

## NORDEA BANK AB (PUBL)

*(Incorporated with limited liability in the Kingdom of Sweden)*

## NORDEA BANK FINLAND PLC

*(Incorporated with limited liability in the Republic of Finland)*

**€10,000,000,000**

### **Structured Note Programme**

Nordea Bank AB (publ) ("**NBAB**") and Nordea Bank Finland Plc ("**NBF**", together with NBAB, the "**Issuers**" and each an "**Issuer**") have established a €10,000,000,000 Structured Note Programme (the "**Programme**"). Each of the Issuers may from time to time issue notes (the "**Notes**") under the Programme on an unsubordinated basis, which expression shall include Bearer Notes and Registered Notes (each as defined below), denominated in any currency as may be agreed with the relevant Dealer(s) (as defined below). Notes issued pursuant to the Programme may include Notes issued in bearer form ("**Bearer Notes**") or registered form ("**Registered Notes**") and Notes designated by an Issuer as "**VP Notes**", "**VPS Notes**", "**Finnish Notes**" or "**Swedish Notes**" in the applicable Final Terms. The maximum amount of all Notes from time to time outstanding will not exceed €10,000,000,000 (or its equivalent in other currencies at the time of agreement to issue, subject as further set out herein). For the purposes of calculating amounts outstanding under the Programme, all calculations will be made in euro.

Notes may be issued under the Programme which have a denomination of less than €100,000 or its equivalent in other currencies. The Notes will be issued on a continuing basis to one or more of the Dealers specified herein and any additional Dealer appointed under the Programme from time to time, which appointment may be for a specific issue or on an ongoing basis (each a "**Dealer**" and together the "**Dealers**").

This Base Prospectus has been approved by the Central Bank of Ireland (the "**Central Bank**") as competent authority under Directive 2003/71/EC, as amended (the "**Prospectus Directive**"). The Central Bank only approves this Base Prospectus as meeting the requirements imposed under Irish and European law pursuant to the Prospectus Directive. Application will be made to the Irish Stock Exchange for Notes issued under the Programme during the period of twelve months after the date hereof to be admitted to the official list (the "**Official List**") and trading on its regulated market (the "**Main Securities Market**"). The Main Securities Market is a regulated market for the purposes of Directive 2004/39/EC on markets in financial instruments ("**MiFID**"). Such approval relates only to the Notes which are to be admitted to trading on a regulated market for the purposes of MiFID and/or which are to be offered to the public in any Member State of the European Economic Area. This Base Prospectus constitutes a base prospectus for the purposes of the Prospectus Directive.

It is expected that this Base Prospectus will be submitted to the SIX Swiss Exchange Ltd (the "**SIX Swiss Exchange**") for registration as an "issuance programme" for the listing of bonds on the SIX Swiss Exchange in accordance with the listing rules of the SIX Swiss Exchange (the "**SIX Listing Rules**"). If approved, in respect of any Tranche (as defined herein) of Notes to be listed on the SIX Swiss Exchange during the 12 months from the date of this Base Prospectus, this Base Prospectus, together with the relevant Final Terms, will constitute the listing prospectus for purposes of the SIX Listing Rules.

The Programme also permits Notes to be issued on the basis that they will not be admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system or to be admitted to listing, trading and/or quotation by such other or further competent authorities, stock exchanges and/or quotation systems as may be agreed with the relevant Issuer.

Notes will be issued (i) on the general terms and conditions set out under "*Terms and Conditions of the Notes – Part 1: General Conditions*" (the "**General Conditions**"), as completed by a final terms document (the "**Final Terms**"), and (ii) may also be subject to certain additional conditions set out under "*Terms and Conditions of the Notes – Part 2: Additional Conditions for Certain Structured Notes*", "*Terms and Conditions of the Notes – Part 3: Additional Conditions for Credit-Linked Notes*" and "*Terms and Conditions of the Notes – Part 4: Additional Conditions for Fund-Linked Notes*", if so specified in the applicable Final Terms (the "**Additional Conditions**", and together with the General Conditions, the "**Terms and Conditions**").

There are certain risks related to any issue of Notes under the Programme which investors should ensure they fully understand (see "*Risk Factors*" below). This Base Prospectus is drawn up in the English language. In case there is any discrepancy between the English text and the Swedish text the English text stands approved for the purposes of approval under the Prospectus (Directive 2003/71/EC) Regulations 2005.

Arranger  
**Nordea**

The date of this Base Prospectus is 16 April 2013

This Base Prospectus, including the Annexes hereto, which form part of this Base Prospectus, should be read and construed together with any supplements hereto and, in relation to any Tranche (as defined herein) of Notes, should be read and construed together with the relevant Final Terms.

Copies of each Final Terms will be available from the specified offices of each of the Paying Agents and (in the case of Notes which may be in registered form) from the specified office of the Registrar and each of the Transfer Agents (see "*Terms and Conditions of the Notes*" herein).

Each of the Issuers has confirmed to the Dealers named under "*Subscription and Sale*" below that this Base Prospectus (including for this purpose, each relevant Final Terms) contains all information which is (in the context of the Programme and the issue, offering and sale of the Notes) material; that such information is true and accurate in all material respects and is not misleading in any material respect; that any opinions, predictions or intentions expressed herein are honestly held or made and are not misleading in any material respect; that this Base Prospectus does not omit to state any material fact necessary to make such information, opinions, predictions or intentions (in the context of the Programme and the issue, offering and sale of the Notes) not misleading in any material respect; and that all proper enquiries have been made to verify the foregoing.

Each of the Issuers accepts responsibility for the information contained in this Base Prospectus and declares that, having taken all reasonable care to ensure that such is the case, the information contained in this Base Prospectus is, to the best of its knowledge, in accordance with the facts and contains no omission likely to affect its import.

No person has been authorised to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other document entered into in relation to the Programme or any information supplied by any of the Issuers or such other information as is in the public domain and, if given or made, such information or representation should not be relied upon as having been authorised by any of the Issuers or any Dealer.

The Dealers have not separately verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility is accepted by the Dealers as to the accuracy or completeness of the financial information contained in this Base Prospectus, or any other financial statements or any further information supplied in connection with the Notes. The Dealers accept no liability in relation to the financial information contained in this Base Prospectus or any other financial statements or their distribution or with regard to any other information supplied in connection with the Notes. The statements made in this paragraph are without prejudice to the responsibility of each of the Issuers in its capacity as an Issuer under the Programme.

Neither the delivery of this Base Prospectus or any Final Terms nor the offering, sale or delivery of any Note shall, in any circumstances, create any implication that the information contained in this Base Prospectus is true subsequent to the date hereof or the date upon which this Base Prospectus has been most recently supplemented or that there has been no adverse change, or any event reasonably likely to involve any adverse change, in the condition (financial or otherwise) of the Issuer since the date thereof or, if later, the date upon which this Base Prospectus has been most recently supplemented or that any other information supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The distribution of this Base Prospectus and any Final Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus comes are required by each of the Issuers and the Dealers to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Notes and on distribution of this Base Prospectus or any Final Terms and other offering material relating to the Notes see "*Subscription and Sale*".

**THE NOTES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION IN THE UNITED STATES NOR HAS THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION PASSED UPON THE ACCURACY OR THE ADEQUACY OF THIS BASE PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.**

**THE NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), OR WITH ANY SECURITIES REGULATORY AUTHORITY OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES AND MAY INCLUDE NOTES IN BEARER FORM THAT ARE SUBJECT TO U.S. TAX LAW REQUIREMENTS. SUBJECT TO CERTAIN EXCEPTIONS, THE NOTES MAY NOT BE OFFERED, SOLD OR, IN THE CASE OF BEARER NOTES, DELIVERED WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT ("REGULATION S")). SEE "SUBSCRIPTION AND SALE".**

Neither this Base Prospectus nor any Final Terms constitutes an offer or an invitation to subscribe for or purchase any Notes and should not be considered as a recommendation by any of the Issuers, the Dealers or any of them that any recipient of this Base Prospectus or any Final Terms should subscribe for or purchase any Notes. Each recipient of this Base Prospectus or any Final Terms shall be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of each Issuer.

This Base Prospectus has been prepared on the basis that, except to the extent sub-paragraph (ii) below may apply, any offer of Notes in any Member State of the "**European Economic Area**" which has implemented the Prospectus Directive (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of Notes which are the subject of an offering/placement contemplated in this Base Prospectus as completed by final terms in relation to the offer of those Notes may only do so (i) in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State and (in either case) published, all in accordance with the Prospectus Directive, **provided that** any such prospectus has subsequently been completed by final terms which specify that offers may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State and such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus or final terms, as applicable. Except to the extent sub-paragraph (ii) above may apply, none of the Issuers nor any Dealer have authorised, nor do they authorise, the making of any offer of Notes in circumstances in which an obligation arises for an Issuer or any Dealer to publish or supplement a prospectus for such offer.

**In connection with the issue of any Tranche of Notes under the Programme, the Dealer or Dealers (if any) named as the Stabilising Manager(s) (or any persons acting on behalf of any Stabilising Manager(s)) in the applicable Final Terms may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) or (person(s) acting on behalf of any Stabilisation Manager(s) in accordance with all applicable laws and rules.**

In this Base Prospectus, references to "**U.S.\$**", "**U.S. dollars**" or "**dollars**" are to United States dollars; references to "**Euro**", "**euro**", "**EUR**" or "**€**" are to the currency introduced at the start of the third stage of European economic and monetary union, and as defined in Article 2 of Council Regulation (EC) No 974/98 of 3 May 1998 on the introduction of the Euro, as amended; references to "**sterling**" are to Pounds Sterling; references to "**Yen**" are to Japanese Yen; references to "**SEK**" are to Swedish Krona; references to "**NOK**" are to Norwegian Krone; and references to "**DKK**" are to Danish Krone.

The language of the Base Prospectus is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.

## IMPORTANT INFORMATION RELATING TO PUBLIC OFFERS OF NOTES

In the context of any offer of Notes that is not made within an exemption from the requirement to publish a prospectus under the Prospectus Directive (a "**Public Offer**"), the Issuers have requested the Central Bank to provide a certificate of approval in accordance with Article 18 of the Prospectus Directive (a "**passport**") in relation to the passporting of the Base Prospectus to the competent authorities of Norway, Sweden, Finland, Denmark, Estonia, Latvia, Lithuania, the United Kingdom, France, Germany, Austria and Luxembourg (the "**Host Member States**"). Even though the Issuers have elected to passport this Base Prospectus into the Host Member States, it does not mean that they will choose to make any Public Offer in the Host Member States. Investors should refer to the Final Terms for any issue of Notes to see whether the relevant Issuer has elected to make a public offer of Notes in either the Republic of Ireland or a Host Member State (each a "**Public Offer Jurisdiction**").

Each of the Issuers accepts responsibility in the Public Offer Jurisdictions for which it has given consent referred to herein for the content of this Base Prospectus in relation to any person (an "**Investor**") to whom an offer of any Notes is made by any Dealer or other financial intermediary to whom any of the Issuers has given its consent to use this Base Prospectus (such Dealer or other financial intermediary, an "**Authorised Offeror**"), where the offer is made during the period for which that consent is given and is in compliance with all other conditions attached to the giving of the consent, all as mentioned in this Base Prospectus. However, none of the Issuers has any responsibility for any of the actions of an Authorised Offeror, including compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.

If so specified in the applicable Final Terms in respect of any Tranche of Notes, each of the Issuers consents to the use of this Base Prospectus in connection with a Public Offer of the relevant Notes during the Offer Period specified in the relevant Final Terms (the "**Offer Period**") either: in the Public Offer Jurisdictions specified in the relevant Final Terms by any financial intermediary which satisfies the following conditions and any additional conditions specified in the relevant Final Terms:

- (i) it is authorised to make such offers under the Markets in Financial Instruments Directive (Directive 2004/39/EC); and
- (ii) executes a distribution agreement with the relevant Issuer whereby it agrees to be bound by the Authorised Offeror Terms and it either publishes on its website (if it has one), or discloses in any materials that it provides to potential investors in connection with the Public Offer, the following statement (with the information in square brackets completed with the relevant information):

"We, *[insert legal name of financial intermediary]*, are a financial intermediary authorised under the Markets in Financial Instruments Directive (Directive 2004/39/EC) to make offers of securities such as the *[insert title of the relevant Notes]* (the "**Notes**") described in the Final Terms dated *[insert date]* (the "**Final Terms**") published by *[Nordea Bank AB (publ)/Nordea Bank Finland Plc]* (the "**Issuer**"). We refer to the offer of the Notes in *[insert relevant Public Offer Jurisdiction(s)]* during the Offer Period specified in the Final Terms (the "**Public Offer**"). In consideration for the Issuer offering to grant its consent to our use of the Base Prospectus (as defined in the Final Terms) in connection with the Public Offer on the Authorised Offeror Terms specified in the Base Prospectus and subject to the conditions to such consent, we hereby accept such offer. Accordingly, we are using the Base Prospectus in connection with the Public Offer in accordance with the consent of the Issuer on the Authorised Offeror Terms and subject to the conditions of such consent."

The "**Authorised Offeror Terms**" are that the relevant financial intermediary:

- (a) represents, warrants and undertakes for the benefit of each of the Issuers that it will, at all times in connection with the relevant Public Offer:
  - (A) act in accordance with all applicable laws, rules, regulations and guidance of any applicable regulatory bodies (the "**Rules**");

- (B) comply with the restrictions set out under "*Subscription and Sale*" in this Base Prospectus which would apply as if it were a Dealer;
  - (C) ensure that any fee (and any commissions or benefits of any kind) received or paid by that financial intermediary in relation to the offer or sale of the Notes does not violate the Rules and is fully and clearly disclosed to investors or potential investors;
  - (D) hold all licences, consents, approvals and permissions required in connection with solicitation of interest in, or offers or sales of, the Notes under the Rules;
  - (E) comply with applicable anti-money laundering, anti-bribery and "know your client" Rules, and will not permit any application for Notes in circumstances where the financial intermediary has any suspicions as to the source of the application monies;
  - (F) retain investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested, make such records available to the Issuers or directly to the appropriate authorities with jurisdiction over either Issuer in order to enable each of the Issuers to comply with anti-money laundering, anti-bribery and "know your client" Rules applying to the Issuers;
  - (G) ensure that it does not, directly or indirectly, cause either Issuer to breach any Rule or subject either Issuer to any requirement to obtain or make any filing, authorisation or consent in any jurisdiction;
  - (H) comply with any further requirements relevant to the Public Offer as specified in the applicable Final Terms;
  - (I) not convey or publish any information that is not contained in or entirely consistent with this Base Prospectus as completed by the applicable Final Terms; and
  - (J) if it conveys or publishes any communication (other than this Base Prospectus or any other materials provided to such financial intermediary by or on behalf of the relevant Issuer for the purposes of the relevant Public Offer) in connection with the relevant Public Offer, it will ensure that such communication (A) is fair, clear and not misleading and complies with the Rules, (B) states that such financial intermediary has provided such communication independently of the Issuers, that such financial intermediary is solely responsible for such communication and that neither of the Issuers accepts any responsibility for such communication and (C) does not, without the prior written consent of the Issuers, use the legal or publicity names of either of the Issuers or any other name, brand or logo registered by an entity within the Nordea Group, except to describe the relevant Issuer as issuer of the relevant Notes; and
- (b) undertakes to indemnify each of the Issuers (in each case on behalf of such entity and its respective directors, officers, employees, agents, affiliates and controlling persons) against any losses, liabilities, costs, claims, charges, expenses, actions or demands which any of them may incur or which may be made against any of them arising out of or in relation to, or in connection with, any breach of any of the foregoing representations, warranties or undertakings by such financial intermediary, including (without limitation) any unauthorised action by such financial intermediary or failure by such financial intermediary to observe any of the above restrictions or requirements; and
- (c) agrees and accepts that:
- (A) the contract between the Issuers and the financial intermediary formed upon acceptance by the financial intermediary of the Issuers' offer to use this Base Prospectus with its consent in connection with the relevant Public Offer (the "**Authorised Offeror Contract**"), and any non-contractual obligations arising

out of or in connection with the Authorised Offeror Contract, shall be governed by, and construed in accordance with, English law; and

- (B) the courts of England are to have exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Authorised Offeror Contract (including a dispute relating to any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract) and accordingly submits to the exclusive jurisdiction of the English courts.

or, by the financial intermediaries specified in the relevant Final Terms, in the Public Offer Jurisdictions specified in the relevant Final Terms and subject to the relevant conditions specified in the relevant Final Terms, for so long as they are authorised to make such offers under the Markets in Financial Instruments (Directive 2004/39/EC). An Issuer may give consent to additional financial intermediaries after the date of the relevant Final Terms and, if it does so, such Issuer will publish the above information in relation to them on its website.

The consent referred to above relates to Public Offers occurring within 12 months from the date of this Base Prospectus.

**Any Authorised Offeror who wishes to use this Base Prospectus in connection with a Public Offer as set out in (1) above is required, for the duration of the relevant Offer Period, to publish on its website (if it has one), or otherwise disclose to potential investors, that it is using this Base Prospectus for such Public Offer in accordance with the consent of the relevant Issuer and the conditions attached thereto. Authorised Offerors may act through one or more agents or affiliates, provided that the Authorised Offeror shall at all times remain liable to the Issuer for the acts or omissions of the relevant agent or affiliate, and any failure to comply with the Authorised Offeror Terms.**

To the extent specified in the relevant Final Terms, an offer may be made during the relevant Offer Period by any of the relevant Issuer or any relevant Authorised Offeror in any relevant Public Offer Jurisdiction(s) and subject to any relevant conditions, in each case all as specified in the relevant Final Terms.

None of the Issuers nor any of the Dealers has authorised the making of any Public Offer of any Notes by any person in any circumstances and such person is not permitted to use this Base Prospectus in connection with its offer of any Notes unless (1) the offer is made by an Authorised Offeror as described above or (2) the offer is otherwise made in circumstances falling within an exemption from the requirement to publish a prospectus under the Prospectus Directive. Any such unauthorised offers are not made by or on behalf of any Issuer, any Dealer or any Authorised Offeror and none of the Issuers, any Dealer or any Authorised Offeror has any responsibility or liability for the actions of any person making such offers.

**An Investor intending to acquire or acquiring any Notes from an Authorised Offeror will do so, and offers and sales of the Notes to an Investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such Investor including as to price, allocation, settlement arrangements and any expenses or taxes to be charged to the Investor (the "Terms and Conditions of the Public Offer"). Neither of the Issuers will be a party to any such arrangements with Investors (other than Dealers) in connection with the offer or sale of the Notes and, accordingly, this Base Prospectus and any Final Terms will not contain such information. The Terms and Conditions of the Public Offer shall be provided to Investors by that Authorised Offeror at the relevant time. None of the Issuers, any of the Dealers or other Authorised Offerors has any responsibility or liability for such information.**

## RATINGS

As of the date of this Base Prospectus, the long term (senior) debt ratings of each of the Issuers are:

| Rating Agency                     | Rating |
|-----------------------------------|--------|
| Moody's Investors Service Limited | Aa3    |

| <b>Rating Agency</b>                                    | <b>Rating</b>      |
|---------------------------------------------------------|--------------------|
| Standard & Poor's Credit Market Services Europe Limited | AA- <sup>(1)</sup> |
| Fitch Ratings Limited                                   | AA-                |
| DBRS Ratings Limited                                    | AA                 |

<sup>(1)</sup> Under review for downgrade as of the date of this Base Prospectus.

Moody's Investors Service Limited, Standard & Poor's Credit Market Services Europe Limited, Fitch Ratings Limited and DBRS Ratings Limited are all established in the European Union (the "EU") and registered under Regulation (EC) No 1060/2009, as amended (the "**CRA Regulation**").

Tranches of Notes to be issued under the Programme will not be separately rated.

The European Securities and Markets Authority ("**ESMA**") is obliged to maintain on its website, at <http://www.esma.europa.eu/page/list-registered-and-certified-CRAs>, a list of credit rating agencies registered and certified in accordance with the CRA Regulation. This list must be updated within five working days of ESMA's adoption of any decision to withdraw the registration of a credit rating agency under the CRA Regulation. Therefore, such list is not conclusive evidence of the status of the relevant rating agency as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.

In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the EU and registered under the CRA Regulation unless (1) the rating is provided by a credit rating agency not established in the EU but is endorsed by a credit rating agency established in the EU and registered under the CRA Regulation or (2) the rating is provided by a credit rating agency not established in the EU, but which is certified under the CRA Regulation.

**A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.**

## SUMMARY OF THE BASE PROSPECTUS

Summaries are made up of disclosure requirements known as "Elements". These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and these Issuers. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of securities and relevant Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of "Not Applicable".

In particular Elements in italics denote placeholders for completing the issue specific summary relating to a Tranche of Notes for which such issue specific summary is to be prepared.

Words and expressions defined in the sections entitled "Terms and Conditions of the Notes" or elsewhere in this Base Prospectus have the same meanings in this summary.

|     |                      | Section A – Introduction and Warnings                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

| A.1 | <b>Introduction:</b> | <i>This summary should be read as an introduction to this Base Prospectus and any decision to invest in the Notes should be based on a consideration of the Base Prospectus as a whole by the investor. Where a claim relating to the information contained in this Base Prospectus is brought before a court in a Member State of the European Economic Area, the plaintiff may, under the national legislation of the Member States, be required to bear the costs of translating the Base Prospectus before the legal proceedings are initiated. No civil liability will attach to the Issuers in any such Member State solely on the basis of this summary, including any translation thereof, unless it is misleading, inaccurate or inconsistent when read together with the other parts of this Base Prospectus or it does not provide, when read together with the other parts of this Base Prospectus, key information in order to aid investors when considering whether to invest in the Notes.</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| A.2 | <b>Consent:</b>      | <p>Certain Tranches of Notes with a denomination of less than €100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the obligation under the Prospectus Directive to publish a prospectus. Any such offer is referred to as a <b>"Public Offer"</b>.</p> <p><i>Not applicable; the Notes are issued in denominations of at least €100,000 (or its equivalent in any other currency)./The Issuer consents to the use of this Base Prospectus in connection with a Public Offer of the Notes by any financial intermediary which is authorised to make such offers under the Markets in Financial Instruments Directive (Directive 2004/39/EC) (an <b>"Authorised Offeror"</b>) on the following basis: (a) the relevant Public Offer must occur during the period from and including [•] to but excluding [ ] (the <b>"Offer Period"</b>) in [•] [and [•]] (the <b>"Public Offer Jurisdiction(s)"</b>) and (b) the relevant Authorised Offeror must have agreed to the Authorised Offeror Terms [and satisfy the following additional conditions: [•]]./The Issuer consents to the use of this Base Prospectus in connection with a Public Offer of the Notes by [•](an <b>"Authorised Offeror"</b>) on the following basis: (a) the relevant Public Offer must occur during the period from and including [•] to but excluding [ ] (the <b>"Offer Period"</b>) in [•] [and [•]] (the <b>"Public Offer Jurisdiction(s)"</b>) and (b) the relevant Authorised Offeror must have agreed to the Authorised Offeror Terms [and satisfy the following additional conditions: [•]].</i></p> |
|     |                      | <b>Authorised Offerors will provide information to an Investor on the terms and conditions of the Public Offer of the relevant Notes at the time such Public Offer is made by the Authorised Offeror to the Investor.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|     |                                                                                                   | <p>Each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree, that it will comply with all laws, regulations and guidelines applicable to the offering of Notes in Norway. Notes denominated in Norwegian Krone may not be offered or sold within Norway or to or for the account or benefit of persons domiciled in Norway, unless the regulation relating to the offer of VPS Notes and the registration in the VPS has been complied with.</p> <p>The Notes have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended; the "FIEA") and each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan, or to others for re-offering or resale, directly or indirectly, in Japan or to, or for the benefit of, a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and any other applicable laws, regulations and ministerial guidelines of Japan.</p> <p>Zero Coupon Notes in definitive form may only be transferred and accepted, directly or indirectly, within, from or into the Netherlands through the mediation of either the Issuer or a member firm of Euronext Amsterdam by NYSE Euronext in full compliance with the Dutch Savings Certificates Act (<i>Wet inzake spaarbewijzen</i>) of 21 May 1985 (as amended) and its implementing regulations.</p>                                                                                                                                                                                                                                                                                                                                                        |
| C.8 | <b>The Rights Attaching to the Securities, including Ranking and Limitations to those Rights:</b> | <p><b>Status of the Notes:</b> The Notes constitute unsecured and unsubordinated obligations of the relevant Issuer and rank <i>pari passu</i> without any preference among themselves and at least <i>pari passu</i> with all other outstanding unsecured and unsubordinated obligations of the relevant Issuer, present and future.</p> <p><b>Denominations:</b> Notes will be issued in such denominations as may be specified in the relevant Final Terms, subject to (i) a minimum denomination of €1,000 (or its equivalent in any other currency); and (ii) compliance with all applicable legal and/or regulatory and/or central bank requirements.</p> <p><i>The Notes are issued in denomination(s) of [ ].</i></p> <p><b>Negative Pledge:</b> None.</p> <p><b>Cross Default:</b> None.</p> <p><b>Taxation:</b> All payments in respect of the Notes will be made without withholding or deduction of taxes unless required by Swedish or Finnish laws, regulations or other rules, or decisions by Finnish or Swedish public authorities. In the event that any of the Issuers is obliged to effect deductions or withholdings of Finnish or Swedish tax for someone who is not subject to taxation in Sweden or Finland, such Issuer will pay additional amounts to ensure that, on the due date, the relevant holders of Notes receive a net amount equal to the amount which the holders would have received but for the deductions or withholdings, subject to customary exceptions.</p> <p><b>Governing Law:</b> One of English law, Finnish law, Swedish law, Danish law or Norwegian law governs the Notes and all non-contractual obligations arising out of or in connection with the Notes, except that (i) the registration of VP Notes in the VP are governed by Danish law; (ii) the registration of VPS Notes in the VPS are governed by Norwegian law; (iii) the registration of Swedish Notes in Euroclear Sweden are governed by Swedish law; and (iv) the registration on Finnish Notes in Euroclear Finland is governed by Finnish law.</p> |

|      |                               | <p>Early redemption of Notes may be permitted (i) upon the request of the relevant Issuer or the holder of the Notes in accordance with the Conditions, <b>provided that</b> such early redemption is applicable pursuant to the Final Terms or (ii) if the relevant Issuer has or will become obliged to pay certain additional amounts in respect of the Notes as a result of any change in the tax laws of the relevant Issuer's jurisdiction of incorporation.</p> <p>Where one of the "Autocallable" performance structures applies, if the return generated by the Basket or particular Reference Asset(s) is at or above a pre-determined barrier level on any Valuation Date, then the relevant Issuer will redeem the Notes early on the next following early redemption date at an amount equal to the Principal Amount of the Note together with (if any) a pre-determined coupon.</p> <p>If selected as applicable in the Final Terms, the amount payable upon early redemption (the "<b>Early Redemption Amount</b>") may be reduced by an amount determined by the Calculation Agent which is equal to the sums of the costs, expenses, tax and duties incurred by the Issuer in connection with the early redemption.</p> <p><i>Unless previously redeemed, or purchased and cancelled, the Notes will be redeemed at [par/their Redemption Amount of [ ] per Calculation Amount]/an amount calculated in accordance with the performance structure specified in Element C.10 below].</i></p> <p><i>The Redemption Date is [ ]/The Notes are redeemable in Instalments on [•].</i></p> <p><b>Issue Price:</b> The issue price of each Tranche of Notes to be issued under the Programme will be determined by the relevant Issuer at the time of issuance in accordance with prevailing market conditions.</p> <p><i>The Issue Price of the Notes is: [•].</i></p> <p><b>Yield:</b> The yield of each Tranche of Notes will be calculated on the basis of the relevant issue price at the relevant issue date. It is not an indication of future yield.</p> <p><i>Based upon the Issue Price of [ ], at the Issue Date the anticipated yield of the Notes is [ ] per cent. per annum.</i></p> <p><b>Representative of the Noteholders:</b> Not Applicable. There is no representative appointed to act on behalf of the Noteholders.</p> <p><b>Replacement of Reference Asset, early calculation of the Redemption Amount or the amendment to the Conditions:</b> Where specified as applicable in the relevant Final Terms, the relevant Issuer may replace a Reference Asset, perform an early calculation of the Redemption Amount or make any amendment to the Conditions as the Issuer deems necessary, if certain events occur, including market disruption, hedging disruption, a change in law, price corrections and other material developments affecting one or more of the underlying Reference Asset(s).</p> |
| C.10 | <b>Derivative Components:</b> | <p>The performance structures described below determine the manner in which the performance of the relevant Reference Asset(s) or Reference Entities affects the yield and/or the Redemption Amount in respect of the Notes. The Issuer may elect to combine two or more performance structures in any issue of Notes:</p> <p><i>"Par" structure:</i> the Redemption Amount is equal to the Principal Amount of the Notes.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

|  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|--|--|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <p><i>"Basket Long" structure:</i> the Redemption Amount is the sum of the Principal amount of the Notes and an additional return which is equal to the Principal Amount of the Notes multiplied by (i) an amount that reflects the performance of the Basket (the <b>"Basket Return"</b>) and (ii) a ratio which is used to determine the holders' exposure to the performance of the respective Reference Assets (the <b>"Participation Ratio"</b>). The performance of a Reference Asset is determined by reference to the amount by which the final price exceeds the initial price of the Reference Asset (the <b>"Reference Asset Return"</b>). The final price of a Reference Asset is often determined on the basis of an average value of the Reference Asset during the term of the Notes (i.e. there are several valuation points during the term), but it may also be determined on the basis of a single valuation. The Reference Asset Return or Banker Return may also be subject to a floor which acts as a minimum level of performance.</p> <p><i>"Basket Short" structure:</i> the Redemption Amount is the sum of the Principal Amount of the Notes and an additional amount equal to the Principal Amount multiplied by (i) the aggregate return generated by the Basket and (ii) the Participation Ratio. If the performance of the Reference Assets within the Basket is positive, this will have a negative impact on the aggregate return generated by the Basket and, therefore, the return that is payable to Noteholders. If the performance of the Reference Assets within the Basket is negative, this will have a positive impact on the aggregate return generated by the Basket and, therefore, the return that is payable to Noteholders.</p> <p><i>"Barrier outperformance" structure:</i> if the performance of the Basket exceeds a specified barrier level (a price cap), the Redemption Amount will be a pre-determined maximum Basket return. If the specified barrier level is not exceeded, the Redemption Amount will be equal to the Principal Amount.</p> <p><i>"Barrier underperformance" structure:</i> if the performance of the Basket falls below a specified barrier level (a price floor), the Redemption Amount will be a pre-determined maximum Basket return. If the specified barrier level is not breached, the Redemption Amount will be equal to the Principal Amount.</p> <p><i>"Best of/Worst of" Barrier Outperformance" Structure:</i> This is the same as the "Barrier Outperformance" Structure, save that the observation of the barrier level and the calculation of the Redemption Amount will be determined by reference to the performance of the Nth Best performing Reference Asset rather than the Basket as a whole.</p> <p><i>"Best of/Worst of" Barrier Underperformance" Structure:</i> This is the same as the "Barrier Underperformance" Structure, save that the observation of the barrier level and the calculation of the Redemption Amount will be determined by reference to the performance of the Nth Best performing Reference Asset rather than the Basket as a whole.</p> <p><i>"Max" structure:</i> the Redemption Amount is calculated in the same manner as one of the other performance structures set out herein, but such amount is subject to a pre-determined maximum redemption amount, which acts as a cap on the investor's possible return.</p> |

|--|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | <p><i>"Autocallable Structure – Long"</i>: if the Basket Return is equal to or below a pre-determined barrier level on the final Valuation Date, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and the Basket Return. If the Basket Return is at or above a pre-determined barrier level on the final Valuation Date, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount equal to the Principal Amount of the Notes multiplied by the Participation Ratio 2 and the higher of (i) Basket Return and (ii) a pre-determined minimum return. If the return generated by the Basket is at or above both a pre-determined barrier level and a pre-determined coupon barrier level on the final Valuation Date, a Coupon (if any) shall also be payable (please refer to Element C.9 for details regarding the Coupon). The Notes will also be subject to early redemption if the return generated by the Basket exceeds the relevant barrier level on any Valuation Date prior to the final Valuation Date.</p> <p><i>"Autocallable Structure – Short"</i>: this structure is similar to the "Autocallable Structure – Long", with the difference being that the positive performance of the Reference Assets within the Basket will have a negative impact on the return on the Notes.</p> <p><i>"Best of/Worst of Autocallable" structure</i>: this is similar to the Autocallable Structure-Long, except that the Redemption Amount (and any early redemption) is determined by reference to the closing price of the Nth best performing Reference Asset rather than the Basket as a whole. The value of N will be specified in the applicable Final Terms.</p> <p><i>"Replacement Basket" structure</i>: the Redemption Amount is calculated in a similar manner to the Basket Long structure, with the difference being that the returns generated by the best performing Reference Assets are replaced with a pre-determined value for the purposes of determining the overall performance of the Basket.</p> <p><i>"Locally Capped Basket" structure</i>: the Redemption Amount is calculated in a similar manner to the Basket Long structure, with the difference being that the return generated by each Reference Asset is subject to a pre-determined maximum percentage value for the purposes of determining the overall performance of the Basket.</p> <p><i>"Rainbow Basket" structure</i>: the Redemption Amount is calculated in a similar manner to the Basket Long structure, with the difference being that the weightings of each Reference Asset within the Basket are determined by reference to the relative performance of each Reference Asset. The returns of each Reference Asset are measured separately at maturity and ranked based on the relative performance. The weightings for each Reference Asset will correspond to the weightings set out against the relative ranking in the applicable Final Terms.</p> <p><i>"Booster" structures</i>: Booster structures have an enhanced positive or negative return, based on the performance of the underlying Reference Asset(s). The investor's exposure to the performance of the Reference Assets may be increased or decreased through the application of different participation ratios. The return will be added to, or subtracted from, the Principal Amount for the purposes of calculating the Redemption Amount payable at maturity. As a result, a Noteholder may in certain circumstances receive less than the Principal Amount upon their final redemption. In a "Booster Long" Structure, the positive performance of the Reference Assets will have a positive effect on the return on the Notes. In a "Booster Short" Structure, the positive performance of the Reference Asset will have a negative effect on the return on the Notes.</p> |

|--|--|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <p><i>"Booster Risk Barrier Short" structure:</i> the Redemption Amount will depend on the return generated by the Basket as compared to a pre-determined barrier level on the final Valuation Date and the initial value of the Basket. If the Basket Return is below the barrier level on any Valuation Date and at or above the initial basket level on any Valuation Date, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the principal amount of the Notes by the Participation Ratio and the Basket Return. If the Basket Return is at or above the barrier level on any Valuation Date but below the initial basket level on the final Valuation Date, the Redemption Amount will be equal to the Principal Amount. If the Basket Return is below both the barrier level and the initial basket level on any Valuation Date, the Redemption Amount will be calculated by reference to the Basket Return and a separate participation ratio, which will result in a Redemption Amount which is less than the Principal Amount. If the performance of a Reference Asset within the Basket is positive, this will have a negative impact on the overall return generated by the Basket. If the performance of a Reference Asset within the Basket is negative, this will have a positive impact on the overall return generated by the Basket and therefore on the amount payable in respect of the redemption of the Notes.</p> <p><i>"Booster Risk Barrier Long" structure:</i> the Redemption Amount is calculated in a similar matter to the "Booster Risk Barrier Short" structure. The difference is that where the performance of a Reference Asset within the Basket is positive, this will have a positive impact on the overall return generated by the Basket. If the performance of a Reference Asset within the Basket is negative, this will have a negative impact on the overall return generated by the Basket and therefore on the amount payable in respect of the redemption of the Notes.</p> <p><i>"Bonus Booster Short" structure:</i> the Redemption Amount is calculated in a similar manner to the "Booster Risk Barrier Short" structure, with the difference being that if the return generated by the Basket is never below the barrier level, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount equal to the higher of (i) a pre-determined coupon level and (ii) an amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and the Basket Return. The positive performance of the Reference Assets within the Basket will have a negative impact on the overall return generated by the Basket.</p> <p><i>"Bonus Booster Long" structure:</i> the Redemption Amount is calculated in a similar manner to the "Bonus Booster Short" structure. The difference is that where the performance of a Reference Asset within the Basket is positive, this will have a positive impact on the overall return generated by the Basket. If the performance of a Reference Asset within the Basket is negative, this will have a negative impact on the overall return generated by the Basket.</p> <p><i>"Cliquet" structure:</i> the Redemption Amount will be the sum of the Principal Amount plus an additional return that is based upon the accumulated sum of the relative percentage changes in the underlying Basket for a number of pre-determined valuation periods during the term of the Notes. The following features may also be used: (i) the relative changes in the underlying Basket can be locally capped/floored for each valuation period; (ii) the accumulated sum of the relative changes can be subject to a global cap/floor; and (iii) the product may have a lock-in feature which means that if the cumulative return on any valuation date has reached a pre-determined lock-in level, the additional return will be at least equal to the lock-in level.</p> |

|  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|--|--|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <p><i>"Reverse Cliquet" structure:</i> this is very similar to the "Cliquet" structure but the additional return payable is calculated by subtracting the relative percentage changes in the underlying Basket (for a number of pre-determined valuation periods) from a pre-defined initial coupon.</p> <p><i>"Replacement Cliquet" structure:</i> this is very similar to the "Cliquet" structure, the difference being that the returns generated by a certain number of the best performing valuation periods are replaced by a pre-defined figure.</p> <p><i>"Reverse Replacement Cliquet" structure:</i> this is very similar to the "Reverse Cliquet" structure, the difference being that the returns generated by a certain number of the best performing valuation periods are replaced by a pre-defined figure.</p> <p><i>"Rainbow Replacement Cliquet" structure:</i> the performance of each individual Reference Asset is calculated on the same basis as the "Cliquet" structure. The difference here is that the weighting of each Reference Asset within the basket is determined after the performance of each Reference Asset is known, following the principle that the best performing underlying is given the highest weight and so forth.</p> <p><i>"Reverse Convertible" structure:</i> if the Basket Return is at or above the initial basket level, the Redemption Amount will be equal to the Principal Amount of the Notes. If the Basket Return is below the initial basket level, the Redemption Amount will be equal to the Principal Amount less an amount calculated by multiplying the Principal Amount by the Participation Ratio and the Basket Return, thereby producing a Redemption Amount which is less than the Principal Amount of the Notes. A positive performance of the Reference Assets within the Basket will have a positive effect on the overall Basket return, conversely the negative performance of the individual Reference Assets will have a negative effect on the overall Basket return.</p> <p><i>"Reverse Convertible Risk Barrier" structure:</i> if the sum of the Basket Return and 1 is equal to or above the Initial Basket Level on the final Valuation Date, the Redemption Amount will be equal to the Principal Amount of the Notes.</p> <p>If the sum of the Basket Return and 1 is below the Barrier Level on any Valuation Date, and on the final Valuation Date the Basket Return is below the Initial Basket Level, the Redemption Amount will be calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and the Basket Return and adding the resulting amount to the Principal Amount of the Notes (in this case the Redemption Amount will be less than the Principal Amount of the Notes).</p> <p><i>"Worst of Reverse Convertible" structure:</i> the Redemption Amount is calculated in the same manner as the "Reverse Convertible" structure, except that the possible negative payout is determined by reference to the performance of the worst performing Reference Asset (as opposed to the aggregate performance of the Basket).</p> <p><i>Up and In Long:</i> The Up and In Long is a barrier put option. At maturity, the Holder receives an additional return, calculated as the product of the Participation Ratio, the Principal Amount of the Notes, and the difference between the Basket Return and the Basket Strike Level, if the Basket has, on any Valuation Date during the lifetime of the Notes, performed at or above the predefined Barrier Level. If the Barrier Level is not reached on any Valuation Date, the additional amount will equal zero and the Redemption Amount will equal the Principal Amount of the Notes. The Barrier Level is always higher than the Basket Strike Level.</p> |

|--|--|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <p><i>Up and Out Put Option:</i> The Up and Out Put Option is a barrier put option. At maturity, the Holder receives an additional return, calculated as the product of the Participation Ratio, the Principal Amount of the Notes, and the difference between the Basket Return and the Basket Strike Level, or, if higher, a pre-specified coupon level, if the Basket has, on any Valuation Date during the lifetime of the Notes, performed at or above the predefined Barrier Level. If the Barrier Level is not reached on any Valuation Date, the additional amount will equal zero and the Redemption Amount will equal the Principal Amount of the Notes. The Barrier Level is always higher than the Basket Strike Level.</p> <p><i>Equity Accumulating Asian Rainbow Option:</i> This structure is very similar to the Rainbow Basket, but the weights of the underlying Reference Assets are set on the Issue Date and are afterwards recalculated based upon the performance of the individual Reference Assets in the Basket. On each subsequent Valuation Date, the weight for each Reference Asset is recalculated so that the best performing Reference Asset will receive the highest weighting for the next Valuation Period, the second best will receive the second highest weighting and so forth.</p> <p><i>Down and Out Basket Long:</i> The Down and Out Basket Long Structure is a barrier call option. At maturity, the Holder receives an additional return, calculated as the product of the Participation Ratio, the Principal Amount of the Notes, and the difference between the Basket Return and the Basket Strike Level, if the Basket has not, on any Valuation Date during the lifetime of the Notes, fixed at or below a predefined Barrier Level. This means that if the Barrier Level is breached on any Valuation Date, the additional payout equals zero and the Redemption Amount will equal the Principal Amount of the Notes.</p> <p><i>Worst of Digital Memory Coupon:</i> The Worst of Digital Memory Coupon option is a memory coupon type of option with a digital payout condition. The accumulated face value of the payments (i.e. the "accrued coupon") can never decrease, and so the structure can either pay out the total accrued amount after the final Valuation Date (Worst of Digital Coupon Memory Structure 1), or, alternatively, the additional accrued coupon after each Valuation Date (Worst of Digital Coupon Memory Structure 2).</p> <p><i>Worst of Call Option:</i> The Worst of Call Option Structure gives the Holder an exposure to the worst performing Reference Asset in the Basket. The additional amount payable to the Holder will be the greater of zero, and the Reference Asset Return of the worst performing Reference Asset.</p> <p><i>Outperformance Option:</i> The Outperformance Option offers the investor the possibility of a ranked return on a Basket of underlying Reference Assets. Whereas the pay out of a normal Basket structure is dependent on the absolute performance of Basket consisting of one or more Reference Assets, the pay out of an outperformance structure is dependent on the relative performance of two Baskets, not on the absolute performance of either Basket.</p> <p><i>"Non-Tranched CLN" and "Tranched CLN" structures:</i> the Redemption Amount and, if relevant, interest payments, are based on the weighted losses in the same or different portfolios of Reference Entities as a result of the occurrence of one or more Credit Events. For Tranched CLNs, the occurrence of a Credit Event may have no impact or a more proportional impact on the Redemption Amount and, if relevant, interest payments. The Tranche feature is used to determined the portion of losses to which a Holder will be exposed in the event of a Credit Event affecting one or more Reference Entities.</p> |

|  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|--|--|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <p><i>"Nth to Default" and "Nth and Nth+1 to Default" structures:</i> the Redemption Amount and, if relevant, interest payments, are based on the number and potentially the order of Credit Events in the same Reference Entity portfolio. For Nth to Default CLNs, while the occurrence of the N-1 Credit Events has no impact on the Redemption Amount and (if any) interest payments, the Nth Credit Event will have a more than proportional impact on these figures. Similarly, for the Nth and Nth+1 to Default CLNs, the impact of the Nth and Nth+1 Credit Events will have a more than proportional impact.</p> <p><i>Digital Long</i></p> <p>If the Basket Return on the final Valuation Date exceeds the Basket Strike Level, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount equal to the Principal Amount of the Notes multiplied by the Coupon.</p> <p>If the Basket Return does not exceed the Basket Strike Level on the final Valuation Date, the Redemption Amount will be the Principal Amount of the Notes.</p> <p>The positive performance of the Reference Assets may have a positive or negative effect on the return on the Notes, depending on the calculation of the underlying Basket Return.</p> <p><i>[The underlying Basket Return Structure is the Long/Short Structure]</i></p> <p><i>[Not Applicable]</i></p> <p><i>Digital Short</i></p> <p>If the Basket Return on the final Valuation Date is below the Basket Strike Level, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount equal to the Principal Amount of the Notes multiplied by the Coupon.</p> <p>If the Basket Return on the final Valuation Date is equal to or above the Basket Strike Level, the Redemption Amount will be the Principal Amount of the Notes.</p> <p>The positive performance of the Reference Assets may have a positive or negative effect on the return on the Notes, depending on the calculation of the underlying Basket Return.</p> <p><i>[The underlying Basket Return Structure is the Long/Short Structure]</i></p> <p><i>[Not Applicable]</i></p> |

|--|--|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <p><i>"Delta 1 Structure"</i>: the Redemption Amount will be equal to the redemption proceeds received upon a redemption of all Reference Assets in the Basket by the holder of such Reference Assets less (i) a structuring fee payable to the Issuer and (ii) any applicable taxes. A Delta 1 Structure effectively replicates the gains or losses that an investor would realise through a direct holding of the relevant Reference Assets. If it is not possible for the hedging entity to redeem the Reference Assets before the scheduled maturity date or if the hedging entity determines that it will not receive the full amount of the redemption proceeds before the scheduled maturity date, a deferred redemption will occur and the Issuer may make a partial redemption of the Notes as and when the relevant hedging party receives a material part of the redemption proceeds, or cancel the Notes without making any payment to the holders if the Issuer determines that the redemption proceeds will not be received prior to the specified long-stop date.</p> <p><i>"TOM Cumulative Strategy"</i>: if specified as applicable, the Redemption Amount will only be affected by the underlying performance of the Basket during certain periods during the lifetime of the Notes. During the other periods, the Redemption Amount will be linked to a pre-determined reference rate.</p> <p><i>The TOM Cumulative Strategy is Applicable/Not Applicable</i></p> <p><i>FX Components</i>: if FX components are applied to one or more performance structures set out above, the Basket Return or the Reference Asset Return may be adjusted by multiplying them by a factor which reflects the variation in one or more foreign exchange rates during the relevant time periods being measured or observed.</p> <p><i>[The FX Component is applicable to the Basket Return/Reference Asset Return]</i></p> <p><i>[The FX Component is Not Applicable]</i></p> <p><i>Best of/Worst of Modifier</i>: if the Best Of/Worst Of Modifier is applied to one or more performance structures set out above, then the relevant observations, valuations and calculations of the Redemption Amount shall be determined by reference to the performance of the Nth best performing Reference Asset, rather than the Basket as whole. N will be a pre-determined value that is specified in the Final Terms.</p> <p><i>[the Best of/Worst of Modifier is Applicable and the value of N is: [ ]/Not Applicable]</i></p> <p><i>"Inflation Linker 2"</i>: the Redemption Amount will be the Principal Amount of the Notes, multiplied by the higher of 1 and the result obtained by dividing the Inflation Rate on the final Valuation Date by the Inflation Rate on the Initial Valuation Date.</p> <p><i>Combination of Structures</i>: the Issuer may elect to combine one or more of the performance structures described above in relation to a particular issue of Notes. In such a case, the total Redemption Amount payable to Noteholders will equal the sum of the various Redemption Amounts that are applicable, multiplied in each case by a fraction which represents the overall share of the total return which the Issuer intends each performance structure to contribute.</p> <p><i>Not Applicable/Combination of Structures is Applicable, the relevant Performance Structures are listed below</i></p> |

| D.2               | <b>Risks Specific to the Issuers:</b> | <p>In purchasing Notes, investors assume the risk that the relevant Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the relevant Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the relevant Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the relevant Issuer's control. The Issuers have identified in the Base Prospectus a number of factors which could materially adversely affect its respective business and ability to make payments due under the Notes. These factors include:</p> <p><b><i>Risks relating to current macroeconomic conditions</i></b></p> <p>Risks related to the European economic crisis have had, and may continue to have, a negative impact on global economic activity and the financial markets. If these conditions continue to persist, or should there be any further turbulence in these or other markets, this could have a material adverse effect on the Nordea Group's ability to access capital and liquidity on financial terms acceptable to the Nordea Group.</p> <p>Furthermore, the Nordea Group's performance is significantly influenced by the general economic condition in the countries in which it operates, in particular the Nordic markets (Denmark, Finland, Norway and Sweden). Negative economic developments and conditions in the markets in which it operates can adversely affect its business, financial condition and results of operations, and measures implemented by the Nordea Group might not be satisfactory to reduce any credit, market and liquidity risks.</p> <p><b><i>Risks relating to the Nordea Group's credit portfolio</i></b></p> <p>Adverse changes in the credit quality of the Nordea Group's borrowers and counterparties or a decrease in collateral values are likely to affect the recoverability and value of the Nordea Group's assets and require an increase in its individual provisions and potentially in collective provisions for impaired loans. A significant increase in the size of the Nordea Group's allowance for loan losses and loan losses not covered by allowances would have a material adverse effect on the Nordea Group's business, financial condition and results of operations.</p> <p>The Nordea Group is exposed to counterparty credit risk, settlement risk and transfer risk on transactions executed in the financial services industry and its transactions in financial instruments. If counterparties default on their obligations, this could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.</p> <p><b><i>Risks relating to market exposure</i></b></p> <p>The value of financial instruments held by Nordea Group are sensitive to volatility of and correlations between various market variables, including interest rates, credit spreads, equity prices and foreign exchange rates. Write-downs or realise impairment charges may have a material adverse effect on the Nordea Group's business, financial condition and results of operations, while the performance of financial markets and volatile market conditions could result in a significant decline in the Nordea Group's trading and investment income, or result in a trading loss.</p> |

|--|--|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <p><b><i>The Nordea Group is exposed to structural market risk</i></b></p> <p>The Nordea Group is exposed to structural interest income risk when there is a mismatch between the interest rate re-pricing periods, volumes or reference rates of its assets, liabilities and derivatives. It is also exposed to currency translation risk primarily as a result of its Swedish and Norwegian banking businesses, as it prepares its consolidated financial statements in its functional currency, the euro. Any mismatch in any given period in the event of changes in interest rates, or failure to successfully hedge currency risk exposure, could have a material adverse effect on the Nordea Group's financial condition and results of operations.</p> <p><b><i>Risks relating to liquidity and capital requirements</i></b></p> <p>A substantial part of the Nordea Group's liquidity and funding requirements is met through reliance on customer deposits, as well as ongoing access to wholesale lending markets, including issuance of long-term debt market instruments such as covered bonds. Turbulence in the global financial markets and economy may adversely affect the Nordea Group's liquidity and the willingness of certain counterparties and customers to do business with the Nordea Group.</p> <p>The Nordea Group's business performance could be affected if the capital adequacy ratios it is required to maintain under the European Capital Requirements Directive (comprising Directive 2006/48/EC and Directive 2006/49/EC) are reduced or perceived to be inadequate.</p> <p>The Nordea Group's funding costs and its access to the debt capital markets depend significantly on its credit ratings. A reduction in credit ratings could adversely affect the Nordea Group's access to liquidity and its competitive position, and therefore, have a material adverse effect on its business, financial condition and results of operations.</p> <p><b><i>Other risks relating to the Nordea Group's business</i></b></p> <p>The Nordea Group's business operations are dependent on the ability to process a large number of complex transactions across different markets in many currencies and operations are carried out through a number of entities. Although the Nordea Group has implemented risk controls and taken other actions to mitigate exposures and/or losses, there can be no assurances that such procedures will be effective in controlling each of the operational risks faced by the Nordea Group, or that the Nordea Group's reputation will not be damaged by the occurrence of any operational risks.</p> <p>The Nordea Group's operations in Poland, Russia and the Baltic countries – markets which are typically more volatile and less developed economically and politically than markets in Western Europe and North America – present various risks that do not apply, or apply to a lesser degree, to its businesses in the Nordic markets. Additionally, some of these markets are typically more volatile and less developed economically and politically than markets in Western Europe and North America.</p> <p>The Nordea Group's performance is, to a large extent, dependent on the talents and efforts of highly skilled individuals, and the continued ability of the Nordea Group to compete effectively and implement its strategy depends on its ability to attract new employees and retain and motivate existing employees. Any loss of the services of key employees, particularly to competitors, or the inability to attract and retain highly skilled personnel in the future could have an adverse effect on the Nordea Group's business.</p> |

|     |                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|-----|-------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     |                                     | <p>There is competition for the types of banking and other products and services that the Nordea Group provides and there can be no assurances that the Nordea Group can maintain its competitive position.</p> <p><b><i>Risks relating to the legal and regulatory environments in which the Nordea Group operates</i></b></p> <p>The Nordea Group is subject to substantial regulation and oversight by a number of different regulators as well as laws and regulations, administrative actions and policies in each of the jurisdictions in which it operates, all of which are subject to change, and compliance with which may from time to time require significant costs.</p> <p>The Nordea Group may incur substantial costs in monitoring and complying with new capital adequacy and recovery and resolution requirements, which may also impact existing business models. In addition, there can also be no assurances that breaches of legislation or regulations by the Nordea Group will not occur and, to the extent that such a breach does occur, that significant liability or penalties will not be incurred.</p> <p>In the ordinary course of its business, the Nordea Group is subject to regulatory oversight and liability risk and is involved in a variety of claims, disputes, legal proceedings and governmental investigations in jurisdictions where it is active. These types of claims and proceedings expose the Nordea Group to monetary damages, direct or indirect costs (including legal costs), direct or indirect financial loss, civil and criminal penalties, loss of licences or authorisations, or loss of reputation, as well as the potential for regulatory restrictions on its businesses.</p> <p>The Nordea Group's activities are subject to tax at various rates around the world computed in accordance with local legislation and practice. Legislative changes or decisions by tax authorities may impair the present or previous tax position of the Nordea Group.</p> |
| D.3 | <b>Risks Specific to the Notes:</b> | <p>There are also risks related to any issue of Notes under the Programme and specific types of Notes, which prospective investors should carefully consider and make sure they understand prior to making any investment decision with respect to the Notes, including:</p> <ul style="list-style-type: none"> <li>• <i>Complexity of the product</i> – the performance structure for structured Notes is sometimes complex and may contain mathematical formulae or relationships which, for an investor, may be difficult to understand and compare with other investment alternatives. In addition, the relationship between yield and risk may be difficult to assess.</li> <li>• <i>Notes which are not principal protected</i> – Notes that are not principal protected may be issued under the Programme. If the Note is not principal protected, there is no guarantee that the return that an investor receives on the Notes upon their redemption will be greater than or equal to the principal amount.</li> <li>• <i>Pricing of structured Notes</i> – the pricing of structured notes is normally decided by the relevant Issuer rather than being determined on the basis of negotiated terms. There may, therefore, be a conflict of interest between the relevant Issuer and the investors, to the extent that the relevant Issuer is able to influence pricing and is looking to make a gain or avoid a loss in relation to the underlying Reference Assets. The Issuer does not have a fiduciary duty to act in the best interests of Noteholders.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|--|--|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <ul style="list-style-type: none"> <li>• <i>Performance of the Reference Assets</i> – with structured Notes, the Noteholder's right to yield and sometimes the repayment of principal depends on the performance of one or more Reference Assets and the applicable performance structure. The value of a structured Note will be affected by the value of the Reference Assets at specific points during the term of the relevant Notes, the intensity of the price fluctuations of the Reference Asset(s), expectations regarding future volatility, market interests rates and expected distributions on the Reference Asset(s).</li> <li>• <i>Currency fluctuations.</i> Foreign exchange rates may be affected by complex political and economic factors, including relative rates of inflation, interest rate levels, the balance of payments between countries, the extent of any governmental surplus or deficit and the monetary, fiscal and/or trade policies pursued by the governments of the relevant currencies. Currency fluctuations may affect the value or level of the Reference Assets in complex ways. If such currency fluctuations cause the value or level of the Reference Assets to vary, the value or level of the Notes may fall. If the value or level of one or more Reference Asset(s) is denominated in a currency that is different from the currency of the Notes, investors in the Notes may be subject to increased foreign exchange risk. Previous foreign exchange rates are not necessarily indicative of future foreign exchange rates.</li> <li>• <i>Equities as Reference Assets</i> – equity-linked Notes are not sponsored or promoted by the Issuer of the equities. The equity Issuer does not, therefore, have an obligation to take into account the interests of the investors in the Notes and so the actions of such equity Issuer could adversely affect the market value of the Notes. The investor in the Notes is not entitled to receive any dividend payments or other distributions to which a direct holder of the underlying equities would otherwise be entitled.</li> <li>• <i>Indices as Reference Assets</i> – Notes that reference indices as Reference Assets may receive a lower payment upon redemption of such Notes than an investor would have received if he or she had invested directly in the equities/assets that comprise the index. The sponsor of any index can add, delete, substitute components or make methodological changes that could affect the level of such index and hence the return that is payable to investors in the Notes.</li> <li>• <i>Commodities as Reference Assets</i> – trading in commodities is speculative and may be extremely volatile as commodity prices are affected by factors that are unpredictable, such as changes in supply and demand relationships, weather patterns and government policies. Commodity contracts may also be traded directly between market participants "over-the-counter" in trading facilities that are subject to minimal or no substantive regulation. This increases the risks relating to the liquidity and price histories of the relevant contracts. Notes that are linked to commodity future contracts may provide a different return than Notes linked to the relevant physical commodity, as the price of a futures contract on a commodity will generally be at a premium or at a discount to the spot price of the underlying commodity.</li> </ul> |

|            |                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|------------|----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|            |                                  | <ul style="list-style-type: none"> <li>• <i>Exposure to a basket of Reference Assets</i> – where the underlying is a basket of Reference Assets, the investors bear the risk of the performance of each of the basket constituents. Where there is a high level of interdependence between the individual basket constituents, any move in the performance of the basket constituents will exaggerate the performance of the Notes. Moreover, a small basket or an unequally weighted basket will generally leave the basket more vulnerable to changes in the value of any particular basket constituent. Any calculation or value that involves a basket with "best of" or "worst of" features may produce results that are very different to those that take into account the performance of the basket as a whole.</li> <li>• <i>Credit-Linked Notes</i> – an investment in credit-linked Notes entails exposure to the credit risk of a particular Reference Entity or basket of Reference Entities in addition to that of the relevant Issuer. A fall in the creditworthiness of a Reference Entity can have a significant adverse impact on the market value of the related Notes and any payments of principal/interest due. Upon the occurrence of a Credit Event, the relevant Issuer's obligation to pay principal may be replaced by an obligation to pay other amounts calculated by reference to the value of the Reference Entity. As none of the Reference Entities contributed to the preparation of the Base Prospectus, there can be no assurance that all material events or information regarding the financial performance and creditworthiness of Reference Entities have been disclosed at the time the Notes are issued.</li> <li>• <i>Automatic early redemption</i> – certain types of Notes will be automatically redeemed prior to their scheduled maturity date if certain conditions are met. In some circumstances, this may result in a loss of part or all an investor's investment.</li> <li>• <i>Notes subject to optional redemption by the Issuer</i> – an optional redemption feature is likely to limit the market value of the Notes.</li> <li>• <i>Notes issued at a substantial discount or premium</i> – the market value of Notes of this type tends to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities.</li> </ul> <p>There are also certain risks relating to the Notes generally, such as modification and waivers, the risk of withholding pursuant to the EU Savings Directive and change of law.</p> |
| <b>D.6</b> | <b>Risk Warning:<sup>2</sup></b> | An investment in relatively complex securities such as the Notes involves a greater degree of risk than investing in less complex securities. In particular, in some cases, investors may stand to lose the value of their entire investment or part of it, as the case may be.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

<sup>2</sup> To be deleted in the case of a straight debt issuance.

Such expenses (if any) will be determined on a case by case basis.</p> <p><i>No expenses are being charged to an investor in the Notes by the Issuer [or any Authorised Offeror]./The Authorised Offeror(s) will charge expenses to investors. The estimated expenses chargeable to investors by the Authorised Offeror(s) are [ ]</i>.</p>              |

**Denna sammanfattning är en inofficiell översättning av den sammanfattning som återfinns omedelbart före detta avsnitt och investerare skall läsa och ta till sig den engelska versionen av sammanfattningen då denna kan avvika från den svenska översättningen.**

## **SAMMANFATTNING AV GRUNDPROSPEKTET**

Sammanfattningar består av informationskrav vilka redogörs för i ett antal punkter. Punkterna är numrerade i avsnitt A–E (A.1–E.7).

