner vilka baseras på den svenska Finansinspektionens (FI) föreskrifter och allmänna råd om ersättningspolicy, Europeiska Unionens direktiv om kapitaltäckning för banker liksom internationella sunda ersättningssystem.

## **Kapitaltäckning**

Nordeakoncernen använder sig av olika kapitalmätningstekniker och kapitalmått för att hantera sitt kapital. Nordeakoncernen använder sig av kapitaltäckningsstandarden som återfinns i Basel II. Nordeakoncernen är dock fortfarande begränsad regulatoriska kapitaltäckningskrav baserade på Basel I.

Nordeakoncernen erhöll i juli 2007 godkännande från relevanta finansinspektioner för att använda den internariskklassificeringsmetoden (IRB) i Basel II för Nordeas företagskrediter och krediter till finansiella institutioner i Danmark, Finland, Norge och Sverige (med undantag för utländska filialer och dotterbolag). I december 2008 mottog Nordeakoncernen även tillstånd för att använda den interna riskklassificeringsmetoden för sina krediter till privatpersoner. I maj 2011 blev Nordea godkänd att använda den internariskklassificeringsmetoden även för sina krediter till företag och privatpersoner härstammande från förvärvet av Danish Fionia Bank A/S. I januari 2012 erhöll Nordea godkännande att använda den interna riskklassificeringsmetoden för företag och institutionella portföljer i de internationella enheterna (d.v.s. branscherna i Shanghai, London, Singapore, Frankfurt, New York och Cayman öarna). I november 2012 erhöll Nordea godkännande att använda den interna riskklassificeringsmetoden för företag och institutionella portföljer i de Baltiska branscherna Estland, Lettland och Litauen. I december 2012 erhöll Nordea godkännande från SFSA och FFSA för att använda "the internal model method" (IMM) för att kalkylera regulatorisk kapital för motparts kreditrisk, som kommer att bli implementerat i kapitaltäckningskalkylering första kvartalet 2013. Nordea gruppen använde sig av standarlösningen för de övriga portföljerna. Nordeakoncernen mål är att fortsätta att implementera den interna riskklassificeringsmetoden. Huvudfokus är utvecklingen av den avancerade internariskklassificeringsmetoder för företagskunder i den nordiskamarknaden inkluderat interna beräkningar av "loss given default" (LGD) och "credit conversion factors" (CCF). Nordea har också tillstånd att använda interna Value-at-Risk-modeller (VaR) för att beräkna kapitalkravet för huvuddelen av marknadsrisken i handelslagret.

Nordeakoncernen har fastställt en ny kapitalpolicy för de nya bankreglerna. Kapitalpolicy anger att kärnprimärkapitalrelationen ska överstiga 13 procent och kapitaltäckningsgraden ska överstiga 17 procent senast den 1 januari 2015. Kapitalpolicy är baserad på ledningens aktuella bedömning av kapitaliseringen, det är fortfarande oklart vad CRD IV/CRR kommer att leda till i slutändan. De fastställda målen sätter miniminivåer som ska gälla under normala affärsförhållanden eftersom banreglerna anpassas till de olika stadierna i konjunkturcykeln.

Nordeas interna kapitalkrav enligt den interna kapitalutvärderingen (IKU), som enligt CRD skall, för varje bank, granska ledningen, omständigheter och mätning av materiella risker för att fastställa den adekvata internakapitalet och fastställa en internt regelverk för kapital som reflekterar riskaptiten för institutionen.

Per den 31 december 2012 så överstiger Nordeakoncernens primärkapital och kapitalbas det regulatoriska minimum som krävs enligt CRD. Med beaktande av resultaten av stresstester på kapitaltäckning, kapitalförutsägning och tillväxt förväntningar så bedömer Nordeakoncernen att bufferterna som finns idag för de regulatoriska kapitaltäckningskraven är tillräckliga

I tillägg till Nordeakoncernens interna kapitalkrav och pågående samtal med tredjeman så påverkas Nordeakoncernens kapitalkrav, speciellt, av de externa kreditvärderingsinstituts synvinklar.

För att identifiera och bedöma interna kapitalkrav så används metoden "Pelare 1 och 2". Den här metoden använder Pillar 1:s kapitalkrav för kreditrisk, marknadsrisk och operationellrisk såsom återfinns i kapitaltäckningsdirektivet (CRD) som utgångspunkt för riskbedömning. Följdaktligen så bedöms risker i Pelare 2 för det fall riskerna inte återfinns i Pelare 1. Pelare 2-risker består av räntesatsrisker i

bankportföljen, risker i Nordeakoncernens internt definierade fördelsplan, fastighetsrisk, koncentrationsrisk och affärsrisk.

Nordeakoncernen använder sig av "Economic Capital regelverk" för att identifiera och bedöma Pillar 2-risker och är Nordeas främsta verktyg för att allokera kapital internt med beaktande av alla risktyper. En annan viktig beståndsdel i att bedöma kapitalbehovet är stresstester. Nordea stresstestar både risker inom Pelare 1 och Pelare 2 och resultatet beaktas när Nordea definierar sitt interna kapitalbehov.

## NORDEA BANK AB (publ)

### Verksamhetsöversikt

Nordea Bank AB (publ), eller där det är tillämpligt, föregångaren till NBAB har sedan 1998 bedrivit sin verksamhet som en del av Nordeakoncernen, vilken bildades till följd av samgåendet mellan Merita och Nordbanken. Samgåendet mellan Merita och Nordbanken behandlas närmare ovan, se "*Nordeakoncernen – Bildandet av Nordeakoncernen*".

NBAB bedriver bankverksamhet i Sverige inom ramen för Nordeakoncernens affärsorganisation. NBAB utvecklar och marknadsför finansieringsprodukter och tjänster till privatkunder, företagskunder och den offentliga sektorn.

### Legal struktur och dotterbolag

Nordea Bank Sverige AB (publ) var ett helägt dotterbolag till NBAB (tidigare Nordea AB (publ)) fram till den 1 mars 2004 då Nordea Bank Sverige fusionerades med NBAB (se ovan "*Nordea koncernen – Legal struktur*" för ytterligare information). NBAB bildades den 8 oktober 1997 i enlighet med svensk lag. NBAB har sitt säte i Stockholm, Sverige, lyder under aktiebolagslagen (2005:551) och innehar tillstånd att bedriva bankverksamhet i enlighet med lagen (2004:297) om bank- och finansieringsrörelse, och vidare bedriva finansiell verksamhet och verksamhet som har ett naturligt samband därmed, bl.a. värdepappersrörelse. NBAB är föremål för omfattande reglering på alla marknader där NBAB verkar. NBAB är registrerat hos Bolagsverket och har firma Nordea Bank AB. NBAB är ett publikt (publ) aktiebolag och har org. nr 516406-0120. NBAB har sitt huvudkontor i Stockholm med adress: Smålandsgatan 17, 105 71 Stockholm (telefon nr 08-614 70 00). NBAB har ett antal direkt och indirekt ägda dotterbolag. Aktierna i NBAB är registrerade på börserna i Stockholm, Helsingfors och Köpenhamn.

### De viktigaste dotterbolagen

NBABs tre huvudsakliga dotterbolag är Nordea Bank Danmark A/S ("NBD"), Nordea Bank Finland Abp ("NBF") och Nordea Bank Norge ASA ("NBN").

NBF är ett publikt aktiebolag och har beviljats tillstånd av den finska Finansinspektionen ("finska Finansinspektionen") att bedriva bankrörelse i Finland. Bank- och finansieringsrörelse i Finland regleras av den finska kreditinstitutslagen (9.2.2007/121) ("FKL") och av den finska lagen om affärsbanker och andra kreditinstitut i aktiebolagsform (28.12.2001/1501).

NBD är ett publikt aktiebolag (Da: Aktieselskab) och har beviljats tillstånd av den danska Finansinspektionen (Da: Finanstilsynet) ("danska Finansinspektionen") att bedriva bankrörelse i Danmark. Bankrörelse i Danmark regleras av den danska lagen om finansiell verksamhet (Da: Lov om finansiel virksomhed) ("LFV").

NBN lyder under den norska lagen om kommersiella banker (No: lov 24. mai 1961 nr. 2 om forretningsbanker) och lagen om finansiella institut (No: lov 10. juni 1988 nr. 40 om finansieringsvirksomhet og finansinstitusjoner). Därtill innehar NBN tillstånd att bedriva investeringsverksamhet och lyder därför även under den norska lagen om handel med värdepapper (No: lov 29. juni 2007 nr. 75 om verdipapirhandel).

### Aktiekapital och Aktieägare

Vid datumet för detta prospekt uppgick NBABs aktiekapital till 4 049 951 919 euro uppdelat på 4 049 951 919 stamaktier med ett nominellt belopp om 1 euro. Varje aktie motsvarar en röst. NBAB är inte tillåten att använda rösträtt för NBAB aktier som NBAB innehar.

Av nedanstående tabell framgår uppgifter om NBABs fem största registrerade aktieägare per den 28 februari 2013:

| Ägare           | Antal aktier,<br>miljoner | Andel av kapital<br>och röster % |
|-----------------|---------------------------|----------------------------------|
| Sampo Oyj ..... | 860,4                     | 21,4                             |

| Ägare                        | Antal aktier,<br>miljoner | Andel av kapital<br>och röster % |
|------------------------------|---------------------------|----------------------------------|
| Svenska staten.....          | 544,2                     | 13,5                             |
| Nordea-fonden.....           | 158,2                     | 3,9                              |
| Swedbank Robur Fonder.....   | 135,9                     | 3,3                              |
| AMF Insurance and Funds..... | 78,8                      | 2,0                              |

## Styrelse

Enligt NBABs bolagsordning skall styrelsen bestå av minst sex och högst 15 styrelseledamöter som väljs av aktieägarna vid bolagsstämman. Styrelsen består för närvarande av nio ledamöter valda av aktieägarna på bolagsstämman för perioden fram till och inkluderande bolagsstämman 2014. Utöver dessa ledamöter väljs tre ordinarie och en suppleant utsedda av arbetstagarna. Arbetstagarna har en rätt, enligt svensk lag, att vara representerade i styrelsen. Verkställande direktören i NBAB är inte ledamot i styrelsen.

Följande tabell innehåller respektive styrelseledamots födelseår samt det år då ledamoten valdes in i styrelsen.

| Namn                      | Födelseår | Styrelseledamot sedan | Befattning      |
|---------------------------|-----------|-----------------------|-----------------|
| Björn Wahlroos.....       | 1952      | 2008                  | Ordförande      |
| Marie Ehrling.....        | 1955      | 2007                  | Vice ordförande |
| Elisabeth Grieg .....     | 1959      | 2013                  | Ledamot         |
| Peter F Braunwalder ..... | 1950      | 2012                  | Ledamot         |
| Svein Jacobsen.....       | 1951      | 2008                  | Ledamot         |
| Tom Knutzen .....         | 1962      | 2007                  | Ledamot         |
| Lars G Nordström .....    | 1943      | 2003                  | Ledamot         |
| Sarah Russell .....       | 1962      | 2010                  | Ledamot         |
| Kari Stadigh.....         | 1955      | 2010                  | Ledamot         |

Utöver de ovan uppräknade styrelseledamöterna, består styrelsen av följande arbetstagarrepresentanter (varav en alltid är styrelsesuppleant) utnämnda av fackföreningarna.

| Namn                       | Födelseår | Styrelseledamot sedan | Befattning              |
|----------------------------|-----------|-----------------------|-------------------------|
| Toni H. Madsen .....       | 1959      | 2013                  | Arbetstagarrepresentant |
| Hans Christian Riise ..... | 1961      | 2009                  | Arbetstagarrepresentant |
| Kari Ahola .....           | 1960      | 2006                  | Arbetstagarrepresentant |
| Steinar Nickelsen .....    | 1962      | 2007                  | Arbetstagarrepresentant |

Styrelseledamöterna och medlemmarna i Group Executive Management har följande postadress: c/o Nordea Bank AB (publ), Smålandsgatan 17, SE-105 71 Stockholm, Sverige.

Alla styrelseledamöter förutom arbetstagarledamöterna är verksamma utanför Nordeakoncernen. Det föreligger inte potentiella intressekonflikter mellan någon förpliktelse som personer som ingår i styrelsen har till NBAB och dessa personers privata intressen eller övriga åtaganden.

*Björn Wahlroos* har varit styrelseledamot sedan 2008 och har varit styrelseordförande sedan 2011. Per datum för detta prospekt är han Styrelseordförande i Sampo Oyj, UPM-Kymmene Oyj och Handelshögskolan i Helsingfors. Han är Styrelseledamot i ett flertal organisationer och stiftelser bland annat, Näringslivets Delegation EVA/ETLA och Mannerheim-stiftelsen.

*Marie Ehrling* har varit styrelseledamot sedan 2007 och har varit vice styrelseordförande sedan 2011. Per datum för detta prospekt är hon Styrelseledamot i Securitas AB, Loomis AB, Oriflame Cosmetics SA, Schibsted ASA, Safe Gate AB, Axel Johnson AB, Centre for Advances Studies of Leadership vid Handelshögskolan i Stockholm, World Childhood Foundation. Hon är även ledamot i Kungliga Ingenjörsvetenskapsakademien (IVA) och Styrelseordförande i Norsk-Svenska Handelskammaren.

*Elisabeth Grieg* har varit styrelseledamot sedan 2013. Per datum för detta prospekt Styrelseordförande i Grieg Star Group AS och Guarantee Institute for Export Credits, styrelseledamot i Grieg Foundation och olika bolag inom Grieg-gruppen och även SOS Childrens Villages Norway. Hon är även styrelsemedlem i Council of Det Norske Veritas.

*Peter F Braunwalder* har varit styrelseledamot sedan 2012. Per datum för detta prospekt Styrelseordförande i Thommen Medical AG samt styrelseledamot i Menuhin Festival Gstaad.

*Svein Jacobsen* har varit styrelseledamot sedan 2008. Per datum för detta prospekt Styrelseordförande i Vensafe AS, PSI Group ASA och Falkenberg AS, styrelsemedlem i Heidenreich Holding AS samt Isco Group AS och ledamot av Advisory Board i CVC Capital Partners.

*Tom Knutzen* har varit styrelseledamot sedan 2007. Per datum för prospektet Verkställande direktör i Jungebunzlauer Suisse AG och ledamot i FLSmidt & Co A/S.

*Lars G Nordström* har varit styrelseledamot sedan 2003. Per datum för detta prospekt Styrelseordförande i Vattenfall AB samt i Finsk-Svenska Handelskammaren, styrelseledamot i Viking Line Abp och Svensk-Amerikanska Handelskammaren och ledamot i Kungliga Ingenjörsvetenskapsakademien (IVA). Lars G Nordström är också honorärkonsul för Finland i Sverige.

*Sarah Russell* har varit styrelseledamot sedan 2010. Per datum för detta prospekt Verkställande direktör för AEGON Asset Management.

*Kari Stadigh* har varit styrelseledamot sedan 2010. Per datum för detta prospekt Verkställande direktör och koncernchef i Sampo Oyj, styrelseordförande i If P&C Insurance Holding AB (publ), Kaleva Mutual Insurance Company och Mandatum Life Insurance Company Limited och medlem i Nokia Corporation. Han är vice styrelseordförande i the Confederation of Finnish Industries EK.

## Koncernledningen

Koncernledningen består för närvarande av följande sju medlemmar, inklusive verkställande direktören. Koncernchef och verkställande direktör utses av styrelsen och ansvarar för den dagliga styrningen av NBABs och Nordeakoncernens verksamhet i enlighet med tillämpliga lagar och regler inklusive den Svenska koden för bolagsstyrning såväl som instruktioner från styrelsen. Instruktionerna anger uppdelningen av ansvar och interaktionen mellan verkställande direktören och styrelsen. Verkställande direktören arbetar nära styrelseordföranden med att till exempel planera styrelsemötena.

Följande tabell visar respektive medlem av koncernledningen, dennes födelseår, vilket år personen blev medlem av koncernledningen och personens nuvarande position.

| Namn                         | Födelseår | Medlem av<br>koncernledningen sedan | Position                                                                                     |
|------------------------------|-----------|-------------------------------------|----------------------------------------------------------------------------------------------|
| Christian Clausen.....       | 1955      | 2001                                | Koncernchef och VD                                                                           |
| Torsten Hagen Jørgensen..... | 1965      | 2011                                | Executive Vice President, CFO, chef för Group Corporate Centre och chef för Group Operations |
| Ari Kaperi.....              | 1960      | 2008                                | Executive Vice President, CRO, chef för Group Risk Management och landschef för Finland      |
| Casper von Koskull.....      | 1960      | 2010                                | Executive Vice President, chef för Wholesale Banking                                         |
| Peter Nyegaard.....          | 1963      | 2011                                | Executive Vice President, COO för Wholesale Banking                                          |
| Michael Rasmussen .....      | 1964      | 2008                                | Executive Vice President, chef för Retail Banking och landschef för Danmark                  |
| Gunn Wærsted .....           | 1955      | 2007                                | Executive Vice President, chef för Wealth Management och landschef för Norge                 |

Medlemmarna i Group Executive Management har följande postadress: c/o Nordea Bank AB (publ), Smålandsgatan 17, SE-105 71 Stockholm, Sverige.

Det föreligger inte potentiella intressekonflikter mellan någon förpliktelse som personer som ingår i koncernledningen har till NBAB och dessa personers privata intressen eller övriga åtaganden.

*Christian Clausen* har varit koncernchef och verkställande direktör för Nordea sedan 2007 samt medlem av Group Executive Management sedan 2001. Christian Clausen började i Nordeakoncernen 2000 som Executive Vice President, chef för Asset Management & Life. Christian Clausen deltar vid styrelsesammanträden i egenskap av verkställande direktör Vid tidpunkten för upprättandet av detta grundprospekt är Christian Clausen ordförande i Europeiska Bankföreningen och Svenska Bankföreningen.

*Torsten Hagen Jørgensen* har varit Executive Vice President, chef för Group Operations samt medlem av Group Executive Management sedan 2011 och CFO och chef för Group corporate Centre sedan 2013.

Torsten Hagen Jørgensen började i Nordeakoncernen 2005 och har haft ett flertal chefstjänster inom Nordea.

*Ari Kaperi* har varit Executive Vice President och medlem av Group Executive Management sedan 2008. Han blev CRO och chef för Group Risk Management samt landschef i Finland år 2010. Ari Kaperi började i Nordeakoncernen år 2001 och har haft ett antal chefspositioner sedan dess. Vid tidpunkten för upprättandet av detta grundprospekt är Ari Kaperi styrelseordförande i styrelsen för Finska Finansbranschens Centralförbund och styrelseledamot i Livförsäkringsbolaget Varma Mutual Pension, medlem av Supervisory Board i Luottokunta Oyj, medlem i Foundation for Economic Education och Art Foundation Merita och medlem i Advisory Boards i handelskammaren, Finnish Business and Policy Forum Eva/ETLA och Åbo Universitet.

*Casper von Koskull* har varit Executive Vice President och medlem av Group Executive Management sedan 2010 samt chef för Wholesale Banking sedan 2011. Casper von Koskull kom till Nordea under 2010 och var chef för Corporate Merchant Banking & Capital Markets mellan 2010 och 2011. Vid dagen för upprättandet av detta grundprospekt är Casper von Koskull medlem i Internationella Handelskammaren ICC.

*Peter Nyegaard* har varit Executive Vice President, COO för Wholesale Banking, medlem av Group Executive Management sedan 2011. Peter Nyegaard började i Nordeakoncernen 2000 och har haft ett flertal ledande positioner inom Nordea sedan dess.

*Michael Rasmussen* har varit Executive Vice President, medlem av Group Executive Management samt landschef för Danmark sedan 2008 och chef för Retail Banking sedan 2011. Michael Rasmussen har innehaft olika positioner inom Nordeakoncernen sedan 2000. Vid tidpunkten för upprättandet av detta grundprospekt är Michael Rasmussen ordförande i Danska Bankföreningen samt Industrialiseringsfonden for Udviklingslandene (IFU) och ledamot av styrelserna i Danmarks Skibskredit A/S samt medlem i European Banking Federation.

*Gunn Wærsted* har varit Executive Vice President, medlem av Group Executive Management och landschef i Norge sedan år 2007 samt chef för Wealth Management sedan 2011. Gunn Wærsted var chef Shipping, Private Banking & Savings Products under perioden 2010 till 2011. Vid tidpunkten för upprättandet av detta grundprospekt är Gunn Wærsted styrelseledamot i den norska insättningsgarantifonden och Finance Norway (FNO) och medlem i nomineringskommittén för Schibsted ASA, Bedriftsforsamlingen i Orkla ASA samt medlem i nomineringskommittén och i Rådet i Det Norske Veritas.

## **Oberoende**

Nordea följer tillämpliga regler avseende styrelsens oberoende. Valberedningen anser att samtliga styrelseledamöter valda av aktieägarna är oberoende i förhållande till bolagets större aktieägare, med undantag för Björn Wahlroos och Kari Stadigh. Björn Wahlroos är styrelseordförande och Kari Stadigh är verkställande direktör och koncernchef i Sampo Oyj, som äger mer än tio procent av samtliga aktier och röster i Nordea Bank AB (publ).

Valberedningen konstaterar att samtliga styrelseledamöter valda av aktieägarna är oberoende i förhållande till bolaget och dess ledning.

Ingen stämмоvald styrelseledamot är anställd av eller arbetar i en operativ funktion i bolaget. Styrelseledamöterna och styrelsesuppleanten som har utsetts av arbetstagarna är anställda i koncernen och därmed inte oberoende i förhållande till bolaget.

Antalet styrelseledamöter som är oberoende i förhållande till bolaget och bolagsledningen såväl som i förhållande till bolagets större aktieägare överskrider det lägsta antal som anges i Svensk kod för bolagsstyrning enligt vilken minst två styrelseledamöter som valts vid bolagsstämma ska vara oberoende i förhållande till bolaget och bolagsledningen såväl som i förhållande till bolaget större aktieägare. Nordea fullföljer dessa krav.

## **Revisorer**

Bolagsstämman 2011 godkände ändring av NBAB:s bolagsordning där bolagsstämman utser revisor för ett år. Dessförinnan utsåg bolagsstämman revisor för en fyraårsperiod och denna period kunde man förlänga ytterligare tre år.

Bolagsstämman 2013 utsåg, för perioden till slutet av den nästkommande årsstämman, KPMG AB med Hans Åkervall som huvudansvarig revisor, Box 16106, SE-103 23 Stockholm.

Revisorn är auktoriserad av, och medlem i, FAR SRS.

## **Rättsliga förfaranden och skiljeförfaranden**

Inom ramen för den normala affärsverksamheten är Nordeakoncernen föremål för ett antal krav i civilrättsliga stämningar och tvister, varav de flesta rör relativt begränsade belopp. Ingen av de nuvarande tvisterna kan ha eller har haft betydande effekt för Nordeakoncernens finansiella ställning eller lönsamhet.

## **Bolagsordning**

Föremålet för NBAB:s verksamhet finns reglerat i § 3 Bolagsordningen. Föremålet för NBAB:s verksamhet är att bedriva sådan bankrörelse som avses i 1 kap. 3 § lagen (2004:297) om bank- och finansieringsrörelse. Vidare är föremålet för NBAB:s verksamhet att bedriva finansiell verksamhet och verksamhet som har ett naturligt samband därmed enligt 7 kap. 1 § lagen om bank- och finansieringsrörelse och i egenskap av moderbolag ombesörja och vara ansvarig för övergripande funktioner i Nordeakoncernen, såsom ledning, övervakning, riskstyrning och personalfunktioner.

## **Väsentliga avtal**

NBAB har inte ingått något avtal av större betydelse förutom i den fortlöpande affärsverksamheten och som kan leda till att ett företag inom Koncernen erhåller en rättighet eller åläggs en skyldighet som väsentligt kan påverka NBAB:s förmåga att uppfylla sina förpliktelser.

## **Bolagsstyrning**

Corporate governance i Nordea följer allmänt vedertagna principer för bolagsstyrning. Det externa ramverket som reglerar arbetet med corporate governance innefattar aktiebolagslagen och lagen om bank- och finansieringsrörelse, årsredovisningslagen, NASDAQ OMX:s regler samt reglerna och principerna i Svensk kod för bolagsstyrning (Koden).

## **NBAB:s utveckling under senare tid**

För ytterligare information avseenden ombildningen av Nordeakoncernen och utvecklingen under senare tid se ovanstående stycken rubricerade "Legal Struktur" och "Utveckling under senare tid" under "Nordeakoncernen".

## NORDEA BANK FINLAND Abp

### Verksamhetsöversikt

Nordea Bank Finland Abp ("NBF") har sedan 1998 varit en del av Nordeakoncernen, vilken bildades till följd av samgåendet mellan Merita och Nordbanken. Samgåendet mellan Merita och Nordbanken behandlas närmare ovan, se "Nordeakoncernen – Bildandet av Nordeakoncernen".

NBF bedriver bankverksamhet i Finland som en del av Nordeakoncernen och dess verksamhet är helt integrerad i Nordeakoncernens verksamhet.

### Legal struktur och dotterbolag

NBF är ett helägt dotterbolag till NBAB. NBF bildades den 2 januari 2002 i enlighet med finsk lag. NBF har sitt säte i Helsingfors, Finland, med begränsat ansvar i enlighet med den finska aktiebolagslagen och innehar tillstånd (oktroj) att bedriva bankverksamhet i enlighet med Kreditinstitutslagen och vidare att bedriva finansiell verksamhet och verksamhet som har ett naturligt samband därmed, bland annat värdepappersrörelse. NBF är föremål för omfattande reglering på alla marknader där NBF verkar. NBF är registrerat i handelsregistret och har FO-nummer 1680235-8. NBF har sitt huvudkontor i Helsingfors med adress: Alexandersgatan 36 B, 00100 Helsingfors, Finland (telefon nummer: +358 9 16 51).

NBF har dotterbolag i Finland och utomlands. Det mest betydelsefulla dotterbolaget är Nordea Finans Finland Ab.

### Styrelse

Vid utfärdandet av detta Grundprospekt består NBF:s styrelse av följande ledamöter:

Torsten Hagen Jørgensen, ordförande

Casper von Koskull, vice ordförande

Carl-Johan Granvik

Gun Waersted

Samtliga styrelseledamöter, förutom Carl-Johan Granvik, är anställda i Nordeakoncernen:

| Namn                          | Födelseår/<br>Medlem sedan | Position                                                                                                      |
|-------------------------------|----------------------------|---------------------------------------------------------------------------------------------------------------|
| Torsten Hagen Jørgensen ..... | 1965/2013                  | Executive Vice President, CFO, chef för Group Corporate Centre och chef för Group Operations.                 |
| Casper von Koskull.....       | 1960/2010                  | Executive Vice President, chef för Wholesale Banking                                                          |
| Carl-Johan Granvik.....       | 1949/2012                  | Tidigare positioner i Nordeakoncernen: VD NBF, chef för Group Risk Management, CRO, och landschef för Finland |
| Gunn Wærsted .....            | 1955/2010                  | Executive Vice President, CEO i Nordea Bank Norge ASA, chef för Wealth Management och landschef för Norge     |

*Torsten Hagen Jørgensen* har varit Executive Vice President, chef för Group Operations och medlem av Group Executive Management sedan 2011 samt CFO och chef för Group Corporate Centre sedan 2013. Han började i Nordeakoncernen år 2005 och har haft flera chefspositioner inom Nordeakoncernen.

*Casper von Koskull* har varit Executive Vice President, medlem av Group Executive Management sedan 2010 samt chef för Wholesale Banking sedan 2011. Casper von Koskull kom till Nordea under 2010 och var chef för Corporate Merchant Banking & Capital Markets från 2010 till 2011. Vid dagen för upprättandet av detta grundprospekt är Casper von Koskull medlem i Internationella Handelskammaren, ICC Finland.

*Carl-Johan Granvik* är inte anställd i Nordeakoncernen. Tidigare positioner i Nordeakoncernen: VD i NBF, chef för Group Risk Management, CRO och landschef i Finland. Per datum för detta grundprospekt är han ordförande i Julius Stjernvalls Donationsfond, William Thuring's Foundation, Technopolis plc och Emilie and Rudolf Gesellius fund. Han är ordförande i Investment Committee of Sponsor fund II Ky. Han

är medlem i KeloniaAb plc, Kelonia Placerings AB plc och Sigrid Juselius Foundation. Han är medlem i Investement Committe of Forum Fastighets Kb. Han är Superviory board member of the Foundation Svenska Handelshögskolan.

*Gunn Wærsted* har varit Executive Vice President, medlem av Group Executive Management och landschef i Norge sedan år 2007 samt chef för Wealth Management sedan 2011. Hon var chef för Shipping, Private Banking & Savings Products under perioden 2010 till 2011. Vid tidpunkten för upprättandet av detta grundprospekt är Gun Wærsted styrelseledamot i den norska insättningsgarantifonden och Finance Norway (FNO) och medlem i nomineringskommittén för Schibsted ASA, Bedriftsförsamlingen i Orkla ASA samt medlem i nomineringskommittén och i Rådet i Det Norske Veritas.

Adressen till styrelseledamöterna är c/o Nordea Bank Finland Abp, Alexandersgatan 36 B, 00100 Helsingfors, Finland.

Såvitt NBF känner till föreligger det inga potentiella intressekonflikter mellan någon förpliktelse som personer som ingår i styrelsen eller koncernledningen, enligt ovan, har till NBF, i deras ledande befattningar och dessa personers privata intressen eller övriga åtaganden.

### **Revisorer**

NBF:s revisorer väljs vid ordinarie bolagsstämma med aktieägarna för en period om ett år i taget. Revisorer valda för en period om ett år vid bolagsstämma avseende åren 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012 och 2013 är följande:

KPMG Oy Ab, Mannerheimintie 20 B, 00100 Helsingfors, Finland, CGR Raija-Leena Hankonen är huvudansvarig revisor. KPMG Oy Ab är medlem i det Finska Institutet för auktoriserade revisorer.

### **Rättsliga förfaranden och skiljeförfaranden**

Inom ramen för den normala affärsverksamheten är Nordeakoncernen föremål för ett antal krav i civilrättsliga stämningar och tvister, varav de flesta rör relativt begränsade belopp. Emittenten har inte varit part i några rättsliga förfaranden eller skiljeförfaranden (inklusive ännu icke avgjorda ärenden och ärenden som emittenten är medveten om kan uppkomma) under de senaste tolv månaderna, och som nyligen haft eller skulle kunna få betydande effekter på Emittentens eller koncernens finansiella ställning eller lönsamhet.

### **Väsentliga avtal**

NBF har inte ingått något avtal av större betydelse förutom i den fortlöpande affärsverksamheten och som kan leda till att ett företag inom koncernen erhåller en rättighet eller åläggs en skyldighet som väsentligt kan påverka NBF:s förmåga att uppfylla sina förpliktelser.

### **Bolagsstyrning**

All verksamhet i NBF utgör en integrerad del av verksamheten i Nordeakoncernen. Ramverket för Corporate Governance är etablerat på koncernnivå i Nordeakoncernen och revideras löpande vid behov.

## SELECTED FINANCIAL INFORMATION

The tables below show certain selected summarised financial information which, without material changes, is derived from NBAB's and NBF's audited consolidated financial statements for the year ending 31 December 2012, which are set out in the Annexes to this Base Prospectus.

NBAB's and NBF's consolidated financial statements are prepared in accordance with the International Financial Reporting Standards ("**IFRS**") and interpretations of such standards by the International Financial Reporting Interpretations Committee, as endorsed by the EU Commission. In addition, certain complementary rules in the Swedish Act on Annual Reports in Credit Institutions and Securities Companies (1995:1559) and the recommendation RFR 1 "*Supplementary Accounting Rules for Groups*", and UFR statements issued by the Swedish Financial Reporting Board as well as the accounting regulations of the SFSA's (FFFS 2008:25, with amendments in FFFS 2009:11 and 2011:54), have also been applied in the preparation of NBAB's accounts.

The tables below shall be read together with the auditor's reports and the notes thereto.

## UTVALD FINANSIELL INFORMATION

*Den beskrivning av utvald finansiell information som återfinns nedan är en inofficiell översättning av den engelska texten som återfinns omedelbart före detta avsnitt och investerare rekommenderas att även läsa och ta till sig de engelska beskrivningarna då dessa kan avvika från den svenska översättningen.*

Nedanstående tabeller visar viss, utvald, finansiell information i sammandrag som, utan väsentliga ändringar, hämtats från NBAB och NBF:s reviderade redovisningar för det år som slutar den 31 december 2012, som återfinns som Bilagor till detta Grundprospekt.

NBAB och NBF:s redovisning upprättas i enlighet med International Financial Reporting Standards (IFRS), med tillhörande tolkningar från International Financial Reporting Interpretations Committee (IFRIC), godkända av EU-kommissionen. Vidare har vissa kompletterande regler i enlighet med lag (1995:1559) om årsredovisning i kreditinstitut och värdepappersbolag (ÅRKL), rekommendation "RFR 1" Kompletterande redovisningsregler för koncerner", uttalanden från Rådet för finansiell rapportering (UFR) och Finansinspektionens föreskrifter (FFFS 2008:25 med ändringar i FFFS 2009:11 och 2011:54) tillämpats.

Nedanstående tabeller skall läsas tillsammans med revisionsberättelsen och noterna till denna.

| <b>Årets kassaflöde .....</b>                                                                                             | <b>15 527</b> | <b>2 957</b> |

### **USE OF PROCEEDS**

The net proceeds of the issue of each Series of Notes will be used for the general banking and other corporate purposes of the Nordea Group. If, in respect of any particular issue, there is a particular identified use of proceeds this will be stated in the applicable Final Terms.

## TAXATION

*The following is a general description of certain tax considerations relating to the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in those countries or elsewhere. Prospective purchasers of Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of those countries. It should also be noted that there are differences in the tax treatment of different Notes. This summary is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date.*

### Swedish Taxation

Under present Swedish law payments in respect of the Notes, the Receipts and the Coupons will be exempt from all taxes, duties fees and imports of whatever nature, imposed or levied by or within Sweden or by any municipality or other political subdivision or taxing authority thereof or therein, except when the holder of the Note or Coupon to which any such payment relates is subject to such taxation thereon by reason of such holder being connected with Sweden otherwise than solely by his holding of such Note or Coupon or the receipt of income therefrom. Investors who are physical persons resident in Sweden for tax purposes are subject to a 30 per cent. preliminary tax (*Sw.preliminärskatt*) which generally will be withheld from interest payments.

### Beskattning

*Det följande utgör en generell beskrivning av vissa skattemässiga bedömningar med avseende på Lånen. Avsikten är inte att detta ska utgöra en uttömmande analys av samtliga skattemässiga bedömningar med avseende på Lånen, vad avser de angivna länderna eller annanstans. Potentiella investerare i Lånen ska själva bedöma de skattekonsekvenser som kan uppkomma i samband en investering i Lån och därvid rådfråga skatterådgivare. Det ska även noteras att det finns skillnader i olika länders skattelagstiftning. Informationen är baserad på det regelverk som var gällande på dagen för offentliggörandet av Grundprospektet och kan påverkas av förändringar i gällande regelverk som träder i kraft efter dagen för offentliggörandet av Grundprospektet.*

### Beskattning i Sverige

Enligt svensk gällande rätt ska betalningar med avseende på Lånen och Kupongerna vara undantagna samtliga skatter, tullavgifter och pålagor av samtliga slag, som åläggs från eller inom Sverige eller av någon kommun eller skattemyndighet, förutom om investeraren i Lånet eller Kupongen till vilken sådan betalning är hänförlig är föremål för beskattning i anledning av att sådan investerare har koppling till Sverige på annat sätt än bara genom innehavet i Lånet eller Kupongen eller de därifrån mottagna medlen. Investerare som är fysiska personer och som har sin skatterättsliga hemvist i Sverige är föremål för preliminärskatt om 30% som allmänt sett blir avdragen från räntebetalningar.

### Den Europeiska Unionens direktiv om beskattning av inkomst av sparande

Enligt Rådets Direktiv 2003/48/EG av den 3 juni 2003 om beskattning av inkomster från sparande i form av räntebetalningar Rådets direktiv 2003/48/EG ("**Sparandedirektivet**"), ska varje Medlemsstat lämna uppgifter till andra Medlemsstaters skattemyndigheter rörande räntebetalningar och andra liknande inkomster som utbetalats av en person inom dess jurisdiktion till, eller mottagen av en sådan person för, en fysisk person som är bosatt eller vissa begränsade typer av juridiska personer som är etablerade i den andra Medlemsstaten, dock att under en övergångsperiod, kommer Österrike och Luxemburg istället att tillämpa ett källskattesystem med avseende på sådana betalningar med en skattesats som ökar progressivt upp till 35 %. Övergångsperioden ska upphöra vid slutet av det första hela räkenskapsåret som infaller efter att avtal träffats mellan vissa icke-EU-länder om utbyte av information med avseende på sådana betalningar.

Ett antal icke-EU-länder, och vissa territorium hänförliga till vissa Medlemsstater har implementerat liknande åtgärder (antingen lämna information eller tillfällig källskatt) med avseende på betalningar som gjorts av en person inom dess jurisdiktion till, eller mottagna av sådan person för, en fysisk person som är bosatt eller vissa begränsade typer av juridiska personer som är etablerade i en Medlemsstat (såsom definieras i Artikel 4.2 i Sparandedirektivet). Dessutom har Medlemsstaterna ingått arrangemang för

uppgiftslämnande och källskatt med vissa av dessa territorium med avseende på betalningar som gjorts av en person inom en Medlemsstat till, eller mottagna av sådan person för, en fysisk person som är bosatt eller vissa begränsade typer av juridiska personer som är etablerade i sådana territorium.

Kommissionen har föreslagit vissa ändringar i Sparandedirektivet vilka kan, i den mån de implementeras, ändra och utöka omfattningen av ovan angivna regler.

## **Danish Taxation**

*The following is an overview of the Danish withholding taxation treatment at the date hereof in relation to payments of principal and interest in respect of the Notes. It is based on current law and the practice, which may be subject to change, sometimes with retrospective effect. The comments do not deal with other Danish tax aspects of acquiring, holding or disposing of Notes.*

**Provided that** the Issuer of the Notes is not a tax resident of Denmark for Danish tax purposes and does not have a permanent establishment in Denmark, payments on the Notes may be paid by the Issuer without withholding or deduction for or on account of Danish withholding tax

## **Finnish Taxation**

Interest on Notes issued by NBF to the public in Finland constitutes income pursuant to the act on withholding tax for interest income (28.12.1990/1341, *Fi. Laki korkotulon lähdeveroista*) for physical persons that are resident in Finland for tax purposes and for Finnish estates of deceased persons. The withholding tax on interest income is at present 30 per cent. According to the act on withholding tax for interest income, index-linked yield is generally treated as interest income.

Interest on Notes issued by NBAB to physical persons that are resident in Finland for tax purposes and Finnish estates of deceased persons constitutes capital income. The tax rate applicable to capital income is at present 30 per cent. The tax rate for the part of capital income which exceeds 50,000 euros per year is 32 per cent (it should be noted that there are plans currently to reduce this threshold to 40,000 euros as of 2014).

Where Notes are sold by a Finnish physical person or Finnish estate of deceased person prior to the due date, any capital gains and payment of accrued interest (*Fi. jälkimarkkinahyvitys*) is taxed in at the tax rate applicable to capital income (see above). Correspondingly, the subscriber is generally entitled to deduct the paid accrued interest from the taxable income of the year of subscription. Capital gains arising from a sale of assets are, however, exempted from tax if the total amount of the sales prices of the assets sold by the note holder does not exceed EUR 1,000 in a tax year. Capital losses arising from the transfer of notes are deductible only from capital gains arising from the sale of assets in the same year or during the following five years. The capital losses will not, however, be tax deductible if the total amount of the acquisition prices of the assets sold by the note holder does not exceed EUR 1,000 in a tax year.

If the recipient of the interest paid on the Notes is a corporation further defined in Income Tax Act (30.12.1992/1535, *Fi. Tuloverolaki*, as amended) residing in Finland for tax purposes, such interest is subject to taxation either as income from business activities (business income source) or from passive assets (other income source) of the recipient corporation. Taxable income of a Finnish corporation is determined separately for business activities and other activities, both of which are taxed at a flat rate of 24.5 per cent (it should be noted that there are plans currently to reduce the applicable tax rate to 20 per cent as of 2014).

Where Notes are sold by a Finnish resident corporation, any sales price is included either in the income from business activities or income from passive assets of the Finnish resident corporation. The acquisition cost of the Notes sold is deductible either from business or other income depending on which assets the Notes belonged to at the time the Notes were sold. In general, a capital loss arising from the transfer of Notes attributable to business activities is deductible from business income. A loss of business activities can be carried forward for ten tax years. Capital losses attributable to other income can only be offset against capital gains arising from the transfer of passive assets and can be carried forward only for five tax years.

Payments of interest in accordance with the Terms and Conditions are not subject to withholding tax in Finland provided that the recipient is not resident in Finland for tax purposes, unless the Notes relate to business carried on in Finland (through a permanent establishment in Finland). Investors that are not

resident in Finland for tax purposes are, furthermore, not subject to Finnish tax on capital gains arising from the transfer of Notes, unless the transfer relates to business carried on in Finland through a permanent establishment.

The Note holders are advised to consult their own tax advisers concerning their tax reporting obligations and the overall tax consequences of their ownership of the Notes.

## **Republic of Austria**

### *(i) Recent Developments – New Capital Gains Tax*

The relevant Austrian tax laws for the taxation of income derived from debt instruments, including debt instruments such as the Notes, have been recently changed due to the entry into force of provisions included in the Federal Budget Implementation Act 2011 (Budgetbegleitgesetz 2011, Federal Law Gazette I 2010/111 – "**BIA 2011**"), the Federal Tax Amendment Act 2011 (Abgabenänderungsgesetz 2011, Federal Law Gazette I 2011/76 – "**TAA**") and the Federal Budget Implementation Act 2012 (Budgetbegleitgesetz 2012, Federal Law Gazette I 2011/112 – "**BIA 2012**") which by way of amendments to the Austrian Income Tax Act 1988 (Einkommensteuergesetz 1988, Federal Law Gazette 1988/400 – "**ITA**") introduced a new tax on "realised" capital gains (Einkünfte aus realisierten Wertsteigerungen von Kapitalvermögen). This new capital gains tax applies not only to current income from debt instruments such as the Notes (interest payments and similar earnings) but also to "realised" capital gains stemming from their sale or redemption, if purchased on or after 1 April 2012. As regards income from debt instruments purchased before this date, the old tax regime continues to apply with some particularities (the transitional provisions are not discussed). The information on Austria's newly enacted capital gains tax is mainly based on the wording of the law and on the explanatory notes thereto.

### *(ii) General Remarks*

Individuals resident in Austria are subject to Austrian income tax (Einkommensteuer) on their world-wide income (unlimited income tax liability). Individuals qualify as residents if they have either their permanent domicile and/or their habitual abode in Austria. Otherwise they are non-resident individuals subject to income tax only on income from certain Austrian sources (limited income tax liability).

Companies resident in Austria are subject to Austrian corporate income tax (Körperschaftsteuer) on their worldwide income (unlimited corporate income tax liability). Companies qualify as residents if they have their place of effective management and/or their legal seat in Austria. Otherwise they are non-residents subject to corporate income tax only on income from certain Austrian sources (limited corporate income tax liability).

Under Austrian tax law, individuals are subject to income tax pursuant to the ITA generally at progressive tax rates between 0 per cent. and 50 per cent. Corporate entities are subject to a corporate income tax at a rate of 25 per cent. pursuant to the Austrian Corporate Income Tax Act (Körperschaftsteuergesetz 1988, Federal Law Gazette 1988/401 – "**CITA**").

In case of unlimited and limited (corporate) income tax liability, Austria's right to levy taxes may be re-stricted by double taxation treaties.

### *(iii) Austrian Residents*

Income derived from the Notes by individuals with a permanent domicile or their habitual abode in Austria or corporate entities having their corporate seat or place of management in Austria is taxable in Austria pursuant to the ITA or the CITA.

#### **Austrian Resident Individuals**

Income derived from debt instruments such as the Notes qualifies as investment income (Einkünfte aus Kapitalvermögen). Such income comprises not only current income, i.e. interest payments and similar earnings, but also "realised" capital gains (Einkünfte aus realisierten Wertsteigerungen von Kapitalvermögen) stemming from the sale or redemption of debt

instruments, irrespective of whether they have been held as business or non-business assets and irrespective of whether the profits have been realised within a particular holding period (formerly, in case of individuals, only such profits stemming from securities which were held only for a period not exceeding one year were taxed). According to the relevant provisions of the ITA, "realised" capital gains principally consist in the difference (surplus) between the proceeds from the sale or redemption of the debt instruments, i.e. their selling or redemption price, and their purchase price.

Such profits, i.e. current income and "realised" capital gains, are in principle subject to a special tax rate of 25 per cent. and will be deducted by the custodian bank or the paying office (Kapitalertragsteuer, Capital Proceeds Tax – "**CPT**"). However, as regards profits from debt instruments such as the Notes, the special tax rate will only apply in cases where the instruments have in the primary offering been offered to an undetermined number of people ("public offer"). This tax is in principle "final", which means that no further taxation will be allowed on such capital gains and that they do not have to be declared in other tax declarations of the taxpayer (in particular, a personal tax rate exceeding 25 per cent. will not apply). In case the taxpayer applies for regular taxation (Regelbesteuerungsoption – which he might do in case his personal tax rate is below 25 per cent.) or for the offsetting of losses (Verlustausgleichsoption), taxation is not final. The option for regular taxation may be exercised independently from the option for the offsetting of losses by filing a respective request to the tax office. It leads to an assessment for income tax and to the application of the regular, progressive income tax rate (currently amounting to a maximum of 50 per cent. for yearly taxable income exceeding EUR 60.000) on all taxable capital gains.