Denna sammanfattning innehåller alla de punkter som krävs i en sammanfattning för aktuella typer av värdepapper och emittenter. Eftersom vissa punkter inte är tillämpliga för denna typ av värdepapper och emittenter, kan det finnas luckor i punkternas numrering.

Även om det krävs att en punkt inkluderas i en sammanfattning för aktuella typer av värdepapper och för den relevanta emittenten, är det möjligt att ingen relevant information kan ges rörande punkten. Informationen har då ersatts med angivelsen ”Ej tillämpligt”.

Särskilt punkter i kursiv stil betecknar utrymmen för att färdigställa den emissionsspecifika sammanfattningen för en Tranch av Lån för vilka en sådan emissionsspecifik sammanfattning ska förberedas.

Ord och uttryck som definieras i avsnitten som kallas ”Allmänna Villkor” eller på andra ställen i detta Grundprospekt har samma betydelse i denna sammanfattning.

|            |                  | <b>Avsnitt A – Inledning och varningar</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|------------|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>A.1</b> | <b>Inledning</b> | Denna sammanfattning ska läsas som en inledning till detta Grundprospekt och varje beslut om att en placering i dessa Lån ska baseras på en bedömning av Grundprospektet i dess helhet av investeraren. Om ett yrkande gällande informationen i detta Grundprospekt framförs inför domstol i en Medlemsstat i det Europeiska Ekonomiska Samarbetsområdet kan käranden enligt den nationella lagstiftningen i Medlemsstaterna bli skyldig att stå för kostnaderna för att översätta Grundprospektet innan de rättsliga förfarandena inleds. Inget civilrättsligt ansvar kommer kunna göras gällande mot Emittenterna i någon sådan Medlemsstat enbart på grund av denna sammanfattning, inklusive alla översättningar av den, såvida den inte är vilseledande, felaktig eller oförenlig när den läses tillsammans med de andra avsnitten av detta Grundprospekt eller om den inte innehåller, när den läses tillsammans med de andra avsnitten i detta Grundprospekt, relevant information för att hjälpa investerare att fatta beslut om att investera i Lånen. |
| <b>A.2</b> | <b>Samtycke:</b> | Vissa Trancher av Lån med valörer om mindre än € 100 000 (eller ett motsvarande värde i någon annan valuta) kan komma att erbjudas under omständigheter där det inte finns något undantag från förpliktelsen enligt Prospektdirektivet att publicera ett prospekt. Alla sådana erbjudanden kallas ett <b>”Erbjudande till Allmänheten”</b> .                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| C.10 | Derivat-komponenter: | <p>De värdeutvecklingsstrukturer som beskrivs nedan bestämmer på vilket sätt värdeutvecklingen hos den/de relevanta Referenstillgången(arna) eller Referensenheterna påverkar avkastningen och/eller Återbetalningsbeloppet för Lånen. Emittenten kan välja att kombinera två eller fler värdeutvecklingsstrukturer när Lån ges ut:</p> <p><i>"Par" struktur:</i> Återbetalningsbeloppet är lika med Lånens Kapitalbelopp.</p> <p><i>"Basket Long" struktur:</i> Återbetalningsbeloppet är summan av Lånens Kapitalbelopp och ett ytterligare belopp som är lika med Lånens Kapitalbelopp multiplicerat med (i) ett belopp som återspeglar Korgens avkastning ("<b>Korgavkastningen</b>") och (ii) en ratio som används för att bestämma innehavarens exponering mot utvecklingen för de olika Referenstillgångarna ("<b>Deltagandegrad</b>"). Utvecklingen för en Referenstillgång bestäms med hänvisning till det belopp med vilket det slutliga priset överstiger Referenstillgångens startkurs ("<b>Referenstillgångsavkastning</b>"). Det slutliga priset på en Referenstillgång bestäms ofta på grundval av ett genomsnittsvärde på Referenstillgången under Lånens giltighetstid (dvs. det finns flera värderingstidpunkter under giltighetstiden), men det kan även bestämmas på grundval av en enda värdering. Referenstillgångsavkastningen eller Bankavkastningen kan dessutom bli föremål för ett golv, vilket agerar som en lägsta nivå för utveckling.</p> <p><i>"Basket Short" struktur:</i> Återbetalningsbeloppet är summan av Lånens Kapitalbelopp och ett ytterligare belopp som är lika med Lånens Kapitalbelopp multiplicerat med (i) den sammantagna avkastningen som skapats av Korgen och (ii) Deltagandegraden. Om Referenstillgångarnas utveckling inom Korgen är positiv kommer detta att få en negativ inverkan på den sammantagna avkastning som skapats av Korgen och därför den avkastning som ska betalas till Innehavarna. Om Referenstillgångarnas prestation inom Korgen är negativ kommer detta att få en positiv inverkan på den sammantagna avkastning som skapats av Korgen och därför den avkastning som ska betalas till Innehavarna.</p> <p><i>"Barriär Outperformance" struktur:</i> om Korgens utveckling överstiger en specificerad barriärnivå (ett pristak), kommer Återbetalningsbeloppet att utgöra en förbestämd maximal Korgavkastning. Om den specificerade barriärnivån inte överskrids kommer Återbetalningsbeloppet att vara lika med Lånens Kapitalbelopp.</p> <p><i>"Barriär Underperformance" struktur:</i> om korgens utveckling faller under en specificerad barriärnivå (ett prisgolv), kommer Återbetalningsbeloppet att utgöra en förbestämd maximal Korgavkastning. Om den specificerade barriärnivån inte överskrids kommer Återbetalningsbeloppet att vara lika med Lånens Kapitalbelopp.</p> |

|  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|--|--|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <p><i>"Best of/Worst of" Barriär</i> struktur: Detta är detsamma som "Barriär Outperformance" strukturen, förutom att observationen av barriärnivån och beräkningen av Återbetalningsbeloppet kommer att bestämmas med hänvisning till värdeutvecklingen hos Referenstillgången med den N:th Bästa värdeutvecklingen snarare än Korgen som helhet.</p> <p><i>"Best of/Worst of" Barriär Underperformance</i> struktur: Detta är detsamma som "Barriär Underperformance" strukturen, förutom att observationen av barriärnivån och beräkningen av Återbetalningsbeloppet kommer att bestämmas med hänvisning till värdeutvecklingen hos den Referenstillgång med den N:th Bästa värdeutvecklingen snarare än korgen som helhet.</p> <p><i>"Max"</i> struktur: Återbetalningsbeloppet beräknas på samma sätt som en av de andra värdeutvecklingsstrukturerna som anges häri, men är föremål för ett förbestämt maximalt återbetalningsbelopp, vilket agerar som ett tak på investerarens möjliga avkastning.</p> <p><i>"Autocallstruktur Long"</i>: Om Korgavkastningen på den slutliga Värderingsdagen är lika med eller under en förbestämd barriärnivå, kommer Återbetalningsbeloppet att vara summan av Lånens Kapitalbelopp och ett ytterligare belopp som beräknas genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och Korgavkastningen. Om Korgavkastningen på den slutliga Värderingsdagen är på eller över en förbestämd Barriärnivå, kommer Återbetalningsbeloppet att vara summan av Lånens Kapitalbelopp och ett ytterligare belopp som är lika med Lånens Kapitalbelopp multiplicerat med Deltagandegraden 2 och det högre av (i) Korgavkastningen och (ii) en förbestämd lägsta avkastning. Om den avkastning som genereras av Korgen är på eller över både en förbestämd Barriärnivå och en förbestämd Kupongbarriärnivå på den slutliga Värderingsdagen ska en Kupong (om det finns någon) också betalas (se avsnitt C.9 för detaljerad information angående Kupongen). Lånen kommer dessutom att vara föremål för förtida återbetalning om den avkastning som genereras av Korgen överstiger den relevanta barriärnivån på någon Värderingsdag före den slutliga Värderingsdagen.</p> <p><i>"Autocallstruktur Kort"</i>: denna struktur liknar "Autocallstruktur Long" med den skillnaden att den positiva utvecklingen för Referenstillgångarna inom Korgen kommer att ha en negativ inverkan på Lånens avkastning.</p> <p><i>"Best of/Worst of Autocallable"</i> struktur: detta är detsamma som "Autocallstruktur Long", förutom att Återbetalningsbeloppet (och all eventuell förtida återbetalning) bestäms med hänvisning till slutpriset hos den N:th bäst presterande Referenstillgången snarare än Korgen som helhet. Värdet på N kommer att specificeras i de tillämpliga Slutliga Villkoren.</p> <p><i>"Replacement Basket"</i> struktur: Återbetalningsbeloppet beräknas på liknande sätt som för Basket Long-strukturen, med skillnaden att de avkastningar som genereras av Referenstillgångarna med bäst värdeutveckling ersätts med ett förbestämt värde för syftet att bestämma Korgens totala värdeutveckling.</p> <p><i>"Locally Capped Basket"</i> struktur: Återbetalningsbeloppet beräknas på liknande sätt som för Basket Long-strukturen, med skillnaden att den avkastning som genereras av varje Referenstillgång är föremål för ett förbestämt maximalt procentvärde för syftet att bestämma Korgens totala värdeutveckling.</p> |

|  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|--|--|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <p><i>"Rainbow Basket" struktur:</i> Återbetalningsbeloppet beräknas på liknande sätt som Basket Long-strukturen, med skillnaden att viktningen för varje Referenstillgång i Korgen bestäms med hänvisning till den relativa värdeutvecklingen hos varje Referenstillgång. Avkastningen från varje Referenstillgång mäts separat på förfallodagen och rangordnas baserat på deras relativa värdeutveckling. Viktningen för varje Referenstillgång kommer att motsvara de viktningar som anges för den relativa rangordningen i de tillämpliga Slutliga Villkoren.</p> <p><i>"Booster" strukturer:</i> Boosterstrukturer har en förbättrad positiv eller negativ avkastning som baseras på utvecklingen i den underliggande Referenstillgången eller de underliggande Referenstillgångarna. Investerarens exponering mot utvecklingen i Referenstillgången kan öka eller minska genom tillämpning av olika deltagandegrader. Avkastningen kommer att tilläggas, eller dras av, Kapitalbeloppet i syfte att beräkna det betalbara Återbetalningsbeloppet vid förfallodagen. Som en följd kan en Innehavare under vissa förhållanden mottaga mindre än Kapitalbeloppet vid Lånens slutliga återbetalning. Inom en "Booster Long"-struktur kommer den positiva utvecklingen för Referenstillgångarna ha en positiv effekt på avkastningen på Lånen. I en "Booster Short"-struktur kommer en positiv utveckling i för Referenstillgångarna ha en negativ effekt på avkastningen på Lånen.</p> <p><i>"Booster Riskbarriär Short" struktur:</i> Återbetalningsbeloppet kommer bero på den avkastning som genererats av Korgen i jämförelse med en förbestämd barriärnivå för den slutliga Värderingsdagen och Korgs startvärde. Om Korgavkastningen ligger under barriärnivån på någon Värderingsdag och på eller över Korgs startvärde på någon Värderingsdag kommer Inlösenbeloppet vara summan av Lånens Kapitalbelopp och ett ytterligare som beräknas genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och Korgavkastningen. Om Korgavkastningen är på eller över barriärnivån på någon Värderingsdag men under Korgs startvärde vid den slutliga Värderingsdagen kommer Återbetalningsbeloppet vara det samma som Kapitalbeloppet. Om Korgavkastningen ligger under både barriärnivån och Korgs startvärde på någon Värderingsdag kommer Återbetalningsbeloppet beräknas med referens till Korgavkastningen och en separat deltagandegrad, vilket kommer resultera i ett Återbetalningsbelopp som är lägre än Kapitalbeloppet. Om utvecklingen för en Referenstillgång inom Korgen är positiv kommer detta ha en negativ inverkan på den totala avkastningen som genereras av Korgen. Om utvecklingen i en Referenstillgång inom Korgen är negativ kommer detta ha en positiv inverkan på den totala avkastningen som genereras av Korgen och således på det belopp som ska betalas vid återbetalning av Lånen.</p> <p><i>"Stimulerande Riskbarriär Long" struktur:</i> Återbetalningsbeloppet beräknas på ett liknande sätt som i "Booster Riskbarriär Short"-strukturen. Skillnaden är att när utvecklingen för en Referenstillgång inom Korgen är positiv kommer detta ha en positiv inverkan på den totala avkastningen som genereras av Korgen. Om utvecklingen för en Referenstillgång inom Korgen är negativ kommer detta ha en negativ inverkan på den totala avkastningen som genereras av Korgen och således på beloppet som ska betalas vid återbetalning av Lånen.</p> |

|  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|--|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | <p><i>"Bonus Booster Short"</i> struktur: Återbetalningsbeloppet beräknas på ett liknande sätt som i "Booster Riskbarriär Short"-strukturen med skillnaden att om avkastningen som genereras av Korgen aldrig ligger under barriärnivån kommer Återbetalningsbeloppet vara summan av Lånens Kapitalbelopp och ett tilläggsbelopp som är lika med det högre av (i) en förbestämd kupongnivå och (ii) ett belopp som beräknas genom att multiplicera Kapitalbeloppet med Deltagandegraden och Korgavkastningen. En positiv utveckling för Referenstillgångarna inom Korgen kommer ha en negativ inverkan på den totala avkastningen som genereras av Korgen.</p> <p><i>"Bonus Booster Long"</i> struktur: Återbetalningsbeloppet beräknas på ett liknande sätt som i "Bonus Booster Short"-strukturen. Skillnaden är att när utvecklingen för en Referenstillgång inom Korgen är positiv kommer detta ha en positiv inverkan på den totala avkastningen som genereras av Korgen. Om utvecklingen i en Referenstillgång inom Korgen är negativ kommer detta ha en negativ inverkan på den totala avkastningen som genereras av Korgen.</p> <p><i>"Periodsumme"</i>-struktur Återbetalningsbeloppet kommer vara summan av Kapitalbeloppet plus en ytterligare avkastning som baseras på den ackumulerade summan av de relativa procentuella ändringarna i den underliggande Korgen för ett antal förbestämda värderingsperioder under löptiden för Lånen. Följande funktioner kan även användas: (i) de relativa ändringarna i den underliggande Korgen kan lokalt tilldelas tak/golv-nivåer för varje värderingsperiod, (ii) den ackumulerade summan av de relativa ändringarna kan bli föremål för ett globalt tak/golv, och (iii) produkten kan ha en lock-in-funktion som innebär att den ytterligare avkastningen minst kommer vara lika med lock-in-nivån om den ackumulerade avkastningen på någon värderingsdag har nått en förbestämd lock-in-nivå.</p> <p><i>"Omvänd Periodsumme"</i> struktur: denna är väldigt lik "Periodsumme"-strukturen, men den ytterligare avkastningen beräknas genom att subtrahera de relativa procentuella ändringarna i den underliggande Korgen (för ett antal förbestämda värderingsperioder) från en förbestämd startkupong.</p> <p><i>"Ersättande Periodsumme"</i> struktur: denna är väldigt lik "Periodsumme"-strukturen där skillnaden ligger i att avkastningarna som genereras av ett visst antal av värderingsperioderna med bäst utveckling byts ut mot ett förbestämt belopp.</p> <p><i>"Omvänd Ersättande Periodsumme"</i> struktur: denna är väldigt lik "Omvänd Periodsumme"-strukturen där skillnaden är att avkastningarna som genereras av ett visst antal av värderingsperioderna med bäst utveckling byts ut mot ett förbestämt belopp.</p> <p><i>"Rainbow Ersättande Periodsumme"</i> struktur: utvecklingen i varje individuell Referenstillgång beräknas på samma grund som "Periodsumme"-strukturen. Skillnaden här är att vägningen av varje Referenstillgång inom korgen bestäms efter det att utvecklingen i varje Referenstillgång är känd, enligt principen att den bäst presterande underliggande ges högst vikt och så vidare.</p> <p><i>"Omvänd konvertibel"</i> struktur: om Korgavkastningen ligger på eller över korgens startnivå, kommer Återbetalningsbeloppet vara lika med Lånens Kapitalbelopp. Om Korgens avkastning ligger under korgens startnivå kommer Återbetalningsbeloppet att vara lika med Kapitalbeloppet minus ett belopp som beräknas genom att multiplicera Kapitalbeloppet med Deltagandegraden och Korgavkastningen och därmed få fram ett Återbetalningsbelopp som är lägre än Lånens Kapitalbelopp. En positiv utveckling i Referenstillgångarna inom Korgen kommer ha en positiv inverkan på Korgens totala avkastning och tvärtom kommer en negativ utveckling i de individuella Referenstillgångarna ha en negativ inverkan på Korgens totala avkastning.</p> |

|  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|--|--|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <p><i>"Omvänd Konvertibel Riskbarriär" struktur:</i> om summan av Korgens avkastning och 1 är lika med eller över Korgs Startnivå vid den slutliga Värderingsdagen kommer Återbetalningsbeloppet att vara lika med Kapitalbeloppet.</p> <p>Om summan av Korgens avkastning och 1 ligger under Barriärnivån på någon Värderingsdag, och om Korgavkastningen vid den slutliga Värderingsdagen ligger under Korgs Startnivå kommer Återbetalningsbeloppet beräknas genom att multiplicera Lånens Kapitalbelopp med Deltagandegraden och Korgavkastningen och beloppet som ges kommer att adderas till Lånens Kapitalbelopp (i det här fallet kommer Återbetalningsbeloppet vara lägre än Kapitalbeloppet).</p> <p><i>"Worst of Omvänd Konvertibel"-struktur:</i> Återbetalningsbeloppet beräknas på samma sätt som i "Omvänd Konvertibel"-strukturen, förutom att den möjliga negativa utbetalningen bestäms med referens till utvecklingen för Referenstillgången med sämst värdeutveckling (i motsats till den totala utvecklingen i Korgen).</p> <p><i>Up and In Long:</i> Up and In Long är en barriäroption. Vid förfallodagen mottar Innehavaren en ytterligare avkastning som beräknas genom att multiplicera Deltagandegraden med Lånens Kapitalbelopp och med differensen mellan Korgavkastningen och Korglösennivån om Korgen, på någon Värderingsdag under Lånens löptid, har utvecklats på eller över den förbestämda Barriärnivån. Om Barriärnivån inte har nåtts vid någon Värderingsdag kommer tilläggsbeloppet vara lika med noll och Återbetalningsbeloppet kommer vara lika med Lånens Kapitalbelopp. Barriärnivån är alltid högre än Korgenlösenprisnivån.</p> <p><i>Up and out Long:</i> Up and out Long är en barriäroption. Vid förfallodagen mottar Innehavaren en ytterligare avkastning som beräknas genom att multiplicera Deltagandegraden med Kapitalbeloppet och med differensen mellan Korgavkastningen och Korgenslösennivån, eller, om det är högre, en förbestämd kupongnivå om Korgen, vid någon Värderingsdag under Lånens löptid, har utvecklats på eller över den förbestämda Barriärnivån. Om Barriärnivån inte har nåtts vid någon Värderingsdag kommer tilläggsbeloppet vara lika med noll och Återbetalningsbeloppet kommer vara lika med Lånens Kapitalbelopp. Barriärnivån är alltid högre än Korgenslösennivån.</p> <p><i>Equity Ackumulerande Asian Regnbågsoption:</i> Denna struktur är väldigt lik Regnbågskorgen, men vikten av de underliggande Referenstillgångarna bestäms på Lånedatum och omräknas därefter baserat på utvecklingen för de individuella Referenstillgångarna i Korgen. På varje efterföljande Värderingsdag omräknas vikten för varje Referenstillgång så att Referenstillgången med bäst utveckling kommer motta den högsta viktningen för nästa Värderingsperiod, den andra bästa kommer motta den andra högsta viktningen och så vidare.</p> <p><i>Down and Out Basket Long:</i> Down and Out Basket Long-strukturen är en barriäroption. Vid förfallodagen mottar Innehavaren en ytterligare avkastning som beräknas som produkten av Deltagandegraden, Lånens Kapitalbelopp och differensen mellan Korgavkastningen och Korglösennivån, om Korgen inte, vid någon Värderingsdag under Lånens löptid, har fixerats på eller över en förbestämd Barriärnivå. Detta innebär att om Barriärnivån överträds på någon Värderingsdag kommer tilläggsutbetalningen att bli lika med noll och Återbetalningsbeloppet kommer vara lika med Lånens Kapitalbelopp.</p> |

|  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|--|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | <p><i>Worst of Digital Memory Coupon:</i> Worst of Digital Memory Coupon är en typ av memorykupongoption med ett digitalt utbetalningsvillkor. Det ackumulerade nominella värdet på utbetalningarna (dvs. den ”upplupna kupongen”) kan inte minska, varför strukturen antingen betalar ut det totala upplupna beloppet efter den slutliga Värderingsdagen (Worst of Digital Kupong Memory 1), eller alternativt den upplupna tilläggskupongen efter varje Värderingsdag (Worst of Digital Kupong Memory 2).</p> <p><i>Worst of Calloption:</i> Worst of Calloption-strukturen ger Innehavaren en exponering mot Referenstillgången med sämst värdeutveckling i Korgen. Tilläggsbeloppet som ska betalas till Innehavaren kommer vara det högre av noll och Referenstillgångsavkastningen för Referenstillgången med sämst värdeutveckling.</p> <p><i>Outperformance Option:</i> Outperformance Option erbjuder investeraren möjligheten till en graderad avkastning på en Korg med underliggande Referenstillgångar. Medan utbetalningen från en vanlig Korgstruktur är beroende av den absoluta utvecklingen för en Korg som består av en eller flera Referenstillgångar beror utbetalningen i en Outperformancesstruktur på den relativa utvecklingen för två Korgar, inte på den absoluta utvecklingen för varje Korg.</p> <p><i>”Non-Tranched CLN” och ”Tranched CLN” strukturer:</i> Återbetalningsbeloppet och, om tillämpligt, ränteutbetalningarna, baseras på de viktade förlusterna i samma eller olika portföljer av Referensenheter som ett resultat av att en eller flera Kredithändelser inträffar. För Tranched CLN:er kan det förekomma att en Kredithändelse inte har någon inverkan eller en mer proportionerlig inverkan på Återbetalningsbeloppet och, om relevant, ränteutbetalningar. Tranchfunktionen används för att bestämma andelen av förluster som en Innehavare kommer vara exponerad mot i händelse av att en Kredithändelse som påverkar en eller flera Referensenheter.</p> <p><i>”N:th to Default” och ”N:th och N:te+1 to Default”-strukturer:</i> Återbetalningsbeloppet och, om tillämpligt, ränteutbetalningarna, baseras på antalet och potentiellt ordningsföljden Kredithändelser i samma Referensenhetsportfölj. Gällande N:th to Default-CLN:er, har inträffandet av N-1 Kredithändelser inte någon inverkan på Återbetalningsbeloppet och (om några) ränteutbetalningar, samtidigt som N:th Kredithändelsen kommer ha en mer än proportionerlig inverkan på dessa siffror. På samma sätt gällande N:th och N:th+1 to Default-CLN:erna kommer inverkan från den N:th och N:th+1 Kredithändelsen ha en mer än proportionerlig inverkan.</p> <p><i>Digital Long</i></p> <p>Om Korgavkastningen vid den slutliga Värderingsdagen överstiger Korgenlösennivån kommer Återbetalningsbeloppet vara summan av Lånens Kapitalbelopp och ett ytterligare belopp som är lika med Lånens Kapitalbelopp multiplicerat med Kupongen.</p> <p>Om Korgavkastningen inte överstiger Korgenlösennivån vid den slutliga Värderingsdagen kommer Återbetalningsbeloppet vara Lånens Kapitalbelopp.</p> <p>Den positiva utvecklingen i Referenstillgångarna kan ha en positiv eller negativ inverkan på avkastningen på Lånen, beroende på beräkningen av den underliggande Korgavkastningen.</p> <p>[Den underliggande Korgavkastningsstrukturen är den Långa/Korta strukturen]</p> <p>[Ej tillämpligt]</p> |

|---------------------------|-------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>D.2</b>                | <b>Risker specifika för Emittenterna:</b> | <p>Vid förvärv av Lån påtar sig investerna risken att den relevanta Emittenten kan bli insolvent eller på annat sätt bli oförmögen att betala förfallna belopp hänförliga till Lånen. Det finns ett stort antal faktorer som var för sig eller tillsammans kan leda till att den relevanta Emittenten blir oförmögen att betala förfallna belopp hänförliga till Lånen. Det är möjligt att identifiera alla sådana faktorer eller fastställa vilka faktorer som är mest troliga att inträffa, eftersom den relevanta Emittenten kan vara ovetande om alla relevanta faktorer samt att vissa faktorer som denne för närvarande inte anser vara relevanta kan komma att bli relevanta till följd av händelser som inträffar och som befinner sig utanför den relevanta Emittentens kontroll. Emittenterna har i Grundprospektet identifierat ett antal faktorer som avsevärt skulle kunna inverka negativt på dess respektive verksamhet och förmåga att under Lånen betala förfallna belopp. Dessa faktorer innefattar:</p> <p><b><i>Risker med anknytning till aktuella makroekonomiska förhållanden</i></b></p> <p>Risker med anknytning till den europeiska ekonomiska krisen har haft och kan även i fortsättningen komma att ha, en negativ påverkan på den globala ekonomin och finansmarknaderna. Om förhållandena kvarstår, eller om turbulens uppstår på dessa eller andra marknader, kan det på ett betydande sätt negativt påverka Nordea-koncernens förmåga att få tillgång till kapital och likviditet på ekonomiska villkor som Nordea-koncernen kan acceptera.</p> |

|  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|--|--|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <p>Vidare påverkas Nordea-koncernens resultat på ett betydande sätt av det allmänna ekonomiska läget i de länder där den bedriver verksamhet, i synnerhet på de nordiska marknaderna (Danmark, Finland, Norge och Sverige). En negativ utveckling för ekonomin och marknadsförhållanden där koncernen bedriver verksamhet, kan negativt påverka koncernens verksamhet, finansiella tillstånd och verksamhetsresultat och det åtgärder som Nordea-koncernen vidtar kan visa sig otillräckliga för att minska kredit-, marknads- och likviditetsrisker.</p> <p><b><i>Risker med anknytning till Nordea-koncernens kreditportfölj</i></b></p> <p>Negativa ändringar i kreditvärdigheten hos Nordea-koncernens låntagare och motparter, eller en minskning i värdet för säkerheter, kommer sannolikt påverka Nordea-koncernens återhämtningsmöjligheter och värdet av dess tillgångar, vilket kan kräva en ökning av företagets enskilda regler och eventuellt i de kollektiva reglerna för dåliga lån. En betydande ökning i storleken på Nordeas avsättningar för låneförluster och låneförluster som inte täcks av avsättningar, skulle på ett betydande sätt negativt påverka Nordea-koncernens verksamhet, finansiella läge och verksamhetsresultat.</p> <p>Nordea-koncernen är exponerad för motparter kreditrisker, förlikningsrisker och överlåtelse risker i förhållande till transaktioner som genomförs inom sektorn för finansiella tjänster och denna sektors handel med finansiella instrument. Om motparterna inte klarar att fullgöra sina åtaganden kan detta på ett betydande sätt negativt påverka Nordea-koncernens verksamhet, ekonomiska läge och verksamhetsresultat.</p> <p><b><i>Risker med anknytning till marknadsexponering</i></b></p> <p>Värdet på finansiella instrument som ägs av Nordea-koncernen är känsliga för volatiliteten i, och korrelationer mellan, olika marknadsvariabler, bland annat räntor, kreditspridningar, aktiepriser och utländska valutakurser. Nedskrivningar eller avskrivningar som kostnadsförts kan på ett betydande sätt negativt påverka Nordea-koncernens verksamhet, ekonomiska läge och verksamhetsresultat, medan finansmarknadens resultat och volatila marknadsförhållanden kan resultera i en betydande minskning i Nordea-koncernens handels- och investeringsinkomster, eller leda till en handelsförlust.</p> <p><b><i>Nordea-koncernen är utsatt för strukturella marknadsrisker</i></b></p> <p>Nordea-koncernen är utsatt för strukturell ränteinkomstrisk när det råder ett missförhållande mellan perioder då räntesatser förändras, volymer eller referensräntor för sina tillgångar, skulder och derivat. Nordea-koncernen är även utsatt för valutakonverteringsrisk som uppstår genom företagets svenska och norska bankverksamheter när den sammanställer koncernens konsoliderade årsredovisning i sin funktionella valuta, euron. Om ett missförhållande råder under en viss period, vid ändringar i räntan, eller om valutariskexponeringen inte hedgas tillräckligt, kan det på ett betydande sätt få en negativ påverkan för Nordea-koncernens ekonomiska läge och verksamhetsresultat.</p> |

|  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|--|--|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <p><b>Risker med anknytning till likviditets- och kapitalkrav</b></p> <p>En betydande andel av Nordea-koncernens likviditets- och finansieringskrav uppfylls genom insättningar från kunder, samt även en kontinuerlig tillgång till marknader för storskaliga lån, bland annat utfärdandet av långfristiga skuldebrev, t.ex. säkerställda obligationer. Turbulens på de globala finansmarknaderna och ekonomin kan negativt påverka Nordea-koncernens likviditet och villigheten hos vissa motparter och kunder att göra affärer med Nordea-koncernen.</p> <p>Nordea-koncernens verksamhetsresultat kan påverkas om de kapitaltäckningskrav som företaget måste upprätthålla enligt European Capital Requirements Directive (Europeiska direktivet om kapitalkrav) (bestående av direktiv 2006/48/EG och direktiv 2006/49/EG), minskas eller uppfattas som otillräckliga.</p> <p>Nordea-koncernens finansieringskostnader och företags tillgång till skuldkapitalmarknader påverkas på ett betydande sätt av dess kreditbetyg. En sänkning av kreditbetyget kan negativt påverka Nordea-koncernens tillgång till likviditet och dess konkurrensläge, och därför på ett betydande sätt negativt påverka företags verksamhet, ekonomiska tillstånd och verksamhetsresultat.</p> <p><b>Andra risker med anknytning till Nordea-koncernens verksamhet</b></p> <p>För att Nordea-koncernens verksamhet ska fungera måste företaget kunna genomföra ett stort antal komplexa transaktioner på olika marknader i många valutor. Transaktioner genomförs genom många olika enheter. Trots att Nordea-koncernen har implementerat riskkontroller och vidtagit andra åtgärder för att minska exponeringen och/eller förlusterna, finns inga garantier för att sådana procedurer kommer att vara effektiva i att hantera de olika verksamhetsrisker som Nordea-koncernen står inför, eller att Nordea-koncernens rykte inte skadas genom förekomsten av operationell risk.</p> <p>Nordea-koncernens verksamheter i Polen, Ryssland och Baltikum – marknader som vanligen är mer volatila och mindre ekonomiskt och politiskt utvecklade än marknaderna i Västeuropa och Nordamerika – innebär olika risker som inte gäller, eller gäller i mindre grad, för företags verksamheter i Norden. Vidare är vissa av dessa marknader vanligtvis mer volatila och mindre utvecklade rent ekonomiskt och politiskt än marknader i Västeuropa och Nordamerika.</p> <p>Nordea-koncernens resultat bygger till stor del på dess anställdas höga kompetens och yrkesskicklighet. Nordea-koncernens fortsatta förmåga att konkurrera effektivt och implementera sin strategi är beroende av förmågan att dra till sig nya anställda och att behålla och motivera befintliga anställda. Förluster av vissa nyckelpersoner, särskilt om de går över till konkurrenter, eller en oförmåga att dra till sig och behålla högkompetent personal i framtiden, kan få en negativ effekt på Nordea-koncernens verksamhet.</p> <p>Det råder konkurrens om de olika typer av banktjänster och produkter som Nordea-koncernen erbjuder. Det finns inga garantier för att Nordea-koncernen kommer att behålla sin konkurrensposition.</p> <p><b>Risker med anknytning till lagar och regulatoriska krav på området där Nordea-koncernen bedriver sin verksamhet</b></p> <p>Nordea Group måste följa ett stort antal regler och kontrolleras av olika myndigheter, såväl som lagar och bestämmelser, administrativa påbud och policyer i de olika jurisdiktioner som företaget verkar, vilka alla kan ändras. Detta kan vid var tid för förändring innebära betydande utgifter.</p> |

|     |                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|-----|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     |                                    | <p>Nordea-koncernen kan ådra sig betydande kostnader för kontroller och uppfyllandet av nya kapitalkrav, samt krav på återvinning och upplösning, vilket även kan påverka befintliga affärsmodeller. Vidare finns inga garantier om att brott mot lagar och bestämmelser av Nordea-koncernen inte sker eller att, om ett sådant brott sker, företaget inte får betala stora skadestånd eller böter.</p> <p>Under normal drift av verksamheten gäller för Nordea-koncernen att det förekommer risker med anknytning till myndigheters kontroller och skadestånd. Nordea-koncernen är föremål för många olika anspråk, tvister, processer och statliga utredningar i jurisdiktioner där företaget är aktivt. Dessa slags anspråk och processer utsätter Nordea-koncernen för risker för monetära skadestånd, direkta eller indirekta förluster (bl.a. rättskostnader), direkt eller indirekt ekonomisk förlust, civilrättsliga och straffrättsliga sanktioner, förlust av licenser eller goodwill-skada, samt även risken för restriktioner för verksamhetens fortsatta drift.</p> <p>Nordea-koncernens verksamhet beskattas olika runt om i världen i enlighet med lokala lagar och praxis. Lagändringar eller beslut av skattemyndigheterna kan skada Nordea-koncernens nuvarande eller tidigare skatteläge.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| D.3 | <b>Risker specifika för Lånen:</b> | <p>Risker finns även i samband med emission av Lånen under Programmet och särskilda typer av Lån, vilka potentiella investerare noga ska beakta, så att de är införstådda i dessa risker innan ett investeringsbeslut fattas med avseende på Lånen, bland annat följande:</p> <ul style="list-style-type: none"> <li>• <i>Produktens komplexitet</i> – avkastningsstrukturen för strukturerade Lån är ibland komplex och kan innehålla matematiska formler eller samband som, för en investerare, kan vara svåra att förstå och jämföra med andra investeringsalternativ. Noteras bör att relationen mellan avkastning och risk kan vara svår att utvärdera.</li> <li>• <i>Lån vars kapitalbelopp inte är garanterat</i> – Lån vars kapitalbelopp inte är garanterade får emitteras enligt Programmet. Om Lånen kapitalbelopp inte är garanterade, finns ingen garanti för att avkastningen som en investerare får på Lånen vid inlösen kommer att överstiga eller vara lika med kapitalbeloppet.</li> <li>• <i>Prissättning av strukturerade Lån</i> – Prissättningen av strukturerade Lån bestäms vanligen av Emittenten ifråga, och inte utifrån förhandlade villkor. Det kan därför uppstå en intressekonflikt mellan Emittenten ifråga och investerarna, i det att Emittenten ifråga kan påverka prissättningen och försöker generera en vinst eller undvika en förlust i relation till de underliggande referenstillgångarna. Emittenten har ingen skyldighet att agera i Innehavarnas intresse.</li> <li>• <i>Referenstillgångarnas värdeutveckling</i> – Med strukturerade Lån är Innehavarnas rätt till avkastning och ibland återbetalningen av kapitalbeloppet, beroende av hur bra värdeutvecklingen är för en eller flera referenstillgångar och den gällande avkastningsstrukturen. Värdet på strukturerade tillgångar påverkas av värdet på referenstillgångarna vid vissa tidpunkter under värdepapprens löptid, hur starkt priserna hos referenstillgångarna varierar, förväntningarna angående den framtida volatiliteten, marknadsräntorna och förväntade utdelningar på referenstillgångarna.</li> </ul> |

|  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|--|--|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |  | <ul style="list-style-type: none"> <li>• <i>Valutafluktuationer.</i> Växelkurserna för utländska valutor kan påverkas av komplexa politiska och ekonomiska faktorer, inklusive relativa inflationstakter, betalningsbalansen mellan länder, storleken på regeringars budgetöverskott eller budgetunderskott och den monetära, skatte- och/eller handelspolitiska policy som följs av de relevanta valutornas regeringar. Valutafluktuationer kan påverka värdet eller nivån hos Referenstillgångarna på komplexa sätt. Om sådana valutafluktuationer får värdet eller nivån hos Referenstillgångarna att variera, så kan värdet eller nivån på Lånen falla. Om värdet eller nivån hos en eller flera Referenstillgång(ar) är utfärdad(e) i en valuta som är annan än valutan i vilken Lånen är utfärdade, så kan investerarna vara utsatta för en ökad risk som kommer från växelkurser för främmande valutor. Tidigare växelkurser för utländska valutor är inte nödvändigtvis indikationer beträffande framtida växelkurser för utländska valutor.</li> <li>• <i>Aktier som Referenstillgångar</i> – aktielänkade Lån är inte sponsrade eller främjade av Emittenten av aktierna. Emittenten av aktierna har därför inte någon skyldighet att beakta intresset för dem som investerat i Lånen varför åtgärder tagna av en sådan Emittent av aktier skulle kunna negativt påverka Lånens marknadsvärde. Den som investerat i Lånen har inte rätt att få några utbetalningar eller andra utdelningar till vilka en direkt ägare av de underliggande aktierna annars skulle ha rätt.</li> <li>• <i>Index som Referenstillgångar</i> – Lån som baserar sig på index som Referenstillgångar kan få lägre betalning vid inlösen av sådana Lån än om han eller hon hade investerat direkt i de aktier/tillgångar som utgör indexet. Sponsorn av vilket som helst index kan lägga till, ta bort eller ersätta komponenter eller göra metodändringar som kan påverka nivån på sådant index och därmed den avkastning som skall betalas till investerare i Lånen.</li> <li>• <i>Råvaror som Referenstillgångar</i> – att handla i råvaror är spekulativt och kan vara extremt volatilt eftersom råvarupriser påverkas av faktorer som är oförutsägbara, såsom ändringar i relationerna mellan tillgång och efterfrågan, vädermönster och regeringars politik. Råvarukontrakt kan även handlas direkt mellan marknadsaktörer ”over-the-counter” på handelsplatser som är föremål för minimal eller ingen substantiell reglering. Detta ökar riskerna som sammanhänger med likviditets- och prishistorik för de relevanta kontrakten. Lån som är länkade till terminskontrakt för råvaror kan ge en annan avkastning än Lån som är länkade till den relevanta fysiska råvaran, eftersom priset på ett terminskontrakt för en råvara allmänt innefattar en premie eller en rabatt jämfört med dagspriset för den underliggande råvaran.</li> <li>• <i>Exponering mot en korg av Referenstillgångar</i> – där det underliggande är en korg av Referenstillgångar, bär investerarna risken för värdeutvecklingen för var och en av delarna som korgen innehåller. Där det är en hög nivå av ömsesidigt beroende mellan de individuella delarna av korgens innehåll, så kan en ändring i värdeutvecklingen hos korgens delar överdriva värdeutvecklingen i Lånen. Dessutom kan en liten korg eller en olikartad viktad korg göra korgen sårbar för ändringar i värdet hos vilken som helst av de specifika korgkomponenterna. Varje beräkning eller värde som berör en korg med ”bästa av” eller ”sämsta av”-inslag kan producera resultat som skiljer sig mycket från dem som tar hänsyn till korgens värdeutveckling i dess helhet.</li> </ul> |

|------------|---------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|            |                                 | <ul style="list-style-type: none"> <li>• <i>Kreditlänkade Lån</i> – en investering i kreditlänkade Lån för med sig en exponering mot kreditrisken hos en specifik Referenstillgång eller korg av Referensenheter utöver den från den relevanta Emittenten. En reduktion av kreditvärdigheten hos en Referensenhet kan ha en väsentlig negativ effekt på marknadsvärdet för de relevanta Lånen och betalningarna av kapitalbeloppet och upplupen ränta. När en Kredithändelse inträffar, så kan den relevanta Emittentens skyldighet att betala kapitalbeloppet ersättas av en skyldighet att betala andra belopp beräknade med referens till värdet hos Referensenheten. Eftersom inga av Referensenheterna bidrog till framställandet av Grundprospektet, så finns ingen garanti för att alla väsentliga händelser eller informationer som relaterar till finansiell värdeutveckling eller kreditvärdigheten hos Referensenheterna har offentliggjorts vid den tidpunkt då Lånen emitterades.</li> <li>• <i>Automatisk Förtida Återbetalning</i> – vissa typer av Lån kan automatiskt återbetalas före deras planerade förfallodatum om vissa villkor är uppfyllda. I en del fall kan detta resultera i en förlust av en del eller hela investerarens investering.</li> <li>• <i>Lån som är föremål för valfri återbetalning av Emittenten</i> – en valfri återbetalning kan sannolikt minska Lånens marknadsvärde.</li> <li>• <i>Lån emitterade med väsentlig rabatt eller premie</i> – marknadsvärdet av Lånen av denna typ tenderar att fluktuera mer i relation till allmänna ändringar i räntesatser än priser för konventionella räntebärande värdepapper.</li> </ul> <p>Det finns också vissa risker rörande Lånen i allmänhet, såsom modifikationer och undantag, risken för kvarhållande i enlighet med Rådets Sparanddirektiv (2003/48/EG) och lagändringar.</p> |
| <b>D.6</b> | <b>Riskvarning:<sup>4</sup></b> | En investering i relativt komplexa värdepapper, såsom Lånen, för med sig en högre risk än att investera i mindre komplexa värdepapper. Speciellt, i en del fall, kan investerare förlora värdet av hela sin investering eller delar därav, från fall till fall.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| <b>Sektion E - Erbjudande</b> |                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

<sup>4</sup> Att avlägsnas i fall av utfärdande av enkelt lån.

|            |                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|------------|-----------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|            |                                                                 | och leverans.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

## RISK FACTORS

*An investment in the Notes involves a degree of risk. Prospective investors should carefully consider the risks set forth below and the other information contained in this Base Prospectus prior to making any investment decision with respect to the Notes. The risks described below could have a material adverse effect on the Nordea Group's business, financial condition and results of operations or the value of the Notes. Additional risks and uncertainties, including those of which the Nordea Group's management is not currently aware or deem immaterial, may also potentially have an adverse effect on the Nordea Group's business, results of operations, financial condition or future prospects or may result in other events that could cause investors to lose all or part of their investment.*

*Words and expressions defined in the "Terms and Conditions of the Notes" or elsewhere in this Base Prospectus have the same meanings in this section.*

*Prospective investors should note that the risks relating to the Issuers, the industry in which they operate and the Notes summarised in the section of this Base Prospectus headed "Summary" are the risks that the Issuers believe to be the most relevant to an assessment by a prospective investor of whether to consider an investment in the Notes. However, as the risks which the Issuers face relate to events and depend on circumstances that may or may not occur in the future, prospective investors should consider not only the information on the key risks summarised in the section of this Base Prospectus headed "Summary" but also, among other things, the risks and uncertainties described below.*

*Each of the Issuers believes that the factors described below present the principal risks inherent in investing in the Notes issued under the Programme, but the inability of the relevant Issuer to pay interest or principal on or in connection with any Notes may occur for other reasons and neither of the Issuers represents that the statements below regarding the risks of holding any Notes is exhaustive.*

### **Risks Relating to Current Macroeconomic Conditions**

#### ***Disruptions and volatility in the global financial markets may adversely impact the Nordea Group.***

From August 2007 through the early part of 2009, the global financial system experienced unprecedented credit and liquidity conditions and disruptions leading to a reduction in liquidity, greater volatility, general widening of spreads and, in some cases, lack of price transparency in money and capital markets interest rates. Following a period of stabilisation in 2010 and the first half of 2011, the recovery was adversely affected by turmoil and disruptions in the capital markets that were triggered by high sovereign budget deficits and rising direct and contingent sovereign debt in Greece, Ireland, Italy, Portugal and Spain. Despite rescue packages provided to certain of these countries during the past years, uncertainty over the outcome of these measures and worries about sovereign finances continued to persist, which, together with concerns about the overall stability and sustainability of the euro area, resulted in further volatility in the global credit and liquidity markets. Reflecting these concerns, Standard & Poor's, Moody's and Fitch downgraded the credit ratings of several EU countries in the beginning of 2012. Market concerns over the direct and indirect exposure of European banks and insurers to these countries as well as to each other also resulted in a widening of credit spreads, increased costs of funding and negative credit ratings outlook for some European financial institutions. Even though market conditions improved somewhat in the latter part of 2012, the developments in the financial markets were driven mainly by central bank initiatives and markets remained volatile with uncertainty about future macroeconomic developments. It cannot be excluded that, for example, a further deterioration of public finances of certain European countries would lead to new funding uncertainty, resulting in increased volatility, and a potential tightening of liquidity conditions in the future widening credit spreads. For example, the rescue package offered to Cyprus in March 2013 resulted in increased market volatility and speculation about the stability of the euro area. Risks related to the European economic crisis have also had, and are likely to continue to have, a negative impact on global economic activity and the financial markets. If these conditions continue to persist, or should there be any further turbulence in these or other markets, this could have a material adverse effect on the Nordea Group's ability to access capital and liquidity on financial terms acceptable to the Nordea Group. Further, any of the foregoing factors could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.

***Negative economic developments and conditions in the markets in which the Nordea Group operates can adversely affect the Nordea Group's business and results of operations.***

The Nordea Group's performance is significantly influenced by the general economic condition in the countries in which it operates, in particular the Nordic markets (Denmark, Finland, Norway and Sweden) and, to a lesser degree, in Poland, Russia and the Baltic countries. Following the weakened economic environment and the turmoil in the global financial markets, in 2008 and 2009, which was reflected in declining economic growth, increasing rates of unemployment as well as decreasing asset values in these countries, the economic conditions in the Nordic region have, in general, developed more favourably relative to the rest of Europe, benefiting from generally sound public finances. However, there have been differences between countries within the region. For example, in 2012, Norway maintained strong growth and the Swedish economy also continued to grow, albeit at a slower pace compared to the previous few years, while Finland experienced negative growth. Denmark, which has been affected more deeply by the financial crisis and economic slowdown than the other Nordic economies, followed many euro area countries into a recession. Adverse economic developments of the kind described above have affected and may continue to affect the Nordea Group's business in a number of ways, including, among others, the income, wealth, liquidity, business and/or financial condition of the Nordea Group's customers, which, in turn, could further reduce the Nordea Group's credit quality and demand for the Nordea Group's financial products and services. As a result, any or all of the conditions described above could continue to have a material adverse effect on the Nordea Group's business, financial condition and results of operations, and measures implemented by the Nordea Group might not be satisfactory to reduce any credit, market and liquidity risks.

**Risks Relating to the Nordea Group's Credit Portfolio**

***Deterioration in counterparties' credit quality may affect the Nordea Group's financial performance.***

Risks arising from changes in credit quality and the recoverability of loans and amounts due from counterparties are inherent in a wide range of the Nordea Group's businesses. The Nordea Group makes provisions for loan losses in accordance with IFRS; however, the provisions made are based on available information, estimates and assumptions and are subject to uncertainty, and there can be no assurances that the provisions will be sufficient to cover the amount of loan losses as they occur. Adverse changes in the credit quality of the Nordea Group's borrowers and counterparties or a decrease in collateral values, are likely to affect the recoverability and value of the Nordea Group's assets and require an increase in the Nordea Group's individual provisions and potentially in collective provisions for impaired loans, which in turn would adversely affect the Nordea Group's financial performance. In particular, the Nordea Group's exposure to corporate customers is subject to adverse changes in credit quality should the economic environment in the Nordea Group's markets deteriorate. For example, following the negative economic development in Russia and the Baltic countries in 2008 and 2009, credit risk associated with certain borrowers and counterparties in these markets increased. The prolonged difficult economic environment also negatively affected the shipping and offshore sector and certain customer groups in Denmark in 2011 and 2012. The ability of the Nordea Group's borrowers in Poland, Russia, Latvia and Lithuania to repay their loans may also be indirectly affected by foreign exchange risk as loans to customers in these countries typically are denominated in euro or U.S. dollars, though customers typically derive their main income in local currencies. Further, actual loan losses vary over the business cycle. A significant increase in the size of the Nordea Group's allowance for loan losses and loan losses not covered by allowances would have a material adverse effect on the Nordea Group's business, financial condition and results of operations.

***The Nordea Group is exposed to counterparty credit risk.***

The Nordea Group routinely executes transactions with counterparties in the financial services industry, including brokers and dealers, commercial banks, investment banks, funds and other institutional and corporate clients. Many of these transactions expose the Nordea Group to the risk that the Nordea Group's counterparty in a foreign exchange, interest rate, commodity, equity or credit derivative contract defaults on its obligations prior to maturity when the Nordea Group has an outstanding claim against that counterparty. Due to volatility in foreign exchange and fixed income markets during the past years, this risk has remained at an elevated level compared to the period preceding the global financial and economic crisis. This credit risk may also be exacerbated when the collateral held by the Nordea Group cannot be realised or is liquidated at prices not sufficient to recover the full amount of the counterparty exposure. Any of the foregoing could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.

As a consequence of its transactions in financial instruments, including foreign exchange rate and derivative contracts, the Nordea Group is also exposed to settlement risk and transfer risk. Settlement risk is the risk of losing the principal on a financial contract due to default by the counterparty or after when the Nordea Group has given irrevocable instructions for a transfer of a principal amount or security, but before receipt of the corresponding payment or security has been finally confirmed, and transfer risk is the risk attributable to the transfer of money from a country other than the country where a borrower is domiciled, which is affected by the changes in the economic conditions and political situation in the countries concerned.

## **Risks Relating to Market Exposure**

### ***The Nordea Group is exposed to market price risk.***

The Nordea Group's customer-driven trading operations (where positions, within certain defined limits, are taken) and its Treasury operations (where the Nordea Group holds investment and liquidity portfolios for its own account) are the key contributors to market price risk in the Nordea Group. The fair value of financial instruments held by the Nordea Group, including bonds (government, corporate and mortgage), equity investments, cash in various currencies, investments in private equity, hedge and credit funds, commodities and derivatives (including credit derivatives), are sensitive to volatility of and correlations between various market variables, including interest rates, credit spreads, equity prices and foreign exchange rates. To the extent volatile market conditions persist or recur, the fair value of the Nordea Group's bond, derivative and structured credit portfolios, as well as other classes, could fall more than estimated, and therefore cause the Nordea Group to record write-downs. Future valuations of the assets for which the Nordea Group has already recorded or estimated write-downs, which will reflect the then-prevailing market conditions, may result in significant changes in the fair values of these assets. Further, the value of certain financial instruments are recorded at fair value, which is determined by using financial models incorporating assumptions, judgments and estimations that are inherently uncertain and which may change over time or may ultimately be inaccurate. Any of these factors could require the Nordea Group to recognise further write-downs or realise impairment charges, which may have a material adverse effect on the Nordea Group's business, financial condition and results of operations. In addition, because the Nordea Group's trading and investment income depends to a great extent on the performance of financial markets, volatile market conditions could result in a significant decline in the Nordea Group's trading and investment income, or result in a trading loss, which in turn could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.

### ***The Nordea Group is exposed to structural market risk.***

#### *Structural interest rate risk*

Like all banks, the Nordea Group earns interest from loans and other assets, and pays interest to its depositors and other creditors. The net effect of changes to the Nordea Group's net interest income depends on the relative levels of assets and liabilities that are affected by the changes in interest rates. The Nordea Group is exposed to structural interest income risk ("**SIIR**") when there is a mismatch between the interest rate re-pricing periods, volumes or reference rates of its assets, liabilities and derivatives. This mismatch in any given period in the event of changes in interest rates could have a material adverse effect on the Nordea Group's financial condition and results of operations.

#### *Structural foreign exchange risk*

The Nordea Group is exposed to currency translation risk primarily as a result of its Swedish and Norwegian banking businesses, as it prepares its consolidated financial statements in its functional currency, the euro. The Nordea Group's functional currency for its Danish banking business is the Danish krone, which is pegged to the euro. Because the Nordea Group shows translation differences between the local currency denominated equity positions of its fully consolidated subsidiaries, the euro effects arising from currency translation may reduce equity. In addition, because some of the Nordea Group's consolidated risk-weighted assets ("**RWA**"), against which the Nordea Group is required to hold a minimum level of capital, are denominated in local currencies, any significant depreciation of the euro against these local currencies would adversely impact the Nordea Group's capital adequacy ratios. While the Nordea Group, generally, follows a policy of hedging its foreign exchange risk by seeking to match the currency of its assets with the currency of the liabilities that fund them, there can be no assurances that the Nordea Group will be able to successfully hedge some or all of this currency risk exposure.

## **Risks Relating to Liquidity and Capital Requirements**

### ***Liquidity risk is inherent in the Nordea Group's operations.***

Liquidity risk is the risk that the Nordea Group will be unable to meet its obligations as they fall due or meet its liquidity commitments only at an increased cost. A substantial part of the Nordea Group's liquidity and funding requirements is met through reliance on customer deposits, as well as ongoing access to wholesale lending markets, including issuance of long-term debt market instruments such as covered bonds. The volume of these funding sources, in particular long-term funding, may be constrained during periods of liquidity stress. Turbulence in the global financial markets and economy may adversely affect the Nordea Group's liquidity and the willingness of certain counterparties and customers to do business with the Nordea Group, which may result in a material adverse effect on the Nordea Group's business and results of operations.

### ***The Nordea Group's business performance could be affected if its capital adequacy ratios are reduced or perceived to be inadequate.***

Under the European Capital Requirements Directive (comprising Directive 2006/48/EC and Directive 2006/49/EC (the "CRD"), the Nordea Group is required to maintain certain capital adequacy ratios. In addition, the Basel Committee on Banking Supervision has proposed a number of fundamental reforms to the regulatory capital framework for internationally active banks, the principal elements of which are set out in its papers released on 16 December 2010 "**Basel III**"). As of the date of this Base Prospectus, the CRD is in the process of being reformed to reflect the Basel III framework, including higher capital requirements.

Debt and equity investors, analysts and other market professionals may, nevertheless, require higher capital buffers than those required under current or proposed future regulations due to, among other things, the continued general uncertainty involving the financial services industry and the uncertain global economic conditions. Any such market perception, or any concern regarding compliance with future capital adequacy requirements, could increase the Nordea Group's borrowing costs, limit its access to capital markets or result in a downgrade in its credit ratings, which could have a material adverse effect on its results of operations, financial condition and liquidity. In addition, lower internal credit rating of customers, substantial market volatility, widening credit spreads, changes in the general capital adequacy regulatory framework or regulatory treatment of certain positions, changes in foreign exchange rates, decreases in collateral ratios as a consequence of the deterioration of the market value of underlying assets, or further deterioration of the economic environment, among other things, could result in an increase in the Nordea Group's RWA, which potentially may reduce the Nordea Group's capital adequacy ratios. If the Nordea Group were to experience a reduction in its capital adequacy ratios, and could not raise further capital, it would have to reduce its lending or investments in other operations. See also "**—Risks Relating to the Legal and Regulatory Environments in which the Nordea Group Operates—The Nordea Group may incur substantial costs in monitoring and complying with new capital adequacy and recovery and resolution framework requirements**" and "**—Risks Relating to the Notes—The Notes are subject to certain uncertainties relating to regulatory changes**" below.

### ***The Nordea Group's funding costs and its access to the debt capital markets depend significantly on its credit ratings.***

There can be no assurances that NBAB or its principal subsidiaries will be able to maintain their current ratings or that the Nordea Group can retain current ratings on its debt instruments. A reduction in the current long-term ratings of NBAB or one of its principal subsidiaries may increase its funding costs, limit access to the capital markets and trigger additional collateral requirements in derivative contracts and other secured funding arrangements. Therefore, a reduction in credit ratings could adversely affect the Nordea Group's access to liquidity and its competitive position, and thus, have a material adverse effect on its business, financial condition and results of operations.

## **Other Risks Relating to the Nordea Group's Business**

### ***Operational risks, including risks in connection with investment advice, may affect the Nordea Group's business.***

The Nordea Group's business operations are dependent on the ability to process a large number of complex transactions across different markets in many currencies. The Nordea Group's operations are carried out through a number of entities. Operational losses, including monetary damages, reputational

damage, costs, and direct and indirect financial losses and/or write-downs, may result from inadequacies or failures in internal processes, systems (for example, information technology ("IT") systems), licences from external suppliers, fraud or other criminal actions, employee errors, outsourcing, failure to properly document transactions or agreements with customers, vendors, sub-contractors, co-operation partners and other third parties, or to obtain or maintain proper authorisation, or from customer complaints, failure to comply with regulatory requirements, including but not limited to anti-money laundering, data protection and antitrust regulations, conduct of business rules, equipment failures, failure to protect its assets, including intellectual property rights and collateral, failure of physical and security protection, natural disasters or the failure of external systems, including those of the Nordea Group's suppliers or counterparties and failure to fulfil its obligations, contractual or otherwise. Although the Nordea Group has implemented risk controls and taken other actions to mitigate exposures and/or losses, there can be no assurances that such procedures will be effective in controlling each of the operational risks faced by the Nordea Group, or that the Nordea Group's reputation will not be damaged by the occurrence of any operational risks. See also *"Description of the Nordea Group—Information Technology"*.

As a part of its banking and asset management activities, the Nordea Group provides its customers with investment advice, access to internally as well as externally managed funds and serves as custodian of third-party funds. In the event of losses incurred by its customers due to investment advice from the Nordea Group, or the misconduct or fraudulent actions of external fund managers, the Nordea Group's customers may seek compensation from the Nordea Group. Such compensation might be sought even if the Nordea Group has no direct exposure to such risks, or has not recommended such counterparties to its customers. Any claims in this respect could have a material adverse effect on the Nordea Group's reputation, business, financial condition and results of operations. See *"Description of the Nordea Group—Legal and Administrative Proceedings"*.

***The Nordea Group is subject to a variety of risks as a result of its operations, in particular in Poland, Russia and the Baltic countries.***

The Nordea Group's operations in Poland, Russia and the Baltic countries present various risks that do not apply, or apply to a lesser degree, to its businesses in the Nordic markets. Some of these markets are typically more volatile and less developed economically and politically than markets in Western Europe and North America. The Nordea Group faces economic and political risk, including economic volatility, recession, inflationary pressure, exchange rate fluctuation risk and interruption of business, as well as civil unrest, moratorium, imposition of exchange controls, sanctions relating to specific countries, expropriation, nationalisation, renegotiation or nullification of existing contracts, sovereign default and changes in law or tax policy. For example, as a result of the economic recession experienced by countries in the Baltic Region in 2008 and 2009, questions were raised about their ability to react to the weakened conditions in the local economies and the ability of such countries and their residents to continue to perform on their respective obligations. Even though the economic and political conditions in Poland, Russia and the Baltic countries have, in general, developed favourably in recent years, risks related to operating in these markets could impact the ability or obligations of the Nordea Group's borrowers to repay their loans and the ability of the Nordea Group to utilise collateral held as security and affect interest rates and foreign exchange rates, and could produce social instability and adversely impact levels of economic activity, which would have a material adverse effect on the Nordea Group's business, financial condition and results of operations in these countries.

***Profitability in the Nordea Group's life and pension business depends on regulations and guidelines in the countries in which it operates.***

In addition to insurance risk and investment risks related to its life insurance business common to all life insurance and pension providers, the Nordea Group's ability to generate profit from its insurance subsidiaries generally depends on the level of fees and other income generated by the insurance and pension business. The level of fees and other income which the Nordea Group may earn from its life insurance subsidiaries differs from country to country, depending on regulations and guidelines promulgated by the relevant financial services authorities on shareholder fees, IFRS bridging, profit sharing and solvency requirements.

***The Nordea Group could fail to attract or retain senior management or other key employees.***

The Nordea Group's performance is, to a large extent, dependent on the talents and efforts of highly skilled individuals, and the continued ability of the Nordea Group to compete effectively and implement its strategy depends on its ability to attract new employees and retain and motivate existing employees.

Competition from within the financial services industry, including from other financial institutions, as well as from businesses outside the financial services industry for key employees is intense. Any loss of the services of key employees, particularly to competitors, or the inability to attract and retain highly skilled personnel in the future could have an adverse effect on the Nordea Group's business.

***The Nordea Group faces competition in all markets.***

There is competition for the types of banking and other products and services that the Nordea Group provides and there can be no assurances that the Nordea Group can maintain its competitive position. If the Nordea Group is unable to provide competitive product and service offerings, it may fail to attract new customers and/or retain existing customers, experience decreases in its interest, fee and commission income, and/or lose market share, the occurrence of any of which could have a material adverse effect on its business, financial condition and results of operations.

**Risks Relating to the Legal and Regulatory Environments in which the Nordea Group Operates**

***The Nordea Group is subject to substantial regulation and oversight by a number of different regulators.***

The SFSA is the main regulator of the Nordea Group's operations, although the Nordea Group's operations in Denmark, Finland, Norway, Poland, Russia, Estonia, Latvia, Lithuania, Germany, Isle of Man, Luxembourg, Singapore and the United States are subject to direct scrutiny from the local regulators in these jurisdictions. The Nordea Group is also subject to the oversight of regulators in each country where it has a branch or representative office, including China. The Nordea Group is subject to laws and regulations, administrative actions and policies in each of the jurisdictions in which it operates, all of which are subject to change, and compliance with which may from time to time require significant costs.

Areas where changes or developments in regulation and/or oversight could have an adverse impact include, but are not limited to (i) changes in monetary, interest rate and other policies, (ii) general changes in government and regulatory policies or regimes which may significantly influence investor decisions or may increase the costs of doing business in the Nordic markets, Poland, Russia and the Baltic countries, and such other markets where the Nordea Group carries out its business, (iii) changes in capital adequacy framework, imposition of onerous compliance obligations, restrictions on business growth or pricing and requirements to operate in a way that prioritises other objectives over shareholder value creation, (iv) changes in competition and pricing environments, (v) differentiation amongst financial institutions by governments with respect to the extension of guarantees to bank customer deposits and the terms attaching to such guarantees, (vi) expropriation, nationalisation, confiscation of assets and changes in legislation relating to foreign ownership, (vii) further developments in the financial reporting environment, and (viii) other unfavourable political, military or diplomatic developments, in particular in Poland, Russia and the Baltic countries, producing legal uncertainty, which in turn may affect demand for the Nordea Group's products and services.

As a result of the recent global financial and economic crisis, a number of regulatory initiatives have been taken to amend or implement rules and regulations, which are likely to have an impact on the business of the Nordea Group. Such initiatives include, but are not limited to, requirements for liquidity, capital adequacy and handling of counterparty risks, regulatory tools provided to authorities to allow them to intervene in scenarios of distress and the introduction of a common system of financial transaction tax in the euro area. These or any other requirements, restrictions, limitations on the operations of financial institutions and costs involved could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.

***The Nordea Group may incur substantial costs in monitoring and complying with new capital adequacy and recovery and resolution framework requirements.***

Basel III will be implemented in the European Economic Area by way of a proposed European Council Directive known as the Capital Requirements Directive and the direct application of a European Parliament and Council regulation (the "CRR") in each Member State of the European Economic Area (the "Capital Requirements Directive" and, together with the CRR, the "CRD IV"). The CRD IV is expected to be finalised in 2013 and implemented during 2014, based on the latest compromise text dated 27 March 2013 from the European Council and the European Parliament, which is expected to reflect the final form of the CRD IV. Although there is still some uncertainty regarding the final framework for new capital adequacy standards, the CRD IV will set higher capital and liquidity requirements on banks which will be required, among other things, to hold more core tier 1 capital. Further, the Swedish Ministry of

Finance, the SFSA and the Central Bank of Sweden ("**Riksbanken**") announced in November 2011 that higher capital standards than those set forth in the Basel III framework would be required from domestic systemically important banks ("**D-SIBs**"), which include the Nordea Group. The higher capital requirements and higher demands on liquidity will likely result in the Nordea Group, in common with other financial institutions, incurring substantial costs in monitoring and complying with these new requirements, which may also adversely affect the business environment in the financial sector. Furthermore, discussions are ongoing globally and in the EU concerning recovery and resolution regimes for credit institutions and investment firms, including the possible introduction of so-called "bail-in" capital, and ringfencing of specific activities, as well as the introduction of a single supervisory mechanism and a full banking union in the euro area. If implemented, these new requirements and supervisory structures may impact existing business models.

***Legal and regulatory claims arise in the conduct of the Nordea Group's business.***

In the ordinary course of its business, the Nordea Group is subject to regulatory oversight and liability risk. The Nordea Group carries out operations through a number of legal entities in a number of jurisdictions and is subject to regulation in each such jurisdiction. Regulations and regulatory requirements are continuously amended and new requirements are imposed on the Nordea Group, including, but not limited to, regulations on conduct of business, anti-money laundering, payments, consumer credits, capital requirements, reporting and corporate governance. There can be no assurances that breaches of regulations by the Nordea Group will not occur and, to the extent that such a breach does occur, that significant liability or penalties will not be incurred. The Nordea Group is involved in a variety of claims, disputes, legal proceedings and governmental investigations in jurisdictions where it is active. These types of claims and proceedings expose the Nordea Group to monetary damages, direct or indirect costs (including legal costs), direct or indirect financial loss, civil and criminal penalties, loss of licences or authorisations, or loss of reputation, as well as the potential for regulatory restrictions on its businesses, all of which could have a material adverse effect on the Nordea Group's business, financial condition and results of operations. Adverse regulatory actions against the Nordea Group or adverse judgments in litigation to which the Nordea Group is party could result in restrictions or limitations on the Nordea Group's operations or result in a material adverse effect on the Nordea Group's business, financial condition and results of operations.

***The Nordea Group is exposed to risk of changes in tax legislation as well as to increases in tax rates.***

The Nordea Group's activities are subject to tax at various rates around the world computed in accordance with local legislation and practice. The Nordea Group's business, including intra-group transactions, is conducted in accordance with the Nordea Group's interpretation of applicable laws, tax treaties, regulations and requirements of the tax authorities in the relevant countries. Nordea has obtained advice from independent tax advisors in this respect. However, there can be no assurances that its interpretation of applicable laws, tax treaties, regulations, or administrative practice is correct, or that such rules are not changed, possibly with retroactive effect. Legislative changes or decisions by tax authorities may impair the present or previous tax position of the Nordea Group.

**General Risks Relating to Notes**

***The Notes may not be suitable for all investors***

Each potential investor of the Notes must determine the suitability of that investment in light of such investor's own circumstances. In particular, each potential investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement to this Base Prospectus;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact such investment will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the currency in which such potential investor's financial activities are principally denominated;

- (d) understand thoroughly the terms of the relevant Notes and the behaviour of any relevant indices and financial markets; and
- (e) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to the investor's overall portfolio. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with the assistance of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

***Investors may have to rely on the VP's, VPS's, Euroclear Finland's, Euroclear Sweden's or SIS's procedures (as the case may be) for transfer, payment and communication with the Issuer.***

Investors in VP Notes, VPS Notes, Finnish Notes, Swedish Notes or Swiss Franc Notes will have to rely on the relevant clearing system's or the relevant Issuing Agent's, as the case may be, procedures for transfer, payment and communication with the relevant Issuer.

VP Notes, VPS Notes, Finnish Notes or Swedish Notes issued under the Programme will not be evidenced by any physical note or document of title other than statements of account made by the VP, the VPS, Euroclear Finland or Euroclear Sweden, as the case may be. Ownership of VP Notes, VPS Notes, Finnish Notes or Swedish Notes will be recorded and transfer effected only through the book entry system and register maintained by the VP, the VPS, Euroclear Finland or Euroclear Sweden, as the case may be.

***The Notes may not be freely transferred.***

Neither NBAB nor NBF has registered, nor will either of them register, the Notes under the Securities Act or any other securities laws. Accordingly, the Notes are subject to certain restrictions on resale and other transfer thereof as set forth in the section entitled "*Subscription and Sale*." As a result of these restrictions, neither NBAB nor NBF can be certain of the existence of a secondary market for the Notes or the liquidity of such a market if one develops. Consequently, a Holder of Notes and an owner of beneficial interests in those Notes must be able to bear the economic risk of their investment in the Notes for the terms of the Notes.

***There is no active trading market for the Notes.***

The Notes issued under the Programme will be new securities which may not be widely distributed and for which there is currently no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single series with a Tranche of Notes which is already issued). If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the relevant Issuer. Although applications have been made for Notes issued under the Programme to be admitted to listing on the Official List of the Irish Stock Exchange and to trading on its Main Securities Market, there is no assurance that such applications will be accepted, that any particular Tranche of Notes will be so admitted or that an active trading market will develop. Accordingly, there is no assurance as to the development or liquidity of any trading market for any particular Tranche of Notes. Holders of Notes should also be aware that, in view of the prevailing and widely reported global credit market conditions (which, to a certain extent, continue at the date hereof), the secondary market for the Notes and instruments of this kind may be illiquid. Neither NBAB nor NBF can predict when these circumstances will change.

***Cancelled or scaled down issue***

The Issuers reserve the right to cancel all or part of an offer of Notes prior to the relevant Issue Date upon the occurrence of certain circumstances, e.g. where the subscribed amount does not reach certain levels or where a participation ration cannot be determined at a certain level. The Issuers also reserve the right, in their sole discretion, to cancel an issue upon the occurrence of economic, financial or political events which may jeopardise a successful issue of Notes.

***Ratings may not always mirror the risk related to individual Notes.***

The Issuers' security ratings do not always mirror the risk related to individual Notes under the Programme. Tranches of Notes to be issued under the Programme may be rated or unrated. Where a Tranche of Notes is rated, the applicable rating(s) will be specified in the relevant Final Terms. Such rating will not necessarily be the same as the rating(s) assigned to the relevant Issuer or to Notes already issued. One or more independent credit rating agencies may also assign credit ratings to the Notes, which may not necessarily be the same ratings as the relevant Issuer rating described in this Base Prospectus or any rating(s) assigned to Notes already issued. Such ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A security rating is not a recommendation to buy, sell or hold securities or to keep the investment and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. In addition, real or anticipated changes in the relevant Issuer's credit ratings generally will affect the market value of the Notes.

***Noteholders are subject to credit risk on the relevant Issuer.***

Holders of the Notes issued under the Programme take a credit risk on the relevant Issuer. A holder's ability to receive payment under the Notes is dependent on the relevant Issuer's ability to fulfil its payment obligations, which in turn is dependent upon the development of the relevant Issuer's business. The risks relating to the Issuers' business are set out above.

***Notes may be redeemed prior to maturity.***

In the event that the relevant Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of Sweden (in the case of Notes issued by NBAB) or Finland (in the case of Notes issued by NBF) or any political subdivision thereof or any authority therein or thereof having power to tax, the relevant Issuer may redeem all outstanding Notes in accordance with Condition 6 (*Taxation*).

In addition, if in the case of any particular Tranche of Notes the relevant Final Terms specifies that the Notes are redeemable at the relevant Issuer's option in certain other circumstances, the relevant Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low. In such circumstances, an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate or yield as high as that of the relevant Notes.

An optional redemption feature is likely to limit the market value of Notes. During any period when the relevant Issuer may elect to redeem Notes, the market value of such Notes generally will not rise substantially above and may in fact decrease below the price at which they can be redeemed. This also may be true prior to any redemption period.

***Risk of early redemption***

Notes may be mandatorily redeemed prior to their scheduled maturity date for a number of reasons, such as taxation events, or in the case of Credit-Linked Notes following a Credit Event, or certain early redemption events such as a disruption events specified in the relevant Conditions for those Notes. Early redemption may result in Noteholders receiving a lower return on investment and in some circumstances may result in a loss of part or all of their investment. Prospective investors should consider reinvestment risk in light of other investments available at that time.

***Notes may be issued at a substantial discount or premium.***

The market values of securities issued at a substantial discount or premium to their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility.

***Noteholders' rights and obligations may be amended at meetings of Noteholders.***

The terms and conditions of the Notes and the Fiscal Agency Agreement contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit certain defined majorities to make decisions that modify the terms and conditions applicable to a Series of

Notes and may affect the Noteholders' rights and obligations under the Notes, and that bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority. At the meeting of Noteholders, the Noteholders also have authority to elect and give instructions to a representative to act on their behalf.

Each of the Issuers has the right to correct manifest errors in the terms and conditions without the Noteholders' consent and to make any amendment which the relevant Issuer does not consider to be materially prejudicial to the interests of Noteholders.

***The Notes are subject to certain uncertainties relating to regulatory changes.***

Under EC Council Directive 2003/48/EC on the taxation of savings income in the form of interest payments (the "**EU Savings Directive**"), each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in that other Member State; however, for a transitional period, Austria and Luxembourg may instead apply a withholding system in relation to such payments, deducting tax at rates rising over time to 35 per cent. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have adopted similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in a Member State (as defined in Article 4-2 of the EU Savings Directive). In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident or certain limited types of entity established in one of those territories.

The European Commission has proposed certain amendments to the EU Savings Directive which may, if implemented, amend or broaden the scope of the requirements described above.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither of the Issuers nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of such withholding tax. Each of the Issuers is required to maintain a Paying Agent in a Member State that is not obliged to withhold or deduct tax pursuant to the Directive. Investors who are in any doubt as to their position should consult their professional advisers.

***The proposed financial transactions tax***

The European Commission recently published a draft Directive containing proposals for a common FTT to be introduced in the 11 participating Member States (of Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia).

The proposed common FTT imposes a charge on financial transactions including purchases and sales of financial instruments and structured products; this charge will be levied at not less than 0.1% of the sale price. The proposed FTT also imposes a charge on the conclusion of a derivative (also a financial transaction); this charge will be levied at not less than 0.01% of the nominal amount of the derivative. In both cases the charge is applied separately to each financial institution that is party to a transaction; if a financial institution does not pay the tax then its counterparty will be jointly and severally liable.

A charge to FTT will arise in a participating Member State if at least one party to a financial transaction is established (for the purposes of the draft Directive) in that Member State and a financial institution established in a participating Member State is a party to the transaction, for its own account, for the account of another person, or if the financial institution is acting in the name of a party to the transaction. It is important to be aware that a financial institution will be treated as established in a participating Member State if its seat is there, it is authorised there or it is acting via a branch in that Member State (as regards branch transactions), or for a particular transaction, merely because it is entering into the financial transaction with another person who is established in that Member State. Furthermore, a financial institution will be treated as established in a participating Member State in respect of a financial transaction if it is a party (for its own account or for the account of another person) or is acting in the

name of a party, to a financial transaction in respect of a structured product or financial instrument issued within that Member State.

There are limited exemptions to the proposed common FTT; one important exemption is the "primary market transactions" exemption which should cover the issuing, allotting, underwriting or subscribing for "financial instruments", which includes shares and bonds. There are no exemptions for financial intermediaries and brokers. There is an exemption for central counterparties, but persons transacting with central counterparties (e.g. clearing members) are not exempt. Accordingly the effective cumulative rate of the tax may be greatly in excess of the headline rates noted above.

Even though the common FTT is to be introduced only in the participating Member States, it can be seen from what is said above that it could impact financial institutions operating inside and outside the 11 participating Member States, and the common FTT could be payable on transfers of Notes issued under this Base Prospectus if the FTT is introduced and the conditions for a charge to arise are satisfied.

The proposed common FTT is still under review and it may therefore change before it is implemented. It is currently proposed that the common FTT should be introduced in the participating Member States on 1st January, 2014. Prospective Noteholders are strongly advised to seek their own professional advice in relation to the possible impact of the FTT.

***Changes in laws and regulations may affect the terms and conditions of the Notes.***

The terms and conditions of the Notes and all non-contractual obligations arising out of or in connection with the Notes are governed by English law, Finnish Law, Swedish Law, Norwegian Law or Danish Law (as specified in the applicable Final Terms) except that (i) the registration of VP Notes in the VP which will be governed by, and construed in accordance with, Danish law; (ii) the registration of VPS Notes in the VPS which will be governed by, and construed in accordance with, Norwegian law; (iii) the registration of Finnish Notes in Euroclear Finland will be governed by, and construed in accordance with, Finnish law; and (iv) the registration of Swedish Notes in the Euroclear Sweden Register which will be governed by, and construed in accordance with, Swedish law.

The Rome II Regulation (864/2007), which sets out a series of rules to be applied by the courts of EU member states (other than Denmark) for the purposes of determining the governing law of non-contractual obligations between parties in most civil and commercial matters does not apply in Norway or Denmark and therefore may not apply to Norwegian or Danish investors.

There can be no assurances as to the impact of any possible judicial decision or change to the laws of England, Sweden, Finland, Denmark or Norway or administrative practice after the date of this Base Prospectus.

***The Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples.***

In relation to any issue of Notes which have a denomination consisting of the minimum Specified Denomination (as defined in the relevant Final Terms) plus a higher integral multiple of another smaller amount, it is possible that the Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of the minimum Specified Denomination. In such a case a Noteholder who, as a result of trading such amounts, holds a principal amount of less than the minimum Specified Denomination, would need to purchase a principal amount of the Notes such that its holding amounts to a Specified Denomination in order to be able to trade its holding of Notes or (in the case of Bearer Notes) obtain a Definitive Note if printed.

***Payments under the Notes may be subject to withholding tax pursuant to the U.S. Foreign Account Tax Compliance Act.***

With respect to (i) Notes (other than Notes that are classified as equity for U.S. federal income tax purposes) issued after the later of (a) 31 December 2013 and (b) the date that is six months after the date the term "foreign passthru payment" is defined in regulations published in the U.S. Federal Register (the "**Grandfather Date**"), or (ii) Notes issued before the Grandfather Date but materially modified after such date or (iii) Notes that are classified as equity for U.S. federal income tax purposes issued at any time, the Issuer may, under certain circumstances, be required pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended, and the regulations promulgated thereunder ("**FATCA**") to withhold U.S. tax at a rate of 30 per cent. on all or a portion of payments of principal and interest which

are treated as "pass-thru payments" made on or after 1 January 2017 to an investor or any other financial institution through which payment on the Notes is made that is a non-U.S. financial institution that is not in compliance with FATCA. If applicable, FATCA will be addressed in the relevant Final Terms with respect to Notes issued after the Grandfather Date. The application of FATCA to interest, principal or other amounts paid on or with respect to the Notes is not currently clear. If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, principal or other payments on the Notes as a result of a Holder's failure to comply with FATCA, none of the Issuer, any paying agent or any other person would pursuant to the terms and conditions of the Notes be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, Holders may receive less interest or principal than expected. If the Issuer issues further Notes on or after the Grandfather Date pursuant to a reopening of a Series of Notes that was created on or before the Grandfather Date (the "**original Notes**") and such further Notes are not fungible with the original Notes for U.S. federal income tax purposes, payments on such further Notes may be subject to withholding under FATCA and, should the original Notes and the further Notes be indistinguishable for non-tax purposes, payments on the original Notes may also become subject to withholding under FATCA. This would likely have a negative impact on the market price of the original Notes.

#### ***Specific legal risks relating to certain Notes***

In relation to structured Notes, it should be noted that any change in applicable laws or regulations or changes in the application thereof as well as specific events such as a moratorium, currency restriction, embargo, blockade or boycott of a central bank, the Swedish or Finish government or other sovereign such as the United Nations or the European Union, may result in (i) a substitution of Reference Assets, (ii) a change in a method for calculation of certain amounts under the Note, (iii) that certain amounts are calculated at an earlier date, (iv) a change in the calculation of yield and/or (v) amendments to the Conditions. Such events may therefore adversely affect the yield and other amounts that are payable to the investors under a structured Note, as well as the timing of payments.

In the event that a change in laws or regulations or decisions by public authorities (or in the application thereof), or any other circumstance not directly related to a downgrading of the relevant Issuer's credit ratings, would (in the opinion of the relevant Issuer) result in an increase in certain costs related to structured Note or increased costs for the relevant Issuer's risk management in relation to structured Note, such event may entitle the relevant Issuer to (i) substitute Reference Assets, (ii) change a method for calculation of certain amounts under the Note, (iii) calculate certain amounts at an earlier date, (iv) change the calculation of yield and/or (v) amend the Conditions.

#### ***Total cost***

Costs are incurred by the relevant Issuer in connection with the issuance of structured Notes due to, among other things, production, distribution, licences, exchange listing and risk management. In order to cover these costs, the relevant Issuer charges brokerage fees and commissions. Such fees and commissions may be factored into the issue price of the Notes or may be charged separately. The amount of the commission may vary and is affected by the fluctuations in interest rates and the price of the financial instruments included in the product.

Investors should be aware that market participants have varying possibilities to influence the price of the financial instruments underlying a Note. The pricing of structured Notes is normally not made on the basis of negotiated terms but rather it is decided by the relevant Issuer. Hence, there may be a conflict of interest between the relevant Issuer and the investors, to the extent the relevant Issuer is able to influence pricing and has a possibility to make a gain or to avoid a loss in relation to underlying Reference Assets, and the Issuer does not have any fiduciary or other obligation to act in the best interests of Noteholders. The transparency relating to the pricing of structured Notes may be limited.

#### ***Alternative cost risks***

The market risks vary depending on the note structure and the term to maturity for different Notes. The value of a Note varies with changes in market interest rates. A structured Note often operates as a combination of an interest-bearing investment and, for example, an investment in equities. An investor thus takes an additional risk when investing in a structured Note if the alternative had been a pure interest-bearing investment. A structured Note generates no interest or other yield if the market performance is unfavourable and it is redeemable only at the principal amount. If the Note is not principal protected, the entire invested amount may be lost. The investor in such a structured Note assumes an alternative risk corresponding to the interest that the investor would have received had the

alternative been, instead, to invest the money in pure interest-bearing instruments. If the investor sells such Note prior to the expiry of the term to maturity, the investor bears the risk of receiving less than the principal amount of the Note.

#### ***Hedging activities of the Issuer and affiliates***

The Issuer and/or its affiliates may carry out hedging activities related to the Notes, including purchasing the Reference Asset(s), components of the Reference Asset(s) and/or debt obligations of a Reference Entity, but will not be obliged to do so. Certain of the Issuer's affiliates may also purchase and sell the Reference Asset(s) and/or component of the Reference Asset on a regular basis as part of their securities businesses. Any of these activities could potentially affect the value or level of the Reference Asset and the debt obligations of the Reference Entity and, accordingly, the value of the Notes. In addition, the disruption of such hedging arrangements or material increase in cost of such hedging arrangements may lead to an early redemption of the Notes in whole (but not in part) as specified in the applicable Final Terms.

#### ***No ownership rights***

An investment in the Notes is not the same as an investment in the Reference Asset(s) and does not confer any legal or beneficial interest in the Reference Asset(s) or any component of the Reference Asset(s) or any voting rights, rights to receive dividends or other rights that a holder of the Reference Asset(s) or any component of the Reference Asset(s) would have. The Notes are unsubordinated and unsecured obligations of the Issuer. No security has been taken in respect of the Reference Asset(s) or any component of the Reference Asset(s).

#### ***Conflicts of interest***

The Issuer and/or its affiliates may also purchase and sell the Reference Asset, components of the Reference Asset and/or debt obligations of the Reference Entities on a regular basis as part of their securities businesses or lend to Reference Entities as part of their commercial lending operations. Any of these activities could potentially affect the value or level of the Reference Asset and the debt obligations of such Reference Entities and in turn the value of the Notes.

The Issuer and/or its affiliates may from time to time advise the issuers of or obligors in respect of a Reference Asset or any component of a Reference Asset and/or any Reference Entity regarding transactions to be entered into by them, or engage in transactions involving any Reference Asset and/or Reference Entity for their proprietary accounts and for other accounts under their management. Any such transactions may have a positive or negative effect on the value of such Reference Asset, the value or level of such Reference Asset and/or the value of such Reference Entity's debt obligations generally and therefore on the value of the Notes.

Accordingly, certain conflicts of interest may arise between the interests of the Issuer and the interests of holders of Notes.

### ***Index disclaimer***

Index-Linked Notes and Commodity Index-Linked Notes are not sponsored, endorsed, sold or promoted by any index to which they are indirectly linked or any sponsor of such index and such index sponsor has made no representation whatsoever, whether express or implied, either as to the results to be obtained from the use of any index and/or the levels at which such index stands at any particular time on any particular date or otherwise. No index sponsor shall be liable (whether in negligence or otherwise) to any person for any error in any index and an index sponsor is under no obligation to advise any person of any error within an index. An index sponsor has made no representation whatsoever, whether express or implied, as to the advisability of purchasing or assuming any risk in connection with such Notes. Neither the Issuer nor the Calculation Agent shall have any liability to any person for any act or failure to act by an index sponsor in connection with the calculation, adjustment or maintenance of an index. Neither the Issuer nor the Calculation Agent has any affiliation with or control over any index or index sponsor or any control over the computation, composition or dissemination of any index. Although the Issuer and the Calculation Agent will obtain information concerning an index to which the Notes are linked from publicly available sources they believe to be reliable, they will not independently verify this information.

### **Risks relating to particular Reference Assets**

#### ***Risks relating to the performance of the Reference Asset(s)***

With structured Notes (for example, equity-linked Notes, currency-linked Notes, credit-linked Notes, fund-linked Notes, commodity-linked Notes and other possible structures) the yield, and sometimes also the repayment of principal, depends on the performance of one or more Reference Assets, such as equities, indices, interest rates, currencies, credit exposures (one or more), fund units, commodities or baskets thereof, or combinations or the relationship between assets. If the repayment of part of or an invested amount is linked to the performance of Reference Assets, the investor may risk losing the entire invested amount. Structured Notes are often designed on the basis of a combination of different types of traditional instruments such as equities, fund units or a derivative instrument. These combinations of products may have elements of different instruments. The value of a structured Note will be affected by the value of the Reference Asset or the relevant comparison figure. The valuations of the Reference Asset may take place both during the term and on the Redemption Date and the performance may be positive or negative for the holder. The Holder's right to yield, and where applicable repayment, thus depends on the performance of the Reference Asset and applicable performance structure. The value of a structured Note may, in addition to changes in the price of the Reference Asset, be determined by the intensity of the price fluctuations of the Reference Asset (commonly referred to as volatility), expectations regarding future volatility, market interest rates and expected dividends or other distributions on the Reference Asset.

Potential investors should be aware that:

- (a) the market price of such Notes may be volatile;
- (b) they may receive no interest;
- (c) payment of principal or interest may occur at a different time or in a different currency than expected;
- (d) the amount of principal payable at redemption may be less than the nominal amount of such Notes or even zero;
- (e) the Reference Asset may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (f) if the performance of the Notes contain a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable is likely to be magnified; and
- (g) the timing of changes in the value of one or more Reference Asset may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the value of one or more Reference Asset, the greater the effect on yield.

Further, Holders of Notes and prospective purchasers of such Notes should ensure that they understand the nature of such Notes and the extent of their exposure to risk and that they consider the suitability of such Notes as an investment in light of their own circumstances and financial condition. A small movement in the value of one or more Reference Asset may result in a significant change in the value of such Notes. Holders of such Notes, and prospective purchasers of such Notes, should form their own views of the merits of an investment based upon such investigations. Given the highly specialised nature of structured Notes, each of the Issuers considers that they are only suitable for highly sophisticated investors who are able to determine for themselves the risk of an investment on which the return is determined in this way. Consequently, an investor who does not fall within the description above should not consider purchasing such Notes without taking detailed advice from a specialised professional adviser.

#### ***Risk relating to limited information in relation to certain Reference Assets***

In relation to certain Reference Assets, for example, certain hedge funds or indices composed of hedge funds, there is limited access to information since, among other things, the official closing price of some of these Reference Assets is published less frequently. The composition of certain indices and funds may be confidential for strategic reasons. Other factors limiting transparency in relation to such Reference Assets may be that the Reference Asset is not subject to continuous trading, that valuation models for determination of the value of the Reference Assets are not reported to the investors and those underlying factors which affect the value of the Reference Asset are not public.

#### ***Currency fluctuations***

Foreign exchange rates may be affected by complex political and economic factors, including relative rates of inflation, interest rate levels, the balance of payments between countries, the extent of any governmental surplus or deficit and the monetary, fiscal and/or trade policies pursued by the governments of the relevant currencies. Currency fluctuations may affect the value or level of the Reference Assets in complex ways. If such currency fluctuations cause the value or level of the Reference Assets to vary, the value or level of the Notes may fall. If the value or level of one or more Reference Asset(s) is denominated in a currency that is different from the currency of the Notes, investors in the Notes may be subject to increased foreign exchange risk. Previous foreign exchange rates are not necessarily indicative of future foreign exchange rates.

#### ***Risks relating to market disruption and extraordinary events***

Market disruption can occur, for example, if the trading in Reference Assets is suspended or an official price for some reason is not listed. In conjunction with market disruption, the value of Reference Assets is determined at a different time than intended and, in certain cases, also by another method than intended. Certain Reference Assets such as equities, equity baskets or fund units may be affected by extraordinary events such as delisting, nationalisation, bankruptcy, liquidation or the equivalent or a share split, new share issue, bonus issue, issuance of warrants or convertibles, reverse share split or buyback in respect of such equity or equity basket which constitutes a Reference Asset. For all structured Notes, events such as changes in the law or increased costs for risk management may arise. If so, the relevant Issuer may, at its sole discretion, make any adjustments in the composition of the assets and the calculation of the yield or value of Notes or replace one Reference Asset with another Reference Asset, to the extent that the relevant Issuer deems necessary in order for the calculation of the yield or value of Notes to, in the relevant Issuer's opinion, reflect the manner in which yield or value was previously calculated. It may be that the relevant Issuer believes that such adjustments cannot procure a fair result, in which case the relevant Issuer may make the calculation of yield prematurely and determine the Redemption Amount or the yield. Interest on the principal amount shall thereafter accrue at the market rate of interest.

#### ***Reading of closing values of Reference Assets***

In certain yield structures, the closing price is recorded on a number of occasions in order to calculate an average final price. The aim is to minimise the risk of single extreme values greatly affecting the final price. Investors should, however, appreciate the fact that the value on such recording occasions will affect the average final price, entailing that the final price may be lower or higher than the actual closing price on the valuation day. In some Notes however, the value is determined on the basis of a single valuation, hence, there is a risk that some extreme values could affect the final price.

### ***Risks associated with Equities as Reference Assets***

An investment in equity linked Notes entails significant risks in addition to those associated with investments in a conventional debt security.

(a) *Factors affecting the performance of equities may adversely affect the value of the Notes*

The performance of equities is dependent upon macroeconomic factors, such as interest rates and price levels on the capital markets, currency developments, political factors and company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy.

(b) *No claim against the Issuer of the Reference Assets or recourse to the Reference Assets*

Equity linked Notes do not represent a claim against or an investment in any issuer of equity securities (an "**Equity Issuer**") to which they are linked and Noteholders will not have any right of recourse under the Notes to any such company or the equities. The Notes are not in any way sponsored, endorsed or promoted by any Equity Issuer and such companies have no obligation to take into account the consequences of their actions for any Noteholders. Accordingly, the issuer of an equity may take any actions in respect of such equity without regard to the interests of the investors in the Notes, and any of these actions could adversely affect the market value of the Notes.

In the case of Notes relating to equities, no issuer of such equities will have participated in establishing the terms of the Notes and neither the relevant Issuer nor any Dealer will make any investigation or enquiry in connection with such offering with respect to the information concerning any such issuer of equities contained in the applicable Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant Issue Date (including events that would affect the accuracy or completeness of the publicly available documents described in this paragraph or in any relevant Final Terms) that would affect the trading price of the equities will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of equities could affect the trading price of the equities and therefore the trading price of the Notes.

### ***Risks associated with Indices as Reference Assets***

An investment in Index Linked Notes entails significant risks in addition to those associated with investments in a conventional debt security.

(a) *Factors affecting the performance of Indices may adversely affect the value of the Notes*

Indices comprise a synthetic portfolio of shares or other assets and, as such, the performance of an Index is dependent upon the macroeconomic factors relating to the shares or other components that comprise such Index, which may include interest rates and price levels on the capital markets, currency developments, political factors and (in the case of shares) company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy.

(b) *Exposure to the risk that returns on the Notes do not reflect direct investment in underlying equities or other items comprising the Index*

The return payable on Notes that reference Indices may not reflect the return an investor would realise if he or she actually owned the relevant items comprising the components of the Index. For example, if the components of the Indices are shares, Noteholders will not receive any dividends paid on those shares and will not participate in the return on those dividends unless the relevant Index takes such dividends into account for purposes of calculating the relevant level. Similarly, Noteholders will not have any voting rights in the underlying equities or any other assets which may comprise the components of the relevant Index. Accordingly, investors in Notes that reference Indices as Reference Assets may receive a lower payment upon settlement or redemption of such Notes than such investor would have received if he or she had invested in the components of the Index directly.

(c) *Loss of return of dividends in respect of most Notes linked to equity Indices*

The rules governing the composition and calculation of the relevant underlying Index might stipulate that dividends distributed on its components do not lead to a rise in the index level, for example, if it is a "price" index, which may lead to a decrease in the index level if all other circumstances remain the same. As a result, in such cases, the Noteholders of Notes in respect of which a Reference Item is such an Index will not participate in dividends or other distributions paid on the components comprising the Index. Even if the rules of the relevant underlying Index provide that distributed dividends or other distributions of the components are reinvested in the Index and therefore result in raising its level, in some circumstances, the dividends or other distributions may not be fully reinvested in such Index.

(d) *A change in the composition or discontinuance of an Index could adversely affect the market value of the Notes*

The sponsor of any Index can add, delete or substitute the components of such Index or make other methodological changes that could change the level of one or more components. The modification of components of any Index may affect the level of such Index, as a newly added component may perform significantly worse or better than the component it replaces, which in turn may affect the payments made by the relevant Issuer to the investors in the Notes. The sponsor of any such Index may also alter, discontinue or suspend calculation or dissemination of such Index. The sponsor of an Index will have no involvement in the offer and sale of the Notes and will have no obligation to any investor in such Notes. The sponsor of an Index may take any actions in respect of such Index without regard to the interests of the investor in the Notes, and any of these actions could adversely affect the market value of the Notes.

(e) *There are additional risks in relation to Commodity Indices, see "Risks associated with Commodities as Reference Items".*

***Risks associated with Inflation Indices as Reference Assets***

Inflation Linked Notes may be settled or redeemed by the relevant Issuer by reference to the level of an inflation index (an "**Inflation Index**") or basket of inflation indices. Interest payable on Inflation Linked Notes may be calculated by reference to the level of an inflation index or a basket of inflation indices.

*Index Delay and Disruption Events affecting Inflation-linked Notes*

Where the Notes are Inflation Linked Interest Notes or Inflation Linked Index Notes and there is a delay in publication of the level of an inflation index, the level of such inflation index ceases to be published, such inflation index is rebased, there is a material change to such index or there has been a manifest error in the publication of the level of such inflation index, the relevant Issuer may determine if such event has a material effect on the Notes and, if so, to make such addition, adjustment or amendment to the Conditions as the relevant Issuer deems necessary.

Many economic and market factors may influence an inflation index and consequently the value of Notes relating to inflation indices, including:

- general economic, financial, political or regulatory conditions and/or events; and/or
- fluctuations in the prices of various assets, goods, services and energy resources (including in response to supply of, and demand for, any of them); and/or
- the level of inflation in the economy of the relevant country and expectations of inflation.

In particular, the level of an inflation index may be affected by factors unconnected with the financial markets.

***Risks associated with Foreign Exchange Rates as Reference Assets***

An investment in currency-linked Notes entails significant risks in addition to those associated with investments in a conventional debt security.

Notes may be denominated in one currency (the "**Reference Asset Currency**") but payable in another currency (the "**Specified Currency**"). The value of the Notes could therefore be affected by fluctuations in the value of the Reference Asset Currency as compared to the Specified Currency (which may be calculated, where applicable, on a cross-currency basis). This presents certain risks that the exchange rate (or the exchange rates) used to determine the Specified Currency amount of any payments in respect of the Notes may significantly change (including changes due to devaluation or revaluation of the Specified Currency as compared to the Reference Asset Currency) and the risk that authorities with jurisdiction over such currencies could cause a decrease in (1) the Specified Currency equivalent yield on the Notes, (2) the Specified Currency equivalent value of the amount payable in respect of the relevant Redemption Amount of the Notes and (3) the Specified Currency equivalent market value of the Notes. Therefore, there is a possibility that the Specified Currency value of the Notes at the time of any sale or redemption, cancellation or exercise, as the case may be, of the Notes may be below the value of the investor's original investment in the Notes, depending on the exchange rate at the time of any such sale or redemption, cancellation or exercise, as the case may be.

- (a) *Factors affecting the performance of the relevant foreign exchange rate may adversely affect the value of the Notes*

The foreign exchange rate(s) to which the Notes are linked will affect the nature and value of the investment return on the Notes. The performance of foreign exchange rates is dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability of a specified currency.

- (b) *Nordea is a major foreign exchange dealer and is subject to conflicts of interest*

Investors should note that certain members of the Nordea Group are regular participants in the foreign exchange markets and in the ordinary course of their business may effect transactions for their own account or for the account of their customers and hold long and short positions in currencies and related derivatives, including in the currencies that constitute Reference Assets in relation to the Notes. Such transactions may affect the relevant Reference Assets, the market price, liquidity or value of the Notes and could be adverse to the interests of Noteholders. No members of the Nordea Group has any duty to enter into such transactions in a manner which is favourable to Noteholders.

- (c) *Currencies of emerging markets jurisdictions pose particular risks*

Currency-linked Notes linked to emerging market currencies may experience greater volatility and less certainty as to the future levels of such emerging market currencies or their rate of exchange as against other currencies.

#### **Risks associated with Commodities as Reference Assets**

An investment in commodity-linked Notes entails significant risks in addition to those associated with investments in a conventional debt security.

- (a) *Factors affecting the performance of commodities may adversely affect the value of the Notes; commodity prices may be more volatile than other asset classes*

Trading in commodities is speculative and may be extremely volatile. Commodity prices are affected by a variety of factors that are unpredictable, including, for example, changes in supply and demand relationships, weather patterns and extreme weather conditions, governmental programmes and policies, national and international political, military, terrorist and economic events, fiscal, monetary and exchange control programmes, changes in interest and exchange rates and changes and suspensions or disruptions of market trading activities in commodities and

related contracts. Commodity prices may be more volatile than other asset classes, making investments in commodities riskier than other investments.

- (b) *Commodities may reference physical commodities or commodity contracts, and certain commodity contracts may be traded on unregulated or "under-regulated" exchanges*

Commodities comprise both (i) "physical" commodities, which need to be stored and transported, and which are generally traded at a "Spot" price, and (ii) commodity contracts, which are agreements either to (A) buy or sell a set amount of an underlying physical commodity at a predetermined price and delivery period (which may be referred to as a delivery month) or to (B) make and receive a cash payment based on changes in the price of the underlying commodity.

Commodity contracts may be traded on regulated specialised futures exchanges (such as futures contracts). Commodity contracts may also be traded directly between market participants "over-the-counter" on trading facilities that are subject to lesser degrees of regulation or, in some cases, no substantive regulation. Accordingly, trading in such "over-the-counter" contracts may not be subject to the same provisions as, and the protections afforded to, contracts traded on regulated specialised futures exchanges, and there may therefore be additional risks related to the liquidity and price histories of the relevant contracts.

- (c) *Notes which are linked to commodity futures contracts may provide a different return than Notes linked to the relevant physical commodity and will have certain other risks*

The price of a futures contract on a commodity will generally be at a premium or at a discount to the spot price of the underlying commodity. This discrepancy is due to such factors as (i) the need to adjust the spot price due to related expenses (e.g. warehousing, transport and insurance costs) and (ii) different methods being used to evaluate general factors affecting the spot and the futures markets. In addition, and depending on the commodity, there can be significant differences in the liquidity of the spot and the futures markets. Accordingly, Notes which are linked to commodity futures contracts may provide a different return than Notes linked to the relevant physical commodity.

Investments in futures contracts involve certain other risks, including potential illiquidity. A holder of a futures position may find that such position becomes illiquid because certain commodity exchanges limit fluctuations in such futures contract prices pursuant to "daily limits". Once the price of a particular futures contract has increased or decreased by an amount equal to the daily limit, positions in the contract can neither be taken nor liquidated unless holders are willing to effect trades at or within the limit. This could prevent a holder from promptly liquidating unfavourable positions and subject it to substantial losses. Futures contract prices in various commodities occasionally have exceeded the daily limit for several consecutive days with little or no trading. Any such losses in such circumstances could have a negative adverse effect on the return of any Notes, the Reference Asset for which is the affected futures contract.

In the case of a direct investment in commodity futures contracts, the invested capital may be applied in whole or in part by way of collateral in respect of the future claims of the respective counterparties under the commodity futures contracts. Such capital will generally bear interest, and the interest yield will increase the return of the investor making such direct investment. However, holders of Notes linked to the price of commodity futures contracts do not participate in such interest yields from the hypothetical fully collateralised investment in commodity futures contracts.

- (d) *Additional risks in relation to the "rolling" of commodity futures contracts (including commodity futures contracts which are Components of a Commodity Index)*

Commodity contracts have a predetermined expiration date – i.e. a date on which trading of the commodity contract ceases. Holding a commodity contract until expiration will result in delivery of the underlying physical commodity or the requirement to make or receive a cash settlement. Alternatively, "rolling" the commodity contracts means that the commodity contracts that are nearing expiration (the "**near-dated commodity contracts**") are sold before they expire and commodity contracts that have an expiration date further in the future (the "**longer-dated commodity contracts**") are purchased. Investments in commodities apply "rolling" of the component commodity contracts in order to maintain an ongoing exposure to such commodities.

"Rolling" can affect the value of an investment in commodities in a number of ways, including:

- (i) *The investment in commodity contracts may be increased or decreased through "rolling"*

Where the price of a near-dated commodity contract is greater than the price of the longer-dated commodity contract (the commodity is said to be in "backwardation"), then "rolling" from the former to the latter will result in exposure to a greater number of the longer-dated commodity contract being taken. Therefore, any loss or gain on the new positions for a given movement in the prices of the commodity contract will be greater than if one had synthetically held the same number of commodity contracts as before the "roll". Conversely, where the price of the near-dated commodity contract is lower than the price of the longer-dated commodity contract (the commodity is said to be in "contango"), then "rolling" will result in exposure to a smaller number of the longer-dated commodity contract being taken. Therefore, any gain or loss on the new positions for a given movement in the prices of the commodity contract will be less than if one had synthetically held the same number of commodity contracts as before the "roll".

- (ii) *Where a commodity contract is in contango (or, alternatively, backwardation), such may be expected to (though it may not) have a negative (or, alternatively, positive) effect over time*

Where a commodity contract is in "contango", then the price of the longer-dated commodity contract will generally be expected to (but may not) decrease over time as it nears expiry. In such event, rolling is generally expected to have a negative effect on an investment in the commodity contract. Where a commodity contract is in "backwardation", then the price of the longer-dated commodity contract will generally be expected to (but may not) increase over time as it nears expiry. In such event, the investment in the relevant commodity contract can generally be expected to be positively affected.

In the case of Notes which are linked to a commodity contract, the referenced commodity contract will simply be changed without liquidating or entering into any positions in the commodity contracts. Accordingly, the effects of "rolling" described above do not apply directly to the Reference Asset and the Notes. Thus, an investor will not participate directly in possible effects of "rolling". However, other market participants may act in accordance with the mechanism of "rolling" and such behaviour may have an indirect adverse impact on the value of the Reference Asset and therefore on the Notes.

Commodity indices are indices which track the performance of a basket of commodity contracts on certain commodities, depending on the particular index. The weighting of the respective commodities included in a commodity index will depend on the particular index, and is generally described in the relevant index rules of the index.

Commodity indices apply "rolling" of the component commodity contracts in order to maintain an ongoing exposure to such commodities. Specifically, as a commodity contract is required to be rolled pursuant to the relevant index rules, the commodity index is calculated as if exposure to the commodity contract was liquidated and exposure was taken to another (generally longer-dated) commodity contract for an equivalent exposure. Accordingly, the same effects as described above with regard to "rolling" on the value of a Reference Asset of the Notes also apply with regard to the index level of a Commodity index.

- (e) *Legal and regulatory changes relating to the Commodities may lead to an early redemption or cancellation*

Commodities are subject to legal and regulatory regimes that may change in ways that could affect the ability of the Issuer or any other member of the Nordea Group engaged in any underlying or hedging transactions in respect of the Issuer's obligations in relation to the Notes to hedge the Issuer's obligations under the Notes, and/or could lead to the early redemption or cancellation of the Notes.

### ***Risks associated with Baskets comprising various constituents as Reference Assets***

(a) *Exposure to performance of basket and its underlying constituents*

Where the Notes reference a basket of assets as Reference Assets, the investors in such Notes are exposed to the performance of such basket. The investors will bear the risk of the performance of each of the basket constituents.

(b) *A high correlation of basket constituents may have a significant effect on amounts payable*

Correlation of basket constituents indicates the level of interdependence among the individual basket constituents with respect to their performance. If, for example, all of the basket constituents originate from the same sector and the same country, a high positive correlation may generally be assumed. Past rates of correlation may not be determinative of future rates of correlation: investors should be aware that, though basket constituents may not appear to be correlated based on past performance, it may be that they suffer the same adverse performance following a general downturn or other economic or political event. Where the basket constituents are subject to high correlation, any move in the performance of the basket constituents will exaggerate the performance of the Notes.

(c) *The negative performance of a single basket constituent may outweigh a positive performance of one or more other basket constituents*

Investors in Notes must be aware that, even in the case of a positive performance of one or more basket constituents, the performance of the basket as a whole may be negative if the performance of the other basket constituents is negative to a greater extent, subject to the terms and conditions of the relevant Notes.

(d) *A small basket, an unequally weighted basket or a "best of" or "worst of" basket will generally leave the basket more vulnerable to changes in the value of any particular basket constituent*

The performance of a basket that includes a fewer number of basket constituents will generally, subject to the terms and conditions of the relevant Notes, be more affected by changes in the value of any particular basket constituent included therein than a basket that includes a greater number of basket constituents.

The performance of a basket that gives greater weight to some basket constituents or bases the level of the entire basket only on the value of one of the basket constituents will generally, subject to the terms and conditions of the relevant Notes, be more affected by changes in the value of any such particular basket constituent included therein than a basket that gives relatively equal weight to each basket constituent.

(e) *A change in composition of a basket may have an adverse effect on Basket Return*

Where the Notes grant the Issuer or the Calculation Agent the right, in certain circumstances, to adjust the composition of the basket, investors should be aware that any replacement basket constituent may perform differently from the anticipated performance of the original basket constituent, which may have an adverse effect on the performance of the basket.

### ***Risks related to Credit-Linked Notes***

#### ***Correlation risk***

An investment in credit linked Notes will entail significant risks not associated with a conventional fixed rate or floating rate debt security. Such risks include exposure to the credit risk of the particular Reference Entity or basket of Reference Entities (and, where applicable, one or more specific reference obligations) in addition to that of the relevant Issuer. Depending on the manner in which the particular series of credit linked Notes is linked to the credit of a Reference Entity or basket of Reference Entities, a fall in the creditworthiness of a particular Reference Entity (or where perceptions worsen regarding the creditworthiness of a particular Reference Entity), may greatly reduce the market value of the related Notes and any payments of principal or interest then due. If a series of Notes is linked to a basket of Reference Entities, a credit deterioration in one reference entity may be strongly correlated with credit deterioration of other reference entities included in the basket, resulting in substantial decreases over a

relatively short period of time in the market value of the related Notes and any payments of principal or interest then due. In a "N<sup>th</sup> to Default" or "N<sup>th</sup> and N<sup>th</sup> + 1" to Default structure, the occurrence of a credit event in relation to particular Reference Entities will have a greater than proportionate impact on the market value and payment of principal and interest in relation to the relevant Notes.

#### *Nature of payments of principal and/or interest*

In the event of the occurrence of certain circumstances (which may include, amongst other things, Bankruptcy, Failure to Pay, Obligation Acceleration, Obligation Default, Repudiation/Moratorium, Restructuring or another Credit Event) in relation to a Reference Entity or Reference Entities, in each case, as specified in the applicable Final Terms, the Issuer's obligation to pay principal or perform other obligations under the Notes may be replaced by an obligation to pay other amounts calculated by reference to the value of the Reference Asset(s). In addition interest bearing credit linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstances.

Potential investors in any such Notes should be aware that depending on the terms of the credit linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified assets may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment.

#### *Market price volatility*

The market price of credit linked Notes may be volatile and will be affected by, amongst other things, the time remaining to the redemption date and the creditworthiness of the Reference Entity which in turn may be affected by the economic, financial and political events in one or more jurisdictions.

#### *No need for Issuer to suffer loss with respect to any Reference Entity*

The Issuer's obligations in respect of credit-linked Notes are irrespective of the existence or amount of the Issuer's and/or any affiliates' credit exposure to a Reference Entity and the Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

#### *No information regarding Reference Entities*

No investigation has been or will be made regarding any of the Reference Entities. Prospective investors in credit-linked Notes should obtain and evaluate information regarding the Reference Entities as if they were investing directly in the debt obligations of the Reference Entities. In addition, investors should understand that the historical performance of any specific debt obligation or the debt obligations of such Reference Entities generally is not predictive of future performance. As none of the Reference Entities has participated in the preparation of this Base Prospectus, there can be no assurance that all material events or information regarding the Reference Entities have been disclosed at the time the Notes are issued. Subsequent disclosure of any such events or the failure to disclose material events concerning any of the Reference Entities could affect the redemption amount payable on the Notes or the general trading price of the Notes.

#### *Debt obligations may consist of subordinated debt*

Any debt obligations for credit-linked Notes may include subordinated debt obligations. Such subordinated debt obligations will rank junior to, and the value of such subordinated debt obligations may be less than that of, senior obligations in respect of the same Reference Entity, and the value of such subordinated debt obligations may even be zero in circumstances where a Credit Event has occurred. The Issuer is under no fiduciary duty to select Reference Assets or deliverable assets of any particular value or that maximise value for Noteholders.

### **Risks relating to interest features**

#### ***Risks relating to fixed/floating rate Notes.***

Fixed/floating rate Notes may bear interest at a rate that the relevant Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The relevant Issuer's ability to convert the interest rate will affect the secondary market and the market value of such Notes since the relevant Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the relevant Issuer converts from a fixed rate to a floating rate, the spread on the fixed/floating rate

Notes may be less favourable than then prevailing spreads on comparable floating rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the relevant Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

***Risks relating to variable rate Notes with a multiplier or other leverage factor.***

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for notes that do not include those features.

***Risks relating to inverse floating rate Notes.***

Inverse floating rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate, such as LIBOR. The market values of such Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse floating rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

***Risks Relating to Range Accrual Notes***

Range Accrual Notes provide for interest to be paid either (i) on interest payment dates occurring at regular intervals throughout the life of the Notes; or (ii) in a single amount at maturity.

The amount of interest that an investor in the Notes receives is linked to the performance of the Reference Asset(s) specified in the applicable Final Terms and on how many actual days during the relevant Interest Period or Valuation Period the level or value of the Reference Asset(s) remains within a certain range, (the upper and lower limit of which is specified in the applicable Final Terms). If the level or value of the Reference Asset(s) is below the lower limit or higher than the upper limit on some or all of the days in an Interest Period or Valuation Period, the investor may receive low or even zero interest payments, respectively, for the relevant Interest Period. Holders should note that no interest accrues on days when the level or value of the Reference Asset(s) is outside of the range specified. The rate at which interest accrues may be a fixed rate, floating rate or other rate specified in the applicable Final Terms. Interest payable on the Notes is therefore also linked to the volatility of the level or value of the Reference Asset(s). Range Accrual Notes may not be suitable for investors who require regular income payments.

***Risks relating to particular performance structures***

***Risks related to the complexity of the product***

The yield structure for structured Notes is sometimes complex and may contain mathematical formulae or relationships which, for the investor, may be difficult to understand and compare with other investment alternatives. The relationship between yield and risk may be difficult to assess. As to the correlation between yield and risk it can generally be said that a relatively high yield most often is associated with relatively greater levels of risk. One way of increasing the probability of a higher yield is, for example, to include leverage effects in the yield structure which results in comparatively small changes in the performance of Reference Assets that may have major effects for the value and yield on Notes. Such a structure is generally also associated with a higher risk (see Risks relating to particular Reference Assets below). The past performance of corresponding investments is only a description of the historical performance of the investment and shall not to be regarded as an indication of future yield. Information regarding past performance is not available with respect to certain reference objects; for example, with respect to certain hedge funds. Investors should carefully consider which yield structure applies to the Notes or Notes in which the investor is investing in order to obtain an understanding of how the relevant Notes operate in different scenarios and the risks an investment in the Notes entails.

***Risks relating to Notes which are not principal protected***

The Notes may or may not be principal protected. If the Note is not principal protected there is no guarantee that the return that an investor receives on the Notes upon their redemption will be greater than or equal to the principal amount. If the Redemption Amount of the Notes is not principal protected, but is to be determined solely by reference to the value or level of one or more Reference Assets, any reduction

in the value of the Reference Asset (or, in the case of a "put" or "reverse convertible" structure, any increase in value) may be expected to result in a reduction in the Redemption Amount of the Notes. Accordingly, it is possible that the return on Notes linked to such Reference Asset(s) may be considerably less than the amount paid by investors for such Notes and may be zero.

#### ***Risk relating to premium and participation ratio***

The relationship between the value of a structured Note and the performance of the Reference Assets or changes between them is not always linear but, rather, sometimes depends on the yield structure and a participation ratio which determines the extent to which the performance of the Reference Asset is reflected in the value of the Note. The participation ratio is set by the relevant Issuer and determined, among other things, by term to maturity, volatility, market interest rates and expected dividends on the Reference Asset. In certain structures, the participation ratio may differ depending on whether or not the performance of the relevant Reference Assets is positive or negative. Variations in the participation ratio may increase or decrease the extent to which a Noteholder is exposed to the performance of the relevant Reference Assets. The amount that the investor risks is greater in those structured Notes that are subscribed for/purchased at a premium, i.e. when the investor pays more than the nominal amount, due to the risk that these might be redeemed only at the nominal amount.

#### ***Intensity Price fluctuations, so called volatility***

If, pursuant to the relevant Final Terms, a note is designed to include variables such as multipliers or leverage factors, cap/floor, another combination of these variables or other similar elements, the market value of such Notes may be more volatile than the market value of a note without such elements.

#### ***"Best of"/"Worst of" features in respect of Baskets.***

Where the return on the Notes is linked to the performance of a Basket and that the "Best of" feature is applicable, the value of the Basket will depend on a specified number of components comprising the Basket that have shown the best performance in comparison to the other components comprising the Basket over a specified period of time. Conversely, where the "Worst of" feature is applicable, the value of the Basket will depend on a specified number of components comprising the Basket that have shown the worst performance in comparison to the other components comprising the Basket over a specified period of time. As the best-performing components, or the worst-performing components, of a Basket, as applicable, are not representative of the performance of the Basket as a whole, any calculations or determinations of value that involve the "Best of" or "Worst of" feature may produce results that are very different to those that take into account the performance of the Basket as a whole. Potential investors should examine the manner in which the "Best of" and "Worst of" features affect the value of any Basket and examine the context in which the such value affects the determination of any payouts. Potential investors in any such Notes should be aware that the returns they receive (if any) on investment in Notes which have a "Best of" and/or "Worst of" feature may be substantially different from the return on investment in Notes without such features.

#### ***Risk of automatic early redemption***

In relation to certain types of Notes, the Notes will be automatically redeemed prior to their maturity if certain conditions are met. Notes of this type have an uncertain maturity date. Certain types of Notes may also be automatically redeemed early if a specified trigger is breached during a specified period or on a specified date or dates. If a Reference Asset or Basket performs poorly, Noteholders may receive little or no interest during the term of the Notes and/or receive low or even zero return at maturity, and in some circumstances may result in a loss of part or all of their investment. Prospective investors should consider reinvestment risk in light of other investments available at that time.

## RISKFAKTORER

**Nedan beskrivna riskfaktorer är en inofficiell översättning av de riskfaktorer som beskrivs på engelska omedelbart före detta avsnitt och investerare rekommenderas att även läsa och ta till sig riskfaktorerna såsom de beskrivits på engelska då dessa kan avvika från den svenska översättningen.**

En investering i ett Lån innebär ett visst risktagande. Presumptiva investerare skall noggrant överväga de nedan angivna riskerna och övrig information som anges i detta Grundprospekt före varje investeringsbeslut avseende Lån. De risker som beskrivs nedan kan ha en väsentlig negativ effekt på Nordeakoncernens affärsverksamhet, rörelseresultat och finansiella ställning samt värdet på Lån. Även ytterligare risker och osäkerheter, inklusive sådana som Nordeakoncernens ledning inte för närvarande känner till eller uppfattar såsom betydande, kan komma att ha en potentiell väsentlig inverkan på Nordeakoncernens affärsverksamhet, rörelseresultat, finansiella ställning eller framtidsutsikter eller kan föranleda andra händelser som kan innebära att investerare förlorar hela eller delar av sin investering.

Ord och uttryck som är definierade i "Allmänna Villkor för Lån" eller på annan plats i detta Grundprospekt ska ha samma betydelse i detta avsnitt.

Presumptiva investerare måste uppmärksamma att riskerna som är relaterade till "Emittenterna", till verksamheten som de är verksamma i och summeringen av Lån i avsnittet, i detta Grundprospekt, med överskrift "Sammanfattning" är de risker som Emittenterna tror är de mest relevanta att uppmärksamma för en potentiell investerare för att göra en bedömning huruvida en investering i Lån ska göras eller inte. Emellertid, riskerna som Emittenterna står inför hänförs sig till händelser och är beroende av omständigheter som kan eller inte kan inträffa i framtiden; presumptiva investerare skall beakta och inte endast informationen om nyckelrisker som har sammanfattats i avsnittet i detta Grundprospekt med överskrift "Sammanfattning" dessutom, till exempel, risker och osäkerheter som beskrivs nedan.

Var och en av Emittenterna är av den uppfattningen att de faktorer som beskrivs nedan är de huvudsakliga riskerna förknippade med att investera i Lån emitterade under Programmet., men relevant Emittentens oförmåga att betala ränta eller kapitalbelopp för eller i samband med något Lån kan inträffa utav andra orsaker och ingen av Emittenterna anser att redovisning nedan angående risker för innehav av Lån är uttömmande.

### **Generella risker relaterade till de rådande makroekonomiska förhållandena**

#### **Störningar och volatilitet på de globala finansiella marknaderna kan negativt påverka Nordea**

Från augusti 2007 till den tidigare delen av 2009 har det globala finansiella systemet drabbats av kredit- och likviditetsförhållanden samt störningar utan tidigare motstycke, vilket lett till minskad likviditet, högre volatilitet, generell ökning av spreadarna och, i vissa fall, brist på transparens vid prissättning av penning- och kapitalmarknadsräntor. Efter en period av stabilisering under 2010 och det första halvåret av 2011 påverkades återhämtningen på finansmarknaden negativt av den turbulens och de avbrott, som orsakades av statliga budgetunderskott och ökade statsskulder i Grekland, Irland, Italien, Portugal och Spanien. Trots tillhandahållandet av räddningspaket till vissa av dessa länder under de senaste två åren råder osäkerhet kring utgången av dessa åtgärder och oron för statsfinanser kvarstår. Detta tillsammans med bekymmer över den övergripande stabiliteten och upprätthållandet av euroområdet har orsakat ytterligare volatilitet på den globala kredit- och likviditetsmarknaden. Som en reaktion på denna oro har Standard & Poor's, Moody's och Fitch sänkt kreditvärdighetsbetygen för ett flertal länder i Europa under början av 2012. Marknadens oro över de europeiska bankernas och försäkringsgivare direkta och indirekta exponering gentemot dessa länder såväl som gentemot varandra har även resulterat i bredare räntemarginaler, ökade kostnader för att erhålla kapital samt en negativ kreditvärderingsutsikt för vissa finansiella institut i Europa. Även om marknadsförhållandena har förbättrats något under senare delen av 2012 så har utvecklingen i de finansiella marknaderna drivits av i huvudsak initiativ från centralbanker och marknaden var fortsatt volatil med osäkerhet om framtida makroekonomiska-utvecklingar och det finns inte någon garanti att en potentiell åtstramning av likviditetsmöjligheter i framtiden såsom ett resultat av, till exempel, fortsatt nedbrytning av publika finanser för särskilda Europeiska länder inte kommer att leda till ny finansierings-osäkerhet som resulterar i ökad volatilitet och ökade kreditsspreadar.

Risker relaterade till den ekonomiska krisen i Europa har haft och kommer troligen att fortsättningsvis ha en negativ påverkan på aktiviteten inom den globala ekonomin samt på de finansiella marknaderna. Om dessa förhållanden fortsätter eller om ytterligare oro uppstår inom dessa eller på andra marknader, kan detta medföra väsentlig negativ effekt på Nordeakoncernens möjlighet att få tillgång till kapital och likviditet på finansiella villkor som är acceptabla för Nordeakoncernen. Var och en av ovan nämnda

faktorer kan inverka väsentligt negativt på Nordeakoncernens verksamhet, finansiella ställning och rörelseresultat.