Further, pursuant to the relevant provisions of the ITA also the withdrawal or transfer of debt instruments such as the Notes from their current investor's securities account shall, as a general rule, equally trigger CPT, unless one of the exemptions contained in the ITA applies. These exemptions are all based on the idea that no CPT shall be deducted, in cases where the taxation of potential future profits stemming from the sale or redemption of the transferred debt instruments remains in fact possible. In addition, since 1 April 2012 amended exit tax rules (Wegzugsbesteuerung) apply, which are not discussed herein.

In its international dimension, the newly enacted capital gains tax applies only and CPT will only be deducted, if either the custodian bank (depotführende Stelle) or – under certain conditions – the paying office (auszahlende Stelle) is located in Austria. A paying office may be any organisational entity of a bank which is capable to credit amounts of money to cash accounts of clients or to pay in cash. In most cases the paying office will be the bank with which the investor maintains his securities account. It is not the Paying Agent (as defined in the Programme documents). The term "custodian bank" refers to banks (its branches and offices) providing the securities account to the investor and not to any other bank up in the holding chain. The custodian bank or, if applicable, the paying office will be responsible for the deduction of the capital gains tax (CPT) and its transfer to the respective Austrian tax office.

To the extent that no CPT is deducted due to the lack of a custodian bank or a paying office located in Austria, the income derived from debt instruments such as the Notes must be included into the respective taxpayer's tax declaration, if such profits are received by an Austrian resident individual subject to unlimited income tax liability. In this case, the special tax rate of 25 per cent. applies equally.

#### Austrian Resident Corporate Investors

Income from debt instruments such as the Notes (interest payments, capital gains), realised by a corporate investor resident in Austria is subject to Austrian corporate income tax (Körperschaftsteuer) at a rate of 25 per cent. CPT-rules apply in case such income is paid out via a custodian bank or paying office located in Austria. In such case deducted CPT will be credited against the corporate income tax liability. However, corporations deriving business income from debt instruments such as the Notes may avoid the deduction of CPT by filing a statement of exemption with the custodian bank (or the paying office) and with the competent Austrian tax office to the fact that the payment received is due to a commercial enterprise subject to taxation in Austria (Befreiungserklärung).

In this context it is of note that there is, inter alia, a special tax regime for Austrian private law foundations (Privatstiftungen). Such foundations are subjected to a special interim income tax of currently 25 per cent. to be paid on income derived from debt instruments such as the Notes.

(iv) *Non-Residents*

Income of non-resident individuals and corporations (within the meaning of the relevant Austrian tax law) derived from debt instruments such as the Notes (interest payment, capital gains) is not taxable in Austria, provided that such income is not attributable to an Austrian permanent establishment. In this case, Austrian capital gains tax (CPT) being deducted by a custodian bank or a paying office located in Austria may be avoided, if the beneficiary demonstrates to the custodian bank (or the paying office), by supplying corroborating evidence, that he qualifies as non-resident for tax purposes and that he is therefore subjected to limited (corporate) income tax liability.

(v) *EU Savings Tax*

In Austria, provisions for implementing the EU Savings Tax Directive have been enacted by the EU-Quellensteuergesetz (Federal Law Gazette I 2004/33 – "**EU-QuStG**"). Section 1 of the EU-QuStG provides that interest payments paid or credited by a paying office located in Austria to a beneficial owner who is an individual resident in another EU Member State (or certain dependent or associated territories) is subject to a withholding tax if no exemption from such withholding applies. Pursuant to the EU-QuStG, tax from interest payments must be deducted on a time scaled basis. For the first three years after the EU-QuStG came into force (i.e. from 1 July 2005 onwards) 15 per cent. on paid interest has been deducted, for the subsequent three years (i.e. from 1 July 2008 onwards) a tax of 20 per cent. applied. Since 1 July 2011 the tax to be deducted amounts to 35 per cent. This tax is not deducted in case the beneficial owner of the interest provides a certificate of the competent tax authority of the EU Member State where he is resident. The certificate must include the beneficial owner's name, address, tax number or other identification number or if such number is not available, the date of birth and the paying bank's registered office. In addition, the name and address of the paying bank, as well as the account number of the beneficial owner or, if an account number is un-available, the security identification number must be included.

## **French Taxation**

Payments of interest and principal by the Issuer (acting out of its head offices or one of its non-French branch) under the Notes will not be subject to withholding tax in France, in accordance with the applicable French law.

By exception, pursuant to Article 9 of 2013 Finance Law (*loi n° 2012-1509 du 29 décembre 2012 de finances pour 2013*), and subject to certain limited exceptions, interest and other similar revenues received from 1 January 2013 by French tax resident individuals are subject to a 24 per cent. withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG of 8.2 per cent., the *prélèvement social* of 4.5 per cent., its *contribution additionnelle au prélèvement social* of 0.3 per cent., the *prélèvement de solidarité sur les revenus du patrimoine et produits de placement* of 2 per cent. and the CRDS of 0.5 per cent.) are also levied by way of withholding tax at an aggregate rate of 15.5 per cent. on interest and other similar revenues paid to French tax resident individuals.

Prospective purchasers of Notes who are French resident for tax purposes or who would hold such Notes through a permanent establishment or fixed base in France should be aware that transactions involving the Notes, including any purchase or disposal of, or other dealings in, the Notes, may have French tax consequences. The tax consequences regarding interest, premium on redemption and capital gains in particular may depend, amongst other things, upon the status of the prospective purchaser (i.e. legal entities or individuals). Prospective purchasers of Notes should consult their own advisers about the tax implications of holding Notes and of any transactions involving Notes.

## German Taxation

### German withholding tax

In principle, only persons (individuals and incorporated entities) who are tax resident in Germany (in particular, persons having a residence, habitual abode, seat or place of management in Germany) are subject to German withholding tax with respect to payments under debt instruments. Non-resident persons generally do not suffer German withholding tax. If, however, the income from the Notes is subject to German tax, i.e. if (i) the Notes are held as business assets (*Betriebsvermögen*) of a German permanent establishment (including a permanent representative) which is maintained by the relevant investor or (ii) the income from the Notes qualifies for other reasons as taxable German source income, German withholding tax is applied, as a rule, as in the case of a German tax resident investor.

German withholding tax will be levied at a flat withholding tax rate of 26.375 per cent. (including solidarity surcharge (*Solidaritätszuschlag*)) on interest and on proceeds from the sale of the Notes if the Notes are held in a custodial account which the relevant investor maintains with a German branch of a German or non-German credit or financial services institution or with a German securities trading business or a German securities trading bank (a "**German Disbursing Agent**"). If the Notes are redeemed, repaid, assigned or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage*), such transaction is treated like a sale.

If the Notes are not held in a custodial account maintained with a Disbursing Agent, German withholding tax will nevertheless be levied if the Notes are issued as Definitive Notes and the savings earnings (*Kapitalerträge*) are paid by a German Disbursing Agent against presentation of the Notes or Coupons (so-called over-the-counter transaction – *Tafelgeschäft*).

If an investor sells or redeems the Notes, the tax base is, in principle, the difference between the acquisition costs and the proceeds from the sale or redemption of the Notes reduced by expenses directly and factually related to the sale or redemption. Where the Notes are acquired and/or sold in a currency other than Euro, the sales/redemption price and the acquisition costs have to be converted into Euro on the basis of the foreign exchange rates prevailing on the sale or redemption date and the acquisition date respectively. If the Notes have not been held in the custodial account maintained with the Disbursing Agent since their acquisition and the acquisition costs of the Notes are not proven to the German Disbursing Agent in the form required by law (e.g. in the case of over-the-counter transactions or if the Notes had been transferred from a non-EU custodial account prior to the sale), withholding tax is applied to 30 per cent. of the proceeds from the sale or redemption of the Notes.

When computing the tax base for withholding tax purposes, the German Disbursing Agent has to deduct any negative savings income (*negative Kapitalerträge*) or paid accrued interest (*Stückzinsen*) in the same calendar year or unused negative savings income of previous calendar years.

Individuals who are subject to church tax may apply in writing for this tax to be withheld as a surcharge to the withholding tax. Individuals subject to church tax but declining the application have to include their savings income in their tax return and will then be assessed to church tax. For German credit institutions an electronic information system as regards church withholding tax will presumably apply in respect of interest received after 31 December 2013, with the effect that church tax will be collected by the German Disbursing Agent by way of withholding unless the investor has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*), in which case the obligation to include savings income in the tax return for church tax purposes will persist.

With regard to individuals holding the Notes as private assets, any withholding tax levied shall, in principle, become definitive and replace the income taxation of the relevant investor. If no withholding tax has been levied other than by virtue of a withholding tax exemption certificate (*Freistellungsauftrag*) and in certain other cases, the relevant investor is nevertheless obliged to file a tax return, and the savings income will then be taxed within the tax assessment procedure. However, the separate tax rate for savings income applies in most cases also within the assessment procedure. In certain cases, the investor may apply to be assessed on the basis of its personal tax rate if such rate is lower than the above tax rate. Such application can only be filed consistently for all savings income within the assessment period. In case of jointly assessed husband and wife the application can only be filed for savings income of both spouses.

With regard to other investors, German withholding tax is a prepayment of (corporate) income tax and will be credited or refunded within the tax assessment procedure.

No German withholding tax will be levied if an individual holding the Notes as private assets has filed a withholding tax exemption certificate (*Freistellungsauftrag*) with the German Disbursing Agent, but only to the extent the savings income does not exceed the exemption amount shown on the withholding tax exemption certificate. Currently, the maximum exemption amount is EUR 801 (EUR 1,602 in the case of jointly assessed husband and wife). Similarly, no withholding tax will be levied if the relevant investor has submitted a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the relevant local tax office to the German Disbursing Agent. Further, with regard to investors holding the Notes as business assets, no withholding tax will be levied on capital gains from the redemption, sale or assignment of the Notes if (a) the Notes are held by a company in terms of section 43 para 2 sentence 3 no. 1 German Income Tax Act (*Einkommensteuergesetz*) or (b) the proceeds from the Notes qualify as income of a domestic business and the investor has notified this to the German Disbursing Agent by use of the officially required form.

The Issuers are, in general, not obliged to levy German withholding tax in respect of payments on the Notes.

#### ***EU directive on the taxation of savings income in the form of interest payments***

The EU Savings Directive (see "European Union Directive on the Taxation of Savings Income" below) has been implemented in Germany by the domestic interest information regulation dated 26 January 2004 (*Zinsinformationsverordnung*).

#### **Irish Taxation**

*The following is a summary of the principal Irish withholding tax consequences of ownership of the Notes for individuals who are resident and ordinarily resident in Ireland for tax purposes and for companies that are resident in Ireland for tax purposes. It is based on the laws and practice of the Revenue Commissioners currently in force in Ireland as at the start of the Offer Period and may be subject to change. The statements in this summary are based on the understanding that the Notes will be treated as debt for Irish tax purposes. It deals with Noteholders who beneficially own their Notes as an investment. Particular rules not discussed below may apply to certain classes of taxpayers holding Notes, including dealers in Notes and trusts. The summary does not constitute tax or legal advice and the comments below are of a general nature only and it does not discuss all aspects of Irish taxation that may be relevant to any particular holder of Notes. Prospective investors in the Notes should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Notes and the receipt of payments thereon under any laws applicable to them.*

#### **Taxation of Noteholders**

##### **Withholding Tax**

Tax at the standard rate of income tax (currently 20 per cent.) is required to be withheld from payments of Irish source interest. The Issuer will not be obliged to withhold Irish income tax from payments of interest on the Notes so long as such payments do not constitute Irish source income. Interest paid on the Notes should not be treated as having an Irish source unless:

- (i) the Issuer is resident in Ireland for tax purposes; or
- (ii) the Issuer has a branch or permanent establishment in Ireland, the assets or income of which is used to fund the payments on the Notes; or
- (iii) the Issuer is not resident in Ireland for tax purposes but the register for the Notes is maintained in Ireland or (if the Notes are in bearer form) the Notes are physically held in Ireland.

It is anticipated that, (i) the Issuer is not and will not be resident in Ireland for tax purposes; (ii) the Issuer will not have a branch or permanent establishment in Ireland; (iii) that bearer Notes will not be physically located in Ireland; and (iv) the Issuer will not maintain a register of any registered Notes in Ireland.

## **United Kingdom Taxation**

*The following is an overview of the United Kingdom withholding taxation treatment at the date hereof in relation to payments of principal and interest in respect of the Notes. It is based on current law and the practice of Her Majesty's Revenue and Customs ("**HMRC**"), which may be subject to change, sometimes with retrospective effect. The comments do not deal with other United Kingdom tax aspects of acquiring, holding or disposing of Notes. The comments relate only to the position of persons who are absolute beneficial owners of the Notes. Prospective Holders should be aware that the particular terms of issue of any series of Notes as specified in the relevant Final Terms may affect the tax treatment of that and other series of Notes.*

### **UK Withholding Tax on Interest Payments by the Issuer**

**Provided that** the interest on the Notes does not have a United Kingdom source, interest on the Notes may be paid by the Issuer without withholding or deduction for or on account of United Kingdom income tax. The location of the source of a payment is a complex matter. It is necessary to have regard to case law and HMRC practice. Case law has established that in determining the source of interest, all relevant factors must be taken into account. HMRC has indicated that the most important factors in determining the source of a payment are those which influence where a creditor would sue for payment, and has stated that the place where the Issuer does business, and the place where its assets are located, are the most important factors in this regard; however HMRC has also indicated that, depending on the circumstances, other relevant factors may include the place where the interest and principal are payable, the method of payment, the governing law of the Notes and the competent jurisdiction for any legal action, the location of any security for the Issuer's obligations under the Notes, and similar factors relating to any guarantee.

Interest which has a United Kingdom source ("**UK interest**") may be paid by the Issuer without withholding or deduction for or on account of United Kingdom income tax if the Notes in respect of which the UK interest is paid are issued for a term of less than one year (and are not issued under arrangements the effect of which is to render the Notes part of a borrowing with a total term of one year or more).

UK interest on Notes issued for a term of one year or more (or under arrangements the effect of which is to render the Notes part of a borrowing with a total term of one year or more) may be paid by the Issuer without withholding or deduction for or on account of United Kingdom income tax if the Notes in respect of which the UK interest is paid constitute "quoted Eurobonds". Notes which carry a right to interest will constitute quoted Eurobonds provided they are and continue to be listed on a recognised stock exchange. Securities will be "listed on a recognised stock exchange" for this purpose if they are admitted to trading on an exchange designated as a recognised stock exchange by an order made by the Commissioners for HMRC and either they are included in the United Kingdom official list (within the meaning of Part 6 of the Financial Services and Markets Act 2000 ("**FSMA**") or they are officially listed, in accordance with provisions corresponding to those generally applicable in European Economic Area states, in a country outside the United Kingdom in which there is a recognised stock exchange.

The Irish Stock Exchange, London Stock Exchange and SIX Swiss Exchange are recognised stock exchanges. The Issuer's understanding of current HMRC practice is that securities which are officially listed and (to the extent relevant) admitted to trading on the Main Securities Market of the Irish Stock Exchange, the regulated market of the London Stock Exchange and the SIX Swiss Exchange may be regarded as "*listed on a recognised stock exchange*" for these purposes.

In all other cases, UK interest on the Notes may fall to be paid under deduction of United Kingdom income tax at the savings rate (currently 20 per cent.) subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty, or to any other exemption which may apply.

### **Payments under Deed of Covenant**

Any payments made by the Issuer under the Deed of Covenant may not qualify for the exemptions from UK withholding tax described above.

### ***Provision of Information***

Holders should note that, in certain circumstances, HMRC has power to obtain information (including the name and address of the beneficial owner of the interest) from any person in the United Kingdom who either pays or credits interest to or receives interest for the benefit of a Holder. In certain circumstances, the information so obtained may be passed by HMRC to the tax authorities of certain other jurisdictions.

The provisions referred to above may also apply, in certain circumstances, to payments made on redemption of any Notes which constitute "deeply discounted securities" as defined for the purposes of Schedule 23, Finance Act 2011 (although, in this regard, HMRC published guidance for the year 2013/2014 indicates that HMRC will not exercise its power to obtain information in relation to such payments in that year).

### ***Other Rules Relating to United Kingdom Withholding Tax***

Where Notes are to be, or may fall to be, redeemed at a premium, as opposed to being issued at a discount, then any such element of premium may constitute a payment of interest. Payments of interest are subject to United Kingdom withholding tax and reporting requirements as outlined above.

The references to "interest" in "*UK Withholding Tax on Interest Payments by the Issuer*" through "*Provision of Information*" above mean "interest" as understood in United Kingdom tax law. The statements in these paragraphs above do not take any account of any different definitions of "interest" or principal" which may prevail under any other law or which may be created by the terms and conditions of the Notes or any related documentation.

Where a payment on a Note does not constitute (or is not treated as) interest for United Kingdom tax purposes, and the payment has a United Kingdom source, it would potentially be subject to United Kingdom withholding tax if, for example, it constitutes (or is treated as) an annual payment or a manufactured payment for United Kingdom tax purposes (which will be determined by, amongst other things, the terms and conditions specified by the Final Terms of the Note). In such a case, the payment may fall to be made under deduction of United Kingdom tax (the rate of withholding depending on the nature of the payment), subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty, or to any other exemption which may apply.

### ***Luxembourg Taxation***

#### ***Withholding tax***

All payments of interest and principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Notes, which are not profit sharing, can be made free and clear of any withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein, in accordance with the applicable Luxembourg law, subject however to:

- (i) regarding non resident holders of Notes, the application of the Luxembourg laws of 21 June 2005 implementing the EU Savings Directive (as defined below) and several agreements concluded with certain dependant or associated territories and providing for the possible application of a withholding tax (35 per cent. from 1 July 2011) on interest paid to certain non Luxembourg resident investors (individuals and certain types of entities called "**Residual Entities**") (see "*European Union Directive on the Taxation of Savings Income*" below, which may be applicable in the event of the Issuer appointing a paying agent in Luxembourg within the meaning of the above-mentioned EU Savings Directive or agreements); and
- (ii) regarding resident individual holders of Notes, the application of the Luxembourg law of 23 December 2005 which has introduced a 10 per cent. withholding tax on savings income (i.e., with certain exemptions, savings income within the meaning of the Luxembourg laws of 21 June 2005 implementing the EU Savings Directive). This law should apply to savings income accrued as from 1 July 2005 and paid as from 1 January 2006.

Pursuant to the law of 23 December 2005 as amended by the law of 17 July 2008, Luxembourg resident individuals who are the beneficial owners of savings income paid by a paying agent within the meaning

of the EU Savings Directive established outside Luxembourg, in a Member State of either the European Union or the European Economic Area, or in a jurisdiction having concluded an agreement with Luxembourg in connection with the EU Savings Directive, can opt to self declare and pay a 10 per cent. tax (the "**Levy**") on these savings income.

The 10 per cent. withholding tax as described above or the Levy is final when Luxembourg resident individuals are acting in the context of the management of their private wealth.

Responsibility for the withholding of tax in application of the above-mentioned Luxembourg laws of 21 June 2005 and 23 December 2005 would be assumed by a Luxembourg paying agent (if any) within the meaning of these laws and not by the Issuer.

## **Lithuanian Taxation**

*The following is a summary of certain Lithuanian tax consequences of the ownership and disposition of the Notes. The summary does not purport to be a comprehensive description of all the tax consequences that may be relevant for making a decision to purchase, own or dispose of the Notes. The summary is based on the current requirements of the Lithuanian Profit Tax Law and Lithuanian Individuals Income Tax Law, which may be subject to change, possibly with retroactive effect. A change to such laws may invalidate the contents of this summary. The following summary is not intended to be a complete analysis of the tax consequences under Lithuanian law as a result of the acquisition, ownership and sale of the Notes by investors. Potential investors should, therefore, consult their own tax advisers on the tax consequences of such acquisition, ownership and sale, including specifically the tax consequences under Lithuanian law, the law of their jurisdiction of residence and any tax treaty applicable.*

### **Non-resident holders of Notes**

Since the Issuer is a non-resident entity for Lithuanian taxation purposes, the income of the non-resident individual and a non-resident entity from the Notes (i.e. interest income and income from the transfer of the Notes) will not be subject to withholding tax in Lithuania. For residency criteria please see below.

In case interest on the Notes is paid through a Lithuanian intermediary to non-resident individual, such interest shall be subject to 15 per cent withholding tax rate. Withholding tax can be reduced in accordance with the provisions of the respective tax treaty. However, no withholding tax shall be applied if interest income is non-taxable according to the provisions of the Law on Personal Income Tax of the Republic of Lithuania. Interest income shall be treated as non-taxable when redemption of the Notes commences not earlier than 366 days after the date of the issue of the Notes.

In case interest on the Notes is paid through an intermediary in Lithuania to non-resident entity, such interest is subject to 10 per cent withholding tax. However, if the Note holder is established in EEA country or a country with which Lithuania has concluded tax treaty, no withholding tax shall be applied.

### **Resident holders of Notes**

#### *Private Individuals*

Tax residents of Lithuania are subject to taxation on their worldwide income (if such income is not exempt from the income tax). An individual will be considered as a resident of Lithuania during the calendar year for taxation purposes if he/she meets at least one of the criteria laid out in paragraph 1 of Article 4 of the Law On Personal Income Tax of the Republic of Lithuania, i.e.:

- if the individual's permanent place of residence is in Lithuania during the calendar year;
- if the individual's place of personal, social or economic interests is in Lithuania rather than in a foreign country during the calendar year;
- if the individual is present in Lithuania for a period or periods in the aggregate of 183 days or more during the calendar year;
- if the individual is present in Lithuania for a period or periods in the aggregate of 280 days or more during successive calendar years and who stayed in Lithuania for a period or periods in the

aggregate of 90 days or more in any of such periods (in such case a person is deemed to be a resident of Lithuania for both years of presence in Lithuania).

Interest on the Notes made through a Lithuanian intermediary is subject to 15 per cent personal income tax, unless such income can be treated as non-taxable as described above (when redemption of the Notes commences not earlier than 366 days after the date of the issue of the Notes). Personal income tax shall be withheld by the intermediary. The Lithuanian withholding tax constitutes the final tax for Lithuanian resident individuals.

However, if the interest is paid outside Lithuania without the intervention of a Lithuanian intermediary, the individual is liable for the declaration and payment of the respective taxes.

#### *Legal entities*

An entity will be considered as a resident of Lithuania for tax purposes if it is established and registered in the Republic of Lithuania. Permanent establishments of foreign entities in Lithuania shall be treated as Lithuanian taxpayers as well.

Interest on the Notes made through a Lithuanian intermediary shall not be subject to Lithuanian withholding tax. Interest income shall be taxed by the recipient (legal entity or permanent establishment). The same applies to interest paid outside Lithuania without the intervention of a Lithuanian intermediary.

In case of legal entities as well as individuals, withholding tax levied on interest in a foreign country may be credited in Lithuania (the amounts of tax paid may be deducted against the Lithuanian income tax payable), provided that documents may be presented demonstrating the origin of the income and amounts of equivalent income taxes paid in respect of such income in the foreign jurisdiction. According to the provisions of the Law on Corporate Income Tax permanent establishments are not eligible to tax credit.

#### **EU Savings Directive**

Starting from 1 June 2005 the European Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments was implemented into the Law on Personal Income Tax of Lithuania.

#### **Latvian Taxation**

*The following is a summary of certain Latvian tax consequences of ownership and disposition of Notes to individuals or entities that hold such Notes based on the laws of the Republic of Latvia as in effect of the date of this Base Prospectus and is intended to provide general information only. For the purposes of this summary, a "resident individual" means an individual who is considered a Latvian resident for personal income tax purposes under Latvian tax law and any applicable double taxation treaty. As a general rule, an individual is considered a resident of Latvia for personal income tax purposes if the individual (i) has a permanent place of residence in Latvia, (ii) has been present in Latvia for 183 days or longer during any twelve-month period beginning or ending in a taxable year, or (iii) is a Latvian citizen employed by the government of Latvia abroad, unless the individual is treated as a resident of another country in accordance with the double taxation treaty entered into between Latvia and that country.*

A "**resident company**" means a person, other than an individual or partnership, which is established and registered or which was required to be established and registered in Latvia in accordance with the laws of Latvia and which, according to the Corporate Income Tax Act, is subject to taxation of its income in Latvia on a net income basis.

#### **Withholding Tax**

##### *Individuals resident in Latvia*

*Payments of interest on the Notes made through a paying agent in Latvia will in principle be subject to a 10 per cent withholding tax in Latvia. If the interest income is not paid through a paying agent in Latvia, no Latvian withholding tax is due.*

### *Non-resident individuals*

The interest income on the Notes paid through a professional intermediary in Latvia will, in principle, be subject to a 10 per cent withholding tax. If the interest income is not paid through a financial institution or other intermediary established in Latvia, no Latvian withholding tax is due.

Provided that the Notes will be listed, capital gains from the disposal of the Notes for non-resident individuals will not be subject to taxation in Latvia. If the Notes will not be listed, a 2 per cent withholding tax will be applied if the payment will be made by a legal entity or individual registered as economic operator located in Latvia. The Latvian payer is required to withhold such tax from the gross payment.

Payments made to non-resident individuals registered or located in low-tax or no-tax jurisdictions are subject to a withholding tax of 15 per cent (if the payer is Latvian resident company) or 24 per cent (if the payer is Latvian individual resident).

Non-resident individuals being residents of countries with which Latvia has concluded a double taxation agreement might benefit from a more favourable regime provided that a proper tax residence certificate is obtained and filed.

### *Latvian resident companies*

Interest payments on the Notes and proceeds from the disposal of the Notes received by Latvian resident companies will not be subject to withholding tax in Latvia.

### *Non-resident companies*

In principle the interest income on the Notes paid to non-resident companies will not be subject to taxation in Latvia. The interest income on the Notes paid to non-resident companies through a professional intermediary located in Latvia might be subject to Latvian withholding tax, if the recipient of interest income and the payer of interest are affiliated entities or the recipient is located, registered or incorporated in low-tax or no-tax jurisdiction.

The disposal of Notes by a non-resident company will not be subject to taxation in Latvia.

Payments made to non-resident companies located, registered or incorporated in low-tax or no-tax jurisdictions are subject to a withholding tax of 15 per cent (if the payer is Latvian resident company) or 24 per cent (if the payer is Latvian individual resident).

### ***EU directive on the taxation of savings income in the form of interest payments***

The EU Savings Directive (see "European Union Directive on the Taxation of Savings Income" below) has been implemented in Latvia by the provisions of the Personal Income Tax Act, Taxes and Duties Law, Credit Institutions Law and secondary legislative acts adopted by the government of Latvia.

### **Norwegian Taxation**

*Please note that for the purpose of the summary below, a reference to a Norwegian or Non-Norwegian Noteholder refers to the tax residency rather than the nationality of the Noteholder.*

### ***Norwegian withholding tax***

Payments of interest on the Notes are not subject to any withholding tax in Norway.

### **Estonian Taxation**

#### ***Taxation of interest***

Provided that the interest on the Notes does not have Estonian source, interest on the Notes may be paid by the Issuer without withholding or deduction for or on account of Estonian income tax.

### ***Taxation of capital gains***

Capital gains from the sale of Notes may be paid to a resident Noteholder without withholding or deduction for or on account of Estonian income tax.

### **Swiss Taxation**

*The following discussion is a summary of Swiss withholding tax considerations relating to (i) Notes issued by the Issuer where the Holder is tax resident in Switzerland or has a tax presence in Switzerland or (ii) Notes where the Paying Agent, custodian or securities dealer is located in Switzerland. The discussion bases on legislation as of the date of this Base Prospectus. It does not aim to be a comprehensive description of all the Swiss tax considerations that may be relevant for a decision to invest in Notes. The tax treatment for each investor depends on the particular situation. All investors are advised to consult with their professional tax advisors as to the respective Swiss tax consequences of the purchase, ownership, disposition, lapse, exercise or redemption of Notes (or options embedded therein) in light of their particular circumstances.*

### ***Swiss Federal Withholding Tax***

Payments by the Issuer, of interest on, and repayment of principal of, the Notes, will not be subject to Swiss federal withholding tax, provided that the Issuer is at all times resident and managed outside Switzerland for Swiss tax purposes.

On August 24, 2011, the Swiss Federal Council issued draft legislation, which, if enacted, may require a paying agent in Switzerland to deduct Swiss withholding tax at a rate of 35 per cent. on any payment of interest in respect of a debt security to an individual resident in Switzerland or to a person resident outside of Switzerland.

### ***European Directive on the Taxation of Savings Income***

On October 26, 2004, the European Community and Switzerland entered into an agreement on the taxation of savings income pursuant to which Switzerland will adopt measures equivalent to those of the European Council Directive 2003/48/EC of 3 June 2003 on the taxation of savings income in the form of interest payments. The agreement entered into force as of July 1, 2005.

In accordance with this agreement, Swiss paying agents have to withhold tax at a rate of 35% on interest payments made under the Notes to a beneficial owner who is an individual and resident of an EU member state, with the option of the individual to have the paying agent and Switzerland provide to the tax authorities of the EU member state the details of the interest payments in lieu of the withholding.

On 26 October 2004, the European Community and Switzerland entered into an agreement on the taxation of savings income following which Switzerland adopted measures equivalent to those of the European Council Directive 2003/48/EC of 3 June 2003 on the taxation of savings income in the form of interest payments. In accordance therewith, Swiss paying agents are required to withhold tax at a rate of 35 per cent. in respect of a beneficial owner who is an individual and resident of an EU member state on payments of interest income on Notes, with the option of the individual to have the paying agent and Switzerland provide to the tax authorities of the EU member state the details of the interest payments in lieu of the withholding.

### ***Final Foreign Withholding Taxes***

On 1 January 2013 treaties on final withholding taxes between the Switzerland and the United Kingdom and between Switzerland and Austria entered into force. The treaties, inter alia, require a Swiss paying agent to levy final withholding tax at specified rates in respect of an individual resident in the United Kingdom or resident in Austria, as applicable, on interest or capital gain paid, or credited to an account, relating to the Notes. The final withholding tax substitutes the United Kingdom or Austrian income tax, as applicable, on such income of interest or capital gain. Such a person may, however, in lieu of the final withholding tax opt for voluntary disclosure of the interest or capital income to the tax authority of his or her country of residency. Note that Switzerland may conclude similar treaties with other European countries, negotiations currently being conducted with Greece and Italy.

## **European Union Directive on the Taxation of Savings Income**

Under EC Council Directive 2003/48/EC on the taxation of savings income in the form of interest payments (the "**EU Savings Directive**"), each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in that other Member State; however, for a transitional period, Austria and Luxembourg may instead apply a withholding system in relation to such payments, deducting tax at rates rising over time to 35 per cent. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have adopted similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in a Member State (as defined in Article 4.2 of the EU Savings Directive). In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident or certain limited types of entity established in one of those territories.

The European Commission has proposed certain amendments to the EU Savings Directive which may, if implemented, amend or broaden the scope of the requirements described above.

## SUBSCRIPTION AND SALE

Notes may be sold from time to time by each of the Issuers to any one or more of Nordea Bank AB (publ), Nordea Bank Danmark A/S, Nordea Bank Finland Plc, and Nordea Bank Norge ASA (the "**Dealers**"). The arrangements under which Notes may from time to time be agreed to be sold by an Issuer to, and purchased by, Dealers are set out in a dealer agreement dated 16 April 2013 (as amended and/or restated from time to time the "**Dealer Agreement**") and made between the Issuers and the Dealers. Any such agreement will *inter alia* make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be purchased by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the relevant Issuer in respect of such purchase. The Dealer Agreement makes provision for the resignation or renewal of existing Dealers and the appointment of additional or other Dealers.

### The United States of America

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons, except in accordance with Regulation S or pursuant to an exemption from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to United States persons, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the United States Internal Revenue Code and regulations thereunder.

Each Dealer has agreed or will agree and each further Dealer appointed under the Programme will be required to represent and agree, that, except as permitted by the Dealer Agreement, it has not offered, sold or delivered, and will not offer, sell or deliver, Notes of any Tranche (a) as part of their distribution at any time or (b) otherwise until 40 days after the later of the date of issue of the relevant Tranche of Notes and the completion of the distribution of such Tranche as certified to the Fiscal Agent or the relevant Issuer by the relevant Dealer(s) within the United States or to, or for the account or of benefit of, U.S. persons, and that it will have sent to each Dealer to which it sells Notes of such Tranche during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of such Notes within the United States or to, or for the account or benefit of, U.S. persons.

In addition, until 40 days after the commencement of the offering of any Tranche of Notes an offer or sale of Notes of such Tranche within the United States by a Dealer (whether or not participating in the offering of such Notes) may violate the registration requirements of the Securities Act.

In addition, certain Series of Notes in respect of which any payment is determined by reference to an index or formula, or to changes in prices of securities or commodities, or certain other Notes will be subject to such additional U.S. selling restrictions as the relevant Issuer and the relevant Dealers may agree. Each Dealer has agreed that it will offer, sell and deliver such Notes only in compliance with such additional U.S. selling restrictions.

### Public Offer Selling Restriction Under the Prospectus Directive

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Notes which are the subject of the offering contemplated by the Base Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (a) *Approved prospectus*: if the Final Terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that

Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, **provided that** any such prospectus has subsequently been completed by the Final Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;

- (b) *Qualified investors*: at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) *Fewer than 100 (or 150) offerees*: at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the relevant Issuer for any such offer; or
- (d) *Other exempt offers*: at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

**provided that** no such offer of Notes referred to in (b) to (d) above shall require the relevant Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive, or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an "**offer of Notes to the public**" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression "**Prospectus Directive**" means Directive 2003/71/EC (as amended) and the expression "**2010 PD Amending Directive**" means Directive 2010/73/EU.

#### **Selling Restrictions Addressing Additional United Kingdom Securities Laws**

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA does not, or, in the case of the relevant Issuer would not, if it was not an authorised person, apply to the relevant Issuer; and
- (b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

#### **Denmark**

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered or sold and will not offer, sell or deliver any of the Notes directly or indirectly in the Kingdom of Denmark by way of public offering, unless in compliance with the Danish Securities Trading etc. Act as amended from time to time and Executive Orders issued thereunder.

#### **Finland**

Each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree, that it will not publicly offer the Notes or bring the Notes into general circulation in Finland other than in compliance with all applicable provisions of the laws of Finland and especially in compliance with the Finnish Securities Market Act (746/2012, *Arvopaperimarkkinlaki*) and any regulation or rule made thereunder, as supplemented and amended from time to time.

## Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948, as amended) and, accordingly, each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that it will not offer or sell any Notes directly or indirectly, in Japan or to, or for the benefit of, any Japanese Person or to others for re-offering or resale, directly or indirectly, in Japan or to any Japanese Person except under circumstances which will result in compliance with all applicable laws, regulations and guidelines promulgated by the relevant Japanese governmental and regulatory authorities and in effect at the relevant time. For the purposes of this paragraph, "**Japanese Person**" shall mean any person resident in Japan, including any corporation or other entity organised under the laws of Japan.

## Norway

Notes denominated in NOK may not be offered or sold within Norway or to or for the account or benefit of persons domiciled in Norway, unless the regulation relating to the offer of VPS Notes and the registration in the VPS has been complied with.

Each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree, that it will comply with all laws, regulations and guidelines applicable to the offering of Notes in Norway.

## The Netherlands

For selling restrictions in respect of The Netherlands, see "*Public Offer Selling Restriction Under the Prospectus Directive*" above and in addition:

Zero Coupon Notes (as defined below) in definitive form of the relevant Issuer may only be transferred and accepted, directly or indirectly, within, from or into The Netherlands through the mediation of either the Issuer or a member firm of Euronext Amsterdam N.V. admitted on one or more systems held or operated by Euronext Amsterdam N.V. in full compliance with the Dutch Savings Certificates Act (*Wet inzake spaarbewijzen*) of 21 May 1985 (as amended) and its implementing regulations. No such mediation is required: (a) in respect of the transfer and acceptance of rights representing an interest in a Zero Coupon Note in global form, or (b) in respect of the initial issue of Zero Coupon Notes in definitive form to the first holders thereof, or (c) in respect of the transfer and acceptance of Zero Coupon Notes in definitive form between individuals not acting in the conduct of a business or profession, or (d) in respect of the transfer and acceptance of such Zero Coupon Notes within, from or into The Netherlands if all Zero Coupon Notes (either in definitive form or as rights representing an interest in a Zero Coupon Note in global form) of any particular Series are issued outside The Netherlands and are not distributed into The Netherlands in the course of initial distribution or immediately thereafter. As used herein "**Zero Coupon Notes**" are Notes that are in bearer form and that constitute a claim for a fixed sum against the relevant Issuer and on which interest does not become due during their tenor or on which no interest is due whatsoever.

## Sweden

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree that no Notes will be offered to the public in Sweden nor admitted to trading on a regulated market in Sweden unless and until (A) a prospectus in relation to those Notes has been approved by the competent authority in Sweden or, where appropriate, approved in another Relevant Member State and such competent authority has notified the competent authority in Sweden, all in accordance with the Prospectus Directive and the Swedish Financial Instruments Trading Act; or (B) an exemption from the requirement to prepare a prospectus is available under the Swedish Financial Instruments Trading Act.

## Republic of Ireland

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

it will not underwrite the issue of, or place the Notes, otherwise than in conformity with the provisions of the European Communities (Markets in Financial Instruments) Regulations 2007 (Nos. 1 to 3) (as

amended), including, without limitation, Regulations 7 and 152 thereof or any codes of conduct used in connection therewith and the provisions of the Investor Compensation Act 1998;

it will not underwrite the issue of, or place, the Notes, otherwise than in conformity with the provisions of the Companies Acts 1963 to 2012 (as amended), the Central Bank Acts 1942 to 2011 (as amended) and any codes of conduct rules made under Section 117(1) of the Central Bank Act 1989; and

it will not underwrite the issue of, place or otherwise act in Ireland in respect of the Notes, otherwise than in conformity with the provisions of the Market Abuse (Directive 2003/6/EC) Regulations 2005 (as amended) and any rules issued under Section 34 of the Investment Funds, Companies and Miscellaneous Provisions Act 2005 by the Central Bank of Ireland.

## **France**

### **(i) *Private placement in France***

Each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that it has not offered or sold and will not offer or sell, directly or indirectly, Notes to the public in France and it has not distributed or caused to be distributed and will not distribute or cause to be distributed to the public in France, the Base Prospectus, the relevant Final Terms or any other offering material relating to the Notes and such offers, sales and distributions have been and will be made in France only to (a) providers of investment services relating to portfolio management for the account of third parties (*personnes fournissant le service d'investissement de gestion de portefeuille pour compte de tiers*), and/or (b) qualified investors (*investisseurs qualifiés*) all as defined in, and in accordance with, articles L.411–1, L.411–2 and D.411–1 of the French Code *monétaire et financier*.

### **(ii) *Offer to the public in France***

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that, unless the approval of this Base Prospectus by the Central Bank has been notified to the AMF in accordance with Article 18 of the Prospectus Directive, as implemented in France, and all the other procedures and formalities required by French laws and regulations to permit the offering and sale of Notes in France have been carried out, it has not and will not make an offer of Notes to the public in France.

## **Estonia**

Notes which qualify as "derivative instruments" within the meaning of Section 2 of the SMA, Directive 2004/39/EC (MiFID Directive) and Commission Regulation No. EC/1287/2006 (MiFID Implementation Regulation), all as amended from time to time, may only be offered in Estonia after assessment of the suitability and appropriateness of the relevant structured instrument to the investor in accordance with applicable Estonian and European Union law.

## **Lithuania**

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that the Notes have not been offered and will not be offered in Lithuania by way of a public offering, unless in compliance with all applicable provisions of the laws of Lithuania and in particular in compliance with the Law on Securities of the Republic of Lithuania of 18 January 2007 No. X-1023 and any regulation or rule made thereunder, as supplemented and amended from time to time.

## **Latvia**

The Notes have not been registered under the Financial Instruments Market Law of Latvia and may not be publicly offered or sold in Latvia. Neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any offer of Notes in Latvia other than in accordance with the laws of the Republic of Latvia.

## **General**

With the exception of the approval by the Central Bank of this Base Prospectus as a base prospectus issued in compliance with the Prospectus Directive, no action has been or will be taken in any country or jurisdiction by any of the Issuers or the Dealers that would permit a public offering of Notes, or possession or distribution of any offering material in relation thereto, in any country or jurisdiction where action for that purpose is required. Persons into whose hands this Base Prospectus or any Final Terms comes are required by each of the Issuers and the Dealers to comply with all applicable laws and regulations in each country or jurisdiction in or from which they purchase, offer, sell or deliver Notes or have in their possession or distribute such offering material, in all cases at their own expense.

The Dealer Agreement provides that the Dealers shall not be bound by any of the restrictions relating to any specific jurisdiction (set out above) to the extent that such restrictions shall, as a result of change(s) or change(s) in official interpretation, after the date hereof, of applicable laws and regulations, no longer be applicable but without prejudice to the obligations of the Dealers described in the paragraph headed "*General*" above.

## GENERAL INFORMATION

1. The establishment of the Programme was authorised by (i) a duly convened meeting of the Board of Directors of NBAB on 13 December 2012 and (ii) a duly convened meeting of the Board of Directors of NBF on 4 March 2013.
2. None of the Issuers nor any of their respective subsidiaries is, or has been involved in any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware) during the 12 months before the date of this Base Prospectus which may have, or have had in the recent past significant effects on the financial position or profitability of either of the Issuers or the Nordea Group.
3. Since 31 December 2012, the date to which the latest audited financial statements of each Issuer were prepared, there has been no material adverse change in the prospects of NBAB, NBF or the Nordea Group.
4. Since 31 December 2012, the date to which the latest audited financial statements of each Issuer were prepared, there has been no significant change in the financial or trading position of NBAB, NBF or the Nordea Group.
5. The consolidated financial statements of each Issuer have been audited without qualification for the years ended 31 December 2012 and 2011 by the public accountants KPMG AB. KPMG AB have no material interest in NBAB or NBF.
6. For the twelve months following the date of this Base Prospectus, physical copies and, where appropriate, English translations of the following documents may be inspected during normal business hours at the specified office of the Fiscal Agent in London and the registered office of the relevant Issuer:
  - (a) the certificate of Registration and Articles of Association of each Issuer;
  - (b) the Fiscal Agency Agreement (as amended from time to time) (which contains the forms of the Notes);
  - (c) the Deed of Covenant (as supplemented from time to time);
  - (d) the Dealer Agreement (as amended from time to time);
  - (e) the audited consolidated and unconsolidated financial statements of each Issuer for the years ended 31 December 2012 and 31 December 2011 including the audit reports relating thereto;
  - (f) this Base Prospectus, together with any supplements thereto;
  - (g) the Final Terms for issues listed on any stock exchange and issued pursuant to this Base Prospectus; and
  - (h) the Issuer-ICSDs Agreement.
7. The Notes have been accepted for clearance through Euroclear and Clearstream, Luxembourg or, in the case of VP Notes, the VP or, in the case of VPS Notes, the VPS or, in the case of Finnish Notes, Euroclear Finland or, in the case of Swedish Notes, Euroclear Sweden. The appropriate common code and International Securities Identification Number for each issue allocated by Euroclear and Clearstream, Luxembourg and details of any other agreed clearance system(s) will be contained in the Final Terms relating thereto.
8. The address of Euroclear is Euroclear Bank SA/NV, 1 Boulevard du Roi Albert II, B-1210 Brussels and the address of Clearstream, Luxembourg is Clearstream Banking, 42 Avenue JF Kennedy, L-1855 Luxembourg.
9. The address of VP is VP Securities A/S, Weidekampsgade 14, P.O. Box 4040, DK-2300 Copenhagen 5.

10. The address of VPS is Norwegian Central Securities Depository, VPS ASA, P.O. 4, 0051 Oslo.
11. The address of Euroclear Finland Ltd is Euroclear Finland Ltd, PB 1110, 00101 Helsinki, Finland.
12. The address of Euroclear Sweden AB is Swedish Central Securities Depository, Euroclear Sweden, Box 7822, SE 103 97 Stockholm, Sweden.
13. It is expected that each Series of Notes which is to be admitted to the Official List of the Irish Stock Exchange will be admitted separately as and when issued, subject only to the issue of a Global Note initially representing the Notes of such Series or, as the case may be, a Global Registered Note and the approval of the Programme in respect of such Note(s) will be granted on or about 16 April 2013.
14. Settlement arrangements will be agreed between the relevant Issuer, the relevant Dealer and the Fiscal Agent or, as the case may be, the Registrar in relation to each Series.
15. There are no material contracts that have been entered into outside the ordinary course of either of the Issuer's business and which could result in any Group member being under an obligation or entitlement that is material to the relevant Issuer's ability to meet its obligation to Noteholders in respect of the Notes being issued.
16. Neither of the Issuers intend to provide post-issuance information under paragraph 7.5 of Annex XII of Regulation (EC) No 809/2004.
17. The price and amount of Notes to be issued under the Programme will be determined by the relevant Issuer and the relevant Dealer at the time of issue in accordance with prevailing market conditions.
18. Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services to each of the Issuers and its respective affiliates in the ordinary course of business.
19. Arthur Cox Listing Services Limited is acting solely in its capacity as listing agent for each of the Issuers in relation to the Notes and is not itself seeking admission of the Notes to the Official List of the Irish Stock Exchange or to trading on the regulated market of the Irish Stock Exchange for the purposes of the Prospectus Directive.

| Balance at 31 Dec 2011                            | 4,047                                                              | 1,080                 | −176                              | 123              | 6                              | 20,954            | 26,034 | 86                        | 26,120       |

1) Total shares registered were 4,047 million.

2) Restricted capital was EUR 4,047m, unrestricted capital was EUR 21,987m.

3) Refers to the Long Term Incentive Programme (LTIP). LTIP 2011 was hedged by issuing 4,730,000 C-shares. The shares have been bought back and converted to ordinary shares. The total holding of own shares related to LTIP is 18.2 million.