***Negativ ekonomisk utveckling och negativa förhållanden på de marknader där Nordeakoncernen verkar kan negativt påverka Nordeakoncernens verksamhet och rörelseresultat***

Nordeas resultat påverkas i betydande mån av det allmänna ekonomiska läget i de länder där Nordea verkar, särskilt på de Nordiska Marknaderna (Danmark, Finland, Norge och Sverige) men även, i lägre grad, i Polen, Ryssland och Baltikum. Det allmänna ekonomiska läget på alla fyra Nordiska Marknaderna samt i Polen, Ryssland och Baltikum har i varierande grad påverkats negativt av försämrade ekonomiska förhållanden och av turbulensen på de globala finansiella marknaderna, under 2008 och 2009, vilket resulterade i minskad ekonomisk tillväxt, ökad arbetslöshet och minskat värde på tillgångar i dessa länder. Trots att det ekonomiska läget i dessa länder generellt har utvecklats positivt har återhämtningen varit skör i vissa av länderna och särskilt Danmarks ekonomi har påverkats mest av den finansiella turbulensen och den ekonomiska nedgången än ekonomin i de övriga nordiska länderna och har följt många europeiska länder in i en recession. Under 2012 hade Finland negativ tillväxt, tillväxten i Sverige har minskat men var positiv medan Norge behöll en stark tillväxt. Negativ ekonomisk utveckling av det slag som beskrivs ovan har påverkat och kan komma att fortsätta påverka Nordeakoncernens verksamhet på en rad olika sätt, bland annat genom påverkan på Nordeakoncernens kunders inkomst, förmögenhet, likviditet, affärsvillkor och/eller finansiella ställning, vilket i sin tur ytterligare kan komma att försämra Nordeakoncernens kreditkvalitet och minska efterfrågan på Nordeakoncernens finansiella produkter och tjänster. Följaktligen skulle vissa eller samtliga av de förhållanden som beskrivits ovan kunna medföra en fortsatt väsentlig negativ effekt på Nordeas verksamhet, finansiella ställning och rörelseresultat och de av Nordea vidtagna åtgärderna kommer eventuellt inte att vara tillräckliga för att begränsa kredit-, marknads- eller likviditetsrisker.

**Risker förknippade med Nordeakoncernens Kreditportfölj**

***Försämring av motparters kreditkvalitet kan påverka Nordeas finansiella resultat***

Risker som uppstår genom förändring av kreditkvaliteten och möjligheten att återvinna förfallna lån och belopp från motparter är en naturlig del i flera av Nordeas verksamheter. Nordea gör avsättningar för kreditförluster i enlighet med IFRS, men de avsättningar som görs är baserade på tillgänglig information, uppskattningar och antaganden och är föremål för osäkerhet, och inga garantier kan ges för att avsättningarna är tillräckliga för att täcka de kreditförluster som uppstår. Negativa förändringar i kreditkvaliteten hos Nordeas låntagare och motparter eller minskningar i värdet av säkerheter kan påverka möjligheten till återvinning samt värdet på Nordeas tillgångar och kräver en ökning av Nordeas individuella avsättningar och, potentiellt, koncerngemensamma avsättningar för försämrade krediter, vilket i sin tur skulle påverka Nordeas finansiella resultat negativt. Framför allt kan Nordeas exponering mot företagskunder vara föremål för negativa förändringar i kvaliteten på krediter om det ekonomiska klimatet i de marknader på vilka Nordeakoncernen verkar försämras. Exempelvis så ökade kreditriskerna förenade med vissa låntagare och motparter på de Ryska och baltiska marknaderna till följd av den negativa ekonomiska utvecklingen i dessa länder under 2008 och 2009, kreditrisk förknippade med vissa låntagare och motparter i dessa marknader ökade. Det förlängda svåra ekonomiska klimatet påverkade sjöfartssektorn och vissa kundgrupper i Danmark under 2011 och 2012. Förmågan för Nordeakoncernens låntagare i Polen, Ryssland, Lettland och Litauen kan också indirekt bli påverkad av utländsk valutarisk då lån till kunder i dessa länder oftast är denominerade i euro eller U.S. dollar, även om kunderna typisk sett erhåller huvudsaklig inkomst i lokalvaluta. Därtill, faktiska låneförluster varierar över affärscykeln. En betydande ökning av storleken av Nordeakoncernens avsättningar för kreditförluster och kreditförluster som inte är täckta av avsättningars kan ha en betydande negativ effekt på Nordeakoncernens affärs, finansiella situation och resultat.

***Nordea är exponerat för kreditrisk gentemot sina motparter***

Nordea genomför rutinmässigt transaktioner med motparter inom finansbranschen, inklusive mäklare och handlare, affärsbanker, investmentbanker, fonder och andra företags- och institutionella klienter. Många av dessa transaktioner utsätter Nordea för risker att Nordeas motparter under ett valuta-, ränte-, råvaru-, aktie- eller kreditderivatkontrakt fallerar före förfallodagen och att Nordea då har en utestående fordran mot motparten. På grund av volatilitet på valuta- och räntemarknaderna under de tre senaste åren har denna risk kvarstått på en förhöjd nivå jämfört med perioden som föregick den globala finansiella och ekonomiska krisen. Denna kreditrisk kan även förvärras då säkerheter som innehas av Nordea inte kan realiserats eller likvideras till priser som är tillräckliga för att täcka motpartsexponeringens fulla belopp.

Var och en av de ovan nämnda faktorerna skulle kunna medföra en väsentlig negativ effekt på Nordeas verksamhet, finansiella ställning och rörelseresultat.

Som en konsekvens av dess handel med finansiella instrument, inklusive valuta- och derivatkontrakt, är Nordea exponerat för avvecklingsrisk och transfereringsrisk. Avvecklingsrisk är risken att förlora det kapital som utgörs av ett finansiellt kontrakt till följd av att motparten fallerar eller efter att Nordea har gett oåterkalleliga instruktioner om att överföra kapitalbelopp eller säkerhet, men före det att mottagandet av motsvarande betalning eller säkerhet har blivit slutligen bekräftat. Transfereringsrisk är risken hänförlig till överföring av pengar från ett land annat än det land där låntagaren har sin hemvist, vilken påverkas av förändringar i de aktuella ländernas ekonomiska och politiska förhållanden.

### **Risker relaterade till marknadsexponering**

#### ***Nordeakoncernen är exponerat för marknadsprisrisk***

Nordeakoncernens kunddrivna handelsverksamhet (där positioner tas inom vissa definierade gränser) och dess Treasury-verksamhet (där Nordea innehar investerings- och likviditetsportföljer för egen räkning) är de huvudsakliga källorna till marknadsprisrisk inom Nordea. Det verkliga värdet av de finansiella instrument som innehas av Nordea, inklusive obligationer (stats-, företags- och bostadsobligationer), aktieplaceringar, kontanter i olika valutor, placeringar i private equity- och hedge- och kreditfonder, råvaror och derivat (inklusive kreditderivat), är känsligt för volatilitet i och korrelationer mellan olika marknadsvariabler, inklusive räntor, spreadar, aktiepriser och valutakurser. I den utsträckning det volatila marknadstillståndet fortgår eller återkommer kan det verkliga värdet av Nordeas obligationer, derivat- och strukturerade kreditportföljer och andra portföljer minska mer än enligt beräknat och därmed tvinga Nordea att bokföra nedskrivningar. Framtida värderingar av de tillgångar som Nordea redan har bokfört eller beräknat nedskrivningar för, vilka kommer att spegla de då rådande marknadsvillkoren, kan leda till betydande förändringar av det verkliga värdet på dessa tillgångar. Vidare bokförs värdet på vissa finansiella instrument till ett verkligt värde som fastställs genom finansiella modeller vilka innehåller antaganden, avgöranden och uppskattningar som till sin natur är osäkra och kan komma att förändras över tid eller slutligen visa sig vara oriktiga. Var och en av dessa faktorer kan tvinga Nordea att redovisa ytterligare nedskrivningar eller realisera värdeminskningsskostnader, vilket kan medföra en väsentlig negativ effekt på Nordeas verksamhet, finansiella ställning och rörelseresultat. Eftersom Nordeas handels- och placeringsinkomster i hög utsträckning är beroende av de finansiella marknadernas utveckling skulle därtill de volatila marknadsförhållandena kunna resultera i en betydande minskning av Nordeas handelsinkomster och avkastning på placeringar eller leda till handelsförluster som i sin tur kan ha en betydande negativ effekt på Nordeakoncernens affärs, finansiella situation och resultat.

#### ***Nordeakoncernen är exponerad till strukturell marknadsrisk***

##### ***Strukturell räntenettorisik***

Liksom alla banker har Nordea intjäning på räntor på lån och andra tillgångar och betalar i sin tur räntor till insättare och andra borgenärer. Nettoeffekten på förändringar i Nordeas nettoränteintäkter beror på de relativa nivåerna på tillgångar och skulder vilka påverkas av ränteförändringar. Nordea är utsatt för strukturell ränterisk: (En: Structural Interest Income Risk) ("**SIIR**") när det finns en diskrepans mellan räntebindningsperioderna, volymerna eller referensräntorna på dess tillgångar, skulder och derivat. Diskrepansen för en given period i händelse av ränteförändringar skulle kunna få en väsentlig negativ effekt på Nordeas finansiella ställning och rörelseresultat.

##### ***Strukturell valutarisk***

Nordea är exponerat för valutaomräkningsrisk främst som ett resultat av dess svenska och norska bankverksamhet, då Nordeas konsoliderade finansiella rapporter upprättas i Nordeas funktionella valuta, euro. Nordeas funktionella valuta för dess danska bankverksamhet är danska kronor, vilken är låst mot euron. Eftersom Nordea redovisar omräkningsskillnader mellan de i lokala valutor denominerade kapitalpositionerna i dess fullt konsoliderade dotterbolag, kan euroeffekten som uppstår vid valutaomräkning komma att minska det egna kapitalet. Eftersom vissa av Nordeas konsoliderade riskavvägda tillgångar: (En: Risk-weighted Assets) ("**RWA**"), gentemot vilka Nordea är skyldigt att hålla en viss lägsta kapitalnivå är denominerade i lokala valutor, medför varje betydande minskning av eurons värde gentemot dessa lokala valutor en betydande negativ effekt på Nordeas kapitalrelationer. Trots att Nordea i allmänhet följer en policy att säkra sin valutakursrisk genom att försöka matcha valutan för dess tillgångar med valutan för skulderna som finansierar dem, kan ingen garanti ges för att Nordea framgångsrikt kommer att kunna säkra några eller samtliga av sina valutariskexponeringar.

## **Risker relaterade till likviditet och kapitalkrav**

### ***Nordeas verksamheter är förbundna med likviditetsrisk***

Likviditetsrisk är risken att Nordea inte kommer att kunna fullgöra sina förpliktelser varefter de förfaller eller tvingas fullgöra sina åtaganden till ökad kostnad. En väsentlig del av Nordeas likviditets- och finansieringsbehov sker genom användning av kunders inlåning och genom kontinuerlig tillgång till interbanklånemarknader, inklusive genom upptagande av långfristiga marknadslån, såsom säkerställda obligationer. Dessa finansieringskällors volym, och då särskilt långfristig finansiering, kan begränsas under tider av likviditetspåfrestning. Turbulens på de globala finansiella marknaderna och i den globala ekonomin kan komma att negativt påverka Nordeas likviditet och villigheten från vissa motparter och kunder att göra affärer med Nordea, vilket kan ha en väsentlig negativ effekt på Nordeas verksamhet och rörelseresultat.

### ***Nordeas affärsresultat kan påverkas om dess kapitaltäckning minskar eller upplevs vara otillräcklig***

Enligt det europeiska Kapitaltäckningsdirektivet (innefattande direktiv 2006/48/EC och direktiv 2006/49/EC måste Nordea upprätthålla vissa kapitalräckningsnivåer.) Dessutom har Baselkommittén (eng. Basel Committee on Banking Supervision) föreslagit ett antal fundamentala ändringar till gällande regelverk avseende kapitaltäckning för de banker som är verksamma på den internationella marknaden. De främsta ändringarna är utgivna i Baselkommitténs skrift utgiven den 16 december 2010 samt januari 2011 ("**Basel III**"). Vid tiden för upprättande av detta grundprospekt är det europeiska Kapitaltäckningsdirektivet under omarbetning för att på så sätt inkludera Basel III regelverket, inklusive de högre kapitaltäckningskraven.

Långivare och investerare, analytiker och andra professionella aktörer kan icke desto mindre ha högre kapitalkrav än som krävs enligt gällande eller föreslagna framtida regler med anledning av, bland annat, den fortsatta osäkerheten avseende verksamheten inom finansiella tjänster samt osäkra globala ekonomiska förhållanden. Ett sådant marknadsläge kan påverka Nordeas upplåningskostnader, minska dess tillgång till kapitalmarknader eller resultera i en nedvärdering av dess kreditvärdighet, vilket i sin tur kan ha en väsentlig negativ effekt på dess rörelseresultat, finansiella ställning och likviditet. Dessutom kan Nordeas RWA öka, vilket potentiellt kan minska Nordeas kapitaltäckning, till följd av, bland annat, lägre intern kreditvärdighet hos Nordeas kunder, betydande volatilitet på marknaden, ökad räntedifferens på krediter, förändringar i ramlagstiftning avseende kapitaltäckningskrav eller regleringen av vissa positioner, förändringar i växlingskurser, minskningar av värdet på säkerheter till följd av lägre marknadsvärde hos underliggande tillgångar, eller ytterligare försämringar av det ekonomiska klimatet. En minskning av Nordeas kapitaltäckningsgrad kombinerad med svårigheter att kapitalisera Bankerna i Nordeakoncernen, skulle kunna medföra att Nordea tvingas att reducera sin utlåningsverksamhet och/eller delar av övriga verksamheter. Se också "*Risker relaterade till det juridiska och regulatoriska klimatet i vilket Nordea bedriver verksamhet – Nordeakoncernen kan ådra sig påtagliga kostnader för bevakande och efterlevnad av de nya kapitaltäckningskraven*" och "*Risker relaterade till Lån — Lån är föremål för viss osäkerhet vad gäller regulatoriska ändringar*" nedan.

### ***Nordeas lånekostnader och dess tillgång till kreditmarknaderna är väsentligt beroende av dess kreditbetyg***

Inga garantier kan ges för att Nordea eller dess viktigaste dotterbolag kommer att kunna behålla sina nuvarande kreditbetyg eller att Nordea kan upprätthålla nuvarande kreditbetyg på sina låneinstrument. En sänkning av Nordeas eller något av dess viktigaste dotterbolags nuvarande långsiktiga kreditbetyg kan komma att öka Nordeas finansieringskostnader, begränsa tillgången till kapitalmarknaderna och utlösa ytterligare krav på säkerheter i derivatavtal och andra säkra finansieringsarrangemang. Därför skulle en sänkning av kreditbetygen negativt kunna påverka Nordeas tillgång till likviditet och dess konkurrensposition och således medföra en väsentlig negativ effekt på dess verksamhet, finansiella ställning och rörelseresultat.

## **Andra risker relaterade till Nordeas affärsverksamhet**

### ***Operativa risker, inklusive risker i samband med investeringsrådgivning, kan påverka Nordeas verksamhet***

Nordeas affärsverksamheter är beroende av förmågan att hantera ett stort antal komplexa transaktioner på skilda marknader i många valutor. Verksamheterna bedrivs genom ett antal legala enheter. Verksamhetsförluster, inklusive skadestånd, skador på Nordeas renommé, kostnader, och direkta och

indirekta finansiella förluster och/eller nedskrivningar, kan bli resultatet av otillräcklighet eller brister i interna processer, system (till exempel IT-system), förlust av licenser från externa leverantörer, bedrägerier eller andra kriminella handlingar, anställdas misstag, outsourcing, brister att på ett lämpligt sätt dokumentera transaktioner eller avtal med kunder, säljare, underleverantörer, samarbetspartners och andra tredje parter, eller att inhämta eller upprätthålla vederbörliga tillstånd, eller klagomål från kunder, brister i efterlevnaden av regulatoriska krav, inklusive men inte begränsat till regelverk för att förhindra penningtvätt, personuppgiftsskydd och konkurrensrättsliga regler, efterlevnad av affärsregler, utrustningsfel, brister i att skydda dess tillgångar, inklusive immateriella rättigheter och säkerheter, fel på fysiskt skydd samt säkerhetsskydd, naturkatastrofer eller fel i externa system, inklusive system som härrör från Nordeas leverantörer och motparter och brister i att uppfylla sina kontraktuella eller andra förpliktelser. Trots att Nordea har implementerat riskkontroller och vidtagit andra åtgärder för att begränsa exponeringar och/eller förluster kan inga garantier ges för att sådana procedurer kommer att vara effektiva i kontrollen av de verksamhetsrisker Nordea utsätts för eller att Nordeas renommé inte kommer att skadas om någon verksamhetsrisk förverkligas.

Som en del av dess bank- och tillgångsförvaltningsverksamhet erbjuder Nordea sina kunder investeringsrådgivning, tillgång till internt liksom externt förvaltade fonder samt administrerar fonder som förvaltas av tredje part. I händelse av att dess kunder lider skada av investeringsrådgivning från eller oegentligheter eller bedrägliga åtgärder utförda av förvaltare tredje parts fonder, kan Nordeas kunder söka kompensation från Nordea. Sådan kompensation kan sökas även om Nordea inte har någon direkt exponering mot sådana risker, eller inte har rekommenderat dessa motparter till dess kunder. Alla sådana krav kan medföra en väsentlig negativ effekt på Nordeas renommé, verksamhet, finansiella ställning och rörelseresultat. Se också " Legala och regulatoriska krav i Nordeakoncernens verksamhet"

***Nordea är utsatt för en mängd risker som ett resultat av dess verksamheter, särskilt i Polen, Ryssland och Baltikum***

Nordeas verksamhet i Polen, Ryssland och Baltikum för med sig risker som inte, eller endast i en mindre omfattning, är tillämpliga på Nordeas verksamheter på de nordiska marknaderna. Vissa av dessa marknader är typiskt sätt mer volatila och mindre utvecklade, ekonomiskt och politiskt, än marknader i Västeuropa och Nordamerika. Nordea utsätts för betydande ekonomiska och politiska risker, inklusive ekonomisk volatilitet, recession, inflationstryck, valutakursförändringar och avbrott i verksamheten samt civila oroligheter, moratorium, införande av växelkontroller, sanktioner relaterade till särskilda länder, expropriering, förstatliganden, omförhandlingar eller ogiltigförklaringar av gällande avtal, statligt fallissemang och ändringar i lagar och skatteregler. Som exempel kan nämnas att, som ett resultat av den ekonomiska recessionen, som drabbade länder i den baltiska regionen år 2008 och 2009, har frågor ställts avseende förmågan att reagera mot försämrade förhållanden i lokala ekonomier and förmågan hos sådana länder och deras invånare att fortsätta uppfylla sina åtaganden. Även om de ekonomiska och politiska omständigheterna i Polen, Ryssland och Baltikum har, generellt, utvecklats till det bättre så kan risker relaterade till att vara verksam i dessa marknader påverka Nordeakoncernens låntagare förmåga eller skyldighet att återbetala sina lån, påverka möjligheten för Nordea att realisera innehavda säkerheter, påverka räntor och valutakurser, och skulle väsentligt negativt kunna påverka den ekonomiska aktivitetsnivån, vilket skulle kunna ha en väsentlig negativ effekt på Nordeas affärsverksamhet, finansiella ställning samt resultat av affärsverksamheten i dessa länder.

***Lönsamheten i Nordeas livförsäkrings- och pensionsverksamhet är beroende av regleringar och riktlinjer i de länder den bedrivs***

Förutom sådana försäkrings- och investeringsrisker som är förenade med all livförsäkringsverksamhet och som är gemensamma med alla som erbjuder livförsäkrings- och pensionslösningar, påverkas Nordeas möjlighet att generera vinst i dess försäkringsdotterbolag generellt av nivån på avgifter och andra inkomster som genereras i försäkrings- och pensionsrörelse. Nivån på avgifter och andra inkomster som Nordea kan intjäna från sina försäkringsdotterbolag skiljer sig från land till land, och påverkas av regleringar och riktlinjer kungjorda av relevanta myndigheter avseende ägaravgifter, "IFRS överbryggnings", vinstfördelning samt solvenskrav.

***Nordea kan erfara svårighet att rekrytera eller behålla högre chefer eller annan nyckelpersonal***

Nordeas resultat är i stor utsträckning beroende av kompetensen hos och arbetsinsatsen från mycket kunniga individer, och Nordeas fortsatta möjlighet att effektivt konkurrera och implementera Nordeas strategi beror på förmågan att rekrytera nya medarbetare och behålla och motivera befintliga anställda. Konkurrensen är intensiv inom den finansiella sektorn, inklusive andra finansiella institutioner, liksom

från andra typer av verksamheter. Varje förlust av nyckelpersonal, framförallt till konkurrenter, eller svårighet att rekrytera och behålla kunniga medarbetare i framtiden kan ha en negativ effekt på Nordeas verksamhet.

### ***Nordea möter konkurrens på alla marknader***

Nordea möter konkurrens avseende alla typer av bank- och andra typer av produkter och tjänster som Nordea tillhandahåller, och det finns inga garantier att Nordea kommer att kunna upprätthålla sin konkurrenskraftiga position i framtiden. Om Nordea inte skulle kunna erbjuda konkurrenskraftiga produkter och tjänster, skulle det kunna innebära att Nordea misslyckas att attrahera nya kunder och/eller behålla existerande kunder, uppleva minskade ränteinkomster, avgifter provisioner, och/eller minskade marknadsandelar, vilket var för sig skulle ha en väsentlig negativ effekt på dess affärsverksamhet, finansiella ställning och rörelseresultat.

### **Risker relaterade till det juridiska och regulatoriska klimatet i vilket Nordea bedriver verksamhet**

#### ***Nordea är föremål för omfattande föreskrifter och står under tillsyn av flera olika tillsynsmyndigheter***

Den svenska Finansinspektionen är huvudsaklig tillsynsmyndighet för Nordeas verksamhet, även om Nordeas verksamheter i Danmark, Finland, Norge, Polen, Ryssland, Estland, Lettland, Litauen, Tyskland, Isle of Man, Luxemburg och USA står under tillsyn av lokala tillsynsmyndigheter i dessa jurisdiktioner. Nordea är även föremål för övervakning av tillsynsmyndigheter i respektive land där Nordea har en filial eller ett representationskontor, inklusive Kina. Nordea är underkastat lagar, föreskrifter samt administrativa åtgärder och riktlinjer i var och en av jurisdiktionerna i vilka Nordea är verksam. Dessa är föremål för förändringar och efterlevnaden kan från en tid till en annan innebära betydande kostnader.

Områden där förändringar eller utveckling av föreskrifter och/eller tillsyn kan ha en negativ inverkan innefattar, men är inte begränsat till, (i) förändringar i monetära, ränte- och andra riktlinjer, (ii) allmänna förändringar i regeringars eller tillsynsmyndigheters riktlinjer eller regelsystem som avsevärt kan påverka investerares beslut på de nordiska marknaderna, i Polen, Ryssland och Baltikum samt de övriga marknader där Nordea bedriver sin verksamhet eller som kan öka kostnaden för att bedriva verksamhet på dessa marknader, (iii) förändringar i ramverket för kapitaltäckning, införande av betungande compliancekrav, begränsningar i verksamhetstillväxt eller prissättning och krav på att verksamhet ska bedrivas på ett sätt som prioriterar andra mål än att skapa värde för aktieägarna, (iv) förändringar i konkurrens- och prissättningsförutsättningar, (v) regeringars differentiering mellan finansinstitut rörande insättningsgarantier och de villkor som styr sådana garantier, (vi) expropriation, förstatliganden, konfiskering av tillgångar och förändringar i lagstiftning beträffande utländskt ägande, (vii) vidareutveckling i den finansiella rapporteringsmiljön, och (viii) annan ogynnsam politisk, militär eller diplomatisk utveckling (särskilt i Polen, Ryssland och Baltikum) vilken leder till social instabilitet eller legal osäkerhet, vilket i sin tur kan komma att påverka efterfrågan på Nordeas produkter och tjänster.

Som ett resultat av den nyligen upplevda finansiella och ekonomiska krisen, har ett antal regulatoriska initiativ tagits för att utöka eller implementera regler och förordningar som sannolikt kommer att ha en effekt på Nordeakoncernens verksamhet. Sådana initiativ inkluderar, men är inte begränsat till, regler avseende likviditet, kapitaltäckning och hantering av motpartsrisk och innefattar regulatoriska verktyg till myndigheterna för att ge dem möjlighet att ingripa i nödsituationer. Dessa eller andra regler, begränsningar, restriktioner på finansiella institutioner och kostnader involverade skulle kunna ha en väsentligt negativ inverkan på Nordeakoncernens verksamhet, finansiella ställning och rörelseresultat.

#### ***Nordeakoncernen kan ådra sig påtagliga kostnader för bevakande och efterlevnad av de nya kapitaltäckningskraven***

Basel III inklusive det nya regelverket avseende kapitaltäckning är förväntade att bli slutförda och implementerade i EU genom förslaget Kapitaltäckningsdirektiv och användandet av CRR under 2013 som höjer kraven på kapital och likviditet. Det råder fortfarande oklarhet kring hur det slutliga regelverket avseende kapitaltäckningsnivåerna kommer att utvecklas. Men, CRD IV kommer att ställa krav på att bankerna ska ha en högre andel kärnprimärkapital. Dessutom meddelade det svenska finansdepartementet, Finansinspektionen samt Riksbanken i november 2011 att högre krav än de som fastställts i Basel III kan komma att gälla för nationellt systemviktiga banker ("N-SVB") så som Nordeakoncernen. Både ökade kapital- och likviditetskrav kommer sannolikt att innebära avsevärt högre kostnader för Nordeakoncernen för att övervaka och följa de nya kraven, dessa krav kan också komma att negativt påverka affärsverksamheten i finanssektorn. Vidare pågår diskussioner globalt och inom EU angående återhämtnings- och avvecklingsmodeller med eventuellt införande av bland annat

skuldkonvertering samt avskiljning av vissa bankverksamheter och en eventuell enhetlig tillsynsmekanism i form av bankunionen i EU. Om dessa nya krav och övervakningsstrukturer implementeras så kan det ha en påverkan på existerande affärsmodeller.

### ***Legala och regulatoriska krav uppstår i Nordeas verksamhet***

Nordea är i sin ordinarie verksamhet föremål för regulatorisk tillsyn och ansvarsrisk. Nordea bedriver verksamhet genom ett antal juridiska personer i ett antal jurisdiktioner och är föremål för reglering i varje jurisdiktion. Reglering och regulatoriska krav ändras fortlöpande och nya krav införs för Nordea, inklusive, men inte begränsade till, regleringar avseende bedrivande av verksamhet, penningtvätt, betalningar, konsumentkrediter, kapitalkrav, rapportering och bolagsstyrning. Det finns inte några garantier att överträdelser av Nordeakoncernen inte kommer att inträffa och för det fall en överträdelse inträffar, att betydande ansvar eller bestraffning inte kommer att inträffa. Nordea är föremål för ett antal krav, tvister, rättegångsförfaranden och statliga undersökningar i de jurisdiktioner där Nordea verkar. Denna sorts krav och processer exponerar Nordea för skadestånd, direkta och indirekta kostnader (inklusive legala kostnader), direkta eller indirekta finansiella förluster, civila och straffrättsliga påföljder, förlust av tillstånd eller bemyndiganden eller skadat rykte samt risken för regulatoriska restriktioner för sin verksamhet. Var och en av dessa faktorer skulle kunna medföra en väsentlig negativ effekt på Nordeas verksamhet, finansiella ställning och rörelseresultat. Reglering med negativ inverkan på Nordeas verksamhet eller negativa avgöranden i processer i vilka Nordea är part kan resultera i restriktioner eller begränsningar för Nordeas verksamhet eller innebära en väsentlig negativ effekt på Nordeas verksamhet, finansiella ställning och rörelseresultat.

### ***Nordea är exponerad för risken för ändringar i skattelagstiftningen samt ökade skattesatser***

Nordeas verksamhet är föremål för varierande skattesatser runtom i världen vilka beräknas enligt lokal lagstiftning och praxis. Nordeas verksamhet, inklusive dess internttransaktioner, bedrivs i enlighet med Nordeas tolkning av tillämplig lag, beskattningsavtal, regleringar och krav från skattemyndigheter i de relevanta länderna. Nordea har erhållit rådgivning från oberoende skatterådgivare i dessa frågor. Det finns dock inga garantier för att Nordeas tolkning av tillämplig lag, beskattningsavtal, regleringar eller administrativ praxis är korrekt, eller att sådana regler inte ändras, även med retroaktiv verkan. Ändringar i lagstiftning eller beslut från skattemyndigheter kan försämra Nordeas nuvarande eller tidigare skatteposition.

### ***Generella risker relaterade till Notes***

#### ***Obligationerna är inte lämpliga för alla investerare***

- (i) Varje investerare måste, med beaktande av sin egen finansiella situation, bedöma lämpligheten av en investering i Lån utgivna under Programmet. Varje investerare bör i synnerhet ha:
- (ii) tillräcklig kunskap och erfarenhet för att göra en ändamålsenlig värdering av relevanta Lån, av fördelarna och nackdelarna med en investering i de relevanta Lån och av den information som lämnas i, eller hänvisas till, Grundprospektet, eller eventuella tillägg till Grundprospektet;
- (iii) tillgång till, och kunskap om, lämpliga värderingsmetoder för att utföra en värdering av relevanta Lån och den påverkan en investering i relevanta Lån kan medföra för investerarens övriga investeringsportfölj;
- (iv) tillräckliga finansiella tillgångar och likviditet för att hantera de risker som en investering i relevanta Lån medför, inklusive Lån vars kapitalbelopp eller ränta återbetalas i en eller flera valutor, eller i de fall där kapitalbeloppets eller räntans valuta är annan än den valuta i vilken sådan investerarens finansiella verksamhet huvudsakligen är denominerad eller Lån vars kapitalbelopp helt eller delvis kan bortfalla;
- (v) full förståelse av de villkoren för relevanta Lån och väl känna till svängningar hos relevanta index, andra referenstillgångar eller den finansiella marknaden; och
- (vi) möjlighet att förutse och värdera (ensam eller med hjälp av en finansiell rådgivare) tänkbara scenarier, exempelvis avseende ränteförändringar, som kan påverka investeringen i relevanta Lån och investerarens möjlighet att hantera de risker som en investering i relevanta Lån kan medföra.

Vissa Lån är komplexa finansiella instrument. Sofistikerade investerare köper generellt sett inte komplexa finansiella instrument som fristående investeringar utan som ett led i en riskreducering eller förhöjning av avkastning och som ett beräknat risktillägg till investerarens övriga investeringsportfölj. En investerare skall inte investera i skuldebrev som är komplexa finansiella instrument utan att ha tillräcklig kunskap (ensam eller med hjälp av en finansiell rådgivare) för att värdera utvecklingen hos Lån, värdet av Lån och den påverkan investeringen kan ha på investerarens övriga investeringsportfölj under ändrade omständigheter.

***Investerare kan behöva förlita sig på VPs, VPS, Euroclear Finlands, Euroclear Swedens eller SIS förfaranden (i förekommande fall) för överföring, betalning och kommunikation med Emittenten.***

Investerare i VP-Lån, VPS-Lån, Finska Lån, Svenska Lån eller Schweiziska Lån måste förlita sig på det relevanta clearingsystemet eller, i förekommande fall, det relevanta Emissionsinstitutets regler för överlåtelser, betalning och kommunikation med den berörda Emittenten.

VP-Lån, VPS-Lån, Finska Lån eller Svenska Lån som emitterats enligt Programmet kommer inte att manifesteras i ett fysiskt värdepapper, utan genom registrering hos VP, VPS, Euroclear Finland eller Euroclear Sweden, beroende på Lån. Innehav av VP-Lån, VPS-Lån, Finska Lån eller Svenska Lån kommer att registreras i, och överlåtelser av Lån sker endast via, de kontoföringssystem som förs av VP, VPS, Euroclear Finland eller Euroclear Sweden.

***Det kan finnas begränsningar i huruvida Lån kan fritt överlåtas***

Varken NBAB eller NBF har registrerat, och inte heller kommer någon av dem att registrera, Lån enligt Securities Act eller någon annan värdepapperslagstiftning. Som ett resultat av detta är Lån föremål för restriktioner för överlåtelser i enlighet med vad som anges i avsnittet "*Subscription and Sale*". Som en följd av dessa restriktioner kan varken NBAB eller NBF bekräfta att det finns en andrahandsmarknad för Lån eller att likviditet kommer att finnas i en sådan marknad om den skulle uppstå. Följaktligen måste en innehavare av lån kunna bära den ekonomiska risken för sin investering i Lån under dess fulla löptid.

***Det finns ingen aktiv marknad för Lån***

De Lån som ges ut under Programmet kan komma att vara nya värdepapper som inte erbjuds i en större krets och för vilka det för närvarande inte finns någon aktiv marknad (utom då emissionen avser en viss tranch, och att sådan tranch konsolideras med och bildar en enda serie tillsammans med det Lån som redan har emitterats). Om lån handlas efter första emissionen kan de handlas med rabatt i förhållande till deras ursprungliga teckningskurs eller pris, beroende på rådande marknadsräntor, marknaden för liknande värdepapper, allmänna ekonomiska villkor och den ekonomiska situationen i den aktuella Emittenten. Även då ansökningar har gjorts för Lån utgivna under Programmet att tas upp till notering på the Official List of the Irish Stock Exchange och till handel på andra relevanta marknader finns det inga garantier för att sådana ansökningar kommer att accepteras, att en särskild tranch av Lån kommer att accepteras, eller att en aktiv handel kommer att utvecklas. Det finns således inga garantier för etableringen av en marknad eller annan likviditet för ett visst Lån eller tranch av Lån. Innehavare av Lån bör också vara medveten om att, med hänsyn till de rådande globala förhållanden på kreditmarknaderna (som i viss utsträckning existerar även på dagen för detta prospekt), kan andrahandsmarknaden för lån och instrument av detta slag vara illikvid. Varken NBAB eller NBF kan förutsäga om och när dessa omständigheter kommer att förändras.

***Inställd eller reducerad emission***

Emittenterna förbehåller sig rätten att annullera hela eller delar av ett erbjudande om att investera i Lån före den aktuella emissionsdagen, under förutsättning att vissa omständigheter föreligger, t.ex. när det totala tecknade beloppet inte når vissa nivåer eller om en deltagandegrad inte kan fastställas till en viss nivå. Emittenterna förbehåller sig också rätten att, efter eget gottfinnande, ställa in en emission på förekomsten av ekonomiska, finansiella och politiska händelser som kan äventyra en framgångsrik emission av Lån.

***Kreditbetyg speglar inte alltid risken i samband med enskilda Lån***

Emittenternas kreditbetyg speglar inte alltid risken i samband med enskilda Lån utgivna under Programmet. Trancher av lån som emitteras under Programmet kan ha ett kreditbetyg eller inte. Om en tranch av ett Lån har fått ett kreditbetyg kommer detta att anges i de Slutliga Villkoren. Sådant kreditbetyg kommer inte nödvändigtvis att vara detsamma som tilldelats den berörda Emittenten eller Lån

som redan utfärdats. Ett eller flera oberoende kreditvärderingsinstitut kan också tilldela kreditbetyg till Lån, vilka inte nödvändigtvis kommer att vara samma kreditbetyg som åsatts den berörda Emittenten eller Lån som redan utfärdats. Sådana kreditbetyg kan brista i att återspegla potentiella risker i anledning av Lånets konstruktion, marknad, ytterligare faktorer som beskrivits ovan, samt andra faktorer som kan påverka värdet på Lånet. Ett kreditbetyg är inte en rekommendation att köpa, sälja eller inneha värdepapper eller att behålla investeringen och kan bli föremål för upphävande, förändring eller indragning när som helst av relevant kreditvärderingsinstitut. Dessutom påverkar ett förändrat kreditbetyg för Emittenten generellt sett marknadsvärdet av emitterade Lån.

### ***Fordringshavare har en kreditrisk på den berörda Emittenten***

Innehavare av Lån utgivna under Programmet tar en kreditrisk på den berörda Emittenten. En innehavares möjlighet att erhålla betalning under Lånet är beroende av den relevanta Emittentens förmåga att fullgöra sina betalningsåtaganden, vilket i sin tur är beroende av utvecklingen i den berörda Emittentens verksamhet. Riskerna hänförliga till Emittenternas verksamhet framgår ovan.

### ***Lån kan inlösas före förfallodagen.***

I händelse av att den berörda Emittenten skulle tvingas att betala ett högre belopp än vad som framgår av villkoren för det relevanta Lånet på grund av någon kupongskatt eller avdrag för eller på grund av befintliga eller framtida skatter, avgifter, eller andra statliga avgifter av något slag, som tas ut, samlas in, innehålls av eller till förmån för svenska staten (såvitt gäller Lån utgivna av NBAB) eller finska staten (såvitt gäller Lån utgivna av NBF) eller någon av dess politiska underavdelningar eller någon av dess myndigheter som innehar har makt att beskatta, kan den relevanta Emittenten lösa in samtliga utestående Lån i enlighet med punkt 6 (Beskattning).

Dessutom kan den relevanta Emittenten, om det för en specifik tranch av ett Lån i de Slutliga Villkoren anges att Lån kan förtidsinlösas enligt den relevanta Emittentens bedömning under vissa förutsättningar, välja att förtidsinlösa Lånet vid en tidpunkt då rådande räntenivåer är relativt låga. Under sådana omständigheter kan det vara svårt för en investerare att återinvestera en inlösenlikvid i ett jämförbart instrument med en effektiv ränta eller annan avkastning som uppgår till den avkastning som kan komma att utgå på det relevanta Lånet.

En rätt för Emittenten till förtida inlösen kan sannolikt komma att minska Lånets marknadsvärde. Under en period då den relevanta Emittenten kan välja att lösa in Lån, kommer marknadsvärdet för sådana Lån i allmänhet inte att stiga väsentligt över, och kan i själva verket understiga, det pris till vilket de kan lösas in. Detta kan också vara fallet för tiden innan en sådan inlösenperiod startar.

### ***Risk för förtida inlösen***

Lån kan inlösas före utgången av dess löptid på grund av ett antal skäl, t.ex. skattemässiga händelser, eller, såvitt gäller kreditlänkade obligationer, på grund av en kredithändelse eller vissa händelser som inträffar före Återbetalningsdagen, på sätt som anges i de relevanta villkoren för dessa Lån. En förtida inlösen kan resultera i att Fordringshavare får en lägre avkastning på investeringen och i vissa fall leda till en förlust av hela eller delar av sin investering. Presumtiva investerare bör överväga återinvesteringsrisk i ljuset av andra investeringar tillgängliga vid den tidpunkten.

### ***Lån kan utfärdas med en betydande rabatt eller premie***

Marknadsvärdet på värdepapper utgivna med en kraftig rabatt eller premie i förhållande till dess nominella belopp tenderar att fluktuera mer i förhållande till allmänna förändringar i ränteläget än marknadsvärdet för konventionella räntebärande värdepapper. Generellt gäller att ju längre återstående löptid av värdepapperen, desto större volatilitet.

### ***Fordringshavares rättigheter och skyldigheter kan ändras vid Fordringshavarmöten***

Villkoren för ett specifikt Lån och Fiscal Agency Agreement innehåller bestämmelser som medger sammankallande av möten för Fordringshavare i syfte att besluta i frågor som rör deras intressen i allmänhet. Dessa bestämmelser tillåter Fordringshavare, med iakttagande vissa angivna majoritetstal, att fatta beslut som ändrar de villkor som gäller för en tranch av Lån och kan påverka Fordringshavarnas rättigheter och skyldigheter enligt lånevillkoren, och som binder alla Fordringshavare inklusive Fordringshavare som inte närvarat och röstat på det relevanta mötet och Fordringshavare som röstade på

ett sätt som inte var i enlighet med hur majoriteten röstade. Vid fordringshavarmötet har Fordringshavarne befogenhet att välja och ge instruktioner till en företrädare att agera på deras vägnar.

Varje Emittent har rätt att korrigera uppenbara fel i villkoren utan Fordringshavarnas samtycke och att göra ändringar som den berörda Emittenten inte anser väsentligt skada Fordringshavarnas intressen.

### ***Obligationerna är föremål för vissa osäkerheter rörande regulatoriska förändringar***

Enligt Rådets direktiv 2003/48/EG om beskattning av inkomster från sparande i form av räntebetalningar ("**Spardirektivet**"), är varje medlemsstat skyldig att förse skattemyndigheten i en annan medlemsstat information avseende betalningar av ränta eller andra liknande inkomster som betalats av en person inom dess jurisdiktion till, eller vilken skatt har hållits inne av en sådan person, avseende en enskild person eller för vissa begränsade typer av juridiska personer som är etablerade i den andra medlemsstaten. Dock gäller under en övergångsperiod att Österrike och Luxemburg i stället äger rätt att tillämpa en källskatt i förhållande till sådana betalningar, med en procentsats som stiger över tiden till 35 procent. Dessa övergångsregler kommer att upphöra vid utgången av det första hela beskattningsåret efter det att en överenskommelse mellan vissa länder utanför EU för utbyte av information om sådana betalningar ingåtts.

Ett antal länder utanför EU, och vissa territoriella sammanslutningar i vissa medlemsstater, har vidtagit liknande åtgärder (antingen tillhandahållande av information eller att under en övergångsperiod innehålla skatt) i förhållande till utbetalningar av en person inom dess jurisdiktion till, eller vilken skatt hållits inne av en sådan person, avseende en enskild person eller för vissa begränsade typer av juridiska personer som är etablerade i en medlemsstat (såsom definieras i artikel 4.2 i Spardirektivet). Dessutom har medlemsstater ingått avtal innehållande informationsåtaganden eller övergångsregler avseende källskatt med vissa av dessa territoriella sammanslutningar i förhållande till utbetalningar av en person i en medlemsstat till, eller vilken skatt har hållits inne av en sådan person, avseende en enskild person eller vissa begränsade typer av juridiska personer som är etablerade i något av dessa territorier.

Europeiska kommissionen har föreslagit vissa ändringar av Spardirektivet som, om de genomförs, kan komma att ändra eller utvidga omfattningen av de krav som beskrivs ovan.

Om en betalning skulle göras eller innehållas i en medlemsstat som har valt att tillämpa ett system för källskatt och ett belopp skulle komma att innehållas från en sådan betalning, är varken Emittenterna, Paying Agent eller någon annan person skyldig att betala något ytterligare belopp avseende ett Lån, enbart på grund av införandet av en sådan källskatt. Emittenterna är skyldiga att ha en Paying Agent i en medlemsstat som inte har en skyldighet att innehålla skatt eller genomföra skatteavdrag i enlighet med direktivet. Investerare som är osäkra på deras position bör konsultera sin professionella rådgivare.

### ***Förslag på skatt på finansiella transaktioner***

Europeiska kommissionen publicerade nyligen ett förslag till direktiv innehåller förslag till en gemensam skatt på finansiella transaktioner som skall införas i de 11 deltagande medlemsstaterna (Belgien, Tyskland, Estland, Grekland, Spanien, Frankrike, Italien, Österrike, Portugal, Slovenien och Slovakien).

Den föreslagna gemensamma skatten medför en skatt på finansiella transaktioner inklusive köp och försäljning av finansiella instrument och strukturerade produkter. Denna skatt kommer att tas ut på ett belopp som uppgår till minst 0,1% av försäljningspriset. Enligt förslaget införs också en skatt vid ingående av ett derivat (även det en finansiell transaktion). Sådan skatt kommer att tas ut på ett belopp som uppgår till minst 0,01% av det nominella värdet av derivatet. I båda fallen skatt tillämpas separat för varje finansiell institution som är part i en transaktion, och om en av parterna finansinstitut inte betalar är dess motpart solidariskt ansvarig för sådan betalning.

En skatt uppstår i sådan deltagande medlemsstat där minst en av parterna till en finansiell transaktion är etablerad (inom ramen för direktivförslaget) och den andra parten till transaktionen (agerande för egen eller annan persons räkning) är ett finansiellt institut etablerat i en deltagande medlemsstat. Det är viktigt att vara medveten om att ett finansiellt institut kommer att behandlas som etablerat i en deltagande medlemsstat om dess säte finns där, har en licens där eller agerar via en filial i sådan medlemsstat (när det gäller filialtransaktioner) eller, såvitt gäller en specifik transaktion, av det skälet att den ingår den finansiella transaktionen med en annan person som är etablerad i den medlemsstaten. Dessutom kommer ett finansiellt institut behandlas som etablerat i en deltagande medlemsstat för en finansiell transaktion om det är part (för egen räkning eller för en annan persons räkning), till en finansiell transaktion för en strukturerad produkt eller finansiellt instrument som utfärdats i den medlemsstaten.

Det finns begränsade undantag till den föreslagna gemensamma skatten. Ett viktigt undantag är undantag för "primärmarknadstransaktioner" som bör omfatta emissioner, tilldelningar, emissionsgarantier eller teckningar för "finansiella instrument", som omfattar aktier och obligationer. Det finns inga undantag för finansiella mellanhänder eller mäklare. Det finns ett undantag för centrala motparter, men personer som ingår transaktioner med centrala motparter (t.ex. clearingmedlemmar) är inte undantagna. Följaktligen kan den effektiva kumulativa skattesatsen vara mycket högre än de övergripande skattesatserna som anges ovan.

Även om den gemensamma skatten endast är tänkt att införas i de deltagande medlemsstaterna, framgår det av vad som sagts ovan att det skulle kunna påverka de finansiella institut som är verksamma i och utanför de 11 deltagande medlemsstaterna, och den gemensamma skatten på finansiella transaktioner skulle kunna betalas på överlåtelser av Lån utfärdats enligt detta Grundprospekt om skatt på finansiella transaktioner införs och villkoren för en betalning av skatten är uppfyllda.

Den föreslagna gemensamma skatten är fortfarande under övervägande och förslaget kan därför komma att ändras innan den genomförs. Det föreslås nu att den gemensamma skatten på finansiella transaktioner bör införas i de deltagande medlemsstaterna 1 januari 2014. Blivande Fordringshavare uppmanas att söka sin egen professionell rådgivning i förhållande till de möjliga konsekvenserna av skatt på finansiella transaktioner.

### ***Förändringar i lagar och förordningar kan påverka villkoren för Lån***

Villkoren för Lån och alla utomobligatoriska förpliktelser som följer av eller i samband med Lån styrs av engelsk lag, förutom att (i) registrering av VP-Lån i VP som kommer att regleras av och tolkas i enlighet med dansk lag, (ii) registrering av VPS-Lån i VPS som kommer att regleras av och tolkas i enlighet med, norsk lag, (iii) registrering av Finska Notes i Euroclear Finland kommer att styras av och tolkas i enlighet med finsk lag, och (iv) registrering av svenska Notes i Euroclear Sweden som kommer att regleras av och tolkas i enlighet med, svensk lag.

Rom II-förordningen (864/2007), som innehåller en rad regler som skall tillämpas av domstolarna i EUs medlemsstater (förutom Danmark) i syfte att avgöra tillämplig lag för utomobligatoriska förpliktelser mellan parterna i de flesta civila och kommersiella frågor är inte tillämplig i Danmark och kan därför inte tillämpas på danska investerare.

Det går inte att bedöma effekten av eventuella rättsliga beslut eller ändring av lagstiftningen i England, Sverige, Finland, Danmark eller Norge eller administrativ praxis efter datumet för registreringen av detta Grundprospekt.

### ***Lån kan handlas i antal som överstiger den specificerade minsta valören men vilka inte är heltalsmultiplar***

I samband med varje emission av Lån som har en valör som består av den specificerade minsta Valör (enligt definitionen i de relevanta Slutliga Villkor) samt en högre heltalsmultipl av ett annat mindre belopp, kan Lån komma att handlas i mängder som överstiger den minsta angivna Valör och som inte är en heltalsmultipl av den specificerade minsta valören. I ett sådant fall skulle en Fordringshavare som innehar Lån med ett nominellt belopp som är mindre än den minsta valören, skulle behöva köpa ytterligare Lån dennes innehav uppgår till ett nominellt belopp motsvarande minsta valören. Om så inte är fallet kan Fordringshavarens möjlighet att avyttra sin investering, eller såvitt gäller innehavarskuldebrev att erhålla ett skuldebrev om ett sådant skulle utfärdas.

### ***Betalningar under Lån kan bli föremål för källskatt i enlighet med U.S. Foreign Account Tax Compliance Act***

Med avseende på (i) Lån (utöver de som skall klassificeras som Equity i syfte av U.S. federal tax) emitterade efter det senare av (a) 31 december 2013 och (b) den dag som är sex månader efter den dag då begreppet "foreign passthrough payment" definierats i de föreskrifter som offentliggjorts i US Federal Register ("Grandfather Date"), (ii) emitterade före Grandfather Date, men som materiellt ändrats efter detta datum, eller (iii) lån som skall klassificeras som Equity i syfte av U.S. federal tax oavsett när de utgivits, kan den berörda Emittenten, under vissa omständigheter, vara skyldig att enligt § 1471 till 1474 av US Internal Revenue Code of 1986, med efterföljande förändringar och ytterligare föreskrifter som utfärdats därunder ("FATCA"), innehålla 30 procent amerikansk skatt på hela eller en del av betalning av amorteringar och räntor som skall behandlas som "pass-thru payments" som görs från och med den 1 januari 2017. Detta avser betalningar till annat finansiellt institut genom vilket betalning på Lån görs som

är ett icke-amerikanskt finansiellt institut som inte uppfyller kraven enligt FATCA. Om tillämpligt kommer FATCA att adresseras i relevanta Slutliga Villkor såvitt gäller Lån som emitterats efter Grandfather Date. Tillämpningen av FATCA på ränta, kapitalbelopp eller andra belopp som betalas för eller med avseende på Lån är för närvarande inte klar. Om belopp avseende amerikansk källskatt dragits av från räntebetalningar, betalning av kapitalbelopp eller andra betalningar på Lån till följd av Fordringshavare inte uppfyllt kraven enligt FATCA, är varken Emittenten, Paying Agent, eller någon annan person skyldig att i enlighet med villkoren för Lånet betala ytterligare belopp som en följd av avdrag eller innehållande av sådan skatt. Således kan Fordringshavare komma att erhålla lägre ränta eller återbetalning av kapitalbelopp än förväntat. Om Emittenten emitterar ytterligare Lån på eller efter Grandfather Date som ytterligare Lån av en tidigare serie (och sådana ytterligare Lån inte är fungibla med de tidigare Lånen enligt vad som krävs av U.S. federal income tax), kan betalningar på sådana ytterligare Lån bli föremål för källskatt enligt FATCA och, om Lån enligt den serie som var utestående på Grandfather Date och de ytterligare emitterade Lånen vara omöjlig att skilja på ur ett skattehänseende, kan betalningar på de tidigare utestående lånen bli föremål för källskatt enligt FATCA. Detta skulle sannolikt ha en negativ effekt på Lånen.

### ***Särskilda legala risker under vissa Lån***

I förhållande till strukturerade Lån bör det noteras att varje förändring i tillämpliga lagar eller regleringar eller förändringar i tillämpningen av dessa samt specifika händelser såsom moratorium, valutarestriktioner, embargo, blockad eller bojkott av central banker, svenska eller finska staten, eller annat liknande organ som Förenta Nationerna eller Europeiska Unionen, kan resultera i (i) ett utbyte av underliggande tillgångar, (ii) en förändring i metoden för beräkning av vissa belopp under Lån, (iii) att vissa belopp beräknas vid en tidigare tidpunkt, (iv) en förändring i beräkningen av avkastning och/eller (v) ändringar av villkoren. Sådana händelser kan därför negativt påverka avkastningen och andra belopp som skall betalas till investerarna under ett strukturerat Lån, liksom tidpunkten för sådana betalningar.

Om en förändring i lag eller förordning, eller beslut av offentliga myndigheter (eller tillämpningen därav), eller på grund av någon annan omständighet som inte är direkt relaterad till en nedgradering av den relevanta Emittentens kreditbetyg, skulle (enligt Emittentens bedömning) resultera i en ökning av vissa kostnader i samband med ett strukturerat Lån eller ökade kostnader för den berörda Emittentens riskhantering i förhållande till det strukturerade Lånet, kan en sådan händelse berättiga den berörda Emittenten att (i) byta ut de till Lånet underliggande tillgångarna, (ii) ändra metoden för beräkning av vissa belopp under Lånet, (iii) beräkna vissa belopp vid en tidigare tidpunkt, (iv) ändra beräkningen av avkastningen och/eller (v) ändra villkoren.

### ***Totalkostnad***

Emittenten har kostnader i samband med emission av strukturerade Lån på grund av bland annat produktion, distribution, licenser, börsnotering och riskhantering. För att täcka dessa kostnader tar den berörda Emittenten ut courtage och provision. Sådana avgifter och provisioner kan vägas in i emissionskursen för ett specifikt Lån eller debiteras separat. Storleken på provisionen kan variera och påverkas av fluktuationer i räntor och priset på de finansiella instrument som ingår i produkten.

Investerare bör vara medvetna om att olika marknadsaktörer har olika möjligheter att påverka priset på de finansiella instrument som ligger till grund för ett strukturerat Lån. Prissättningen av strukturerade Lån görs normalt sett inte på basis av framförhandlade villkor utan det bestäms av den berörda Emittenten. Således kan det finnas en intressekonflikt mellan den berörda Emittenten och investerarna, i den mån den berörda Emittenten kan påverka prissättningen och har en möjlighet att göra en vinst eller undvika en förlust i förhållande till underliggande referenstillgångar och Emittenten inte har någon lojalitetsplikt i förhållande till Fordringshavarna. Transparensen avseende prissättningen av strukturerade Lån kan vara begränsad.

### ***Alternativkostnadsrisk***

Marknadsrisken varierar beroende på Lånets struktur och löptid. Värdet av ett Lån varierar med förändringen i marknadsräntor. Ett strukturerat Lån fungerar ofta som en kombination av en räntebärande investering och, till exempel, en investering i aktier. En investerare tar därför en ytterligare risk när de investerar i ett strukturerat Lån om alternativet hade varit en ren ränteplacering. Ett strukturerat Lån avger ingen ränta eller annan avkastning om marknaden är ogynnsam och kan komma att återbetalas med enbart kapitalbeloppet. Om lånet inte är kapitalkyddat kan hela det investerade beloppet förloras. Investeraren i ett sådant strukturerat Lån underkastas en alternativkostnadsrisk motsvarande den ränta som investeraren skulle ha fått om denne valt att i stället investera pengarna i rena räntebärande instrument. Om

investeraren säljer ett sådant Lån före utgången av dess löptid bär investeraren risken att erhålla en köpeskilling som är mindre än Lånets nominella belopp.

### ***Hedgingaktiviteter för Emittenten och dess närstående bolag***

Emittenten och/eller dess närstående bolag kan bedriva säkringsaktiviteter (hedging) avseende Lån, t.ex. att förvärva eller avyttra Referenstillgångar, komponenter i Referenstillgångar och/eller skuldförbindelser utställda av Referensenheter, men är dock inte skyldig att göra det. Vissa av Emittentens närstående bolag kan också förvärva eller avyttra Referenstillgångar och/eller komponenter i Referenstillgångar regelbundet som en del av sin verksamhet som värdepappersbolag. Dessa aktiviteter skulle kunna påverka värdet av eller nivån på Referenstillgången och skuldinstrument utställda av Referensenheten och därmed värdet av Lånet. Dessutom kan ett avbrott i sådana säkringsarrangemang (hedging) eller en väsentligt ökad kostnad för sådana säkringsarrangemang (hedging) leda till en förtida inlösen av Lån i enlighet med vad som anges i tillämpliga Slutliga Villkor.

### ***Ingen äganderätt***

En investering i ett Lån är inte samma sak som att investera direkt i Referenstillgången och ger inte någon äganderätt till Fordringshavare såvitt gäller de underliggande tillgångarna eller någon komponent av de underliggande tillgångarna. Inte heller har man någon rösträtt eller rätt till utdelningar i förhållande till de underliggande tillgångarna eller komponenter i de underliggande tillgångarna som en direktinvestering i dessa skulle ha. Lånen är icke efterställda och osäkrade skyldigheter för Emittenten. Emittenten har inte tagit säkerhet i några underliggande tillgångar eller komponenter av underliggande tillgångar.

### ***Intressekonflikter***

Emittenten och/eller dess närstående bolag kan också förvärva eller avyttra Referenstillgång, komponent i Referenstillgång och/eller skuldförbindelser utställda av Referensenheter regelbundet som en del av sin verksamhet som värdepappersbolag eller låna ut pengar till Referensenheter som en del av den normala verksamheten. Dessa aktiviteter skulle kunna påverka värdet av eller nivån på Referenstillgången och skuldinstrument utställda av Referensenheten och därmed värdet av Lånet.

Emittenten och/eller dess närstående bolag kan från tid till annan lämna rådgivning till Emittenter av eller utställare av Referenstillgångar eller komponenter av Referenstillgångar och/eller Referensenheten avseende transaktioner som skall ingås av dem, eller delta i transaktioner avseende Referenstillgångar och/eller Referensbolag/enheter för deras egen räkning och för portföljer eller konton som hanteras av dem. Sådana transaktioner kan ha en positiv eller negativ effekt på värdet av Referenstillgång, värdet av eller nivån på Referenstillgången och skuldinstrument utställda av Referensenheten och därmed värdet av Lånet.

Således kan konflikter uppstå mellan Emittentens intressen och Fordringshavarnas intressen.

### ***Index disclaimer***

Indexobligationer är varken sponsrade, godkända, emitterade eller understödda av något av de index som de är kopplade till eller någon av sådant index sponsorer och sponsorn har inte gett några garantier, vare sig uttryckliga eller underförstådda, antingen när det gäller de resultat som skall uppnås genom användning av något index och/eller de nivåer som ett sådant index vid viss tid på en viss dag eller i övrigt kan ha. Ingen indexsponsor ansvarar (oavsett om försumlighet eller på annat sätt) till någon person för fel i index och indexsponsor har ingen skyldighet att meddela någon person om eventuella fel i ett index. Indexsponsorn har inte gett någon garanti, vare sig uttrycklig eller underförstådd, vad gäller lämpligheten av att köpa eller anta någon risk i samband med sådana Lån. Varken Emittenten eller Beräkningsagenten skall ha något ansvar gentemot någon person såvitt gäller en handling eller underlåtenhet att agera i förhållande till indexsponsorn i samband med beräkning, justering eller hantering av ett index. Varken Emittenten eller Beräkningsagenten har någon anknytning till eller kontroll över något index eller indexsponsorn eller någon kontroll över beräkningen, sammansättningen eller spridning av index. Även om Emittenten och Beräkningsagenten kommer att erhålla information om ett index som är Referenstillgångar till specifika Lån från offentligt tillgängliga källor som de anser vara pålitliga, kommer de inte att självständigt kontrollera uppgifterna.

## **Risker relaterade till särskilda Referenstillgångar**

### ***Risker relaterade till avkastningen avseende Referenstillgång***

Med strukturerade Lån (t.ex. aktieobligationer, valutaobligationer, kreditobligationer, fondobligationer, råvaruobligationer och andra eventuella konstruktioner) är avkastningen, och ibland även storleken på återbetalningsbeloppet, beroende av utvecklingen hos en eller flera referenstillgångar, såsom aktier, index, räntor, valutor, kreditexponeringar (en eller flera), fondandelar, råvaror eller korgar av dessa, eller kombinationer av sådana tillgångar. Om återbetalning av en del av eller hela det investerade beloppet är knutet till utvecklingen av underliggande tillgångar kan investeraren riskera att förlora hela det investerade beloppet. Strukturerade Lån är ofta utformade på grundval av en kombination av olika typer av traditionella instrument såsom aktier, fondandelar eller derivatinstrument. Dessa kombinationer av produkter kan ha inslag av olika instrument. Värdet på ett strukturerat Lån kommer att påverkas av värdet av Referenstillgångarna eller relevanta jämförelsetal. Värdering av Referenstillgångar kan ske både under löptiden och på Återbetalningsdagen och dess utveckling kan vara positiv eller negativ för innehavaren. Fordringshavarens rätt till avkastning, och i förekommande fall återbetalning av det nominella beloppet, beror på Referenstillgångens utveckling och tillämplig avkastningsstruktur. Värdet på ett strukturerat Lån kan, förutom förändringar i priset på Referenstillgång, bestämmas av intensiteten i kursrörelser hos Referenstillgången (vanligen kallad volatilitet), förväntningar om framtida volatilitet, marknadsräntor och förväntade utdelningar från Referenstillgången.