4) Refers to the change in the holding of own shares related to the Long Term Incentive Programme, trading portfolio and Nordea's shares within portfolio schemes in Denmark. The number of own shares were 20.7 million.

5) In connection to the rights issue in 2009 an assessment was made on the VAT Nordea would have to pay on the transaction costs. This assessment has been changed in 2011 based on a new tax case law.

**Comments on the cash flow statement**

The cash flow statement has been prepared in accordance with IAS 7. The cash flow statement shows inflows and outflows of cash and cash equivalents during the year. Nordea's cash flow has been prepared in accordance with the indirect method, whereby operating profit is adjusted for effects of non-cash transactions such as depreciation and loan losses. The cash flows are classified by operating, investing and financing activities.

**Operating activities**

Operating activities are the principal revenue-producing activities and cash flows are mainly derived from the operating profit for the year with adjustment for items not included in cash flow and income taxes paid. Adjustment for non-cash items includes:

Changes in operating assets and liabilities consist of assets and liabilities that are part of normal business activities, such as loans, deposits and debt securities in issue. Changes in derivatives are reported net.

Cash flow from operating activities includes interest payments received and interest expenses paid with the following amounts:

| EURm                       | 2012   | 2011   |
|----------------------------|--------|--------|
| Interest payments received | 12,553 | 11,896 |
| Interest expenses paid     | 6,437  | 6,376  |

**Investing activities**

Investing activities include acquisitions and disposals of non-current assets, like property and equipment, intangible and financial assets.

**Financing activities**

Financing activities are activities that result in changes in equity and subordinated liabilities, such as new issues of shares, dividends and issued/amortised subordinated liabilities.

**Cash and cash equivalents**

The following items are included in Cash and cash equivalents:

| EURm                                            | 31 Dec 2012   | 31 Dec 2011   |
|-------------------------------------------------|---------------|---------------|
| Cash and balances with central banks            | 36,060        | 3,765         |
| Loans to central banks, payable on demand       | 5,938         | 17,328        |
| Loans to credit institutions, payable on demand | 810           | 1,513         |
| <b>Total</b>                                    | <b>42,808</b> | <b>22,606</b> |

Cash comprises legal tender and bank notes in foreign currencies. Balances with central banks consist of deposits in accounts with central banks and postal giro systems under government authority, where the following conditions are fulfilled;

- the central bank or the postal giro system is domiciled in the country where the institution is established
- the balance on the account is readily available at any time.

Loans to credit institutions, payable on demand include liquid assets not represented by bonds or other interest-bearing securities. Loans to central banks, payable on demand includes instruments where Nordea has the right to resell immediately.

1) End of the year.

2) Increase between 2008 and 2009 due to Nordea's rights issue.

3) 2008–2009 restated due to the rights issue.

# Business definitions

These definitions apply to the descriptions in the Annual Report.

**Allowances in relation to impaired loans** Allowances for individually assessed impaired loans divided by individually assessed impaired loans before allowances.

**Basic earnings per share** Net profit for the year divided by the weighted average number of outstanding shares, non-controlling interests excluded.

**Capital base** Capital base includes the sum of the Tier 1 capital and the supplementary capital consisting of subordinated loans, after deduction of the carrying amount of the shares in wholly owned insurance companies and the potential deduction for expected shortfall.

**Cost of equity (%)** Required return by investors on the Nordea share, measured as the long risk free euro rate plus required average risk premium to invest in equities multiplied by Beta, which reflects the Nordea share's volatility and correlation with market volatility.

Cost of equity in EUR is defined as Cost of equity (%) times Economic capital. The Cost of equity is set by management once a year as a parameter to manage risk appetite and investment level.

**Cost/income ratio** Total operating expenses divided by total operating income.

**Diluted earnings per share** Net profit for the year divided by the weighted average number of outstanding shares after full dilution, non-controlling interests excluded.

**Economic capital (EC)** Internal estimate of required capital and measures the capital required to cover unexpected losses in the course of its business with a certain probability. EC uses advanced internal models to provide a consistent measurement for Credit Risk, Market Risk, Operational Risk, Business Risk and Life Insurance Risk arising from activities in Nordea's various business areas.

The aggregation of risks across the group gives rise to diversification effects resulting from the differences in

risk drivers and the improbability that unexpected losses occur simultaneously.

**Economic profit** Deducting Cost of equity from Risk-adjusted profit.

**Equity per share** Equity as shown on the balance sheet after full dilution and non-controlling interests excluded divided by the number of shares after full dilution.

**Expected losses** Normalised loss level of the individual loan exposure over a business cycle as well as various portfolios.

**Impairment rate, gross** Individually assessed impaired loans before allowances divided by total loans before allowances.

**Impairment rate, net** Individually assessed impaired loans after allowances divided by total loans before allowances.

**Loan loss ratio** Net loan losses (annualised) divided by opening balance of loans to the public (lending).

**MCEV (Market Consistent Embedded Value)** Estimate of the value a shareholder would put on a portfolio of in-force life and pension business based on objective market return. No franchise value or other additional value is included in MCEV.

**Non-performing, not impaired** Past due loans, not impaired due to future cash flows (included in Loans, not impaired).

**Price to Book** Nordea's stock market value relative to its book value of total equity.

**RAROCAR, % (Risk-adjusted return on capital at risk)**, Risk-adjusted profit relative to Economic capital.

**Return on equity** Net profit for the year excluding non-controlling interests as a percentage of average equity for the year. Average equity including net profit for the year and dividend until paid, non-controlling interests excluded.

**Risk-adjusted profit** Total income minus total operating expenses, minus Expected losses and standard tax (25 % 2012). In addition, Risk-adjusted profit excludes major non-recurring items.

**Risk-weighted assets** Total assets and off-balance-sheet items valued on the basis of the credit and market risks, as well as operational risks of the Group's undertakings, in accordance with regulations governing capital adequacy, excluding assets in insurance companies, carrying amount of shares which have been deducted from the capital base and intangible assets.

**Tier 1 capital** Proportion of the capital base, which includes consolidated shareholders' equity excluding investments in insurance companies, proposed dividend, deferred tax assets, intangible assets in the banking operations and half of the expected shortfall deduction, – the negative difference between expected losses and provisions. Subsequent to the approval of the supervisory authorities, Tier 1 capital also includes qualified forms of subordinated loans (Tier 1 capital contributions and hybrid capital loans).

The Core tier 1 capital constitutes the Tier 1 capital excluding hybrid capital loans.

**Tier 1 capital ratio** Tier 1 capital as a percentage of risk-weighted assets. The Core tier 1 ratio is calculated as Core tier 1 capital as a percentage of risk-weighted assets.

**Total allowance rate** Total allowances divided by total loans before allowances.

**Total allowances in relation to impaired loans (provisioning ratio)** Total allowances divided by impaired loans before allowances.

**Total capital ratio** Capital base as a percentage of risk-weighted assets.

**Total shareholders return (TSR)** Total shareholders return measured as growth in the value of a shareholding during the year, assuming the dividends are reinvested at the time of the payment to purchase additional shares.

**1. Basis for presentation**

Nordea's consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) and interpretations of such standards by the International Financial Reporting Standards Interpretations Committee (IFRS IC, formerly IFRIC), as endorsed by the EU Commission. In addition, certain complementary rules in the Swedish Annual Accounts Act for Credit Institutions and Securities Companies (1995:1559), the recommendation RFR 1 "Supplementary Accounting Rules for Groups" and the supplementary UFR statements issued by the Swedish Financial Reporting Board as well as the accounting regulations of the Swedish Financial Supervisory Authority (FFFS 2008:25, with amendments in FFFS 2009:11 and 2011:54) have also been applied.

The disclosures, required in the standards, recommendations and legislation above, have been included in the notes, the Risk, Liquidity and Capital management section or in other parts of the "Financial statements".

On 6 February 2013 the Board of Directors approved the financial statements, subject to final approval of the Annual General Meeting on 14 March 2013.

**2. Changed accounting policies and presentation**

The accounting policies, basis for calculations and presentation are, in all material aspects, unchanged in comparison with the 2011 Annual Report, mainly apart from the categorisation of commissions within Note G4 "Net fee and commission income" and the definition of impaired loans in Note G13 "Loans and impairment". These changes are further described below.

In addition, to provide more relevant information of the nature and the characteristics of the assets on the balance sheet, loans to central banks have been separated from loans to credit institutions and are reported on a new line on the balance sheet.

The comparative figures have been restated accordingly.

Further, the balance sheet lines "Treasury bills" and "Interest-bearing securities" have been merged and are now reported as "Interest-bearing securities". The comparative figures have been restated accordingly.

Below follows also a section covering other changes in IFRSs implemented in 2012, which have not had any significant impact on Nordea.

**Definition of impaired loans**

The definition of impaired loans has been changed and the disclosure includes all loans that have, as a consequence of identified loss event, been written down either individually, for individually significant loans, or as part of a portfolio, for individually insignificant loans.

This definition of impaired loans provides more granular information of the loans actually impaired.

The income statement and balance sheet are unaffected by this change. The comparative figures have been restated accordingly and are disclosed in the below table.

| EURm             | 31 Dec 2011 |            |
|------------------|-------------|------------|
|                  | New policy  | Old policy |
| Impaired loans   | 5,125       | 5,438      |
| – Performing     | 2,946       | 3,287      |
| – Non-performing | 2,179       | 2,151      |

**Categorisation of commissions**

The categorisation of commission within "Net fee and commission income" has been improved by merging similar types of commissions. Commissions received for securities issues, corporate financial activities and issuer services were reclassified from "Payments" and "Other commission income" to the renamed lines "Brokerage, securities issues and corporate finance" and "Custody and issue services". This categorisation better describes the types of commission recognised in the income statement. The comparable figures have been restated accordingly and are disclosed in the below table.

| EURm                                               | Jan–Dec 2011 |            |
|----------------------------------------------------|--------------|------------|
|                                                    | New policy   | Old policy |
| Brokerage, securities issues and corporate finance | 266          | 200        |
| Custody and issuer services                        | 115          | 90         |
| Payments                                           | 399          | 421        |
| Other commissions income                           | 141          | 210        |

**Changes in IFRSs implemented 2012**

IASB has amended IAS 1 "Presentation of Financial Statements" (Presentation of Items of Other Comprehensive Income), IFRS 7 "Financial instruments: Disclosures" (Transfers of Financial Assets) and IAS 12 "Income taxes" (Recovery of Underlying Assets) and the amendments have been implemented in Nordea as from 1 January 2012.

The amendments to IAS 1 have changed Nordea's presentation of other comprehensive income so that items that can later be reclassified to profit or loss are separated from the items that will not. The amendments to IFRS 7 have not added any new disclosures as Nordea has not transferred assets where there is a continuing involvement. The amended IAS 12 has not had any significant impact on the financial statements or on the capital adequacy in Nordea.

### 3. Changes in IFRSs not yet applied by Nordea

#### IFRS 9 “Financial instruments” (Phase 1)

In 2009 the IASB published a new standard on financial instruments containing requirements for financial assets. Requirements for financial liabilities were added to this standard in 2010. The standard is the first step in the replacement of IAS 39 “Financial instruments: Recognition and Measurement” and this first phase covers the classification and measurement of financial assets and liabilities. The effective date is as from 1 January 2015, but earlier application is permitted. The EU commission has not yet endorsed this standard.

The tentative assessment is that there will be an impact on the financial statements as the new standard will decrease the number of measurements categories and therefore have an impact on the presentation and disclosures covering financial instruments. The new standard is, on the other hand, not expected to have a significant impact on Nordea’s income statement and balance sheet as the mixed measurement model will be maintained. No significant reclassifications between fair value and amortised cost or impact on the capital adequacy are expected, but this is naturally dependent on the financial instruments on Nordea’s balance sheet at transition. It is furthermore expected that changes will be made to the standard before the standard becomes effective.

Nordea has, due to the fact that the standard is not yet endorsed by the EU commission and as changes before the effective date are likely, not finalised the investigation of the impact on the financial statements in the period of initial application or in subsequent periods.

IFRS 10 “Consolidated Financial Statements”, IFRS 11 “Joint Arrangements”, IFRS 12 “Disclosures of Interests in Other Entities”, IAS 27 “Separate Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” The IASB has published three new standards relating to consolidation, IFRS 10, IFRS 11 and IFRS 12, as well as amended IAS 27 and IAS 28. The effective date for these standards and amendments is as from 1 January 2013, but earlier application is permitted. The EU commission has endorsed these standards and amendments during 2012. In contrast to IFRS, the EU commission requires the standards to be applied for financial statements starting on or after 1 January 2014. Nordea will apply these standards as from 1 January 2014.

A potential impact from the new definition of control is that Nordea will have to consolidate additional entities (including so called Structured Entities or Special Purpose Entities, SPEs). Nordea’s current assessment is that no additional entities that significantly affect Nordea’s income statement, balance sheet or equity will have to be consolidated, although some uncertainty still remains around some mutual funds. If the funds have to be consolidated it will not affect the income statement, but it will have an impact on Nordea’s balance sheet and if those entities hold Nordea shares that will have to be eliminated in the Nordea Group there will be an impact on the equity. The new standards furthermore include more extensive disclosure requirements which will have an impact on Nordea’s disclosures covering consolidated and unconsolidated entities. Otherwise the new standards and amendments are not expected to have a significant impact on Nordea’s income statement or balance sheet. It is not expected that the new standards and amendments will have a significant impact on the capital adequacy.

Nordea has not finalised the investigation of the impact on the financial statements in the period of initial application or in subsequent periods.

#### IFRS 13 “Fair Value Measurement”

The IASB has published IFRS 13 “Fair Value Measurement”. The effective date is as from 1 January 2013, but earlier application is permitted. The EU commission has endorsed this standard during 2012. Nordea will apply this standard as from 1 January 2013.

IFRS 13 clarifies how to measure fair value but does not change the requirements regarding which items should be measured at fair value. In addition IFRS 13 requires additional disclosures about fair value measurements.

The assessment is that the new standard will not have any significant impact on the income statement or balance sheet. There will on the other hand be an impact on the disclosures as the new standard requires more extensive disclosures regarding fair value measurements, especially for fair value measurements in level 3 of the fair value hierarchy.

The assessment is that the new standard will not have a significant impact on the capital adequacy.

#### IAS 19 “Employee Benefits”

IASB has amended IAS 19. The effective date is as from 1 January 2013, but earlier application is permitted. The EU commission has endorsed this amendment during 2012. Nordea will apply this amendment as from 1 January 2013.

The amended standard will have an impact on the financial statements in the period of initial application, as well as in subsequent periods. This is mainly related to defined benefit plans. The amended IAS 19 states that actuarial gains/losses shall be recognised immediately in equity through other comprehensive income, which will lead to higher volatility in equity compared to the current corridor approach. Consequently no actuarial gains/losses will be recognised in the income statement. Under current IAS 19 actuarial gains/losses outside the corridor are amortised through the income statement.

The amended IAS 19 furthermore states that the expected return on plan assets shall be recognised using the same interest rate as the discount rate used when measuring the pension obligation. This will lead to higher pension expenses in the income statement as Nordea currently expects a higher return than the discount rate. Any difference between the actual return and the expected return will be a part of the actuarial gains/losses recognised immediately in equity through other comprehensive income without recycling to the income statement.

The unrecognised actuarial losses at 31 December 2012 amounted to EUR 251m excluding special wage tax and before income tax. This will at transition have a negative impact on equity of EUR 280m after special wage tax and before income tax. If implemented on 31 December 2012, Nordea’s core tier 1 capital would have been reduced by EUR 258m, including impact from changes in deferred tax assets. The impact on the income statement is not expected to be significant. See Note G33 “Retirement benefit obligations” for more information.

The Swedish Financial Reporting Board has furthermore withdrawn UFR 4 “Accounting for special wage tax and yield tax” and published UFR 9 “Accounting for yield tax”. Nordea will apply UFR 9 as from 1 January 2013. UFR 4 is applied in the financial statements for 2012. The treatment of yield tax in UFR 9 is the same as in UFR 4. Regarding special wage tax the withdrawal of UFR 4 and the implementation of IAS 19 are not expected to have any significant impact on Nordea’s financial statements or on the capital adequacy.

#### IAS 32 “Financial Instrument: Presentation”

IAS 32 “Financial Instruments: Presentation” has been

## G1

## Accounting policies

amended. The change relates to offsetting of financial assets and financial liabilities. The amendment is not intended to change the criteria for offsetting, but to give additional guidance on how to apply the existing criteria.

The effective date is as from 1 January 2014 but earlier application is permitted. The EU commission has endorsed these amendments during 2012. Nordea will apply this amendment as from 1 January 2013. The assessment is that the amended standard will not have any significant impact on the financial statements or on the capital adequacy.

#### IFRS 7 “Financial instruments: Disclosures”

IFRS 7 “Financial instruments: Disclosures” has furthermore been amended and will lead to additional disclosures around offsetting of financial assets and financial liabilities.

The effective date is as from 1 January 2013, but earlier application is permitted. The EU commission has endorsed these amendments during 2012. Nordea will apply this amendment as from 1 January 2013.

The amended standard will not have any impact on the financial statements, apart from disclosures, or on the capital adequacy.

#### 4. Critical judgements and estimation uncertainty

The preparation of financial statements in accordance with generally accepted accounting principles requires, in some cases, the use of judgements and estimates by management. Actual outcome can later, to some extent, differ from the estimates and the assumptions made. In this section Nordea describes:

- the sources of estimation uncertainty at the end of the reporting period, that have a significant risk of resulting in a material adjustment to the carrying amount of assets and liabilities within the next financial year, and
- the judgements made when applying accounting policies (apart from those involving estimations) that have the most significant effect on the amounts recognised in the financial statements.

Critical judgements and estimates are in particular associated with:

- the fair value measurement of certain financial instruments
- the impairment testing of:
  - goodwill and
  - loans to the public/credit institutions
- the effectiveness testing of cash flow hedges
- the actuarial calculations of pension liabilities and plan assets related to employees
- the actuarial calculations of insurance contracts
- the valuation of investment properties
- the classification of leases
- the translations of assets and liabilities denominated in foreign currencies
- the valuation of deferred tax assets
- claims in civil lawsuits

#### Fair value measurement of certain financial instruments

Nordea’s accounting policy for determining the fair value of financial instruments is described in section 11 “Determination of fair value of financial instruments” and Note G42 “Assets and liabilities at fair value”. Critical judgements that have a significant impact on the recognised amounts for financial instruments is exercised when determining fair value of OTC derivatives and other financial instruments that lack quoted prices or recently observed market prices. Those

judgements relate to the following areas:

- The choice of valuation techniques.
- The determination of when quoted prices fail to represent fair value (including the judgement of whether markets are active).
- The construction of fair value adjustments in order to incorporate relevant risk factors such as credit risk, model risk and liquidity risk.
- The judgement of which market parameters that are observable.

When determining fair value of financial instruments that lack quoted prices or recently observed market prices there is also a high degree of estimation uncertainty. That estimation uncertainty is mainly a result of the judgement management exercises when:

- selecting an appropriate discount rate for the instrument and
- determining expected timing of future cash flows from the instruments.

In all of these instances, decisions are based upon professional judgement in accordance with Nordea’s accounting and valuation policies. In order to ensure proper governance, Nordea has a Group Valuation Committee that on an on-going basis reviews critical judgements that are deemed to have a significant impact on fair value measurements.

The fair value of financial assets and liabilities measured at fair value using a valuation technique, level 2 and 3 in the fair value hierarchy, was EUR 252,558m (EUR 285,476m) and EUR 185,506m (EUR 235,514m) respectively at the end of the year.

Sensitivity analysis disclosures covering fair values of financial instruments with significant unobservable inputs can be found in Note G42 “Assets and liabilities at fair value”.

#### Impairment testing of goodwill

Nordea’s accounting policy for goodwill is described in section 16 “Intangible assets” and Note G20 “Intangible assets” lists the cash generating units to which goodwill has been allocated. Nordea’s total goodwill amounted to EUR 2,656m (EUR 2,575m) at the end of the year.

The estimation of future cash flows and the calculation of the rate used to discount those cash flows are subject to estimation uncertainty. The forecast of future cash flows is sensitive to the cash flow projections for the near future (2–3 years) and to the estimated sector growth rate for the period beyond 2–3 years. The growth rates are based on historical data, updated to reflect the current situation, which implies estimation uncertainty.

The rates used to discount future expected cash flows are based on the long-term risk free interest rate plus a risk premium (post tax). The risk premium is based on external information of overall risk premiums in relevant countries.

For information on the sensitivity to changes in relevant parameters, see Note G20 “Intangible assets”.

#### Impairment testing of loans to the public/credit institutions

Nordea’s accounting policy for impairment testing of loans is described in section 14 “Loans to the public/credit institutions”.

Management is required to exercise critical judgements and estimates when calculating loan impairment allowances on both individually assessed and collectively assessed loans. Nordea’s total lending before impairment allowances was EUR 367,673m (EUR 391,539m) at the end of the year. For more information, see Note G13 “Loans and impairment”.

## G1

## Accounting policies

The most judgemental area is the calculation of collective impairment allowances. When testing a group of loans collectively for impairment, judgement has to be exercised when identifying the events and/or the observable data that indicate that losses have been incurred in the group of loans. Nordea monitors its portfolio through rating migrations and a loss event is an event resulting in a negative rating migration. Assessing the net present value of the cash flows generated by the customers in the group of loans also includes estimation uncertainty. This includes the use of historical data on probability of default and loss given default supplemented by acquired experience when adjusting the assumptions based on historical data to reflect the current situation.

#### Effectiveness testing of cash flow hedges

Nordea's accounting policies for cash flow hedges are described in section 10 "Hedge accounting".

One important judgement in connection to cash flow hedge accounting is the choice of method used for effectiveness testing.

Where Nordea applies cash flow hedge accounting the hedging instruments used are predominantly cross currency interest rate swaps, which are always held at fair value. The currency component is designated as a cash flow hedge of currency risk and the interest component as a fair value hedge of interest rate risk. The hypothetical derivative method is used when measuring the effectiveness of these cash flow hedges, meaning that the change in a perfect hypothetical swap is used as proxy for the present value of the cumulative change in expected future cash flows on the hedged transaction (the currency component). Critical judgement has to be exercised when defining the characteristics of the perfect hypothetical swap.

#### Actuarial calculations of pension liabilities and plan assets related to employees

Nordea's accounting policy for post-employment benefits is described in section 22 "Employee benefits".

The Projected Benefit Obligation (PBO) for major pension plans is calculated by external actuaries using demographic assumptions based on the current population. As a basis for these calculations a number of actuarial and financial parameters are used.

The estimation of the discount rate is subject to uncertainty around whether corporate bond markets are deep enough, of high quality and also in connection to the extrapolation of yield curves to relevant maturities. In Sweden, Norway and Denmark the discount rate is determined with reference to covered bonds and in Finland with reference to corporate bonds. Other parameters like assumptions about salary increases and inflation are based on the expected long-term development of these parameters and are also subject to estimation uncertainty. The fixing of these parameters at year-end is disclosed in Note G33 "Retirement benefit obligations" together with a description of the discount rate sensitivity.

The expected return on plan assets is estimated taking into account the asset composition and based on long-term expectations on the return on the different asset classes. On bonds this is linked to the discount rate while equities and real estate have an added risk premium, both are subject to estimation uncertainty. The expected return is disclosed in Note G33 "Retirement benefit obligations".

#### Actuarial calculations of insurance contracts

Nordea's accounting policy for insurance contracts is

described in section 19 "Liabilities to policyholders".

A valuation of insurance liabilities includes estimations and assumptions, both financial and actuarial. One of the important financial assumptions is the interest rate used for discounting future cash flows. Other important actuarial assumptions are those on mortality and disability, which affect the size and timing of the future cash flows. The financial and actuarial assumptions are, to a large extent, stipulated in local legislation and therefore not under Nordea's discretion. Also assumptions about future administrative and tax expenses have an impact on the calculation of policyholder liabilities.

The insurance liability and the assumption sensitivities to the carrying amount are disclosed in Note G28 "Liabilities to policyholders".

#### Valuation of investment properties

Nordea's accounting policies for investment properties are described in section 18 "Investment property".

Investment properties are measured at fair value. As there normally are no active markets for investment properties, the fair values are estimated based on discounted cash flow models. These models are based on assumptions on future rents, vacancy levels, operating and maintenance costs, yield requirements and interest rates.

The carrying amounts of investment property were EUR 3,408m (EUR 3,644m) at the end of the year. See Note G23 "Investment property" for more information on amounts and parameters used in these models.

#### Classification of leases

Nordea's accounting policies for leases are described in section 15 "Leasing".

Critical judgement has to be exercised when classifying lease contracts. A lease is classified as a finance lease if it transfers substantially all the risks and rewards related to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards related to ownership.

The central district properties in Finland, Norway and Sweden that Nordea has divested are leased back. The duration of the lease agreement was initially 3–25 years with renewal options. The lease agreements include no transfers of ownerships of the asset by the end of the lease term, nor any economic benefit from appreciation in value of the leased property. In addition, the lease term is not for the major part of the assets' economic life. As a result, Nordea has classified these leases as operating leases. This judgement is a critical judgement that has a significant impact on the carrying amounts in the financial statement. The carrying amount of these properties at the time of disposal was EUR 1.5bn.

More information on lease contracts can be found in Note G22 "Leasing".

#### Translation of assets and liabilities denominated in foreign currencies

Nordea's accounting policies covering the translation of assets and liabilities denominated in foreign currencies is described in section 9 "Translation of assets and liabilities denominated in foreign currencies".

When reporting consolidated financial statements, the parent company Nordea Bank AB (publ) has been assessed to have two functional currencies, SEK and EUR, based on the different activities. The functional currency of the normal

## G1

## Accounting policies

banking operations is SEK and the functional currency of the entity holding equity, shares in group undertakings and the funding of those shares is EUR. It is Nordea's assessment that one legal entity can consist of different entities with different functional currencies.

#### Valuation of deferred tax assets

Nordea's accounting policy for the recognition of deferred tax assets is described in section 20 "Taxes" and Note G11 "Taxes".

The valuation of deferred tax assets is influenced by management's assessment of Nordea's future profitability and sufficiency of future taxable profits and future reversals of existing taxable temporary differences. These assessments are updated and reviewed at each balance sheet date, and are, if necessary, revised to reflect the current situation.

The carrying amount of deferred tax assets was EUR 218m (EUR 169m) at the end of the year.

#### Claims in civil lawsuits

Within the framework of the normal business operations, Nordea faces a number of claims in civil lawsuits and disputes, most of which involve relatively limited amounts. Presently, none of the current disputes are considered likely to have any significant adverse effect on Nordea or its financial position. See also Note G32 "Provisions" and Note G37 "Contingent liabilities".

### 5. Principles of consolidation

#### Consolidated entities

The consolidated financial statements include the accounts of the parent company Nordea Bank AB (publ), and those entities that the parent company controls. Control is generally achieved when the parent company owns, directly or indirectly through group undertakings, more than 50 per cent of the voting rights or otherwise has the power to govern the financial and operating policies of the entity.

All Group undertakings are consolidated using the acquisition method, except for the forming of Nordea in 1997–98 when the holding in Nordea Bank Finland Plc was consolidated using the pooling method. Under the acquisition method, the acquisition is regarded as a transaction whereby the parent company indirectly acquires the group undertaking's assets and assumes its liabilities and contingent liabilities. The Group's acquisition cost is established in a purchase price allocation analysis. In such analysis, the cost of the business combination is the aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed and equity instruments issued by the acquirer, in exchange for the identifiable net assets acquired. Costs directly attributable to the business combination are expensed.

As at the acquisition date Nordea recognises the identifiable assets acquired and the liabilities assumed at their acquisition date fair values.

For each business combination Nordea measures the non-controlling interest in the acquired business either at fair value or at their proportionate share of the acquired identifiable net assets.

When the aggregate of the consideration transferred in a business combination and the amount recognised for non-controlling interest exceeds the net fair value of the identifiable assets, liabilities and contingent liabilities, the excess is reported as goodwill. If the difference is negative, such difference is recognised immediately in the income statement.

Equity and net income attributable to non-controlling interests are separately disclosed on the balance sheet,

income statement and statement of comprehensive income.

Intra-group transactions and balances between the consolidated group undertakings are eliminated.

The Group undertakings are included in the consolidated accounts as from the date on which control is transferred to Nordea and are no longer consolidated as from the date on which control ceases.

In the consolidation process the reporting from the group undertakings is adjusted to ensure consistency with the IFRS principles applied by Nordea.

#### Investments in associated undertakings

The equity method of accounting is used for associated undertakings where the share of voting rights is between 20 and 50 per cent and/or where Nordea has significant influence. Significant influence is the power to participate in the financial and operating decisions of the investee but is not control over those policies. Investments within Nordea's investment activities, which are classified as a venture capital organisation within Nordea, are measured at fair value in accordance with the rules set out in IAS 28 and IAS 39. Further information on the equity method is disclosed in section 6 "Recognition of operating income and impairment".

Profits from companies accounted for under the equity method are reported post-taxes in the income statement. Consequently, the tax expense related to these profits is not included in the income tax expense for Nordea.

Internal transactions, in the income statement, between Nordea and its associated undertakings are not eliminated. Nordea does not have any sales of assets to or from associated undertakings.

#### Special Purpose Entities (SPE)

A SPE is an entity created to accomplish a narrow and well defined objective. Often legal arrangements impose strict limits on the decision making powers of the management over the on-going activities of the SPE.

Nordea does not consolidate SPEs' assets and liabilities beyond its control. In order to determine whether Nordea controls a SPE or not, Nordea has to make judgements about risks and rewards and assess the ability to make operational decisions for the SPE in question. When assessing whether Nordea shall consolidate a SPE, a range of factors are evaluated. These factors include whether the activities of the SPE are being in substance conducted on Nordea's behalf or if Nordea has in substance the decision making powers, the rights to obtain the majority of the benefits or the majority of the residual- or ownership risks. Nordea consolidates all SPEs, where Nordea has retained the majority of the risks and rewards. For the SPEs that are not consolidated the rationale is that Nordea does not have significant risks or rewards in connection to these assets and liabilities.

Nordea has created a number of SPEs to allow clients to invest in assets invested in by the SPEs. Some SPEs invest in tradable financial instruments, such as shares and bonds (mutual funds). Other SPEs invest in structured credit products or acquire assets from customers of Nordea. Nordea is generally the investment manager and has sole discretion about investments and other administrative decisions. Typically, Nordea will receive service and commission fees in connection to the creation of the SPEs, or because it acts as investment manager, custodian or in some other function. This in itself does not constitute a beneficial interest triggering consolidation. In some SPEs Nordea has also supplied substantial parts of the funding in the form of fund units, loans or credit commit-

## G1

## Accounting policies

ments. In these SPEs Nordea has a beneficial interest and retains the majority of the risks and rewards, which is why these SPEs are consolidated. Note P21 “Investments in group undertakings” lists the major group undertakings in the Nordea Group, including consolidated SPEs.

#### Currency translation of foreign entities

The consolidated financial statements are prepared in euro (EUR), the presentation currency of the parent company Nordea Bank AB (publ). The current method is used when translating the financial statements of foreign entities into EUR from their functional currency. The assets and liabilities of foreign entities have been translated at the closing rates, while items in the income statement and statement of comprehensive income are translated at the average exchange rate for the year. Translation differences are accounted for in other comprehensive income and are accumulated in the translation reserve in equity.

Goodwill and fair value adjustments arising from the acquisition of group undertakings are treated as items in the same functional currency as the cash generating unit to which they belong and are also translated at the closing rate.

Information on the most important exchange rates is disclosed in the separate section 27 “Exchange rates”.

### 6. Recognition of operating income and impairment

#### Net interest income

Interest income and expense are calculated and recognised based on the effective interest rate method or, if considered appropriate, based on a method that results in an interest income or interest expense that is a reasonable approximation of using the effective interest rate method as basis for the calculation. The effective interest includes fees considered to be an integral part of the effective interest rate of a financial instrument (generally fees received as compensation for risk). The effective interest rate equals the rate that discounts the contractual future cash flows to the carrying amount of the financial asset or financial liability.

Interest income and expenses from financial instruments are, with the exceptions described below, classified as “Net interest income”.

Interest income and interest expense related to all balance sheet items held at fair value in Markets and Nordea Life & Pensions are classified as “Net result from items at fair value” in the income statement. Also the interest on the net funding of the operations in Markets is recognised on this line.

The interest component in FX swaps, and the interest paid and received in interest rate swaps plus changes in accrued interest, is classified as “Net result from items at fair value”, apart for derivatives used for hedging, including economical hedges of Nordea’s funding, where such components are classified as “Net interest income”.

#### Net fee and commission income

Nordea earns commission income from different services provided to its customers. The recognition of commission income depends on the purpose for which the fees are received. Fees are either recognised as revenue when services are provided or in connection to the execution of a significant act. Fees received in connection to performed services are recognised as income in the period these services are provided. A loan syndication fee received as payment for arranging a loan, as well as other fees received as payments for certain acts, are recognised as revenue when the act has been completed, i.e. when the syndication has been finalised.

Commission expenses are normally transaction based and recognised in the period when the services are received.

Income from issued financial guarantees and expenses from bought financial guarantees, including fees paid to state guarantees, are amortised over the duration of the instruments and classified as “Fee and commission income” and “Fee and commission expense” respectively.

#### Net result from items at fair value

Realised and unrealised gains and losses on financial instruments measured at fair value through profit or loss are recognised in the item “Net result from items at fair value”.

Realised and unrealised gains and losses derive from:

- Shares/participations and other share-related instruments
- Interest-bearing securities and other interest-related instruments
- Other financial instruments, including credit derivatives as well as commodity instruments/derivatives
- Foreign exchange gains/losses
- Investment properties, which include realised and unrealised income, for instance revaluation gains and losses. This line also includes realised results from disposals as well as the running property yield stemming from the holding of investment properties.

Interest income and interest expense related to all balance sheet items in Markets and Nordea Life & Pensions, including the net funding of the operations in Markets, are classified as “Net result from items at fair value”.

Also the ineffective portion of cash flow hedges and net investment hedges as well as recycled gains and losses on financial instruments classified into the category Available for sale are recognised in “Net result from items at fair value”.

This item also includes realised gains and losses from financial instruments measured at amortised cost, such as interest compensation received and realised gains/losses on buy-backs of issued own debt.

“Net result from items at fair value” includes also losses from counterparty risk on instruments classified into the category Financial assets at fair value through profit or loss as well as impairment on instruments classified into the category Available for sale. However, the fair value adjustments of credit risk on loans granted in accordance with the Danish mortgage finance law (see section 13 “Financial instruments” and Note G42 “Assets and liabilities at fair value”) are reported under “Net loan losses”. Impairment losses from instruments within other categories are recognised in the items “Net loan losses” or “Impairment of securities held as financial non-current assets” (see also the sub-sections “Net loan losses” and “Impairment of securities held as financial non-current assets” below).

Dividends received are recognised in the income statement as “Net result from items at fair value” and classified as “Shares/participations and other share-related instruments” in the note. Income is recognised in the period in which the right to receive payment is established.

The income recognition and descriptions of the lines relating to life insurance are described in section 7 “Income recognition life insurance” below.

#### Profit from companies accounted for under the equity method

The profit from companies accounted for under the equity method is defined as the post-acquisition change in Nordea’s share of net assets in the associated undertakings. Nordea’s

## G1

## Accounting policies

share of items accounted for in other comprehensive income in the associated undertakings is accounted for in other comprehensive income in Nordea. Profits from companies accounted for under the equity method are, as stated in section 5 “Principles of consolidation”, reported in the income statement post-taxes. Consequently the tax expense related to these profits is excluded from the income tax expense for Nordea.

Fair values are, at acquisition, allocated to the associated undertaking’s identifiable assets, liabilities and contingent liabilities. Any difference between Nordea’s share of the fair values of the acquired identifiable net assets and the purchase price is goodwill or negative goodwill. Goodwill is included in the carrying amount of the associated undertaking. Subsequently the investment in the associated undertaking increases/decreases with Nordea’s share of the post-acquisition change in net assets in the associated undertaking and decreases through received dividends and impairment. An impairment charge can be reversed in a subsequent period.

The change in Nordea’s share of the net assets is generally based on monthly reporting from the associated undertakings. For some associated undertakings not individually significant the change in Nordea’s share of the net assets is based on the external reporting of the associated undertakings and affects the financial statements of Nordea in the period in which the information is available. The reporting from the associated undertakings is, if applicable, adjusted to comply with Nordea’s accounting policies.

#### Other operating income

Net gains from divestments of shares in group undertakings and associated undertakings and net gains on sale of tangible assets as well as other operating income, not related to any other income line, are generally recognised when it is probable that the benefits associated with the transaction will flow to Nordea and if the significant risks and rewards have been transferred to the buyer (generally when the transactions are finalised).

#### Net loan losses

Impairment losses from financial assets classified into the category Loans and receivables (see section 13 “Financial instruments”), in the items “Loans to central banks”, “Loans to credit institutions” and “Loans to the public” on the balance sheet, are reported as “Net loan losses” together with losses from financial guarantees (including state guarantees in Denmark). Also the fair value adjustments of credit risk on loans granted in accordance with the Danish mortgage finance law (see section 13 “Financial instruments”, and Note G42 “Assets and liabilities at fair value”) are reported under “Net loan losses”. Losses are reported net of any collateral and other credit enhancements. Nordea’s accounting policies for the calculation of impairment losses on loans can be found in section 14 “Loans to the public/credit institutions”.

Counterparty losses on instruments classified into the category Financial assets at fair value through profit or loss, including credit derivatives but apart from loans held at fair value as described above, as well as impairment on financial assets classified into the category Available for sale are reported under “Net result from items at fair value”.

#### Impairment of securities held as financial non-current assets

Impairment on investments in interest-bearing securities, classified into the categories Loans and receivables or Held to maturity, and on investments in associated undertakings are

classified as “Impairment of securities held as financial non-current assets” in the income statement. The policies covering impairment of financial assets classified into the categories Loans and receivables and Held to maturity are disclosed in section 13 “Financial instruments” and section 14 “Loans to the public/credit institutions”.

Investments in associated undertakings are assessed for impairment annually. If observable indicators (loss events) indicate that an associated undertaking is impaired, an impairment test is performed to assess whether there is objective evidence of impairment. The carrying amount of the investment in the associate is compared with the recoverable amount (higher of value in use and fair value less cost to sell) and the carrying amount is written down to the recoverable amount if required.

Impairment losses are reversed if the recoverable amount increases. The carrying amount is then increased to the recoverable amount, but cannot exceed the carrying amount that would have been determined had no impairment loss been recognised.

#### 7. Income recognition life insurance

Premiums received, and repayments to policyholders, related to the saving part of the life insurance contracts are reported as increases or decreases of liabilities to policyholders. See further information in section 19 “Liabilities to policyholders”.

The total income from life insurance mainly consists of the following components:

- Cost result
- Insurance risk result
- Risk and performance margin
- Investment return on additional capital in life insurance

The result from these components is, except for the cost result and the risk and performance margin relating to Unit Linked and Investment contracts, included in “Net result from items at fair value”.

The cost result is the result of expense loading from policyholders and is included in the item “Fee and commission income”, together with the risk and performance margin relating to Unit Linked and Investment contracts. The related expenses are included in the items “Fee and commission expense” and “Operating expenses”. The policyholder’s part of a positive or negative cost result (profit sharing) is included in the note line “Change in technical provisions, Life” within Note G5 “Net result from items at fair value”.

The insurance risk result consists of income from individual risk products and from unbundled life insurance contracts as well as Health and personal accident insurance. The risk premiums are amortised over the coverage period as the provisions are reduced when insurance risk is released. A large part of the unbundled risk result from traditional life insurance is subject to profit sharing, which means that the policyholders receive a part of a net income or a net deficit. The risk income and the risk expenses are presented gross on the lines “Insurance risk income, Life” and “Insurance risk expense, Life” in Note G5 “Net result from items at fair value”. The policyholder’s part of the result is included in the line “Change in technical provisions, Life” in the note.

Gains and losses derived from investments in Nordea Life & Pensions are split on the relevant lines in Note G5 “Net result from items at fair value” as for any other investments in Nordea. The lines include investment return on assets held to cover liabilities to policyholders and return on the additional capital allocated to Nordea Life & Pensions (Shareholders

## G1

## Accounting policies

capital in the Nordea Life & Pensions group).

The note line “Change in technical provisions, Life” in Note G5 “Net result from items at fair value” includes:

- Investment returns on assets held to cover liabilities to policyholders (including liabilities from traditional life insurance, unit linked insurance and investment contracts), individually transferred to policyholders’ accounts according to the contracts.
- Additional bonus (discretionary participation feature) to policyholders concerning traditional life insurance contracts or any other transfers to the policyholders to cover a periodical deficit between the investment result and any agreed minimum benefit to the policyholders.
- Risk and performance margin regarding traditional life insurance products according to local allocation rules in each Nordea Life & Pensions unit and according to contracts with policyholders. The recognition of a risk and performance margin in the income statement is mainly conditional on a positive result for traditional life insurance contracts. Risk and performance margins not possible to recognise in the current period due to poor investment results, can, in some countries, partly or wholly be deferred to years with higher returns.
- The policyholders’ part of the cost- and risk result regarding traditional life insurance contracts or unit linked contracts.

The note line “Change in collective bonus potential, Life” in Note G5 “Net result from items at fair value” relates only to traditional life insurance contracts. The line includes policyholders’ share of investment returns not yet individualised. The line includes also additional bonus (discretionary participation feature) and amounts needed to cover a periodical deficit between the investment result and any minimum benefits to the policyholders.

## 8. Recognition and derecognition of financial instruments on the balance sheet

Derivative instruments, quoted securities and foreign exchange spot transactions are recognised on and derecognised (reclassified to the items “Other assets” or “Other liabilities” on the balance sheet between trade date and settlement date) from the balance sheet on the trade date. Other financial instruments are recognised on the balance sheet on settlement date.

Financial assets, other than those for which trade date accounting is applied, are derecognised from the balance sheet when the contractual rights to the cash flows from the financial asset expire or are transferred to another party. The rights to the cash flows normally expire or are transferred when the counterpart has performed by e.g. repaying a loan to Nordea, i.e. on settlement date.

In some cases, Nordea enters into transactions where it transfers assets that are recognised on the balance sheet, but retains either all or a portion of risks and rewards from the transferred assets. If all or substantially all risks and rewards are retained, the transferred assets are not derecognised from the balance sheet. If Nordea’s counterpart can sell or repledge the transferred assets, the assets are reclassified to the item “Financial instruments pledged as collateral” on the balance sheet. Transfers of assets with retention of all or substantially all risks and rewards include e.g. security lending agreements and repurchase agreements.

Financial liabilities are derecognised from the balance sheet when the liability is extinguished. Normally this occurs when Nordea performs, for example when Nordea repays a deposit to the counterpart, i.e. on settlement date. Financial

liabilities under trade date accounting are generally reclassified to “Other liabilities” on the balance sheet on trade date.

For further information, see sections “Securities borrowing and lending agreements” and “Repurchase and reverse repurchase agreements” within 13 “Financial instruments”, as well as Note G43 “Transferred assets and obtained collaterals”.

## 9. Translation of assets and liabilities denominated in foreign currencies

The functional currency of each entity is decided based upon the primary economic environment in which the entity operates. The parent company Nordea Bank AB (publ) uses two functional currencies, SEK and EUR for reporting in consolidated accounts, based on the different activities in the underlying business.

Foreign currency is defined as any currency other than the functional currency of the entity. Foreign currency transactions are recorded at the exchange rate on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate on the balance sheet date.

Exchange differences arising on the settlement of transactions at rates different from those at the date of the transaction, and unrealised translation differences on unsettled foreign currency monetary assets and liabilities, are recognised in the income statement in the item “Net result from items at fair value”.

Translation differences on financial instruments that are designated hedging instruments in a hedge of a net investment in a group undertaking are recognised in other comprehensive income, to the extent the hedge is effective. This is performed in order to offset the translation differences affecting other comprehensive income when consolidating the group undertaking into Nordea. Any ineffectiveness is recognised in the income statement in the item “Net result from items at fair value”.

## 10. Hedge accounting

Nordea applies the EU carve out version of IAS 39 for portfolio hedges of both assets and liabilities. The EU carve out macro hedging enables a group of derivatives (or proportions thereof) to be viewed in combination and designated as the hedging instrument and removes some of the limitations in fair value hedge accounting relating to hedging core deposits and under-hedging strategies.

Nordea uses hedge accounting in order to have a symmetrical accounting treatment of the changes in fair value of the hedged item and changes in fair value of the hedging instruments as well as to hedge the exposure to variability in future cash flows and the exposure to net investments in foreign operations.

There are three forms of hedge accounting:

- Fair value hedge accounting
- Cash flow hedge accounting
- Hedges of net investments in foreign operations

### Fair value hedge accounting

Fair value hedge accounting is used when derivatives are hedging changes in fair value of a recognised asset or liability attributable to a specific risk. The risk of changes in fair value of assets and liabilities in Nordea’s financial statements originates mainly from loans, securities and deposits with a fixed interest rate, causing interest rate risk. Changes in fair value from derivatives as well as changes in fair value of the hedged item attributable to the risks being hedged are recognised separately in the income statement in the item “Net result from items at fair value”. Given an effective hedge, the two changes

## G1

## Accounting policies

in fair value will more or less balance, meaning the net result is close to zero. The changes in fair value of the hedged item attributable to the risks hedged with the derivative instrument are reflected in an adjustment to the carrying amount of the hedged item, which is also recognised in the income statement. The fair value change of the hedged item held at amortised cost in a portfolio hedge of interest rate risks is reported separately from the portfolio in the item “Fair value changes of the hedged items in portfolio hedge of interest rate risk” on the balance sheet.