Potentiella investerare bör vara medvetna om att:

- (a) marknadspriset på sådana lån kan vara volatilt;
- (b) de kan bli utan avkastning;
- (c) betalning av kapital eller ränta kan inträffa vid en annan tidpunkt eller i en annan valuta än väntat;
- (d) det kapitalbelopp som betalas vid inlösen kan vara mindre än det nominella beloppet för sådana Lån eller noll;
- (e) Referenstillgång kan vara föremål för betydande fluktuationer som kanske inte korrelerar med förändringar i räntor, valutor eller andra index;
- (f) Om avkastningsstrukturen avseende ett visst Lån innehåller en multiplikator större än ett eller innehåller någon annan hävstångseffekt, kommer effekten av värdeförändringar i Referenstillgången att ha en större effekt på storleken på återbetalningsbeloppet; och
- (g) tidpunkten för förändringar i värdet av en eller flera Referenstillgångar kan påverka den faktiska avkastningen för Fordringshavare, även om den genomsnittliga nivån är förenlig med deras förväntningar.

Vidare bör Fordringshavare och potentiella köpare av Lån se till att de förstår egenskaperna i ett sådant Lån och omfattningen av deras riskexponering och att de bedömer lämpligheten av dessa Lån som investering i ljuset av sina egna förhållanden och finansiella ställning. En liten rörelse i värdet av en eller flera Referenstillgångar kan resultera i en betydande förändring av värdet på ett Lån. Innehavare av sådana Lån, och presumtiva köpare av sådana Lån bör bilda sig en egen uppfattning om fördelarna med en investering baserat på sådana undersökningar. Med tanke på den mycket specialiserade karaktär som strukturerade Lån har, anser Emittenten att de endast är avsedda för mycket sofistikerade investerare som har möjlighet att själva bedöma risken i en investering på vilken avkastningen bestäms på detta sätt. Följaktligen bör en investerare som inte anser sig omfattas av beskrivningen ovan inte investera i sådana Lån utan att erhålla detaljerade råd från en specialiserad professionell rådgivare.

### ***Risk avseende begränsad information i samband med vissa referenstillgångar***

I förhållande till vissa referenstillgångar, till exempel vissa hedgefonder eller index sammansatta av hedgefonder, finns enbart begränsad tillgång till information då, bland annat, den officiella slutkursen avseende sådana Referenstillgångar kan komma att publiceras mera sällan. Sammansättningen av vissa index och fonder kan vara konfidentiellt av strategiska skäl. Andra faktorer som begränsar insynen i samband med sådana referenstillgångar kan vara att Referenstillgång inte är föremål för kontinuerlig handel, att värderingsmodeller för avgörandet av värdet av Referenstillgångar inte rapporteras till

investerarna, eller att de bakomliggande faktorer som påverkar värdet av Referenstillgångarna inte är offentliga.

### **Valutakursförändringar**

Valutakurser kan påverkas av komplicerade politiska och ekonomiska faktorer, däribland relativa inflationsmått, räntenivåer, betalningsbalansen mellan länder, omfattningen av eventuella statliga överskott eller underskott och de monetära, skattemässiga och/eller vidtagna handelspolitiska åtgärder såvitt gäller de berörda valutorna. Valutakursförändringar kan påverka värdet eller nivån på Referenstillgångar på komplexa sätt. Om sådana valutafluktuationer gör att värdet eller nivån på Referenstillgången varierar, kan Lånets värde minska. Om värdet eller nivån på en eller flera Referenstillgångar är uttryckt i en valuta som skiljer sig från den valuta som Lånet är denominerad i kan Fordringshavare bli föremål för ökad valutarisk. Tidigare valutakurser är inte nödvändigtvis en indikation om nivån på framtida valutakurser.

### **Risker relaterade till marknadsavbrott och extraordinära händelser**

Marknadsavbrott kan inträffa exempelvis för det fall handeln med Referenstillgångar avbryts eller ett officiellt pris av någon anledning inte noteras. I samband med marknadsavbrott, kan värdet av underliggande tillgångar komma att bestämmas vid en annan tidpunkt än avsett och i vissa fall även på annat sätt än avsett. Vissa referenstillgångar såsom aktier, korgar av aktier eller fondandelar kan påverkas av extraordinära händelser såsom avnotering, nationalisering, konkurs, likvidation eller motsvarande eller aktiesplit, nyemission, fondemission, emissioner av teckningsoptioner eller konvertibler, sammanläggning av aktier eller återköp avseende sådan aktie eller korg av aktier som utgör Referenstillgång. För alla strukturerade Lån kan händelser såsom lagändringar eller ökade kostnader för riskhantering uppstå. Om så är fallet, kan den relevanta Emittenten, efter eget gottfinnande, göra justeringar i sammansättningen av tillgångarna och beräkningen av avkastningen eller värdet av Lån eller ersätta en Referenstillgång med en annan Referenstillgång, i den mån den berörda Emittenten anser detta nödvändigt för att beräkningen av avkastningen eller värdet av Lån skall återspegla hur avkastningen eller värdet tidigare beräknats. Om den berörda Emittenten inte anser att sådana justeringar kan ge ett rättvist resultat, kan den berörda Emittenten göra beräkningen av avkastningen i förtid och fastställa Återbetalningsbeloppet eller avkastningen. Ränta på kapitalbeloppet skall därefter tillkomma beräknad på marknadsmässig ränta.

### **Avläsning av stängningskurser avseende Referenstillgångar**

I vissa avkastningsstrukturer är avläses stängningskursen vid ett antal tillfällen för att beräkna en genomsnittlig stängningskurs. Syftet är att minimera risken för att enstaka extrema värden kraftigt påverkar det slutliga priset. Investerare bör dock uppmärksamma det faktum att värdet vid sådana avläsningstillfällen påverkar det genomsnittliga slutpriset, vilket innebär att det slutliga priset kan vara lägre eller högre än den faktiska stängningskursen på värderingsdagen. I vissa Lån fastställs dock värdet på grundval av en enda värdering, varvid det finns en risk för att vissa extrema värden kan påverka det slutliga priset.

### **Risker förknippade med aktier eller aktierelaterade instrument som Referenstillgångar**

En investering i aktieobligationer medför betydande risker utöver de som förknippas med investeringar i ett konventionellt skuldebrev.

- (a) *Faktorer som påverkar aktier eller aktierelaterade instruments värdeutveckling kan påverka värdet på Lån*

En aktie eller ett aktierelaterat instruments värdeutveckling är beroende av makroekonomiska faktorer, såsom räntor och prisnivåer på kapitalmarknaderna, valuta-utveckling, politiska faktorer och företagsspecifika faktorer såsom resultat, marknadsposition, risksituation, ägarstruktur och utdelningspolicy.

- (b) *Inga krav mot Emittenten av Referenstillgångar eller rätt till Referenstillgångar*

Aktieobligationer representerar inte en fordran på eller en investering i en emittent av aktier eller aktierelaterade instrument (en "**Equity Issuer**"). Fordringshavarna kommer inte att ha någon regressrätt enligt Lånet på sådana bolag, aktier eller aktierelaterade instrument. Inget Lån är på något sätt sponsrat, godkänt eller främjat av någon Equity Issuer och sådana företag har ingen

skyldighet att ta hänsyn till konsekvenserna av sitt handlande för Fordringshavare. Följaktligen kan utgivaren av en aktie eller ett aktierelaterat instrument vidta åtgärder när det gäller sådana instrument utan att ta hänsyn till Fordringshavarnas intressen, och någon av dessa åtgärder skulle kunna påverka marknadsvärdet av Lån.

När det gäller Lån med aktier eller aktierelaterade instrument som underliggande tillgång, kommer inte Equity Issuer att delta i fastställandet villkoren för Lånet. Inte heller kommer den berörda Emittenten eller något Emissionsinstitut att göra någon utredning eller undersökning i samband med sådant erbjudande med avseende på information om sådan Equity Issuer som ingår i Slutliga Villkor eller i de dokument från vilka denna information extraherades. Därför kan det inte finnas några garantier för att alla händelser som inträffar före det relevanta emissionsdatumet (inklusive händelser som skulle påverka riktigheten eller fullständigheten av de allmänt tillgängliga handlingar som beskrivs i denna punkt eller i relevanta Slutliga Villkor) som skulle kunna påverka kursen för aktien eller de aktierelaterade instrumenten kommer att ha offentliggjorts. Efterföljande publicering av sådan information eller publicering av eller underlåtenhet att publicera väsentliga framtida händelser som rör sådan Equity Issuer kan påverka börskursen på sådant instrument och därmed värdet på Lånet.

### ***Risker förknippade med Index som Referenstillgångar***

En investering i indexobligationer medför betydande risker utöver de som förknippas med investeringar i ett konventionellt skuldebrev.

#### ***(a) Faktorer som påverkar värdeutvecklingen av Index kan påverka värdet på Lånet***

Ett index omfattar en syntetisk portfölj av aktier, aktierelaterade tillgångar eller andra tillgångar och värdeutvecklingen för ett index är beroende av de makroekonomiska faktorer som rör de aktier, aktierelaterade tillgångar eller andra komponenter som ingår i ett sådant index, vilket kan inkludera räntor och prisnivåer på kapitalmarknaderna, valutautveckling, politiska faktorer och (i fallet med aktier eller aktierelaterade instrument) företagsspecifika faktorer som vinst, marknadsposition, risksituation, ägarstruktur och utdelningspolicy.

#### ***(b) Exponering mot risken att avkastningen i Lånet inte återspeglar avkastningen i en direktinvestering i underliggande aktier, aktierelaterade instrument eller andra tillgångar som ingår i indexet***

Avkastningen i ett Lån med ett index som underliggande tillgång återspeglar nödvändigtvis inte den avkastning en investerare skulle erhålla om denne faktiskt ägde de i indexet ingående tillgångarna. Till exempel, om det i ett index ingår aktier kommer Fordringshavare inte att få några utdelningar på dessa aktier och kommer inte att erhålla någon avkastning i anledning av dessa utdelningar om inte relevant index tar hänsyn till sådan utdelning vid beräkningen av indexnivån. På samma sätt kommer Fordringshavare inte att kunna utöva någon rösträtt i de underliggande instrumenten eller andra tillgångar som kan ingå i relevant index. Följaktligen skulle investerarna i Lån som har index som referenstillgång kan få en lägre avkastning än om investeringen gjorts direkt i de instrument som ingår i indexet.

#### ***(c) Avsaknad av påverkan av utdelningar avseende flesta Lån kopplade till aktieindex***

Reglerna om sammansättning och beräkningen av det relevanta underliggande indexet kan föreskriva att utdelning från de till indexet underliggande tillgångarna inte leder till en ökning av indexets värde, till exempel om det är ett "pris"-index, vilket istället kan leda till en minskning av indexnivån om alla andra omständigheter förblir oförändrade. Detta kommer resultera i att Fordringshavare i Lån där Referenstillgången är ett sådant index inte kommer att delta i någon utdelning eller annan värdeöverföring som betalas till innehavare av de i indexet ingående tillgångarna. Även om reglerna för det relevanta underliggande indexet föreskriver att utdelning eller annan värdeöverföring avseende de i indexet ingående tillgångarna återinvesteras i index och därmed leder till att indexnivån ökas kan, i under vissa omständigheter, utdelning eller annan värdeöverföring inte helt återinvesteras i sådant index.

- (d) *En förändring i sammansättningen eller upphörande av ett index kan påverka marknadsvärdet av Lån*

En sponsor av ett index kan lägga till, ta bort eller byta ut de i indexet ingående tillgångarna eller göra andra metodologiska förändringar som kan ändra nivån på en eller flera i indexet ingående tillgångar. Modifieringen av i index ingående tillgångar kan påverka nivån på ett sådant index, som t.ex. att en ersättande komponent i ett index kan prestera betydligt sämre eller bättre än den komponent som den ersätter, vilket i sin tur kan påverka storleken på de betalningar som den berörda Emittenten kommer att göra till investerarna i Lånet. Sponsorn av ett index kan också komma att ändra, avbryta eller upphäva beräkning eller offentliggörandet av indexet. Indexsponsorn kommer inte att ha någon del i utformningen av erbjudandet och försäljningen av Lån och har inga skyldigheter i förhållande till Fordringshavare. En indexsponsor kan vidta vilka åtgärder som helst i fråga om sådant index utan att därvid ta hänsyn till Fordringshavares intressen, och sådana åtgärder kan komma att påverka marknadsvärdet av Lån.

- (e) *Det finns ytterligare risker i förhållande till råvaruindex, se "Risker förknippade med råvaror som referenstillgångar".*

### ***Risker förknippade med inflationsindex som Referenstillgångar***

Avkastningen i obligationer kopplade till inflation kan vara beroende av nivån på ett inflationsindex eller korg av inflationsindex. Räntan på sådana Lån kan beräknas med utgångspunkt i nivån för en inflationsindex eller en korg av inflationsindex.

*Särskilda händelser och avbrott som påverkar realränteobligationer och obligationer kopplade till inflation*

Om Lån är realränteobligationer eller obligationer kopplade till inflationsindex och publiceringen av nivån på inflationsindexet är fördröjd, publiceringen av inflationsindex upphör, inflationsindexet omräknas, en materiell förändring av indexet görs, eller att det har skett en uppenbart oriktig publicering av nivån på indexet, kan den berörda Emittenten bestämma en sådan händelse har en väsentlig effekt på Lånet och, om så är fallet, genomföra sådana tillägg och justeringar av villkoren för Lånet som den berörda Emittenten anser nödvändiga.

Många ekonomiska och marknadsrelaterade faktorer kan påverka ett inflationsindex och, följaktligen, värdet på Lån med inflationsindex som underliggande tillgång, till exempel:

- Allmänna ekonomiska, finansiella, politiska eller regulatoriska regelverk och/eller händelser, och/eller
- Fluktuation i priser såvitt gäller tillgångar, tjänster och energitillgångar (inklusive efterfrågan och tillgång för någon av dessa); och/eller
- Inflationsnivån i ekonomin i det relevanta landet och förväntningar på inflationen.

Nivån på ett inflationsindex kan påverkas av faktorer som inte har någon relation till de finansiella marknaderna.

### ***Risker förknippade med valutakurser som Referenstillgångar***

En investering i valutaobligationer medför betydande risker utöver de som förknippas med investeringar i ett konventionellt skuldebrev.

Lån kan vara denominerade i en valuta ("Referensvalutan") men återbetalas i en annan valuta ("Valutan"). Värdet av lånet kan därför påverkas av förändringar i värdet av Referensvalutan jämfört med Valutan (som kan beräknas, i förekommande fall, på en "cross-currency basis"). Detta medför vissa risker för att växelkursen (eller de växelkurser) som används för att bestämma Valutan medför att beloppet för eventuella betalningar under Lånet kan förändras signifikant (inklusive förändringar på grund av devalvering eller revalvering av Valuta jämfört med Referensvaluta) och risken för att myndigheter med jurisdiktion över dessa valutor kan orsaka en minskning av (1) Valutans påverkan av avkastningen på Lånet, (2) Valutans påverkan på storleken på Återbetalningsbeloppet under Lånet, och (3) Valutans påverkan på Lånets marknadsvärde. Således finns det en risk för att Valutans värde vid en försäljning eller inlösen, påkallande eller cancellering, kan komma att understiga värdet av Fordringshavarens

ursprungliga investering i lånet, beroende på valutakursens storlek vid tidpunkten för en sådan försäljning eller inlösen, påkallande eller cancellering.

- (a) *Faktorer som påverkar värdeutvecklingen i den aktuella valutakursen kan påverka värdet på Lån negativt*

Den valutakurs eller de valutakurser som utgör Referenstillgångar till Lån kommer att påverka värdet av investeringen och avkastningen på Lånet. Värdeutvecklingen avseende valutakurser är beroende av tillgång och efterfrågan på valutor på de internationella valutamarknaderna, som är föremål för ekonomiska faktorer, bland annat inflationstakten i de berörda länderna, ränteskillnaderna mellan de olika länderna, ekonomiska prognoser, internationella politiska faktorer, valutakonvertibilitet och tryggheten i att göra finansiella investeringar i den berörda valutan, spekulationer och åtgärder vidtagna av regeringar och centralbanker. Sådana åtgärder omfattar bland annat införande av regulatoriska kontroller eller skatter, utfärdande av en ny valuta för att ersätta en befintlig valuta, förändring av växelkursen eller dess egenskaper genom devalvering eller revalvering av valuta eller införande av valutareglering med avseende på växelkurs eller överföring av en angiven valuta som skulle påverka växelkurser och tillgången till en viss valuta.

- (b) *Nordea är en stor aktör på valutamarknaden och är föremål för intressekonflikter*

Investerare bör notera att vissa medlemmar av Nordeakoncernen är regelbundet aktiv på valutamarknaderna kan i dess löpande verksamhet komma att göra transaktioner för egen räkning eller för deras kunders räkning och hålla långa och/eller korta positioner i valutor och relaterade derivat, även i de valutor som utgör Referenstillgångar i förhållande till Lån. Sådana transaktioner kan påverka de relevanta Referenstillgångarna och Lånets marknadspris, likviditet eller värde och kan vara missgynnande för Fordringshavares intressen. Inga medlemmar i Nordeakoncernen har någon skyldighet att genomföra sådana transaktioner på ett sätt som gynnar Fordringshavare.

- (c) *Valutor på tillväxtmarknader utgör särskilda risker*

Valutaobligationer kopplade till valutor på tillväxtmarknader kan uppleva större volatilitet och mindre säkerhet om framtida värdenivåer för sådana tillväxtmarknadsrelaterade valutor eller deras växelkurs i förhållande till andra valutor.

### ***Risker förknippade med råvaror som Referenstillgångar***

En investering i råvaruobligationer medför betydande risker utöver de som förknippas med investeringar i ett konventionellt skuldebrev.

- (a) *Faktorer som påverkar en råvaras värdeutveckling kan påverka värdet av lån, och vissa råvarupriser kan vara mer instabila än andra tillgångsslag*

Handel med råvaror är spekulativ och kan vara extremt volatil. Råvarupriserna påverkas av en mängd faktorer som är oförutsägbara, däribland till exempel förändringar i relationen mellan utbud och efterfrågan, vädermönster och extrema väderförhållanden, statliga program och politik, nationella och internationella politiska, militära, terror, och ekonomiska händelser, skattemässiga, penningpolitiska program för kontroll, förändringar i räntor och valutakurser och förändringar och avbrott eller störningar i marknaden för handel med råvaror och relaterade kontrakt. Råvarupriser kan vara mer instabila än andra tillgångsslag, vilket gör investeringar i råvaror mer riskfyllda än andra investeringar.

- (b) *Råvaror kan utgöras av fysiska råvaror eller råvarukontrakt, och vissa råvarukontrakt kan handlas på oreglerade eller börser med en mera begränsad reglering.*

Råvaror omfattar både (i) "fysiska" råvaror, som måste lagras och transporteras, och som generellt handlas på ett "Spot"-pris, och (ii) råvarukontrakt, som är avtal antingen att (A) köpa eller sälja en viss mängd av en underliggande fysisk råvara till ett förutbestämt pris och leveransperiod (vilken kan betecknas som en leveransmånad) eller (B) betala eller ta emot en kontant betalning baserad på förändringar i priset på den underliggande råvaran.

Råvarukontrakt kan handlas på reglerade specialiserade terminsbörser (t.ex. terminskontrakt). Råvarukontrakt kan också handlas direkt mellan marknadsaktörerna "over-the-counter" på handelsplattformar som är föremål för lägre grad av reglering eller, i vissa fall, ingen väsentlig reglering. Således omfattas handeln med sådana "over-the-counter"-kontrakt inte av samma bestämmelser, och har inte det skydd, som gäller för kontrakt som handlas på reglerade specialiserade terminsbörser, och handeln i sådana kontrakt kan därför vara förenad med ytterligare risker relaterade till likviditet och prishistorik såvitt gäller de relevanta kontrakten.

- (c) *Lån som har terminskontrakt för råvaror som Referenstillgång kan ge en annan avkastning än Lån som har den relevanta fysiska varan som Referenstillgång och medför dessutom vissa andra risker*

Priset på ett terminskontrakt på en råvara kommer generellt att handlas med en premie eller med en rabatt i förhållande till spotpriset på den underliggande råvaran. Dessa skillnader beror på sådana faktorer som (i) behovet av att anpassa spotpriset på grund av kostnader (t.ex. lager, transport- och försäkringskostnader) och (ii) olika metoder som används för att utvärdera generella faktorer som påverkar spot- och terminsmarknaderna. Dessutom, och beroende på varan, kan det finnas stora skillnader i likviditet på spot- och terminsmarknaderna. Således kan Lån som har terminskontrakt som Referenstillgång ge en annan avkastning än Lån som har den relevanta fysiska råvaran som Referenstillgång.

Investeringar i terminskontrakt innebär vissa andra risker, till exempel bristande likviditet. En innehavare av terminskontrakt kan finna att ett sådant innehav blir illikvid eftersom vissa råvarubörser begränsar fluktuationer i terminskontraktspriser enligt regler om "dagliga begränsningar". När priset på ett visst terminskontrakt har ökat eller minskat med ett belopp som motsvarar den dagliga begränsningen, kan positioner i kontraktet inte tas eller avvecklas om inte innehavaren är villig att utföra transaktioner på eller inom begränsningen. Detta kan hindra en person från att snabbt avveckla ogynnsamma positioner och kan därmed utsätta en sådan person för stora förluster. Terminskontraktspriser i olika råvaror har från tid till annan överskridit den dagliga gränsen för flera på varandra följande dagar med liten eller ingen handel. Förluster som uppstår under sådana omständigheter kan ha en negativ effekt på avkastningen i Lån som har det påverkade terminskontraktet som referenstillgång.

För det fall en direktinvestering i terminskontrakt för råvaror görs, kan det investerade kapitalet komma att användas helt eller delvis som säkerhet för de framtida krav som respektive part kan ha på varandra under terminskontraktet. Sådant kapital vilket ställts som säkerhet bär i allmänhet ränta, och avkastningen i form av ränta ökar investerarens avkastning. Fordringshavare som investerat i Lån där terminskontrakt på råvaror är Referenstillgång kommer inte att ta del i ränteavkastning i anledning av en hypotetiskt ställd säkerhet i de underliggande terminskontrakten.

- (d) *Ytterligare risker i förhållande till "rullning" av terminskontrakt på råvaror (inklusive terminskontrakt på råvaror som är komponenter i ett råvaruindex)*

Råvarukontrakt har ett förutbestämt utgångsdatum, det vill säga en dag då handel med kontraktet upphör. Att hålla ett terminskontrakt till dess slutdag kommer att resultera i leverans av den underliggande fysiska råvaran eller ett krav att kontantavräkna kontraktet. Att "rulla" ett terminskontrakt innebär att när terminskontraktet närmar sig slutdagen ("**near-dated commodity contracts**") men innan det löper ut så säljs detta och ett terminskontrakt som har en slutdag längre in i framtiden ("**longer-dated commodity contract**") köps istället. Investerare i råvaror använder "rullning" av terminskontrakt i syfte att upprätthålla en kontinuerlig exponering mot den relevanta råvaran.

"Rullning" kan påverka värdet av en investering i råvaror på ett antal olika sätt, bland annat:

- (i) *Exponeringen mot råvarukontrakt kan ökas eller minskas genom "rullning"*

När priset på en near-dated commodity contract är större än priset på longer-dated commodity contract (kontraktet sägs då vara i "backwardation"), kommer då "rullningen" från det förra till det senare resultera i att exponeringen utgörs av ett större antal kontrakt (i formen av longer-dated commodity contracts). Därför kommer förlust eller vinst på de nya positionerna i anledning av en rörelse i priset på råvaran att vara större än om man hade innehaft samma antal råvarukontrakt som innan "rullningen".

Omvänt, om priset på en near-dated commodity contract är lägre än priset på longer-dated commodity contract (kontraktet sägs då vara i "contango"), kommer då "rullningen" att resultera i att exponeringen utgörs av ett mindre antal kontrakt (i formen av longer-dated commodity contracts). Därför kommer vinst eller förlust på de nya positionerna för en given rörelse i priserna på råvaror avtalet vara mindre än om man hade innehaft samma antal råvarukontrakt som innan "rullningen".

- (ii) *När ett terminskontrakt befinner sig i contango (alternativt backwardation), kan detta förväntas ha en negativ (eller positiv) effekt över tiden*

När ett terminskontrakt är i "contango", förväntas priset på longer-dated commodity contract generellt minska i takt med att kontraktet närmar sig slutdagen. I ett sådant fall kan en "rullning" i allmänhet förväntas ha en negativ effekt på en investering i kontraktet. När ett terminskontrakt är i "backwardation", förväntas priset på longer-dated commodity contract generellt öka i takt med att kontraktet närmar sig slutdagen. I sådant fall kan investeringen i det aktuella kontraktet generellt förväntas påverkas positivt.

När det gäller Lån med ett terminskontrakt på råvaror som Referenstillgång kommer det specifika underliggande terminskontraktet att helt enkelt ändras utan att det sker någon avyttring, förvärv eller tagande av positioner i några faktiska terminskontrakt. Därför kommer effekterna av en "rullning" enligt ovan inte direkt påverka Referenstillgången eller Lånet. Således kommer en investerare inte att delta direkt i möjliga effekter av en "rullning". Emellertid kan andra marknadsaktörer agera i enlighet med mekanismen för "rullning" och ett sådant beteende kan ha en indirekt negativ inverkan på värdet av Referenstillgången och därför på Lånet.

Råvaruindex är index som följer värdeutvecklingen i en korg av terminskontrakt på vissa råvaror. Vilka råvaror detta är beror på det individuella indexet. Viktningen av de olika råvaror som ingår i ett råvaruindex beror också på vilket index som avses, och beskrivs generellt sett i de relevanta reglerna för indexet.

För råvaruindex används "rullning" av de terminskontrakt som ingår i indexet för att upprätthålla en kontinuerlig exponering mot sådana råvaror. Då ett terminskontrakt måste rullas i enlighet med reglerna för det relevanta indexet beräknas nivån på råvaruindexet som om de underliggande terminskontrakten avyttrades och att man förvärvade nya (vanligen kontrakt som har en slutdag längre fram i tiden) terminskontrakt för att uppnå en motsvarande exponering. Således har en "rullning" samma effekter som beskrivits ovan med avseende på värdet av Referenstillgång i specifika Lån, även i fråga om nivån på ett råvaruindex.

- (e) *Legala och regulatoriska förändringar som rör råvaror kan leda till en förtida inlösen*

Råvaror är föremål för legala och regulatoriska regleringar som kan förändras på ett sätt som kan påverka möjligheten för Emittenten eller någon annan medlem i Nordeakoncernen att ingå eller vidmakthålla säkringstransaktioner (hedgar) avseende Emittentens skyldigheter under Lån, att säkra (hedga) Emittentens skyldigheter enligt Lån, och/eller kan leda till förtida inlösen eller canceltering av Lån.

#### ***Risker förknippade med korgar som innefattar olika beståndsdelar som Referenstillgångar***

- (a) *Exponering mot värdeutvecklingen i korg och dess underliggande tillgångar*

Om Lån refererar till en korg av tillgångar som dess Referenstillgångar, är investerare i sådana Lån utsatta för värdeutvecklingen i sådan korg. Investerarna kommer att bära risken för värdeutvecklingen för varje av de i korgen ingående tillgångarna.

- (b) *En hög korrelation mellan tillgångar i en korg kan ha en betydande inverkan på de belopp som skall betalas under Lån*

Korrelationen av de i en korg ingående beståndsdelarna indikerar graden av beroende mellan de enskilda beståndsdelarna med hänsyn tagen till deras värdeutveckling. Om samtliga de i korgen ingående beståndsdelarna kommer från samma sektor och samma land, kan man anta en generell hög positiv korrelation. Tidigare korrelationsvärden är inte avgörande för framtida korrelationsvärden. Investerare bör vara medvetna om att även om de i en korg ingående beståndsdelarna inte verkar vara korrelerade baserat på tidigare värden, kan de påverkas negativt

i samma mån i anledning av en allmän nedgång eller annan ekonomisk eller politisk händelse. Om de i en korg ingående beståndsdelarna är föremål för en hög korrelation kommer förändringar i värdeutvecklingen hos de i korgen ingående beståndsdelarna generellt sett påverka värdeutvecklingen i Lånet.

- (c) *En negativ utveckling av en enda Referenstillgång i en korg kan uttradera en positiv utveckling av en eller flera andra Referenstillgångar i korgen*

Investorare i Lån måste vara medvetna om att även för det fall en eller flera i en korg ingående beståndsdelar har en positiv värdeutveckling, kan värdeutvecklingen i korgen som helhet vara negativ om värdeutvecklingen hos de andra i korgen ingående beståndsdelarna är negativ i större utsträckning, med förbehåll för vad som regleras i villkoren för det relevanta Lånet.

- (d) *En liten korg, en ojämnt viktad korg eller en "best of" eller "worst of"-korg gör generellt sett en korg mer sårbar för förändringar i värdet av en viss i korgen ingående beståndsdel*

Värdeutvecklingen i en korg som innehåller ett mindre antal beståndsdelar, med förbehåll för vad som regleras i villkoren för det relevanta Lånet, påverkas generellt sett mer av förändringar i värdet på en viss i korgen ingående beståndsdel däri än en korg som innehåller ett större antal beståndsdelar.

Värdeutvecklingen i en korg som ger större vikt till vissa av de i korgen ingående beståndsdelarna eller baserar värdet för hela korgen endast på värdet av en av de i korgen ingående beståndsdelarna påverkas generellt sett, med förbehåll för vad som regleras i villkoren för det relevanta Lånet, mer av förändringar i värdet av en sådan i korgen ingående beståndsdel än en korg som ger relativt lika stor vikt till varje i korgen ingående beståndsdel.

- (e) *En förändring i sammansättningen av en korg kan ha en negativ effekt på korgens värdeutveckling*

Om villkoren för Lånet ger Emittenten eller Beräkningsagenten rätt att justera sammansättningen av korgen, bör investorare vara medvetna om att en tillgång i korgen som ersätter en tidigare kan utvecklas annorlunda än vad som förväntats av de i korgen ursprungligen ingående tillgången, vilket kan ha en negativ effekt på korgens värdeutveckling.

### ***Risker relaterade till kreditlänkade obligationer***

#### ***Korrelationsrisk***

En investering i kreditlänkade obligationer innebär betydande risker som inte är förknippade med ett konventionellt skuldebrev med fast eller rörlig ränta. Sådana risker är exponering för kreditrisk mot den särskilda Referensenheten eller korg av referensenheter (och i förekommande fall, en eller flera specifika skuldförbindelser) utöver den för den berörda Emittenten. Beroende på det sätt på vilket den särskilda serien kreditlänkade obligationer är kopplad till skuldförbindelser utfärdade av en Referensenhet eller korg av Referensenheter, kan en minskning av kreditvärdigheten hos en viss Referensenhet (eller där uppfattningen av kreditvärdigheten hos en särskild Referensenhet förvärras), kan kraftigt minska marknadsvärdet på Lånet och på eventuella betalningar av kapitalbelopp eller ränta. Om en serie Lån är kopplad till en korg av Referensenheter kan en försämring av kreditkvaliteten hos en Referensenhet vara starkt korrelerad med en försämring av kreditkvaliteten hos andra Referensenheter i korgen, vilket kan inom en relativt kort tidsperiod resultera i betydande minskningar av marknadsvärdet på Lånet och eventuella betalningar av kapitalbelopp eller ränta. I ett Lån som har en struktur som är "N:th to Default" eller "N:th+1" to Default, kommer förekomsten av en kredithändelse avseende en Referensenhet att ha en mer än proportionell effekt på marknadsvärdet och betalning av kapital och ränta.

#### ***Betalningar av kapitalbelopp och/eller ränta***

I händelse av förekomsten av vissa omständigheter (som kan inkludera bland annat, konkurs, betalningsinställelse, Obligation Acceleration, Obligation Default, moratorium, omstrukturering eller annan Kredithändelse) i förhållande till en Referensenhet eller en korg av Referensenheter, i enlighet med vad som anges i tillämpliga Slutliga Villkor, kan Emittentens skyldighet att betala kapitalbelopp eller utföra andra åtaganden enligt lånets villkor ersättas av en skyldighet att betala andra belopp som beräknats utifrån värdet av Referenstillgången. Dessutom kan räntebärande kreditobligationer komma att upphöra att bära ränta på eller före den dag då Kredithändelse inträffat.

Potentiella investerare i sådana Lån bör vara medvetna om att beroende på villkoren för sådan kreditobligation så (i) kan de bli utan eller få vidkännas minskningar i räntebetalningarnas storlek, (ii) kan betalning av kapital eller ränta eller leverans av eventuella angivna tillgångar inträffa vid en annan tid än förväntat och (iii) de kan förlora hela eller en väsentlig del av sin investering.

#### *Volatilitet i marknadspriset*

Marknadsvärdet på kreditobligationer kan vara volatilt och påverkas av, bland annat, den tid som återstår till återbetalningsdagen och Referensenhetens kreditvärdighet som i sin tur kan påverkas av ekonomiska, finansiella och politiska händelser i ett eller flera jurisdiktioner.

#### *Inget krav att Emittenten lider förlust med avseende på Referensenhet*

Emittentens åtaganden avseende kreditobligationer är inte avhängigt huruvida Emittentens och/eller dess närstående bolag har en faktisk kreditexponering mot Referensenheten. Emittenten och/eller någon av dess närstående bolag behöver inte heller lida någon faktisk förlust eller lida någon skada på grund av förekomsten av en Kredithändelse.

#### *Begränsad information avseende Referensenheter*

Ingen utredning har eller kommer att göras avseende någon Referensenhet. Presumptiva investerare i kreditobligationer bör inhämta och utvärdera information om Referensenheter som om de investerar direkt i skuldförbindelser utgivna av relevanta Referensenheter. Dessutom bör investerare förstå att den historiska utvecklingen av en särskild skuldförbindelse eller skuldförbindelserna relaterade till Referensenheten i allmänhet inte är en garanti för framtida utveckling. Eftersom ingen Referensenhet har deltagit i framtagandet av detta Grundprospekt, finns det ingen garanti för att alla väsentliga händelser eller information om Referensenheter har beskrivits i samband med att Lån utfärdas. Efterföljande publicering av sådana händelser eller underlåtenhet att publicera information om väsentliga händelser som rör någon av Referensenheterna kan påverka återbetalningsbeloppet på Lån eller marknadsvärdet på Lånet.

#### *Skuldförbindelser kan bestå av förlagslån*

Eventuella skuldförbindelser för kreditobligationer kan innefatta efterställda skuldförbindelser. Sådana efterställda skuldförbindelser kommer att rankas efterställt till, och värdet av dessa efterställda skuldförbindelser kan vara mindre än, icke efterställda skuldförbindelser utgivna av samma Referensenhet. Värdet av sådana efterställda skuldförbindelser kan vara noll under förhållanden där en Kredithändelse har inträffat. Emittenten har ingen lojalitetsplikt mot Fordringshavare innebärande att Emittenten har att välja Referenstillgångar eller leveransbara tillgångar med något särskilt värde eller att maximera värdet för Fordringshavare.

### **Risker relaterade till räntestrukturer**

#### ***Risker relaterade till fast/rörlig ränta.***

Lån med fast/rörlig ränta kan löpa med en ränta, vilken den berörda Emittenten kan välja att konvertera från en fast ränta till rörlig ränta, eller från en rörlig ränta till fast ränta. Den relevanta Emittentens förmåga att omvandla räntan kommer att påverka andrahandsmarknaden och marknadsvärdet av sådana Lån eftersom den berörda Emittenten kan förväntas konvertera räntan när det är sannolikt att detta kommer att ge en lägre totalkostnad för upplåningen. Om den berörda Emittenten konverterar från en fast ränta till rörlig ränta kan spreaden på fast/rörlig ränta bli mindre gynnsam än vid den tidpunkten rådande spreadar på jämförbara lån med rörlig ränta som baseras på samma referensränta. Dessutom kan den nya rörliga räntan komma att vara lägre än räntan på andra Lån. Om den berörda Emittenten konverterar från en rörlig ränta till fast ränta, kan den fasta räntan vara lägre än fast ränta som betalas på andra av dess Lån.

#### ***Risker relaterade till Lån med rörlig ränta med en multiplikator eller annan hävstångseffekt.***

Lån med justerbar rörlig ränta kan vara volatila investeringar. Om de är strukturerade på så sätt att de innehåller multiplikatorer eller andra faktorer som ger hävstångseffekter, eller tak och/eller golv, eller någon kombination av dessa funktioner eller andra liknande funktioner, kan deras marknadsvärde vara ännu mer volatilt än för Lån som inte innehåller dessa funktioner.

### ***Risker relaterade till Lån med omvänd rörlig ränta.***

Lån med omvänd rörlig ränta har en ränta motsvarande en fast ränta minus en ränta baserad på en referensränta som t.ex. LIBOR. Marknadsvärdet på dessa Lån är oftast mer volatila än marknadsvärdet på andra konventionella skuldförbindelser med rörlig ränta men med samma referensränta (och med i övrigt jämförbara villkor). Lån med omvänd rörlig ränta är mer volatila eftersom en höjning av referensräntan inte endast sänker räntan på Lånet, men kan också spegla en ökning rådande ränteläget, vilket ytterligare negativt påverkar marknadsvärdet av dessa Lån.

### ***Risker relaterade till Range Accrual-Lån***

Range Accrual-Lån bär ränta som skall betalas antingen (i) på räntebetalningsdagar som inträffar med jämna mellanrum under Lånets löptid, eller (ii) som en klumpsumma på återbetalningsdagen.

Den ränta som en investerare i Lånet kan erhålla är kopplad till utvecklingen av en eller flera Referenstillgångar på sätt som anges i tillämpliga Slutliga Villkor och hur många faktiska dagar under den aktuella ränteperioden eller värderingsperioden nivån eller värdet av Referenstillgången förblir inom ett visst intervall, (den övre och undre gränsen specificeras i tillämpliga Slutliga Villkor). Om nivån eller värdet av Referenstillgången är under den nedre gränsen eller högre än den övre gränsen på vissa eller alla av dagarna i en ränteperiod eller värderingsperiod kan investeraren få låga eller till och med inga räntebetalningar för den relevanta ränteperioden. Innehavare bör notera att ingen ränta utgår de dagar när nivån eller värdet av Referenstillgången är utanför det angivna intervallet. Den räntesats med vilken räntan ackumuleras kan vara en fast ränta, rörlig ränta eller annan ränta som framgår av tillämpliga Slutliga Villkor. Ränta på Lånet är därför även kopplat till volatiliteten i värdet eller nivån av Referenstillgången. Range Accrual-Lån kan vara olämpligt för investerare som behöver regelbundna räntebetalningar.

### ***Risker relaterade till specifika värdeutvecklingsstrukturer***

#### ***Risker relaterade till komplexiteten i produkten***

Avkastningen för strukturerade Lån är ibland komplex och kan innehålla matematiska formler eller samband som för investeraren kan vara svåra att förstå och jämföra med andra investeringsalternativ. Förhållandet mellan avkastning och risk kan vara svårt att bedöma. När det gäller sambandet mellan avkastning och risk kan allmänt sägas att en relativt hög avkastning oftast är förknippad med en relativt högre risknivå. Ett sätt att öka sannolikheten för en högre avkastning är exempelvis att inkludera en hävstång i strukturen som resulterar i att relativt små förändringar i värdeutvecklingen av underliggande tillgångar som kan ha stora effekter för värdet och avkastningen på Lånet. En sådan struktur är i allmänhet också förknippad med en högre risk (se Risker relaterade till särskilda Referenstillgångar nedan). Den historiska utvecklingen för motsvarande investering är bara en beskrivning av den historiska utvecklingen av investeringen och får inte betraktas som en indikation på framtida avkastning. Information om tidigare resultat saknas avseende vissa Referenstillgångar, till exempel med avseende på vissa hedgefonder. Investerare bör noga överväga vilken avkastningsstruktur som gäller för Lån i vilka investeraren investerar för att få en förståelse för hur den relevanta strukturen fungerar i olika scenarier och vilka risker en investering i Lånet innebär.

#### ***Risker relaterade till Lån som inte är kapitalskyddade***

Lån kan ha eller sakna ett kapitalskydd. Om Lånet inte är kapitalskyddat finns det ingen garanti för att den betalning som en investerare erhåller på Lånet på återbetalningsdagen kommer att vara större än eller lika med det nominella beloppet. Om återbetalningsbeloppet hos ett Lån inte är kapitalskyddat, men skall bestämmas enbart med hänvisning till värdet eller nivån på en eller flera Referenstillgångar, förväntas en minskning av värdet på Referenstillgången (eller om Lånet har en "put"- eller "reverse convertible"-struktur, en ökning av värdet) resultera i en minskning av återbetalningsbeloppet på Lånet. Således är det möjligt att avkastningen på Lån kopplade till sådana Referenstillgångar kan vara betydligt lägre än det belopp som betalats av Fordringshavare för sådana Lån vid investeringen och kan uppgå till noll.

#### ***Risker relaterade till överkurs och deltagandegrad***

Förhållandet mellan värdet på ett strukturerat Lån och värdeutvecklingen hos Referenstillgångarna eller förändringar i Referenstillgångarna är inte alltid linjär, utan ibland är detta beroende på struktur och en deltagandegrad vilken avgör i vilken utsträckning Referenstillgångens värdeutveckling återspeglas i värdet av Lånet. Deltagandegraden sätts av berörd Emittent och bestäms bland annat av löptid, volatilitet,

marknadsränta och förväntade utdelningar från Referenstillgången. I vissa konstruktioner kan deltagandegraden variera beroende på om värdeutvecklingen på de aktuella Referenstillgångarna är positiv eller negativ. Variationer i deltagandegraden kan öka eller minska den exponering som Fordringshavare utsätts för såvitt gäller värdeutvecklingen hos de aktuella Referenstillgångarna. Det belopp som investeraren riskerar är större i de strukturerade Lån som tecknas/köps till överkurs, det vill säga då investeraren betalar mer än nominellt belopp, på grund av risken att dessa kan komma att lösas in endast till nominellt belopp eller lägre.

### ***Volatilitet***

Om, i enlighet med relevanta Slutliga Villkor, Lånet omfatta variabler såsom multiplikatorer, leverage, tak/golv, annan kombination av dessa variabler eller andra liknande funktioner kan marknadsvärdet av sådana Lån vara mer volatila än marknadsvärdet av ett Lån utan sådana funktioner.

### ***"Best of"/"Worst of" strukturer i korgar***

Där avkastningen på Lån är kopplad till värdeutvecklingen av en korg, och att "Best of"-strukturen är tillämplig kommer värdet av korgen baseras på värdet hos ett specificerat antal tillgångar i korgen vilka under en angiven tidsperiod har visat bäst resultat i jämförelse med de andra tillgångarna i korgen. Omvänt, där "Worst of"-strukturen är tillämplig, kommer värdet av korgen baseras på värdet hos ett specificerat antal tillgångar i korgen vilka har visat sämst resultat i jämförelse med de andra tillgångarna i korgen under en angiven tidsperiod. Eftersom de tillgångar i korgen som visat bäst eller sämst utveckling inte är representativa för värdeutvecklingen i korgen som helhet kan en sådan struktur ge resultat som är mycket olika dem som tar hänsyn till utvecklingen av tillgångarna i korgen som helhet. Potentiella investerare bör överväga det sätt på vilket "Best of" och "Worst of"-strukturen påverkar värdet av en korg och överväga hur detta påverkar bestämningen av storleken på eventuella utbetalningar. Potentiella investerare i sådana Lån bör vara medvetna om att den avkastning de får (om någon) på investeringar i Lån som har en "Best of" och/eller "Worst of"-struktur kan skilja sig avsevärt från avkastningen på investeringen i Lån som inte har en sådan struktur.

### ***Risk för automatisk förtida inlösen***

När det gäller vissa typer av Lån kommer Lånen automatiskt att inlösas före utgången av deras löptid för det fall vissa villkor är uppfyllda. Lån av denna typ har en på förhand obestämd förfallodag. Vissa typer av Lån kan också automatiskt inlösas i förtid om en viss trigger bryts under en viss period eller på en eller flera bestämda datum. Om Referenstillgång eller korg utvecklas dåligt, kan Fordringshavare få liten eller ingen ränta under löptiden av Lånet och/eller få en låg eller till och med noll avkastning på förfallodagen, och i vissa fall kan leda till en förlust av hela eller delar av sin investering. Presumptiva investerare bör överväga återinvesteringsrisk i ljuset av andra investeringar tillgängliga vid den tidpunkten.

## FORM OF THE NOTES

Notes may be issued as Bearer Notes (as defined below), Registered Notes (as defined below), VP Notes, VPS Notes, Finnish Notes or Swedish Notes, as specified in the relevant Final Terms. Notes in bearer form will not be exchangeable for Notes in registered form and Notes in registered form will not be exchangeable for Notes in bearer form.

### Form of Bearer Notes

Each Tranche of Notes in bearer form ("**Bearer Notes**") will initially be in the form of either a temporary global note in bearer form (the "**Temporary Global Note**"), without interest coupons, or a permanent global note in bearer form (the "**Permanent Global Note**"), without interest coupons, in each case as specified in the relevant Final Terms. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a "**Global Note**") which is not intended to be issued in new global note ("**NGN**") form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear Bank SA/NV as operator of the Euroclear System ("**Euroclear**") and/or Clearstream Banking, *société anonyme* ("**Clearstream, Luxembourg**") and/or any other relevant clearing system and each Global Note which is intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg.

On 13 June 2006, the European Central Bank (the "**ECB**") announced that Notes in NGN form are in compliance with the "*Standards for the use of EU securities settlement systems in ESCB credit operations*" of the central banking system for the euro (the "**Eurosystem**"), **provided that** certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

In the case of each Tranche of Bearer Notes, the relevant Final Terms will also specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) (the "**TEFRA C Rules**") or United States Treasury Regulation §1.163-5(c)(2)(i)(D) (the "**TEFRA D Rules**") are applicable in relation to the Notes or, if the Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

### *Temporary Global Note exchangeable for Permanent Global Note*

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for a Permanent Global Note", then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the delivery of a Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) presentation and surrender of the Temporary Global Note to or to the order of the Fiscal Agent; and
- (ii) receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership.

The principal amount of Notes represented by the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership **provided, however, that** in no circumstances shall the principal amount of Notes represented by the Permanent Global Note exceed the initial principal amount of Notes represented by the Temporary Global Note.

If:

- (a) the Permanent Global Note has not been delivered or the principal amount thereof increased by 5.00 p.m. (London time) on the seventh day after the bearer of the Temporary Global Note has requested exchange of an interest in the Temporary Global Note for an interest in a Permanent Global Note; or
- (b) the Temporary Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Temporary Global Note in accordance with the terms of the Temporary Global Note on the due date for payment,

then the Temporary Global Note (including the obligation to deliver a Permanent Global Note) will become void at 5.00 p.m. (London time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above) and the bearer of the Temporary Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Temporary Global Note or others may have under the Deed of Covenant).

The Permanent Global Note will become exchangeable, in whole but not in part only and at the request of the bearer of the Permanent Global Note, for Bearer Notes in definitive form ("**Definitive Notes**") if Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of public holidays) or announces an intention permanently to cease business or does in fact do so.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the Final Terms), in an aggregate principal amount equal to the principal amount of Notes represented by the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been duly delivered by 6.00 p.m. (London time) on the thirtieth day after the bearer has requested exchange of the Permanent Global Note for Definitive Notes; or
- (b) the Permanent Global Note was originally issued in exchange for part only of a Temporary Global Note representing the Notes and such Temporary Global Note becomes void in accordance with its terms; or
- (c) the Permanent Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Permanent Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer in accordance with the terms of the Permanent Global Note on the due date for payment,

then the Permanent Global Note (including the obligation to deliver Definitive Notes) will become void at 6.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 6.00 p.m. (London time) on the date on which such Temporary Global Note becomes void (in the case of (b) above) or at 6.00 p.m. (London time) on such due date ((c) above) and the bearer of the Permanent Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Permanent Global Note or others may have under the Deed of Covenant).

#### ***Permanent Global Note exchangeable for Definitive Notes***

If the relevant Final Terms specifies the form of Notes as being "Permanent Global Note exchangeable for Definitive Notes", then the Notes will initially be in the form of a Permanent Global Note which will be exchangeable in whole, but not in part, for Definitive Notes if Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of public holidays) or announces an intention permanently to cease business or does in fact do so.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the Final Terms), in an aggregate principal amount equal to the principal amount of Notes represented by the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been duly delivered by 6.00 p.m. (London time) on the thirtieth day after the bearer has requested exchange of the Permanent Global Note for Definitive Notes; or
- (b) the Permanent Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Permanent Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer in accordance with the terms of the Permanent Global Note on the due date for payment,

then the Permanent Global Note (including the obligation to deliver Definitive Notes) will become void at 6.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 6.00 p.m. (London time) on such due date ((b) above) and the bearer of the Permanent Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Permanent Global Note or others may have under the Deed of Covenant).

#### ***Rights under Deed of Covenant***

Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Temporary Global Note or a Permanent Global Note which becomes void will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Temporary Global Note or Permanent Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

#### ***Terms and Conditions applicable to the Notes***

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the terms and conditions set out under "*Terms and Conditions of the Notes*" below and the provisions of the relevant Final Terms which complete those terms and conditions.

The terms and conditions applicable to any Note in global form will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "*Summary of Provisions Relating to the Notes while in Global Form*" below.

In relation to any issue of Notes which are a "Global Note exchangeable to Definitive Notes" in circumstances other than "in the limited circumstances specified in the Global Note, such notes may only be issued in principal amounts of at least the Specified Denomination (or if more than one Specified Denomination, the lowest Specified Denomination).

#### ***Legend concerning United States persons***

In the case of any Tranche of Bearer Notes having a maturity of more than 365 days, the Notes in global form, the Notes in definitive form and any Coupons and Talons appertaining thereto will bear a legend to the following effect:

"Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code."

#### ***Form of Registered Notes***

Notes of each Tranche of each Series to be issued in registered form ("**Registered Notes**") will be in the form of either individual Note Certificates in registered form ("**Individual Note Certificates**") or a global

Note in registered form (a "**Global Registered Note**"), in each case as specified in the relevant Final Terms.

In a press release dated 22 October 2008, "*Evolution of the custody arrangement for international debt securities and their eligibility in Eurosystem credit operations*", the ECB announced that it has assessed the new holding structure and custody arrangements for registered notes which the ICSDs had designed in cooperation with market participants and that Notes to be held under the new structure (the "**New Safekeeping Structure**" or "**NSS**") would be in compliance with the "*Standards for the use of EU securities settlement systems in ESCB credit operations*" of the central banking system for the euro (the "**Eurosystem**"), subject to the conclusion of the necessary legal and contractual arrangements. The press release also stated that the new arrangements for Notes to be held in NSS form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2010 and that registered debt securities in global registered form held issued through Euroclear and Clearstream, Luxembourg after 30 September 2010 will only be eligible as collateral in Eurosystem operations if the New Safekeeping Structure is used.

Each Global Registered Note will either be: (a) in the case of a Note which is not to be held under the New Safekeeping Structure, registered in the name of a common depository (or its nominee) for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and the relevant Global Registered Note will be deposited on or about the issue date with the common depository and will be exchangeable in accordance with its terms; or (b) in the case of a Note to be held under the New Safekeeping Structure, be registered in the name of a common safekeeper (or its nominee) for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and the relevant Global Registered Note will be deposited on or about the issue date with the common safekeeper for Euroclear and/or Clearstream, Luxembourg and will be exchangeable for Individual Note Certificates in accordance with its terms.

If the relevant Final Terms specifies the form of Notes as being "Individual Note Certificates", then the Notes will at all times be in the form of Individual Note Certificates issued to each Noteholder in respect of their respective holdings.

If the relevant Final Terms specifies the form of Notes as being "Global Registered Note exchangeable for Individual Note Certificates", then the Notes will initially be in the form of a Global Registered Note which will be exchangeable in whole, but not in part, for Individual Note Certificates if Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of public holidays) or announces an intention permanently to cease business or does in fact do so.

Whenever the Global Registered Note is to be exchanged for Individual Note Certificates, the Issuer shall procure that Individual Note Certificates will be issued in an aggregate principal amount equal to the principal amount of the Global Registered Note within five business days of the delivery, by or on behalf of the registered holder of the Global Registered Note to the Registrar of such information as is required to complete and deliver such Individual Note Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Note Certificates are to be registered and the principal amount of each such person's holding) against the surrender of the Global Registered Note at the specified office of the Registrar.

Such exchange will be effected in accordance with the provisions of the Fiscal Agency Agreement and the regulations concerning the transfer and registration of Notes scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

If:

- (a) Individual Note Certificates have not been delivered by 6.00 p.m. (London time) on the thirtieth day after they are due to be issued and delivered in accordance with the terms of the Global Registered Note; or
- (b) any of the Notes represented by a Global Registered Note (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the holder of the

Global Registered Note in accordance with the terms of the Global Registered Note on the due date for payment,

then, at 6.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 6.00 p.m. (London time) on such due date (in the case of (b) above) each person shown in the records of Euroclear and/or Clearstream, Luxembourg (or any other relevant clearing system) as being entitled to interest in the Notes (each an "**Accountholder**") shall acquire under the Deed of Covenant rights of enforcement against the relevant Issuer ("**Direct Rights**") to compel the relevant Issuer to perform its obligations to the Holder of the Global Registered Note in respect of the Notes represented by the Global Registered Note, including the obligation of the relevant Issuer to make all payments when due at any time in respect of such Notes in accordance with the Terms and Conditions as if such Notes had (where required by the Terms and Conditions) been duly presented and surrendered on the due date in accordance with the Terms and Conditions.

The Direct Rights shall be without prejudice to the rights which the Holder of the Global Registered Note may have under the Global Registered Note or otherwise. Payment to the Holder of the Global Registered Note in respect of any Notes represented by the Global Registered Note shall constitute a discharge of the relevant Issuer's obligations under the Notes and the Deed of Covenant to the extent of any such payment and nothing in the Deed of Covenant shall oblige the relevant Issuer to make any payment under the Notes to or to the order of any person other than the Holder of the Global Registered Note.

As a condition of any exercise of Direct Rights by an Accountholder, such Accountholder shall, as soon as practicable, give notice of such exercise to the Holders of the Notes of the same Series in the manner provided for in the Terms and Conditions or the Global Registered Note for notices to be given by the Issuer to Noteholders.

#### ***Terms and Conditions applicable to the Notes***

The terms and conditions applicable to any Individual Note Certificate will be endorsed on that Individual Note Certificate and will consist of the terms and conditions set out under "Terms and Conditions of the Notes" below, the terms and conditions set out under "*Specific Terms and Conditions*" below (as applicable) and the provisions of the relevant Final Terms which complete those terms and conditions.

The terms and conditions applicable to any Global Registered Note will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "*Summary of Provisions Relating to the Notes while in Global Form*" below.

#### **Form of VP Notes**

Each Tranche of VP Notes will be issued in uncertificated and dematerialised book entry form in accordance with the Danish Securities Trading etc. Act (*Lov om værdipapirhandel m.v.*), as amended from time to time (*Værdipapirhandelsloven*) (the "**Danish Securities Act**") and the Danish Executive Order on Book Entry, etc. of dematerialised Securities in a Central Securities Depository (*Bekendtgørelse om registrering m.v. af fondsaktiver i en værdipapircentral*) as amended from time to time. No global or definitive Notes will be issued in respect thereof. The holder of a VP Note will be the person evidenced as such by the register for such Note maintained by VP Securities A/S. Where a nominee in accordance with the Danish Securities Act is so evidenced it shall be treated as the holder of the relevant VP Note.

Pursuant to the issuance of VP Notes, the Issuer will certify that Nordea Bank Danmark A/S is, on the date of issue of a Tranche of VP Notes, entered in the VP as the account holding institute (*kontoførende institut*) for the duly registered owners of the Notes of such Tranche. Title thereto will pass on due registration in the Danish Note Register to be maintained by the VP Issuing Agent. Title to the VP Notes will pass by transfer between accountholders of the VP, perfected in accordance with the legislation (including the Danish Securities Act), rules and regulations applicable to and/or issued by the VP that are in force and effect from time to time. If the Notes of such Tranche cease to be registered in the VP, Nordea Bank Danmark A/S as account holding institute for the duly registered owners shall supply the VP Issuing Agent with all necessary information with regard to such duly registered owners and the VP Issuing Agent shall enter such information into the Danish Note Register. The relationship between Nordea Bank Danmark A/S as the account holding institute and the VP will be governed by the provisions of Danish Executive Order on Book Entry, etc. of dematerialised Securities in a Central Securities Depository (*Bekendtgørelse om registrering m.v. af fondsaktiver i en værdipapircentral*) as amended from time to time. A VP Note may only be controlled by an account holding institute acting in such capacity on behalf of holders for the time being registered with such account holding institute.

Issues of VP Notes will be issued with the benefit of the Fiscal Agency Agreement. On the issue of VP Notes, the Issuer will send a copy of the applicable Final Terms to the Paying Agent, with a copy sent to the VP Issuing Agent. On delivery of the applicable Final Terms by the VP Issuing Agent to the VP and notification to the VP of the subscribers and their VP account details by the relevant Dealer, the VP Issuing Agent acting on behalf of the Issuer will credit each subscribing account holder with the VP with a nominal amount of VP Notes equal to the nominal amount thereof for which it has subscribed and paid.

Settlement of sale and purchase transactions in respect of the VP Notes in the VP will take place in accordance with market practice at the time of the transaction. Transfers of interests in the relevant VP Notes will take place in accordance with the rules and procedures for the time being of the VP.

The person evidenced (including any nominee) as a holder of the VP Notes shall be treated as the holder of such VP Notes for the purposes of payment of principal or interest on such VP Notes. The expressions **"Noteholders"** and **"holder of Notes"** and related expressions shall, in each case, be construed accordingly.

Each Tranche of VPS Notes will be issued in uncertificated and dematerialised book entry form cleared through the VPS. Legal title to the VPS Notes will be evidenced by book entries in the records of the VPS. Issues of VPS Notes will be issued with the benefit of the Fiscal Agency Agreement. On the issue of VPS Notes, the relevant Issuer will send a copy of the applicable Final Terms to the Paying Agent, with copies sent to the VPS Paying Agent and the Fiscal Agent. The VPS Paying Agent issue the total amount to the relevant Dealer and their VPS broker account. The nominal amount of VPS notes are distributed to each investor's VPS account by the relevant Dealer on Settlement date using the relevant trading system, for which it has subscribed and paid.

Settlement of sale and purchase transactions in respect of the VPS Notes in the VPS will take place in accordance with market practice at the time of the transaction. Transfers of interests in the relevant VPS Notes will take place in accordance with the rules and procedures for the time being of the VPS.

Title to the VPS Notes will pass by registration in the registers between the direct or indirect accountholders at the VPS in accordance with the rules and procedures of the VPS. The holder of a VPS Note will be the person evidenced as such by a book entry in the records of the VPS. The person evidenced (including any nominee) as a holder of the VPS Notes shall be treated as the holder of such VPS Notes for the purposes of payment of principal or interest on such VPS Notes. The expressions **"Noteholders"** and **"holder of Notes"** and related expressions shall, in each case, be construed accordingly.

### **Form of Finnish Notes**

Each Tranche of Finnish Notes will be issued in uncertificated and dematerialised book-entry form in accordance with the Finnish Act on the Book-Entry Securities System and Clearing Activity (Fin. *laki arvo-osuusjärjestelmästä ja selvitystoiminnasta* (749/2012)), as amended and with the Finnish Act on Book-Entry Accounts (Fin. *laki arvo-osuustileistä* (827/1991)), as amended. No global or definitive Notes will be issued in respect thereof. The holder of a Finnish Note will be the person evidenced as such by the register for such Note maintained by Euroclear Finland on behalf of the Issuer. Where a nominee in accordance with such legislation is so evidenced it shall be treated by the Issuer as the holder of the relevant Finnish Note.

Title to Finnish Notes will pass by transfer between accountholders of Euroclear Finland, perfected in accordance with the legislation, rules and regulations applicable to and/or issued by Euroclear Finland that are in force and effect from time to time. Issues of Finnish Notes will be issued with the benefit of the Fiscal Agency Agreement. On the issue of Finnish Notes, the Issuer will send a copy of the applicable Final Terms to the Paying Agent, with copies sent to the Fiscal Agent and Finnish Issuing Agent.