Fair value hedge accounting in Nordea is performed mainly on a portfolio basis. Any ineffectiveness is recognised in the income statement under the item “Net result from items at fair value”.

#### *Hedged items*

A hedged item in a fair value hedge can be a recognised single asset or liability, an unrecognised firm commitment, or a portion thereof. The hedged item can also be a group of assets, liabilities or firm commitments with similar risk characteristics. Hedged items in Nordea consist of both individual assets or liabilities and portfolios of assets and/or liabilities.

#### *Hedging instruments*

The hedging instruments used in Nordea are predominantly interest rate swaps and cross currency interest rate swaps, which are always held at fair value. Cash instruments are only used in a few transactions as hedging instruments when hedging currency risk.

#### **Cash flow hedge accounting**

Cash flow hedge accounting can be used for the hedging of exposure to variations in future interest payments on instruments with variable interest rates and for the hedging of currency exposures. The portion of the gain or loss on the hedging instrument, that is determined to be an effective hedge, is recognised in other comprehensive income and accumulated in the cash flow hedge reserve in equity. The ineffective portion of the gain or loss on the hedging instrument is recycled to the item “Net result from items at fair value” in the income statement.

Gains or losses on hedging instruments recognised in the cash flow hedge reserve in equity through other comprehensive income are recycled and recognised in the income statement in the same period as the hedged item affects profit or loss, normally in the period that interest income or interest expense is recognised.

#### *Hedged items*

A hedged item in a cash flow hedge can be highly probable floating interest rate cash flows from recognised assets or liabilities or from future assets or liabilities. Nordea uses cash flow hedges when hedging currency risk in future payments of interest and principal in foreign currency.

#### *Hedging instruments*

The hedging instruments used in Nordea are predominantly cross currency interest rate swaps, which are always held at fair value, where the currency component is designated as a cash flow hedge of currency risk and the interest component as a fair value hedge of interest rate risk.

#### **Hedges of net investments**

See separate section 9 “Translation of assets and liabilities denominated in foreign currencies”.

#### **Hedge effectiveness**

The application of hedge accounting requires the hedge to be highly effective. A hedge is regarded as highly effective if at inception and throughout its life it can be expected that changes in fair value of the hedged item as regards the hedged risk can be essentially offset by changes in fair value of the hedging instrument. The result should be within a range of 80–125 per cent. When assessing hedge effectiveness retrospectively Nordea measures the fair value of the hedging instruments and compares the change in fair value of the hedging instrument to the change in fair value of the hedged item. The effectiveness measurement is made on a cumulative basis. The hypothetical derivative method is used when measuring the effectiveness of cash flow hedges, meaning that the change in a perfect hypothetical swap is used as proxy for the present value of the cumulative change in expected future cash flows from the hedged transaction (the currency component).

If the hedge relationship does not fulfil the requirements, hedge accounting is terminated. For fair value hedges the hedging instrument is reclassified to a trading derivative and the change in the fair value of the hedged item, up to the point when the hedge relationship is terminated, is amortised to the income statement on a straight-line basis over the remaining maturity of the hedged item.

In cash flow hedges, changes in the unrealised value of the hedging instrument will prospectively from the last time it was proven effective be accounted for in the income statement. The cumulative gain or loss on the hedging instrument that has been recognised in the cash flow hedge reserve in equity through other comprehensive income from the period when the hedge was effective is reclassified from equity to “Net result from items at fair value” in the income statement if the expected transaction no longer is expected to occur. If the expected transaction no longer is highly probable, but is still expected to occur, the cumulative gain or loss on the hedging instrument that has been recognised in other comprehensive income from the period when the hedge was effective remains in other comprehensive income until the transaction occurs or is no longer expected to occur.

#### **11. Determination of fair value of financial instruments**

Financial assets and liabilities classified into the categories Financial assets/liabilities at fair value through profit or loss (including derivative instruments) are recorded at fair value on the balance sheet with changes in fair value recognised in the income statement in the item “Net result from items at fair value”.

Fair value is defined as the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

The existence of published price quotations in an active market is the best evidence of fair value and when they exist they are used to measure financial assets and financial liabilities. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an on-going basis. The absolute levels for liquidity and volume required for a market to be considered active vary with the instrument classes. For some classes low price volatility is seen, also for those instruments within the class where the trade frequency is high. For instruments in such a class the liquidity requirements are lower and, correspondingly, the age limit for the prices used for establishing fair value is higher.

If markets are active or non-active is assessed regularly. The trade frequency and volume are monitored daily.

## G1

## Accounting policies

Nordea is predominantly using published price quotations to establish fair value for items disclosed under the following balance sheet items:

- Interest-bearing securities
- Shares (listed)
- Derivatives (listed)
- Debt securities in issue (issued mortgage bonds in Nordea Kredit Realkreditaktieselskab)

If quoted prices for a financial instrument fail to represent actual and regularly occurring market transactions or if quoted prices are not available, fair value is established by using an appropriate valuation technique. The adequacy of the valuation technique, including an assessment of whether to use quoted prices or theoretical prices, is monitored on a regular basis.

Valuation techniques can range from simple discounted cash flow analysis to complex option pricing models. Valuation models are designed to apply observable market prices and rates as input whenever possible, but can also make use of unobservable model parameters. The adequacy of the valuation model is assessed by measuring its capability to hit market prices. This is done by comparison of calculated prices to relevant benchmark data, e.g. quoted prices from the exchange, the counterpartys valuations, price data from consensus services etc.

Nordea is predominantly using valuation techniques to establish fair value for items disclosed under the following balance sheet items:

- Loans to the public (mortgage loans in Nordea Kredit Realkreditaktieselskab)
- Interest-bearing securities (when quoted prices in an active market are not available)
- Shares (when quoted prices in an active market are not available)
- Derivatives (OTC-derivatives)

For financial instruments, where fair value is estimated by a valuation technique, it is investigated whether the variables used in the valuation model are predominantly based on data from observable markets. By data from observable markets, Nordea considers data that can be collected from generally available external sources and where this data is judged to represent realistic market prices. If non-observable data has a significant impact on the valuation, the instrument cannot be recognised initially at the fair value estimated by the valuation technique and any upfront gains are thereby deferred and amortised through the income statement over the contractual life of the instrument. The deferred upfront gains are subsequently released to income if the non-observable data becomes observable.

Note G42 “Assets and liabilities at fair value” provides a breakdown of fair values of financial instruments measured on the basis of:

- quoted prices in active markets for the same instrument (level 1),
- valuation technique using observable data (level 2), and
- valuation technique using non-observable data (level 3).

The valuation models applied by Nordea are consistent with accepted economic methodologies for pricing financial instruments and incorporate the factors that market participants consider when setting a price.

New valuation models are subject to approval by the Model Risk Management Committee and all models are reviewed on

a regular basis.

For further information, see Note G42 “Assets and liabilities at fair value”.

## 12. Cash and cash equivalents

Cash and cash equivalents consist of cash and balances with central banks where the following conditions are fulfilled:

- The central bank is domiciled in a country where Nordea is operating under a banking licence
- The balance is readily available at any time

Cash and cash equivalents are financial instruments classified into the category Loans and receivables, see section 13 “Financial instruments”.

Loans to credit institutions payable on demand are also recognised as “Cash and cash equivalents” in the cash flow statement together with instruments with central banks that can be resold immediately.

## 13. Financial instruments

### Classification of financial instruments

Each financial instrument has been classified into one of the following categories:

Financial assets:

- Financial assets at fair value through profit or loss:
    - Held for trading
    - Designated at fair value through profit or loss (Fair Value Option)
  - Loans and receivables
  - Held to maturity
  - Available for sale
- Financial liabilities:
- Financial liabilities at fair value through profit or loss:
    - Held for trading
    - Designated at fair value through profit or loss (Fair Value Option)
  - Other financial liabilities

All financial assets and liabilities are initially measured at fair value. The classification of financial instruments into different categories forms the basis for how each instrument is subsequently measured on the balance sheet and how changes in its value are recognised. In Note G41 “Classification of financial instruments” the classification of the financial instruments on Nordea’s balance sheet into different categories is presented.

### *Financial assets and financial liabilities at fair value through profit or loss*

Financial assets and financial liabilities at fair value through profit or loss are measured at fair value, excluding transaction costs. All changes in fair values are recognised directly in the income statement in the item “Net result from items at fair value”.

The category consists of two sub-categories; Held for trading and Designated at fair value through profit or loss (Fair value option).

The sub-category Held for trading mainly contains derivative instruments that are held for trading purposes, interest-bearing securities and shares within Markets and Treasury. It also contains trading liabilities such as short-selling positions.

The major parts of the financial assets/liabilities classified into the category Designated at fair value through profit or loss are mortgage loans and related issued bonds in the Danish group undertaking Nordea Kredit Realkreditaktieselskab and interest-bearing securities, shares and investment

## G1

## Accounting policies

contracts in Nordea Life & Pensions.

Assets and liabilities in Nordea Kredit Realkreditaktieselskab are classified into the category Designated at fair value through profit or loss to eliminate or significantly reduce an accounting mismatch. When Nordea grants mortgage loans to customers in accordance with the Danish mortgage finance law Nordea at the same time issues bonds with matching terms, so called “match funding”. The customers can repay the loans either through repayments of the principal or by purchasing the issued bonds and return them to Nordea as a settlement of the loan. The bonds play an important part in the Danish money market and Nordea consequently buys and sells own bonds in the market. If the loans and bonds were measured at amortised cost such buy-backs of bonds would give rise to an accounting mismatch as any gains or losses would have to be recognised immediately in the income statement. If such bonds are subsequently sold in the market any premium or discount would be amortised over the expected maturity, which would also create an accounting mismatch. To avoid such an accounting mismatch Nordea measures both the loans and bonds at fair value through profit or loss.

Interest-bearing securities, shares and investment contracts (defined in section 19 “Liabilities to policyholders”) in Nordea Life & Pensions are generally also classified into the category Designated at fair value through profit or loss to eliminate or significantly reduce an accounting mismatch. The investment contracts (unit-linked) are held at fair value and to avoid an accounting mismatch also the related assets are held at fair value. This is valid also for insurance contracts (defined in section 19 “Liabilities to policyholders”) where the assets are generally held at fair value to reduce an accounting mismatch with the liabilities to policyholders that are generally measured at fair value.

Nordea also applies the Fair value option on certain financial assets and financial liabilities related to Markets. The classification stems from that Markets is managing and measuring its financial assets and liabilities at fair value. Consequently, the majority of financial assets and financial liabilities in Markets are classified into the categories Financial assets/Financial liabilities at fair value through profit or loss.

#### *Loans and receivables*

Loans and receivables are non-derivative financial assets, with fixed or determinable payments, that are not quoted in an active market. These assets and their impairment are further described in the separate section 14 “Loans to the public/credit institutions”.

#### *Held to maturity*

Financial assets that Nordea has chosen to classify into the category Held to maturity are non-derivative financial assets with fixed or determinable payments and fixed maturity that Nordea has the positive intent and ability to hold to maturity. Financial assets classified into the category Held to maturity are initially recognised on the balance sheet at the acquisition price, including transaction costs. Subsequent to initial recognition, the instruments within this category are measured at amortised cost. In an amortised cost measurement, the difference between acquisition cost and redemption value is amortised in the income statement over the remaining term using the effective interest rate method.

If more than an insignificant amount of the Held to maturity portfolio is sold or transferred the Held to maturity category is tainted, except for if the sale or transfer either occur close to maturity, after substantially all of the original principal

is already collected, or due to an isolated non-recurring event beyond the control of Nordea.

Nordea assesses at each reporting date whether there is any objective evidence that the asset is impaired. If there is such evidence, an impairment loss is recorded. The loss is calculated as the difference between the carrying amount and the present value of estimated future cash flows and is recognised as “Impairment of securities held as financial non-current assets” in the income statement. See section 14 “Loans to the public/credit institutions” for more information on the identification and measurement of objective evidence of impairment, which is applicable also for interest-bearing securities classified into the category Held to maturity.

#### *Available for sale*

Financial instruments classified into the category Available for sale are measured at fair value. Changes in fair values, except for interest, foreign exchange effects and impairment losses, are recognised in the fair value reserve in equity through other comprehensive income. Interest is recognised in the item “Interest income” and foreign exchange effects and impairment losses in the item “Net result from items at fair value” in the income statement.

When an instrument classified into the category Available for sale is disposed of, the fair value changes that previously have been accumulated in the fair value reserve (related to Available for sale investments) in other comprehensive income are removed from equity and recognised in the income statement in the item “Net result from items at fair value”.

Financial assets classified into the category Available for sale are assessed at least annually in order to determine any need for impairment losses. If there is objective evidence of impairment, the accumulated loss that has been recognised in other comprehensive income is removed from equity and recognised as “Net result from items at fair value” in the income statement. The amount of the accumulated loss that is recycled from equity is the difference between the asset’s acquisition cost and current fair value. For equity investments a prolonged or significant decline in the fair value, compared to the acquisition cost, is considered to be objective evidence of impairment. Objective evidence of impairment for a debt instrument is rather connected to a loss event, such as an issuer’s financial difficulty.

#### *Other financial liabilities*

Financial liabilities, other than those classified into the category Financial liabilities at fair value through profit or loss, are measured at amortised cost. Interest from Other financial liabilities is recognised in the item “Interest expense” in the income statement.

#### *Hybrid (combined) financial instruments*

Hybrid (combined) financial instruments are contracts containing a host contract and an embedded derivative instrument. Such combinations arise predominantly from the issuance of structured debt instruments, such as issued index-linked bonds.

Index-linked bonds issued by Group Treasury are considered to be part of the funding activities. The zero coupon bond, is measured at amortised cost. The embedded derivatives in those instruments are separated from the host contract and accounted for as stand-alone derivatives at fair value, if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and

## G1

## Accounting policies

risks of the host contract, and the embedded derivative meets the definition of a derivative instrument. Changes in fair values, of the embedded derivatives, are recognised in the income statement in the item “Net result from items at fair value”.

Index-linked bonds issued by Markets as part of the trading portfolio are classified into the category Held for trading, and the entire combined instrument, host contract together with the embedded derivative, is measured at fair value through profit or loss. Changes in fair values are recognised in the income statement in the item “Net result from items at fair value”.

#### Securities borrowing and lending agreements

Generally, securities borrowing and securities lending transactions are entered into on a collateralised basis. Unless the risks and rewards of ownership are transferred, the securities are not recognised on or derecognised from the balance sheet. In the cases where the counterpart is entitled to resell or repledge the securities, the securities are reclassified to the balance sheet item “Financial instruments pledged as collateral”.

Securities in securities lending transactions are also disclosed in the item “Assets pledged as security for own liabilities”.

Cash collateral advanced (securities borrowing) to the counterparts is recognised on the balance sheet as “Loans to central banks”, “Loans to credit institutions” or as “Loans to the public”. Cash collateral received (securities lending) from the counterparts is recognised on the balance sheet as “Deposits by credit institutions” or as “Deposits and borrowings from the public”.

#### Repurchase and reverse repurchase agreements

Securities delivered under repurchase agreements and securities received under reverse repurchase agreements are not derecognised from or recognised on the balance sheet. In the cases where the counterpart has the right to resell or repledge the securities, the securities are reclassified to the balance sheet line “Financial instruments pledged as collateral”.

Securities delivered under repurchase agreements are also disclosed in the item “Assets pledged as security for own liabilities”.

Cash received under repurchase agreements is recognised on the balance sheet as “Deposits by credit institutions” or as “Deposits and borrowings from the public”. Cash delivered under reverse repurchase agreements is recognised on the balance sheet as “Loans to central banks”, “Loans to credit institutions” or as “Loans to the public”.

Additionally, the sale of securities received in reverse repurchase agreements trigger the recognition of a trading liability (short sale).

#### Derivatives

All derivatives are recognised on the balance sheet and measured at fair value. Derivatives with total positive fair values, including any accrued interest, are recognised as assets in the item “Derivatives” on the asset side. Derivatives with total negative fair values, including any accrued interest, are recognised as liabilities in the item “Derivatives” on the liability side.

Realised and unrealised gains and losses from derivatives are recognised in the income statement in the item “Net result from items at fair value”.

#### Offsetting of financial assets and liabilities

Nordea offsets financial assets and liabilities on the balance sheet if there is a legal right to offset, in the ordinary course of

business and in case of bankruptcy, and if the intent is to settle the items net or realise the asset and settle the liability simultaneously. This is generally achieved through the central counterparty clearing houses that Nordea has agreements with.

#### 14. Loans to the public/credit institutions

Financial instruments classified as “Loans to the public/credit institutions” (including loans to central banks) on the balance sheet and into the category Loans and receivables are measured at amortised cost (see also the separate section 8 “Recognition and derecognition of financial instruments on the balance sheet” as well as Note G41 “Classification of financial instruments”).

Nordea monitors loans as described in the separate section on Risk, Liquidity and Capital management. Loans attached to individual customers or groups of customers are identified as impaired if the impairment tests indicate an objective evidence of impairment.

Also interest-bearing securities classified into the categories Loans and receivables and Held to maturity are held at amortised cost and the description below is valid also for the identification and measurement of impairment on these assets. Possible impairment losses on interest-bearing securities classified into the categories Loans and receivables and Held to maturity are recognised as “Impairment of securities held as non-current financial assets” in the income statement.

#### Impairment test of individually assessed loans

Nordea tests all loans for impairment on an individual basis. The purpose of the impairment tests is to find out if the loans have become impaired. As a first step in the identification process for impaired loans, Nordea monitors whether there are indicators of impairment (loss event) and whether these loss events represent objective evidence of impairment. More information on the identification of loss events can be found in the Risk, Liquidity and Capital management section.

Loans that are not individually impaired will be transferred to a group of loans with similar risk characteristics for a collective impairment test.

#### Impairment test of collectively assessed loans

Loans not impaired on an individual basis are collectively tested for impairment.

These loans are grouped on the basis of similar credit risk characteristics that are indicative of the debtors’ ability to pay all amounts due according to the contractual terms. Nordea monitors its portfolio through rating migrations, the credit decision and annual review process supplemented by quarterly risk reviews. Through these processes Nordea identifies loss events indicating incurred losses in a group. A loss event is an event resulting in a deterioration of the expected future cash flows. Only loss events incurred up to the reporting date are included when performing the assessment of the group.

The objective for the group assessment process is to evaluate if there is a need to make a provision due to the fact that a loss event has occurred, which has not yet been identified on an individual basis. This period between the date when the loss event occurred and the date when it is identified on an individual basis is called “Emergence period”. The impairment remains related to the group of loans until the losses have been identified on an individual basis. The identification of the loss is made through a default of the engagement or by other indicators.

For corporate customers and bank counterparts, Nordea uses the existing rating system as a basis when assessing the

## G1

## Accounting policies

credit risk. Nordea uses historical data on probability of default to estimate the risk for a default in a rating class. These loans are rated and grouped mostly based on type of industry and/or sensitivity to certain macro parameters, e.g. dependency to oil prices etc.

Personal customers and small corporate customers are monitored through scoring models. These are based mostly on historical data, as default rates and loss rates given a default, and experienced judgement performed by management. Rating and scoring models are described in more detail in the separate section on Risk, Liquidity and Capital management.

The collective assessment is performed through a netting principle, i.e. when rated engagements are up-rated due to estimated increases in cash flows, this improvement will be netted against losses on loans that are down-rated due to estimated decreases in cash-flows. Netting is only performed within groups with similar risk characteristics where Nordea assesses that the customers' future cash flows are insufficient to serve the loans in full.

### Impairment loss

If the carrying amount of the loans is higher than the sum of the net present value of estimated cash flows (discounted with original effective interest rate), including the fair value of the collaterals and other credit enhancements, the difference is the impairment loss.

For significant loans that have been individually identified as impaired the measurement of the impairment loss is made on an individual basis.

For insignificant loans that have been individually identified as impaired and for loans not identified as impaired on an individual basis the measurement of the impairment loss is measured using a portfolio based expectation of the future cash flows.

If the impairment loss is not regarded as final, the impairment loss is accounted for on an allowance account representing the accumulated impairment losses. Changes in the credit risk and accumulated impairment losses are accounted for as changes in the allowance account and as "Net loan losses" in the income statement (see also section 6 "Recognition of operating income and impairment").

If the impairment loss is regarded as final, it is reported as a realised loss and the value of the loan and the related allowance for impairment loss are derecognised. An impairment loss is regarded as final when the obligor is filed for bankruptcy and the administrator has declared the economic outcome of the bankruptcy procedure, or when Nordea forgives its claims either through a legal based or voluntary reconstruction or when Nordea, for other reasons, deem it unlikely that the claim will be recovered.

### Discount rate

The discount rate used to measure impairment is the original effective interest rate for loans attached to an individual customer or, if applicable, to a group of loans. If considered appropriate, the discount rate can be based on a method that results in an impairment that is a reasonable approximation of using the effective interest rate method as basis for the calculation.

### Restructured loans

In this context a restructured loan is defined as a loan where Nordea has granted concessions to the obligor due to its deteriorated financial situation and where this concession has resulted in an impairment loss for Nordea. After a reconstruction the loan is normally regarded as not impaired if it

performs according to the new conditions. Concessions made in reconstructions are regarded as final losses unless Nordea retains the possibility to regain the loan losses incurred. In the event of a recovery the payment is reported as a recovery of loan losses.

### Assets taken over for protection of claims

In a financial reconstruction the creditor may concede loans to the obligor and in exchange for this concession acquire an asset pledged for the conceded loans, shares issued by the obligor or other assets. Assets taken over for protection of claims are reported on the same balance sheet line as similar assets already held by Nordea. For example a property taken over, not held for Nordea's own use, is reported together with other investment properties.

At initial recognition, all assets taken over for protection of claims are recognised at fair value and the possible difference between the carrying amount of the loan and the fair value of the assets taken over is recognised as "Net loan losses". The fair value of the asset on the date of recognition becomes its cost or amortised cost value, as applicable. In subsequent periods, assets taken over for protection of claims are valued in accordance with the valuation principles for the appropriate type of asset. Investment properties are then measured at fair value. Financial assets that are foreclosed are generally classified into the categories Available for sale or Designated at fair value through profit or loss (Fair Value Option) (see section 13 "Financial instruments") and measured at fair value. Changes in fair values are recognised in other comprehensive income for assets classified into the category Available for sale. For assets classified into the category Designated at fair value through profit or loss, changes in fair value are recognised in the income statement under the line "Net result from items at fair value".

Any change in value, after the initial recognition of the asset taken over, is presented in the income statement in line with the Group's presentation policies for the appropriate asset. "Net loan losses" in the income statement is, after the initial recognition of the asset taken over, consequently not affected by any subsequent remeasurement of the asset.

## 15. Leasing

### Nordea as lessor

#### Finance leases

Nordea's leasing operations mainly comprise finance leases. A finance lease is reported as a receivable from the lessee in the balance sheet item "Loans to the public" at an amount equal to the net investment in the lease. The lease payment, excluding cost of services, is recorded as repayment of principal and interest income. The income allocation is based on a pattern reflecting a constant periodic return on the net investment outstanding in respect of the finance lease.

#### Operating leases

Assets subject to operating leases on the balance sheet are reported in accordance with the nature of the assets, in general as property and equipment. Leasing income is recognised as income on a straight-line basis over the lease term and classified as "Net interest income". The depreciation of the leased assets is calculated on the basis of Nordea's depreciation policy for similar assets and reported as "Depreciation, amortisation and impairment charges of tangible and intangible assets" in the income statement.

## G1

## Accounting policies

## Nordea as lessee

*Finance leases*

Finance leases are recognised as assets and liabilities on the balance sheet at the amount equal to the fair value, or if lower, the present value of the minimum lease payments of the leased assets at the inception of the lease. The assets are reported in accordance with the nature of the assets. Lease payments are apportioned between finance charge and reduction of the outstanding liability. The finance charge is allocated to periods during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. A finance lease also gives rise to a depreciation expense for the leased asset. The depreciation policy is consistent with that of the assets in own use. Impairment testing of leased assets is performed following the same principles as for similar owned assets.

*Operating leases*

Operating leases are not recognised on Nordea's balance sheet. For operating leases the lease payments are recognised as expenses in the income statement on a straight-line basis over the lease term unless another systematic way better reflects the time pattern of Nordea's benefit. The original lease terms normally range between 3 to 25 years.

Operating leasing is mainly related to office premises contracts and office equipment contracts normal to the business.

The central district properties in Finland, Norway and Sweden that Nordea has divested are leased back. The duration of the lease agreements was initially 3–25 years with renewal options. The lease agreements include no transfers of ownerships of the asset by the end of the lease term, nor any economic benefits from appreciation in value of the leased property. In addition, the lease term is not for the major part of the assets' economic life. These leases are thus classified as operating leases. The rental expense for these premises is recognised on the basis of the time-pattern of Nordea's economic benefit which differs from the straight-line basis and better resembles an ordinary rental arrangement.

*Embedded leases*

Agreements can contain a right to use an asset in return for a payment, or a series of payments, although the agreement is not in the legal form of a leasing contract. If applicable, these assets are separated from the contract and accounted for as leased assets

**16. Intangible assets**

Intangible assets are identifiable, non-monetary assets without physical substance. The assets are under Nordea's control, which means that Nordea has the power and rights to obtain the future economic benefits flowing from the underlying resource. The intangible assets in Nordea mainly consist of goodwill, IT-development/computer software and customer related intangible assets.

*Goodwill*

Goodwill represents the excess of the cost of an acquisition over the fair value of Nordea's share of net identifiable assets of the acquired group undertaking/associated undertaking at the date of acquisition. Goodwill on acquisition of group undertakings is included in "Intangible assets". Goodwill on acquisitions of associates is not recognised as a separate asset, but included in "Investments in associated undertakings". Goodwill is tested annually for impairment or more frequently if events or changes in circumstances indicate that it might be impaired. Good-

will is carried at cost less accumulated impairment losses. Impairment losses on goodwill cannot be reversed in subsequent periods. Goodwill related to associated undertakings is not tested for impairment separately, but included in the total carrying amount of the associated undertakings. The policies covering impairment testing of associated undertakings is disclosed in section 6 "Recognition of operating income and impairment".

*IT-development/Computer software*

Costs associated with maintaining computer software programs are expensed as incurred. Costs directly associated with major software development investments, with a useful life of three years or more and the ability to generate future economic benefits, are recognised as intangible assets. These costs include software development staff costs and overhead expenditures directly attributable to preparing the asset for use. Computer software includes also acquired software licenses not related to the function of a tangible asset.

Amortisation is calculated on a straight-line basis over the useful life of the software, generally a period of 3 to 10 years.

*Customer related intangible assets*

In business combinations a portion of the purchase price is normally allocated to a customer related intangible asset, if the asset is identifiable and under Nordea's control. An intangible asset is identifiable if it arises from contractual or legal rights, or could be separated from the entity and sold, transferred, licenced, rented or exchanged. The asset is amortised over its useful life, generally over 10 years.

*Impairment*

Goodwill is not amortised but tested for impairment annually irrespective of any indications of impairment. Impairment testing is also performed more frequently if required due to any indication of impairment. The impairment charge is calculated as the difference between the carrying amount and the recoverable amount.

At each balance sheet date, all intangible assets with definite useful lives are reviewed for indications of impairment. If such indications exist, an analysis is performed to assess whether the carrying amount of the intangible asset is fully recoverable.

The recoverable amount is the higher of fair value less costs to sell and the value in use of the asset or the cash-generating unit, which is defined as the smallest identifiable group of assets that generates largely independent cash flows in relation to the asset. For goodwill, the cash generating units are defined as the operating segments. The value in use is the present value of the cash flows expected to be realised from the asset or the cash-generating unit. The cash flows are assessed based on the asset or cash-generating unit in its current condition and discounted at a rate based on the long-term risk free interest rate plus a risk premium (post tax). If the recoverable amount is less than the carrying amount, an impairment loss is recognised. See Note G20 "Intangible assets" for more information on the impairment testing.

**17. Property and equipment**

Property and equipment includes own-used properties, leasehold improvements, IT equipment, furniture and other equipment. Items of property and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. The cost of an item of property and equipment comprise its purchase price, as well as any directly attributable costs of bringing the asset to the working condition for its in-

## G1

## Accounting policies

tended use. When parts of an item of property and equipment have different useful lives, they are accounted for as separate items.

Property and equipment is depreciated on a straight-line basis over the estimated useful life of the assets. The estimates of the useful life of different assets are reassessed on a yearly basis. Below follows the current estimates:

|                        |                                                                                                                                                                                                                                                                                                                  |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Buildings              | 30–75 years                                                                                                                                                                                                                                                                                                      |
| Equipment              | 3–5 years                                                                                                                                                                                                                                                                                                        |
| Leasehold improvements | Changes within buildings the shorter of 10 years and the remaining leasing term. New construction the shorter of the principles used for owned buildings and the remaining leasing term. Fixtures installed in leased properties are depreciated over the shorter of 10–20 years and the remaining leasing term. |

At each balance sheet date, Nordea assesses whether there is any indication that an item of property and equipment may be impaired. If any such indication exists, the recoverable amount of the asset is estimated and any impairment loss is recognised.

Impairment losses are reversed if the recoverable amount increases. The carrying amount is then increased to the recoverable amount, but cannot exceed the carrying amount that would have been determined had no impairment loss been recognised.

### 18. Investment property

Investment properties are primarily properties held to earn rent and/or capital appreciation. The majority of the properties in Nordea are attributable to Nordea Life & Pensions. Nordea applies the fair value model for subsequent measurement of investment properties. The best evidence of a fair value is normally given by quoted prices in an active market for similar property in the same location and condition. As these prices are rarely available discounted cash flow projection models based on reliable estimates of future cash flows are also used.

Net rental income, gains and losses as well as fair value adjustments are recognised directly in the income statement as “Net result from items at fair value”.

### 19. Liabilities to policyholders

Liabilities to policyholders include obligations according to insurance contracts and investment contracts with policyholders.

An insurance contract is defined as “a contract under which one party (the insurer) accepts significant insurance risks from another party (the policyholder) by agreeing to compensate the policyholder if a specified uncertain future event (the insured event) adversely affects the policyholder”.

Investment contracts are contracts with policyholders that have the legal form of insurance contracts but where the insurance risk transfer has been assessed to be insignificant.

The insurance risk is generally calculated as the risk sum payable as a percentage of the reserve behind the contract at the beginning of the contract period. It is Nordea’s assessment that a risk percentage of five or higher is a significant insurance risk.

The contracts can be divided into the following classes:

- Insurance contracts:
  - Traditional life insurance contracts with and without discretionary participation feature
  - Unit-Linked contracts with significant insurance risk
  - Health and personal accident
- Investment contracts:
  - Investment contracts with discretionary participation feature
  - Investment contracts without discretionary participation feature

### Insurance contracts

The measurement principles under local GAAP have been maintained consequently resulting in a non-uniform accounting policies method on consolidation.

Traditional life insurance provisions represent consolidated provisions for all the companies in Nordea Life & Pensions, including companies in Sweden, Norway, Finland, Denmark, Poland, Luxembourg, Isle of Man, Estonia and Lithuania.

In Denmark, Sweden and Finland the measurements are prepared by calculating the present value of future benefits, to which the policyholders are entitled. The calculation includes assumptions about market consistent discounting rates as well as expenses and life risk. The discount rate is based on the liabilities’ current term. In Denmark, the provision, in addition, includes bonus potential on paid policies and on future premiums.

In Norway the provisions are mainly calculated on the basis of a prospective method. The discount rate used is equal to the original tariff rates and assumptions about expenses and risk.

The accounting policy for each company is based on the local structure of the business and is closely related to solvency rules and national regulation concerning profit sharing and other requirements about collective bonus potential.

Unit-Linked contracts represent life insurance provisions relating to Unit-Linked policies written either with or without an investment guarantee. Unit-Linked contracts classified as insurance contracts include the same insurance risk elements as traditional insurance contracts. These contracts are mainly recognised and measured at fair value on the basis of:

- the fair value of the assets linked to the Unit-Linked contracts, and
- the estimated present value of the insurance risk which is calculated in the same way as traditional insurance contracts considering the impact on every risk element included in the cash flows.

Health and personal accident provisions include premium reserves and claims outstanding. This item is recognised and measured on deferred basis in the same way as general insurance contracts.

### Investment contracts

Investment contracts are contracts with policyholders, which do not transfer sufficient insurance risk to be classified as insurance contracts.

However, investment contracts with discretionary participation features are, in line with IFRS 4, accounted for as insurance contracts using local accounting principles. Nordea Life & Pension has only a small number of these contracts.

Investment contracts without discretionary participation features are recognised and measured at fair value in accordance with IAS 39 “Financial Instruments: Recognition and Measurement”, equal to fair value of the assets linked to these

## G1

## Accounting policies

contracts. These assets are classified into the category Designated at fair value through profit or loss to eliminate or significantly reduce an accounting mismatch.

#### Discretionary participating features (DPF)

Some traditional life insurance contracts and investment contracts include a contractual right for the policyholder to receive significant benefits in addition to guaranteed benefits. Nordea has discretion to pay these additional benefits as bonus on risk result, expense result and interest rate. These DPF-features (Collective bonus potential) are classified as liabilities on the balance sheet.

Collective bonus potential includes amounts allocated but not attributed to the policyholders. In Finland, collective bonus potential includes the policyholder's part of the total unrealised investment gains and bonus potential on paid policies and future premiums (the difference between retrospective and market consistent prospective measurement principles of the insurance contracts). In Norway, collective bonus potential includes the policyholder's part of both the total unrealised investment gains and additional reserves. In Sweden and Denmark, the main valuation principle is fair value (insurance contracts). The policyholder's part of both realised and unrealised investment gains is therefore included on the balance sheet representing either "Change in technical provisions, Life" and/or "Change in collective bonus potentials, Life", depending on whether the investment result is allocated or not. Both the mentioned lines are included on the balance sheet line "Liabilities to policyholders".

#### Liability adequacy test

The adequacy of insurance provisions is assessed at each reporting date to ensure that the carrying amount of the liabilities is higher than the best estimate of future cash flows discounted with current interest rates. If needed, additional provisions are accounted for and recognised in the income statement.

#### 20. Taxes

The item "Income tax expense" in the income statement comprises current- and deferred income tax. The income tax expense is recognised in the income statement, except to the extent the tax effect relates to items recognised in other comprehensive income or directly in equity, in which case the tax effect is recognised in other comprehensive income or in equity respectively.

Current tax is the expected tax expense on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities are recognised, using the balance sheet method, for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax assets are recognised for the carry forward of unused tax losses and unused tax credits. Deferred tax is not recognised for temporary differences arising on initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit, nor for differences relating to investments in group undertakings and associated undertakings to the extent that it is probable that they will not reverse in the foreseeable future. In addition, deferred tax is not recognised for taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based

on the laws that have been enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are not discounted. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary differences, tax losses carry forward and unused tax credits can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Current tax assets and current tax liabilities are offset when the legal right to offset exists and Nordea intends to either settle the tax asset and the tax liability net or to recover the asset and settle the liability simultaneously. Deferred tax assets and deferred tax liabilities are generally offset if there is a legally enforceable right to offset current tax assets and current tax liabilities.

#### 21. Earnings per share

Basic earnings per share is calculated by dividing the profit or loss attributable to shareholders of Nordea Bank AB by the weighted average number of ordinary shares outstanding during the period.

Diluted earnings per share is determined by adjusting the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, consisting of rights to performance shares in the long term incentive programmes.

The potential ordinary shares are only considered to be dilutive, on the balance sheet date, if all performance conditions are fulfilled and if a conversion to ordinary shares would decrease earnings per share. The rights are furthermore considered dilutive only when the exercise price, with the addition of future services, is lower than the period's average share price.

#### 22. Employee benefits

All forms of consideration given by Nordea to its employees as compensation for services performed are employee benefits. Short-term benefits are to be settled within twelve months after the reporting period when the services have been performed. Post-employment benefits are benefits payable after the termination of the employment. Post-employment benefits in Nordea consist only of pensions. Termination benefits normally arise if an employment is terminated before the normal retirement date, or if an employee accepts an offer of voluntary redundancy.

##### Short-term benefits

Short term benefits consist mainly of fixed and variable salary. Both fixed and variable salaries are expensed in the period when the employees have performed services to Nordea. Nordea has also issued share-based payment programmes, which are further described in section 25 "Share-based payment".

More information can be found in Note G7 "Staff costs".

##### Post-employment benefits

###### *Pension plans*

The companies within Nordea have various pension plans, consisting of both defined benefit plans and defined contribution plans, reflecting national practices and conditions in the countries where Nordea operates. Defined benefit plans are predominantly sponsored in Sweden, Norway and Finland. The major defined benefit plans are funded schemes covered by assets in pension funds/foundations. If the fair value of plan assets, associated with a specific pension plan, is lower than the gross present value of the defined benefit obligation, the net amount is, after adjusting for unrecog-

## G1

## Accounting policies

nised actuarial gains/losses, recognised as a liability (defined benefit obligation). If not, the net amount is recognised as an asset (defined benefit asset). Non-funded pension plans are recognised as defined benefit obligations.

Most pensions in Denmark, but also plans in other countries, are based on defined contribution arrangements that hold no pension liability for Nordea. Nordea also contributes to public pension systems.

#### *Pension costs*

Obligations for defined contribution pension plans are recognised as an expense as the employee renders services to the entity and the contribution payable in exchange for that service becomes due. Nordea's net obligation for defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned for their service in the current and prior periods. That benefit is discounted to determine its present value. Any unrecognised past service cost and the fair value of any plan assets are deducted and unrecognised actuarial gains/losses adjusted for. Actuarial calculations, performed annually, are applied to assess the present value of defined benefit obligations and related costs, based on several actuarial and financial assumptions (as disclosed in Note G33 "Retirement benefit obligations").

When establishing the present value of the obligation and the fair value of any plan assets, actuarial gains and losses may arise as a result of changes in actuarial assumptions and experience effects (actual outcome compared to assumptions). The actuarial gains and losses are not recognised immediately in the income statement. Rather, only when the net cumulative unrecognised actuarial gain or loss exceeds a "corridor" equal to 10 percent of the greater of either the present value of the defined benefit obligation or the fair value of the plan assets, the excess is recognised in the income statement over the expected average remaining service period of the employees participating in the plan. Otherwise, actuarial gains and losses are not recognised.

When the calculation results in a benefit to the Nordea entity, the recognised asset is limited to the net total of any unrecognised actuarial losses, unrecognised past service costs and the present value of any future refunds from the plan or reductions in future contributions to the plan.

Social security contribution is calculated and accounted for based on the net recognised surplus or deficit by plan and is included in the "Retirement benefit obligation" or in the "Retirement benefit asset".

#### *Discount rate in Defined Benefit Plans*

The discount rate is determined by reference to high quality corporate bonds, where a deep enough market for such bonds exists. Covered bonds are in this context considered to be corporate bonds. In countries where no such market exists the discount rate is determined by reference to government bond yields. In Sweden, Norway and Denmark the discount rate is determined with reference to covered bonds and in Finland with reference to corporate bonds.

#### *Termination benefits*

As mentioned above termination benefits normally arise if an employment is terminated before the normal retirement date, or if an employee accepts an offer of voluntary redundancy. Termination benefits do not arise if the employees have to continue performing services and the termination benefits can be considered to be normal compensation for those services.

Termination benefits are expensed when Nordea has an obligation to make the payment. An obligation arises when there is a formal plan committed to on the appropriate organisational level and when Nordea is without realistic possibility of withdrawal, which normally occurs when the plan has been communicated to the group affected or to their representatives.

Termination benefits can include both short-term benefits, for instance a number of months' salary, and post-employment benefits, normally in the form of early retirement. Short-term benefits are classified as "Salaries and remuneration" and post-employment benefits as "Pension costs" in Note G7 "Staff costs".

### **23. Equity**

#### **Non-controlling interests**

Non-controlling interests comprise the portion of net assets of group undertakings not owned directly or indirectly by Nordea Bank AB (publ).

For each business combination, Nordea measures the non-controlling interests in the acquiree either at fair value or at their proportionate share of the acquiree's identifiable net assets.

#### **Share premium reserve**

The share premium reserve consists of the difference between the subscription price and the quota value of the shares in Nordea's rights issue. Transaction costs in connection to the rights issue have been deducted.

#### **Other reserves**

Other reserves comprise income and expenses, net after tax effects, which are reported in equity through other comprehensive income. These reserves include fair value reserves for cash flow hedges and financial assets classified into the category Available for sale as well as a reserve for translation differences.

#### **Retained earnings**

Apart from undistributed profits from previous years, retained earnings include the equity portion of untaxed reserves. Untaxed reserves according to national rules are accounted for as equity net of deferred tax at prevailing tax rates in the respective country.

In addition, Nordea's share of the earnings in associated undertakings, after the acquisition date, that have not been distributed is included in retained earnings.

#### **Treasury shares**

Treasury shares are not accounted for as assets. Acquisitions of treasury shares are classified as deductions of "Retained earnings" on the balance sheet. Also own shares in trading portfolios are classified as treasury shares. Divested treasury shares are recognised as an increase of "Retained earnings".

Contracts on Nordea shares that can be settled net in cash are either financial assets or financial liabilities.

### **24. Financial guarantee contracts and credit commitments**

Upon initial recognition, premiums received in issued financial guarantee contracts and credit commitments are recognised as prepaid income on the balance sheet. The guarantees and irrevocable credit commitments are subsequently measured, and recognised as a provision on the balance sheet, at the higher of either the received fee less amortisation, or an amount calculated as the discounted best estimate of the expenditure required to settle the present obligation. Changes

## G1

## Accounting policies

in provisions are recognised in the income statement in the item "Net loan losses".

Premiums received for financial guarantees are, as stated in section 6 "Recognition of operating income and impairment", amortised over the guarantee period and recognised as "Fee and commission income" in the income statement. Premiums received on credit commitments are generally amortised over the loan commitment period. The contractual amounts are recognised off-balance sheet, financial guarantees in the item "Contingent liabilities" and irrevocable credit commitments in the item "Credit commitments".

## 25. Share-based payment

### Equity-settled programmes

Nordea has annually issued Long Term Incentive Programmes from 2007 through 2012. Employees participating in these programmes are granted share-based equity-settled rights, i.e. rights to receive shares for free or to acquire shares in Nordea at a significant discount compared to the share price at grant date. The value of such rights is expensed. The expense is based on the estimated fair value of each right at grant date. The total fair value of these rights is determined based on the group's estimate of the number of rights that will eventually vest, which is reassessed at each reporting date. The fair value is expensed on a straight-line basis over the vesting period. The vesting period is the period that the employees have to remain in service in Nordea in order for their rights to vest. Market performance conditions in D-rights/Performance Share II are reflected as a probability adjustment to the initial estimate of fair value at grant date. There is no adjustment (true-up) for differences between estimated and actual vesting due to market conditions.

Social security costs are also allocated over the vesting period, in accordance with statement UFR 7 issued by the Swedish Financial Reporting Board: "IFRS 2 and social security contributions for listed enterprises". The provision for social security costs is reassessed on each reporting date to ensure that the provision is based on the rights' fair value at the reporting date.

For more information see Note G7 "Staff costs".

### Cash-settled programmes

Nordea has to defer payment of variable salaries under Nordic FSA's regulations and general guidelines. The deferred amounts are to some extent indexed using Nordea's TSR (Total Shareholders' Return) and these "programmes" are cash-settled share-based programmes. These programmes are fully vested when the payments of variable salaries are initially deferred and the fair value of the obligation is remeasured on a continuous basis. The remeasurements are, together with the related social charges, recognised in the income statement in the item "Net result from items at fair value".

For more information see Note G7 "Staff costs".

## 26. Related party transactions

Nordea defines related parties as:

- Shareholders with significant influence
- Group undertakings
- Associated undertakings
- Key management personnel
- Other related parties

All transactions with related parties are made on an arm's length basis.

### Shareholders with significant influence

Shareholders with significant influence are shareholders that have the power to participate in the financial and operating decisions of Nordea but do not control those policies.

### Group undertakings

For the definition of group undertakings see section 5 "Principles of consolidation". Further information on the undertakings included in the Nordea Group is found in Note P21 "Investments in group undertakings".

Group internal transactions between legal entities are performed according to arm's length principles in conformity with OECD requirements on transfer pricing. These transactions are eliminated in the consolidated accounts.

### Associated undertakings

For the definition of Associated undertakings see section 5 "Principles of consolidation".

Further information on the associated undertakings included in the Nordea Group is found in Note G19 "Investments in associated undertakings".

### Key management personnel

Key management personnel includes the following positions:

- The Board of Directors
- The Chief Executive Officer (CEO)
- The Group Executive Management (GEM)

For information about compensation, pensions and other transactions with key management personnel, see Note G7 "Staff costs".

### Other related parties

Other related parties comprise close family members to individuals in key management personnel. Other related parties also include companies significantly influenced by key management personnel in Nordea Group as well as companies significantly influenced by close family members to these key management personnel. Other related parties also include Nordea's pension foundations.

Information concerning transactions between Nordea and other related parties is found in Note G46 "Related-party transactions".

## 27. Exchange rates

| EUR 1 = SEK                      | Jan-Dec<br>2012 | Jan-Dec<br>2011 |
|----------------------------------|-----------------|-----------------|
| Income statement (average)       | 8,7052          | 9,0293          |
| Balance sheet (at end of period) | 8,5820          | 8,9120          |
| <b>EUR 1 = DKK</b>               |                 |                 |
| Income statement (average)       | 7,4438          | 7,4506          |
| Balance sheet (at end of period) | 7,4610          | 7,4342          |
| <b>EUR 1 = NOK</b>               |                 |                 |
| Income statement (average)       | 7,4758          | 7,7946          |
| Balance sheet (at end of period) | 7,3483          | 7,7540          |
| <b>EUR 1 = PLN</b>               |                 |                 |
| Income statement (average)       | 4,1836          | 4,1203          |
| Balance sheet (at end of period) | 4,0740          | 4,4580          |
| <b>EUR 1 = RUB</b>               |                 |                 |
| Income statement (average)       | 39,9253         | 40,8809         |
| Balance sheet (at end of period) | 40,3295         | 41,7650         |

## G2

## Segment reporting

## Operating segments

## Measurement of Operating segments' performance

The measurement principles and allocation between operating segments follow the information reported to the Chief Operating Decision Maker (CODM), as required by IFRS 8. In Nordea the CODM has been defined as Group Executive Management. The main differences compared to the business area reporting are that the information to CODM is prepared using current years' plan rates and to that different allocations principles between operating segments have been applied. Internally developed and bought software have previously been expensed as incurred in the operating segments but capitalised, as required by IAS 38, in the group's balance sheet. As from 2012 internally developed and bought software are capitalised directly in the operating segments. Comparative information has been restated accordingly.