Settlement of sale and purchase transactions in respect of the Finnish Notes in Euroclear Finland will take place in accordance with market practice at the time of the transaction. Transfers of interests in the relevant Finnish Notes will take place in accordance with the rules and procedures for the time being of Euroclear Finland.

The person evidenced (including any nominee) as a holder of the Finnish Notes shall be treated as the holder of such Finnish Notes for the purposes of payment of principal or interest on such Finnish Notes. The expressions **"Noteholders"** and **"holder of Notes"** and related expressions shall, in each case, be construed accordingly.

## Form of Swedish Notes

Each Tranche of Swedish Notes will be issued in uncertificated and dematerialised book entry form in accordance with the Swedish Financial Instruments Accounts Act (*Sw. lag (1998:1479) om kontoföring av finansiella instrument*) as amended (the "**SFIA Act**"). No global or definitive Notes will be issued in respect thereof. The holder of a Swedish Note will be the person evidenced as such by the register for such Note maintained by Euroclear Sweden on behalf of the relevant Issuer. Where a nominee (*Sw. förvaltare*) in accordance with the SFIA Act is so evidenced it shall be treated by the relevant Issuer as the holder of the relevant Swedish Note.

Title to the Swedish Notes will pass by way of registration in the Euroclear Sweden Register, perfected in accordance with the legislation (including the SFIA Act), rules and regulations applicable to and/or issued by Euroclear Sweden that are in force and effect from time to time. Issuances of Swedish Notes under the Programme will be issued with the benefit of the Fiscal Agency Agreement. On the issue of Swedish Notes, the relevant Issuer will send a copy of the applicable Final Terms to the Paying Agent, with copies sent to the Swedish Issuing Agent and the Fiscal Agent.

Settlement of sale and purchase transactions in respect of the Swedish Notes in Euroclear Sweden will take place in accordance with market practice at the time of the transaction. Transfers of interests in the relevant Swedish Notes will take place in accordance with the rules and procedures for the time being of Euroclear Sweden.

The person evidenced (including any nominee) as a holder of the Swedish Notes shall be treated as the holder of such Swedish Notes for the purposes of payment of principal or interest on such Swedish Notes. The expressions "**Noteholders**" and "**holder of Notes**" and related expressions shall, in each case, be construed accordingly.

## Form of Swiss Franc Notes

Each Tranche of Swiss Franc Notes will be denominated in Swiss francs, issued in bearer form and will be represented exclusively by a Permanent Global Note which shall be deposited by the Swiss Paying Agent with SIS, or such other depositary as may be approved by the SIX Regulatory Board of the SIX Swiss Exchange (SIS or any such intermediary an "**Intermediary**"). Once the Permanent Global Note is deposited with the Intermediary and entered into the accounts of one or more participants of the Intermediary, the Notes will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

Each Holder (as defined below) shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, **provided that** for so long as the Permanent Global Note remains deposited with the Intermediary the co-ownership interest shall be suspended and the Notes may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), i.e., by the entry of the transferred Notes in a securities account of the transferee.

The records of the Intermediary will determine the number of Swiss Franc Notes held through each participant in that Intermediary. In respect of the Notes held in the form of Intermediated Securities, the holders of the Notes (the "**Holders**") will be the persons holding the Notes in a securities account (*Effektenkonto*) which is in their own name, or in the case of intermediaries (*Verwahrungsstellen*), the intermediaries (*Verwahrungsstellen*) holding the Notes for their own account in a securities account (*Effektenkonto*) which is in their name.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note (*Globalurkunde*) into, or the delivery of, uncertificated securities (*Wertrechte*) or Definitive Notes (*Wertpapiere*).

No physical delivery of the Notes shall be made unless and until Definitive Notes (*Wertpapiere*) are printed. Definitive Notes may only be printed, in whole, but not in part, if the Swiss Paying Agent determines, in its sole discretion, that the printing of the Definitive Notes (*Wertpapiere*) is necessary or useful or if, under Swiss or any other applicable laws and regulations the enforcement of obligations under the Swiss Franc Notes can only be ensured by means of presentation of Definitive Notes (*Wertpapiere*). Should the Swiss Paying Agent so determine, it shall provide for the printing of definitive Notes (*Wertpapiere*) without cost to the Holders. Upon delivery of the Definitive Notes (*Wertpapiere*),

the Permanent Global Note will be cancelled and the Definitive Notes (*Wertpapiere*) shall be delivered to the Holders against cancellation of the relevant Swiss Franc Notes in the Holders' securities accounts.

## SUMMARY OF PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

### Clearing System Accountholders

In relation to any Tranche of Notes represented by a Global Note in bearer form, references in the Terms and Conditions of the Notes to "Noteholder" are references to the bearer of the relevant Global Note which, for so long as the Global Note is held by a depositary or a common depositary, in the case of a CGN, or a common safekeeper, in the case of an NGN for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that depositary or common depositary or, as the case may be, common safekeeper.

In relation to any Tranche of Notes represented by a Global Registered Note, references in the Terms and Conditions of the Notes to "Noteholder" are references to the person in whose name such Global Registered Note is for the time being registered in the Register which, for so long as the Global Registered Note is held by or on behalf of a depositary or a common depositary or a common safekeeper for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that depositary or common depositary or common safekeeper or a nominee for that depositary or common depositary or common safekeeper.

Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note or a Global Registered Note (each an "**Accountholder**") must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder's share of each payment made by the Issuer to the holder of such Global Note or Global Registered Note and in relation to all other rights arising under such Global Note or Global Registered Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note or Global Registered Note will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by a Global Note or Global Registered Note, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Notes and such obligations of the Issuer will be discharged by payment to the holder of such Global Note or Global Registered Note.

### Conditions applicable to Global Notes

Each Global Note and Global Registered Note will contain provisions which modify the Terms and Conditions of the Notes as they apply to the Global Note or Global Registered Note. The following is a summary of certain of those provisions:

*Payments:* All payments in respect of the Global Note or Global Registered Note which, according to the Terms and Conditions of the Notes, require presentation and/or surrender of a Note, Note Certificate or Coupon will be made against presentation and (in the case of payment of principal in full with all interest accrued thereon) surrender of the Global Note or Global Registered Note to or to the order of any Paying Agent and will be effective to satisfy and discharge the corresponding liabilities of the Issuer in respect of the Notes. On each occasion on which a payment of principal or interest is made in respect of the Global Note, the Issuer shall procure that in respect of a CGN the payment is noted in a schedule thereto and in respect of an NGN the payment is entered *pro rata* in the records of Euroclear and Clearstream, Luxembourg.

*Payment Business Day:* In the case of a Global Note, or a Global Registered Note, the Business Day for the purposes of payments shall be, if the currency of payment is euro, any day which is a TARGET Settlement Day and a day on which dealings in foreign currencies may be carried on in each (if any) Additional Financial Centre; or, if the currency of payment is not euro, any day which is a day on which dealings in foreign currencies may be carried on in the Principal Financial Centre of the currency of payment and in each (if any) Additional Financial Centre.

*Payment Record Date:* Each payment in respect of a Global Registered Note will be made to the person shown as the Holder in the Register at the close of business (in the relevant clearing system) on the Clearing System Business Day before the due date for such payment (the "**Record Date**") where "**Clearing System Business Day**" means a day on which each clearing system for which the Global Registered Note is being held is open for business.

*Exercise of put option:* In order to exercise the option contained in Condition 6(h) (*Optional Early Redemption (Put)*) the bearer of the Permanent Global Note or the holder of a Global Registered Note

must, within the period specified in the Conditions for the deposit of the relevant Note and put notice, give written notice of such exercise to the Fiscal Agent specifying the principal amount of Notes in respect of which such option is being exercised. Any such notice will be irrevocable and may not be withdrawn.

*Partial exercise of call option:* In connection with an exercise of the option contained in Condition 6(g) (*Optional Early Redemption (Call)*) in relation to some only of the Notes, the Permanent Global Note or Global Registered Note may be redeemed in part in the principal amount specified by the Issuer in accordance with the Conditions and the Notes to be redeemed will not be selected as provided in the Conditions but in accordance with the rules and procedures of Euroclear and Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in principal amount, at their discretion).

*Notices:* Notwithstanding Condition 16 (*Notices*), while all the Notes are represented by a Permanent Global Note (or by a Permanent Global Note and/or a Temporary Global Note) or a Global Registered Note and the Permanent Global Note is (or the Permanent Global Note and/or the Temporary Global Note are), or the Global Registered Note is, deposited with a depositary or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system or a common safekeeper, notices to Noteholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and, in any case, such notices shall be deemed to have been given to the Noteholders in accordance with Condition 16 (*Notices*) on the date of delivery to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

## CLEARING AND SETTLEMENT

*The information set out below is subject to changes in or reinterpretation of the rules, regulations and procedures of Euroclear, Clearstream, Luxembourg, VP, VPS, Euroclear Sweden, Euroclear Finland or SIS (the "**Clearing Systems**") from time to time. Investors wishing to use the facilities of any Clearing System must check the rules, regulations and procedures of the relevant Clearing System which are in effect at the relevant time.*

### General

The Notes will be cleared through Euroclear and/or Clearstream, Luxembourg or, in the case of VP Notes, the VP or, in the case of VPS Notes, the VPS or, in the case of Swedish Notes, Euroclear Sweden, Euroclear Finland or, in the case of Swiss Franc Notes, the SIS.

### Euroclear

The Euroclear System was created in 1968 to hold securities for participants in Euroclear ("**Euroclear Participants**") and to effect transactions between Euroclear Participants through simultaneous book entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfer of securities and cash. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear group reshaped its corporate structure in 2000 and 2001, transforming the Belgian company Euroclear Clearance System (Société Coopérative) into Euroclear Bank SA/NV, which now operates the Euroclear System. In 2005, a new Belgian holding company, Euroclear SA/NV, was created as the owner of all the shared technology and services supplied to each of the Euroclear CSDs and the ICSD. Euroclear SA/NV is owned by Euroclear plc, a company organised under the laws of England and Wales, which is owned by market participants using Euroclear services as members.

As an ICSD, Euroclear provides settlement and related securities services for cross-border transactions involving domestic and international bonds, equities, derivatives and investment funds, and offers clients a single access point to post-trade services in over 40 markets.

Distributions with respect to interests in Temporary Global Notes, Permanent Global Notes or Definitive Bearer Notes held through Euroclear will be credited to the Euroclear cash accounts of Euroclear Participants to the extent received by Euroclear's depository, in accordance with the Euroclear Terms and Conditions. Euroclear will take any other action permitted to be taken by a holder of any such Temporary Global Notes, Permanent Global Notes or Definitive Bearer Notes on behalf of a Euroclear Participant only in accordance with the Euroclear Terms and Conditions.

The address of Euroclear is Euroclear Bank SA/NV, 1 Boulevard du Roi Albert II, B-1210 Brussels.

### Clearstream, Luxembourg

Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**"), located at 42 Avenue JF Kennedy, L-1855 Luxembourg was incorporated in 1970 as a limited company under Luxembourg law. It is registered as a bank in Luxembourg, and as such is subject to regulation by the CSSF, which supervises Luxembourg banks.

Clearstream, Luxembourg holds securities for its customers and facilitates the clearance and settlement of securities transactions by book entry transfers between their accounts. Clearstream, Luxembourg provides various services, including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream, Luxembourg also deals with domestic securities markets in several countries through established depository and custodial relationships. Over 300,000 domestic and internationally traded bonds, equities and investment funds are currently deposited with Clearstream. Currently, Clearstream, Luxembourg has approximately 2,500 customers in over 110 countries. Indirect access to Clearstream, Luxembourg is available to other institutions which clear through or maintain a custodial relationship with an account holder of Clearstream, Luxembourg.

The address of Clearstream, Luxembourg is Clearstream Banking, 42 Avenue JF Kennedy, L-1855 Luxembourg.

## **VP**

VP is a Danish limited liability company and is subject to the Danish Securities Trading etc. Act (*Lov om værdipapirhandel m.v.*), as amended from time to time and the Danish Executive Order on Book Entry, etc. of dematerialised Securities in a Central Securities Depository (*Bekendtgørelse om registrering m.v. af fondsaktiver i en værdipapircentral*) as amended from time to time. VP is the central organisation for registering securities in Denmark and is a CSD and Clearing Centre.

Settlement of sale and purchase transactions in respect of Notes in the VP will take place on a registration-against-payment basis three Copenhagen business days after the date of the relevant transaction. Transfers of interests in a VP Note will take place in accordance with the VP Rules. Secondary market clearance and settlement through Euroclear is possible through depositary links established between the VP and Euroclear. Transfers of Notes held in the VP through Clearstream, Luxembourg are only possible by using an account holding institute linked to the VP.

The address of VP is VP Securities A/S, Weidekampsgade 14, P.O. Box 4040, DK-2300 Copenhagen S, Denmark.

## **VPS**

VPS is a Norwegian public limited company authorised to register rights to financial instruments subject to the legal effects laid down in the Securities Register Act. VPS clears and settles trades in the Norwegian securities market, and provides services relating to stock issues, distribution of dividends and other corporate actions for companies registered in VPS.

Settlement of sale and purchase transactions in respect of Notes in the VPS will take place three Oslo business days after the date of the relevant transaction. Notes in the VPS may be transferred between accountholders at the VPS in accordance with the procedures and regulations, for the time being, of the VPS. A transfer of Notes which are held in the VPS through Euroclear or Clearstream, Luxembourg is only possible by using an account operator or custodian linked to the VPS System.

The address of VPS is Norwegian Central Securities Depository, Verdipapirsentralen ASA, P.O. 4, 0051 Oslo, Norway.

## **Euroclear Sweden**

Euroclear Sweden is a Swedish public company which operates under the supervision of the Swedish Financial Supervisory Authority and is authorised as a central securities depository and clearinghouse.

Settlement of sale and purchase transactions in respect of Notes in Euroclear Sweden will take place three Stockholm business days after the date of the relevant transaction. Notes in Euroclear Sweden may be transferred between accountholders at Euroclear Sweden in accordance with the procedures and regulations, for the time being, of Euroclear Sweden. A transfer of Notes which are held in Euroclear Sweden through Euroclear or Clearstream, Luxembourg is only possible by using an account operator linked to Euroclear Sweden.

The address of Euroclear Sweden AB is Swedish Central Securities Depository, Euroclear Sweden, Box 7822, SE 103 97 Stockholm, Sweden.

## **Euroclear Finland**

Euroclear Finland is a Finnish limited company which operates under the supervision of the Finnish Financial Supervisory Authority and is authorised as a central securities depository and clearinghouse.

Settlement of sale and purchase transactions in respect of Notes in Euroclear Finland will take place three Helsinki business days after the date of the relevant transaction. Notes in Euroclear Finland may be transferred between accountholders at Euroclear Finland in accordance with the procedures and regulations, for the time being, of Euroclear Finland. A transfer of Notes which are held in Euroclear Finland through Euroclear or Clearstream, Luxembourg is only possible by using an account operator linked to Euroclear Finland.

The address of Euroclear Finland Ltd is Euroclear Finland Ltd, PB 1110, 00101 Helsinki, Finland.

## **SIS**

SIS is a wholly owned subsidiary of SIX Group Ltd. has a bank licences and is supervised by the Swiss Financial Market Supervisory Authority FINMA.

SIS acts as the central securities depository and settlement institution for the following Swiss securities: equities, government and private sector bonds, money market instruments, exchange traded funds, conventional investment funds, structured products, warrants and other derivatives. Apart from providing custody and settlement for Swiss securities, SIS acts as global custodian and offers its participants access to custody and settlement in foreign financial markets. SIS offers direct links to other international central securities depositories and central securities depositories including Euroclear and Clearstream, Luxembourg.

The address of SIS is SIX SIS AG, Baslerstrasse 100, CH-4600 Olten, Switzerland.

## NOTES – TERMS AND CONDITIONS AND STRUCTURE

The Issuers have established the Programme for the purpose of issuing Notes on the international capital markets with maturities ranging from 30 days up to perpetual maturity. The aggregate nominal amount of Notes outstanding from time to time will not exceed €10,000,000,000.

### 1. **What is a Note?**

#### *Freely transferable debt instrument*

Notes are freely transferable debt securities, often referred to as bonds. A Note manifests a debt owed by the relevant Issuer to the investor and the investor is normally entitled to a cash payment from the relevant Issuer upon maturity (and sometimes also interest payments during the term). Therefore, Notes differ from convertible debt instruments as investors in such instruments may under certain circumstances receive a physical delivery of shares instead of a payment on maturity. Once the Note has been issued and the investor in the Note has paid the issue price to the relevant Issuer, the investor is generally entitled to receive payments from the relevant Issuer and will not owe any further obligation to make payments to the relevant Issuer.

#### *Combination of instruments*

Each of the Issuers may issue structured Notes pursuant to the Programme. Structured Notes have developed in recent years and did not exist in the early bond markets. In terms of structure and economics, a structured Note often operates as a combination of different types of more traditional instruments, for example, a bond combined with a share, a fund unit or a derivative instrument. The product may be composed of and resemble several instruments. However, all structured Notes constitute a claim of the investor towards the relevant Issuer pursuant to which the investor, subject to the terms of the Notes, is entitled to receive a cash payment from the relevant Issuer. In this context it is important to note that, if the Note is composed of a derivative element, the so called counterparty risk in the derivative instrument remains with the relevant Issuer. However the market risk is transferred to the investor.

#### *Principal protected or not*

The Terms and Conditions of Notes issued provide that each Issuer may issue "**non-principal protected**" Notes, meaning Notes under which the investor stands the risk of losing all or part of his investment in the event of a negative performance in the Reference Asset. A Note where the terms of which are such that the investor is always entitled to receive a nominal amount (or a certain minimum amount) are normally referred to as "*principal protected*" Notes. It shall be noted however that the investor also risks losing his investment where he invests in a principal protected Note, since repayment of the investment is dependent on the relevant Issuer having sufficient assets to perform its payment obligations. The principal protection, therefore, only means that the investor is entitled to receive repayment of a certain minimum amount on the redemption date irrespective of the performance in the relevant Reference Asset of the Note. Further information with respect to different types of Reference Assets for structured Notes is provided under the heading "*Different types of Notes*" below.

#### *Listing*

Notes are often listed for trading on any of the stock exchanges or other marketplace as further specified in this Base Prospectus; however, certain Notes may be tailored specifically to suit a particular investor or group of investors that seek exposure to a specific risk or market. Such Notes will normally not be intended for public trading or frequent transfer, although the Notes as such will be a freely transferable instrument.

#### *Status*

Notes issued under the Programme constitute direct and unsecured obligations of the respective relevant Issuer and will rank *pari passu* with the relevant Issuer's unsecured and unsubordinated obligations.

## 2. **Terms and Conditions – Final Terms**

### *Terms and Conditions*

The Programme is one of the Issuers' platforms for borrowings in the debt capital markets and is primarily intended to be used for issuance in certain member states of the European Economic Area. The Programme constitutes an efficient platform upon which the Issuers can relatively frequently and quickly raise capital in the aforementioned markets. One of the most important features of the Programme is the Terms and Conditions, set out in their entirety in this Base Prospectus, as these apply to all Notes issued pursuant to the Programme. The Terms and Conditions are standardised and general in nature and are intended to cover a large number of different types of Notes. The Terms and Conditions are therefore relatively extensive and complicated.

### *Final Terms*

Final Terms are prepared for each series of Notes. A form of Final Terms is set out in this Base Prospectus. The Final Terms specifies the terms and conditions for each series of Notes and constitute the full terms and conditions for the relevant series of Notes when applied together with the Terms and Conditions. Thus, the Final Terms must always be read together with the Terms and Conditions in order to obtain a complete understanding of the terms and conditions applicable to a tranche of Notes. The Final Terms will specify, among other things, the nominal amount, denomination, type of note and method of calculation of yield or interest under the specific series of Notes. The Final Terms will also contain the relevant Issue Price, which may be an indicative value, or a range of values, pending feedback from the offering process. The Issuer will determine the final Issue Price of the Notes in its sole discretion, taking into account investor demand during the offering process. If the Issue Price is determined after publication of the final terms, the Issue Price will be announced by the relevant Issuer through the Company Announcements Office of the Irish Stock Exchange.

Final Terms for Notes which are offered to the public or otherwise admitted to trading on an exchange are filed with the Central Bank of Ireland. Final Terms that are filed accordingly will be published and made available on the Banks' website ([www.nordea.com](http://www.nordea.com)) and may also be obtained free of charge from any of the relevant Issuer's branch offices.

## 3. **Different types of Notes**

As described above, a Note represents a right to demand and receive a certain performance from the relevant Issuer, in the form of a cash payment. A Note is usually interest bearing or carries another form of yield. Notes where the redemption amount or the yield is linked to and determined on the basis of a Reference Asset are often referred to as structured Notes (see further below). The interest or other yield under a structured Note is often variable and not guaranteed and, where also the redemption amount is linked to the Reference Asset, the investor may under certain structured Notes bear the risk of losing a significant part of the investment (or the entire investment) in certain cases of negative performance in the Reference Asset.

This section contains a presentation of the main types of Notes that the Issuers intend to issue pursuant to the Programme and the most common types of Reference Assets. The main types of Notes, coupon and zero coupon Notes, are presented immediately below.

### *Reference Assets and Baskets*

The Redemption Amount and/or interest payments in relation to the Notes may be determined by reference to the performance of one or more Reference Assets. Reference Assets may include shares, commodities, interest rates, exchange rates, fund units and/or the credit standing of one or more Reference Entities.

In a mixed portfolio Note, the yield and/or redemption amount is linked to the performance of a Basket of Reference Assets which may contain different types of asset. The assets in a Basket may be assigned different weights and will thereby influence the yield and/or redemption amount according to their respective weight. Different asset types can form part of the same Basket and there may be several Baskets with different types of assets that are compared against each other.

### *Coupon and zero coupon Notes*

Coupon Notes pay interest and/or yield on a continuing basis during the term of the Note or, alternatively, on the conditions specified for the Note.

Zero coupon Notes are non interest bearing. These Notes are normally issued at a discount, i.e. the relevant Issuer receives an amount on the issue date which is lower than the nominal amount of the Note and pays the nominal amount on the redemption date or, alternatively, the relevant Issuer receives the nominal amount for the Note on issue and pays the nominal amount plus accrued interest on the redemption date.

Notes may be issued as coupon notes or as zero coupon Notes or as a combination of both. Structured Notes under which the redemption amount is linked to the performance of various types of Reference Assets may or may not provide for payment of interest or other yield on a continuing basis.

### *Amortising Notes*

The Issuers may issue amortising Notes, being Notes where the principal amount is repaid in instalments.

### *Interest bearing Notes*

Interest-bearing Notes typically accrue a fixed, floating or variable interest. A floating rate of interest is often composed of a variable interest base rate such as STIBOR, EURIBOR, LIBOR or such other relevant rate as may be specified in the Final Terms, plus or minus a fixed interest margin; instruments with floating interest rates are frequently referred to as *floating rate notes*, whereas under Notes with fixed interest, the rate of interest is fixed. Under a Note with inverse floating interest, there may be a fixed rate of interest less a rate of interest based on a reference rate such as STIBOR, EURIBOR, LIBOR or such other relevant rate as may be specified in the Final Terms. The interest may be adjustable and adjusted after each interest period. There are also Notes where the interest structure is changed during the term to maturity. For example, a fixed rate may be paid initially but the interest may subsequently change to a floating rate; or the interest may, for example, be increased after a certain period of time, referred to as interest *step-up*.

Structured Notes may be interest and/or inflation based in the sense that they are structured with a yield based on one or more rates of interest and/or inflation indices. The structure of such Notes may include multipliers, caps/floors, digital caps/floors, swaptions and/or combinations thereof. The structured yield can depend on whether one or more specified interest rates or inflation indices move within certain predetermined ranges. The structured yield can also depend on the yield in previous periods and the structured Notes can contain interest or inflation based triggers that can alter the structure of the yield or force early redemption.

### *Inflation-linked Notes*

Inflation protected Notes are notes with or without an inflation-protected rate of interest and with an inflation-protected redemption amount. The rate of interest may be fixed or floating. If Notes are not interest-bearing, an inflation-protected redemption amount is paid only upon maturity. The calculation of inflation protection is based on a consumer price index or similar measure. Such index is comprised of statistics that do not necessarily reflect the actual inflation exposure of the individual investor. The inflation-protected interest amount as well as the inflation-protected principal amount is notified to the investors upon determination of those amounts by the relevant Issuer in accordance with the Terms and Conditions and the relevant Final Terms.

### *Equity-linked Notes*

Under an equity-linked Note, the yield and/or redemption amount depend on the performance of one or more equities (including units in exchange-traded funds), equity indices or baskets of equities, and/or equity indices or equity markets. The risk exposure under an equity-linked Note may be directed at certain markets or certain industries. There may be Notes where the underlying index or equity/equities relate to companies with a certain credit rating, as well as Notes where the Reference Assets are shares in venture capital companies. The risk focus of each specific series of equity-linked Notes will be clearly stated in the relevant Final Terms.

An equity-linked Note may (but does not always) provide for a minimum predetermined yield, normally in the form of interest, in addition to the equity-linked yield. The relevant Issuer may structure an equity-linked Note so that the yield increases or decreases depending on the movements in the relevant equity instrument or index during the term.

Equity-linked Notes may have a variable degree of exposure to the Reference Asset. The Notes may be issued at a premium which is lost, or the right to repayment of an invested amount may be lost in whole or in part, if the Reference Asset performs disadvantageously for the investor or in relation to a relevant comparison figure (and vice versa if the performance of the Reference Asset is positive). Alternatively, there may be a more limited link to the value of the Reference Asset, and thus a lower exposure to the relevant equity. For example, there are Notes which pay a predetermined minimum yield despite that the Reference Asset performs negatively. However, such Notes generally provide a more limited yield in a scenario where the Reference Asset performs well, as compared to Notes without minimum yield.

#### *Reverse convertible Notes*

In a reverse convertible Note, the Reference Asset is normally composed of a share index or a basket of shares indices, or exchange-tracked fund units. Repayment of the principal amount will depend on the performance of the underlying Reference Assets, and the Redemption Amount may be less than the principal amount of the Notes in certain circumstances. A reverse convertible Note may include a fixed yield element.

#### *Credit-linked Notes*

Credit linked Notes are notes where the right to receive interest and/or the redemption amount is linked to certain reference credits or credit indices. The interest and/or redemption amount depend on whether a so-called "**credit event**" occurs during to term of the note (as further described below). The reference credits may be credits or baskets of credits related to specified companies or sovereigns such as governments, municipalities county councils, or credit indices. The reference credits may consist of existing, future, conditional or unconditional payment obligations under debt instruments, for example, loan- or credit agreements, bonds or commercial paper (irrespective of term to maturity), financing commitments, payment obligations in respect of deposits, letters of credit, guarantee or surety commitments or other undertakings in respect of the payment obligations of a third party.

The interest and/or the redemption amount under a credit-linked Note may thus depend on the credit risk associated with one or more companies, i.e. the companies which are obliged to perform under the relevant reference credits (the so-called reference entities). Credit-linked Notes are often issued and priced on the basis of the credit ratings of the reference credits or reference entities. The rate of interest on the Notes is higher the lower the credit rating of the Reference Asset/entity. The higher interest on the Notes is intended to compensate for the higher risk associated with a low rating of the Reference Asset/entity, i.e. an increased likelihood that a credit event may occur. A credit event normally consists of payment default, bankruptcy or other insolvency related proceeding or other event that would typically affect the likelihood of a creditor to receive repayment in full pursuant to the terms and conditions of the reference credit. A credit event may result in an investor losing the right to receive interest and/or the redemption amount (in full or in part) on the Notes. Some credit-linked Notes are structured so that the interest and/or redemption amount is determined only on the basis of the first credit event, while other structures may take several credit events into account and gradually reduce the yield/redemption amount. The relevant reference credits as well as the reference entities and the credit risk associated with those will be clearly stated in the relevant Final Terms of each series of credit-linked Notes.

Credit-linked Notes may be issued in several tranches, all of which relate to the same Reference Assets. The tranches would then generally have different ranking and risk so that credit events are allocated towards the tranches in their order of seniority (i.e. the lowest ranking would bear the first losses etc).

#### *Fund-linked Notes*

Under a fund-linked Note, the yield and/or the redemption amount depends on the performance of one or more funds, including hedge funds, so-called fund of funds (a fund of funds is a fund which invests in one or more funds), fund indices or baskets of funds. The funds may be Swedish or foreign and managed by well-known or less well known fund managers. Some of the funds are so called UCITS funds whereas other funds have not been approved by (and thus not under supervision of) any relevant supervisory authority. The funds may be organised as mutual funds or in corporate form. Examples of funds that are often organised in corporate form are the private equity funds, hedge funds and/or fund of funds. Not all

funds are subject to investor protection rules similar to those that apply to mutual funds under Swedish law. Funds and fund of funds have different types of investment strategies and different risk levels and a fund index may relate to a number of different funds. The investment scope and strategy of the individual funds and other material information will be clearly stated in the relevant Final Terms. Further, it is important to note that the fund rules of many funds or funds of funds provide various restrictions with respect to redemption of fund units, for example, it may be possible to redeem units only on a limited number of times during a year or in a minimum or maximum amount and there may be circumstances under which redemption is closed entirely. Further it is important to note that in certain funds or funds of funds the liquidity might be limited or non-existent. Such liquidity restrictions are generally mirrored in the fund-linked Notes and are therefore relevant to the investor in the Notes as they may result in delayed (or cancelled) redemption of the Notes.

#### *Commodity-linked Notes*

In a commodity-linked Note, the yield or redemption amount depends on the value of one or more commodities, a commodities index or a basket of commodities and/or commodities indices, or a relevant comparison figure for the Reference Asset. Commodities that may be used as Reference Assets include, but are not limited to, electricity, oil, gold, emission rights, aluminium, copper and zinc.

#### *Currency-linked Notes*

In a currency-linked Note, the yield or redemption amount depends on the value of one or more currencies or baskets thereof, or a relevant comparison figure for the underlying currency and/or rates of exchange of one or more currencies in relation to each other. The value of one or more currencies or relevant exchange rates may be determined by reference to spot or forward rates and may be generated from official sources such as the European Central Bank's fixing or similar, but also by reference to private trades on the currency market or on the basis of quotes from a number of independent banks.

#### *Index-linked Notes*

In an index-linked Note, the yield and/or redemption amount depends on the performance of one or more indices or baskets of indices. The risk exposure under an index-linked Note may be directed at certain markets, industries or certain types of assets. Examples of indices which may be relevant include property indices, commodities indices and indices for other types of assets. The focus for any individual Note will be clearly stated in the relevant Final Terms.

### **4. The performance structure – a description**

The performance structures described below determine the manner in which the performance of the relevant Reference Assets (as described for each type of Note described above) affects the yield and/or the redemption amount under the Notes. The performance structures set forth below may be applied to several of the aforementioned types of Notes, so called "**structured Notes**". Structured Notes may, in many cases, correspond in terms of risk and functionality to combinations of several types of traditional instruments, for example, a bond combined with a share, a fund unit and/or a derivative instrument. The value of a structured Note will be affected by the value of the Reference Asset or relevant comparison figure. The value of the Reference Asset is sometimes determined at a number of occasions during the term of the Notes and sometime only at maturity. The performance may be positive or negative for the investor. Thus, the investor's right to yield and, where applicable, payment of the redemption amount is a function of the performance of the Reference Asset and the applicable performance structure. Investors will be notified of the relevant performance as well as yield and redemption amount in accordance with the Terms and Conditions and Final Terms of the relevant Notes.

The performance structures described below represent a selection of the most common structures. The structures may be combined, varied and used in their entirety or only in part.

#### *"Basket Long" and "Basket Short" structures*

The basic method for calculation of performance under a structured Note compares the change between the initial price and the final price of one or more Reference Assets. In order to mitigate the impact of temporary value fluctuations in the Reference Asset, the performance of the Reference Asset is often determined on the basis of an average value during the term of the Notes (i.e. there are several valuation points during the term of the Notes). In some Notes however, the value is determined on the basis of a single valuation. In a "Basket Long" structure, the positive performance of the Reference Assets with the

Basket will have a positive effect on the return on the Notes, whereas in a "Basket Short" structure, the positive performance of the Reference Assets will have a negative effect on the return on the Notes.

#### *"Max" structure*

The "max" structure is based on a simple "Basket Long" or "Basket Short" structure but contains a predetermined maximum yield, i.e. a cap on the yield. The investor receives either the maximum yield or a yield which reflects the change in value of the Reference Asset, whichever is lower. If the change in value of the Reference Asset would result in a yield which exceeds the predetermined maximum yield, the investor receives an amount corresponding to the maximum yield.

#### *"Barrier" structures*

This structure provides for a deemed fixed return on the Basket which replaces the actual final return if the Basket Return reaches and/or exceeds a price cap (a "Barrier Outperformance" Structure) or is less than a price floor (a "Barrier Underperformance" structure). The structure may also be limited to one or more best or worst performing Reference Assets, rather than the performance of the Basket as a whole.

#### *"Quanto Basket" structures*

In relation to a Quanto Basket, the Redemption Amount is based on the performance of a Basket of underlying Reference Assets. The positive performance of the Basket may have a positive impact on the performance of the Notes (the Basket Long structure) or a negative impact (a "short" structure). The Basket may also have pre-determined maximum or minimum performance levels.

If the performance of the Basket is negative, the Basket Return payout is zero. In a Quanto Basket, one or more of the Reference Assets is denominated in a currency which is different to that of the Notes, and the relevant currency exchange rate remains constant during the lifetime of the Notes. Depending on the performance of the relevant exchange rate, this may have a positive or negative impact on the return received by Noteholders.

#### *"Flexo Basket" structures*

The product is the same as the Quanto Basket, with the additional feature that the overall Basket Return is multiplied by an FX factor. The return on the Notes will therefore be linked in part to the performance of the relevant currency exchange rate specified in the Final Terms.

#### *Autocallable Structures*

The return on the Notes depends on (i) the Basket Return, (ii) different barrier levels and (iii) the Coupon (if any), as defined below.

If the Basket Return on a Valuation Date is at or above a specified Barrier Level, then the Notes will be called for early redemption on the Early Redemption Date immediately following that Valuation Date and the whole Principal Amount of the Notes will be repaid together with the Coupon (if any).

The Notes may pay a Coupon, as described below, if early redemption has not yet occurred and if the Basket Return on each specified Valuation Date is at or above a specified Coupon Barrier Level. The Coupon will then be paid on the Interest Payment Date immediately following that Valuation Date(s).

The Basket Return is observed by the Issuer on each specified Valuation Date (which may be one or more dates, depending on the specific terms of the Notes):

- (i) if the Basket Return is equal to or below the final Barrier Level on the final Valuation Date, the relevant Redemption Amount will be equal to the sum of the Principal Amount of the Notes and an additional return linked to the Basket Return, which can be zero;
- (ii) if the Basket Return is above the Barrier Level on the final Valuation Date, the relevant Redemption Amount will be equal to the sum of the Principal Amount of the Notes and an additional return which will be the lower of a Minimum Basket Return or an amount linked to the Basket Return, which can be zero; and
- (iii) if the value of the Basket is above the Coupon Barrier Level, a Coupon may also be payable.

Different fixing methods and different weighting methods (e.g. worst of, best of, momentum etc.) may be used for the purposes of determining whether any Barrier Level or Coupon Barrier has been breached during the term of the Notes.

The Notes may also pay Interest (known as the "**Coupon**"). The Coupon may be structured in one of the following ways:

If the Coupon type is "Flat", the Coupon will be the Principal Amount of the Notes multiplied by the relevant Coupon Rate.

If the Coupon type is "Memory", the Coupon will depend on the number of Coupons already paid in the lifetime of the Notes. The Coupon will be the Principal Amount of the Notes multiplied by a predefined Coupon Rate and multiplied by the number of immediately preceding Interest Payment Dates, (up to and including the current Interest Payment Date), for which a Coupon has not been paid.

If the Coupon type is "Plus Flat", the Coupon will be the Principal Amount of the Notes multiplied by the higher of a predefined Bonus Factor and the Coupon Rate.

If the Coupon type is "Plus Memory", the Coupon will be equal to the Principal Amount of the Notes multiplied by the higher of: a) the Coupon Rate and b) the Bonus Factor multiplied in each case by the number of immediately preceding Interest Payment Dates, (up to and including the current Interest Payment Date), for which a Coupon has not been paid.

#### *"Best of/Worst of Autocallable" structure*

This is a variation of the basic Autocallable structure, whereby the observations and Redemption Amounts are determined by reference to the best or worst performing Reference Asset, rather than the Basket as a whole.

#### *"Composite Basket" structures*

The product is the same as the Quanto Basket with the additional feature that each valuation point for each underlying Reference Asset is multiplied by an FX rate.

#### *"Replacement Basket" structures*

The Replacement Basket return is similar to a Quanto Basket, but the return generated by the best performing Reference Assets is replaced with a pre-determined figure. The performance of each Reference Asset is measured separately at the end of the Notes' term, and the performances are ranked based on the relative percentage return of each Reference Asset. The returns relating to a certain number of the best ranked Reference Assets are replaced by pre-determined percentage value for the purposes of determining the overall Basket Return.

#### *"Locally Capped Basket" structures*

The Locally Capped basket payout is similar to a Quanto Basket, but the return generated by each Reference Asset is subject to a pre-determined maximum percentage value.

#### *"Rainbow Basket" structures*

The Redemption Amount for the Rainbow Basket is similar to the Quanto Basket, but the difference is that the weightings of each Reference Asset will be set at maturity in a pre-determined manner. All Reference Asset Returns are measured separately at the maturity and ranked based on the relative performance. The weightings for each Reference Asset are then set based on this order in the manner specified in the Final Terms. Depending on the relationship between the relative ranking of each Reference Asset and the applicable weighting within the Basket, the Rainbow Basket structure may increase or decrease the relative contribution that either the best or worst performing Reference Assets will make to the overall Redemption Amount.

#### *"Booster" structures*

Booster structures can have a positive or negative return, based on the performance of the underlying Reference Asset(s). The return will be added to, or subtracted from, the Principal Amount of the Notes for the purposes of calculating the Redemption Amount payable at maturity. As a result, a Noteholder

may in certain circumstances receive less than the Principal Amount of the Notes upon their final redemption. Booster structures may also have different participation ratios depending on whether or not the performance of the Reference Assets is positive or negative, thereby increasing or decreasing the Noteholders' exposure to the performance of the relevant Reference Assets.

#### *Risk Barrier structures*

The risk barrier structures will deliver a positive or negative return depending on the performance of the Basket as compared to both the Initial Basket Level on the final Valuation Date and as compared to a pre-determined Barrier Level on certain other days during the lifetime of the Notes.

If the value of the Basket is below a pre-determined Barrier level on certain days during the lifetime of the Notes, and the value of the Basket is below the Initial Basket Level on the final Valuation Date, the payout at maturity will be calculated by adding the Principal Amount of the Notes to an additional return equal to the Principal Amount of the Notes multiplied by the Participation Ratio and the negative Basket Return. As a result, a Noteholder may receive less than the Principal Amount of the Notes upon their final redemption.

If the value of the Basket is above the pre-determined barrier level on certain days, and at expiry the value of the Basket is below the Strike Level, the payout at maturity will be the Principal Amount of the Notes.

If the value of the Basket at expiry is at or above the Strike Level, the payout at maturity will be calculated by adding the Principal Amount of the Notes to an additional return equal to the Principal Amount of the Notes multiplied by the Participation Ratio and the applicable Basket Return.

#### *Bonus Booster Structures*

The product is the same as the basic Booster structure described above, except that at maturity a pre-determined Bonus payout may apply. If the Basket Return is never below the Barrier Level on any Valuation Date, the Redemption Amount will be calculated by adding the Principal Amount of the Notes to an additional return which will be equal to the Principal Amount of the Notes multiplied by the Participation Ratio and the applicable Basket Return.

If the Basket Return is below the Barrier Level on any Valuation Date and below the Initial Basket Level on the final Valuation Date, the Redemption Amount will be the sum of the principal amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio 2 and the Basket Return (expressed as a negative number, which will result in a Redemption Amount of less than the Principal Amount of the Notes).

If the Basket Return is never below the Barrier Level on any Valuation Date, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount equal to the higher of:

- (A) the Coupon; and
- (B) the amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and by the Basket Return.

#### *Cliquet Structure*

The payout in the Cliquet structure is dependent on the accumulated sum of the relative (percentage) changes in the underlying Basket for a number of pre-determined Valuation Periods during the lifetime of the Notes. The Cliquet also has some specific features that can be used:

- The relative changes in the underlying Basket can also be locally capped and/or floored for each individual Valuation Period.
- The accumulated sum of the relative changes can also be subject to a global cap or floor.

The product may also have a lock-in feature. This means that if the cumulative return on any Valuation Date has reached a predefined Lock-in Level, the final payment will be at least that Lock-in Level. There can be many different Lock-in Levels, and there can be no assurance that any given Lock-in Level will be reached during the lifetime of the Notes.

### *Reverse Cliquet Structure*

A Reverse Cliquet structure, rather than accumulating returns, pays out a sum at maturity equivalent to a set percentage rate minus the accumulated sum of the relative changes in the underlying Basket for a number of pre-determined Valuation Periods during the lifetime of the Notes.

### *Replacement Cliquet Structure*

Similarly to a standard Cliquet, the return generated in a Replacement Cliquet structure is equal to the cumulative sum of the Basket's periodic performances. However, whereas a standard Cliquet structure often has local caps and floors for the periodic performance, the Replacement Cliquet instead replaces the returns of a certain number of the best performing Valuation Periods with a predefined constant.

### *Reverse Replacement Cliquet Structure*

The Reverse Replacement Cliquet Structure is a variation of the basic Replacement Cliquet Structure, but it replaces the returns of a certain number of the best performing Valuation Periods with a predefined constant.

### *Rainbow Replacement Cliquet Structure*

The Rainbow Replacement Cliquet Structure describes a Note where the weight of each Reference Asset is determined after the performance of each Reference Asset is known, following the principle that the best performing underlying is given the highest weight, and so forth. The performance of each individual Reference Asset is calculated on the same basis as the basic Cliquet structure, and represents the accumulated sum of the relative changes in the underlying Reference Asset for each Valuation Period during the lifetime of the Notes.

### *Reverse Convertible Structure*

Reverse convertibles are structured Notes offering interest payments which are not dependent on the performance of the underlying Basket. At maturity the proportion of the Principal Amount which is paid back will depend on the performance of the underlying Basket.

If the aggregate underlying performance of the Reference Assets within the Basket is positive then the Redemption Amount will be equal to the Principal Amount of the Notes.

If the aggregate underlying performance of the Reference Assets within the Basket is negative, then the Redemption Amount will be equal to the Principal Amount of the Notes, less an amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and the relevant Basket Return.

### *Reverse Convertible Risk Barrier Structure*

The structure is similar to the basic Reverse Convertible structure, except that the possible negative payout is determined by reference to a pre-determined Barrier Level on certain days during the lifetime of the Notes.

If on any applicable Valuation Date the aggregate underlying performance of the Reference Assets within the Basket is below a certain pre-determined Barrier Level on certain days during the lifetime of the Notes and is below the Strike Level on the final Valuation Date, the Principal Amount of the Notes will not be paid back in full. Instead, the Redemption Amount will be dependent on the performance of the Basket and will be equal to the Principal Amount of the Notes less an amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and the relevant Basket Return.

If on any Valuation Date the aggregate underlying performance of the Reference Assets within the Basket on certain days during the lifetime of the Notes is at or above the Strike Level on the final Valuation Date, the Principal Amount of the Notes will be paid back in full.

### *"Worst of" Reverse Convertible Structure*

The product is the same as the basic Reverse Convertible, except that the possible negative payout is determined by reference the worst performing Reference Asset. The performance of each Reference Asset is measured separately, and the payout on the Notes is based on the performance of the worst performing Reference Asset.

### *Series of Digitals*

The Series of Digitals pays a redemption amount that is proportionate to the number of Reference Assets within the Basket whose performance exceeds a pre-specified Barrier Level. Where a Reference Asset's performance does not exceed the Barrier Level, it does not contribute to the return an investor receives on the Notes.

### *Up and In Long Structure*

The Up and In Long is a barrier put option. The structure has an individual Reference Asset or a Basket of Reference Assets as underlying. At maturity, the Noteholder receives the Principal Amount of the Notes and an additional payout (subject to a pre-specified minimum amount), if the Basket has, on any Valuation Date during the lifetime of the Notes, performed at or above the predefined Barrier Level. If the Barrier Level is not reached on any Valuation Date, the additional amount will equal the Minimum Basket Return. The Barrier Level is always higher than the Basket Strike Level.

### *Up and Out Put Option Structure*

The Up and Out Put Option is a barrier put option. The structure has an individual Reference Asset or a Basket of Reference Assets as underlying. At maturity, the Noteholder receives the Principal Amount of the Notes and an additional payout (subject to a pre-specified minimum amount), if the Basket has not, on any Valuation Date during the lifetime of the Notes, performed at or above the predefined Barrier Level. If the Barrier Level is reached on any Valuation Date, the additional amount will equal a pre-specified rebate amount. The Barrier Level is always higher than the Basket Strike Level.

### *Equity Accumulating Asian Rainbow Option*

This structure is very similar to the Rainbow Basket structure, but in this case the weights of the underlying Reference Assets are set on the Issue Date and are afterwards recalculated based upon the performance of the individual Reference Assets in the Basket. On each subsequent Valuation Date, the weight for each Reference Asset is recalculated so that the best performing Reference Asset will receive the highest weighting for the next Valuation Period, the second best will receive the second highest weighting and so forth.

### *Down and Out Call Option Structure*

The Down and Out Call Option Structure is a barrier call option. The structure has an individual Reference Asset or a Basket of Reference Assets as underlying. At maturity, the Noteholder receives the Principal Amount of the Notes and an additional payout if no underlying has, on any Valuation Date during the lifetime of the Notes, fixed at or below a predefined Barrier Level. If the Barrier Level is breached on any Valuation Date, the additional payout equals zero.

### *Worst of Digital Memory Coupon Structure*

The Worst of Digital Memory Coupon structure is a memory coupon type of option with digital payout condition.

The amount of the accumulated coupon payments can never decrease, and so the structure can either pay out the total accrued amount after the final Valuation Date (Worst of Digital Coupon Memory Structure 1), or alternatively, the additional accrued coupon after each Valuation Date (Worst of Digital Coupon Memory Structure 2).

### *Worst of Call Option Structure*

The Worst of Call Option Structure gives the Noteholder an exposure to the worst performing Reference Asset in the Basket. The additional amount payable to the Noteholder will be the greater of zero, and the average performance of the worst performing Reference Asset for each individual Valuation Period.

### *Outperformance Option Structure*

The Outperformance Option offers the investor the possibility of a ranked return on a Basket of underlying Reference Assets. Whereas the additional amount payable in relation to a normal Basket structure is dependent on the absolute performance of the relevant Basket, the pay out of an

outperformance structure is dependent on the relative performance of two Baskets, not on the absolute performance of either Basket.

#### *Credit Linked Notes*

A credit-linked note ("CLN") is a bond where the Redemption Amount and, if relevant, Interest Payments depend on the occurrence of Credit Events in selected obligations of a number of Reference Entities. A Credit Event is a corporate event which typically makes the creditor of the Reference Entity worse off, e.g. bankruptcy, failure to pay or restructuring of the debt (e.g. a lowering of future coupon payments or an extension of maturity). In addition, the interest and redemption payments depend on ability of the Reference Entity to make payments of principal or interest on its outstanding debt obligations.

In case of a Credit Event affecting a Reference Entity, the nominal used for calculation of the Redemption Amount and, if relevant, any Interest Payments, may be reduced. The reduction of the nominal amount may be calculated using market recovery values or a predetermined fixed recovery value. If a fixed recovery value is used, the fixed recovery value may be zero.

The interest in relation to a CLN is typically paid over time, but may also be paid at maturity. The interest may or may not depend on the occurrence of Credit Events.

A distinction can be drawn between three types of CLN structures:

- (a) Non-tranched CLN,
- (b) Tranched CLN and
- (c) Nth-to-Default / Nth & Nth+1-to-Default CLN

For the tranched and non-tranched CLN, the Redemption Amount and, if relevant, Interest Payments, are based on the weighted losses in the same or different portfolios of Reference Entities as a result of the occurrence of one or more Credit Events.

For the Nth to default and Nth and Nth+1 to default CLNs, the Redemption Amount and, if relevant, Interest Payments, are based on the number and possibly order of Credit Events in the same reference portfolio.

For tranched CLNs, the occurrence of a Credit Event may have no impact or a more than proportional impact on the future redemption value and, if relevant, coupon payments depending on the specific structure.

For non-tranched CLNs, the reduction of the nominal amount due to Credit Events will affect the future redemption and, if relevant, coupon payments. Non-tranched CLN's may also be callable or puttable (i.e. redeemed at a single pre-specified point in time before scheduled maturity) at the discretion of the Issuer or the investor. In addition, Non-tranched CLN's may involve one or more additional payments.

For Nth-to-Default CLNs, the occurrence of the first N-1 Credit Events will have no impact on the future redemption value and, if relevant, coupon payments. However, the impact of the Nth Credit Event will have a more than proportional impact on the future redemption value and, if relevant, coupon payments.

Similarly, for Nth & Nth+1 to Default CLN's, the impact of the Nth and N+1th Credit Event will have a more than proportional impact on the future redemption value and, if relevant, coupon payments.

#### *"Delta 1" structure*

Under a "Delta 1" structure the investor in the Notes receives the current value of the Reference Asset on the redemption date. In this type of structure the investor is fully exposed to the performance of the underlying Reference Asset and the Note is not capital protected.

#### *TOM Cumulative Strategy*

The TOM Cumulative Strategy replicates an investment in particular Reference Assets that is only made for a limited time period in each calendar month. At other times the Notes replicate an investment in a time deposit or other fixed income investment.

## *Inflation Linker 2*

Under the Inflation Linker 2, the interest payments are scaled with inflation by multiplying by a factor equal to the ratio calculated by dividing the CPI on the Valuation Date by the Base CPI. The redemption amount is inflation adjusted by multiplying the Principal Amount by a factor which is the higher of 1 (one) and the ratio calculated by dividing the Final CPI by the Base CPI.

## *Digital Long and Short Structures*

In a Digital Long structure, the Redemption Amount will equal the Principal Amount of the Notes multiplied by a pre-determined Coupon level if the Basket Return on the final Valuation Date exceeds the Basket Strike Level. If the Basket Return does not exceed the Basket Strike Level the Redemption Amount is zero.

In a Digital Short structure the position is reversed, and the Redemption Amount is zero if the Basket Return on the final Valuation Date is at or above the applicable Basket Strike Level.

Digital structures may also be combined with a best of/worst of feature, which means that the valuation points and Redemption Amount will be determined by reference to the best or worst performing Reference Asset rather than the Basket as a whole.

## *FX Components*

The Basket Return or Reference Asset Return determined in accordance with one of the performance structures specified above may also be multiplied by an applicable FX factor for the purposes of determining the total Redemption Amount payable to holders, which reflects the variations in an underlying exchange rate during the lifetime of the Notes.

## *Best of/Worst of Modifier*

Each of the performance structures specified above may also be modified so that the valuations, observations and Redemption Amount are all determined by reference to the Nth best (or worst) performing Reference Asset, where N shall be a pre-specified value given in the Final Terms.

## *Combination of Structures*

The Issuer may combine the performance structures relating to the Notes, by applying different performance structures to different Reference Assets within the Basket, or by applying different performance structures for different time periods within the overall lifetime of the Notes.

## **5. Other factors which may affect the redemption amount or yield under a Note**

The different types of Notes and the performance structures described above may be combined with one or several of the variables described below. These variables may affect the investor's risk and the yield and/or the redemption amount under the Notes.

### *Absolute figures or percentage changes*

The reference figures which may form part of the performance structures described above for determining performance may be an absolute figure or be expressed as a percentage.

### *Notes with adjustable interest payment and redemption dates*

The Issuer may under certain conditions have the right to change (delay) the interest payment and repayment of principal on the Notes, for example, if liquidity in a certain Reference Asset is too low. If so, this will be clearly stated in the relevant Final Terms.

### *Early redemption*

In a Note with an early redemption feature, the relevant Issuer is entitled to redeem the Note before the stated maturity date if the price of a Reference Asset during the term reaches a certain predetermined level (referred to as a call option) or for other reasons. In certain cases, a predetermined early redemption amount may be specified. There are also structures which allow the investors to demand redemption of the Note prior to maturity, for example in order to lock in and realise a positive performance in the

Reference Asset (referred to as a put option). The existence of a call or put option will be clearly stated in the relevant Final Terms.

#### *Participation ratio*

The structure of the Notes may contain a participation ratio which is used to determine the exposure to the respective Reference Asset, i.e. the proportion of the change in value which accrues to the investor in each individual Note. The Participation Ratio is set by the relevant Issuer and is determined by, among other things, the term, volatility, market interest rate and expected return on the Reference Asset.

#### *Premium or discount*

Notes may be issued at a premium or discount, which means that the investor pays on issue an amount that is higher or lower than the principal amount of the Notes. Zero coupon Notes are frequently issued at a discount. Structured Notes are often issued at a premium and the premium can be considered as the cost that the investor pays for being entitled to receive a comparatively larger part of a positive performance of the Reference Asset. The difference between the paid amount and the Notes' principal amount (the premium) is never covered by any minimum redemption feature of the Notes.

#### *Multipliers and leverage effects*

In certain structured Notes a multiplier is included against which the performance of the Reference Asset is multiplied, thereby significantly increasing the portion of the change in value which may be credited to the investor in a Note. A high multiplier often entails that the Note is issued at a higher premium. The multiplier will result in a more rapid loss of invested capital in the event of a negative performance of the Reference Asset. Notes with a multiplier always provide a floor so that a negative performance in the Reference Asset does not result in the value of the Notes becoming negative.

#### *"Leverage"*

Leveraged structures offer a higher exposure to the Reference Asset than the amount that the invested capital would otherwise allow. The leverage is often created by synthetically borrowing against the underlying portfolio of Reference Assets. The leverage can sometimes vary over time according to a predefined mechanism. Such mechanism may serve the purpose of keeping the leverage and/or the exposure to the Reference Assets within certain limits.

#### *Currency factor*

If the currency of the Reference Asset differs from the currency of the Notes, investors may be exposed to a currency risk relating to the exchange rate between the currency of the Notes and the currency of the Reference Asset.

Dual currency Notes may be issued under the Programme. For dual currency Notes, payment of principal, interest, yield and redemption amounts may take place in different currencies.

#### *"Rebalancing"*

Rebalancing is a continuous adjustment of the relationship between the exposure under a risk asset and invested principal.

#### *Averaging of Valuations*

When determining the starting value (strike price) and/or closing value (final price) of each Reference Asset, they can be calculated as an average of underlying closing values on pre-determined dates. Values for the underlying observations can be taken periodically (e.g. monthly, quarterly, semi-annually or annually). The Basket return payout is then calculated based on the performance of each Reference Asset over the life of the Note, taking the relevant weightings of each Reference Asset within the Basket into account.

#### *Strike Level*

The Strike Level (as specified in the Final Terms) may be set in such a way that the initial value assigned to one or more Reference Assets within the Basket for the purposes of measuring the relative performance of that Reference Asset, does not equal the initial spot market price of the relevant Reference Asset(s),

creating Notes that may be "in" or "out" of the money on their issue date. For example, where the return on a Reference Asset is calculated by dividing the Closing Price of the relevant Reference Asset by its Initial Price and subtracting the Strike Level, a Strike Level in excess of 100% will result in the investor receiving a proportionate return that is less than the relative performance of the Reference Asset. A Note which is out of the money on its issue date will result in the Noteholder potentially receiving a lower return than a direct investment in the relevant Reference Asset. Conversely a Note which is in the money on its issue date will result in a higher potential return than a direct investment in the relevant Reference Asset. An overall strike level (the "**Basket Strike Level**") may also be applied to the Basket as a whole.

## LÅN – VILLKOR OCH STRUKTUR

***De beskrivningar som återfinns nedan är en inofficiell översättning av den engelska text som återfinns omedelbart före detta avsnitt och investerare rekommenderas att även läsa och ta till sig de engelska beskrivningarna då dessa kan avvika från den svenska översättningen.***

Emittenterna har upprättat detta Program för att uppta lån på den internationella kapitalmarknaden med en löptid om lägst en månad (30 dagar) och högst en evig löptid, inom ramen för ett vid var tid utestående nominellt belopp om högst 10 000 000 EUR).

### 1. Vad är ett Lån?

Lån är skuldebrev och som är fritt överlåtbara till sin karaktär. I dagligt tal benämns skuldebrev också ofta obligation. En Lån manifesterar ett fordringsförhållande mellan respektive Emittent och investeraren där investeraren i normalfallet har rätt att erhålla ett kontantbelopp av respektive Emittent vid löptidens utgång samt i vissa fall ränta under löptiden. På så sätt skiljer sig Lån från så kallade konvertibla skuldebrev eller omvända konvertibla skuldebrev där investerarens fordran under vissa förutsättningar kan omvandlas till en fysisk leverans av aktier. I normalfallet, efter det att en investering är gjord, kan investeraren av ett Lån sägas ha en rätt till prestation i form av en betalning av respektive Emittent, men ingen skyldighet att erlagga betalning till respektive Emittent.

#### *Kombinationer av instrument*

Emittenterna kan utge så kallade strukturerade Lån under detta Program. Strukturerade Lån har utvecklats under senare år och fanns inte på marknaden då obligationsbegreppet började användas. Strukturerade Lån kan i många fall till sin funktion motsvara kombinationer av flera olika typer av traditionella instrument som till exempel en obligation kombinerad med en aktie, fondandel, eller ett derivatinstrument. Dessa kombinationer av produkter kan ha drag av flera instrument. För alla strukturerade Lån gäller dock att de manifesterar ett fordringsförhållande mellan respektive Emittent och investeraren där investeraren, alltid eller under vissa förutsättningar, har rätt till ett kontantbelopp av respektive Emittent eller, om så särskilt anges och under de angivna förutsättningarna, till fysisk leverans av den underliggande tillgången. Det är i detta sammanhang viktigt att framhålla att investeraren, för det fall att Lånet innehåller derivatinslag, inte påtar sig någon motpartsrisk under derivatinstrumentet utan denna kvarstår hos Emittenten. Däremot övervältras det som kallas marknadsrisken på investeraren.

#### *Kapitalskydd eller inte*

I de Allmänna Villkoren anges att Emittenten kan ge ut Lån med en konstruktion som innebär att investeraren endast har rätt att få tillbaka en del av den ursprungliga investeringen eller där investeraren inte har rätt till något alls i händelse av en för investeraren negativ utveckling så kallad "icke kapitalskyddat" Lån. Lån där investeraren enligt Slutliga Villkor alltid har rätt att få tillbaka ett nominellt belopp (eller ett visst lägsta belopp) kallas vanligtvis "kapitalskyddade" Lån. Om respektive Emittent inte har tillräckligt med tillgångar för att fullgöra sina skyldigheter under kapitalskyddade Lån kommer dock investeraren i praktiken inte att få tillbaka vad investeraren har rätt till enligt Slutliga Villkor, trots att investeringen gjorts i kapitalskyddade Lån. Kapitalskyddet innebär alltså endast att investeraren enligt Slutliga Villkor har rätt till ett visst minsta belopp på återbetalningsdagen oavsett utvecklingen av den eller de referenstillgångar som Lånets avkastning eller återbetalning mäts mot. Mer om underliggande referenstillgångar och jämförelsetal finns under rubriken Lånetyper nedan.

#### *Börsnotering*

Ofta handlas Lån på de i Grundprospektet angivna börserna eller andra marknadsplatser, men det händer även att Lån sätts samman specifikt för att passa en enskild investerare eller grupp av investerare som vill exponeras mot en särskild risk eller marknad. I de senare fallen är det inte tänkt att sådana Lån skall omsättas, även om det är fullt möjligt eftersom Lån till sin form är fritt överlåtbara värdepapper.

#### *Status*

Lån under Programmet utgör en direkt skuldförbindelse utan säkerhet med lika rätt till betalning (pari passu) med Emittentens övriga existerande icke säkerställda eller icke efterställda betalningsåtaganden.

## 2. Allmänna Villkor – Slutliga Villkor

### *Allmänna Villkor*

Detta program är en av Emittenternas plattformar för att anskaffa kapital på kapitalmarkanden, huvudsakligen genom emissioner i vissa specifika länder som är del av EES. Programmet skall vara ett medel för Emittenterna att på ett snabbt och enkelt sätt uppta lån på nyssnämnda kapitalmarknader. Kärnan i Programmet utgörs av de Allmänna Villkoren vilka återges i sin helhet i detta Grundprospekt. De Allmänna Villkoren är standardiserade och generella till sin karaktär och täcker en mängd olika typer av Lån vilket bidrar till att de Allmänna Villkoren är relativt omfattande och komplicerade. De Allmänna Villkoren gäller i tillämpliga delar för samtliga Lån som emitteras under Programmet.

### *Slutliga Villkor*

För varje Lån som emitteras under Programmet upprättas även Slutliga Villkor. En mall för Slutliga Villkor finns angiven i detta Grundprospekt. Generellt kan sägas att de Slutliga Villkoren anger de specifika lånevillkoren för varje serie av Lån. Avsikten är att de Slutliga Villkoren tillsammans med Allmänna Villkor utgör de fullständiga villkoren för serien av Lån. De Slutliga Villkoren måste således alltid läsas tillsammans med de Allmänna Villkoren för att få en fullständig förståelse av de villkor som gäller för respektive Lån. I Slutliga Villkor regleras bland annat lånets eller en series nominella belopp, valörer, lånetyp och tillämplig metod för avkastnings- eller ränteberäkning. De Slutliga Villkoren kommer dessutom att innehålla det relevanta emissionspriset, vilket kan vara ett indikativt pris, eller en skala, till dess att teckningsperioden löpt ut. Emittenten kommer att fastställa det slutliga emissionspriset för Lånet efter sin egen bedömning, varvid hänsyn tas till investerarnas efterfrågan under teckningsperioden. Om emissionspriset fastställs efter publiceringen av de Slutliga Villkoren kommer emissionspriset att annonseras via Company Announcements Office of the Irish Stock Exchange.

Slutliga Villkor för Lån som erbjuds allmänheten eller annars tas upp för handel på börs inges till Central Emittent of Ireland. Sådana Slutliga Villkor som inges till Central Emittent of Ireland kommer att offentliggöras samt finnas tillgängliga på Emittenternas hemsida ([www.nordea.com](http://www.nordea.com)), men kan även kostnadsfritt tillhandahållas genom något av Emittenternas kontor.

## 3. Lånetyper

Som nämnts ovan representerar ett Lån en rätt att erhålla en viss prestation från respektive Emittent, i normalfallet ett belopp i kontanter. Ett Lån är i regel förknippat med en rätt till avkastning i form av ränta på det investerade beloppet och ränta utbetalas normalt oberoende av resultat. Respektive Emittent ger även ut Lån där det belopp som investeraren har rätt till, både gällande avkastning och återbetalning, kan variera beroende på utvecklingen av priset eller värdet av olika typer av underliggande tillgångar som bestäms på ett visst sätt, så kallade strukturerade Lån, se mer härom nedan. Avseende strukturerade Lån är rätten till ränta eller annan avkastning inte garanterad och rätten till ränta, annan avkastning eller återbetalning av kapitalbeloppet kan i vissa fall utebli helt.

I detta avsnitt anges de olika huvudtyper av Lån som Emittenterna avser att emittera under Programmet, med fokus bland annat på de olika typer av underliggande tillgångar som förekommer. Inledningsvis presenteras huvudtyperna av Lån, Kupon- och nollkuponobligationer.

### *Referenstillgångar och korgar*

Storleken på återbetalningsbelopp och/eller ränta under ett specifikt Lån kan komma att bestämmas på basis av värdeutvecklingen av en eller flera Referenstillgångar. Sådana Referenstillgångar kan innefatta aktier, råvaror, räntor, valutakurser, fondandelar och/eller kreditvärdigheten hos en eller flera Referensenheter.

En blandportföljobligation har avkastningen knuten till värdeutvecklingen för ett antal portföljer vilka innehåller olika tillgångsslag med varierande vikt. Tillgångarna i en korg kan ges olika vikt och kan därmed komma att påverka avkastning/återbetalningsbelopp beroende på referenstillgångens relativa vikt i korgen. Olika typer av tillgångar kan ingå i samma korg och det kan finnas flera korgar med olika typer av tillgångar som kan komma att jämföras med varandra.

### *Kupong- och nollkupongobligationer*

Kupongobligationer är Lån där ränta och/eller avkastning betalas periodvis under lånets löptid eller alternativt under vissa närmare angivna förutsättningar.

Nollkupongobligationer är Lån som löper utan ränta. Dessa Lån ges normalt ut till underkurs, det vill säga investeraren erlägger ett belopp som är lägre än nominellt belopp för obligationen, och erhåller nominellt belopp på återbetalningsdagen eller alternativt utges till sitt nominella belopp och den ränta/avkastning som genererats under löptiden betalas då Lån förfaller till betalning, på återbetalningsdagen.

De olika lånetyperna kan förekomma både som kupongobligation och som nollkupongobligation eller som en kombination av de båda. Lån under vilka återbetalningsbeloppet kan variera beroende på utvecklingen av priset eller värdet av olika typer av underliggande tillgångar som bestämts på ett visst sätt, kan komma att kombineras med ränta, avkastning eller utdelning som förfaller periodvis.

### *Amorterande Lån*

Emittenterna kan utge Lån där kapitalbeloppet skall återbetalas genom delbetalningar.

### *Ränteobligationer*

Räntan som utgår under räntebärande Lån är typiskt sett fast, rörlig eller variabel. En rörlig ränta refererar oftast till en räntebas såsom STIBOR, EURIBOR, LIBOR med tillägg eller avdrag för en fast räntemarginal, instrument med rörlig ränta kallas inte sällan "floating rate notes" medan räntesatsen är fast under ett Lån med fast ränta. Under ett Lån med så kallad omvänd rörlig ränta kan en fast ränta med avdrag för en ränta baserad på en referensränta såsom STIBOR, EURIBOR, LIBOR förekomma. Räntan kan vara justerbar och justeras efter varje angiven ränteperiod. Det finns även ränteobligationer där räntestrukturen förändras under löptiden. Exempelvis kan en fast ränta betalas inledningsvis men räntan kan sedan övergå till att bli rörlig eller så kan räntan exempelvis höjas efter en viss tidsperiod, så kallade step-up villkor.

Det finns även ränteobligationer som är strukturerade så att avkastningen är baserad på ränta och/eller inflation, samt en eller flera räntesatser och/eller inflationsindex. Variabler såsom multiplikatorer, tak/golv, digitala tak/golv, swaptions och/eller kombinationer av dessa funktioner kan förekomma. Under den här typen av ränteobligationer är avkastningen beroende av om en eller flera angivna räntesatser eller inflationsindex håller sig inom vissa förutbestämda intervall. Avkastningen kan även påverkas av tidigare perioders avkastning och innefatta ränta eller inflationsbaserade triggers som kan påverka avkastningen eller leda till förtidsinlösen.

### *Realränteobligationer*

Realränteobligationer är obligationer som är löper med eller utan inflationsskyddad ränta och återbetalningsbeloppet är därtill inflationsskyddat till sin natur. Räntesatsen kan vara fast eller rörlig. Om ett Lån inte är räntebärande, utbetalas endast ett inflationsskyddat återbetalningsbelopp vid förfall. Inflationsskyddet beräknas med hjälp av konsumentprisindex som satts samman med hjälp av statistik som inte nödvändigtvis speglar den inflation som den enskilde investeraren utsätts för. Det inflationsskyddade räntebeloppet liksom det inflationsskyddade kapitalbeloppet meddelas fordringshavare när Emittenten fastställt detsamma i enlighet med Allmänna Villkor och Slutliga Villkor.

### *Aktieobligationer*

Under en aktieobligation är avkastningen och/eller återbetalningsbeloppet beroende av utvecklingen av en eller flera aktier, aktieindex eller korgar av aktier och/eller aktieindex eller aktiemarknader. Placeringsinriktningen under en aktieobligation kan vara mot vissa marknader i världen eller vissa branscher. Lån där det underliggande indexet eller aktien/aktierna hänför sig till bolag av en viss kreditvärdighet kan förekomma liksom referenser till aktier i riskkapitalbolag. Inriktningen under enskilda Lån kommer tydligt att redovisas i Slutliga Villkor.

Under vissa Lån av aktieobligationskaraktär utgår en förutbestämd avkastning, vilket innebär att Emittenten erlägger en viss avkastning vanligen i form av ränta, förutom den avkastning som är aktierelaterad. Emittenten kan konstruera en aktieobligation så att avkastningen ökar eller minskar om aktiemarknaden utvecklas positivt eller negativt under löptiden.

Aktieobligationer kan ha en varierande grad av exponering mot den underliggande tillgången. Lån kan exempelvis emitteras till en överkurs som vid en negativ utveckling kan gå förlorad alternativt kan rätten till återbetalning av investerat belopp helt eller delvis bortfalla om värdet av den underliggande tillgången eller aktuellt jämförelsetal utvecklas på ett negativt sätt för investeraren (och viceversa vid positiv utveckling hos den underliggande tillgången). Alternativt kan en mer begränsad koppling till värdet av den underliggande tillgången, och således en mindre exponering mot aktiemarknaden, förekomma. Exempel på sådana konstruktioner är Lån med förutbestämd lägsta avkastning där möjligheten till hög avkastning är begränsad vid en gynnsam utveckling på värdet av den underliggande tillgången eller aktuellt jämförelsetal, medan investeraren, vid negativ utveckling för investeraren, å andra sidan alltid får en viss lägsta avkastning.

#### *Omvända konvertibler*

Vanligtvis är den underliggande tillgången i omvända konvertibler en aktie eller ett aktieindex eller korgar av nyssnämnda tillgångar. Under en omvänd konvertibel kan återbetalningen av kapitalbeloppet beror på värdeutvecklingen i de underliggande Referenstillgångarna, och återbetalningsbeloppet kan kommas att understiga kapitalbeloppet under vissa förutsättningar. En omvänd konvertibel kan kombineras med en fast avkastning.

#### *Kreditobligationer*

Kreditobligationer är obligationer vars avkastning eller återbetalningsbelopp bestäms av huruvida en så kallad kredithändelse inträffar för viss referenskredit. De underliggande referenskrediterna kan vara knutna till krediter eller korgar av krediter för bolag eller offentligt rättsliga organ såsom stat, kommun eller landsting eller krediter som utgivits av nyssnämnda bolag och offentligt rättsliga organ eller kreditindex. Referenskrediter kan avse befintliga, framtida, villkorade eller ovillkorade betalningsförpliktelser under låneavtal, såsom bland annat kreditavtal, obligations- eller certifikatlån (oavsett löptid), finansieringslimiter och/eller betalningsförpliktelser avseende insättning och/eller remburs och/eller borgensförbindelser och/eller annan skriftlig garanti eller kreditförbindelse för annans betalningsförpliktelse.

Under kreditobligationer kan avkastningen eller återbetalningsbeloppet vara beroende av kreditrisken i ett eller flera bolag, det vill säga de bolag som är kredittagare under aktuell referenskredit. Kreditobligationen bygger på olika låntagares kreditvärdighet och ränteskillnaden som föreligger av kreditvärdigheten. Räntan är högre ju sämre kreditvärdigheten är. Den högre avkastningen är avsedd att kompensera för den högre risk som är förknippad med en relativt sett lägre kreditvärdighet, det vill säga en ökad sannolikhet för att en så kallad kredithändelse kan inträffa. Vid inträffad kredithändelse kan rätten till avkastning eller återbetalning helt bortfalla vid första kredithändelsen eller alternativt reduceras och varje efterföljande kredithändelse reducerar sedan avkastningen eller alternativt återbetalningsbeloppet. En kredithändelse är i normalfallet utebliven betalning, konkurs eller annan insolvensrelaterat förfarande eller annan händelse som typiskt sätt påverkar kreditgivarens möjlighet att få fullt betalt enligt villkoren för krediten. De för en kreditobligation aktuella underliggande krediterna för bolag eller offentligt rättsliga organ och kreditriskerna kommer tydligt att redovisas i Slutliga Villkor.

Kreditobligationer kan ges ut i flera serier eller trancher som kan medföra olika rätt till betalning, genom att det särskilt anges vilken av de utgivna trancherna som skall bära de första förlusterna. Därefter belastar förlusterna trancherna i angiven turordning eller med angiven andel.

#### *Fondobligationer*

Under en fondobligation är avkastningen och/eller återbetalningsbeloppet beroende av utvecklingen av en eller flera fonder, inklusive hedgefonder, så kallade fond i fonder (en fond i fond är en fond som investerar i en eller flera fonder), fondindex eller korgar av fonder. Fonderna kan vara svenska eller utländska och förvaltas av mer eller mindre kända fondförvaltare. Vissa av Fonderna är godkända av och står under tillsyn av relevant tillsynsmyndighet och är så kallade UCITS, andra fonder har inte godkänts av, och står inte heller under tillsyn av, relevant tillsynsmyndighet. Vidare kan fonderna vara organiserade i bolagsrättslig form. Exempel på fonder som kan vara organiserade i bolagsrättsligform är så kallade private equity fonder, hedgefonder och/eller fond i fonder. För det som benämns som fonder behöver alltså inte gälla samma skyddsregler som gäller för investeringsfonder som drivs enligt svensk rätt. Fonder och fond i fonder har olika former av placeringsinriktningar och olika grader av risker, och ett fondindex kan avse ett antal olika fonder. Placeringsinriktningen i de enskilda fonderna och annan väsentlig information kommer tydligt att redovisas i Slutliga Villkor. Vidare är det viktigt att notera att i vissa fonder eller fond i fonder kan likviditeten vara begränsad eller saknas liksom antalet inlösentillfällen

under ett år, vilket är av intresse för investeraren eftersom Emittenten kommer att se till att motsvarande eller liknande begränsningar återspeglas i obligationen.

#### *Råvaruobligationer*

En råvaruobligation är en obligation vars avkastning eller återbetalning av investerat belopp är beroende av värdet på en eller flera råvaror, ett råvaruindex eller en korg av råvaror och/eller råvaruindex eller aktuellt jämförelsetal för den underliggande tillgången. Exempel på råvaror som kan bli aktuella är el, olja, guld, utsläppsrätter, aluminium, koppar och zink.

#### *Valutaobligationer*

En valutaobligation är en obligation vars avkastning eller betalning av investerat belopp, helt eller delvis, är beroende av värdet av en eller flera valutor och/eller valutapar eller korgar av desamma eller aktuellt jämförelsetal för den underliggande valutan och/eller växelkurser för en eller flera valutor i förhållande till andra. Värdet av en eller flera valutor eller aktuella växelkurser kan erhållas genom referens till spot- eller terminkurser och kan genereras från officiella källor såsom Europeiska centralbankens fixing eller liknande, men även genom privata avslut på valutamarknaden eller genom att ett antal fristående banker beräknar den aktuella kursen.

#### *Indexobligationer*

Under en indexobligation är avkastningen och/eller återbetalningsbeloppet beroende av utvecklingen av ett eller flera index eller korgar av index. Placeringsinriktningen under en indexobligation kan vara inriktad mot vissa marknader, branscher eller vissa tillgångsslag. Exempel på index som kan bli aktuellt är exempelvis olika fastighetsindex, råvaruindex och index för andra tillgångsslag. Inriktningen under enskilda Lån kommer tydligt att redovisas i Slutliga Villkor.

#### **4. Värdeutvecklingsstrukturer – en beskrivning**

De nedan beskrivna värdeutvecklingsstrukturerna avgör hur utvecklingen av de underliggande tillgångar som beskrivits för respektive lånetyp under punkt 3 ovan påverkar avkastning eller återbetalning för Lån. Nedan angivna värdeutvecklingsstrukturer kan kombineras med flera av de uppräknade lånetyperna, vilka då utgör så kallade "strukturerade Lån". Strukturerade Lån kan i många fall till sin funktion motsvara kombinationer av flera olika typer av traditionella instrument som till exempel en obligation kombinerad med en aktie, fondandel och/eller ett derivatinstrument. Värdet på ett strukturerat Lån påverkas av värdet på den underliggande tillgången eller aktuellt jämförelsetal. Värdet på underliggande tillgång fastställs i vissa fall vid flera tillfällen under löptiden för Lånet och i vissa fall endast i slutet av ett Låns löptid. Utvecklingen kan vara både positiv och negativ för investeraren. Investerarens rätt till avkastning och i förekommande fall återbetalning är således beroende av referenstillgångens värdeutveckling och tillämplig värdeutvecklingsstruktur. Aktuell värdeutveckling liksom avkastning och återbetalningsbelopp kommer att meddelas fordringshavare i enlighet med Allmänna och Slutliga Villkor.

Nedan beskrivna värdeutvecklingsstrukturer är ett urval av de vanligaste strukturerna. Dessa strukturer kan kombineras, varieras och användas i sin helhet eller endast delvis.

##### *"Basket Long" och "Basket Short"-strukturer*

Basstrukturen för att beräkna värdeutvecklingen på ett strukturerat Lån är beroende av förändringen mellan start- och slutkurs för en eller flera referenstillgångar. För att minska risken för att tillfälliga värdeförändringar ger ett missvisande beräkningsunderlag vid beräkningen av ett Låns slutvärde, fastställs slutvärdet ofta som ett genomsnitt av referenstillgångens värde eller jämförelsetal vid ett antal mättidpunkter under en bestämd tidsperiod (d.v.s. man mäter värdet vid flera värderingsdagar under Lånets löptid). Det förekommer dock att det endast finns en mättidpunkt av ett värde eller ett jämförelsetal under löptiden. I en "Basket Long"-struktur kommer en positiv värdeutveckling hos Referenstillgångarna i korgen att ha en positiv effekt på avkastningen i Lånet. I en "Basket Short"-struktur kommer däremot en positiv värdeutveckling hos Referenstillgångarna i korgen att ha en negativ inverkan på återbetalningsbeloppet i Lånet.

##### *"Max"-struktur*

Max-strukturen utgår från "Basket Long" eller "Basket Short" men innehåller en föutbestämd maxavkastning, det vill säga ett tak för hur hög avkastningen kan bli. Investeraren erhåller det lägsta av

maxavkastningen och värdeutvecklingen på den underliggande tillgången. Om Referenstillgångens värdeutveckling överstiger den på förhand bestämda maxavkastningen, får investeraren ett belopp motsvarande maxavkastningen.

#### *"Barriär"-struktur*

Denna struktur bygger på en fastslagen kurs som ersätter slutkursen, om värdeutvecklingen för korgen uppnår och/eller överstiger ett kurstak (en "Barrier Outperformance"-struktur) eller understiger ett kursgolv (en "Barrier Underperformance"-struktur). Strukturen kan också vara begränsad till värdeutvecklingen för den eller de Referenstillgångar som varit bäst eller sämst istället för att basera utvecklingen på korgen som helhet.

#### *"Quanto Basket"-struktur*

Återbetalningsbeloppet i en Quanto-struktur utgörs av värdeutvecklingen hos en korgs underliggande tillgångar. Den/de bäst presterade tillgången/tillgångarna kan ha en positiv inverkan på Lånet ("Basket Long"-struktur) eller en negativ inverkan ("short"-struktur). Korgens avkastning kan även bestämmas till en viss i förväg bestämd högsta och lägsta värdeutveckling.

En negativ värdeutveckling resulterar i en avkastning som likställs med noll. I en Quanto-struktur är en eller flera av de underliggande tillgångarna denominerade i en valuta som skiljer sig från den valuta i vilken Lånet är denominerad. Beroende på utvecklingen i den relevanta växelkursen kommer detta att ha en negativ eller positiv påverkan på den avkastning eller återbetalning som kan komma att erhållas av en Fordringshavare.

#### *"Flexo"-struktur*

Flexo-strukturen utgår från Quanto-strukturen ovan. Korgens avkastning multipliceras dock med en valutafaktor ("FX factor"). Avkastningen på lånet är därför beroende av den relevanta valutakursens utveckling på sätt som anges i Slutliga Villkor.

#### *"Autocall"-struktur*

Avkastningen i en autocall-struktur är beroende av (i) Korgens avkastning, (ii) olika barriärnivåer och (iii) räntan (om tillämpligt), på sätt som beskrivs nedan.

Förtida inlösen sker om värdeutvecklingen i korgen på någon av värderingsdagarna är lika med eller högre än relevant barriärnivå, varvid det nominella beloppet och en på förhand bestämd kupong (om tillämpligt), betalas ut till investerarna.

Om en förtida inlösen ej har skett, måste värdeutvecklingen i korgen uppnå eller överstiga kupongbarriären på en specifik värderingsdag för att kupongen ska utbetalas. Kupongen betalas ut på räntebetalningsdagen som följer av relevant värderingsdag.

Korgens värdeutveckling observeras av Emittenten på varje specifik värderingsdag (vilket kan vara en eller flera dagar, beroende på villkoren för lånet):

- (i) Om korgens värdeutveckling är lika med eller understiger barriärnivån på den slutliga värderingsdagen, kommer återbetalningsbeloppet att vara lika med Lånets kapitalbelopp, samt en ytterligare avkastning kopplad till avkastningen på korgen, vilket kan uppgå till noll;
- (ii) Om korgens värdeutveckling överstiger relevant barriärnivå på den slutliga värderingsdagen, kommer återbetalningsbeloppet vara lika med Lånets kapitalbelopp, samt en ytterligare avkastning som består av det minsta av korgens avkastning och ett belopp som är kopplat till avkastningen på korgen, vilket kan uppgå till noll; och
- (iii) Om korgens värdeutveckling överstiger kupongbarriären kan också en kupong komma att utgå.

För att avgöra om den underliggande tillgången i Lånet överstiger relevant barriär eller Kupongbarriären, används speciella fixingmetoder och andra metoder (t.ex. worst of, best of, eller momentum) för att avgöra tillgångens vikt i korgen.

Lånen kan generera en avkastning (även kallad "Kupong"). Kupongen konstrueras på ett av följande sätt:

Om kupongen är en så kallad "Flat" kommer kupongen att bestå av Lånets kapitalbelopp multiplicerat med den relevanta kupongnivån.

Om kupongen är en "Memory", kommer kupongen att baseras på de kuponger som redan har betalats ut under Lånets löptid. Investeraren har på så sätt tidigare icke utbetalade kuponger "innestående". Kupongen utgörs av kapitalbeloppet multiplicerat med kupongnivån och det antal föregående kupongdagar (fram till den nuvarande ränteförfallodagen) för vilka kupong inte har betalats.

Om kupongen är en så kallad "Plus Flat" utgörs den av Lånets kapitalbelopp multiplicerat med den högre av bonusfaktorn och kupongnivån.

Om kupongen är en "Plus Memory" uppgår den till Lånets kapitalbelopp multiplicerat med det högsta av: a) kupongnivån och b) bonusfaktorn, multiplicerad med det antal kupongdagar (fram till den nuvarande ränteförfallodagen) för vilka kupong inte har betalats.

#### *"Best of/Worst of Autocallable"-struktur*

Detta är en variant av Autocall-strukturen där avläsningar av värden samt fastställande av återbetalningsbelopp eller avkastning baseras på den Referenstillgång i en korg som utvecklats bäst eller sämst, beroende på struktur, snarare än att basera detta på korgen som helhet.

#### *"Composite Basket"-struktur*

Denna struktur utgår ifrån Quanto-strukturen, men avviker på så sätt att värderingar för varje enskild Referenstillgång multipliceras med en valutakurs för varje specifik referenstillgång.

#### *"Replacement Basket"-struktur*

Replacement Basket-strukturen liknar Quanto-strukturen, men skiljer sig på så sätt att avkastningen som genereras av de bäst utvecklade Referenstillgångarna, ersätts med ett på förhand bestämt värde. Värdeutvecklingen för respektive Referenstillgång mäts i slutet av Lånets löptid och värdeutvecklingen baseras på varje Referenstillgångs procentuella avkastning. Avkastningen för de Referenstillgångar som utvecklats bäst ersätts med en på förhand bestämd procentsats för att kunna fastställa korgens avkastning.

#### *"Locally Capped Basket"-struktur*

Locally Capped Basket-strukturen liknar Quanto-strukturen, men i denna struktur har tillämpas ett tak för värdeutvecklingen för varje enskild Referenstillgång angivet som ett i förväg bestämt procentuellt värde.

#### *"Rainbow"-struktur*

Återbetalningsbeloppet i Rainbow-strukturen liknar Quanto-strukturen. I Rainbow-strukturen erhåller dock Referenstillgångarna på värderingsdagen/dagarna i slutet av Lånets löptid vissa på förhand bestämda (olika) vikter, beroende på värdeutvecklingen för varje enskild Referenstillgång. Referenstillgångens vikt i korgen bestäms av vad som framgår i Slutliga Villkor. Beroende på förhållandet och rangordningen mellan respektive Referenstillgång och dess vikter, kan strukturen påverka återbetalningsbeloppets storlek.

#### *"Booster"-struktur*

Avkastningen för Booster-strukturen kan vara antingen positiv eller negativ, beroende på värdeutvecklingen för de Referenstillgångarna. Avkastningen kommer att adderas till, eller subtraheras från, Lånets kapitalbelopp för att få fram det relevanta återbetalningsbeloppet som betalas ut på återbetalningsdagen. Som konsekvens av detta kan Fordringshavarna under vissa omständigheter erhålla ett belopp som understiger kapitalbeloppet som slutligt återbetalningsbelopp. Booster-strukturer kan också ha olika deltagandegrader beroende på Referenstillgångarnas värdeutveckling, om dessa är positiva eller negativa. Detta kan öka eller minska fordringshavarnas exponering mot Referenstillgångarnas värdeutveckling.

### *"Riskbarriär"-struktur*

Avkastningen på en barriärstruktur påverkas om och när värdet på korgen når en viss övre eller nedre nivå. På så sätt kan korgavkastningen bli antingen positiv eller negativ i jämförelse med startkursen på den slutliga värderingsdagen, då den jämförs med en i förtid bestämd barriärnivå på vissa i Slutliga Villkor angivna dagar under Lånets löptid.

Om värdet på korgen understiger en i förtid bestämd barriärnivå under sådana angivna dagar under Lånets löptid, och värdet av korgen understiger startkursen på den slutliga värderingsdagen, kommer återbetalningsbeloppet på Lånets förfallodag beräknas genom att addera Lånets kapitalbelopp med en avkastning som motsvarar kapitalbeloppet multiplicerat med deltagandegraden och den negativa korgutvecklingen. Detta kan resultera i att fordringshavarna erhåller ett belopp som understiger kapitalbeloppet på den slutliga återbetalningsdagen.

Om värdet på korgen överstiger den i förtid bestämda barriärnivån vid någon av sådana angivna dagar under lånets löptid och att korgens värde vid lånets förfallodag understiger strikenivån, kommer beloppet som Fordringshavare har rätt till på återbetalningsdagen att uppgå till Lånets kapitalbelopp.

Om värdet på korgen uppgår till eller överstiger strikenivån kommer återbetalningsbeloppet att beräknas som Lånets kapitalbelopp plus en ytterligare avkastning som uppgår till det belopp som erhålls genom att multiplicera kapitalbeloppet med deltagandegraden och korgens värdeutveckling.

### *"Bonus Booster"-strukturer*

Bonus Booster-strukturen utgår från den grundläggande Booster-strukturen ovan, men avviker på så sätt att en i förtid bestämd bonusutbetalning sker på Lånets förfallodag. Om värdeutvecklingen i korgen inte på någon värderingsdag understigit den relevanta barriärnivån kommer återbetalningsbeloppet att beräknas som Lånets kapitalbelopp plus en ytterligare avkastning som beräknas genom att multiplicera kapitalbeloppet med deltagandegraden och värdeutvecklingen hos korgen.

Om korgens värdeutveckling understiger den relevanta barriärnivån värderingsdagen samt understiger den initiala korgnivån på den sista värderingsdagen, kommer återbetalningsbeloppet att beräknas som summan av kapitalbeloppet och ett belopp som uppnås genom att multiplicera kapitalbeloppet med deltagandegrad 2 och korgens värdeutveckling (uttryckt som ett negativt tal, vilket kommer att resultera i ett återbetalningsbelopp som understiger Lånets kapitalbelopp).

Om korgens avkastning inte på någon av värderingsdagarna understiger den relevanta barriärnivån kommer återbetalningsbeloppet att uppgå till summan av kapitalbeloppet och ett ytterligare belopp som uppgår till det högre av:

- A) kupongen; och
- B) det belopp som erhålls genom att multiplicera kapitalbeloppet med deltagandegraden och korgens värdeutveckling.

### *"Periodsumme"-struktur*

Avkastningen i en Periodsumme-struktur utgörs av den aggregerade summan av de vissa relativa (procentuella) förändringarna för tillgångarna i korgen avseende ett antal förutbestämda värderingsperioder under Lånets löptid

Periodsumme-strukturen har också några specifika funktioner som kan tillämpas nämligen:

- de relativa förändringarna i korgen beräknat för var och en av de i korgen ingående Referenstillgångarna kan begränsas av ett tak och/eller ett golv, för varje enskild värderingsperiod.
- Summan av korgens förändringar kan också bli föremål för ett s.k. globalt tak eller ett globalt golv.

Strukturen kan också innehålla en så kallad inlåsningsfunktion. Inlåsningsfunktionen innebär att om den aggregerade avkastningen på en värderingsdag har nått en fördefinierad inlåsningsnivå kommer återbetalningsbeloppet att bestämmas utifrån minst sådan nivå. Det finns många olika inlåsningsnivåer, och det finns ingen garanti för att en viss nivå kommer att nås under Lånets löptid.

#### *"Omvänd periodsumme"-struktur*

I en omvänd periodsumme-struktur beräknas återbetalningsbeloppet baserat på en i förväg bestämd procentsats minus den aggregerade relativa förändringen i den underliggande korgen för ett antal förutbestämda värderingsperioder under Lånets löptid.

#### *"Ersättande periodsumme"-struktur*

På samma sätt som en vanlig periodsumme-struktur, är avkastningen vid en ersättande periodsumme-struktur lika med summan av korgens värdeutvecklingar under relevanta delperioder. Till skillnad från en vanlig periodsumme-struktur, som ofta har tak och/eller golv på de i korgen ingående Referenstillgångarna, ersätter den här strukturen istället avkastningen för ett visst antal bäst utvecklade värderingsperioder, med en i förtid bestämd avkastningsnivå.

#### *"Omvänd ersättande periodsumme"-struktur*

Den omvända ersättande periodsumme-strukturen är en variant av den grundläggande ersättande periodsumme-strukturen, men den ersätter istället värdeutvecklingen vid ett visst antal av de bästa värderingsperioderna, med en i förtid bestämd avkastningsnivå.

#### *"Rainbow ersättande periodsumme"-struktur*

Rainbow ersättande periodsumme-struktur består av ett Lån där vikten av respektive referenstillgång i korgen fastställs efter det att respektive referenstillgångs värdeutveckling blivit känd. Den underliggande tillgången som har bäst värdeutveckling erhåller även den högsta vikten och så vidare. Värdeutvecklingen för varje enskild referenstillgång beräknas på samma sätt som för den grundläggande periodsumme-strukturen och representerar summan av de förändringar som skett i varje underliggande referenstillgång och för varje värderingsperiod under Lånets löptid.

#### *"Omvänd konvertibel"-struktur*

Omvänd konvertibel-struktur är ett strukturerat Lån där räntebetalningarna inte har någon koppling till korgens värdeutveckling. Vid den slutliga återbetalningsdagen kommer istället den del av kapitalbeloppets som återbetalas baseras på korgens värdeutveckling.

Om det sammanlagda värdet på korgens värdeutveckling är positivt, kommer återbetalningsbeloppet att vara lika med Lånets kapitalbelopp.

Om det sammanlagda värdet på korgens värdeutveckling är negativt, kommer återbetalningsbeloppet att vara lika med Lånets kapitalbelopp, minskat med ett belopp motsvarande Lånets kapitalbelopp multiplicerat med deltagandegraden och korgens värdeutveckling.

#### *"Omvänd konvertibel riskbarriär"- struktur*

Strukturen utgår från den omvända konvertibel-strukturen som beskrivits ovan. Dock baseras återbetalningsbeloppet som eventuellt kan komma att understiga kapitalbeloppet på en i förtid bestämd barriärnivå, vilket avläses under vissa i förväg bestämda dagar under Lånets löptid.

Om korgens värdeutveckling understiger den i förtid bestämda barriärnivån på någon av värderingsdagarna, samt understiger strikenivån på den slutliga värderingsdagen, kommer Lånets kapitalbelopp inte att återbetalas fullt ut. Istället baseras återbetalningsbeloppet på korgens värdeutveckling och kommer att beräknas som kapitalbeloppet minskat med Lånets kapitalbelopp multiplicerat med deltagandegraden och relevant korgutdelning.

Om den på någon av värderingsdagarna sammanlagda värdeutvecklingen av Referenstillgångarna i korgen understiger den i förtid bestämda barriärnivån, och är lika med eller överstiger strikenivån på den slutliga värderingsdagen, kommer Lånets kapitalbelopp att återbetalas fullt ut.

#### *""Worst of" Reverse Convertible"-struktur*

Strukturen utgår från den grundläggande strukturen för omvända konvertibler. Dock baseras återbetalningsbeloppet som eventuellt kan komma att understiga kapitalbeloppet på den Referenstillgång som haft sämst värdeutveckling. Värdeutvecklingen av referenstillgångarna avläses separat och Lånets återbetalningsbelopp baseras sedan på den Referenstillgång med sämst värdeutveckling.

### *"Series of Digitals"-struktur*

Återbetalningsbeloppet i den här strukturen baseras på antalet referenstillgångar vars värdeutveckling överstiger den i förut bestämda barriärnivån. Såvitt gäller de Referenstillgångar som inte når barriärnivån komemr dessa inte att positivt påverka återbetalningsbeloppet.

### *"Up and In Long"-struktur*

Up and In Long är en option med barriärstruktur. Strukturen har antingen en enskild Referenstillgång som underliggande tillgång eller en korg med Referenstillgångar. På återbetalningsdagen erhåller Fordringshavare kapitalbelopp plus ett ytterligare belopp, med hänsyn tagen till ett förutbestämt minimibelopp, baseras på huruvida korgen har, under Lånets löptid, haft en värdeutveckling vid någon värderingsdag, är lika med eller högre än den i förut bestämda barriärnivån. Om korgens värdeutveckling på någon värderingsdag inte når barriärnivån, kommer det ytterligare beloppet att uppgå till korgens avkastning. Barriärnivån kommer alltid att vara högre än strikenivån.

### *"Up and In Put Option"-struktur*

Up and In Put är en option med barriärstruktur. Strukturen har antingen en enskild Referenstillgång som underliggande tillgång eller en korg med Referenstillgångar. På återbetalningsdagen erhåller Fordringshavare kapitalbelopp plus ett ytterligare belopp, med hänsyn tagen till ett förutbestämt minimibelopp, baseras på huruvida korgen inte har, under Lånets löptid, haft en värdeutveckling vid någon värderingsdag, är lika med eller högre än den i förut bestämda barriärnivån. Om korgens värdeutveckling på någon värderingsdag når barriärnivån, kommer det ytterligare beloppet att uppgå till ett förutbestämt belopp. Barriärnivån kommer alltid att vara högre än strikenivån.

### *"Equity Accumulating Asian Rainbow Option"-struktur*

Strukturen liknar Rainbowstrukturen, men skiljer sig på så sätt att vikterna för de underliggande Referenstillgångarna är bestämda på Lånets startdag och omräknas därefter baserat på värdeutvecklingen för varje enskild Referenstillgång som ingår i korgen. Vid varje värderingsdag omräknas vikten för varje enskild Referenstillgång på så sätt att den Referenstillgång som utvecklats bäst erhåller den högsta vikten för nästkommande värderingsperiod och den näst bäst värderade referenstillgången får den nästa högsta vikten och så vidare.

### *"Down and Out Call Option"-struktur*

Strukturen är en call option med en barriär. Strukturen har en enskild Referenstillgång, eller en korg av Referenstillgångar, som underliggande tillgång. På återbetalningsdagen erhåller Fordringshavare kapitalbeloppet och ett ytterligare belopp för det fall ingen av de underliggande tillgångarna har, vid någon värderingsdag, noterats på eller under barriärnivån. Om inte barriärnivån nåts vid någon värderingsdag kommer inte ytterligare belopp att utgå.

### *"Worst of Digital Memory Coupon"-struktur*

Strukturen är en memorystruktur med en digital funktion.

Summan av värdet av betalningar (sammanlagd kupong) kan aldrig minska, så strukturen kan endera betala en avkastning som uppgår till till det totala summerade beloppet efter den slutliga värderingsdagen (Worst of Digital Memory Structure 1), eller det ytterligare summerade beloppet beräknat efter varje enskild värderingsdag (Worst of Digital Memory Coupon Structure 2).

### *"Worst of Call Option"-struktur*

I den här strukturen exponeras fordringshavarna mot den Referenstillgång i korgens som haft sämst värdeutveckling. Det eventuella ytterligare belopp som Fordringshavarna kan ha rätt till är det högre av noll och den genomsnittliga värdeutvecklingen av de sämsta Referenstillgångarna i varje enskild värderingsperiod.

### *"Outperformance Option"-struktur*

Outperformance Optionen erbjuder en investerare möjligheten att koppla sin avkastning till skillnaden i utveckling mellan underliggande Referenstillgångar. I en normal korg-struktur är avkastningen kopplad till den absoluta värdeutvecklingen av en korg bestående av en eller flera Referenstillgångar. I en

Outperformance Option-struktur är däremot avkastningen kopplad till den relativa värdeutvecklingen för två Korgar istället för den absoluta värdeutvecklingen för endera Korg.

### *Kreditobligationer*

En kreditobligation ("CLN") är en obligation där Återbetalningsbeloppet, och i förekommande fall Räntebetalningarna, bestäms av huruvida det inträffar en Kredithändelse i förhållande till vissa utvalda åtaganden för ett antal Referensbolag. En Kredithändelse är en bolagshändelse som typiskt sett försätter en kreditgivare i ett sämre läge, t.ex. konkurs, betalningsinställelse eller skuldrekonstruktion (t.ex. sänkning av framtida kupongbetalningar eller förlängning av återbetalningsperioden). Därutöver är ränte- och återbetalningar beroende av Referensbolagets förmåga att betala ränta och kapitalbelopp på sina utestående skuldförbindelser.

Om en Kredithändelse inträffar för ett Referensbolag ska det nominella beloppet för beräkning av Återbetalningsbeloppet, och i förekommande fall Räntebetalningar, reduceras. Minskningen av det nominella beloppet kan beräknas utifrån marknadsnivåer eller förutbestämda fasta nivåer. Om fasta nivåer används kan denna vara noll.

Ränta på en CLN betalas typiskt sett löpande men kan också betalas vid den slutliga återbetalningsdagen. Räntan kan men behöver inte vara beroende av förekomsten av Kredithändelser.

En distinktion kan göras mellan tre typer av CLN-strukturer:

- (a) Non-tranched CLN,
- (b) Tranched CLN and
- (c) Nth-to-Default / Nth & Nth+1-to-Default CLN

För Tranched CLN och Non-tranched CLN är Återbetalningsbeloppet och i förekommande fall Räntebetalningarna baserade på de viktade förlusterna i samma eller olika portföljer av Referensbolag vilka är en följd av en eller flera Kredithändelser.

För så kallade Nth-to-Default och Nth & Nth+1-to-Default CLN är Återbetalningsbeloppet och i förekommande fall Räntebetalningarna baserade på antalet och möjligen ordningen på Kredithändelser i samma referensportfölj.

För Tranched CLN kan förekomsten av en Kredithändelse antingen helt sakna påverkan på återbetalningen eller ha en oproportionerligt stor påverkan på återbetalningen (och i förekommande fall räntebetalningar), beroende på den specifika strukturen.

För Non-tranched CLN kommer en minskning av det nominella beloppet på grund av en Kredithändelse att påverkar framtida återbetalning, och i förekommande fall räntebetalningar. Non-tranched CLN kan också utformas så att den har en *call*- eller *put*-möjlighet, d.v.s att den kan återbetalas vid en förbestämd tidpunkt innan den slutliga återbetalningsdagen på antingen Emittentens eller investerarens initiativ. Dessutom kan en Non-tranched CLN innebära en eller flera tilläggsbetalningar.

För så kallade Nth-to-Default CLN kommer de första N-1 Kredithändelserna inte att ha någon påverkan på det framtida återbetalningsbeloppet, och i förekommande fall räntebetalningarna. Den Nth Kredithändelsen kommer däremot att ha en oproportionerligt stor påverkan på det framtida återbetalningsbeloppet, och i förekommande fall räntebetalningarna.

För Nth & Nth+1-to-Default CLN kommer inträffandet av Nth och N+1th Kredithändelsen att ha en oproportionerligt stor påverkan på det framtida återbetalningsbeloppet och i förekommande fall räntebetalningarna.

### *"Delta 1"-struktur*

Under en Delta 1-struktur erhåller investeraren i Lånet aktuellt värde på Referenstillgången på återbetalningsdagen. Investeraren är fullt exponerad mot den underliggande Referenstillgångens värdeutveckling i denna typ av struktur och Lånet är inte kapitalskyddat.

### *"TOM Ackumulerande"-struktur*

En TOM Ackumulerande-struktur speglar en investering i en specifik Referenstillgång som endast är gjord under en begränsad tidsperiod under varje kalendermånad. Under andra tidsperioder speglar Lånen en investering med fast avkastning.

### *"Inflation Linker 2"-struktur*

Under en Inflation Linker 2 justeras räntebetalningar i förhållande till inflation genom att tillämpa en faktor motsvarande det ratio som erhålls genom att dividera CPI på värderingsdagen med Bas-CPI. Återbetalningsbeloppet inflationsjusteras genom att multiplicera kapitalbeloppet med en faktor som uppgår till det högre av 1 och det ratio som erhålls genom att dividera det slutliga CPI:t med Bas-CPI.

### *"Digital Long and Short"-Struktur*

I en Digital Long-struktur kommer återbetalningsbeloppet att uppgå till kapitalbeloppet multiplicerat med en förutbestämd kupongnivå och värdeutvecklingen i korgen på den slutliga värderingsdagen överstiger korgens strikenivå. Om korgens värdeutveckling understiger korgens strikenivå kommer återbetalningsbeloppet att uppgå till noll.

I en Digital Short-struktur är funktionen reverserad och återbetalningsbeloppet är noll om värdeutvecklingen i korgen på den slutliga värderingsdagen uppgår till eller överstiger korgens strikenivå.

Digitala strukturer kan också kombineras med best of/worst of funktionalitet vilket betyder att värderingstidpunkterna och återbetalningsbeloppet bestäms utifrån den referenstillgång som har bäst respektive sämst värdeutveckling istället för korgen i sin helhet.

### *Valutakomponenter*

Korgens värdeutveckling eller värdeutvecklingen hos individuella Referenstillgångar som beräknas enligt de strukturer som anges ovan kan också komma att multipliceras med en viss angiven valutakurs i syfte att nå det slutliga återbetalningsbeloppet, vilket kommer att reflektera förändringar i relevanta valutakurser under Lånets löptid.

### *Best of/Worst of Modifier*

Samtliga ovan nämnda värdeutvecklingsstrukturer kan också modifieras på sådant sätt att värderingar, observeringar och återbetalningsbelopp kan komma att bestämmas utifrån den Nth bästa (eller sämsta) Referenstillgången, där värdet N kommer att anges i de Slutliga Villkoren.

### *Kombination av strukturer*

Emittenten kan kombinera ovan värdeutvecklingsstrukturer med varandra genom att tillämpa olika värdeutvecklingsstrukturer för olika Referenstillgångar i en Korg, eller genom att tillämpa olika värdeutvecklingsstrukturer för olika tidsperioder under Lånens löptid.

## **5. Övriga faktorer som kan påverka storleken på återbetalning eller avkastning under ett Lån**

De ovan beskrivna lånetyperna och värdeutvecklingsstrukturerna kan komma att kombineras med någon eller några av nedan angivna faktorer. Dessa faktorer kan komma att påverka en investerares risk och storleken på avkastning och/eller återbetalningsbelopp under ett Lån.

### *Absoluta tal eller procentuella förändringar*

De jämförelsetal som kan förekomma i ovan beskrivna värdeutvecklingsstrukturer för att fastställa värdeutvecklingen kan vara både absoluta tal och procenttal.

### *Lån med justerbar ränte- och återbetalningsdag*

Det kan under vissa omständigheter förekomma att Emittenten har rätt att flytta (senarelägga) ränte- och återbetalningsdagen för Lån, till exempel om det är för låg likviditet i en viss Referenstillgång. Detta kommer i sådant fall att tydligt redovisas i Slutliga Villkor.

### *Förtidsinlösen*

Om ett Lån har en bestämmelse om förtidsinlösen har Emittenten rätt att återbetala Lånet i förtid om priset på en Referenstillgång under löptiden uppnår en viss förutbestämd nivå (så kallad *call*-möjlighet) eller av andra skäl. I vissa fall kan ett i förväg bestämt förtida inlösenbelopp vara angivet. Det förekommer strukturer där investeraren har rätt att lösa Lånet i förtid för att exempelvis säkra eller realisera en eventuell positiv värdeutveckling i Referenstillgången (så kallad *put*-möjlighet). Huruvida *call*- eller *put*-möjlighet förekommer kommer tydligt att redovisas i Slutliga Villkor.

### *Deltagandegrad*

Strukturen på Lånen kan innehålla en deltagandegrad som bestämmer exponeringen mot respektive Referenstillgång, det vill säga hur stor del av en värdeutveckling som kan tillgodoräknas investeraren i varje enskilt Lån. Deltagandegraden sätts av relevant Emittent och bestäms bland annat av löptid, volatilitet, marknadsrörelsen och förväntad avkastning för Referenstillgången.

### *Över- eller underkurs*

Lån kan vara utgivna till över- eller underkurs, vilket innebär att investeraren betalar mer eller mindre än nominellt belopp för Lånet. Nollkupongobligationer emitteras inte sällan till en underkurs. Strukturerade Lån emitteras ofta till en överkurs vilket innebär att investeraren betalar en premie för att erhålla en jämförelsevis större del av en Referenstillgångs värdeutveckling. Skillnaden mellan betalat belopp och Lånets nominella belopp, den så kallade överkursen, omfattas aldrig av en minsta återbetalningsfunktion i ett Lån.

### *Multiplikator och hävstångseffekter*

I vissa strukturerade Lån ingår en multiplikator med vilken värdeutvecklingen för en Referenstillgång multipliceras, vilket ger investeraren möjlighet till ökad avkastning i förhållande till investerat belopp. En hög multiplikator betingar ofta en högre premie i form av att Lånet emitteras till en överkurs. Multiplikatorn innebär en snabbare förlust av investerat kapital i händelse av en ogynnsam utveckling i Referenstillgången. Lån med multiplikator innehåller alltid ett golv vilket innebär att om värdeutvecklingen är negativ för investeraren så är den nedre gränsen noll.

### *"Leverage"*

"Leverage"-strukturer erbjuder, genom belåning i den underliggande portföljen av Referenstillgångar, en högre exponering mot den underliggande tillgången än vad storleken på det investerade kapitalet annars skulle tillåta. Belåningsgraden kan i vissa fall variera över tiden enligt en fördefinierad mekanism. En dylik mekanism kan exempelvis syfta till att hålla belåningsgraden och/eller exponeringen mot Referenstillgångarna inom vissa gränser.

### *Valutaelement*

Om Referenstillgångens valuta är en annan än Lånets valuta, kan investerare vara exponerade för en valutarisk i förhållande till växelkursen mellan Lånets och Referenstillgångens valuta.

Så kallad dual currency Lån kan ges ut under detta grundprospekt. Beträffande dual currency Lån kan betalning av kapital-, ränte-, avkastnings- och återbetalningsbelopp ske i olika valutor.

### *"Ombalansering"*

Ombalansering är en löpande justering av förhållandet mellan exponeringen under en risktillgång och investerat kapital.

### *"Genomsnitt av värderingar"*

När man bestämmer startvärdet och/eller slutvärdet för varje Referenstillgång kan dessa beräknas som ett genomsnitt av de underliggande slutvärdena vid förutbestämda tidpunkter. Värden för de underliggande observationerna kan tas periodiskt (t.ex. månadsvis, kvartalsvis, halvårsvis eller årsvis). Korgavkastningen beräknas sedan baserat på värdeutvecklingen för varje Referenstillgång under Lånets livstid, med beaktande av relevant viktning för varje Referenstillgång i Korgen.

### "Startnivå"

Startkursen (såsom angiven i Slutliga Villkor) kan sättas på ett sådant vis att det initiala värde som anges för en eller flera Referenstillgångar i Korgen för mätning av den relativa värdeutvecklingen för den Referenstillgången, inte motsvarar den initiala spot-kursen på den relevanta Referenstillgången. Detta skapar Lån som kan vara så kallat *in* eller *out of the money* på Lånedatumet. Till exempel, om avkastningen på en Referenstillgång beräknas genom att dividera Stängningskursen för den relevanta Referenstillgången med dess strikenivå och sedan subtrahera strikenivån kommer en Startnivå över 100% att resultera i att investeraren erhåller en proportionellt mindre avkastning än den relativa värdeutvecklingen för Referenstillgången. Ett Lån som är *out of the money* på Lånedatumet kommer att resultera i att Innehavaren eventuellt erhåller en lägre avkastning än vid en direkt investering i den relevanta Referenstillgången. Motsatsvis kommer ett Lån som är *in the money* på Lånedatumet resultera i en högre potentiell avkastning än vid den direkt investering i den relevanta Referenstillgången. En generella strikenivå kan också komma att tillämpas på korgen i sin helhet.

## TERMS AND CONDITIONS OF THE NOTES

*The following are the Terms and Conditions of the Notes which (subject to completion in the relevant Final Terms) will be applicable to each Series of Notes.*

### PART 1: – GENERAL CONDITIONS

The Notes are issued in accordance with a fiscal agency agreement, (as amended and/or restated and/or replaced from time to time, the "**Fiscal Agency Agreement**") dated 16 April 2013 and made between Nordea Bank AB (publ), ("**NBAB**"), Nordea Bank Finland Plc ("**NBF**"), Citibank, N.A., London Branch in its capacity as fiscal agent (the "**Fiscal Agent**", which expression shall include any successor to Citibank, N.A., London Branch in its capacity as such), Citibank, N.A. acting through its New York office as registrar (the "**Registrar**" in relation to any Series of Notes except Swedish Notes, which expression shall include any successor to Citibank, N.A. in its capacity as such), certain financial institutions named therein in their capacity as paying agents (the "**Paying Agents**", which expression shall include the Fiscal Agent and any substitute or additional paying agents appointed in accordance with the Fiscal Agency Agreement), Nordea Bank Danmark A/S in its capacity as issuing agent for VP Notes (as defined below) (the "**VP Issuing Agent**"), Nordea Bank Norge ASA in its capacity as Norwegian paying agent for VPS Notes (the "**VPS Paying Agent**"), Nordea Bank AB (publ) in its capacity as Swedish issuing agent for Swedish Notes (the "**Swedish Issuing Agent**") and Nordea Bank Finland Plc in its capacity as Finnish issuing agent for Finnish Notes (the "**Finnish Issuing Agent**"). The Notes have the benefit of a deed of covenant (the "**Deed of Covenant**") dated 16 April 2013 (as amended and/or restated and/or replaced from time to time), executed by NBAB and NBF in relation to the Notes. Copies of the Fiscal Agency Agreement and the Deed of Covenant are available for inspection at the specified office of each of the Paying Agents and the Registrar. All persons from time to time entitled to the benefit of obligations under any Notes shall be deemed to have notice of and to be bound by all of the provisions of the Fiscal Agency Agreement and the Deed of Covenant insofar as they relate to the relevant Notes. References in these Terms and Conditions to the "**Issuer**" are to whichever of NBAB or NBF is specified as the issuer in the applicable Final Terms.

The Notes are issued in series (each a "**Series**") made up of one or more tranches (each a "**Tranche**"), and each Tranche will be the subject of a final terms (each a "**Final Terms**") a copy of which, in the case of a Series in relation to which application has been made for admission to listing on the Official List of the Irish Stock Exchange and to trading on its regulated market, will be filed with the Irish Stock Exchange and will be available for inspection at the specified office of each of the Fiscal Agent or, as the case may be, the Registrar on or before the date of issue of the Notes of such Series. Notes may be cleared through the Danish Securities Centre, VP Securities A/S ("**VP Notes**" and the "**VP**", respectively), the Norwegian Central Securities Depository which will be Verdipapirsentralen ASA ("**VPS Notes**" and the "**VPS**", respectively), the Swedish Central Securities Depository which will be the Swedish Central Securities Depository and Clearing Organisation Euroclear Sweden AB, incorporated in Sweden with Reg. No. 556112-8074 ("**Swedish Notes**" and "**Euroclear Sweden**", or through the Finnish Central Securities Depository which will be Euroclear Finland Ltd, incorporated in Finland with Reg. No. 1061446-0, ("**Finnish Notes**" and "**Euroclear Finland**").

Swiss Franc Notes will be issued in bearer form and will be represented exclusively by a permanent global Note which shall be deposited by the Swiss Paying Agent with SIX SIS AG, Olten, Switzerland ("**SIS**"), or such other depository as may be approved by the SIX Regulatory Board of the SIX Swiss Exchange. For the purposes of Swiss Franc Notes, references in these Conditions to "**Euroclear**" and/or "**Clearstream, Luxembourg**" shall be construed as including references to SIS, which expression shall include any other clearing institution recognised by the SIX Swiss Exchange with which the Permanent Global Note may be deposited from time to time), which shall be considered an additional or alternative clearing system for the purposes of these Conditions.

The VP Notes will be registered in uncertificated and dematerialised book entry form with the VP. VP Notes registered in the VP are negotiable instruments and not subject to any restrictions on free negotiability under Danish law.

As the VP Notes will be in uncertificated and dematerialised book entry form, the Terms and Conditions of the VP Notes shall be deemed to be incorporated by reference in, and to form part of, the Deed of Covenant by which the VP Notes are constituted.

The VPS Notes will be registered in uncertificated and dematerialised book entry form with the VPS. VPS Notes registered in VPS are negotiable instruments and not subject to any restrictions on free negotiability under Norwegian law.

As the VPS Notes will be in uncertificated and dematerialised book entry form, the Terms and Conditions of the VPS Notes shall be deemed to be incorporated by reference in, and to form part of, the Deed of Covenant by which the VPS Notes are constituted.

A registrar agreement dated on or about 16 April 2013 (as amended, supplemented or replaced from time to time, the "**VPS Registrar Agreement**") has been entered into between the Issuer and the VPS Paying Agent in relation to the VPS Notes.

The registrar in respect of any Series of Swedish Notes will be Euroclear Sweden (the "**Swedish Registrar**") in accordance with the Swedish Financial Instruments Accounts Act (*lag (1998:1479) om kontoföring av finansiella instrument*) as amended (the "**SFIA Act**").

The Swedish Notes will be registered in uncertificated and dematerialised book entry form with Euroclear Sweden. Swedish Notes registered in Euroclear Sweden are negotiable instruments and not subject to any restrictions on free negotiability under Swedish law.

As the Swedish Notes will be in uncertificated and dematerialised book entry form, the Conditions of the Swedish Notes shall be deemed to be incorporated by reference in, and to form part of, the Deed of Covenant by which the Swedish Notes are constituted.

The Finnish Notes will be registered in uncertificated and dematerialised book entry form with Euroclear Finland. Finnish Notes registered in Euroclear Finland are negotiable instruments and not subject to any restrictions on free negotiability under Finnish law.

As the Finnish Notes will be registered on behalf of the Holder on a securities account pursuant to the Finnish Act on the Book-Entry Securities System and Clearing Activity (Fin. *laki arvo-osuusjärjestelmästä ja selvitystoiminnasta* (749/2012)), as amended and the Finnish Act on Book-Entry Accounts (Fin. *laki arvo-osuustileistä* (827/1991)), as amended, no physical securities will be issued. A request for a registration measure regarding Finnish Notes shall be addressed to the account operator (the "**Account Operator**") pursuant to the Finnish Act on the Book-Entry Securities System and Clearing Activity (Fin. *laki arvo-osuusjärjestelmästä ja selvitystoiminnasta* (749/2012)), as amended and the regulations of Euroclear Finland.

References in these Terms and Conditions (the "**Conditions**") to Notes are to Notes of the relevant Series and any references to Coupons and Receipts, both as defined below, are to Coupons and Receipts relating to Notes of the relevant Series.

## 1. Definitions

In these Terms and Conditions the following definitions shall apply.

|                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| " <b>Additional Financial Centre(s)</b> " | means the city or cities specified as such in the relevant Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| " <b>Affected Reference Asset</b> "       | a Reference Asset that is affected by one or more of Market Disruption, Disruption, Calculation Adjustment, Corrections, or Extraordinary Events, Change in Law or Increased Costs. If the Reference Asset is constituted by a basket of underlying assets, Market Disruption, Market Disruption Commodity, Disruption, Calculation Adjustment, Corrections, or Extraordinary Events, Change in Law or Increased Costs shall be deemed to have occurred only for such underlying asset or assets which are affected; |
| " <b>Back Stop Date</b> "                 | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| " <b>Barrier Level</b> "                  | means each barrier level specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| "Base CPI"             | the value of the relevant Inflation Rate as determined at the Valuation Time on the Initial Valuation Date(s);                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| "Base Currency"        | the currency in which the Reference Asset is denominated;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| "Basket"               | means the basket of Reference Assets or Reference Entities specified in the applicable Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| "Basket Participation" | <p>means the proportionate share of the Basket represented by each Reference Asset, determined as follows:</p> <p>If "<b>Fixed Basket Participation</b>" is specified as applicable in the Final Terms, the Basket Participation will be the fixed percentage specified in the Final Terms in relation to the relevant Reference Asset.</p> <p>If "<b>Rainbow Basket Participation</b>" is specified as applicable in the Final Terms, the Basket Participation will be determined by reference to the relative Reference Asset Return. Each Reference Asset will be assigned a ranking based on the Reference Asset Return as determined by the Issuer in accordance with the relevant performance structure specified in Condition 6(a) (<i>Redemption at Maturity</i>), and the Basket Participation of each Reference Asset will correspond to the Basket Participation shown against the relative ranking in the applicable Final Terms.</p> <p>If "<b>Replacement Cliquet Basket Participation</b>" is specified as applicable in the Final Terms, the Basket Participation will be determined by reference to the relative Replacement Cliquet Performance of the relevant Reference Asset. Each Reference Asset will be assigned a ranking based on the Replacement Cliquet Performance of the relevant Reference Asset as determined by the issuer, and the Basket Participation of each Reference Asset will correspond to the Basket Participation shown against the relative ranking in the applicable Final Terms.</p> <p>If "<b>Momentum Basket Participation</b>" is specified as applicable in the relevant Final Terms, the Basket Participation of each Reference Entity will initially be the value specified in the applicable Final Terms. Thereafter, the Basket Participation will be rebalanced on each applicable Rebalancing Date by reference to the relative Rebalancing Performance of each Reference Asset. Each Reference Asset will be assigned a ranking based on the Rebalancing Performance of the relevant Reference Asset during the period from (and including) the immediately preceding Rebalancing Date to (and including) the current Rebalancing Date, and the Basket Participation of each Reference Asset for the Rebalancing Period commencing on the current Rebalancing Date will correspond to the Basket Participation shown against the relevant ranking in the applicable Final Terms.</p> <p>If "<b>Accumulating Rainbow Basket Participation</b>" is specified as applicable in the Final Terms, the Basket Participation will be determined by reference to the relative Reference Asset Return. Each Reference Asset will be assigned a ranking on the Issue Date, as specified in the applicable Final Terms, and thereafter the Basket Participation will be recalculated on each Valuation Date based on the Reference Asset Return as determined by the Issuer in accordance with the relevant performance structure specified in Condition 6(a) (<i>Redemption at Maturity</i>), and the Basket Participation of each Reference Asset for the next following Valuation Period will be reset and correspond to the Basket Participation shown against the relative ranking in the applicable</p> |

Final Terms.

**"Basket Participation (Interest)"**

means the Basket Participation of each Reference Entity (Interest), determined as follows:

If **"Fixed Basket Participation (Interest)"** is specified as applicable in the Final Terms, the Basket Participation (Interest) will be the fixed percentage specified in the Final Terms in relation to the relevant Reference Entity (Interest).