## Basis of segmentation

Compared with the 2011 Annual Report there have been no changes in the basis of segmentation. Nordea's organisation is developed around the three main business areas Retail Banking, Wholesale Banking and Wealth Management and around the business unit Group Operations & Other Lines of Business. The separate divisions within these main business areas and business unit have been identified as operating segments. Also Group Corporate Centre has been identified as an operating segment. Financial results are presented for the two main business areas Retail Banking and Wholesale Banking, with further breakdown on operating segments, and for the operating segment Group Corporate Centre. Other operating

segments below the quantitative thresholds in IFRS 8 are included in Other operating segments. Group functions and eliminations as well as the result that is not fully allocated to any of the operating segments, are shown separately as reconciling items.

## Reportable Operating segments

Retail Banking conducts a full service banking operation and offers a wide range of products. It is Nordea's largest customer area and serves household customers and corporate customers in the Nordic markets (Retail Banking Nordic) as well as in Poland and the Baltic countries (Retail Banking Poland & Baltic countries). Wholesale Banking provides banking and other financial solutions to large Nordic and international corporate, institutional and public companies. The division Corporate & Institutional Banking is a customer oriented organisation serving the largest globally operating corporates. This division is also responsible for Nordea's customers within the financial sector, and offers single products such as funds and equity products as well as consulting services within asset allocation and fund sales. The division Shipping, Oil Services & International is responsible for Nordea's customers within the shipping, offshore and oil services industries and provides tailor made solutions and syndicated loan transactions. Nordea Bank Russia offers a full range of bank services to corporate and private customers in Russia. Capital Markets unallocated includes the result in Capital Markets which is not allocated to the main business areas. Group Corporate Centre's main objective is to manage the Group's funding and to support the management and control of the Nordea Group. The main income in Group Corporate Centre originates from Group Treasury.

1) Including the main business area Wealth Management and the business unit Group Operations & Other Lines of Business.

2) IFRS 8 requires information on revenues from transactions between operating segments. Nordea has defined intersegment revenues as internal interest income and expense related to the funding of the operating segments by the internal bank in Group Corporate Centre.

3) The volumes are only disclosed separately for operating segments if separately reported to the Chief Operating Decision Maker.

1) Pension cost for executives as defined in footnote 3 above, amounts to EUR 8m (EUR 8m) and pension obligations to EUR 57m (EUR 56m).

2) Excluding social security contributions. Including social security contributions EUR 66m (EUR 124m).

### Additional disclosures on remuneration under Nordic FSAs' regulations and general guidelines

The qualitative disclosures under these regulations can be found in the separate section on remuneration in the Board of Directors' Report, while the quantitative disclosures will be published in a separate report on Nordea's homepage ([www.nordea.com](http://www.nordea.com)) one week before the Annual General Meeting on 14 March 2013.

## Remuneration to the Board of Directors, CEO and Group Executive Management

### Board remuneration

The remuneration for the Board was decided to be unchanged by the Annual General Meeting (AGM) 2012. The remuneration was EUR 252,000 for the Chairman, EUR 97,650 for the Vice Chairman and EUR 75,600 for other members and the annual remuneration for committee work was EUR 16,600 for the chairman of the committee and EUR 12,900 for other members. Board members employed by Nordea do not receive separate compensation for their Board membership. There are no commitments for severance pay, pension or other compensation to the members of the Board, except for pension commitments to one Board member previously employed by Nordea.

### Salary and benefits

#### CEO

The fixed salary, variable salary part and contract terms for the CEO are proposed by the Board Remuneration Committee (BRC) and approved by the Board. Variable salary part 2012, which is based on agreed, specific targets, can amount to a maximum of 35% of the fixed salary.

The fixed salary was increased with 2.5% to SEK 10,762,500 (EUR 1,236,330) as from 1 January 2012, which was announced at the AGM 2012. For 2012 the CEO has earned variable salary part which, together with the fixed salary, is in accordance with Nordea's remuneration guidelines approved by the AGM 2012. The CEO takes part of the Long Term Incentive Programmes as described in the separate section on remuneration in the Board of Directors' report and below. Benefits for the CEO include primarily car and housing.

### Group Executive Management (GEM)

The BRC prepares alterations in salary levels and outcome of variable salary part as well as other changes in the compensation package for members of GEM, for resolution by the Board. Variable salary part 2012, which is based on agreed, specific targets, can be a maximum of 35% of the fixed salary.

As for the CEO, GEM members take part of the Long Term Incentive Programmes. Benefits include primarily car and/or housing.

| <b>Total</b>                                     | <b>-7,476,869</b>                       | <b>-6,866,055</b> | <b>-1,943,610</b>    | <b>-1,392,874</b> | <b>-1,447,765</b>                                 | <b>-652,274</b> | <b>-322,444</b> | <b>-245,191</b> | <b>-11,190,688</b> | <b>-9,156,394</b> |

1) The Board fee consists of a fixed annual fee and a fixed annual fee for committee work. These are accounted for in SEK and translated into EUR based on the average exchange rate each year.

2) CEO and members of GEM have a conditional right to maximum 61,158 matching shares, 122,316 performance shares I and 61,158 performance shares II in LTIP 2010, 114,867 matching shares, 229,735 performance shares I and 114,867 performance shares II in LTIP 2011 and 157,978 matching shares, 473,934 performance shares I and 157,978 performance shares II in LTIP 2012. The disclosed expense is calculated in accordance with IFRS 2 "Share-based Payment". LTIP costs increased mainly as LTIP 2011 and LTIP 2012 allows CEO and members of GEM to invest 15% of their salaries in saving shares instead of 10% in earlier programmes. The LTIP expense in 2011 was also on a lower level due to a shift from a two year vesting period until LTIP 2009 to a three year vesting period as from LTIP 2010. See below for more information on the valuation of the Long Term Incentive Programmes.

3) New Chairman of the Board as from the AGM 2011.

4) New Vice Chairman of the Board as from the AGM 2011.

5) Resigned as Chairman of the Board as from the AGM 2011.

6) Employee representatives excluded.

7) Resigned as Board member in December 2011.

8) New member of the Board as from the AGM 2012.

9) The CEO's salary is paid in SEK and converted to EUR based on the average exchange rate each year. The increase in fixed salary 2012 is in accordance with the salary increase communicated at the AGM 2012 of 2.5% and the remaining increase is due to the exchange rate effect. Benefits are included at taxable values after salary deduction. In 2011 Nordea bought an apartment to be used by the CEO as from April 2012. The new housing arrangement has had an increasing effect on the disclosed housing benefit, defined as the taxable benefit used when calculating social charges. The taxable housing benefit for the CEO is largely unchanged.

10) GEM members are included for the period they have been appointed. Two new GEM members were appointed, and one member retired, in May 2011. The increase in compensation is mainly due to the full year impact of one additional GEM member, a general salary increase and exchange rate effects. Benefits are included at taxable values.

## Pension

### CEO

The retirement age for the CEO is 60 and his pension amounts to 50% of the pensionable income for life. Pensionable income is defined as the fixed salary. The maximum pensionable income is 200 Swedish Income Base Amounts. The pension obligation is fully funded, meaning that it is covered in full by plan assets. At retirement the pension risk is transferred to the CEO. Pension payments are to be made in accordance with local legislations and pension insurance conditions.

### Group Executive Management (GEM)

The pension agreements vary due to local country practices.

GEM members are entitled to retire with pension at the age of 60, 62 or 70. Pension agreements are Defined Benefit Plans (DBP), Defined Contribution Plans (DCP) or a combination of such plans.

Two members have DBPs not based on collective agreements. One of these DBPs provides retirement pension amounting to 50% of pensionable income for life from age 62, including national pension benefits. The second DBP not based on a collective agreement provides a retirement pension from age 60, including both national pension benefits and previously earned pension. The retirement pension benefit in this plan decreased from 70% to 66% of pensionable income for future earnings as from 1 January 2011. Two members have DBPs in accordance with the Swedish collective agreement and complementing DCPs. Three members have DCPs only. Fixed salary is pensionable income for all GEM-members. Variable salary part is included for two members.

| <b>Total</b>                                  | <b>-2,952,432</b>         | <b>36,023,404</b>               | <b>-3,699,230</b>         | <b>34,775,213</b>               |

1) Employee representatives excluded. The pension obligation is in accordance with the collective pension agreement BTP and earned during the employment period.

2) The main reason behind the decrease in pension cost is the increase of the maximum pensionable income in 2011, from 190 Swedish Income Base Amounts to 200 Swedish Income Base Amounts, which gave rise to a Past service cost of EUR 838,042 in 2011. The Past service cost constituted the retroactive adjustment of the pension earned in earlier periods following the increase in the maximum pensionable income. New pension rights earned in 2012, the discount factor and exchange rate effects have had an increasing impact on the pension obligation, while changes in actuarial assumptions have had a decreasing impact.

3) Members of GEM included for the period they have been appointed. The pension obligation is the obligation towards the members of GEM as of 31 December. The increase in the pension obligation is due to new pension rights earned and exchange rate effects, to some extent offset by changes in actuarial assumptions.

4) Pension costs are related to pension premiums paid in DCP agreements and pension rights earned during the year in DBP agreements (Service cost, Past service cost and Curtailments and settlements as defined in IAS 19). Of the total pension cost EUR 1,094,953 (1,029,988) relates to DCP agreements.

5) Pension obligations calculated in accordance with IAS 19. These obligations are dependent on changes in actuarial assumptions and inter annual variations can therefore be significant. IAS 19 includes an assumption about future increases in salary, which leads to that the pension obligations disclosed are the earned pension rights calculated using the expected salary levels at retirement. The pension plans are funded, meaning that these obligations are backed with plan assets with fair value generally on a similar level as the obligations.

6) The pension obligation for Vesa Vainio and Thorleif Krarup is mainly due to pension rights earned in, and funded by, banks forming Nordea.

**Notice period and severance pay**

In accordance with their employment contracts CEO and three GEM members have a notice period of 12 months and a severance pay equal to 12 months' salary to be reduced by the salary the executive receives as a result of any other employment during these 12 months. Four GEM members are entitled to 6 months' salary during the notice period, and with regard to severance pay 18 months' salary to be reduced by the salary they receive as a result of any other employment during these 18 months.

**Loans to key management personnel**

Loans to key management personnel, as defined in Note G1 section 26, amounts to EUR 6m (EUR 4m). Interest income on these loans amounts to EUR 0m (EUR 0m).

For key management personnel who are employed by Nordea the same credit terms apply as for other employees, except for key management personnel in Denmark whose loans are granted on terms based on market conditions. In Norway the employee interest rate for loans is 100 basis points lower than the best corresponding interest rate for external customers, with a cap on the loan amount of 3 times salary grade 55 plus NOK 100,000. In Finland the employee interest rate for loans corresponds to Nordea's funding cost with a margin of 10 basis points up to EUR 400,000, and 30 basis points on the part that exceeds EUR 400,000. In Sweden the employee interest rate on fixed- and variable interest rate loans is 215 basis points lower than the corresponding interest rate for external customers (with a lower limit of 50 basis points for variable interest rate loans and 150 basis points for fixed interest rate loans). There is currently a cap of 57 Swedish price base amounts both on fixed- and variable interest rate loans. Interest on loans above the defined caps is set on market terms. Loans to family members of key management personnel are granted on normal market terms, as well as loans to key management personnel who are not employed by Nordea.

1) Granted rights in 2012 in LTIP 2011 are compensation for dividend on the underlying Nordea share during 2012.

2) Weighted average share price during the exercise period amounts to EUR 6.88 (EUR 7.45).

Participation in the Long Term Incentive Programmes (LTIPs) requires that the participants take direct ownership by investing in Nordea shares.

1) The new rights issue, which was resolved on an extra ordinary general meeting on 12 March 2009, triggered recalculations of some of the parameters in LTIP 2008, in accordance with the agreement of the programme. The recalculation was performed with the purpose of putting the participants in an equivalent financial position as the one being at hand immediately prior to the new rights issue.

## Staff costs, cont.

## Conditions and requirements

For each ordinary share the participants lock in to the LTIPs, they are granted a conditional A-right/Matching Share to acquire or receive ordinary shares based on continued employment, with certain exemptions, and the conditional B-D-rights/Performance Share I and II to acquire or receive additional ordinary shares also based on fulfilment of certain performance conditions. The performance conditions for B- and C-rights and for Performance Share I comprise a target growth in risk adjusted profit per share (RAPPS) or a target in risk-adjusted return on capital at risk (RAROCAR). Should the reported earnings per share (EPS) be lower than a predetermined level the participants are not entitled to exercise any

B- or C-rights or Performance Share I. The performance conditions for D-rights and Performance Share II are market related and comprise growth in total shareholder return (TSR) in comparison with a peer group's TSR or a target in RAROCAR and in P/B-ranking compared to a peer group.

When the performance conditions are not fulfilled in full, the rights that are no longer exercisable are shown as forfeited in the previous tables, together with shares forfeited due to participants leaving the Nordea Group.

The exercise price, where applicable, for the ordinary shares is adjusted for dividends, however never adjusted below a predetermined price. Furthermore the profit for each right is capped.

1) RAPPS for the financial year 2008 and 2009 used for LTIP 2008 (C-rights) and LTIP 2009 (B- and C-rights), EPS knock out in LTIP 2008 (C-rights) and LTIP 2009 (B- and C-rights) and the cap in LTIP 2009 and LTIP 2008 were in 2009 adjusted due to the financial effects of the new rights issue in 2009.

## Fair value calculations

The fair value is measured through the use of generally accepted valuation models with the following input factors:

|                                 | LTIP 2012      | LTIP 2011      | LTIP 2010      | LTIP 2009 | LTIP 2008 |
|---------------------------------|----------------|----------------|----------------|-----------|-----------|
| Weighted average share price    | EUR 6.70       | EUR 8.39       | EUR 6.88       | EUR 5.79  | EUR 11.08 |
| Right life                      | 3.0 years      | 3.0 years      | 3.0 years      | 2.5 years | 2.5 years |
| Deduction of expected dividends | No             | No             | No             | Yes       | Yes       |
| Risk free rate                  | Not applicable | Not applicable | Not applicable | 1.84%     | 3.83%     |
| Expected volatility             | Not applicable | Not applicable | Not applicable | 29%       | 21%       |

Expected volatility is based on historical values. As the exercise price (zero for LTIP 2010, LTIP 2011 and LTIP 2012) is significantly below the share price at grant date, the value has a limited sensitivity to expected volatility and risk-free interest. The fair value calculations are also based on estimated early exercise behaviour during the programmes' exercise windows, however not applicable for LTIP 2010, LTIP 2011 and LTIP 2012.

The value of the D-rights/Performance Share II are based on market related conditions and fulfilment of the TSR,

RAROCAR and P/B targets have been taken into consideration when calculating the rights' fair value at grant date.

When calculating the impact from the market conditions it has been assumed that all possible outcomes have equal possibilities. Also the caps in each programme have been taken into consideration when calculating the rights' fair value at grant. The adjustment to fair value is approximately 2–3% of the weighted average share price.

Expenses for equity-settled share-based payment programmes<sup>1</sup>

| EURm                                     | LTIP 2012 | LTIP 2011 | LTIP 2010 | LTIP 2009 | LTIP 2008 |
|------------------------------------------|-----------|-----------|-----------|-----------|-----------|
| Expected expense for the whole programme | –19       | –19       | –12       | –11       | –10       |
| Maximum expense for the whole programme  | –32       | –26       | –20       | –11       | –10       |
| Total expense during 2012                | –4        | –6        | –2        | —         | —         |
| Total expense during 2011                | —         | –3        | –4        | –2        | —         |

1) All amounts excluding social security contribution.

When calculating the expected expense an expected annual employee turnover of 5% has been used in LTIP 2010, LTIP 2011 and LTIP 2012. The expected expense is recognised over the vesting period of 36 months (LTIP 2010, LTIP 2011, LTIP 2012) and 24 months (LTIP 2009 and 2008).

**Cash-settled share-based payment transactions**

Nordea operates share-linked deferrals on parts of variable compensation for certain employee categories, indexed with Nordea Total Shareholder Returns (TSR) and either vesting after three years or vesting in equal instalments over a three to five year period. Since 2011 Nordea also operates TSR-linked retention on part of variable compensation for certain employee categories. The below table only includes deferred amounts indexed with Nordea TSR. Nordea also operates deferrals not being TSR-linked, which are not included in the table below. Further information regarding all deferred amounts can be found in the separate report on remuneration published on Nordea's homepage ([www.nordea.com](http://www.nordea.com)).

| EURm                                                               | 2012      | 2011      |
|--------------------------------------------------------------------|-----------|-----------|
| Deferred TSR-linked compensation at beginning of the year          | 10        | 13        |
| Accrued deferred/retained TSR-linked compensation during the year  | 11        | 5         |
| TSR indexation during the year                                     | 4         | -3        |

## G15

### Financial instruments pledged as collateral

#### Financial instruments pledged as collateral

In repurchase transactions and in securities lending transactions, non-cash assets are transferred as collateral. When the counterpart receiving the collateral has the right to sell or repledge the assets, the assets are reclassified on the balance sheet to the item Financial instruments pledged as collateral.

## Fair value changes of the hedged items in portfolio hedge of interest rate risk

| EURm                                 | 31 Dec | 31 Dec |
|--------------------------------------|--------|--------|
| Assets                               | 2012   | 2011   |
| Carrying amount at beginning of year | -215   | 1,127  |
| Changes during the year              |        |        |
| Revaluation of hedged items          | -506   | -1,343 |
| Translation differences              | 10     | 1      |
| Carrying amount at end of year       | -711   | -215   |
| Liabilities                          |        |        |
| Carrying amount at beginning of year | 1,274  | 898    |
| Changes during the year              |        |        |
| Revaluation of hedged items          | 625    | 366    |
| Translation differences              | 41     | 10     |
| Carrying amount at end of year       | 1,940  | 1,274  |

The carrying amount at end of year represents accumulated changes in the fair value for those repricing time periods in which the hedged item is an asset respectively a liability. When the hedged item is an asset, the change in the fair value of the hedged item is presented within assets and when the hedged item is a liability, the change is presented as a liability.

The total amount is expected to be recovered after more than 1 year.

#### Impairment test

A cash generating unit, defined as the operating segment, is the basis for the goodwill impairment test.

The impairment test is performed for each cash generating unit by comparing the carrying amount of the net assets, including goodwill, with the recoverable amount. The recoverable amount is the value in use and is estimated based on discounted cash flows. Due to the long-term nature of the investments, cash flow is expected to continue indefinitely.

Cash flows in the near future (between 3–5 years) are based on financial forecasts, derived from forecasted margins, volumes, sales and cost development. These input variables are based on historical data adjusted to reflect Nordea's assumptions about the future. Cash flows for the period beyond the forecasting period are based on estimated sector growth rates. For impairment testing, a growth rate of 2.5% (4.0%) has been used for all Nordic cash generating units. For cash generating units in Poland and Russia, 3.0% (4.0%) and 4.5% (4.0%) have been used. Growth rates

are based on historical data, updated to reflect the current situation.

Cash flows include normalised loan losses.

The derived cash flows are discounted at a rate based on the market's long-term risk-free rate of interest and yield requirements. The post-tax discount rate used for the impairment test 2012 is 8.5% (9.0%), which equals a pre-tax rate of 11.3% (11.9%). For operations in Poland, an additional risk premium of 150 basis points has been applied and for Russia an additional risk premium of 225 basis points has been applied.

The impairment tests conducted in 2012 did not indicate any need for goodwill impairment. See Note G1 section 4 for more information.

An increase in the discount rate of 1 percentage point or a reduction in the future growth rate of 1 percentage points are considered to be reasonably possible changes in key assumptions. Such a change would not result in an impairment in any of the cash generating units.

The total amount is expected to be settled after more than 1 year.

## G22

## Leasing

**Nordea as a lessor****Finance leases**

Nordea owns assets leased to customers under finance lease agreements. Finance lease agreements are reported as receivables from the lessee included in "Loans to the public" (see Note G13) at an amount equal to the net investment in the lease. The leased assets mainly comprise vehicles, machinery and other equipment.

Reconciliation of gross investments and present value of future minimum lease payments:

| EURm                                                                      | 31 Dec<br>2012 | 31 Dec<br>2011 |

1) Together with fair value adjustments included in Net result from items at fair value.

The method applied when calculating fair value is a rate of return calculation, based on internal models. As a supplement to these values, appraisals were obtained from independent external valuers for parts of the investment property.

Approximately 80% of the investment properties are valued using internal models based on a rate of return calculation. For the remaining 20% of the investment properties, appraisals were obtained from independent external valuers.

Liabilities to policyholders are obligations related to insurance contracts. These contracts are divided into contracts containing insurance risk and contracts without insurance risk. The latter are pure investments contracts.

Insurance contracts consists of Life insurance provisions and other insurance related items.

Life insurance contracts are measured and recognised in accordance with IFRS 4, i.e. the measurement and recognition principle under previous GAAP has been maintained consequently resulting in non-uniform accounting policies method on consolidation. Each market represented by Nordic and European entities measure and recognises insurance contracts using local accounting policies.

Provisions for restructuring costs amounts to EUR 109m and covers termination benefit (EUR 99m) and other provisions mainly related to redundant premises (EUR 10m). The restructuring activities have mainly been launched to reach the anticipated cost efficiency and profitability, and as a part of this Nordea plans to reduce the number of employees, partly through close down of branches. The majority of the provision is expected to be used during 2013. As with any other provision there is an uncertainty around timing and amount, which is expected to be decreased as the plan is being executed during 2013.

Provision for Transfer risk of EUR 19m is related to off-balance sheet items. Transfer risk relating to loans is included in the item Allowances for collectively assessed impaired loans in Note G13. Provision for transfer risk is depending on the volume of business with different countries.

Loan loss provisions for individually assessed guarantees and other commitments amounted to EUR 65m.

Nordea has an on-going tax litigation related to the sales gain in respect of the divestment of Nordea's owner occupied

properties in Sweden, which has been provided for with EUR 131m. Nordea is of the opinion that all tax rules and regulations have been complied with and is contesting the claim in court. The court procedures are expected to be settled during 2013.

Other provisions refers to the following provisions: Provision for premiums in Defined Contribution Plans EUR 34m (EUR 11m expected to be settled 2013), provision for legal disputes EUR 10m (total amount expected to be settled after 2013) and other provisions amounting to EUR 20m (EUR 4m expected to be settled 2013). The provision related to Defined Contribution Plans is expected to be settled over the following 5–10 years.

## G33

## Retirement benefit obligations

| EURm                       | 31 Dec<br>2012 | 31 Dec<br>2011 |
|----------------------------|----------------|----------------|
| Defined benefit plans, net | 47             | 102            |
| <b>Total</b>               | <b>47</b>      | <b>102</b>     |

Nordea has pension obligations from defined benefit plans (DBP) in all Nordic countries with the predominant share in Sweden, Norway and Finland. The plans in Finland, and Norway as from 2011, are closed to new employees and pensions for new employees are instead based on defined contribution plan (DCP) arrangements as is also the case in Denmark. DCPs are not reflected on the balance sheet, except when earned pensions rights have not yet been paid for. Nordea also contributes to public pension plans.

IAS 19 secures that the market based value of pension obligations net of plan assets backing these obligations is reflected on the Group's balance sheet. The major plans in each country are funded schemes covered by assets in pension funds/foundations.

#### Multiemployer plan

In 2010 the Norwegian Parliament decided to change the AFP (Avtalefestet Pensjon) plan in Norway as from 2011. The change gave rise to a new multiemployer DBP plan that cannot be calculated as DBP by year end 2012, as information on Nordea's share of the liabilities and pension costs in the plan is not available from Fellesordningen (the administrator). Consequently the new AFP plan has to be accounted for as a DCP in accordance with IAS 19. Information on the funded status in the plan is not available. The premium rate to Fellesordningen is 1.75% of the salary basis in 2012. The rate is expected to increase in the future.

#### IAS 19 pension calculations and assumptions

Calculations on major plans are performed by external liability calculators and are based on the actuarial assumptions fixed for each of the Group's pension plans.

| Assumptions <sup>1</sup>               | Swe  | Nor               | Fin  | Den  |
|----------------------------------------|------|-------------------|------|------|
| <b>2012</b>                            |      |                   |      |      |
| Discount rate                          | 3.5% | 4.0% <sup>2</sup> | 3.5% | 3.5% |
| Salary increase                        | 2.5% | 3.0%              | 3.0% | 2.5% |
| Inflation                              | 1.5% | 2.0%              | 2.0% | 2.0% |
| Expected return on assets before taxes | 4.5% | 5.0%              | 4.5% | 4.5% |
| <b>2011</b>                            |      |                   |      |      |
| Discount rate                          | 3.5% | 3.0%              | 4.5% | 3.5% |
| Salary increase                        | 3.0% | 3.0%              | 3.0% | 3.5% |
| Inflation                              | 2.0% | 2.0%              | 2.0% | 2.0% |
| Expected return on assets before taxes | 4.5% | 4.0%              | 5.5% | 4.5% |

1) The assumptions disclosed for 2012 have an impact on the liability calculation by year-end 2012, while the assumptions disclosed for 2011 are used for calculating the pension expense in 2012.

2) As further described in Note G1, section 22, the discount rate in Norway is as from 2012 determined with reference to covered bonds. If the government bond yield was used the discount rate would be approximately 1 percentage point lower. For effects from this change see the sensitivity analysis described below.

The expected return on assets is based on long term expectations for return on the different asset classes. On bonds, this is linked to the discount rate while equities and real estate have an added risk premium.

The discount rate has the most significant impact on the obligation and pension cost. If the discount rate is reduced the pension obligation will increase and vice versa. A one percentage point increase in the discount rate would lead to a decrease in pension obligation of 12% and in service cost of 18%. A one percentage point decrease in the discount rate would lead to an increase in pension obligation of 16% and in service cost of 24%.

#### Asset composition

The combined return on assets in 2012 was 8.7% (3.5%) driven by the fact that all assets performed well in 2012 with credit bonds and equities contributing strongly. At the end of the year the equity exposure in pension funds/foundations represented 23% (17%) of total assets.

1) Main impact from changed assumptions on discount rate in Norway and inflation in Sweden.

## Defined benefit pension cost

The total net pension cost related to defined benefit plans recognised in the Group's income statement (as staff costs) for the year is EUR 66m (EUR 124m). Total pension costs comprise defined benefit pension costs as well as costs related to defined contribution plans (see specification in Note G7).

| Recognised past service cost <sup>2</sup> | -25         | -2          | —           | —           | -27           | 31              |
| Recognised actuarial gains (-)/losses     | 12          | 11          | 0           | 2           | 25            | 17              |
| SWT/SSC <sup>3</sup>                      | 3           | 5           | —           | —           | 8             | 20              |
| Pension cost on defined benefit plans     | 29          | 42          | -7          | 2           | 66            | 124             |

1) Recognised actuarial losses of EUR 2m related to the curtailment.

2) In 2012 the recognised past service cost is mainly due to a change in the early retirement option in the Swedish collective pension agreement and it includes recognised actuarial losses of EUR 5m. In 2011 EUR 30m related to New Normal.

3) Cost related to special wage tax (SWT) in Sweden and social security contribution (SSC) in Norway.

The pension cost is lower than expected at the beginning of the year, mainly due to the change in the early retirement option in the Swedish collective pension agreement (negative past service cost). Compared with the pension cost 2012, excluding the negative past service cost, the pension cost from defined benefit plans is expected to decrease in 2013, mainly as a consequence of the change of actuarial assumptions at the end of 2012. The amended IAS 19, with effective date 1 January 2013, will not have any significant impact on the pension expense 2013, compared with the expense disclosed in this annual report. Actuarial gains/losses will be recognised directly in other comprehensive income instead of being amortised in the income statement. This positive effect is however largely offset by the fact that the return on plan

assets will be recognised using the discount rate instead of an expected return.

The group expects to contribute EUR 48m to its defined benefit plans in 2013.

## Key management personnel

The Group's total pension obligations relating to key management personnel amounted to EUR 36m (EUR 35m) at the end of the year. These obligations are to a high degree covered by plan assets. Defined benefit pension costs (Service cost, Past service cost and Curtailements and settlements as defined in IAS 19) relating to key management personnel in 2012 were EUR 2m (EUR 3m). Complete information concerning key management personnel is disclosed in Note G7.

## G34

## Subordinated liabilities

| EURm                                 | 31 Dec<br>2012 | 31 Dec<br>2011 |
|--------------------------------------|----------------|----------------|
| Dated subordinated debenture loans   | 5,160          | 3,818          |
| Undated subordinated debenture loans | 666            | 658            |
| Hybrid capital loans                 | 1,971          | 2,027          |
| Total                                | 7,797          | 6,503          |

These debenture loans are subordinated to other liabilities. Dated debenture loans entitle the lender to payment before undated subordinated loans and hybrid capital loans. Within each respective category, the loans entitle lenders to equal payment rights.

| Deposits by credit institutions         | 8,416          | 10,263         |
| Deposits and borrowings from the public | 5,377          | 2,379          |
| Derivatives                             | 233            | 639            |
| Debt securities in issue                | 86,653         | 78,208         |
| Other liabilities and commitments       | 37,752         | 36,970         |
| <b>Total</b>                            | <b>138,431</b> | <b>128,459</b> |

1) The agreements are financial lease agreements where Nordea is the lessor.

The associated assets are Loans to the public.

2) Relates only to securities recognised on the balance sheet. Securities borrowed or bought under reverse repurchase agreements are not recognised on the balance sheet and thus not included in the amount. Such transactions are disclosed in Note G43, Transferred assets and obtained collaterals.

Assets pledged for own liabilities contain securities pledged as security in repurchase agreement and in securities lending. The transactions are conducted under standard agreements employed by financial markets participants. Counterparts in those transactions are credit institutions and the public. The transactions are typically short term with maturity within three months.

Securities in the Life operations are also pledged as security for the corresponding insurance liabilities.

Loans to the public have been registered as collateral for issued covered bonds and mortgage bonds in line with local legislation. In the event of the company's insolvency, the holders of these bonds have priority to the assets registered as collateral.

Other relates to certificate of deposits pledged by Nordea to comply with authority requirements and assets funded by finance lease agreements.

## G36

## Other assets pledged

| EURm                                    | 31 Dec<br>2012 | 31 Dec<br>2011 |

In the normal business of Nordea, the bank issues various forms of guarantees in favour of the bank's customers. Loan guarantees are given for customers to guarantee obligations in other credit- and pension institutions. Other guarantees consist mainly of commercial guarantees such as bid guarantees, advance payment guarantees, warranty guarantees and export related guarantees. Contingent liabilities also include unutilised irrevocable import documentary credits and confirmed export documentary credits. These transactions are part of the bank services and support the bank's customers. Guarantees and documentary credits are off-balance sheet items, unless there is a need for a provision to cover a probable loan loss that arises from the judgement that reimbursement will not be received.

Nordea Bank AB (publ) has undertaken, in relation to certain individuals and on certain conditions, to be responsible for the potential payment liability against them in their capacity as managing directors or board member in group undertakings to Nordea Bank AB (publ).

A limited number of employees are entitled to severance pay if they are dismissed before reaching their normal retirement age. For further disclosures, see Note G7.

## Legal proceedings

Within the framework of the normal business operations, the Group faces a number of claims in civil lawsuits and disputes, most of which involve relatively limited amounts. Presently, none of the current disputes are considered likely to have any significant adverse effect on the Group or its financial position.

## G38

## Commitments

| EURm                            | 31 Dec<br>2012 | 31 Dec<br>2011 |
|---------------------------------|----------------|----------------|

1) Including unutilised portion of approved overdraft facilities of EUR 45,796m (EUR 47,607m).

Reverse repurchase agreements are recognised on and derecognised from the balance sheet on settlement date. Nordea has as per 31 December 2012 signed reverse repurchase agreements that have not yet been settled and consequently are not recognised on the balance sheet. On settlement date these reverse repurchase agreements will, to the utmost extent, replace existing reverse repurchase agreements not yet derecognised as per 31 December 2012. The net impact on the balance sheet is minor. These instruments have not been disclosed as commitments.

For information about derivatives, see Note G17 and about reverse repos, see Note G43.

## G40

## Capital adequacy

Capital adequacy is a measure of the financial strength of a bank, usually expressed as a ratio of capital to assets. There is now a worldwide capital adequacy standard (Basel II) drawn up by the Basel Committee on Banking Supervision (BCBS). Within the EU, the capital adequacy requirements are outlined in the Capital Requirement Directive (CRD).

The CRD contains a detailed set of minimum requirements to assure the conceptual soundness and integrity of the internal assessment. Over the years, amendments have been made to the first version of the CRD regulation. CRD II was implemented at the end of 2010 and strengthened the large exposure regime, increased the quality of the capital base and added stricter securitisation regulation. CRD III, which has been valid since 31 December 2011 includes capital requirements for re-securitisation, disclosure of securitisation positions, capital requirements for trading book positions and remuneration policies (from 1 January 2011). The transition rule, stipulating that the capital is not allowed to be below 80% of the capital requirement calculated under Basel I regulation, has been extended to apply at least until December 2014.

The regulatory capital requirements are calculated using the following formula:

$$\text{Minimum capital requirements} = \text{Capital base/RWA}$$

where Minimum capital requirements  $\geq$  8%

The Basel II framework is built on three Pillars:

- Pillar I – requirements for the calculation of RWA and capital requirements
- Pillar II – rules for the Supervisory Review Process (SRP), including the ICAAP
- Pillar III – rules for the disclosure on risk and capital management, including capital adequacy

Nordea performs an ICAAP with the purpose to review the management, mitigation and measurement of material risks within the business environment in order to assess the adequacy of capitalisation and to determine an internal capital requirements reflecting the risks of the institution.

The ICAAP is a continuous process which increases awareness of capital requirements and exposure to material risks throughout the organisation, both in the business area and legal entity dimensions. Stress tests are important drivers of risk awareness, looking at capital and risk from a firm-wide perspective on a regular basis and on an ad-hoc basis for specific areas or segments. The process includes a regular dialogue with supervisory authorities, rating agencies and other external stakeholders with respect to capital management, measurement and mitigation techniques used.

Nordea's capital levels continue to be adequate to support the risks taken, both from an internal perspective as well as from the perspective of supervisors. Heading into 2013, Nordea will continue to closely follow the development of the new capital requirement regime as well as maintain its open dialogue with various supervisory authorities.

The disclosures in this note cover the Nordea Financial Group as defined on page 150.

## G40

## Capital adequacy

**Core tier 1 capital and tier 1 capital**

Core tier 1 capital is defined as eligible capital including eligible reserves, net of regulatory required deductions made directly to tier 1 capital. The capital recognised as core tier 1 capital holds the ultimate characteristics for loss absorbance defined from a going concern perspective and represents the most subordinated claim in the event of liquidation. The tier 1 capital is defined as core tier 1 capital and capital of the same or close to the character of eligible capital and eligible reserves. Tier 1 capital can include a limited component of undated subordinated capital loans.

**Eligible capital and eligible reserves**

Paid up capital is the share capital contributed by shareholders, including the share premium paid. Eligible reserves consist primarily of retained earnings, other reserves, minority interests and income from current year. Retained earnings are earnings from previous years reported via the income statement. Other reserves are related to revaluation and translation reserves referred to acquisitions and associated undertakings under the equity method. The equity interests of minority shareholdings in companies that are fully consolidated in the financial group are also included. Positive income from current year is included as eligible capital after verification by the external auditors, however negative income must be deducted. Repurchased own shares or own shares temporary included in trading portfolios are deducted from eligible reserves.

The eligible capital and eligible reserves, considered as the capital of highest quality, constitute the predominant share (92%) of tier 1 capital in Nordea.

**Tier 1 instruments subject to limits**

The requirement for including undated subordinated loans in tier 1 capital is restricted and repurchase can normally not take place until five years after original issuance of the instrument.

Undated subordinated loans may be repaid only upon decision by the Board of Directors in Nordea and with the permission of the Swedish FSA. Further, there are restrictions related to step-up conditions order of priority, interest payments under constraint conditions. Currently, the inclusion of undated subordinated capital as a component of tier 1 capital is limited by regulation to 50% net of relevant deductions. For the tier 1 loans, conditions specify appropriation in order to avoid being obliged to enter into liquidation. To the extent that may be required to avoid liquidation, the principal amounts of tier 1 loans (together with accrued interest) would be written down and converting such amount into a conditional capital contribution.

As of year-end 2012, the undated tier 1 instruments included in the capital base of the Nordea Group constitute only 8% of tier 1 capital.

**Tier 2 capital**

Tier 2 capital must be subordinated to depositors and general creditors of the bank. It cannot be secured or covered by a guarantee of the issuer or related entity or include any other arrangement that legally or economically enhances the seniority of the claim vis-a-vis depositors and other bank creditors.

**Tier 2 subordinated loans**

Tier 2 capital consists mainly of subordinated loans. Tier 2 capital includes two different types of subordinated loan capital; undated loans and dated loans. According to the regulation, tier 2 capital may not exceed tier 1 capital and dated tier 2 loans must not exceed 50% of tier 1 capital. The limits are set net after deductions.

The basic principle for subordinated loans in the capital base is the order of priority in case of a default or bankruptcy situation. Under such conditions, the holder of the subordinated loan would be repaid after other creditors, but before shareholders. The share of outstanding loan amount possible to include in the tier 2 capital related to dated loans is reduced if the remaining maturity is less than five years.

During 2012 Nordea issued two new tier 2 loans of EUR 750m and USD 1,000m respectively. As of year-end, Nordea held EUR 4.7bn in dated subordinated loans and EUR 0.7bn in undated subordinated loans.

The table below shows the carrying outstanding amounts of undated and dated loans included in the capital base. Call date is where the issuer has the legal right to redeem outstanding loan amounts according the terms of agreement. The loans and the principles for time-reductions follow Swedish legislation. The carrying amounts in the table may deviate from capital amounts used in the capital base due to swap arrangements and adjustments for maturities.

**Other tier 2 capital**

Other additional funds consists of adjustment to valuation differences in available for sale equities transferred to core additional own funds. Unrealised gains from equity holdings classified as available for sale securities can according to regulation only be included in tier 2 capital. Nordea has no significant holdings in this category and therefore only has a minor impact on tier 2 capital from such items.

1) Interest rate risk column Trading book IA includes both general and specific interest rate risk which is elsewhere referred to as interest rate VaR and credit spread VaR.

The Nordea Group may transfer capital within its legal entities without material restrictions. International transfers of capital between legal entities are normally possible after approval by the local regulator and are of importance in governing the capital position of the Group. The guarantee schemes introduced within the EU in 2008 limit the transferability of capital under certain circumstances, which serves to impact cross-border financial groups. No such restrictions were however directly affecting Nordea as per end of 2012.

More Capital Adequacy information for the Group can be found in the Capital management section page 66 and in the Pillar III report.

## G41

## Classification of financial instruments, cont.

**Financial assets and liabilities designated at fair value through profit or loss**

Changes in fair values of financial liabilities attributable to changes in credit risk

The financial liabilities designated at fair value through profit or loss exposed to changes in credit risk are issued bonds in the Danish group undertaking Nordea Kredit Realkreditaktieselskab, EUR 31,296m (EUR 31,756m), the funding of the Markets operation, EUR 16,176m (EUR 19,854m) and investment contracts in Life, EUR 12,106m (EUR 10,226m). The funding of Markets is generally of such a short term nature that the effect of changes in own credit risk is not significant. The value of the investment contracts in Life is directly linked to the assets in the contracts and there is consequently no effect from changes in own credit risk in these contracts.

The fair value of bonds issued by Nordea Kredit Realkreditaktieselskab increased by EUR 89m (decreased EUR 210m) in 2012 due to changes in own credit risk. The cumulative change since designation is a decrease of EUR 626m (decrease EUR 718m). The method used to estimate the amount of changes in fair value attributable to changes in market conditions is based on relevant benchmark interest rates, which are the average yields on Danish and German (EUR) government bonds.

For the issued mortgage bonds a change in the liability's credit risk and price will have a corresponding effect on the value of the loans. The reason is that a change in the price of the bonds will be offset by the opposite change in the value of the prepayment option of the loan.

**Changes in fair values of financial assets attributable to changes in credit risk**

Lending designated at fair value through profit or loss exposed to changes in credit risk consist of lending in the Danish group undertaking Nordea Kredit Realkreditaktieselskab, EUR 48,091m (EUR 45,720m) and lending in the Markets operation, EUR 6,019m (EUR 7,020m). The fair value of lending in Nordea Kredit Realkreditaktieselskab decreased by EUR 119m (decreased EUR 51m) in 2012 due to changes in credit risk. The cumulative change since designation is a decrease of EUR 169m (decrease EUR 113m). The method used to estimate the amount of change in the fair value attributable to changes in credit risk is similar to the incurred loss impairment model for amortised cost assets under IAS 39. The lending in Markets is generally of such a short term nature (mainly overnight deposits) that the effect of changes in credit risk is not significant. Also instruments classified as "Other assets" and "Prepaid expenses and accrued income" are of such a short-term nature that the impact from changes in credit risk is not significant.

**Comparison of carrying amount and contractual amount to be paid at maturity**

| 2012, EURm                                                            | Carrying amount | Amount to be paid at maturity |
|-----------------------------------------------------------------------|-----------------|-------------------------------|
| Financial liabilities designated at fair value through profit or loss | 59,578          | 58,338                        |
| 2011, EURm                                                            | Carrying amount | Amount to be paid at maturity |
| Financial liabilities designated at fair value through profit or loss | 61,836          | 60,420                        |

Liabilities to policyholders have no fixed maturities and there is no fixed amount to be paid. The amount disclosed to be paid at maturity has been set to the carrying amount.

## G42

## Assets and liabilities at fair value, cont.

**Determination of fair value for assets and liabilities**

Financial assets and financial liabilities on the balance sheet are generally measured at fair value, with the exception of loans, deposits and borrowings and issued securities.

The carrying amounts on loans, deposits and borrowings and issued securities are adjusted for the value of the fixed interest term, unless the interest risk is hedged, in order to estimate the fair values that are presented in the tables above. The value of the fixed interest term is a result of changes in the relevant market interest rates. The discount rates used are based on current market rates for each term. The fair value of the hedged interest rate risk is included in the balance sheet item "Fair value changes of the hedged items in portfolio hedge of interest rate risk".

Fair value is estimated to be equal to the carrying amount for short-term financial assets and financial liabilities. The carrying amount is a reasonable approximation of fair value due to limited credit risk and short time to maturity.

Fair value is set to carrying amount, in the tables above, for assets and liabilities for which no reliable fair value has been possible to estimate. This is valid for the line items investments in associated undertakings, investments in group undertakings, intangible assets, property and equipment and provisions.

Nordea holds very limited amounts of financial instruments with discretionary participating features in the Life business, which are recognised on the balance sheet in the line "Liabilities to policyholders". These instruments can not be reliably measured at fair value and consequently the fair value for these instruments are set to the carrying amount.

Nordea holds very limited amounts of equity instruments measured at cost. Fair value is set to the carrying amount for these instruments as the fair value can not be measured reliably.

For further information about valuation of items normally measured at fair value, see Note G1 and the separate section below.

**Deferred Day 1 profit or loss**

In accordance with the Group's accounting policy as described in Note G1, the financial instrument is recognised at the transaction price and any trade date profit is deferred if there are significant unobservable inputs used in the valuation technique. The table below shows the aggregate difference yet to be recognised in the income statement at the beginning and end of the period and a reconciliation of changes in the carrying amount (movement of deferred Day 1 profit or loss).

| EURm                                               | 31 Dec<br>2012 | 31 Dec<br>2011 |

**Determination of fair value from quoted market prices or valuation techniques**

Fair value measurements of financial instruments carried at fair value are categorised under the three levels of the IFRS fair value hierarchy that reflects the significance of unobservable inputs. The categorisation of these instruments is based on the lowest level input that is significant to the fair value measurement in its entirety.

Level 1 in the fair value hierarchy consists of financial assets and financial liabilities valued using unadjusted quoted prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an on-going basis. This category includes listed derivatives, listed equities, government bonds in developed countries, and most liquid mortgage bonds and corporate bonds where direct tradable price quotes exist.

Level 2 in the fair value hierarchy consists of financial assets and financial liabilities that do not have directly quoted market prices available from active markets. The fair values are estimated using valuation techniques or valuation models based on market prices or rates prevailing at the balance sheet date and any unobservable inputs have had an insignificant impact on the fair values. This is the case for the majority of Nordea's OTC derivatives, securities purchased/sold under reverse repurchase/repurchase agreements, securities borrowed/lent and other instruments where active markets supply the input to the valuation techniques or models.

Level 3 in the fair value hierarchy consists of those types of financial instruments where fair values cannot be obtained directly from quoted market prices or indirectly using valuation techniques or models supported by observable market prices or rates. This is generally the case for investments in unlisted securities, private equity funds and hedge funds. This is generally also the case for more complex OTC derivatives, including OTC derivatives where less active markets supply input to the valuation techniques or models, certain complex or structured financial instruments such as CLNs and CDOs, and illiquid interest bearing securities. Complex valuation models are generally characterised by the use of unobservable and model specific parameters.

All valuation models, both complex and simple models, make use of market parameters. These parameters comprise interest rates, volatilities, correlations etc. Some of these parameters are observable while others are not. For non-exotic currencies the interest rates are all observable, and the volatilities and the correlations of the interest rates and FX rates are observable up to a certain maturity. Volatilities and correlations are also observable for the most liquid equity instruments in the short end. For less liquid equity instruments, and for commodities, the option market is fairly illiquid, and hence the volatilities and correlations are unobservable. For each instrument the sensitivity towards unobservable parameters is measured. If the impact from unobservable parameters on the valuation is significant the instrument is categorised as Level 3 in the fair value hierarchy.

For interest-bearing securities the categorisation into the three levels are based on the internal pricing methodology. These instruments can either be directly quoted in active markets (Level 1) or measured using a methodology giving a quote based on observable inputs (Level 2). Level 3 bonds are characterised by illiquidity.

For OTC derivatives valuation models are used for establishing fair value. For collateralised contracts OIS interest rates are used for discounting. These rates are observable in the market. The valuation is in addition based on several other market parameters, depending on the nature of the contract. Complex valuation models are used for more exotic OTC derivatives. The models are usually in-house developed, and based on assumptions about the behaviour of the underlying asset and statistical scenario analysis. As mentioned above OTC derivatives are generally categorised as Level 2 in the fair value hierarchy.

## G42

## Assets and liabilities at fair value, cont.

archy and all significant model parameters are thus observable in active markets. For vanilla derivatives standard models like e.g. Black-Scholes are used for valuation.

Valuations of Private Equity Funds (PEF) and unlisted equity instruments are by nature more uncertain than valuations of more actively traded equity instruments. Emphasis is put on using a consistent approach across all assets and over time. The methods used are consistent with the guideline "International Private Equity and Venture Capital Valuation Guidelines" issued by EVCA (European Venture Capital Association). The EVCA guidelines are considered as best practice in the PEF industry. For US based funds, similar methods are applied.

Nordea furthermore holds loans and issued debt securities in the group undertaking Nordea Kredit Realkreditaktieselskab at fair value. When Nordea grants mortgage loans to borrowers, in accordance with the Danish mortgage finance law, Nordea at the same time issues debt securities with matching terms, so called "match funding". Fair value of the issued debt securities is based on quoted prices and thus categorised as Level 1 in the fair value hierarchy. As the borrowers have the right to purchase debt securities issued by Nordea in the market and return these as repayment for their loans, the fair value of the loans is the same as the fair value of the issued bonds (due to the revaluation of the repayment option embedded in the loan) adjusted for changes in the credit risk of the borrower. The credit risk adjustment is calculated based on an incurred loss model.

Fair value is generally calculated as the theoretical net present value of the individual instruments, based on independently sourced market parameters as described above, and

assuming no risks and uncertainties. This calculation is supplemented by a portfolio adjustment. The portfolio adjustment covers uncertainties associated with the valuation techniques, model assumptions and unobservable parameters as well as the portfolio's counterparty credit risk and liquidity risk. An important part of the portfolio adjustment serves to adjust the net open market risk exposures from mid-prices to ask or bid prices (depending on the net position). For different risk categories, exposures are aggregated and netted according to internal guidelines and aggregated market price information on bid-ask spreads are applied in the calculation. Spreads are updated on a regular basis

The portfolio adjustment for uncertainties associated with model assumptions comprises two components (The calculation principles are defined as part of the internal approval process for valuation models):

- Benchmarking of the model output (market values) against market information or against results from alternative models, where available.
- Sensitivity calculations where unobservable parameters are changed to other reasonable values.

The portfolio adjustment for counterparty risk in OTC-derivatives is based on the current exposure towards each counterpart, the estimated potential future exposure as well as an estimate of the cost of hedging the counterparty risk. This cost of hedging is either based directly on market prices (where available) or on a theoretical calculation based on the internal credit rating of the counterpart.

The following table presents the categorisation of financial instruments held at fair value into the fair value hierarchy.

1) Of which EUR 84,080m relates to Interest-bearing securities (the portion held at fair value in Note G41). EUR 7,723m relates to the balance sheet item Financial instruments pledged as collateral.

2) EUR 650m relates to the balance sheet item Financial instruments pledged as collateral.

### Transfers between level 1 and 2

During the year, Nordea Group transferred debt securities of EUR 9,558m (EUR 3,057m) from level 1 to level 2 and EUR 1,447m (EUR 496m) from level 2 to level 1 of the fair value hierarchy for financial assets and liabilities at fair value. The reason for transfers from level 1 to level 2 was that the instruments ceased to be actively traded during the year and fair values have now been obtained using valuation techniques with observable market inputs. The reason for transfers from level 2 to level 1 was that the instruments have again been actively traded during the year and reliable quoted prices are obtained in the markets.

## G42

## Assets and liabilities at fair value, cont

## Movements in level 3

The following table shows a reconciliation of the opening and closing carrying amounts of level 3 financial assets and liabilities recognised at fair value.

1) Relates to those assets and liabilities held at the end of the reporting period.

Fair value gains/losses recognised in the income statement during the year are included in “Net result from items at fair value” (see Note G5).

## Sensitivity analysis of level 3 financial instruments

Included in the fair value of financial instruments carried at fair value on the balance sheet are those estimated in full or in part using valuation techniques based on assumptions that are not supported by market observable prices or rates. There may be uncertainty about a valuation, resulting from the choice of valuation technique or model used, the assumptions embedded in those models, the extent to which inputs are not market observable, or as a result of other elements affecting the valuation technique. Portfolio adjustments are applied to reflect such uncertainties and are deducted from the fair values produced by the models or other valuation techniques (for further information see Note G1 section 11 “Determination of fair value of financial instruments” and the separate section above).

This disclosure shows the potential impact from the relative uncertainty in the fair value of financial instruments for which the valuation is dependent on unobservable input parameters. The estimates disclosed below are likely to be greater than the true uncertainty in fair value of these instruments, as it is unlikely in practice that all unobservable parameters would be simultaneously at the extremes of their ranges of reasonably possible alternatives. The disclosure is neither predictive nor indicative of future movements in fair value.

The following table shows the sensitivity of the fair value of level 3 instruments to changes in key assumptions, by class of instruments. Where the exposure to an unobservable parameter is offset across different instruments only the net impact is disclosed in the table.

| 31 Dec 2012, EURm | Carrying amount | Effect of reasonably possible alternative assumptions |              |
|-------------------|-----------------|-------------------------------------------------------|--------------|
|                   |                 | Favourable                                            | Unfavourable |
| Debt securities   | 1,118           | 60                                                    | -60          |

| Shares            | 3,374           | 315                                                   | -315         |
| – of which Life   | 2,210           | 221                                                   | -221         |
| Derivatives (net) | 332             | 20                                                    | -24          |

| 31 Dec 2011, EURm | Carrying amount | Favourable | Unfavourable |
|-------------------|-----------------|------------|--------------|
|                   |                 |            |              |
| Debt securities   | 1,149           | 58         | -58          |
| – of which Life   | 750             | 28         | -28          |
| Shares            | 4,921           | 444        | -444         |
| – of which Life   | 3,425           | 342        | -342         |
| Derivatives (net) | -289            | 20         | -43          |

In order to calculate the effect on level 3 fair values, from altering the assumptions of the valuation technique or model, the sensitivity to unobservable input data is assessed. Derivatives portfolio key inputs, that are based on pricing model assumptions or unobservability of market data inputs, are replaced by alternative estimates or assumptions and the impact on the valuation computed. The majority of the effect on the derivatives is related to various types of correlations or correlation related inputs in credit derivatives, in interest rate OTC derivatives or OTC structured equity derivatives. For the level 3 portfolios of shares and debt securities the fair value was increased and decreased within a range of 3–10 percentage units, which are assessed to be reasonable changes in market movements.

## G43

## Transferred assets and obtained collaterals

**Transferred assets that are not derecognised in their entirety and associated liabilities**

All assets transferred continue to be recognised on the balance sheet if Nordea is still exposed to changes in the fair value of the assets. This is the case for repurchase agreements and securities lending transactions.

Repurchase agreements are a form of collateralised borrowing where Nordea sells securities with an agreement to repurchase them at a later date at a fixed price. The cash received is recognised as a deposit (liability). Securities delivered under repurchase agreements are not derecognised from the balance sheet.

Securities lending transactions are transactions where Nordea lends securities it holds to a counterpart and receives a fee.

As both repurchase agreements and securities lending transactions results in that securities are returned to Nordea, all risks and rewards of the instruments transferred is retained by Nordea, although they are not available for Nordea during the period during which they are transferred. The counterpart in the transactions holds the securities as collateral, but has no recourse to other assets in Nordea.

The securities still reported on the balance sheet and the corresponding liabilities are measured at fair value.

**Obtained collaterals which are permitted to be sold or repledged**

Nordea obtains collaterals under reverse repurchase and securities borrowing agreements which, under the terms of the agreements, can be sold or repledged. The transactions are conducted under standard agreements employed by financial markets participants. Generally, the agreements require additional collateral to be provided if the value of the securities falls below a predetermined level. Under standard terms for most repurchase transactions, the recipient of collateral has an unrestricted right to sell or repledge it, subject to returning equivalent securities on settlement of the transactions. The fair value of the securities obtained as collateral under reverse repurchase and securities borrowing agreements are disclosed below.

1) The figures have been restated to ensure consistency between the periods.

The table is based on contractual maturities for on balance sheet financial instruments. For derivatives, the expected cash inflows and outflows are combined for both derivative assets and derivative liabilities, as derivatives are managed on a net basis. In addition to the on balance sheet and derivative instruments, Nordea has credit commitments amounting

to EUR 84,914m (EUR 85,319m), which could be drawn on at any time. Nordea has also issued guarantees of EUR 18,844m (EUR 21,627m) which may lead to future cash outflows if certain events occur. For further information about remaining maturity, see also the section of Risk, Liquidity and Capital management.

### Compensation and loans to key management personnel

Compensation and loans to key management personnel are specified in Note G7.

### Other related-party transactions

Starting in March 2008 Nordea takes part in a guarantee consortium to support Norwegian Eksportfinans ASA in relation to its securities portfolio. Nordea owns 23% of the company with other owners being the Norwegian state and other Nordic banks. Nordea's share of the negative fair value of the contract as of the balance sheet date amounts to approx. EUR 7m. The agreement's expiring date corresponds with the maturity dates of the bonds included in the guarantee. The latest maturity is on 31 December 2023.

In 2009 Nordea entered into one transaction with a company under significant influence by a member of key management personnel, which is disclosed separately in this note due to the transaction's significance for the related company. The related company has a credit limit of EUR 26m, of which EUR 14m was utilised as of 31 December 2012. The latest maturity is 31 December 2013, with the possibility of yearly prolongation after a new credit review. Nordea has collateral in securities (shares) corresponding to 200 percent of the utilised credit limit. The transaction is made on the same criteria and terms as those for comparable transactions with companies of similar standing.

1) Shareholders with significant influence and close family members to key management personnel in Nordea Group as well as companies significantly influenced by key management personnel or by close family members to key management personnel in Nordea Group are considered to be related parties to Nordea. Included in this group of related parties are Sampo Oyj and Aegon Asset Management. If transactions with related companies are made in Nordea's and the related companies' ordinary course of business and on the same criteria and terms as those for comparable transactions with companies of similar standing, and if they did not involve more than normal risktaking, the transactions are not included in the table.

2) Including nominal values on derivatives.

## G47

## Credit risk disclosures

Credit risk management and credit risk analysis is described in the Risk, Liquidity and Capital management section of the Board of Directors' Report. Additional information on credit risk is also disclosed in the Capital and Risk management Report (Pillar III) 2012, which is available on [www.nordea.com](http://www.nordea.com). Much of the information in this note is collected from the Pillar III report in order to fulfil the disclosure requirement regarding credit risk in the Annual report.

The Pillar III report contains the disclosures required by the Capital Requirements Directive (CRD), which is based on the Basel II framework. The Pillar III disclosure is aligned to how Nordea manages credit risk and is believed to be the best way to explain the credit risk exposures in Nordea. Credit risk exposures occur in different forms and are divided into the following types:

| Exposure types, EURm             | 31 Dec<br>2012 | 31 Dec<br>2011 |
|----------------------------------|----------------|----------------|
| On-balance sheet items           | 428,192        | 419,603        |
| Off-balance sheet items          | 47,966         | 51,719         |
| Securities financing             | 2,170          | 2,084          |
| Derivatives                      | 34,263         | 42,959         |
| <b>Exposure At Default (EAD)</b> | <b>512,591</b> | <b>516,365</b> |

Tables presented in this note, containing exposure, are presented as Exposure At Default (EAD). EAD is the exposure after applying credit conversion factors (CCF).

#### Link between credit risk exposure and the balance sheet

This section discloses the link between the loan portfolio as defined by accounting standards and exposure as defined the CRD. The main differences are outlined in this section to illustrate the link between the different reporting methods. Original exposure is the exposure before taking into account substitution effects stemming from credit risk mitigation, credit conversion factors (CCFs) for off-balance sheet exposure and allowances within the standardised approach. In this note, however, exposure is defined as exposure at default (EAD) for IRB exposure and exposure value for standardised exposure, unless otherwise stated. In accordance with the CRD, credit risk exposure presented in this note is divided between exposure classes where each exposure class is divided into exposure types as follows:

- On-balance sheet items
- Off-balance sheet items (e.g. guarantees and unutilised amounts of credit facilities)
- Securities financing (e.g. reversed repurchase agreements and securities lending)
- Derivatives

Items presented in other parts of the Annual Report, are divided as follows (in accordance with the accounting standards):

- On-balance sheet items (e.g. loans to central banks and credit institutions, loans to the public, reversed repurchase agreements, positive fair value for derivatives and interest-bearing securities)
- Off-balance sheet items (e.g. guarantees and unutilised lines of credit)

The table below shows the link between the CRD credit risk exposure and items presented in the Annual Report.

#### On-balance sheet items

The following items have been excluded from the balance sheet, when calculating on-balance exposure in accordance with the CRD:

- Market risk related items in the trading book, such as certain interest-bearing securities and pledged instruments.
- Repos, derivatives and securities lending. These transactions are either included in the calculation of market risk in the trading book or reported as separate exposure types (derivatives or securities financing).
- Life insurance operations, (due to solvency regulation).
- Other, mainly allowances, intangible assets and deferred tax assets.

#### Off-balance sheet items

The following off-balance sheet items specified in the Annual Report are excluded when off-balance exposure is calculated in accordance with the CRD:

- Life insurance operations (due to solvency regulation).
- Assets pledged as security for own liabilities and Other assets pledged (apart from leasing). These transactions are reported as, securities financing. (i.e. a separate exposure type)
- Derivatives

#### Derivatives and securities financing

Derivatives can be both on-balance sheet (i.e. positive fair value) and off-balance (i.e. nominal amounts) in accordance with accounting standards. However, in the CRD, the derivatives and securities financing are reported as separate exposure types. Also, repurchase agreements and securities lending/borrowing transactions are on the balance sheet calculated based on nominal value. In the CRD calculations these exposure types are determined net of the collateral value.

1) Derivatives are included in banking and trading books, but not at book values. Counterparty risk in trading derivatives are included in the credit risk.

2) The on-balance exposure have a CCF of 100% but can still have a lower EAD due to provisions in the standardised approach, that are deducted from the original exposure when calculating EAD.

As of year-end 2012, 78% of the total credit risk exposure was calculated using the IRB approach. The main part of the exposure is within the IRB corporate and IRB retail portfolios. During 2012, a slight decrease was seen on total exposure level primarily due to decrease of the corporate and institutions portfolios. The largest shift in total exposures is related

to on-balance sheet exposures in the corporate portfolio, which carried a risk weight of 100% before the rollout to the IRB approach. Therefore the largest decrease in RWA is related to the corporate portfolio in the standardise portfolio. Derivative exposures, especially within the institutions portfolio, significantly decreased during the year.

## Exposure classes split by exposure type

Nordea is geographically well diversified as no market accounts for more than 26% of the total exposure. The exposure in Sweden and Finland represents 25% and 26% of the total exposure in the Group respectively, while Denmark accounts for 22% and Norway 16%.

The increase in corporate IRB exposures is mainly referable to International Units and the Baltic countries where some exposures moved from the standardised approach to the IRB approach. The increase in the IRB retail portfolio was largely due to increased lending to the Nordic countries.

In Finland, the decrease in the IRB portfolio is attributable to lower institution and corporate exposures. For institutions the decrease is a result of decreased derivative exposures. In all other countries the total IRB exposures increased compared to previous year.

In the table below, exposure is split by geography areas, based on where the exposure is booked and does not take the internal guarantees between the parent company and its group undertakings into account.

In the table below, the total exposure is split by industry. The industry breakdown follows the Global Industries Classification Standard (GICS) and is based on NACE codes (i.e. statistical classification of economic activities in the European community).

The IRB corporate portfolio is well diversified between industries. The real estate management and investment sector is the largest sector which together with other financial institutions

are the only sectors that account for more than 5% of the total exposure of EUR 513bn. During the year, the exposure class IRB institution increased exposures to other financial institutions and decreased exposures to banks. The largest relative decrease is found within the industry telecommunication equipment while the highest relative increase showed up within IT software, hardware and services. The largest nominal increase and decrease appeared in retail mortgage and banks respectively.

## Exposure split by industry group

## G47

## Credit risk disclosures, cont.

The guarantees used as credit risk mitigation are to a large extent issued by central and regional governments in the Nordic countries. Banks and insurance companies are also important guarantors of credit risk. Only eligible providers of guarantees and credit derivatives can be recognised in the standardised and IRB approach for credit risk. All central governments, regional governments and institutions are eligible as well as some multinational development banks and international organisations. Guarantees issued by corporate entities can only be taken into account if their rating corre-

sponds to A– (S&P's rating scale) or better.

Central governments and municipalities guarantee approximately 83% of the total guaranteed exposure. Exposure guarantee by these guarantors has an average risk weight of 0%. 6% of the guarantors are IRB institutions, of which 100% have a rating of 5 or higher. IRB corporate accounts for 11% of the guarantors, where 100% have a guarantor with a rating of 5 or higher. Credit derivatives are only used as credit risk protection to a very limited extent since the credit portfolio is considered to be well diversified.

## Exposure secured by collaterals, guarantees and credit derivatives

| 31 Dec 2012, EURm                               | Original exposure | EAD            | – of which secured by guarantees and credit derivatives | – of which secured by collateral |

The table below presents the distribution of collateral used in the capital adequacy calculation process. The table shows real estate to be the major part of the eligible collateral items in relative terms. Financial collateral saw the largest relative increase. Commercial real estate and other physical collateral also increased during the year while residential real estate and receivables

decreased somewhat in relative terms. Real estate is commonly used as collateral for credit risk mitigation purposes. There is no certain concentration of real estate collateral to any region within the Nordic and Baltic countries. Other physical collateral consist mainly of ships.

## Collateral distribution

|                           | 31 Dec 2012 | 31 Dec 2011 |
|---------------------------|-------------|-------------|
| Financial Collateral      | 4.7%        | 4.1%        |
| Receivables               | 1.2%        | 1.2%        |
| Residential Real Estate   | 70.7%       | 71.5%       |
| Commercial Real Estate    | 17.5%       | 17.3%       |
| Other Physical Collateral | 6.0%        | 5.9%        |

## G47

## Credit risk disclosures, cont.

A common way to analyse the value of the collateral is to measure the loan to value (LTV) ratio, i.e. the credit extended divided by the market value of the collateral pledged. In the table below, the retail mortgage exposures are distributed by

LTV range up to the top LTV bucket based on the LTV ratio. In 2012, the retail mortgage exposure increased in the LTV buckets representing LTV below 50%.

## Loan-to-value distribution

| Retail mortgage exposure | 31 Dec 2012  |            | 31 Dec 2011 <sup>1</sup> |            |
|--------------------------|--------------|------------|--------------------------|------------|

| <b>Total</b>             | <b>127.2</b> | <b>100</b> | <b>120.1</b>             | <b>100</b> |

1) During 2012, Nordea changed method for calculation LTV. This was done in order to obtain a consistent method across the group. As a result, figures for 2011 above has been restated.

Nordea acts as an intermediary in the credit derivatives market, especially in Nordic names. Nordea also uses credit derivatives to hedge positions in corporate bonds and synthetic CDOs. When Nordea sells protection in a CDO transaction, it carries the risk of losses in the reference portfolio if a credit event occurs. When Nordea buys protection in a CDO transaction, any losses in the reference portfolio triggered by a credit event are carried by the seller of protection.

Credit derivatives transactions create risk in similar manner to other derivative transactions. Counterparties in these transactions are typically subject to a financial collateral agreement, where the exposure is covered daily by collateral placements. CDO valuations are subject to fair value adjustments for model risk. These fair value adjustments are recognised in the income statement.

1) In accordance with Nordea's policy for taking over assets for protection of claims, which is in compliance with the local Banking Business Acts, wherever Nordea is located. Assets, used as collateral for the loan, are generally taken over when the customer is not able to fulfil its obligations to Nordea. The assets taken over are, at the latest, disposed when full recovery is reached.

## G47

## Credit risk disclosures, cont.

The table below shows loans past due 6 days or more that are not considered impaired split by corporate and household customers. Past due loans to corporate customers that are not considered impaired were at end of 2012 EUR 1,929 up from

EUR 1,443m one year ago, while past due loans for household customers stayed largely unchanged at EUR 1,773m (EUR 1,754m).

## Past due loans, excl. impaired loans

1) Apart from retained earnings, unrestricted equity consists of a free fund to the amount of EUR 2,762m (31 Dec 2011 EUR 2,762m).

2) Refers to the Long Term Incentive Programme (LTIP). LTIP 2012 was hedged by issuing 2,679,168 C-shares (LTIP 2011 4,730,000, the shares have been bought back and converted to ordinary shares. The total holding of own shares related to LTIP is 20.3 million (31 Dec 2011 18.2 million).

3) In connection to the rights issue in 2009 an assessment was made on the VAT Nordea would have to pay on the transaction costs. This assessment has been changed in 2011 based on new tax law.

Description of items in equity is included in Note G1 Accounting policies.

1) Refers to the Long Term Incentive Programme (LTIP).

**Dividends per share**

Final dividends are not accounted for until they have been ratified at the Annual General Meeting (AGM). At the AGM on 14 March 2013, a dividend in respect of 2012 of EUR 0.34 per share (2011 actual dividend EUR 0.26 per share) amount-

ing to a total of EUR 1,370,092,365 (2011 actual: EUR 1,047,546,038) is to be proposed. The financial statements for the year ended 31 December 2012 do not reflect this resolution, which will be accounted for in equity as an appropriation of retained earnings in the year ending 31 December 2013.

**Comments on the cash flow statement**

The cash flow statement has been prepared in accordance with IAS 7. The cash flow statement shows inflows and outflows of cash and cash equivalents during the year. Nordea's cash flow has been prepared in accordance with the indirect method, whereby operating profit is adjusted for effects of non-cash transactions such as depreciation and loan losses. The cash flows are classified by operating, investing and financing activities.

**Operating activities**

Operating activities are the principal revenue-producing activities and cash flows are mainly derived from the operating profit for the year with adjustment for items not included in cash flow and income taxes paid. Adjustment for non-cash items includes:

Changes in operating assets and liabilities consist of assets and liabilities that are part of normal business activities, such as loans, deposits and debt securities in issue. Changes in derivatives are reported net.

Cash flow from operating activities includes interest payments received and interest expenses paid with the following amounts:

| EURm                       | 2012  | 2011  |
|----------------------------|-------|-------|
| Interest payments received | 2,823 | 2,502 |
| Interest expenses paid     | 1,852 | 1,820 |

**Investing activities**

Investing activities include acquisitions and disposals of non-current assets, like property and equipment, intangible and financial assets.

**Financing activities**

Financing activities are activities that result in changes in equity and subordinated liabilities, such as new issues of shares, dividends and issued/amortised subordinated liabilities.

**Cash and cash equivalents**

The following items are included in Cash and cash equivalents:

| EURm                                            | 31 Dec 2012  | 31 Dec 2011  |
|-------------------------------------------------|--------------|--------------|
| Cash and balances with central banks            | 180          | 152          |
| Loans to credit institutions, payable on demand | 7,526        | 7,900        |
| <b>Total</b>                                    | <b>7,706</b> | <b>8,052</b> |

Cash comprises legal tender and bank notes in foreign currencies. Balances with central banks consist of deposits in accounts with central banks and postal giro systems under government authority, where the following conditions are fulfilled;

- the central bank or the postal giro system is domiciled in the country where the institution is established
- the balance on the account is readily available any time.

Loans to credit institutions, payable on demand include liquid assets not represented by bonds or other interest-bearing securities.

## P1

## Accounting policies

**Basis for presentation**

The financial statements for the parent company, Nordea Bank AB (publ), are prepared in accordance with the Swedish Annual Accounts Act for Credit Institutions and Securities Companies (1995:1559) and IFRS with the amendments and exceptions following the recommendation RFR 2 "Accounting for Legal Entities" issued by the Swedish Financial Reporting Board and the accounting regulations of the Swedish Financial Supervisory Authority (FFFS 2008:25, with amendments in FFS 2009:11 and 2011:54). Under RFR 2, the parent company shall apply all standards and interpretations issued by the IASB and IFRS IC to the extent possible within the framework of Swedish accounting legislation and considering the close tie between financial reporting and taxation. The recommendation sets out the exceptions and amendments compared to IFRS.

The Group's accounting policies described in Note G1 "Accounting policies" are applicable also for the parent company, considering also the information provided below.

**Changed accounting policies and presentation**

The accounting policies, basis for calculations and presentation are, in all material aspects, unchanged in comparison with the 2011 Annual Report, mainly apart from the categorisation of commissions within Note P4 "Net fee and commission income" and the definition of impaired loans in Note P15 "Loans and impairment". These changes are further described below.

More information on changes in IFRSs implemented in 2012, which have not had any significant impact on the parent company, as well as on forthcoming changes in IFRSs not yet implemented by Nordea, can be found in section 2 "Changed accounting policies and presentation" and section 3 "Changes in IFRSs not yet applied by Nordea" in Note G1 "Accounting policies". The conclusions within these sections are, where applicable, relevant also for the parent company.

**Definition of impaired loans**

The definition of impaired loans has been changed and the disclosure includes all loans that have, as a consequence of identified loss event, been written down either individually, for individually significant loans, or as part of a portfolio, for individually insignificant loans.

This definition of impaired loans provides more granular information of the loans actually impaired.

The income statement and balance sheet are unaffected by this change. The comparative figures have been restated accordingly and are disclosed in the below table.

| EURm             | 31 Dec 2011 |            |
|------------------|-------------|------------|
|                  | New policy  | Old policy |
| Impaired loans   | 366         | 315        |
| – Performing     | 245         | 254        |
| – Non-performing | 121         | 61         |

**Categorisation of commissions**

The categorisation of commission within "Net fee and commission income" has been improved by merging similar types of commissions. Commissions received for securities issues, corporate financial activities and issuer services were reclassified from "Payments" and "Other commission income" to the renamed lines "Brokerage, securities issues and corporate finance" and "Custody and issue services". This categorisation

better describes the types of commission recognised in the income statement. The comparable figures have been restated accordingly and are disclosed in the below table.

| EURm                                               | Jan–Dec 2011 |            |
|----------------------------------------------------|--------------|------------|
|                                                    | New policy   | Old policy |
| Brokerage, securities issues and corporate finance | 116          | 104        |
| Custody and issuer services                        | 17           | 11         |
| Payments                                           | 106          | 121        |
| Other commissions income                           | 42           | 45         |

**Accounting policies applicable for the parent company only****Investments in group undertakings and associated undertakings**

The parent company's investments in group undertakings and associated undertakings are recognised under the cost model. Impairment tests are performed according to IAS 36 "Impairment of Assets". At each balance sheet date, all shares in group undertakings and associated undertakings are reviewed for indications of impairment. If such indication exists, an analysis is performed to assess whether the carrying amount of each holding of shares is fully recoverable. The recoverable amount is the higher of fair value less costs to sell and the value in use. Any impairment charge is calculated as the difference between the carrying amount and the recoverable amount and is classified as "Impairment of securities held as financial non-current assets" in the income statement.

**Dividends**

Dividends paid to the shareholders of Nordea Bank AB (publ) are recorded as a liability following the approval of the Annual General Meeting.

Dividends paid by group undertakings to the parent company are anticipated if the parent alone can decide on the size of the dividend and if the formal decision has been made before the financial report is published. Dividends from group- and associated undertakings are recognised on the separate income line "Dividends".

**Differences compared to IFRS**

The accounting principles applied differ from IFRS mainly in the following aspects:

**Amortisation of goodwill**

Under IAS 38, goodwill and other intangible assets with indefinite useful lives are not amortised in the consolidated financial statements. In the parent company financial statements goodwill is amortised as any other intangible asset in accordance with the rules set out in the Swedish Annual Accounts Act for Credit Institutions and Securities Companies (1995:1559), i.e. normally over a period of five years unless, under exceptional circumstances, a longer amortisation period is justified.

**Functional currency**

The functional and presentation currency of Nordea Bank AB (publ) is EUR. All transactions in other currencies are converted to EUR in accordance with the policies disclosed in section 9 "Translation of assets and liabilities denominated in foreign currencies" in Note G1 "Accounting policies".

## P1

## Accounting policies, cont.

## Pensions

The accounting principle for defined benefit obligations follows the Swedish rules ("Tryggandelagen") and the regulations of the Swedish Financial Supervisory Authority as this is the condition for tax deductibility. The significant differences compared with IAS 19 consist of how the discount rate is determined, that the calculation of the defined benefit obligation is based on current salary level without assumptions about future salary increases and that all actuarial gains and losses are recognised in the income statement when they occur.

In Sweden, actuarial pension commitments are guaranteed by a pension foundation or recognised as a liability. No net defined benefit assets are recognised. The pension cost in the parent company, classified as "Staff cost" in the income statement, consists of changes in recognised pension provisions (including special wage tax) for active employees, pension

benefits paid, contributions made to or received from the pension foundation and related special wage tax.

## Group contributions

Group contributions paid to group undertakings are recognised as an increase in the value of investments in group undertakings, net of tax. Group contributions received from group undertakings are recognised as dividends. The possible tax effects on group contributions received are classified as "Income tax expense" in the income statement.

## Untaxed reserves

The parent company reports untaxed reserves, related to accelerated depreciation and tax allocation reserve under tax regulations. In the consolidated financial statements, untaxed reserves are split on the items "Retained earnings" and "Deferred tax liabilities" on the balance sheet.

### Additional disclosures on remuneration under Swedish FSA regulations and general guidelines

The qualitative disclosures under these regulations can be found in the separate section on remuneration in the Board of Directors' Report, while the quantitative disclosures will be published in a separate report on Nordea's homepage ([www.nordea.com](http://www.nordea.com)) one week before the Annual General Meeting on 14 March 2013.

### Compensation to key management personnel

Salaries and remuneration to the Board of Directors, CEO and Group Executive Management, see Note G7.

### Loans to key management personnel

Loans to key management personnel amounts to EUR 0m (EUR 0m). Interest income on these loans amounts to EUR 0m (EUR 0m). For information about loan conditions, see Note G7.

### Long Term Incentive Programmes

Participation in the Long Term Incentive Programmes (LTIPs) requires that the participants take direct ownership by investing in Nordea shares. For more information about conditions and requirements, see Note G7.

For information on number of outstanding conditional rights in the LTIPs, see Note G7. All rights in the LTIPs, both to employees in the parent company as well as to employees in group undertakings, are issued by Nordea Bank AB (publ).

The expenses in below table regards only employees in Nordea Bank AB (publ).

### Expenses for equity-settled share-based payment programmes<sup>1</sup>

| EURm                                     | LTIP 2012 | LTIP 2011 | LTIP 2010 | LTIP 2009 | LTIP 2008 |
|------------------------------------------|-----------|-----------|-----------|-----------|-----------|
| Expected expense for the whole programme | -8        | -8        | -4        | -4        | -3        |
| Maximum expense for the whole programme  | -13       | -10       | -7        | -4        | -3        |
| Total expense during 2012                | -2        | -3        | -1        | —         | —         |
| Total expense during 2011                | —         | -1        | -1        | -1        | —         |

1) All amounts excluding social security contribution.

When calculating the expected expense an expected annual employee turnover of 5% has been used in LTIP 2010, LTIP 2011 and LTIP 2012. The expected expense is recognised over the vesting period of 36 months (LTIP 2010, 2011 and 2012) and 24 months (LTIP 2009 and 2008).

### Cash-settled share-based payment transaction

Nordea operates share-linked deferrals on parts of variable compensation for certain employee categories, indexed with Nordea Total Shareholder Returns (TSR) and either vesting after three years or vesting in equal instalments over a three to five year period. Since 2011 Nordea also operates TSR-linked retention on part of variable compensation for certain employee categories. The below table only includes deferred amounts indexed with Nordea TSR. Nordea also operates deferrals not being TSR-linked, which are not included in the table below. Further information regarding all deferred amounts can be found in the separate report on remuneration published on Nordea's homepage ([www.nordea.com](http://www.nordea.com)).

| EURm                                                               | 2012     | 2011     |
|--------------------------------------------------------------------|----------|----------|
| Deferred TSR-linked compensation at beginning of the year          | 1        | 2        |

| <b>Deferred TSR-linked compensation at end of year<sup>2</sup></b> | <b>2</b> | <b>1</b> |

1) There have been no adjustments due to forfeitures in 2012.

2) Of which EUR 1m is available for disposal by the employees in 2013. Due to that the allocation of variable compensation is not finally decided during the current year, the deferred amount during the year relates to variable compensation earned the previous year.

**P17****Financial instruments pledged as collateral****Financial instruments pledged as collateral**

In repurchase transactions and in securities lending transactions, non-cash assets are transferred as collateral. When the counterpart receiving the collateral has the right to sell or repledge the assets, the assets are reclassified on the balance sheet to the item Financial instruments pledged as collateral.

| Carrying amount at beginning of year | -632           | 795            |
| Changes during the year              |                |                |
| Revaluation of hedged items          | -525           | -1,427         |
| Carrying amount at end of year       | -1,157         | -632           |
| Liabilities<br>EURm                  |                |                |
| Carrying amount at beginning of year | 147            | 749            |
| Changes during the year              |                |                |
| Revaluation of hedged items          | -131           | -602           |
| Carrying amount at end of year       | 16             | 147            |

The carrying amount at end of year represents accumulated changes in the fair value for those repricing time periods in which the hedged item is an asset respectively a liability. When the hedged item is an asset, the change in the fair value of the hedged item is presented within assets and when the hedged item is a liability, the change is presented as a liability.

1) Nominal value expressed in RUB, representing Nordea's participation in Vestkon.

2) Dormant.

3) Combined ownership, Nordea Bank AB (publ) directly 7.2% and indirectly 92.8% through OOO Promyshlennaya Kompaniya Vestkon.

## Special Purpose Entities (SPEs) – Consolidated

SPEs that have been set up for enabling investments in structured credit products and for acquiring assets from customers.

| EURm                                       | Purpose            | Duration | Nordea's investment | Total assets |
|--------------------------------------------|--------------------|----------|---------------------|--------------|
| Viking ABCP Conduit <sup>1</sup>           | Factoring          | <5 years | 1,230               | 1,326        |
| Kalmar Structured Finance A/S <sup>2</sup> | Credit Linked Note | <1 years | 1                   | 23           |
| <b>Total</b>                               |                    |          | <b>1,231</b>        | <b>1,349</b> |

1) The Viking ABCP Conduit (Viking) has been established with the purpose of supporting trade receivable or accounts payable securitisations to core Nordic customers. The SPEs purchase trade receivables from the approved sellers and fund the purchases either by issuing Commercial Papers (CP) via the established Asset Backed Commercial Papers programme or by drawing funds on the liquidity facilities available. Nordea has provided liquidity facilities of maximum EUR 1,691m and at year end 2012 EUR 1,230m were utilised. There is no outstanding CP issue at year end 2012. These SPEs are consolidated as they are closely linked to the activities within Nordea. Also, Nordea is exposed to credit risk through the liquidity facility. There are no significant restriction on repayment of loans from Viking apart from that the payments are dependant on the pace in which Viking realises its assets.

2) Kalmar Structured Finance A/S was established to allow customers to invest in structured products in the global credit markets. The SPE enters into Credit Default Swaps (CDS) and hereby acquires a credit risk on an underlying portfolio of names (like corporate names) and at the same time the SPE issues Credit Linked Notes (CLN) with a similar credit risk that reflects the terms in the CDSs. Nordea is the counterpart in the derivative transactions. The total notional of outstanding CLNs in this category was EUR 24m at year end 2012. Nordea holds CLNs issued by the SPE as part of offering a secondary market for the notes. The investment amounted to EUR 1m at year end 2012.

depending on the volume of business with different countries. Loan loss provisions for guarantees amounts to EUR 114m of which EUR 110m covers the guarantee in favour of Nordea Bank Finland Plc and EUR 3m covers the guarantee in favour of Nordea Bank Polska S.A. Loan loss provisions for other guarantees amounts to EUR 1m. Provisions related to state guarantees in Other provisions are reclassified to Accrued expenses.

## P33

## Retirement benefit obligations

**Pension provisions**

The pension liabilities of Nordea Bank AB (publ) are mainly covered by allocations to its pension foundation.

The provisions on the balance sheet pertain almost exclusively to former employees of Postgirot Bank. EUR 148m (EUR 127m) of the provisions are covered by "Tryggandelagen".

A small percentage of the pension obligations are covered by insurance policies.

The following figures are based on calculations in accordance with Swedish rules ("Tryggandelagen").

**Specification of amounts recognised on the balance sheet**

|                                                                                   | 31 Dec<br>2012 | 31 Dec<br>2011 |

| <b>Total</b>                                           | <b>4,457</b>   | <b>3,921</b>   |

1) Relates only to securities recognised on the balance sheet. Securities borrowed or bought under reverse repurchase agreements are not recognised on the balance sheet and thus not included in the amount. Such transactions are disclosed in Note P44. Obtained collaterals which are permitted to be sold or repledged.

Assets pledged for own liabilities contain securities pledged as security in repurchase agreement and in securities lending. The transactions are conducted under standard agreements employed by financial markets participants. Counterparts in those transactions are credit institutions and the public. The transactions are typically short term with maturity within three months.

**P37****Other assets pledged**

| EURm                              | 31 Dec<br>2012 | 31 Dec<br>2011 |

In the normal business of Nordea, the bank issues various forms of guarantees in favour of the bank's customers. Loan guarantees are given for customers to guarantee obligations in other credit- and pension institutions. Other guarantees consist mainly of commercial guarantees such as bid guarantees, advance payment guarantees, warranty guarantees and export related guarantees.

Nordea Bank AB (publ) has issued guarantees covering all commitments in Nordea Investment Management AB, org no 556060–2301 and Nordea Fastigheter AB, org no 556021–4917. The guarantee to Nordea Investment Management AB was withdrawn on 31 January 2013.

Nordea Bank AB (publ) has in December 2012 issued a guarantee of maximum EUR 60bn in favour of Nordea Bank Finland Plc where Nordea Bank AB (publ) guarantees the majority of the exposures in the exposure class IRB corporate in Nordea Bank Finland Plc. The guarantee covers EUR 41bn of corporate loans, guarantees, documentary credits and loan commitments. In addition, EUR 6bn of derivatives are covered by the guarantee as of 31 December 2012. The maximum amount of derivatives guaranteed is EUR 10bn. The guarantee increased the RWA by EUR 34bn, which was mitigated by and extraordinary dividend from Nordea Bank Finland Plc. The guarantee will generate commission income, while the losses recognized on the guaranteed exposures will be transferred to Nordea Bank AB. The guarantee is priced at arm's length, including expected credit losses and the cost of capital required by the guarantee. All internal transactions in the guarantee are eliminated in the consolidated accounts.

Nordea Bank AB (publ) has issued a guarantee of EUR 1,326m in favour of Nordea Bank Polska S.A. The guarantee covers a mortgage loan portfolio with real estate as collateral.

Nordea Bank AB (publ) has undertaken, in relation to certain individuals and on certain conditions, to be responsible for the potential payment liability against them in their capacity as managing directors or board member in group undertakings to Nordea Bank AB (publ).

A limited number of employees are entitled to severance pay if they are dismissed before reaching their normal retirement age.

**Legal proceedings**

Within the framework of the normal business operations, the company faces a number of claims in civil lawsuits and disputes, most of which involve relatively limited amounts. Presently, none of the current disputes are considered likely to have any significant adverse effect on the company or its financial position.

On 21 December 2012 Nordea Bank AB (publ) entered into a guarantee agreement with Nordea Bank Finland Plc. From a capital adequacy perspective the agreement implies that Nordea Bank AB (publ) guarantees the majority of the credit risk exposures in the exposure class IRB corporate in Nordea Bank Finland Plc. The RWA effect of the guarantee in Nordea Bank AB (publ) at 31 December 2012

equals approx. EUR 34bn. To reduce the impact of the increased RWA in Nordea Bank AB (publ), an extraordinary dividend payment of EUR 2.5bn was performed in December 2012 from Nordea Bank Finland Plc to Nordea Bank AB (publ). See Note P38 for more information.

More Capital Adequacy information can be found in the Risk, Liquidity and Capital Management section page 66.

## Financial assets and liabilities designated at fair value through profit or loss

Changes in fair values of financial liabilities attributable to changes in credit risk

The funding of Markets operations are measured at fair value and classified into the category "Fair value through profit or loss". The funding of Markets is generally of such a short term nature that the effect of changes in own credit risk is not significant.

## Changes in fair values of financial assets attributable to changes in credit risk

The lending in Markets is generally of such a short term nature (mainly overnight deposits) that the effect of changes in credit risk is not significant.

## Comparison of carrying amount and contractual amount to be paid at maturity

|                                                                       | Carrying amount | Amount to be paid at maturity |

## P42

## Assets and liabilities at fair value, cont

**Transfers between level 1 and 2**

During the year, the parent company has transferred debt securities of EUR 871m (EUR 671m) from level 1 to level 2 and EUR 453m (EUR 15m) from level 2 to level 1 of the fair value hierarchy for financial assets and liabilities at fair value. The reason for transfers from level 1 to level 2 was

that the instruments ceased to be actively traded during the year and fair values have now been obtained using valuation techniques with observable market inputs. The reason for transfers from level 2 to level 1 was that the instruments have again been actively traded during the year and reliable quoted prices are obtained in the markets.

## P44

## Transferred assets and obtained collaterals

**Transferred assets that are still recognised on the balance sheet and associated liabilities**

All assets transferred and the liabilities associated with these transactions are specified in the following tables. The assets continue to be recognised on the balance sheet since Nordea is still exposed to changes in the fair value of the assets. Therefore, these assets and its associated liabilities are included in the tables below.

| EURm                  | 31 Dec<br>2012 | 31 Dec<br>2011 |
|-----------------------|----------------|----------------|
| Repurchase agreements |                |                |
| Treasury bills        | 104            | 1,237          |
| <b>Total</b>          | <b>104</b>     | <b>1,237</b>   |

**Liabilities associated with the assets**

| EURm                            | 31 Dec<br>2012 | 31 Dec<br>2011 |
|---------------------------------|----------------|----------------|
| Repurchase agreements           |                |                |
| Deposits by credit institutions | 104            | 1,258          |
| <b>Total</b>                    | <b>104</b>     | <b>1,258</b>   |

**Obtained collaterals which are permitted to be sold or repledged**

Nordea obtains collaterals under reverse repurchase and securities borrowing agreements which, under the terms of the agreements, can be sold or repledged. The transactions are conducted under standard agreements employed by financial markets participants. Generally, the agreements require additional collateral to be provided if the value of the securities falls below a predetermined level. Under standard terms for most repurchase transactions, the recipient of collateral has an unrestricted right to sell or repledge it, subject to returning equivalent securities on settlement of the transactions. The fair value of the securities obtained as collateral under reverse repurchase and securities borrowing agreements are disclosed below.

| EURm                                                | 31 Dec<br>2012 | 31 Dec<br>2011 |

## **Report on the annual accounts and the consolidated accounts**

We have audited the annual accounts and the consolidated accounts of Nordea Bank AB (publ) for the year 2012. The annual accounts and the consolidated accounts of the company are included in the printed version of this document on pages 47–205.

*Responsibilities of the Board of Directors and the Managing Director for the annual accounts and the consolidated accounts*  
The Board of Directors and the Managing Director are responsible for the preparation and fair presentation of the annual accounts in accordance with the Annual Accounts Act of Credit Institutions and Security Companies and for the fair presentation of the consolidated accounts in accordance with the International Financial Reporting Standards, as adopted by the EU, and the Annual Accounts Act of Credit Institutions and Securities Companies, and for such internal control as the Board of Directors and the Managing Director determine is necessary to enable the preparation of annual accounts and the consolidated accounts that are free from material misstatement, whether due to fraud or error.

### *Auditor's responsibility*

Our responsibility is to express an opinion on these annual accounts and consolidated accounts based on our audit. We conducted our audit in accordance with International Standards on Auditing and generally accepted auditing standards in Sweden. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the annual accounts and the consolidated accounts are free from material misstatements. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the annual accounts and the consolidated accounts. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the annual accounts and the consolidated accounts, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation and fair presentation of the annual accounts and the consolidated accounts in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors and the Managing Director, as well as evaluating the overall presentation of the annual accounts and the consolidated accounts. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### *Opinions*

In our opinion, the annual accounts have been prepared in accordance with the Annual Accounts Act of Credit Institutions and Securities Companies, and present fairly, in all material respects, the financial position of the parent company as of 31 December 2012 and of its financial performance and cash flows for the year then ended in accordance with the Annual Accounts Act of Credit Institutions and Securities Companies. The consolidated accounts have been prepared in accordance with the Annual Accounts Act of Credit Institutions and Securities Companies, and present fairly, in all material respects, the financial position of the group as of 31 December 2012 and of its financial performance and cash flows for the year then ended in accordance with the International Financial Reporting Standards, as adopted by the EU, and the Annual Accounts Act of Credit Institutions and Securities Companies. A Corporate Governance Report has been prepared. The Board of Director's report and the Corporate Governance Report are consistent with the other parts of the annual accounts and the consolidated accounts.

We therefore recommend that the annual meeting of shareholders adopt the income statement and balance sheet of the parent company and the group.

## **Report on other legal and regulatory requirements**

In addition to our audit of the annual accounts and the consolidated accounts, we have also audited the proposed appropriations of the company's profit or loss and the administration of the Board of Directors and the Managing Director of Nordea Bank AB (publ) for the year 2012.

### *Responsibilities of the Board of Directors and the Managing Director*

The Board of Directors is responsible for the proposal for appropriations of the company's profit or loss, and the Board of Directors and the Managing Director are responsible for administration under the Companies Act and the Banking and Financing Business Act.

### *Auditor's responsibility*

Our responsibility is to express an opinion with reasonable assurance on the proposed appropriations of the company's profit or loss and on the administration based on our audit. We conducted the audit in accordance with generally accepted auditing standards in Sweden.

As a basis for our opinion on the Board of Directors' proposed appropriations of the company's profit or loss, we examined the Board of Directors' reasoned statement and a selection of supporting evidence in order to be able to assess whether the proposal is in accordance with the Companies Act.

As a basis for our opinion concerning discharge from liability, in addition to our audit of the annual accounts and the consolidated accounts, we examined significant decisions, actions taken and circumstances of the com-

pany in order to determine whether any member of the Board of Directors or the Managing Director is liable to the company. We also examined whether any member of the Board of Directors or the Managing Director has, in any other way, acted in contravention of the Companies Act, the Banking and Financing Business Act, the Annual Accounts Act of Credit Institutions and Securities Companies, or the Articles of Association.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

#### Opinions

We recommend to the annual meeting of shareholders that the profit be appropriated in accordance with the proposal in the Board of Director's report and that the members of the Board of Directors and the Managing Director be discharged from liability for the financial year.

Stockholm, 7 February 2013

## Cash flow statement *cont.*

### Comments on the cash flow statement

The cash flow statement has been prepared in accordance with IAS 7. The cash flow statement shows inflows and outflows of cash and cash equivalents during the year. Nordea Bank Finland's cash flow statement has been prepared in accordance with the indirect method, whereby operating profit is adjusted for effects of non-cash transactions such as depreciation and loan losses. The cash flows are classified into operating, investing and financing activities.

### Operating activities

Operating activities are the principal revenue-producing activities and cash flows are mainly derived from the operating profit for the year with adjustment for items not included in cash flow and income taxes paid. Adjustment for non-cash items includes:

| EURm                              | Group         |             | Parent company |             |
|-----------------------------------|---------------|-------------|----------------|-------------|
|                                   | 2012          | 2011        | 2012           | 2011        |
| Depreciation                      | 43            | 43          | 31             | 25          |
| Impairment charges                | 7             | -           | 7              | -4          |
| Loan losses                       | 171           | 97          | 134            | 60          |
| Unrealised gains/losses           | -2,293        | -689        | -2,293         | -691        |
| Capital gains/losses (net)        | -3            | -1          | 0              | 2           |
| Change in accruals and provisions | -148          | -23         | -144           | -23         |
| Translation differences           | -6            | 5           | -              | 6           |
| Other                             | 458           | 182         | 476            | 201         |
| <b>Total</b>                      | <b>-1,771</b> | <b>-386</b> | <b>-1,789</b>  | <b>-424</b> |

Changes in operating assets and liabilities consist of assets and liabilities that are part of normal business activities, such as loans, deposits and debt securities in issue. Changes in derivatives are reported net.

Cash flow from operating activities includes interest payments received and interest expenses paid with the following amounts:

| EURm                       | Group  |        | Parent company |        |
|----------------------------|--------|--------|----------------|--------|
|                            | 2012   | 2011   | 2012           | 2011   |
| Interest payments received | 2,486  | 2,483  | 2,266          | 2,262  |
| Interest expenses paid     | -1,090 | -1,137 | -1,087         | -1,134 |

### Cash and cash equivalents

The following items are included in cash and cash equivalents:

| EURm                                            | Group         |               | Parent company |               |
|-------------------------------------------------|---------------|---------------|----------------|---------------|
|                                                 | 31 Dec 2012   | 31 Dec 2011   | 31 Dec 2012    | 31 Dec 2011   |
| Cash and balances with central banks            | 30,004        | 286           | 30,004         | 286           |
| Loans to credit institutions, payable on demand | 2,855         | 17,695        | 2,843          | 17,680        |
|                                                 | <b>32,859</b> | <b>17,981</b> | <b>32,847</b>  | <b>17,966</b> |

Cash comprises legal tender and bank notes in foreign currencies. Balances with central banks consist of deposits in accounts with central banks and postal giro systems under government authority, where the following conditions are fulfilled:

- the central bank or the postal giro system is domiciled in the country where the institution is established
- the balance on the account is readily available any time.

Loans to credit institutions, payable on demand include liquid assets not represented by bonds or other interest-bearing securities.

|                                                                                         |    | 23. Related party transactions .....                        | 54 |

### 1. Basis for presentation

NBF's financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) and interpretations of such standards by the International Financial Reporting Interpretations Committee (IFRIC), as endorsed by the EU Commission. In addition, certain complementary rules in the Finnish Accounting Act, the Finnish Credit Institutions Act, the Financial Supervision Authority's Regulations and Guidelines and the Decision of the Ministry of Finance on the financial statements and consolidated statements of credit institutions have also been applied.

The disclosures, required in the standards, recommendations and legislation above, have been included in the notes, the Risk, Liquidity and Capital management section or in other parts of the "Financial statements".

On 28 February 2013 the Board of Directors approved the financial statements, subject to final approval of the Annual General Meeting on 11 March 2013.

### 2. Changed accounting policies and presentation

The accounting policies and presentation are, in all material aspects, unchanged in comparison with the 2011 Annual Report, mainly apart from the categorisation of commissions within Note 4 "Net fee and commission income" and the definition of impaired loans in Note 13 "Loans and impairment".

These changes are further described below.

In addition, to provide more relevant information of the nature and the characteristics of the assets on the balance sheet, loans to central banks have been separated from loans to credit institutions and are reported on a new line on the balance sheet. The comparative figures have been restated accordingly.

Further, the balance sheet lines "Treasury bills" and "Interest-bearing securities" have been merged and are now reported as "Interest-bearing securities". The comparative figures have been restated accordingly. Below follows also a section covering other changes in IFRSs implemented in 2012, which have not had any significant impact on Nordea.

#### Definition of impaired loans

The definition of impaired loans has been changed and the disclosure includes all loans that have, as a consequence of identified loss event, been written down either individually, for individually significant loans or as part of a portfolio, for individually insignificant loans.

This definition of impaired loans provides more granular information of the loans actually impaired.

The income statement and balance sheet are unaffected by this change. The comparative figures have been restated accordingly and are disclosed in the table below.

| EURm             | 31 Dec 2011<br>Group |            | 31 Dec 2011<br>Parent company |            |
|------------------|----------------------|------------|-------------------------------|------------|
|                  | New policy           | Old policy | New policy                    | Old policy |
| Impaired loans   | 1,498                | 1,922      | 1,280                         | 1,751      |
| - Performing     | 729                  | 1,075      | 611                           | 1,018      |
| - Non-performing | 769                  | 847        | 669                           | 733        |

### Categorisation of commissions

The categorisation of commissions within “Net fee and commission income” has been improved by merging similar types of commissions. Commissions received for securities issues, corporate financial activities and issuer services were reclassified from “Payments” and “Other commission income” to the renamed lines “Brokerage, securities issues and corporate finance” and “Custody and issue services”. This categorisation better describes the types of commission recognised in the income statement. The comparable figures have been restated accordingly and are disclosed in the table below.

| Group                                              | 2011       |            |
|----------------------------------------------------|------------|------------|
|                                                    | New policy | Old policy |
| EURm                                               |            |            |
| Brokerage, securities issues and corporate finance | 73         | 25         |
| Custody and issuer services                        | 26         | 21         |
| Other commission income                            | 31         | 84         |

| Parent company                                     | 2011       |            |
|----------------------------------------------------|------------|------------|
|                                                    | New policy | Old policy |
| EURm                                               |            |            |
| Brokerage, securities issues and corporate finance | 73         | 25         |
| Custody and issuer services                        | 26         | 21         |
| Other commission income                            | 29         | 82         |

### Changes in IFRSs implemented in 2012

IASB has amended IAS 1 “Presentation of Financial Statements” (Presentation of Items of Other Comprehensive Income), IFRS 7 “Financial instruments: Disclosures” (Transfers of Financial Assets) and IAS 12 “Income taxes” (Recovery of Underlying Assets) and the amendments have been implemented in Nordea as from 1 January 2012.

The amendments to IAS 1 have changed Nordea’s presentation of other comprehensive income so that items that can later be reclassified to profit or loss are separated from the items that will not. The amendments to IFRS 7 have not added any new disclosures as Nordea has not transferred assets where there is a continuing involvement. The amended IAS 12 has not had any significant impact on the financial statements or on the capital adequacy in Nordea.

### 3. Changes in IFRS not yet applied by Nordea

#### IFRS 9 “Financial instruments” (Phase 1)

In 2009 the IASB published a new standard on financial instruments containing requirements for financial assets. Requirements for financial liabilities were added to this standard in 2010. The standard is the first step in the replacement of IAS 39 “Financial instruments: Recognition and Measurement” and this first phase covers the classification and measurement of financial assets and liabilities. The effective date is

1 January 2015, but earlier application is permitted. The EU commission has not yet endorsed this standard.

The tentative assessment is that there will be an impact on the financial statements as the new standard will decrease the number of measurement categories and therefore have an impact on the presentation and disclosures covering financial instruments. The new standard is, on the other hand, not expected to have a significant impact on Nordea’s income statement and balance sheet as the mixed measurement model will be maintained. No significant reclassifications between fair value and amortised cost or impact on the capital adequacy are expected, but this is naturally dependent on the financial instruments in Nordea’s balance sheet at transition. It is furthermore expected that changes will be made to the standard before the standard becomes effective.

Nordea has, due to the fact that the standard is not yet endorsed by the EU commission and as changes before the effective date are likely, not finalised the investigation of the impact on the financial statements in the period of initial application or in subsequent periods.

#### IFRS 10 “Consolidated Financial Statements”, IFRS 11 “Joint Arrangements”, IFRS 12 “Disclosures of Interests in Other entities”, IAS 27 “Separate Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures”

The IASB has published three new standards relating to consolidation, IFRS 10, IFRS 11 and IFRS 12, as well as amended IAS 27 and IAS 28. The effective date for these standards and amendments is 1 January 2013, but earlier application is permitted. The EU commission has endorsed these standards and amendments during 2012. In contrast to IFRS, the EU commission requires the standards to be applied for financial statements starting on or after 1 January 2014. Nordea will apply these standards as from 1 January 2014.

A potential impact from the new definition of control is that Nordea will have to consolidate additional entities (including so called Structured Entities or Special Purpose Entities, SPEs). Nordea’s current assessment is that no additional entities that significantly affect Nordea’s income statement, balance sheet or equity will have to be consolidated, although some uncertainty still remains around some mutual funds. If the funds have to be consolidated it will not affect the income statement, but it will have an impact on Nordea’s balance sheet and if those entities hold Nordea shares that will have to be eliminated in the Nordea Group there will be an impact on the equity. The new standards furthermore include more extensive disclosure requirements which will have an impact on Nordea’s disclosures covering consolidated and

unconsolidated entities. Otherwise, the new standards and amendments are not expected to have a significant impact on Nordea's income statement or balance sheet. It is not expected that the new standards and amendments will have a significant impact on the capital adequacy.

Nordea has not finalised the investigation of the impact on the financial statements in the period of initial application or in subsequent periods.

#### **IFRS 13 "Fair Value Measurement"**

The IASB has published IFRS 13 "Fair Value Measurement". The effective date is 1 January 2013, but earlier application is permitted. The EU commission endorsed this standard during 2012. Nordea will apply this standard as from 1 January 2013.

IFRS 13 clarifies how to measure fair value but does not change the requirements regarding which items should be measured at fair value. In addition IFRS 13 requires additional disclosures about fair value measurements.

The assessment is that the new standard will not have any significant impact on the income statement or balance sheet. There will, on the other hand, be an impact on the disclosures as the new standard requires more extensive disclosures regarding fair value measurements, especially for fair value measurements in level 3 of the fair value hierarchy.

The assessment is that the new standard will not have a significant impact on the capital adequacy.

#### **IAS 19 "Employee Benefits"**

IASB has amended IAS 19. The effective date is 1 January 2013, but earlier application is permitted. The EU commission has endorsed this amendment during 2012. Nordea will apply this amendment as from 1 January 2013.

The amended standard will have an impact on the financial statements in the period of initial application, as well as in subsequent periods. This is mainly related to defined benefit plans. The amended IAS 19 states that actuarial gains/losses shall be recognised immediately in equity through other comprehensive income, which will lead to higher volatility in equity compared to the current corridor approach. Consequently no actuarial gains/losses will be recognised in the income statement. Under current IAS 19, actuarial gain/losses outside the corridor are amortised through the income statement.

The amended IAS 19 furthermore states that the expected return on plan assets shall be recognised using the same interest rate as the discount rate used when measuring the pension obligation. This will lead to higher pension expenses in the income statement as Nordea currently expects a higher return than the discount rate. Any difference between the actual return and the expected return will be a part of the actuarial gains/losses recognised immediately in equity through other comprehensive income without recycling to the income statement.

The unrecognised actuarial losses at 31 December 2012 amounted to EUR 82m in NBF before income tax. This will at transition have a negative impact on equity of EUR 62m after income tax. If implemented on 31 December 2012, NBF's core tier 1 capital would have been reduced by EUR 41m, including impact from changes in deferred tax assets. The impact on the income statement is not expected to be significant. See note 33 "Retirement benefit obligations" for more information.

#### **IAS 32 Financial Instrument: Presentation**

IAS 32 "Financial Instruments: Presentation" has been amended. The change relates to offsetting of financial assets and financial liabilities. The amendment is not intended to change the criteria for offsetting, but to give additional guidance on how to apply the existing criteria.

The effective date is 1 January 2014 but earlier application is permitted. The EU commission endorsed these amendments during 2012. Nordea will apply this amendment as from 1 January 2013. The assessment is that the amended standard will not have any significant impact on the financial statements or on the capital adequacy.

#### **IFRS 7 Financial instruments: Disclosures**

IFRS 7 "Financial instruments: Disclosures" has furthermore been amended and will lead to additional disclosures around offsetting of financial assets and financial liabilities.

The effective date is 1 January 2013, but earlier application is permitted. The EU commission has endorsed these amendments during 2012. Nordea will apply this amendment as from 1 January 2013.

The amended standard will not have any impact on the financial statements, apart from disclosures, or on the capital adequacy.

#### 4. Critical judgements and estimation uncertainty

The preparation of financial statements in accordance with generally accepted accounting principles requires, in some cases, the use of judgements and estimates by management. Actual outcome can later, to some extent, differ from the estimates and the assumptions made. In this section Nordea describes:

- the sources of estimation uncertainty at the end of the reporting period that have a significant risk of resulting in a material adjustment to the carrying amount of assets and liabilities within the next financial year and
- the judgements made when applying accounting policies (apart from those involving estimations) that have the most significant effect on the amounts recognised in the financial statements.

Critical judgements and estimates are in particular associated with:

- the fair value measurement of certain financial instruments
- the impairment testing of:
  - goodwill and
  - loans to the public/credit institutions
- the effectiveness testing of cash flow hedges
- the actuarial calculations of pension liabilities and plan assets related to employees
- the valuation of investment properties
- the classification of leases
- the translations of assets and liabilities denominated in foreign currencies
- the valuation of deferred tax assets
- claims in civil lawsuits.

##### **Fair value measurement of certain financial instruments**

Nordea's accounting policy for determining the fair value of financial instruments is described in section 11 "Determination of fair value of financial instruments" and Note 41 "Assets and liabilities at fair value".

Critical judgements that have a significant impact on the recognised amounts for financial instruments are exercised when determining fair value of OTC derivatives and other financial instruments that lack quoted prices or recently observed market prices.

Those judgements relate to the following areas:

- The choice of valuation techniques
- The determination of when quoted prices fail to represent fair value (including the judgement of whether markets are active)
- The construction of fair value adjustments in order to incorporate relevant risk factors such as credit risk, model risk and liquidity risk
- The judgement of which market parameters are observable.

When determining fair value of financial instruments that lack quoted prices or recently observed market prices there is also a high degree of estimation uncertainty. That estimation uncertainty is mainly a result of the judgement management exercises when:

- selecting an appropriate discount rate for the instrument and
- determining expected timing of future cash flows from the instruments.

In all of these instances, decisions are based upon professional judgement in accordance with Nordea's accounting and valuation policies. In order to ensure proper governance, Nordea has a Group Valuation Committee that on an on-going basis reviews critical judgements that are deemed to have a significant impact on fair value measurements.

Sensitivity analysis disclosures covering fair values of financial instruments with significant unobservable inputs can be found in Note 41 "Assets and liabilities at fair value".

##### **Impairment testing of goodwill**

Nordea's accounting policy for goodwill is described in section 15 "Intangible assets". Note 21 "Intangible assets" lists the cash generating units to which goodwill has been allocated.

The rates used to discount future expected cash flows are based on the long-term risk free interest rate plus a risk premium (post tax). The risk premium is based on external information of overall risk premiums in relevant countries.

For information on the sensitivity to changes in relevant parameters, see Note 21 "Intangible assets".

##### **Impairment testing of loans to the public/credit institutions**

Nordea's accounting policy for impairment testing of loans is described in section 13 "Loans to the public/credit institutions".

Management is required to exercise critical judgements and estimates when calculating loan impairment allowances on both individually assessed and collectively assessed loans. NBF's total lending before impairment allowances was EUR 102bn (100) at the end of the year. For more information, see Note 13 "Loans and impairment".

The most judgemental area is the calculation of collective impairment allowances. When testing a group of loans collectively for impairment, judgement has to be exercised when identifying the events and/or the observable data that indicate that losses have been incurred in the group of loans. Nordea monitors its portfolio through rating migrations and a loss event is an event resulting in a negative rating migration. Assessing the net present value of the cash flows generated by the customers in the group of loans also includes estimation uncertainty. This includes the use of historical data on probability of default and loss given default supplemented by acquired experience when adjusting the assumptions based on historical data to reflect the current situation.

#### **Effectiveness testing of cash flow hedges**

Nordea's accounting policies for cash flow hedges are described in section 9 "Hedge accounting".

One important judgement in connection to cash flow hedge accounting is the choice of method used for effectiveness testing.

Where Nordea applies cash flow hedge accounting the hedging instruments used are predominantly cross currency interest rate swaps, which are always held at fair value. The currency component is designated as a cash flow hedge of currency risk and the interest component as a fair value hedge of interest rate risk. The hypothetical derivative method is used when measuring the effectiveness of these cash flow hedges, meaning that the change in a perfect hypothetical swap is used as proxy for the present value of the cumulative change in expected future cash flows on the hedged transaction (the currency component). Critical judgement has to be exercised when defining the characteristics of the perfect hypothetical swap.

#### **Actuarial calculations of pension liabilities and plan assets related to employees**

Nordea's accounting policy for post-employment benefits is described in section 19 "Employee benefits".

The Projected Benefit Obligation (PBO) for major pension plans is calculated by external actuaries using demographic assumptions based on the current population. As a basis for these calculations a number of actuarial and financial parameters are used.

The estimation of the discount rate is subject to uncertainty around whether corporate bond markets are deep enough, of high quality and also in connection to the extrapolation of yield curves to relevant maturities. In Finland the discount rate is determined with reference to corporate bonds. Other parameters like assumptions about salary increases and inflation are based on the expected long-term development of these parameters and are also subject to estimation uncertainty. The fixing of these parameters at year-end

is disclosed in Note 33 "Retirement benefit obligations" together with a description of the discount rate sensitivity.

The expected return on plan assets is estimated taking into account the asset composition and based on long-term expectations on the return on the different asset classes. On bonds this is linked to the discount rate while equities and real estate have an added risk premium, both are subject to estimation uncertainty. The expected return is disclosed in Note 33 "Retirement benefit obligations".

#### **Valuation of investment properties**

Nordea's accounting policies for investment properties are described in section 17 "Investment property".

Investment properties are measured at fair value. As there normally are no active markets for investment properties, the fair values are estimated based on discounted cash flow models. These models are based on assumptions on future rents, vacancy levels, operating and maintenance costs, yield requirements and interest rates.

The carrying amounts of investment property were EUR 104m (71) at the end of the year. See Note 24 "Investment property" for more information on amounts and parameters used in these models.

#### **Classification of leases**

Nordea's accounting policies for leases are described in section 14 "Leasing".

Critical judgement has to be exercised when classifying lease contracts. A lease is classified as a finance lease if it transfers substantially all the risks and rewards related to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards related to ownership.

The central district properties in Finland, Norway and Sweden that Nordea has divested are leased back. The duration of the lease agreement was initially 3-25 years with renewal options. The lease agreements include no transfers of ownerships of the asset by the end of the lease term, nor any economic benefit from appreciation in value of the leased property. In addition, the lease term is not for the major part of the assets' economic life. As a result, Nordea has classified these leases as operating leases. This judgement is a critical judgement that has a significant impact on the carrying amounts in the financial statement.

More information on lease contracts can be found in Note 14 "Leasing".

#### **Translation of assets and liabilities denominated in foreign currencies**

Nordea's accounting policies covering the translation of assets and liabilities denominated in foreign currencies is described in section 8 "Translation of

assets and liabilities denominated in foreign currencies”.

#### **Valuation of deferred tax assets**

Nordea’s accounting policy for the recognition of deferred tax assets is described in section 18 “Taxes” and Note 12 “Taxes”.

The valuation of deferred tax assets is influenced by management’s assessment of Nordea’s future profitability and sufficiency of future taxable profits and future reversals of existing taxable temporary differences. These assessments are updated and reviewed at each balance sheet date, and are, if necessary, revised to reflect the current situation.

The carrying amount of deferred tax assets was EUR 16m (16) at the end of the year.

#### **Claims in civil lawsuits**

Within the framework of the normal business operations, Nordea faces a number of claims in civil lawsuits and disputes, most of which involve relatively limited amounts. Presently none of the current disputes are considered likely to have any significant adverse effect on Nordea or its financial position. See also Note 32 “Provisions” and Note 37 “Contingent liabilities”.

## **5. Principles of consolidation**

#### **Consolidated entities**

The consolidated financial statements include the accounts of the parent company Nordea Bank Finland Plc, and those entities that the parent company controls. Control is generally achieved when the parent company owns, directly or indirectly through group undertakings, more than 50 per cent of the voting rights or otherwise has the power to govern the financial and operating policies of the entity.

All Group undertakings are consolidated using the acquisition method. Under the acquisition method, the acquisition is regarded as a transaction whereby the parent company indirectly acquires the group undertaking’s assets and assumes its liabilities and contingent liabilities. The Group’s acquisition cost is established in a purchase price allocation analysis. In such analysis, the cost of the business combination is the aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed and equity instruments issued by the acquirer, in exchange for the identifiable net assets acquired. Costs directly attributable to the business combination are expensed.

As at the acquisition date NBF recognises the identifiable assets acquired and the liabilities assumed at their acquisition date fair values.

For each business combination NBF measures the non-controlling interest in the acquired business either at fair value or at their proportionate share of the acquired identifiable net assets.

When the aggregate of the consideration transferred in a business combination and the amount recognised for non-controlling interest exceeds the net fair value of the identifiable assets, liabilities and contingent liabilities, the excess is reported as goodwill. If the difference is negative, such difference is recognised immediately in the income statement.

Equity and net income attributable to non-controlling interests are separately disclosed on the balance sheet, income statement and statement of comprehensive income.

Intra-group transactions and balances between the consolidated group undertakings are eliminated.

The Group undertakings are included in the consolidated accounts as from the date on which control is transferred to NBF and are no longer consolidated as from the date on which control ceases.

In the consolidation process the reporting from the group undertakings is adjusted to ensure consistency with the IFRS principles applied by Nordea.

#### *Investments in associated undertakings*

The equity method of accounting is used for associated undertakings where the share of voting rights is between 20 and 50 per cent and/or where NBF has significant influence. Significant influence is the power to participate in the financial and operating decisions of the investee but is not control over those policies. Investments within Nordea’s investment activities, which are classified as a venture capital organisation within Nordea, are measured at fair value in accordance with the rules set out in IAS 28 and IAS 39. Further information on the equity method is disclosed in section 6 “Recognition of operating income and impairment”.

Profits from companies accounted for under the equity method are reported post-taxes in the income statement. Consequently, the tax expense related to these profits is not included in the income tax expense for Nordea.

Internal transactions, in the income statement, between Nordea and its associated undertakings are not eliminated. Nordea does not have any sales of assets to or from associated undertakings.

### *Special Purpose Entities (SPE)*

A SPE is an entity created to accomplish a narrow and well defined objective. Often legal arrangements impose strict limits on the decision making powers of the management over the on-going activities of the SPE.

Nordea does not consolidate SPEs' assets and liabilities beyond its control. In order to determine whether Nordea controls a SPE or not, Nordea has to make judgements about risks and rewards and assess the ability to make operational decisions for the SPE in question. When assessing whether NBF shall consolidate a SPE, a range of factors are evaluated. These factors include whether the activities of the SPE are being in substance conducted on NBF's behalf or if NBF has in substance the decision making powers, the rights to obtain the majority of the benefits or the majority of the residual- or ownership risks. NBF consolidates all SPEs, where NBF has retained the majority of the risks and rewards. For the SPEs that are not consolidated the rationale is that NBF does not have significant risks or rewards in connection to these assets and liabilities.

Nordea has created a number of SPEs to allow clients to invest in assets invested in by the SPEs. Some SPEs invest in tradable financial instruments, such as shares and bonds (mutual funds). Other SPEs invest in structured credit products or acquire assets from customers of Nordea. Nordea is generally the investment manager and has sole discretion about investments and other administrative decisions. Typically, Nordea will receive service and commission fees in connection to the creation of the SPEs, or because it acts as investment manager, custodian or in some other function. This in itself does not constitute a beneficial interest triggering consolidation. In some SPEs Nordea has also supplied substantial parts of the funding in the form of fund units, loans or credit commitments. In these SPEs Nordea has a beneficial interest and retains the majority of the risks and rewards, which is why these SPEs are consolidated. Note 19 "Investments in group undertakings" lists the major group undertakings in the NBF Group, including consolidated SPEs.

### **Currency translation of foreign entities**

The consolidated financial statements are prepared in euro (EUR), the presentation currency of the parent company Nordea Bank Finland Plc. The current method is used when translating the financial statements of foreign entities into EUR from their functional currency. The assets and liabilities of foreign entities have been translated at the closing rates, while items in the income statements and statements of comprehensive income are translated at the average exchange rate for the year. Translation

differences are accounted for in other comprehensive income and are accumulated in the translation reserve in equity.

Goodwill and fair value adjustments arising from the acquisition of group undertakings are treated as items in the same functional currency as the cash generating unit to which they belong and are also translated at the closing rate.

## **6. Recognition of operating income and impairment**

### **Net interest income**

Interest income and expense are calculated and recognised based on the effective interest rate method or, if considered appropriate, based on a method that results in an interest income or interest expense that is a reasonable approximation of using the effective interest rate method as basis for the calculation. The effective interest includes fees considered to be an integral part of the effective interest rate of a financial instrument (generally fees received as compensation for risk). The effective interest rate equals the rate that discounts the contractual future cash flows to the carrying amount of the financial asset or financial liability.

Interest income and expenses from financial instruments are, with the exceptions described below, classified as "Net interest income".

Interest income and interest expense related to all balance sheet items held at fair value in Markets are classified as "Net result from items at fair value" in the income statement. Also the interest on the net funding of the operations in Markets is recognised on this line.

The interest component in FX swaps, and the interest paid and received in interest rate swaps plus changes in accrued interest, is classified as "Net result from items at fair value", apart for derivatives used for hedging, including economical hedges of Nordea's funding, where such components are classified as "Net interest income".

### **Net fee and commission income**

Nordea earns commission income from different services provided to its customers. The recognition of commission income depends on the purpose for which the fees are received. Fees are either recognised as revenue when services are provided or in connection to the execution of a significant act. Fees received in connection to performed services are recognised as income in the period these services are provided. A loan syndication fee received as payment for arranging a loan, as well as other fees received as payments for certain acts, are recognised as revenue when the act has been completed, i.e. when the syndication has been finalised.

Commission expenses are normally transaction based and recognised in the period when the services are received.

Income from issued financial guarantees and expenses from bought financial guarantees, including fees paid to state guarantees, are amortised over the duration of the instruments and classified as “Fee and commission income” and “Fee and commission expense” respectively.

#### **Net result from items at fair value**

Realised and unrealised gains and losses on financial instruments measured at fair value through profit or loss are recognised in the item “Net result from items at fair value”.

Realised and unrealised gains and losses derive from:

- Shares/participations and other share-related instruments
- Interest-bearing securities and other interest-related instruments
- Other financial instruments, including credit derivatives as well as commodity instruments/derivatives
- Foreign exchange gains/losses
- Investment properties, which include realised and unrealised income, for instance revaluation gains and losses. This line also includes realised results from disposals as well as the running property yield stemming from the holding of investment properties.

Interest income and interest expense related to all balance sheet items in Markets and , including the net funding of the operations in Markets, are classified as “Net result from items at fair value”.

Also the ineffective portion of cash flow hedges and net investment hedges as well as recycled gains and losses on financial instruments classified into the category Available for sale are recognised in “Net result from items at fair value”.

This item also includes realised gains and losses from financial instruments measured at amortised cost, such as interest compensation received and realised gains/losses on buy-backs of issued own debt.

“Net result from items at fair value” also includes losses from counterparty risk on instruments classified into the category Financial assets at fair value through profit or loss as well as impairment on instruments classified into the category Available for sale. Impairment losses from instruments within other categories are recognised in the items “Net loan losses” or “Impairment of securities held as financial non-current assets” (see also the sub-sections “Net loan losses” and “Impairment of securities held as financial non-current assets” below).

Dividends received are recognised in the income statement as “Net result from items at fair value” and classified as “Shares/participations and other share-related instruments” in the note. Income is recognised in the period in which the right to receive payment is established.

#### **Profit from companies accounted for under the equity method**

The profit from companies accounted for under the equity method is defined as the post-acquisition change in NBF’s share of net assets in the associated undertakings. NBF’s share of items accounted for in other comprehensive income in the associated undertakings is accounted for in other comprehensive income in NBF. Profits from companies accounted for under the equity method are, as stated in section 5 “Principles of consolidation”, reported in the income statement post-taxes. Consequently the tax expense related to these profits is excluded from the income tax expense for NBF.

Fair values are, at acquisition, allocated to the associated undertaking’s identifiable assets, liabilities and contingent liabilities. Any difference between NBF’s share of the fair values of the acquired identifiable net assets and the purchase price is goodwill or negative goodwill. Goodwill is included in the carrying amount of the associated undertaking. Subsequently the investment in the associated undertaking increases/decreases with NBF’s share of the post-acquisition change in net assets in the associated undertaking and decreases through received dividends and impairment. An impairment charge can be reversed in a subsequent period.

The change in Nordea’s share of the net assets is generally based on monthly reporting from the associated undertakings. For some associated undertakings that are not individually significant, the change in Nordea’s share of the net assets is based on the external reporting of the associated undertakings and affects the financial statements of Nordea in the period in which the information is available. The reporting from the associated undertakings is, if applicable, adjusted to comply with Nordea’s accounting policies.

#### **Other operating income**

Net gains from divestments of shares in group undertakings and associated undertakings and net gains on sale of tangible assets as well as other operating income, not related to any other income line, are generally recognised when it is probable that the benefits associated with the transaction will flow to Nordea and if the significant risks and rewards have been transferred to the buyer (generally when the transactions are finalised).

#### **Net loan losses**

Impairment losses from financial assets classified into the category Loans and receivables (see section 12 "Financial instruments"), in the items "Loans to central banks", "Loans to credit institutions" and "Loans to the public" on the balance sheet, are reported as "Net loan losses" together with losses from financial guarantees. Losses are reported net of any collateral and other credit enhancements. Nordea's accounting policies for the calculation of impairment losses on loans can be found in section 13 "Loans to the public/credit institutions".

Counterparty losses on instruments classified into the category Financial assets at fair value through profit or loss, including credit derivatives but apart from loans held at fair value as described above, as well as impairment on financial assets classified into the category Available for sale are reported under "Net result from items at fair value".

#### **Impairment of securities held as financial non-current assets**

Impairment on investments in interest-bearing securities, classified into the categories Loans and receivables or Held to maturity, and on investments in associated undertakings are classified as "Impairment of securities held as financial non-current assets" in the income statement. The policies covering impairment of financial assets classified into the categories Loans and receivables and Held to maturity are disclosed in section 12 "Financial instruments" and section 13 "Loans to the public/credit institutions".

Investments in associated undertakings are assessed for impairment annually. If observable indicators (loss events) indicate that an associated undertaking is impaired, an impairment test is performed to assess whether there is objective evidence of impairment. The carrying amount of the investment in the associate is compared with the recoverable amount (higher of value in use and fair value less cost to sell) and the carrying amount is written down to the recoverable amount if required.

Impairment losses are reversed if the recoverable amount increases. The carrying amount is then increased to the recoverable amount, but cannot exceed the carrying amount that would have been determined had no impairment loss been recognised.

#### **7. Recognition and derecognition of financial instruments on the balance sheet**

Derivative instruments, quoted securities and foreign exchange spot transactions are recognised on and derecognised (reclassified to the items "Other assets" or "Other liabilities" on the balance sheet between trade date and settlement date) from the balance sheet

on the trade date. Other financial instruments are recognised on the balance sheet on the settlement date.

Financial assets, other than those for which trade date accounting is applied, are derecognised from the balance sheet when the contractual rights to the cash flows from the financial asset expire or are transferred to another party. The rights to the cash flows normally expire or are transferred when the counterpart has performed by e.g. repaying a loan to Nordea, i.e. on the settlement date.

In some cases, Nordea enters into transactions where it transfers assets that are recognised on the balance sheet, but retains either all or a portion of risks and rewards from the transferred assets. If all or substantially all risks and rewards are retained, the transferred assets are not derecognised from the balance sheet. If Nordea's counterpart can sell or repledge the transferred assets, the assets are reclassified to the item "Financial instruments pledged as collateral" on the balance sheet. Transfers of assets with retention of all or substantially all risks and rewards include e.g. security lending agreements and repurchase agreements.

Financial liabilities are derecognised from the balance sheet when the liability is extinguished. Normally this occurs when Nordea performs, for example when Nordea repays a deposit to the counterpart, i.e. on the settlement date. Financial liabilities under trade date accounting are generally reclassified to "Other liabilities" on the balance sheet on the trade date.

For further information see sections "Securities borrowing and lending agreements" and "Repurchase and reverse repurchase agreements" within 12 "Financial instruments", as well as Note 42 "Transferred assets and obtained collaterals".

#### **8. Translation of assets and liabilities denominated in foreign currencies**

The functional currency of each entity is decided based upon the primary economic environment in which the entity operates. Foreign currency is defined as any currency other than the functional currency of the entity. Foreign currency transactions are recorded at the exchange rate on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate on the balance sheet date.

Exchange differences arising on the settlement of transactions at rates different from those at the date of the transaction, and unrealised translation differences on unsettled foreign currency monetary assets and liabilities, are recognised in the income statement in the item "Net result from items at fair value".

## 9. Hedge accounting

Nordea applies the EU carve out version of IAS 39 for portfolio hedges of both assets and liabilities. The EU carve out macro hedging enables a group of derivatives (or proportions thereof) to be viewed in combination and designated as the hedging instrument and removes some of the limitations in fair value hedge accounting relating to hedging core deposits and under-hedging strategies.

Nordea uses hedge accounting in order to have a symmetrical accounting treatment of the changes in fair value of the hedged item and changes in fair value of the hedging instruments as well as to hedge the exposure to variability in future cash flows and the exposure to net investments in foreign operations.

There are three forms of hedge accounting:

- Fair value hedge accounting
- Cash flow hedge accounting
- Hedges of net investments in foreign operations.

NBF currently applies fair value hedge accounting and cash flow hedge accounting.

### **Fair value hedge accounting**

Fair value hedge accounting is used when derivatives are hedging changes in fair value of a recognised asset or liability attributable to a specific risk. The risk of changes in fair value of assets and liabilities in Nordea's financial statements originates mainly from loans, securities and deposits with a fixed interest rate, causing interest rate risk. Changes in fair value from derivatives as well as changes in fair value of the hedged item attributable to the risks being hedged are recognised separately in the income statement in the item "Net result from items at fair value". Given an effective hedge, the two changes in fair value will more or less balance, meaning the net result is close to zero. The changes in fair value of the hedged item attributable to the risks hedged with the derivative instrument are reflected in an adjustment to the carrying amount of the hedged item, which is also recognised in the income statement. The fair value change of the hedged items held at amortised cost in a portfolio hedge of interest rate risks is reported separately from the portfolio in the item "Fair value changes of the hedged items in portfolio hedge of interest rate risk" on the balance sheet.

Fair value hedge accounting in Nordea is performed mainly on a portfolio basis. Any ineffectiveness is recognised in the income statement under the item "Net result from items at fair value".

### *Hedged items*

A hedged item in a fair value hedge can be a recognised single asset or liability, an unrecognised firm commitment, or a portion thereof. The hedged item can also be a group of assets, liabilities or firm

commitments with similar risk characteristics. Hedged items in Nordea consist of both individual assets or liabilities and portfolios of assets and/or liabilities.

### *Hedging instruments*

The hedging instruments used in Nordea are predominantly interest rate swaps and cross currency interest rate swaps, which are always held at fair value. Cash instruments are only used in a few transactions as hedging instruments when hedging currency risk.

### **Cash flow hedge accounting**

Cash flow hedge accounting can be used for the hedging of exposure to variations in future interest payments on instruments with variable interest rates and for the hedging of currency exposures. The portion of the gain or loss on the hedging instrument, that is determined to be an effective hedge, is recognised in other comprehensive income and accumulated in the cash flow hedge reserve in equity. The ineffective portion of the gain or loss on the hedging instrument is recycled to the item "Net result from items at fair value" in the income statement.

Gains or losses on hedging instruments recognised in the cash flow hedge reserve in equity through other comprehensive income are recycled and recognised in the income statement in the same period as the hedged item affects profit or loss, normally in the period that interest income and interest expense is recognised.

### *Hedged items*

A hedged item in a cash flow hedge can be highly probable floating interest rate cash flows from recognised assets or liabilities or from future assets or liabilities. Nordea uses cash flow hedges when hedging currency risk in future payments of interest and principal in foreign currency.

### *Hedging instruments*

The hedging instruments used in Nordea are predominantly cross currency interest rate swaps, which are always held at fair value, where the currency component is designated as a cash flow hedge of currency risk and the interest component as a fair value hedge of interest rate risk.

### **Hedge effectiveness**

The application of hedge accounting requires the hedge to be highly effective. A hedge is regarded as highly effective if at inception and throughout its life it can be expected that changes in fair value of the hedged item as regards the hedged risk can be essentially offset by changes in fair value of the hedging instrument. The result should be within a range of 80–125 per cent. When assessing hedge effectiveness retrospectively Nordea measures the fair value of the hedging instruments and compares the change in fair value of the hedging instrument to the change in fair value of the hedged item. The effectiveness measurement is made on a cumulative basis. The hypothetical

derivative method is used when measuring the effectiveness of cash flow hedges, meaning that the change in a perfect hypothetical swap is used as proxy for the present value of the cumulative change in expected future cash flows from the hedged transaction (the currency component).

If the hedge relationship does not fulfil the requirements, hedge accounting is terminated. For fair value hedges the hedging instrument is reclassified to a trading derivative and the change in the fair value of the hedged item, up to the point when the hedge relationship is terminated, is amortised to the income statement on a straight-line basis over the remaining maturity of the hedged item.

In cash flow hedges, changes in the unrealised value of the hedging instrument will be accounted for in the income statement prospectively from the last time it was proven effective. The cumulative gain or loss on the hedging instrument that has been recognised in the cash flow hedge reserve in equity through other comprehensive income from the period when the hedge was effective is reclassified from equity to "Net result from items at fair value" in the income statement if the expected transaction no longer is expected to occur. If the expected transaction no longer is highly probable, but is still expected to occur, the cumulative gain or loss on the hedging instrument that has been recognised in other comprehensive income from the period when the hedge was effective remains in other comprehensive income until the transaction occurs or is no longer expected to occur.

#### **10. Determination of fair value of financial instruments**

Financial assets and liabilities classified into the categories Financial assets/liabilities at fair value through profit or loss (including derivative instruments) are recorded at fair value on the balance sheet with changes in fair value recognised in the income statement in the item "Net result from items at fair value".

Fair value is defined as the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

The existence of published price quotations in an active market is the best evidence of fair value and when they exist they are used to measure financial assets and financial liabilities. An active market for the asset or

liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an on-going basis. The absolute level for liquidity and volume required for a market to be considered active vary with the instrument classes. For some classes low price volatility is seen, also for those instruments within the class where the trade frequency is high. For instruments in such a class the liquidity requirements are lower and correspondingly the age limit for the prices used for establishing fair value is higher.

Whether markets are active or non-active is assessed regularly. The trade frequency and volume are monitored daily.

Nordea is predominantly using published price quotations to establish fair value for items disclosed under the following balance sheet items:

- Interest-bearing securities
- Shares (listed)
- Derivatives (listed)

If quoted prices for a financial instrument fail to represent actual and regularly occurring market transactions or if quoted prices are not available, fair value is established by using an appropriate valuation technique. The adequacy of the valuation technique, including an assessment of whether to use quoted prices or theoretical prices, is monitored on a regular basis.

Valuation techniques can range from simple discounted cash flow analysis to complex option pricing models. Valuation models are designed to apply observable market prices and rates as input whenever possible, but can also make use of unobservable model parameters. The adequacy of the valuation model is assessed by measuring its capability to hit market prices. This is done by comparison of calculated prices to relevant benchmark data, e.g. quoted prices from exchange, the counterparty's valuations, price data from consensus services etc.

Nordea is predominantly using valuation techniques to establish fair value for items disclosed under the following balance sheet items:

- Interest-bearing securities (when quoted prices in an active market are not available)
- Shares (when quoted prices in an active market are not available)
- Derivatives (OTC derivatives)

For financial instruments, where fair value is estimated by a valuation technique, it is investigated whether the variables used in the valuation model are predominantly based on data from observable markets. By data from observable markets, Nordea refers to data that can be collected from generally available external sources and where this data is judged to represent realistic market prices. If non-observable data has a significant impact on the valuation, the instrument cannot be recognised initially at the fair value estimated by the valuation technique and any upfront gains are thereby deferred and amortised through the income statement over the contractual life of the instrument. The deferred upfront gains are subsequently released to income if the non-observable data becomes observable.

Note 41 “Assets and liabilities at fair value” provides a breakdown of fair values of financial instruments measured on the basis of:

- quoted prices in active markets for the same instrument (level 1),
- valuation technique using observable data (level 2), and
- valuation technique using non-observable data (level 3).

The valuation models applied by Nordea are consistent with accepted economic methodologies for pricing financial instruments and incorporate the factors that market participants consider when setting a price.

New valuation models are subject to approval by the Model Risk Management Committee and all models are reviewed on a regular basis.

For further information, see Note 41 “Assets and liabilities at fair value”.

## 11. Cash and cash equivalents

Cash and cash equivalents consist of cash and balances with central banks where the following conditions are fulfilled:

- The central bank is domiciled in a country where Nordea is operating under a banking licence.
- The balance is readily available at any time.

Cash and cash equivalents are financial instruments classified into the category Loans and receivables, see section 12 “Financial instruments”.

Loans to credit institutions payable on demand are also recognised as “Cash and cash equivalents” in the cash flow statement together with instruments with central banks that can be resold immediately.

## 12. Financial instruments

### Classification of financial instruments

Each financial instrument has been classified into one of the following categories:

Financial assets:

- Financial assets at fair value through profit or loss:
  - Held for trading
  - Designated at fair value through profit or loss (Fair Value Option)
- Loans and receivables
- Held to maturity
- Available for sale

Financial liabilities:

- Financial liabilities at fair value through profit or loss:
  - Held for trading
  - Designated at fair value through profit or loss (Fair Value Option)
- Other financial liabilities.

All financial assets and liabilities are initially measured at fair value. The classification of financial instruments into different categories forms the basis for how each instrument is subsequently measured on the balance sheet and how changes in its value are recognised. The classification of the financial instruments on Nordea’s balance sheet into different categories is presented in Note 40 “Classification of financial instruments”.

### *Financial assets and financial liabilities at fair value through profit or loss*

Financial assets and financial liabilities at fair value through profit or loss are measured at fair value, excluding transaction costs. All changes in fair values are recognised directly in the income statement in the item “Net result from items at fair value”.

The category consists of two sub-categories; Held for trading and Designated at fair value through profit or loss (Fair value option).

The sub-category Held for trading mainly contains derivative instruments that are held for trading purposes, interest-bearing securities and shares within Markets and Treasury. It also contains trading liabilities such as short-selling positions.

The major parts of the financial assets/liabilities classified into the category Designated at fair value through profit or loss are certain other assets/liabilities, interest-bearing securities and shares. Nordea also applies the Fair value option on certain financial assets and financial liabilities related to Markets. The classification stems from the fact that Markets is managing and measuring its financial assets and liabilities at fair value. Consequently, the majority of

financial assets and financial liabilities in Markets are classified into the categories Financial assets/Financial liabilities at fair value through profit or loss.

#### *Loans and receivables*

Loans and receivables are non-derivative financial assets, with fixed or determinable payments, that are not quoted in an active market. These assets and their impairment are further described in the separate section 13 “Loans to the public/credit institutions”.

#### *Held to maturity*

Financial assets that Nordea has chosen to classify into the category Held-to-maturity are non-derivative financial assets with fixed or determinable payments and fixed maturity that Nordea has the positive intent and ability to hold to maturity. Financial assets classified into the category Held-to-maturity are initially recognised on the balance sheet at the acquisition price, including transaction costs. Subsequent to initial recognition, the instruments within this category are measured at amortised cost. In an amortised cost measurement, the difference between acquisition cost and redemption value is amortised in the income statement over the remaining term using the effective interest rate method.

If more than an insignificant amount of the Held to maturity portfolio is sold or transferred, the Held to maturity category is tainted, except if the sale or transfer either occur close to maturity, after substantially all of the original principal is already collected, or due to an isolated non-recurring event beyond the control of Nordea.

Nordea assesses at each reporting date whether there is any objective evidence that the asset is impaired. If there is such evidence, an impairment loss is recorded. The loss is calculated as the difference between the carrying amount and the present value of estimated future cash flows and is recognised as “Impairment of securities held as financial non-current assets” in the income statement. See section 13 “Loans to the public/credit institutions” for more information on the identification and measurement of objective evidence of impairment, which is applicable also for interest-bearing securities classified into the category Held to maturity.

#### *Available for sale*

Financial instruments classified into the category Available for sale are measured at fair value. Changes in fair values, except for interest, foreign exchange effects and impairment losses, are recognised in the fair value reserve in equity through other comprehensive income. Interest is recognised in the item “Interest income” and foreign exchange effects and impairment losses in the item “Net result from items at fair value” in the income statement.

When an instrument classified into the category Available for sale is disposed of, the fair value changes that previously have been accumulated in the fair value reserve (related to Available for sale investments) in other comprehensive income are removed from equity and recognised in the income statement in the item “Net result from items at fair value”.

Financial assets classified into the category Available for sale are assessed at least annually in order to determine any need for impairment losses. If there is objective evidence of impairment, the accumulated loss that has been recognised in other comprehensive income is removed from equity and recognised as “Net result from items at fair value” in the income statement. The amount of the accumulated loss that is recycled from equity is the difference between the asset’s acquisition cost and current fair value. For equity investments a prolonged or significant decline in the fair value, compared to the acquisition cost, is considered to be objective evidence of impairment. Objective evidence of impairment for a debt instrument is rather connected to a loss event, such as an issuer’s financial difficulty.

#### *Other financial liabilities*

Financial liabilities, other than those classified into the category Financial liabilities at fair value through profit or loss, are measured at amortised cost. Interest from Other financial liabilities is recognised in the item “Interest expense” in the income statement.

#### **Hybrid (combined) financial instruments**

Hybrid (combined) financial instruments are contracts containing a host contract and an embedded derivative instrument. Such combinations arise predominantly from the issuance of structured debt instruments, such as issued index-linked bonds.

Index-linked bonds issued by Group Treasury are considered to be part of the funding activities. The zero coupon bond is measured at amortised cost. The embedded derivatives in those instruments are separated from the host contract and accounted for as stand-alone derivatives at fair value if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host contract, and the embedded derivative meets the definition of a derivative instrument. Changes in fair values of the embedded derivatives are recognised in the income statement in the item “Net result from items at fair value”.

Index-linked bonds issued by Markets as part of the trading portfolio are classified into the category Held for trading, and the entire combined instrument, host contract together with the embedded derivative, is measured at fair value through profit or loss. Changes in fair values are recognised in the income statement in the item “Net result from items at fair value”.

### **Securities borrowing and lending agreements**

Generally, securities borrowing and securities lending transactions are entered into on a collateralised basis. Unless the risks and rewards of ownership are transferred, the securities are not recognised on or derecognised from the balance sheet. In the cases where the counterpart is entitled to resell or repledge the securities, the securities are reclassified to the balance sheet item "Financial instruments pledged as collateral".

Securities in securities lending transactions are also disclosed in the item "Assets pledged as security for own liabilities".

Cash collateral advanced (securities borrowing) to the counterparts is recognised on the balance sheet as "Loans to central banks", "Loans to credit institutions" or as "Loans to the public". Cash collateral received (securities lending) from the counterparts is recognised on the balance sheet as "Deposits by credit institutions" or as "Deposits and borrowings from the public".

### **Repurchase and reverse repurchase agreements**

Securities delivered under repurchase agreements and securities received under reverse repurchase agreements are not derecognised from or recognised on the balance sheet. In the cases where the counterpart has the right to resell or repledge the securities, the securities are reclassified to the balance sheet line "Financial instruments pledged as collateral".

Securities delivered under repurchase agreements are also disclosed in the item "Assets pledged as security for own liabilities".

Cash received under repurchase agreements is recognised on the balance sheet as "Deposits by credit institutions" or as "Deposits and borrowings from the public". Cash delivered under reverse repurchase agreements is recognised on the balance sheet as "Loans to central banks", "Loans to credit institutions" or as "Loans to the public".

Additionally, the sale of securities received in reverse repurchase agreements trigger the recognition of a trading liability (short sale).

### **Derivatives**

All derivatives are recognised on the balance sheet and measured at fair value. Derivatives with total positive fair values, including any accrued interest, are recognised as assets in the item "Derivatives" on the asset side. Derivatives with total negative fair values, including any accrued interest, are recognised as liabilities in the item "Derivatives" on the liability side.

Realised and unrealised gains and losses from derivatives are recognised in the income statement in the item "Net result from items at fair value".

### **Offsetting of financial assets and liabilities**

Nordea offsets financial assets and liabilities on the balance sheet if there is a legal right to offset, in the ordinary course of business and in case of bankruptcy, and if the intent is to settle the items net or realise the asset and settle the liability simultaneously. This is generally achieved through the central counterparty clearing houses with which Nordea has agreements.

## **13. Loans to the public/credit institutions**

Financial instruments classified as "Loans to the public/credit institutions" (including loans to central banks) on the balance sheet and into the category Loans and receivables are measured at amortised cost (see also the separate section 7 "Recognition and derecognition of financial instruments on the balance sheet" as well as Note 40 "Classification of financial instruments").

Nordea monitors loans as described in the separate section on Risk, Liquidity and Capital management. Loans attached to individual customers or groups of customers are identified as impaired if the impairment tests indicate an objective evidence of impairment.

Interest-bearing securities classified into the categories Loans and receivables and Held to maturity are also held at amortised cost and the description below is valid also for the identification and measurement of impairment on these assets. Possible impairment losses on interest-bearing securities classified into the categories Loans and receivables and Held to maturity are recognised as "Impairment of securities held as non-current financial assets" in the income statement.

### **Impairment test of individually assessed loans**

Nordea tests all loans for impairment on an individual basis. The purpose of the impairment tests is to find out if the loans have become impaired. As a first step in the identification process for impaired loans, Nordea monitors whether there are indicators of impairment (loss event) and whether these loss events represent objective evidence of impairment. More information on the identification of loss events can be found in the Risk, Liquidity and Capital management section.

Loans that are not individually impaired will be transferred to a group of loans with similar risk characteristics for a collective impairment test.

### **Impairment test of collectively assessed loans**

Loans not impaired on an individual basis are collectively tested for impairment.

These loans are grouped on the basis of similar credit risk characteristics that are indicative of the debtors' ability to pay all amounts due according to the contractual terms. Nordea monitors its portfolio through rating migrations and the credit decision and annual review process supplemented by quarterly risk reviews. Through these processes Nordea identifies

loss events indicating incurred losses in a group. A loss event is an event resulting in a deterioration of the expected future cash flows. Only loss events incurred up to the reporting date are included when performing the assessment of the group.

The objective for the group assessment process is to evaluate if there is a need to make a provision due to the fact that a loss event has occurred, which has not yet been identified on an individual basis. This period between the date when the loss event occurred and the date when it is identified on an individual basis is called "Emergence period". The impairment remains related to the group of loans until the losses have been identified on an individual basis. The identification of the loss is made through a default of the engagement or by other indicators.

For corporate customers and bank counterparts, Nordea uses the existing rating system as a basis when assessing the credit risk. Nordea uses historical data on probability of default to estimate the risk for a default in a rating class. These loans are rated and grouped mostly based on type of industry and/or sensitivity to certain macro parameters, e.g. dependency on oil prices etc.

Personal customers and small corporate customers are monitored through scoring models. These are based mostly on historical data, as default rates and loss rates given a default, and experienced judgement performed by management. Rating and scoring models are described in more detail in the separate section on Risk, Liquidity and Capital management.

The collective assessment is performed through a netting principle, i.e. when rated engagements are up-rated due to estimated increases in cash flows, this improvement will be netted against losses on loans that are down-rated due to estimated decreases in cash-flows. Netting is only performed within groups with similar risk characteristics where Nordea assesses that the customers' future cash flows are insufficient to serve the loans in full.

#### **Impairment loss**

If the carrying amount of the loans is higher than the sum of the net present value of estimated cash flows (discounted with original effective interest rate), including the fair value of the collaterals and other credit enhancements, the difference is the impairment loss.

For significant loans that have been individually identified as impaired, the measurement of the impairment loss is made on an individual basis.

For insignificant loans that have been individually identified as impaired and for loans not identified as impaired on an individual basis, the measurement of

the impairment loss is measured using portfolio based expectation of the future cash flows.

If the impairment loss is not regarded as final, the impairment loss is accounted for on an allowance account representing the accumulated impairment losses. Changes in the credit risk and accumulated impairment losses are accounted for as changes in the allowance account and as "Net loan losses" in the income statement (see also section 6 "Recognition of operating income and impairment").

If the impairment loss is regarded as final, it is reported as a realised loss and the value of the loan and the related allowance for impairment loss are derecognised. An impairment loss is regarded as final when the obligor is filed for bankruptcy and the administrator has declared the economic outcome of the bankruptcy procedure, or when Nordea forgives its claims either through a legal based or voluntary reconstruction or when Nordea, for other reasons, deems it unlikely that the claim will be recovered.

#### **Discount rate**

The discount rate used to measure impairment is the original effective interest rate for loans attached to an individual customer or, if applicable, to a group of loans. If considered appropriate, the discount rate can be based on a method that results in an impairment that is a reasonable approximation of using the effective interest rate method as basis for the calculation.

#### **Restructured loans**

In this context a restructured loan is defined as a loan where Nordea has granted concessions to the obligor due to its deteriorated financial situation and where this concession has resulted in an impairment loss for Nordea. After a reconstruction the loan is normally regarded as not impaired if it performs according to the new conditions. Concessions made in reconstructions are regarded as loan losses unless Nordea retains the possibility to regain the loan losses incurred. In the event of a recovery the payment is reported as a recovery of loan losses.

#### **Assets taken over for protection of claims**

In a financial reconstruction the creditor may concede loans to the obligor and in exchange for this concession acquire an asset pledged for the conceded loans, shares issued by the obligor or other assets. Assets taken over for protection of claims are reported on the same balance sheet line as similar assets already held by Nordea. For example a property taken over, not held for Nordea's own use, is reported together with other investment properties.

At initial recognition, all assets taken over for protection of claims are recognised at fair value and the possible difference between the carrying amount of the loan and the fair value of the assets taken over is recognised as "Net loan losses". The fair value of the

asset on the date of recognition becomes its cost or amortised cost value, as applicable. In subsequent periods, assets taken over for protection of claims are valued in accordance with the valuation principles for the appropriate type of asset. Investment properties are then measured at fair value. Financial assets that are foreclosed are generally classified into the categories Available for sale or Designated at fair value through profit or loss (Fair Value Option) (see section 12 "Financial instruments") and measured at fair value. Changes in fair values are recognised in other comprehensive income for assets classified into the category Available for sale. For assets classified into the category Designated at fair value through profit or loss, changes in fair value are recognised in the income statement under the line "Net result from items at fair value".

Any change in value, after the initial recognition of the asset taken over, is presented in the income statement in line with the Group's presentation policies for the appropriate asset. "Net loan losses" in the income statement is, after the initial recognition of the asset taken over, consequently not affected by any subsequent remeasurement of the asset.

#### **14. Leasing**

##### **NBF as lessor**

###### *Finance leases*

Nordea's leasing operations mainly comprise finance leases. A finance lease is reported as a receivable from the lessee on the balance sheet item "Loans to the public" at an amount equal to the net investment in the lease. The lease payment, excluding cost of services, is recorded as repayment of principal and interest income. The income allocation is based on a pattern reflecting a constant periodic return on the net investment outstanding in respect of the finance lease.

###### *Operating leases*

Assets subject to operating leases on the balance sheet are reported in accordance with the nature of the assets, in general as property and equipment. Leasing income is recognised as income on a straight-line basis over the lease term and classified as "Net interest income". The depreciation of the leased assets is calculated on the basis of Nordea's depreciation policy for similar assets and reported as "Depreciation, amortisation and impairment charges of tangible and intangible assets" in the income statement.

##### **NBF as lessee**

###### *Finance leases*

No leases in NBF have been classified as finance leases.

###### *Operating leases*

Operating leases are not recognised on NBF's balance sheet. For operating leases the lease payments are recognised as expenses in the income statement on a

straight-line basis over the lease term unless another systematic way better reflects the time pattern of NBF's benefit. The original lease terms normally range between 3 to 25 years.

Operating leasing is mainly related to office premises contracts and office equipment contracts normal to the business.

The central district properties in Finland, Norway and Sweden that Nordea has divested are leased back. The duration of the lease agreements was initially 3-25 years with renewal options. The lease agreements include no transfers of ownerships of the asset by the end of the lease term, nor any economic benefits from appreciation in value of the leased property. In addition, the lease term is not for the major part of the assets' economic life. These leases are thus classified as operating leases. The rental expense for these premises is recognised on the basis of the time-pattern of Nordea's economic benefit which differs from the straight-line basis and better resembles an ordinary rental arrangement.

###### *Embedded leases*

Agreements can contain a right to use an asset in return for a payment, or a series of payments, although the agreement is not in the legal form of a leasing contract. If applicable, these assets are separated from the contract and accounted for as leased assets.

#### **15. Intangible assets**

Intangible assets are identifiable, non-monetary assets without physical substance. The assets are under NBF's control, which means that NBF has the power and rights to obtain the future economic benefits flowing from the underlying resource. The intangible assets in NBF mainly consist of goodwill, IT development/computer software and customer related intangible assets.

##### **Goodwill**

Goodwill represents the excess of the cost of an acquisition over the fair value of Nordea's share of net identifiable assets of the acquired group undertaking/associated undertaking at the date of acquisition. Goodwill on acquisition of group undertakings is included in "Intangible assets". Goodwill on acquisitions of associates is not recognised as a separate asset, but included in "Investments in associated undertakings". Goodwill is tested annually for impairment or more frequently if events or changes in circumstances indicate that it might be impaired. Goodwill is carried at cost less accumulated impairment losses. Impairment losses on goodwill cannot be reversed in subsequent periods. Goodwill related to associated undertakings is not tested for impairment separately, but included in the total carrying amount of the associated undertaking. The policies covering impairment testing of associated

undertakings is disclosed in section 6 “Recognition of operating income and impairment”.

#### **IT development/computer software**

Costs associated with maintaining computer software programs are expensed as incurred. Costs directly associated with major software development investments, with a useful life of three years or more and the ability to generate future economic benefits, are recognised as intangible assets. These costs include software development staff costs and overhead expenditures directly attributable to preparing the asset for use. Computer software includes also acquired software licenses not related to the function of a tangible asset.

Amortisation is calculated on a straight-line basis over the useful life of the software, generally a period of 3 to 10 years.

#### **Customer related intangible assets**

In business combinations a portion of the purchase price is normally allocated to a customer related intangible asset, if the asset is identifiable and under Nordea's control. An intangible asset is identifiable if it arises from contractual or legal rights, or could be separated from the entity and sold, transferred, licenced, rented or exchanged. The asset is amortised over its useful life, generally over 10 years.

#### **Impairment**

Goodwill is not amortised but tested for impairment annually irrespective of any indications of impairment. Impairment testing is also performed more frequently if required due to any indication of impairment. The impairment charge is calculated as the difference between the carrying amount and the recoverable amount.

At each balance sheet date, all intangible assets with definite useful lives are reviewed for indications of impairment. If such indications exist, an analysis is performed to assess whether the carrying amount of the intangible asset is fully recoverable.

The recoverable amount is the higher of fair value less costs to sell and the value in use of the asset or the cash-generating unit, which is defined as the smallest identifiable group of assets that generates largely independent cash inflows in relation to other assets. For goodwill, the cash generating units are defined as the operating segments. The value in use is the present value of the cash flows expected to be realised from the asset or the cash-generating unit. The cash flows are assessed based on the asset or cash-generating unit in its current condition and discounted at a rate based on the long-term risk free interest rate plus a risk premium (post tax). If the recoverable amount is less than the carrying amount, an impairment loss is recognised. See note 21 “Intangible assets” for more information on the impairment testing.

## **16. Property and equipment**

Property and equipment includes own-used properties, leasehold improvements, IT equipment, furniture and other equipment. Items of property and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. The cost of an item of property and equipment comprises its purchase price, as well as any directly attributable costs of bringing the asset to the working condition for its intended use. When parts of an item of property and equipment have different useful lives, they are accounted for as separate items.

Property and equipment is depreciated on a straight-line basis over the estimated useful life of the assets. The estimates of the useful life of different assets are reassessed on a yearly basis. Below follows the current estimates:

- Buildings: 30-75 years
- Equipment: 3-5 years
- Leasehold improvements: Changes within buildings the shorter of 10 years and the remaining leasing term. New construction the shorter of the principles used for owned buildings and the remaining leasing term. Fixtures installed in leased properties are depreciated over the shorter of 10–20 years and the remaining leasing term.

At each balance sheet date, Nordea assesses whether there is any indication that an item of property and equipment may be impaired. If any such indication exists, the recoverable amount of the asset is estimated and any impairment loss is recognised.

Impairment losses are reversed if the recoverable amount increases. The carrying amount is then increased to the recoverable amount, but cannot exceed the carrying amount that would have been determined had no impairment loss been recognised.

## **17. Investment property**

Investment properties are primarily properties held to earn rent and/or capital appreciation. Nordea applies the fair value model for subsequent measurement of investment properties. The best evidence of a fair value is normally given by quoted prices in an active market for similar property in the same location and condition. As these prices are rarely available, discounted cash flow projection models based on reliable estimates of future cash flows are also used.

Net rental income, gains and losses as well as fair value adjustments are recognised directly in the income statement as “Net result from items at fair value”.

## 18. Taxes

The item "Income tax expense" in the income statement comprises current and deferred income tax. The income tax expense is recognised in the income statement, except to the extent the tax effect relates to items recognised in other comprehensive income or directly in equity, in which case the tax effect is recognised in other comprehensive income or in equity respectively.

Current tax is the expected tax expense on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities are recognised, using the balance sheet method, for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax assets are recognised for the carry forward of unused tax losses and unused tax credits. Deferred tax is not recognised for temporary differences arising on initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit, nor for differences relating to investments in group undertakings and associated undertakings to the extent that it is probable that they will not reverse in the foreseeable future. In addition, deferred tax is not recognised for taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are not discounted. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary differences, tax losses carry forward and unused tax credits can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Current tax assets and current tax liabilities are offset when the legal right to offset exists. Deferred tax assets and deferred tax liabilities are generally offset if there is a legally enforceable right to offset current tax assets and current tax liabilities.

## 19. Employee benefits

All forms of consideration given by Nordea to its employees as compensation for services performed are employee benefits. Short-term benefits are to be settled within twelve months after the reporting period when the services have been performed. Post-employment benefits are benefits payable after the termination of the employment. Post-employment benefits in Nordea consist only of pensions. Termination benefits normally arise if an employment is terminated before the normal retirement date, or if an employee accepts an offer of voluntary redundancy.

### Short-term benefits

Short term benefits consist mainly of fixed and variable salary. Both fixed and variable salaries are expensed in the period when the employees have performed services to Nordea. Nordea has also issued share-based payment programmes, which are further described in section 22 "Share-based payment".

More information can be found in Note 8 "Staff costs".

### Post-employment benefits

#### *Pension plans*

The companies within Nordea have various pension plans, consisting of both defined benefit plans and defined contribution plans, reflecting national practices and conditions in the countries where Nordea operates. Defined benefit plans are predominantly sponsored in Sweden, Norway and Finland. The major defined benefit plans are funded schemes covered by assets in pension funds/foundations. If the fair value of plan assets, associated with a specific pension plan, is lower than the gross present value of the defined benefit obligation, the net amount is, after adjusting for unrecognised actuarial gains/losses, recognised as a liability (defined benefit obligation). If not, the net amount is recognised as an asset (defined benefit asset). Non-funded pension plans are recognised as defined benefit obligations.

Certain Finnish plans are based on defined contribution arrangements that hold no pension liability for NBF. Nordea also contributes to public pension systems.

#### *Pension costs*

Obligations for defined contribution pension plans are recognised as an expense as the employee renders services to the entity and the contribution payable in exchange for that service becomes due. Nordea's net obligation for defined benefit pension plans is

calculated separately for each plan by estimating the amount of future benefit that employees have earned for their service in the current and prior periods. That benefit is discounted to determine its present value. Any unrecognised past service cost and the fair value of any plan assets are deducted and unrecognised actuarial gains/losses adjusted. Actuarial calculations, performed annually, are applied to assess the present value of defined benefit obligations and related costs, based on several actuarial and financial assumptions (as disclosed in Note 33 "Retirement benefit obligations").

When establishing the present value of the obligation and the fair value of any plan assets, actuarial gains and losses may arise as a result of changes in actuarial assumptions and experience effects (actual outcome compared to assumptions). The actuarial gains and losses are not recognised immediately in the income statement. Rather, only when the net cumulative unrecognised actuarial gain or loss exceeds a "corridor" equal to 10 percent of the greater of either the present value of the defined benefit obligation or the fair value of the plan assets, the excess is recognised in the income statement over the expected average remaining service period of the employees participating in the plan. Otherwise, actuarial gains and losses are not recognised.

When the calculation results in a benefit to the Nordea entity, the recognised asset is limited to the net total of any unrecognised actuarial losses, unrecognised past service costs and the present value of any future refunds from the plan or reductions in future contributions to the plan.

Social security contribution is calculated and accounted for based on the net recognised surplus or deficit by plan and is included in the "Retirement benefit obligation" or in the "Retirement benefit asset".

#### *Discount rate in Defined Benefit Plans*

The discount rate is determined by reference to high quality corporate bonds, where a deep enough market for such bonds exists. Covered bonds are in this context considered to be corporate bonds. In countries where no such market exists the discount rate is determined by reference to government bond yields. In Finland the discount rate is determined with reference to corporate bonds.

#### **Termination benefits**

As mentioned above, termination benefits normally arise if an employment is terminated before the normal retirement date, or if an employee accepts an offer of

voluntary redundancy. Termination benefits do not arise if the employees have to continue performing services and the termination benefits can be considered to be normal compensation for those services.

Termination benefits are expensed when Nordea has an obligation to make the payment. An obligation arises when there is a formal plan committed to on the appropriate organisational level and when Nordea is without realistic possibility of withdrawal, which normally occurs when the plan has been communicated to the group affected or to their representatives.

Termination benefits can include both short-term benefits, such as the salary of a number of months, and post-employment benefits, normally in the form of early retirement. Short-term benefits are classified as "Salaries and remuneration" and post-employment benefits as "Pension costs" in Note 8 "Staff costs".

## **20. Equity**

### **Non-controlling interests**

Non-controlling interests comprise the portion of net assets of group undertakings not owned directly or indirectly by Nordea Bank Finland Plc.

For each business combination, NBF measures the non-controlling interests in the acquiree either at fair value or at their proportionate share of the acquiree's identifiable net assets.

### **Share premium reserve**

The share premium reserve consists of the difference between the subscription price and the quota value of the shares in NBF's rights issue. Transaction costs in connection to the rights issue have been deducted.

### **Other reserves**

Other reserves comprise income and expenses, net after tax effects, which are reported in equity through other comprehensive income. These reserves include fair value reserves for cash flow hedges and financial assets classified into the category Available for sale as well as a reserve for translation differences.

### **Retained earnings**

Apart from undistributed profits from previous years, retained earnings include the equity portion of untaxed reserves. Untaxed reserves according to national rules are accounted for as equity net of deferred tax at prevailing tax rates in the respective country.

In addition, NBF's share of the earnings in associated undertakings, after the acquisition date, that have not been distributed is included in retained earnings.

#### **Treasury shares**

NBF does not hold Treasury shares.

### **21. Financial guarantee contracts and credit commitments**

Upon initial recognition, premiums received in issued financial guarantee contracts and credit commitments are recognised as prepaid income on the balance sheet. The guarantees and irrevocable credit commitments are subsequently measured, and recognised as a provision on the balance sheet, at the higher of either the received fee less amortisation, or an amount calculated as the discounted best estimate of the expenditure required to settle the present obligation. Changes in provisions are recognised in the income statement in the item "Net loan losses".

Premiums received for financial guarantees are, as stated in section 6 "Recognition of operating income and impairment", amortised over the guarantee period and recognised as "Fee and commission income" in the income statement. Premiums received on credit commitments are generally amortised over the loan commitment period. The contractual amounts are recognised off-balance sheet, financial guarantees in the item "Contingent liabilities" and irrevocable credit commitments in the item "Credit commitments".

### **22. Share-based payments**

#### **Equity-settled programmes**

Nordea has annually issued Long Term Incentive Programmes from 2007 through 2012. Employees participating in these programmes are granted share-based equity-settled rights, i.e. rights to receive shares for free or to acquire shares in Nordea at a significant discount compared to the share price at grant date. The value of such rights is expensed. The expense is based on the estimated fair value of each right at grant date. The total fair value of these rights is determined based on the group's estimate of the number of rights that will eventually vest, which is reassessed at each reporting date. The fair value is expensed on a straight-line basis over the vesting period. The vesting period is the period that the employees have to remain in service in Nordea in order for their rights to vest. Market performance conditions in D rights/Performance Share II are reflected as a probability adjustment to the initial estimate of fair value at grant date. There is no adjustment (true-up) for differences between estimated and actual vesting due to market conditions.

For more information see Note 8 "Staff costs".

#### **Cash-settled programmes**

Nordea has to defer payment of variable salaries under Nordic FSA's regulations and general guidelines. The deferred amounts are to some extent indexed using Nordea's TSR (Total Shareholders' Return) and these "programmes" are cash-settled share-based programmes. These programmes are fully vested when the payments of variable salaries are initially deferred and the fair value of the obligation is remeasured on a continuous basis. The remeasurements are, together with the related social charges, recognised in the income statement in the item "Net result from items at fair value".

For more information see Note 8 "Staff costs".

### **23. Related party transactions**

NBF defines related parties as:

- Shareholders with significant influence
- Group undertakings
- Associated undertakings
- Key management personnel
- Other related parties

All transactions with related parties are made on an arm's length basis.

#### **Shareholders with significant influence**

Shareholders with significant influence are shareholders that have the power to participate in the financial and operating decisions of NBF but do not control those policies. Nordea and its group companies are considered as having such a power.

#### **Group undertakings**

For the definition of group undertakings see section 5 "Principles of consolidation". Further information on the undertakings included in the NBF Group is found in Note 19 "Investments in group undertakings".

Group internal transactions between legal entities are performed according to arm's length principles in conformity with OECD requirements on transfer pricing. These transactions are eliminated in the consolidated accounts.

#### **Associated undertakings**

For the definition of Associated undertakings see section 5 "Principles of consolidation".

Further information on the associated undertakings included in the NBF Group is found in Note 20 "Investments in associated undertakings".

**Key management personnel**

Key management personnel include the following positions:

- The Board of Directors of NBF and Nordea Bank AB (publ)
- The Chief Executive Officer (CEO)
- The Group Executive Management (GEM).

For information about compensation, pensions and other transactions with key management personnel, see Note 8 “Staff costs”.

**Other related parties**

Other related parties comprise close family members to individuals in key management personnel. Other related parties also include companies significantly influenced by key management personnel in Nordea Group as well as companies significantly influenced by close family members to these key management personnel. Other related parties also include NBF’s pension foundations.

Information concerning transactions between NBF and other related parties is found in Note 44 “Related-party transactions”.

## Note 2 Segment reporting

### Operating segments

#### Group

#### Measurement of operating segments' performance

The measurement principles and allocation between the operating segments follow the information reported to the Chief Operating Decision Maker (CODM), as required by IFRS 8. In NBF the CODM has been defined as Group Executive Management. The main differences compared to the business area reporting are that the information to CODM is prepared using plan rates.

#### Changes in basis of segmentation

Nordea's organisation is developed around the three main business areas Retail Banking, Wholesale Banking and Wealth Management and around the business unit Group Operations & Other Lines of Business. The separate divisions within these main business areas and business unit have been identified as operating segments. Also Group Corporate Centre has been identified as an operating segment.

Financial results are presented for the two main business areas Retail Banking and Wholesale Banking, with further breakdown on operating segments, and for the operating segment Group Corporate Centre. Other operating segments below the quantitative thresholds in IFRS 8 are included in Other operating segments. Group functions and eliminations as well as the result that is not fully allocated to any of the operating segments, are shown separately as reconciling items.

#### Reportable operating segments

Retail Banking conducts a full service banking operation and offers a wide range of products. It is Nordea's largest business area and serves household customers and corporate customers in the Nordic markets (Retail Banking Nordic) as well as in Poland and the Baltic countries (Retail Banking Poland & Baltic countries). Wholesale Banking provides banking and other financial solutions to large Nordic and international corporations, institutions and public companies. The division Corporate & Institutional Banking is a customer-oriented organisation serving the largest globally operating corporate customers. This division is also responsible for Nordea's customers within the financial sector, and offers single products, such as funds, equity products etc. as well as consulting services within asset allocation and fund sales. The division Shipping, Offshore & Oil Services is responsible for Nordea's customers within the shipping, offshore and oil services industries and provides tailor-made solutions and syndicated loan transactions. Capital Markets unallocated includes the result in Capital Markets which is not allocated to the main business areas. Group Corporate Centre's main objective is to manage the Group's funding and to support the management and control of the NBF Group. The main income in Group Corporate Centre originates from Group Treasury.

|                                                                                     | Retail Banking |              | Wholesale Banking |              | Group Corporate Centre |            |

Banking products consists of three different product types. Account products include account-based products, such as lending, deposits and cards and Netbank services. Transaction products consist of cash management, trade and project finance services. Financing products include asset-based financing through leasing, hire purchase and factoring as well as sales to finance partners, such as dealers, vendors and retailers. Capital Markets products contains financial instruments, or arrangements for a financial instrument, that are available in the financial marketplace, including currencies, commodities, stocks and bonds. Savings Products & Asset Management includes Investment Funds, Discretionary Management, Portfolio Advice, Equity Trading and Pension Accounts. Investment Funds is a bundled product where the fund company invest in stocks, bonds, derivatives or other standardised products on behalf of the fund's shareholders. Discretionary Management is a service providing the management of an investment portfolio on behalf of the customer and Portfolio Advice is a service provided to support the customers' investment decisions. Life & Pensions provides life insurance and pension products and services.

**Additional disclosures on remuneration under Nordic FSAs' regulation and general guidelines (including FIN-FSA release 62/501/2010)**

The qualitative disclosures under these regulations can be found in the separate section on remuneration in the Board of Directors' Report, while the quantitative disclosures will be published in a separate report on Nordea's homepage ([www.nordea.com](http://www.nordea.com)) one week before the Annual General Meeting on 14 March 2013.

**Compensation etc. to the Board of Directors, President and his deputy**

The members of the Board of Directors of Nordea Bank Finland Plc and the President, are members of the Nordea Bank AB (publ) Group Executive Management, except for the one external member Carl-Johan Granvik. The monthly fee for the external Board member was 1,250 euros, totalling 6,250 euros in 2012. In 2012 Nordea Bank AB (publ) has paid all salaries, fees, pensions and other staff-related expenses to the above mentioned other members of the Board and the President. Nordea Bank AB (publ) has allocated these salary expenses to Nordea Bank Finland Plc as part of the Head Office Allocation expenses.

Information on salaries, loans and pension liabilities of the above mentioned other members of the Board and the President is presented in the Annual Report of Nordea Bank AB (publ).

Salaries paid to the deputy of the President of Nordea Bank Finland Plc amounted to EUR 0m in 2012. Pension obligation for the deputy of the President amounted to EUR 3m and pension cost to defined benefit plans to EUR 2m.

| EURm                                                    | 2012 | 2011 |
|---------------------------------------------------------|------|------|
| <b>Loans granted by Nordea Bank Finland Plc</b>         |      |      |
| To members and deputy members of the Board of Directors | 0    | -    |
| To the President and his deputy                         | 0    | 0    |

Terms and conditions regarding loans to the members of the Board of Directors, to the President and to his deputy are decided in accordance with instructions issued by the Board of Directors.

**Guarantees and other off-balance-sheet commitments**

No guarantees or other off-balance-sheet commitments have been granted to members of administrative or controlling boards or to auditors.

The members of the administrative and controlling boards have no holdings of shares, equity warrants or convertible bonds issued by Nordea Bank Finland Plc.

**Loans to key management personnel**

Loans to key management personnel as defined in Note 1 section 23 amount to EUR 2m (1) in the Group and EUR 2m (1) in the parent company. Interest income on these loans amounts to EUR 0m (0) in the Group and EUR 0m (0) in the parent company.

Terms and conditions regarding loans to key management personnel employed by Nordea are decided in accordance with instructions issued by the Board of Directors. Loans to family members of key management personnel are granted on normal market terms, as well as loans to key management personnel who are not employees of Nordea. In Finland the employee interest rate for loans corresponds to Nordea's funding cost with a margin of 10 basis points up to EUR 400,000, and 30 basis points on the part that exceeds EUR 400,000.

The Group has not pledged any assets or other collateral or committed to contingent liabilities on behalf of any key management personnel.

**Note 8 Staff costs, cont.****Long-Term Incentive Programmes**

<sup>2</sup> The new rights issue, which was resolved in an extra ordinary general meeting on 12 March 2009, triggered recalculations of some of the parameters in LTIP 2008, in accordance with the agreements of the programmes. The recalculations were performed with the purpose of putting the participants in an equivalent financial position as the one being at hand immediately prior to the new rights issue.

**Conditions and requirements**

For each ordinary share the participants lock in to the LTIPs, they are granted a conditional A-right/Matching Share to acquire or receive ordinary shares based on continued employment and conditional B-D rights/Performance Share I and II to acquire or receive additional ordinary shares based on fulfilment of certain performance conditions. The performance conditions for B and C rights and for Performance Share I comprise target growth in risk adjusted profit per share (RAPPS). Should the reported earnings per share (EPS) be lower than a predetermined level, the participants are not entitled to exercise any B or C rights or Performance Share I. The performance conditions for D rights and for Performance Share II are market- related and comprise growth in total shareholder return (TSR) in comparison with a peer group's TSR.

When the performance conditions are not fully fulfilled, the rights that are no longer exercisable are shown as forfeited in the previous tables, as well as shares forfeited due to participants leaving the Nordea Group.

The exercise price, where applicable, for the ordinary shares is adjusted for dividends, however, never below a predetermined price. Furthermore, the profit for each right is capped.

<sup>1</sup> RAPPS for the financial years 2008 and 2009 used for LTIP 2008 (C rights) and LTIP 2009 (B and C rights), EPS knock-out in LTIP 2008 (C rights) and LTIP 2009 (B and C rights) and the cap in LTIP 2009 and LTIP 2008 have been adjusted due to the financial effects of the new rights issue in 2009.

**Note 8 Staff costs, cont.****Fair value calculations**

The fair value is measured through the use of generally accepted valuation models with the following input factors:

|                                   | LTIP 2012 | LTIP 2011 | LTIP 2010 | LTIP 2009 | LTIP 2008 |
|-----------------------------------|-----------|-----------|-----------|-----------|-----------|
| Weighted average share price, EUR | 6.70      | 8.39      | 6.88      | 5.79      | 11.08     |
| Right life, years                 | 3.0       | 3.0       | 3.0       | 2.5       | 2.5       |
| Deduction of expected dividends   | No        | No        | No        | Yes       | Yes       |
| Risk-free rate, %                 | -         | -         | -         | 1.84      | 3.83      |
| Expected volatility, %            | -         | -         | -         | 29        | 21        |

Expected volatility is based on historical values. As the exercise price (zero for LTIP 2010, LTIP 2011 and LTIP 2012) is significantly below the share price at grant date, the value has a limited sensitivity to expected volatility and risk-free interest. The fair value calculations are also based on estimated early exercise behaviour during the programme's exercise windows. This is, however, not applicable to LTIP 2010, LTIP 2011 and LTIP 2012.

The value of the D rights/Performance Share II is based on market-related conditions and fulfilment of the TSR and P/B targets have been taken into consideration when calculating the right's fair value at grant. When calculating the impact from the TSR and P/B targets it has been assumed that all possible outcomes have equal possibilities. The caps in each programme have also been taken into consideration when calculating the right's fair value at grant. The adjustment to fair value is approximately 2-3% of the weighted average share price.

<sup>1</sup> All amounts excluding social security contribution.

When calculating the expected expense, an expected annual employee turnover of 5% has been used in LTIP 2010, LTIP 2011 and LTIP 2012. The expected expense is recognised over the vesting period of 36 months (LTIP 2010, LTIP 2011 and LTIP 2012) and 24 months (LTIP 2009 and LTIP 2008).

**Cash-settled share-based payment transactions**

Nordea operates share-linked deferrals on parts of variable compensation for certain employee categories, indexed with Nordea total shareholder returns (TSR) and either vesting after three years or vesting in equal instalments over a three to five-year period. Since 2011 Nordea also operates TSR-linked retention on part of variable compensation for certain employee categories.

The below table only includes deferred amounts indexed with Nordea's TSR. Nordea also operates deferrals that are not TSR-linked, which are not included in the table below. Further information regarding all deferred amounts can be found in the separate report on remuneration published on Nordea's homepage ([www.nordea.com](http://www.nordea.com)).

There were no unrecognised deferred tax assets in the Group or in the parent company in 2012 or 2011.

There was no deferred tax relating to temporary differences associated with investments in group undertakings, associated undertakings and joint ventures.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred tax income relates to the same fiscal authority.

**Note 15 Financial instruments pledged as collateral****Financial instruments pledged as collateral**

In repurchase transactions and in securities lending transactions, non-cash assets are transferred as collateral. When the counterpart receiving the collateral has the right to sell or repledge the assets, the assets are reclassified in the balance sheet to the item Financial instruments pledged as collateral.

The carrying amount at end of year represents accumulated changes in the fair value for those repricing time periods in which the hedged item is an asset respectively a liability. When the hedged item is an asset, the change in the fair value of the hedged item is presented within assets and when the hedged item is a liability, the change is presented as a liability.

The total amount is expected to be settled after more than 1 year.

## Note 23 Leasing

### NBF as a lessor

#### Finance leases

Nordea Bank Finland Group owns assets leased to customers under finance lease agreements. Finance lease agreements are reported as receivables from the lessee included in "Loans to the public" (see Note 13) at an amount equal to the net investment in the lease. The leased assets mainly comprise vehicles, machinery and other equipment.

Reconciliation of gross investments and present value of future minimum lease payments:

| EURm                                                                      | Group          |                |
|---------------------------------------------------------------------------|----------------|----------------|
|                                                                           | 31 Dec<br>2012 | 31 Dec<br>2011 |

Reserve for restructuring costs amounts to EUR 33m of which EUR 19m will be settled in 12 months.

Provision for transfer risk of 11m is related to off-balance sheet items. Transfer risk relating to loans is included in the item Allowances for collectively assessed impaired loans in Note 13. Provision for transfer risk is depending on the volume of business with different countries.

Loan loss provisions for individually assessed, guarantees and other commitments amounted to EUR 21m.

The item Other refers to the following provisions: rental liabilities of EUR 4m (of which EUR 1m expected to be settled during 2013), provision for environmental and property-related obligations of EUR 3m (not expected to be settled during 2013) and other provisions amounting to EUR 7m (not expected to be settled during 2013).

| Defined benefit plans, net | -112           | -94            | -106           | -88            |
| <b>Total</b>               | <b>-112</b>    | <b>-94</b>     | <b>-106</b>    | <b>-88</b>     |

NBF has various pension plans, which are classified both as defined benefit plans and defined contribution plans. The defined benefit plans in Finland are closed to new employees and instead, pensions for new employees are based on defined contribution (DCP) arrangements. The plans for the foreign branches are also mainly defined contribution plans. The existing defined benefit plans in London and New York are closed to new employees. Defined contribution plans are not reflected on the balance sheet except when earned pension rights have not yet been paid for.

IAS 19 secures that the market-based value of pension obligations net of plan assets backing these obligations will be reflected on the Group's balance sheet. The major plans are funded schemes covered by assets in pension funds/foundations. Some other pension plans are recognised directly on the balance sheet as liabilities.

**IAS 19 pension calculations and assumptions**

Calculations on major plans are performed by external liability calculators and based on the actuarial assumptions fixed for each of the Group's pension plans.

| Assumptions                            | Finland |
|----------------------------------------|---------|
| <b>2012</b>                            |         |
| Discount rate                          | 3.5%    |
| Salary increase                        | 3.0%    |
| Inflation                              | 2.0%    |
| Expected return on assets before taxes | 4.5%    |
| <b>2011</b>                            |         |
| Discount rate                          | 4.5%    |
| Salary increase                        | 3.5%    |
| Inflation                              | 2.0%    |
| Expected return on assets before taxes | 5.5%    |

The expected return on assets is based on long-term expectations for return on the different asset classes. With bonds, this is linked to the discount rate while equities and real estate have an added risk premium.

The discount rate has the most significant impact on the obligation and pension cost. If the discount rate is reduced the pension obligation will increase and vice versa. A one percentage point increase in the discount rate would lead to a decrease of 12% in pension obligation and of 20% in service cost. A one percentage point decrease in the discount rate would lead to an increase of 14% in pension obligation and of 16% in service cost.

**Asset composition**

The combined return on assets in 2012 was 13% (0) mainly reflecting the general development in the market. At the end of the year, the equity exposure in pension funds/foundations represented 31% (20) of total assets.

| Asset composition in funded schemes | 2012 | 2011 |
|-------------------------------------|------|------|
| Equities                            | 31%  | 20%  |
| Bonds                               | 56%  | 67%  |
| Real estate                         | 12%  | 11%  |
| - of which Nordea real estate       | 3%   | 3%   |
| Other plan assets                   | 1%   | 2%   |

| <b>Actuarial gains/losses</b>                            | <b>-57</b> | <b>-39</b> | <b>33</b> | <b>32</b> | <b>-133</b> |

<sup>1</sup> The actuarial gains/losses in 2012 are mainly due to the change in the discount rate.

**Note 33 Retirement benefit obligations, cont.****Defined benefit pension cost**

The total net pension cost related to defined benefit plans recognised in the Group's income statement (as staff costs) for the year 2012 is EUR 9m positive (7m positive). In the parent company's income statement the respective cost was EUR 9m positive (7m positive) in 2012.

Total pension cost comprises the defined benefit pension cost as well as the cost related to defined contribution plans. (See specification in Note 8.)

| Recognised net defined benefit cost, EURm    | Group     |           | Parent company |           |
|----------------------------------------------|-----------|-----------|----------------|-----------|
|                                              | 2012      | 2011      | 2012           | 2011      |

<sup>1</sup> Relates only to securities recognised in the balance sheet. Securities borrowed or bought under repurchase agreements are not recognised in the balance sheet and thus not included in the amount. Such transactions are disclosed in Note 42 Transferred assets and obtained collaterals.

Assets pledged for own liabilities contain securities pledged as security in repurchase agreements and in securities lending. The transactions are conducted under standard agreements employed by financial markets participants. Counterparts in those transactions are credit institutions and the public. The transactions are typically short term with maturity within three months.

Loans to the public amounting to EUR 15,493m (11,919) have been registered as collateral for issued Finnish covered bonds amounting to EUR 12,362m (7,250). In the event of the company's insolvency, the holders of these bonds have priority to the assets registered as collateral. Collaterals are valued up to the first 70% of the market value of the property. NBF has used Realia Group Oy, Newsec Oy, Huoneistokeskus Oy, Kiinteistömaailma Oy and Catella Oy to value commercial real estate collaterals.

**Note 36 Other assets pledged**

There are no collaterals pledged on behalf of other items other than the company's own liabilities.

**Note 37 Contingent liabilities**

In the normal business of Nordea Bank Finland, the bank issues various forms of guarantees in favour of the bank's customers. Loan guarantees are given for customers to guarantee obligations in other credit- and pension institutions. Other guarantees consist mainly of commercial guarantees, such as bid guarantees, advance payment guarantees, warranty guarantees and export-related guarantees. Contingent liabilities also include unutilised irrevocable import documentary credits and confirmed export documentary credits. These transactions are part of the bank services and support the bank's customers. Guarantees and documentary credits are off-balance sheet items, unless there is a need for a provision to cover a probable loan loss that arises from the judgement that reimbursement will not be received.

<sup>1</sup> Including unutilised portion of approved overdraft facilities of EUR 8,565m (9,197) for the Group and EUR 8,566m (9,198) for the parent company.

Reverse repurchase agreements are recognised on and derecognised from the balance sheet on the settlement date. Nordea has as per 31 December 2012 signed reverse repurchase agreements of EUR 5,803m (10,417) that have not yet been settled and consequently are not recognised on the balance sheet. On the settlement date these reverse repurchase agreements will, to the utmost extent, replace existing reverse repurchase agreements not yet derecognised as per 31 December 2012. These instruments have not been disclosed as commitments.