If **"Rainbow Basket Participation (Interest)"** is specified as applicable in the Final Terms, the Basket Participation (Interest) will be determined by reference to the relative Reference Entity Return. Each Reference Entity (Interest) will be assigned a ranking based on the Reference Entity Return as determined by the Issuer in accordance with the relevant performance structure specified in Condition 6(a) (*Redemption at Maturity*), and the Basket Participation (Interest) of each Reference Entity (Interest) will correspond to the Basket Participation (Interest) shown against the relative ranking in the applicable Final Terms.

If **"Replacement Cliquet Basket Participation (Interest)"** is specified as applicable in the Final Terms, the Basket Participation (Interest) will be determined by reference to the relative Replacement Cliquet Performance of the relevant Reference Entity (Interest). Each Reference Entity (Interest) will be assigned a ranking based on the Replacement Cliquet Performance of the relevant Reference Entity (Interest) as determined by the issuer, and the Basket Participation (Interest) of each Reference Entity (Interest) will correspond to the Basket Participation (Interest) shown against the relative ranking in the applicable Final Terms.

If **"Momentum Basket Participation (Interest)"** is specified as applicable in the relevant Final Terms, the Basket Participation (Interest) of each Reference Entity (Interest) will initially be the value specified in the applicable Final Terms. Thereafter, the Basket Participation (Interest) will be rebalanced on each applicable Rebalancing Date by reference to the relative Rebalancing Performance of each Reference Entity (Interest). Each Reference Entity (Interest) will be assigned a ranking based on the Rebalancing Performance of the relevant Reference Entity (Interest) during the period from (and including) the immediately preceding Rebalancing Date to (and including) the current Rebalancing Date, and the Basket Participation (Interest) of each Reference Entity (Interest) for the Rebalancing Period commencing on the current Rebalancing Date will correspond to the Basket Participation (Interest) shown against the relevant ranking in the applicable Final Terms.

If **"Accumulating Rainbow Basket Participation (Interest)"** is specified as applicable in the Final Terms, the Basket Participation (Interest) will be determined by reference to the relative Reference Asset Return (Interest). Each Reference Asset (Interest) will be assigned a ranking on the Issue Date, as specified in the applicable Final Terms, and thereafter the Basket Participation (Interest) will be recalculated on each Interest Determination Date based on the Reference Asset Return (Interest) as determined by the Issuer in accordance with the relevant performance structure specified in Condition 6(a) (*Redemption at Maturity*), and the Basket (Interest) of each Reference Asset (interest) for the next following Interest Period will be reset and correspond to the Basket Participation (Interest) shown against the relative ranking in the applicable Final

|                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| "Cap Strike Upper"      | means the value specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| "Change in Law"         | as specified in Condition 9 ( <i>Change in Law</i> );                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| "CIBOR"                 | the Interest Rate which, (1) at or about 11.00 am Central European Time on the relevant day is published on Reuters' "DKNA13" screen for the relevant period (or through such other system or on such other screen as replaces the aforementioned system or screen) or, in the absence of such quotation, the Interest Rate which (2) at the aforementioned time corresponds to (a) the arithmetic mean of the rates for deposits in DKK for the relevant period on the Copenhagen interbank market as quoted by the Reference Banks or, where only one or no such quotation is given – (b) the Issuer's determination of the Interest Rate offered by Danish commercial banks for loans in DKK for the relevant period on the Copenhagen interbank market; |
| "Clearing System"       | means one or more of Euroclear, Clearstream Luxembourg, Euroclear Finland, Euroclear Sweden, VP and VPS, as specified in the applicable Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| "Closing Price"         | the value of the relevant Reference Asset at the Valuation Time on the applicable Rebalancing Date(s), Valuation Date(s) or Initial Valuation Date(s), as determined by the Issuer in the manner specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| "Correction"            | as specified in Part 2: <i>Additional Conditions for Certain Structured Notes</i> to these Conditions;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| "Coupon"                | the value specified in the relevant Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| "Coupon 2"              | the value specified in the relevant Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| "Coupon Barrier Level"  | each coupon barrier level specified in the relevant Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| "Coupon Rate"           | each coupon rate as specified in the relevant Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| "Credit Event"          | as specified in Part 3: <i>Additional Conditions for Credit-Linked Notes</i> to these Conditions;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| "Currency Business Day" | means any day in which commercial banks are open for business (including dealings in foreign exchange and foreign currency deposits) in the principal financial centre for the relevant currency. In respect of any transaction where the Notes and/or Reference Asset(s) are denominated in Euro, each TARGET Settlement Day shall be a Currency Business Day.                                                                                                                                                                                                                                                                                                                                                                                             |
| "Day Count Fraction"    | means, in respect of the calculation of an amount for any period of time (the " <b>Calculation Period</b> "), such day count fraction as may be specified in these Conditions or the relevant Final Terms and: <ul style="list-style-type: none"> <li>(i) if "<b>Actual/Actual (ICMA)</b>" is so specified, means: <ul style="list-style-type: none"> <li>(a) where the Calculation Period is equal to or shorter than the Regular Period during which it falls, the actual number of days in the Calculation Period divided by the product of (1) the actual number of days in such Regular Period and (2) the number of Regular Periods in any year; and</li> </ul> </li> </ul>                                                                           |

- (b) where the Calculation Period is longer than one Regular Period, the sum of:
- (A) the actual number of days in such Calculation Period falling in the Regular Period in which it begins divided by the product of (1) the actual number of days in such Regular Period and (2) the number of Regular Periods in any year; and
  - (B) the actual number of days in such Calculation Period falling in the next Regular Period divided by the product of (1) the actual number of days in such Regular Period and (2) the number of Regular Periods in any year;
- (ii) if "**Actual/Actual (ISDA)**" is so specified, means the actual number of days in the Calculation Period divided by 365 (or, if any portion of the Calculation Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Calculation Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Calculation Period falling in a non-leap year divided by 365);
- (iii) if "**Actual/365 (Fixed)**" is so specified, means the actual number of days in the Calculation Period divided by 365;
- (iv) if "**Actual/365 (Sterling)**" is so specified, means the actual number of days in the Calculation Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (v) if "**Actual/360**" is so specified, means the actual number of days in the Calculation Period divided by 360;
- (vi) if "**30/360**", "**360/360**" or "**Bond Basis**" is so specified, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction =

$$\frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"**Y<sub>1</sub>**" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"**Y<sub>2</sub>**" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"**M<sub>1</sub>**" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"**M<sub>2</sub>**" is the calendar month, expressed as number, in which the day immediately following the last day included in the Calculation Period falls;

"D<sub>1</sub>" is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D<sub>1</sub> will be 30; and

"D<sub>2</sub>" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31 and D<sub>1</sub> is greater than 29, in which case D<sub>2</sub> will be 30";

- (vii) if "30E/360" or "Eurobond Basis" is so specified, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

Day Count Fraction =

where:

"Y<sub>1</sub>" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"Y<sub>2</sub>" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"M<sub>1</sub>" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"M<sub>2</sub>" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"D<sub>1</sub>" is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D<sub>1</sub> will be 30; and

"D<sub>2</sub>" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31, in which case D<sub>2</sub> will be 30; and

- (viii) if "30E/360 (ISDA)" is so specified, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction =

$$\frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y<sub>1</sub>" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"Y<sub>2</sub>" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"M<sub>1</sub>" is the calendar month, expressed as a number, in

which the first day of the Calculation Period falls;

"M2" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"D<sub>1</sub>" is the first calendar day, expressed as a number, of the Calculation Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D<sub>1</sub> will be 30; and

"D2" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless (i) that day is the last day of February but not the Redemption Date or (ii) such number would be 31, in which case D2 will be 30,

**provided, however, that** in each such case the number of days in the Calculation Period is calculated from and including the first day of the Calculation Period to but excluding the last day of the Calculation Period;

**"Regular Period"** means:

- (i) in the case of Notes where interest is scheduled to be paid only by means of regular payments, each period from but excluding the Issue Date to and including the first Interest Payment Date and each successive period from but excluding one Interest Payment Date to and including the next Interest Payment Date;
- (ii) in the case of Notes where, apart from the first Interest Period, interest is scheduled to be paid only by means of regular payments, each period from but excluding a Regular Date falling in any year to and including the next Regular Date, where **"Regular Date"** means the day and month (but not the year) on which any Interest Payment Date falls; and
- (iii) in the case of Notes where, apart from one Interest Period other than the first Interest Period, interest is scheduled to be paid only by means of regular payments, each period from but excluding a Regular Date falling in any year to and excluding the next Regular Date, where **"Regular Date"** means the day and month (but not the year) on which any Interest Payment Date falls other than the Interest Payment Date falling at the end of the irregular Interest Period;

|                                  |                                                                                                                                                                                                                      |
|----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>"Dealer"/"Dealers"</b>        | NBAB, Nordea Bank Danmark A/S, NBF and Nordea Bank Norge ASA or any other dealer as appointed in respect of an issue of Notes under the Programme;                                                                   |
| <b>"Denomination"</b>            | the denomination of the Notes as specified in the Final Terms;                                                                                                                                                       |
| <b>"Early Redemption Amount"</b> | as specified in the Final Terms;                                                                                                                                                                                     |
| <b>"Early Redemption Date"</b>   | the Interest Payment Date(s) or other such date(s) as specified in the Final Terms on which the Issuer or, where applicable, the Holder, is entitled to demand early redemption of Notes pursuant to the Conditions; |

|                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| "Fixed Rate Notes"                | has the meaning given to it in Condition 5(a) ( <i>Interest — Fixed Rate</i> );                                                                                                                                       |
| "Fixed Recovery Value"            | as specified in the relevant Final Terms;                                                                                                                                                                             |
| "Floating Rate Notes"             | has the meaning given to it in Condition 5(d) ( <i>Interest – FRNs</i> );                                                                                                                                             |
| "Floor Strike"                    | means the value specified in the applicable Final Terms;                                                                                                                                                              |
| "Floor Strike Lower"              | means the value specified in the applicable Final Terms;                                                                                                                                                              |
| "Floor Strike Upper"              | means the value specified in the applicable Final Terms;                                                                                                                                                              |
| "Fund"                            | as specified in the Final Terms;                                                                                                                                                                                      |
| "Fund Event"                      | as further specified in Part 4: <i>Additional Conditions for Fund-Linked Notes</i> to these Conditions;                                                                                                               |
| "Fund-Linked Notes"               | means Notes in respect of which the Reference Asset(s) consist(s) of units or shares in a fund (or funds), as further specified in the relevant Final Terms;                                                          |
| "FX Factor"                       | means the value obtained by dividing the Initial FX Rate by the Final FX Rate;                                                                                                                                        |
| "FX Rate"                         | means the currency exchange rate specified in the Final Terms;                                                                                                                                                        |
| "FX Valuation Date"               | as specified in the Final Terms;                                                                                                                                                                                      |
| "Hedging Disruption"              | as specified in Condition 11 ( <i>Hedging Disruption</i> );                                                                                                                                                           |
| "Holder"                          | a person or entity identified as the holder of one or more Notes in accordance with these Conditions;                                                                                                                 |
| "Increased Costs"                 | as specified in Condition 10 ( <i>Increased Costs of Hedging</i> );                                                                                                                                                   |
| "Inflation-Linked Interest"       | the amount of interest determined in accordance with Condition 5(d) ( <i>Inflation-Linked Interest</i> );                                                                                                             |
| "Inflation-Linked Interest Notes" | has the meaning given to it in Condition 5(e) ( <i>Inflation-Linked Interest</i> );                                                                                                                                   |
| "Inflation Rate"                  | as specified in the Final Terms;                                                                                                                                                                                      |
| "Initial Basket Level"            | as specified in the Final Terms;                                                                                                                                                                                      |
| "Initial FX Valuation Date(s)"    | as specified in the Final Terms;                                                                                                                                                                                      |
| "Initial FX Rate"                 | unless otherwise specified in these Conditions means the FX Rate, or the average value of the FX Rate, on the applicable Initial Valuation Date(s) as specified in the Final Terms;                                   |
| "Initial Price"                   | unless otherwise specified in these Conditions, means the Closing Price, or the average of the Closing Prices, of the relevant Reference Asset on the applicable Initial Valuation Date(s) as                         |

|                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|--------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                      | specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>"Initial Valuation Date"</b>      | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>"Instalment Amount"</b>           | means, in relation to an Instalment Note, the amount of each instalment as may be specified in, or determined in accordance with the provisions of, the Final Terms. To the extent that an Instalment Amount requires determination, such amount may be determined by the Calculation Agent;                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>"Instalment Date"</b>             | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>"Interest Base Rate"</b>          | EURIBOR, STIBOR, LIBOR, NIBOR or CIBOR as may be specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| <b>"Principal Financial Centre"</b> | means, in relation to any currency, the principal financial centre for that currency <b>provided, however, that:</b> <ul style="list-style-type: none"> <li>(a) in relation to euro, it means the principal financial centre of such Member State of the European Communities as is selected (in the case of a payment) by the payee or (in the case of a calculation) by the Calculation Agent; and</li> <li>(b) in relation to New Zealand dollars, it means either Wellington or Auckland as is selected (in the case of a payment) by the payee or (in the case of a calculation) by the Calculation Agent;</li> </ul> |
| <b>"Programme Amount"</b>           | €10,000,000,000 or the equivalent thereof in other currencies (unless otherwise amended by agreement between the Issuers and the Dealers).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>"Rate Adjustment Notes"</b>      | has the meaning given to it in Condition 5(b) ( <i>Interest – Rate Adjustment</i> );                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>"Rebalancing Date"</b>           | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>"Rebalancing Performance"</b>    | is calculated by dividing the Closing Price of the relevant Reference Asset or Reference Asset (Interest) on the relevant Rebalancing Date by the Closing Price of the relevant Reference Asset or Reference Asset (Interest) on the immediately preceding Rebalancing Date or (in the case of the initial Rebalancing Date), the Start Date.                                                                                                                                                                                                                                                                              |
| <b>"Record Date"</b>                | the Business Day on which the entitlement of Holders to receive payment under these Conditions, is determined, as specified in Condition 8 ( <i>Payments</i> );                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>"Redemption Amount"</b>          | the amount calculated in accordance with Condition 6 ( <i>Redemption and Purchase</i> ) or such other amount as may be specified in the applicable Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>"Redemption Date"</b>            | as specified in the Final Terms – the day on which the Notes shall be redeemed;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>"Redemption Proceeds"</b>        | meant the amount(s) received by the Issuer or other applicable Hedging Party as a result of unwinding any hedge position entered into by the Issuer or relevant Hedging Party in order to hedge any obligation of the Issuer to make payments in respect of the Notes.                                                                                                                                                                                                                                                                                                                                                     |
| <b>"Reference Asset(s)"</b>         | as specified in the Final Terms – Reference Assets may include equities, shares (including private equity)/depository receipts, indices, interest rates, currencies, fund units, commodities, credit risks or baskets thereof, combinations or relationships between assets, the change in price or performance of which affects the size of the Redemption Amount;                                                                                                                                                                                                                                                        |
| <b>"Reference Banks"</b>            | four major commercial banks which, at the relevant time, quote the relevant Interest Base Rate and are appointed by the Issuing Agent (or, where applicable, the Calculation Agent) or Issuer;                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>"Reference Entity"</b>           | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>"Reference Entity (Index)"</b>   | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

|                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| <b>"STIBOR"</b>                      | the Interest Rate which, (1) at or about 11.00 am Central European Time on the relevant day is published on Reuters' " <b>SIOR</b> " screen for the relevant period (or through such other system or on such other screen as replaces the aforementioned system or screen) or, in the absence of such quotation, the Interest Rate which (2) at the aforementioned time corresponds to (a) the arithmetic mean of the rates for deposits in SEK for the relevant period on the Stockholm interbank market as quoted by the Reference Banks or, where only one or no such quotation is given – (b) the Issuer's determination of the Interest Rate offered by Swedish commercial banks for loans in SEK for the relevant period on the Stockholm interbank market;                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>"Strike Level"</b>                | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>"Strike Lower"</b>                | Means the value specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>"Strike Upper"</b>                | Means the value specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>"TARGET2"</b>                     | means the Trans-European Automated Real-Time Gross Settlement Express Transfer payment system which utilises a single shared                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|                                   |                                                                                                                                                                                                                               |
|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                   | platform and which was launched on 19 November 2007;                                                                                                                                                                          |
| <b>"TARGET Settlement Day"</b>    | means any day on which TARGET2 is open for the settlement of payments in euro;                                                                                                                                                |
| <b>"Target Redemption Amount"</b> | as specified in the Final Terms;                                                                                                                                                                                              |
| <b>"TOM Period"</b>               | means the dates specified as such in the applicable Final Terms;                                                                                                                                                              |
| <b>"Tranche Attachment Point"</b> | the percentage specified in the Final Terms;                                                                                                                                                                                  |
| <b>"Tranche Attachment Range"</b> | means the result obtained by subtracting the Tranche Attachment Point from the Tranche Detachment Point;                                                                                                                      |
| <b>"Tranche Detachment Point"</b> | the percentage specified in the Final Terms;                                                                                                                                                                                  |
| <b>"Transaction Date"</b>         | a day on which an agreement is reached between an Issuing Agent and Issuer regarding placement of Notes or, where the Issuer itself offers Notes, as determined by the Issuer;                                                |
| <b>"Valuation Date(s)"</b>        | as specified in the Final Terms;                                                                                                                                                                                              |
| <b>"Valuation Period"</b>         | means the period from (but excluding) each Valuation Date (including the Initial Valuation Date), to and including the immediately following Valuation Date.                                                                  |
| <b>"Valuation Time"</b>           | unless otherwise specified in the Final Terms, with respect to each Reference Asset, the time at which its official closing price is determined or the value thereof is otherwise determined as specified in the Final Terms; |
| <b>"Weighted Asset Return"</b>    | means, unless otherwise specified in these Conditions, the product of the Reference Asset Return and the Basket Participation in respect of each relevant Reference Asset;                                                    |
| <b>"Zero Coupon Notes"</b>        | has the meaning given to it in Condition 5(f) ( <i>Zero Coupon Notes</i> ).                                                                                                                                                   |

## 2. **Form and Denomination**

### (a) **Form**

Notes, other than VP Notes, VPS Notes, Swedish Notes and Finnish Notes, are issued in bearer form or registered form, as specified in the relevant Final Terms and are serially numbered.

The VP Notes are issued in uncertificated and dematerialised book entry form in accordance with the Danish Securities Trading etc. Act (*Værdipapirhandelsloven*), as amended from time to time, and the Danish Executive Order on Book Entry, etc. of dematerialised Securities in a Central Securities Depository (*Bekendtgørelse om registrering m.v. af fondsaktiver i en værdipapircentral*), as amended from time to time.

The VPS Notes are issued in uncertificated and dematerialised book entry form in accordance with the Norwegian Securities Register Act 2002 (in Norwegian: *lov om registrering av finansielle instrumenter 2002 5. juli nr. 64*).

The Swedish Notes are issued in uncertificated and dematerialised book entry form in accordance with the Swedish Financial Instruments Accounts Act (*Sw. lag (1998:1479) om kontoföring av finansiella instrument*) as amended.

Finnish Notes are issued in uncertificated and dematerialised book entry form in accordance with the Finnish Act on the Book-Entry Securities System and Clearing Activity (*Fin. laki arvo-*

osuusjärjestelmästä ja selvitystoiminnasta (749/2012)), as amended, and the Finnish Act on Book-Entry Accounts (Fin. laki arvo-osuustileistä (827/1991)), as amended, as well as the rules and regulations of Euroclear Finland.

(b) **Form of Bearer Notes**

Notes issued in bearer form ("**Bearer Notes**") will be represented upon issue by either a temporary global note (a "**Temporary Global Note**") or a permanent global note (a "**Permanent Global Note**") in either case in substantially the form (subject to amendment and completion) scheduled to the Fiscal Agency Agreement.

The Temporary Global Note and/or the Permanent Global Notes will be deposited with, and held by, a common depositary or common safekeeper for and on behalf of Euroclear Bank SA/NV ("**Euroclear**") or Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**") or any other clearing system to which Notes or any interest therein may from time to time be credited. Payments of principal or interest (if any) on a Permanent Global Note will be made through Euroclear and Clearstream, Luxembourg.

Interest bearing Definitive Notes will, if so specified in the relevant Final Terms, have attached thereto at the time of their initial delivery coupons ("**Coupons**"), presentation of which will be prerequisite to the payment of interest in certain circumstances specified below **provided that** interest bearing Definitive Notes, if so specified in the relevant Final Terms, have attached thereto at the time of initial delivery Coupons and one Talon for further Coupons (a "**Talon**", together with the Coupons in such case and where the context so permits, the "**Coupons**") entitling the holder thereof to further Coupons and a further Talon.

Bearer Notes, the principal amount of which is repayable by instalments ("**Instalment Notes**") have attached thereto at the time of their initial delivery, payment receipts ("**Receipts**") in respect of the instalments of principal.

(c) **Form of Registered Notes**

Notes issued in registered form ("**Registered Notes**") will be in substantially the form (subject to amendment and completion) scheduled to the Fiscal Agency Agreement. Registered Notes will not be exchangeable for Bearer Notes.

(d) **Form of Swiss Franc Notes**

Swiss Franc Notes will be denominated in Swiss francs, issued in bearer form and will be represented exclusively by a Permanent Global Note which shall be deposited by the Swiss Paying Agent with SIS, or such other depositary as may be approved by the SIX Regulatory Board of the SIX Swiss Exchange. Once the Permanent Global Note is deposited with the Intermediary and entered into the accounts of one or more participants of the Intermediary, the Notes will constitute intermediated securities (*Bucheffekten*) ("**Intermediated Securities**") in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*).

Each Holder (as defined in Condition 3 below) shall have a quotal co-ownership interest (*Miteigentumsanteil*) in the Permanent Global Note to the extent of his claim against the Issuer, **provided that** for so long as the Permanent Global Note remains deposited with the Intermediary the co-ownership interest shall be suspended and the Notes may only be transferred or otherwise disposed of in accordance with the provisions of the Swiss Federal Intermediated Securities Act (*Bucheffektengesetz*), i.e., by the entry of the transferred Notes in a securities account of the transferee.

Neither the Issuer nor the Holders shall at any time have the right to effect or demand the conversion of the Permanent Global Note (*Globalurkunde*) into, or the delivery of, uncertificated securities (*Wertrechte*) or Definitive Notes (*Wertpapiere*).

No physical delivery of the Notes shall be made unless and until Definitive Notes (*Wertpapiere*) are printed. Definitive Notes may only be printed, in whole, but not in part, if the Swiss Paying Agent determines, in its sole discretion, that the printing of the Definitive Notes (*Wertpapiere*) is necessary or useful. Should the Swiss Paying Agent so determine, it shall provide for the printing

of definitive Notes (*Wertpapiere*) without cost to the Holders. Upon delivery of the Definitive Notes (*Wertpapiere*), the Permanent Global Note will be cancelled and the definitive Notes (*Wertpapiere*) shall be delivered to the Holders against cancellation of the Notes in the Holders' securities accounts.

(e) ***Form of VP Notes***

A Tranche or a Series of Notes (as the case may be), if so specified in the applicable Final Terms may be cleared through the VP in accordance with Danish laws, regulations and operating procedures applicable to and/or issued by the VP for the time being (the "**VP Rules**"). The VP Notes shall be regarded as Registered Notes for the purposes of these Conditions. No physical Notes or certificates will be issued in respect of the VP Notes and the provisions in these Conditions relating to presentation, surrendering or replacement of such physical VP Notes or certificates shall not apply to the VP Notes. The Issuer will certify that Nordea Bank Danmark A/S is, on the date of issue of a Tranche or a Series of VP Notes (as the case may be), entered in the VP as the account holding institute (*kontoførende institut*) for the duly registered owners of the Notes of such Tranche or Series (as the case may be).

(f) ***Form of VPS Notes***

The VPS Notes shall be regarded as Registered Notes for the purposes of these Conditions save to the extent these Conditions are inconsistent with Norwegian laws, regulations and operating procedures applicable to and/or issued by VPS for the time being (the "**VPS Rules**"). No physical VPS Notes or certificates will be issued in respect of the VPS Notes and the provisions in these Conditions relating to presentation, surrendering or replacement of such physical Notes or certificates shall not apply to the VPS Notes.

(g) ***Form of Swedish Notes***

The Swedish Notes shall be regarded as Registered Notes for the purposes of these Conditions save to the extent these Conditions are inconsistent with Swedish laws, regulations and operating procedures applicable to and/or issued by Euroclear Sweden for the time being (the "**Euroclear Sweden Rules**"). No physical Swedish Notes or certificates will be issued in respect of the Swedish Notes and the provisions in these Conditions relating to presentation, surrender or replacement of such physical Swedish Notes or certificates shall not apply to the Swedish Notes.

(h) ***Form of Finnish Notes***

The Finnish Notes shall be regarded as Registered Notes for the purposes of these Conditions save to the extent these Conditions are inconsistent with Finnish laws, regulations and operating procedures applicable to and/or issued by Euroclear Finland for the time being (the "**Euroclear Finland Rules**"). No physical Finnish Notes or certificates will be issued in respect of the Finnish Notes and the provisions in these Conditions relating to presentation, surrender or replacement of such physical Finnish Notes or certificates shall not apply to the Finnish Notes.

(i) ***Denomination of Bearer Notes***

Bearer Notes will be in the denomination or denominations (each of which denomination is integrally divisible by each smaller denomination) specified in the Final Terms. Bearer Notes of one denomination may not be exchanged for Bearer Notes of any other denomination.

(j) ***Denomination of Registered Notes***

Registered Notes will be in the minimum denomination specified in the relevant Final Terms and, unless otherwise specified in the relevant Final Terms, integral multiples thereof.

(k) ***Denomination of VP Notes***

VP Notes are in the denomination or denominations (each of which denomination is integrally divisible by each smaller denomination) specified in the Final Terms. VP Notes of one denomination may not be exchanged for VP Notes of any other denomination.

(l) ***Denomination of VPS Notes***

VPS Notes are in the denomination or denominations (each of which denomination is integrally divisible by each smaller denomination) specified in the Final Terms. VPS Notes of one denomination may not be exchanged for VPS Notes of any other denomination.

(m) ***Denomination of Swedish Notes***

Swedish Notes are in the denomination or denominations (each of which denomination is integrally divisible by each smaller denomination) specified in the Final Terms. Swedish Notes of one denomination may not be exchanged for Swedish Notes of any other denomination.

(n) ***Denomination of Finnish Notes***

Finnish Notes are in the denomination or denominations (each of which denomination is integrally divisible by each smaller denomination) specified in the Final Terms. Finnish Notes of one denomination may not be exchanged for Finnish Notes of any other denomination.

(o) ***Currency of Notes***

Notes may be denominated in any currency subject to compliance with all applicable legal and/or regulatory and/or central bank requirements.

For the purposes of these Conditions, references to Notes shall, as the context may require, be deemed to include Temporary Global Notes, Permanent Global Notes, Definitive Notes or, as the case may be, Registered Notes.

The Issuer may in certain circumstances consolidate the Notes with one or more further Tranches of Notes of the same Series, as described in Condition 18 (*Further Issues*) below.

3. **Title**

(a) ***Title to Bearer Notes, Registered Notes, VP Notes, VPS Notes, Swedish Notes and Finnish Notes***

Title to the Bearer Notes, Receipts and Coupons passes by delivery. References herein to the "**Noteholders**" or "**Holders**" of Bearer Notes or of Receipts or Coupons signify the bearers of such Bearer Notes or such Receipts or Coupons.

Title to Registered Notes passes by registration in the register which is kept by the Registrar as specified in the relevant Final Terms. References herein to the "**Noteholders**" or "**Holders**" of Registered Notes signify the persons in whose names such Notes are so registered.

Title to the VP Notes shall pass by registration in the register (the "**Danish Note Register**") maintained by the VP Issuing Agent in accordance with the VP Rules. The Issuer shall be entitled to obtain information from VP in accordance with the VP Rules. Except as ordered by a court of competent jurisdiction or as required by law, the Holder (as defined below) of any VP Note shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it and no person shall be liable for so treating the Holder. In these Conditions in relation to VP Notes only, "**Note Holder**" or "**Holder**" means, as the context requires, the person in whose name a VP Note is registered in the Danish Note Register and shall also include any person duly authorised to act as a nominee and registered as a holder of the VP Notes. If the Notes of such Tranche cease to be registered in the VP, Nordea Bank Danmark A/S as account holding institute for the duly registered owners shall supply the VP Issuing Agent with all necessary information with regard to such duly registered owners and the VP Issuing Agent shall enter such information into the Danish Note Register.

Title to the VPS Notes shall pass by registration in the register (the "**VPS Register**") in accordance with the Norwegian VPS Rules. The Issuer shall be entitled to obtain information from VPS in accordance with the VPS Rules. Except as ordered by a court of competent jurisdiction or as required by law, the Holder (as defined below) of any VPS Note shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is

overdue and regardless of any notice of ownership, trust or an interest in it and no person shall be liable for so treating the Holder. In these Conditions in relation to VPS Notes only, "**Note Holder**" or "**Holder**" means, as the context requires, the person in whose name a VPS Note is registered in the VPS Register and shall also include any person duly authorised to act as a nominee (*förvalter*) and registered as a holder of the VPS Notes.

Title to the Swedish Notes shall pass by registration in the book entry system and register maintained by Euroclear Sweden (the "**Euroclear Sweden Register**"). Except as ordered by a court of competent jurisdiction or as required by law, the Holder (as defined below) of any Swedish Note shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it and no person shall be liable for so treating the Holder. In these Conditions in relation to Swedish Notes only, "**Note Holder**" or "**Holder**" means, as the context requires, the person in whose name a Swedish Note is registered in the Euroclear Sweden Register and shall also include any person duly authorised to act as a nominee (*förvaltare*) and registered as a holder of the Swedish Notes.

Where a nominee (*förvaltare*) in accordance with the SFIA Act is so evidenced it shall be treated by the Issuer as the holder of the relevant Swedish Notes.

Title to the Finnish Notes shall pass by registration in the computerised register maintained by or on behalf of Euroclear Finland. Except as ordered by a court of competent jurisdiction or as required by law, the Holder (as defined below) of any Finnish Note shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it and no person shall be liable for so treating the Holder. References herein to the "**Note Holders**" or "**Holders**" of Finnish Notes signify the persons in whose names such Notes are so registered.

The Holder of any Note or Coupon will (except as otherwise required by applicable law or regulatory requirement) be treated as its absolute owner for all purposes (whether or not it is overdue and regardless of any notice of ownership, trust or any interest thereof or therein, any writing thereon, or any theft or loss thereof) and no person shall be liable for so treating such Holder.

(b) ***Transfer of Registered Notes, VP Notes, VPS Notes, Swedish Notes and Finnish Notes***

*Registered Notes*

A Registered Note may, upon the terms and subject to the conditions set forth in the Fiscal Agency Agreement, be transferred in whole or in part only (**provided that** such part is equal to, or is a permitted integral multiple in excess of, the minimum denomination specified in the relevant Final Terms) upon the surrender of the Registered Note to be transferred, together with the form of transfer endorsed on it duly completed and executed, at the specified office of the Registrar. A new Registered Note will be issued to the transferee and, in the case of a transfer of part only of a Registered Note, a new Registered Note in respect of the balance not transferred will be issued to the transferor.

Each new Registered Note to be issued upon the transfer of Registered Notes will, upon the effective receipt of such form of transfer by the Registrar at its specified office, be available for delivery at the specified office of the Registrar. For these purposes, a form of transfer received by the Registrar during the period of fifteen London Banking Days, ending on the due date for any payment on the relevant Registered Notes shall be deemed not to be effectively received by the Registrar until the day following the due date for such payment.

The issue of new Registered Notes on transfer will be effected without charge by or on behalf of the Issuer or the Registrar, but upon payment by the applicant of (or the giving by the applicant of such indemnity as the Registrar may require in respect of) any tax or other governmental charges which may be imposed in relation thereto.

*VP Notes*

One or more VP Notes may be transferred in accordance with VP Rules. Each new VP Note to be issued shall be available for delivery within three business days of receipt of the request and

the surrender of the VP Notes for exchange. Delivery of the new VP Note(s) shall be made to the same VP account on which the original VP Notes were registered. In this Condition 3(b) (Transfer of Registered Notes, VP Notes, VPS Notes, Swedish Notes and Finnish Notes) in relation to VP Notes only, "**business day**" has the meaning ascribed to such term by the then applicable rules and procedures of the VP.

Exchange and transfer of VP Notes on registration, transfer, partial redemption or exercise of a call or a put option shall be effected without charge by or on behalf of the VP Issuing Agent, but upon payment of any tax or other governmental charges that may be imposed in relation to it (or the giving of such indemnity as the VP Issuing Agent may require).

No Holder may require the transfer of a VP Note to be registered during any closed period pursuant to the then applicable VP Rules.

All transfers of VP Notes are subject to any cut-off dates applicable to such VP Notes and are subject to any other rules and procedures for the time being of the VP. The VP's rules and regulations may be downloaded from its website: <http://www.vp.dk>.

#### *VPS Notes*

One or more VPS Notes may be transferred in accordance with the VPS Rules. In the case of an exercise of option resulting in VPS Notes of the same holding having different terms, separate VPS Notes registered with the VPS Register shall be issued in respect of those VPS Notes of that holding having the same terms. Such VPS Notes shall only be issued against surrender of the existing VPS Notes in accordance with the VPS Rules.

Each new VPS Note to be issued pursuant to the above, shall be available for delivery within three business days of receipt of the request and the surrender of the VPS Notes for exchange. Delivery of the new VPS Note (s) shall be made to the same VPS account on which the original VPS Notes were registered. In this Condition 3(b) (*Transfer of Registered Notes, VP Notes, VPS Notes, Swedish Notes and Finnish Notes*) in relation to VPS Notes only, "**business day**" means a day, other than a Saturday or Sunday on which VPS is open for business.

Exchange and transfer of VPS Notes on registration, transfer, partial redemption or exercise of an option shall be effected without charge by or on behalf of the Issuer or the VPS Paying Agent, but upon payment of any tax or other governmental charges that may be imposed in relation to it (or the giving of such indemnity as the VPS Paying Agent may require).

No Holder may require the transfer of a VPS Note to be registered during any closed period pursuant to the then applicable VPS Rules.

#### *Swedish Notes*

One or more Swedish Notes may be transferred in accordance with Euroclear Sweden Rules. Exchange and transfer of Swedish Notes on registration, transfer, partial redemption or exercise of a call or a put option shall be effected without charge by or on behalf of the Issuer or the Swedish Issuing Agent, but upon payment of any tax or other governmental charges that may be imposed in relation to it (or the giving of such indemnity as the Swedish Issuing Agent may require).

No Holder may require the transfer of a Swedish Note to be registered during any closed period pursuant to the then applicable Euroclear Sweden Rules.

All transfers of Swedish Notes are subject to any cut-off dates applicable to such Swedish Notes and are subject to any other rules and procedures for the time being of Euroclear Sweden. The Euroclear Sweden Rules may be downloaded from its website: <http://www.euroclear.com>.

#### *Finnish Notes*

One or more Finnish Notes may be transferred in accordance with Euroclear Finland Rules. Exchange and transfer of Finnish Notes on registration, transfer, partial redemption or exercise of a call or a put option shall be effected without charge by or on behalf of the Issuer or the Finnish

Issuing Agent, but upon payment of any tax or other governmental charges that may be imposed in relation to it (or the giving of such indemnity as the Finnish Issuing Agent may require).

No Holder may require the transfer of a Finnish Note to be registered during any closed period pursuant to the then applicable Euroclear Finland Rules.

All transfers of Finnish Notes are subject to any cut-off dates applicable to such Finnish Notes and are subject to any other rules and procedures for the time being of Euroclear Finland. Euroclear Finland's rules and regulations may be downloaded from its website: <http://www.euroclear.com>.

#### *Swiss Franc Notes*

The records of the Intermediary will determine the number of Notes held through each participant in that Intermediary. In respect of the Notes held in the form of Intermediated Securities, the holders of the Notes (the "**Holders**") will be the persons holding the Notes in a securities account (*Effektenkonto*) which is in their own name, or in the case of intermediaries (*Verwahrungsstellen*), the intermediaries (*Verwahrungsstellen*) holding the Notes for their own account in a securities account (*Effektenkonto*) which is in their name.

#### 4. **Status**

The Notes of each Series constitute unsecured and unsubordinated obligations of the Issuer and rank *pari passu* without any preference among themselves and at least *pari passu* with all other outstanding unsecured and unsubordinated obligations of the Issuer, present and future.

#### 5. **Interest**

Notes may be interest bearing or non-interest bearing, as specified in the relevant Final Terms. The amount of interest payable per Calculation Amount on each Interest Payment Date, (the "**Interest Amount**") shall be calculated in accordance with one of the following alternatives as further specified in the relevant Final Terms. Unless otherwise specified in these Conditions, the Interest Amount will be an amount per Calculation Amount and will be payable in arrear on each Interest Payment Date.

##### (a) ***Interest – Fixed Rate***

If the Notes are specified as "Fixed Rate" Notes, the Notes shall bear interest at the Interest Rate from and including the Issue Date to but excluding the Redemption Date **provided that** in the case of Swedish Notes, such Swedish Notes shall bear interest from, but excluding their Issue Date to and including the Redemption Date.

Interest accrued during each Interest Period will be payable in arrear on the relevant Interest Payment Dates and shall be calculated by applying the Interest Rate to the Calculation Amount, multiplying the product by the Day Count Fraction, and rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the specified Denomination of such Note divided by the Calculation Amount. For the purposes of this Condition 5 (*Interest*), a "**sub-unit**" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

Unless otherwise specified in the Final Terms, the Business Day Convention stated in Condition 8 (8)(c) below shall apply to Fixed Rate Notes.

##### (b) ***Interest – Rate Adjustment***

If the Notes are specified as "Rate Adjustment" Notes, the provisions of this Condition 5 (*Interest*) that are to be followed for calculation of the Interest payable on the Notes may be adjusted periodically, as specified in the applicable Final Terms.

##### (c) ***Interest – Combination***

If so specified in the applicable Final Terms, Notes may also bear interest in accordance with more than one of the interest alternatives set out in this Condition 5 (*Interest*), and the two

Interest Amounts so determined shall be aggregated for the purposes of determining the total amount payable to holders on the relevant Interest Payment Date.

(d) ***Interest – FRNs (Floating Rate Notes)***

If the Notes are specified as "Floating Rate" Notes, the Notes shall bear interest from and including the Issue Date up to but excluding the Redemption Date **provided that** in the case of Swedish Notes, such Swedish Notes shall bear interest from, but excluding their Issue Date to and including the Redemption Date. The Interest Rate applicable to each Interest Period shall be determined by the Issuing Agent (or, where applicable, the Calculation Agent) or the Issuer on the relevant Interest Determination Date as the sum of the Interest Base Rate and the Interest Margin for the relevant period. The Interest Base Rate for each Interest Period shall be notified to the Holders in accordance with Condition 16 (*Notices*).

Interest for each Interest Period is paid in arrear on the relevant Interest Payment Date and is calculated by applying the Interest Rate to the Calculation Amount, multiplying the product by the Day Count Fraction, and rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figures by a fraction equal to the specified Denomination of such Note divided by the Calculation Amount. For the purposes of this Condition 4, a "sub-unit" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

Unless otherwise specified in the Final Terms, the Business Day Convention stated in Condition 8(8)(c) below shall apply to Floating Rate Notes.

(e) ***Interest – Inflation-Linked***

If the Notes are specified as "Inflation-Linked Interest Notes", the Notes shall bear Inflation-Linked Interest from and including the Issue Date to but excluding the Redemption Date **provided that** in the case of Swedish Notes, such Swedish Notes shall bear interest from, but excluding their Issue Date to and including the Redemption Date. The Interest Rate may be fixed or floating and the amount of interest for each Interest Period shall be calculated in the manner stated in Condition 5(a) (*Interest – Fixed Rate*) or Condition 5(d) (*Interest – FRNs*) respectively and multiplied by a figure corresponding to the ratio calculated by dividing the Final CPI by the Base CPI. The amount of Inflation-Linked Interest for each Interest Period shall be notified to the Holders in accordance with Condition 16 (*Notices*), as soon as such amount is determined by the Issuer.

Unless otherwise specified in the Final Terms, the Business Day Convention specified in Condition 8(8)(c) below shall apply to Inflation-Linked Interest Notes.

(f) ***Zero Coupon Notes***

If the Notes are specified as "Zero Coupon Notes", the Notes shall not bear interest. Zero coupon Notes may be issued at a discount and redeemed at their Principal Amount. Alternatively, zero coupon Notes may be issued at their Principal Amount and redeemed at a higher Redemption Amount as specified in the applicable Final Terms and which, in any such case, shall be paid on the Redemption Date.

Unless otherwise stated in the Final Terms, the Business Day Convention specified in Condition 8(8)(c) below shall apply to zero coupon Notes.

*Unless otherwise stated in the Final Terms, Notes shall not be Zero coupon Notes and on redemption of the Notes, any payment of Redemption Amount over or below the Principal Amount shall be considered as interest or yield.*

(g) **Coupon Bearing Autocallable Notes**

If the Notes are specified as "Coupon Bearing Autocallable Notes" and if the Basket Value on any Valuation Date is at or above one or more specified Coupon Barrier Level(s), then the Notes will pay interest (the "**Coupon**") on the immediately succeeding Interest Payment Date. The amount of any such Coupon payment will be determined as follows:

- (i) If "**Flat Coupon**" is specified in the Final Terms, the Coupon payment will be equal to the Principal Amount of the Notes multiplied by the relevant Coupon Rate;
- (ii) If "**Memory Coupon**" is specified in the Final Terms the Coupon payment will be equal to the Principal Amount of the Notes multiplied by the relevant Coupon Rate, multiplied by the number of immediately preceding Interest Payment Dates (up to and including the Interest Payment Date immediately following the applicable Valuation Date) for which a Coupon has not been paid;
- (iii) If "**Plus Flat Coupon**" is specified in the Final Terms the Coupon payment will be equal to the Principal Amount of the Notes multiplied by the higher of: (a) the relevant Coupon Rate and (b) the Bonus Factor; and
- (iv) If "**Plus Memory Coupon**" is specified in the Final Terms the Coupon payment will be equal to the Principal Amount of the Notes multiplied by the higher of: (a) the relevant Coupon Rate, multiplied by the number of immediately preceding Interest Payment Dates (up to and including the Interest Payment Date immediately following the applicable Valuation Date) for which a Coupon has not been paid and (b) the Bonus Factor.

The "**Bonus Factor**" and "**Basket Value**" will be:

- (i) If "**Basket Rate**" is specified in the Final Terms, the Bonus Factor will be the Basket Return and the Basket Value will be the Basket Return plus the Strike Level;
- (ii) if "**Best of/Worst of Rate**" is specified in the Final Terms, the Bonus Factor will be the Reference Asset Return of the Nth best performing Reference Asset and the Basket Value will be the Final Price of the Nth best performing Reference Asset on the relevant Valuation Date divided by the Nth best Initial Price of the performing Reference Asset; or

If the Basket Value on any Valuation Date is below the lowest Coupon Barrier Level, no interest will be payable on the immediately succeeding Interest Payment Date.

The "Nth best performing" Reference Asset will be the Reference Asset with the Nth highest Reference Asset Return.

The "**Reference Asset Return**" and "**Basket Return**" will be calculated in accordance with the performance structure applicable to the Notes pursuant to Condition 6(a) (*Redemption at Maturity*).

(h) **Non-Tranched CLN Interest**

If the Notes are specified as bearing "Non-Tranched CLN Interest", the Interest Rate may be fixed or floating and the amount of interest for each Interest Period shall be calculated in the manner specified in one of the other provisions of this Condition 5 (*Interest*), save that the Calculation Amount to which the Interest Rate is applied shall be either:

- (i) if "**Determination Date Exposure**" is specified in the Final Terms, multiplied by the Adjusted Portfolio Return (Interest) as at the Observation Date immediately preceding the relevant Interest Payment Date, or
- (ii) if "**Weighted Average Exposure**" is specified in the Final Terms, multiplied by the weighted average of the Adjusted Portfolio Return (Interest) on each calendar day from and including the immediately preceding Observation Date to (but excluding) the

Observation Date immediately preceding the relevant Interest Payment Date, as determined by the Issuer in its sole discretion.

The "**Adjusted Portfolio Return (Interest)**" shall be the difference between 1 and the Adjusted Portfolio Loss (Interest).

The "**Adjusted Portfolio Loss (Interest)**" will mean the sum of the Default Weighting for each Reference Entity (Interest) within the Basket.

The "**Default Weighting**" shall be calculated by multiplying the Basket Participation (Interest) by the Default Value in respect of each Reference Entity (Interest).

The "**Default Value**" in respect of each Reference Entity (Interest) will be the difference between 100% and the Recovery Value.

The "**Recovery Value**" will be 100 per cent. if a Credit Event (as defined in Part 3; *Additional Conditions for Credit-Linked Notes*) has not occurred in relation to that Reference Entity (Interest) since the Observation Start Date or, if such a Credit Event has occurred, it will be zero.

(i) **Tranched CLN Interest**

If the Notes are specified as bearing "Tranched CLN Interest", the Interest Rate may be fixed or floating and the amount of interest for each Interest Period shall be calculated in the manner specified in one of the other provisions of this Condition 5 (*Interest*), save that the Calculation Amount to which the Interest Rate is applied shall be either:

- (i) if "**Determination Date Exposure**" is specified in the Final Terms, multiplied by the Adjusted Portfolio Return (Interest) as at the Observation Date immediately preceding the relevant Interest Payment Date, or
- (ii) if "**Weighted Average Exposure**" is specified in the Final Terms, multiplied by the weighted average of the Adjusted Portfolio Return (Interest) on each calendar day from and including the immediately preceding Observation Date to (but excluding) the Observation Date immediately preceding the relevant Interest Payment Date, as determined by the Issuer in its sole discretion.

The "**Adjusted Portfolio Return (Interest)**" shall be the result obtained by subtracting the Adjusted Tranche Loss (Interest) from 1.

The "**Adjusted Tranche Loss (Interest)**" will be the result obtained by dividing the lower of a) the Tranche Attachment Range and b) the Tranche Loss (Interest), by the Tranche Attachment Range.

The "**Tranche Loss (Interest)**" will be calculated by adding the Coupon Risk Factor to the higher of:

- (i) zero and
- (ii) the result obtained by subtracting the Tranche Attachment Point from the sum of the Weighted Asset Loss (Interest) for each Reference Entity (Interest) within the Basket.

"**Weighted Asset Loss (Interest)**" means the product of the Basket Participation (Interest) and the Reference Entity Loss (Interest) for the relevant Reference Entity (Interest).

The "**Reference Entity Loss (Interest)**" will be the result obtained by subtracting the Recovery Value in respect of the relevant Reference Entity (Interest) from 1.

The "**Recovery Value**" will be 100 per cent. if a Credit Event (as defined in Part 3; *Additional Conditions for Credit-Linked Notes*) has not occurred in relation to that Reference Entity (Interest) since the Observation Start Date or, if such a Credit Event has occurred, it will be either a Fixed Recovery Value (as specified in the Final Terms) or a Market Recovery Value, in each case specified as a percentage.

The "**Coupon Risk Factor**" will mean the greater of (i) zero and (ii) the sum of the Weighted Asset Recovery (Interest) less the result obtained by subtracting the Tranche Detachment Point from 1.

The "**Weighted Asset Recovery (Interest)**" means the product of the Basket Participation (Interest) and the Recovery Value for the relevant Reference Entity (Interest).

(j) ***Nth to Default CLN Interest***

If the Notes are specified as bearing "Nth to Default CLN Interest", the Interest Rate may be fixed or floating and the amount of interest for each Interest Period shall be calculated in the manner specified in one of the other provisions of this Condition 5 (*Interest*), save that the Calculation Amount to which the Interest Rate is applied shall be either:

- (i) if "**Determination Date Exposure**" is specified in the Final Terms, multiplied by the Adjusted Portfolio Return (Interest) as at the Observation Date immediately preceding the relevant Interest Payment Date, or
- (ii) if "**Weighted Average Exposure**" is specified in the Final Terms, multiplied by the weighted average of the Adjusted Portfolio Return (Interest) on each calendar day from and including the immediately preceding Observation Date to (but excluding) the Observation Date immediately preceding the relevant Interest Payment Date, as determined by the Issuer in its sole discretion.

The "**Adjusted Portfolio Return (Interest)**" shall be the result obtained by subtracting the Adjusted Portfolio Loss (Interest) from 1.

The "**Adjusted Portfolio Loss (Interest)**" will mean a) if the number of Credit Events that have occurred in relation to any Reference Entity (Interest) within the Basket during the period commencing on the Observation Start Date and ending on the Observation Date immediately preceding the relevant Interest Payment Date, is greater than or equal to N, 1; or b) if the number of Credit Events that have occurred in relation to any Reference Entity (Interest) within the Basket during the period commencing on the Observation Start Date and ending on the Observation Date immediately preceding the relevant Interest Payment Date, is less than N, zero.

"N" shall be the figure specified in the Final Terms.

(k) ***Nth and Nth+1 to Default CLN Interest***

If the Notes are specified as bearing "Nth and Nth+1 to Default CLN Interest", the Interest Rate may be fixed or floating and the amount of interest for each Interest Period shall be calculated in the manner specified in one of the other provisions of this Condition 5 (*Interest*), save that the Calculation Amount to which the Interest Rate is applied shall be either:

- (i) if "**Determination Date Exposure**" is specified in the Final Terms, multiplied by the Adjusted Portfolio Return (Interest) as at the Observation Date immediately preceding the relevant Interest Payment Date, or
- (ii) if "**Weighted Average Exposure**" is specified in the Final Terms, multiplied by the weighted average of the Adjusted Portfolio Return (Interest) on each calendar day from and including the immediately preceding Interest Payment Date to (but excluding) the Observation Date immediately preceding the relevant Interest Payment Date, as determined by the Issuer in its sole discretion.

The "**Adjusted Portfolio Return (Interest)**" shall be the result obtained by subtracting the Adjusted Portfolio Loss (Interest) from 1.

The "**Adjusted Portfolio Loss (Interest)**" will mean:

- (i) if the number of Credit Events that have occurred in relation to any Reference Entity (Interest) within the Basket during the period commencing on the Observation Start Date and ending on the Observation Date immediately preceding the relevant Interest Payment Date, is greater than N the sum of the Basket Participation of the Nth

Reference Entity (Interest) to default and the Nth plus 1 (i.e. the immediately succeeding Reference Entity (Interest) to default within the Basket; or

- (ii) if the number of Credit Events that have occurred in relation to any Reference Entity (Interest) within the Basket during the period commencing on the Observation Start Date and ending on the Observation Date immediately preceding the relevant Interest Payment Date is equal to N, an amount equal to the Basket Participation of the Nth Reference Entity (Interest) in respect of which a Credit Event occurs; or
- (iii) if the number of Credit Events that have occurred in relation to any Reference Entity (Interest) within the Basket during the period commencing on the Observation Start Date and ending on the Observation Date immediately preceding the relevant Interest Payment Date, is less than N, zero.

"N" shall be the figure specified in the Final Terms.

(l) ***Capped Floor Float***

If this Condition 5(l) (*Capped Floor Float*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the Calculation Amount multiplied by:

- (a) the lower of the Cap Strike and the Adjusted Reference Rate Return; and
- (b) the Day Count Fraction.

The "**Adjusted Reference Rate Return**" will be the higher of:

- (a) the sum of the Reference Rate and the applicable Spread; and
- (b) the Floor Strike

The "**Spread**" will be the value specified in the applicable Final Terms

(m) ***Cap Floor Spread***

If this Condition 5(m) (*Cap Floor Spread*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the sum of the Cap Spread Amount and the Floor Spread Amount.

The "**Cap Spread Amount**" will be equal to the Calculation Amount multiplied by:

- (a) The Cap Value;
- (b) the Leverage (Cap);
- (c) the Cap Return; and
- (d) the Day Count Fraction.

The "**Cap Value**" will be either 1, minus 1 or zero, as specified in the applicable Final Terms.

The "**Leverage (Cap)**" will be the value specified in the applicable Final Terms.

The "**Cap Return**" will be the lower of:

- (a) the result obtained by subtracting the Cap Strike Lower from the Cap Strike Upper; and
- (b) the higher of (x) the result obtained by subtracting the Cap Strike Lower from the Reference Rate; and (y) zero.

The "**Floor Spread Amount**" will be equal to the Calculation Amount multiplied by:

- (a) The Floor Value;
- (b) the Leverage (Floor)
- (c) the Floor Return; and
- (d) the Day Count Fraction.

The "**Floor Value**" will be either 1, minus 1 or zero, as specified in the applicable Final Terms.

The "**Leverage (Floor)**" will be the value specified in the applicable Final Terms.

The "**Floor Return**" will be the lower of:

- (a) the result obtained by subtracting the Floor Strike Lower from the Floor Strike Upper; and
- (b) the higher of (x) the result obtained by subtracting the Reference Rate from the Floor Strike Upper and (y) zero.

(n) ***Range Accrual***

If this Condition 5(n) (*Range Accrual*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the Calculation Amount multiplied by:

- (a) X
- (b) the Relevant Proportion; and
- (c) the Day Count Fraction.

"X" shall be the value specified in the applicable Final Terms

The "**Relevant Proportion**" shall be calculated by dividing the number of days during the relevant Interest Period on which the Reference Rate, Reference Asset or Basket is lower than or equal to Strike Upper and greater than or equal to the Strike Lower, by the total number of days during the applicable Interest Period.

(o) ***Range Accrual In/Out***

If this Condition 5(o) (*Range Accrual In/Out*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the Calculation Amount multiplied by:

- (a) the Adjusted Range Performance; and
- (b) the Day Count Fraction.

The "**Adjusted Range Performance**" will be the higher of the Floor Strike and the Range Performance.

The "**Range Performance**" will be calculated by subtracting the Range Failure Value from the Range Success Value, and dividing the result by the total number of days during the applicable Interest Period.

The "**Range Success Value**" will be the product of X and the number of days during the relevant Interest Period where the Reference Rate is lower than Strike Upper and greater than the Strike Lower.

The "**Range Failure Value**" will be the product of Y and the number of days during the relevant Interest Period where the Reference Rate is greater than Strike Upper or lower than the Strike Lower.

"X" and "Y" will be the values specified in the applicable Final Terms

(p) ***Knockout Range Accrual***

If this Condition 5(p) (*Knockout Range Accrual*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the Calculation Amount multiplied by:

- (a) X
- (b) the Relevant Proportion; and
- (c) the Day Count Fraction.

"X" shall be the value specified in the applicable Final Terms

The "**Relevant Proportion**" shall mean, in relation to each applicable Interest Period:

- (a) if no Knock Out Event has occurred in previous Interest Periods or in the current Interest Period, the Relevant Proportion shall be 1 (one)
- (b) if a Knock Out Event occurs for the first time in the current Interest Period, the Relevant Proportion shall be calculated by dividing the number of Observation Dates in the current Interest Period occurring prior to the Knock Out Event by the total number of Observation Dates in the applicable Interest Period
- (c) if a Knock Out Event has occurred in a previous Interest Period, the Relevant Proportion shall be 0 (zero)

The "**Knock Out Event**" is defined as any Observation Date where the Reference Rate is greater than Strike Upper or lower than Strike Lower.

(q) ***Binary Cap/Floor***

If this Condition 5(q) (*Binary Cap/Floor*) is specified as applicable in the relevant Final Terms then:

If the Reference Rate is greater than or equal to the Cap Strike, the Interest Amount for the applicable Interest Period will be equal to the Calculation Amount multiplied by:

- (a) X; and
- (b) the Day Count Fraction.

If the Reference Rate is less than the Cap Strike, the Interest Amount for the applicable Interest Period will be equal to the Calculation Amount multiplied by:

- (a) Z; and
- (b) the Day Count Fraction.

If the Reference Rate is less than or equal to the Floor Strike, the Interest Amount will be equal to the Calculation Amount multiplied by:

- (a) Y; and
- (b) the Day Count Fraction.

If the Reference Rate is greater than the Floor Strike, the Interest Amount will be equal to the Calculation Amount multiplied by:

- (a) W; and
- (b) the Day Count Fraction.

"W", "X", "Y" and "Z" will be the values specified in the applicable Final Terms.

(r) **Binary Zero Coupon**

If this Condition 5(r) (*Binary Zero Coupon*) is specified as applicable in the relevant Final Terms, the Interest Amount will only be payable on the Redemption Date, and will be equal to:

- (a) the product of the Calculation Amount and the Periodic Return, less
- (b) the Calculation Amount.

The "**Periodic Return**" will be the product of the Reference Rate Return.

The "**Reference Rate Return**" for each applicable Reference Rate will be the sum of:

- (a) 1; and
- (b) the Rate Value multiplied by the applicable Day Count Fraction

The "**Rate Value**" will be X if the Reference Rate is greater than K, or Y if the Reference Rate is less than or equal to K.

"K", "X" and "Y" will be the values specified in the applicable Final Terms.

(s) **Inverse Floater**

If this Condition 5(s) (*Inverse Floater*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Reference Rate Return and the applicable Day Count Fraction.

The "**Reference Rate Return**" will be the sum of Y and the lower of

- (a) Z and
- (b) the higher of: (x) zero; and (y) k multiplied by the result of subtracting the Reference Rate from X.

"k", "X", "Y" and "Z" will be the values specified in the applicable Final Terms.

(t) **Autocallable**

If this Condition 5(t) (*Autocallable*) is specified as applicable in the relevant Final Terms, then if the Autocall Condition is satisfied on any applicable Valuation Date during the relevant Interest Period, the Interest Amount for the relevant Interest Period will be equal to the Calculation Amount, multiplied by X, multiplied by N, and multiplied by the applicable Day Count Fraction.

If the Autocall Condition is not satisfied on any applicable Valuation Date during the relevant Interest Period, the Interest Amount for the relevant Interest Period will be zero.

"N" means the number of Interest Periods that have passed up to and including the Interest Period during which the Autocall Condition is satisfied.

"X" will be the value specified in the applicable Final Terms.

The "**Autocall Condition**" means that the Reference Rate exceeds the Coupon Barrier Level, equals the Coupon Barrier Level, or is below the Coupon Barrier Level, as specified in the applicable Final Terms.

(u) **Digital Long**

If this Condition 5(u) (*Digital Long*) is specified as applicable in the relevant Final Terms, then if the Basket Return on any Interest Determination Date is equal to or greater than the Basket Strike Level, the Interest Amount will be the Calculation Amount multiplied by the Coupon.

If the Basket Return is not equal to or greater than the Basket Strike Level on any Interest Determination Date, the Interest Amount will be zero.

(v) **Digital Short**

If this Condition 5(v) (*Digital Short*) is specified as applicable in the relevant Final Terms, then if the Basket Return on any Interest Determination Date is equal to or below the Basket Strike Level, the Interest Amount for the relevant Interest Period will be the Calculation Amount multiplied by the Coupon.

If the Basket Return is above the Basket Strike Level on any Interest Determination Date, the Interest Amount for the relevant Interest Period will be zero.

(w) **Worst of Digital Long**

If this Condition 5(w) (*Worst of Digital Long*) is specified as applicable in the relevant Final Terms, then if the Reference Asset Return of the worst performing Reference Asset on any Interest Determination Date is equal to or greater than the Barrier Level, the Interest Amount for the relevant Interest Period will be the Calculation Amount multiplied by the Coupon.

If the Reference Asset Return of the worst performing Reference Asset is below the Barrier Level on any Interest Determination Date, the Interest Amount for the relevant Interest Period will be zero.

The "**worst performing**" Reference Asset will be the Reference Asset with the lowest Reference Asset Return, as determined in accordance with Condition 6(a)(ii) ("*Basket Long*" Structure).

(x) **Worst of Digital Short**

If this Condition 5(x) (*Worst of Digital Short*) is specified as applicable in the relevant Final Terms, then:

If the Reference Asset Return of the worst performing Reference Asset on any Interest Determination Date is equal to or below the Barrier Level, the Interest Amount for the relevant Interest Period will be the Calculation Amount multiplied by the Coupon.

If the Reference Asset Return of the worst performing Reference Asset is above the Barrier Level on any Interest Determination Date, the Interest Amount for the relevant Interest Period will be zero.

The "**worst performing**" Reference Asset will be the Reference Asset with the lowest Reference Asset Return, as determined in accordance with Condition 6(a)(iii) ("*Basket Short*" Structure).

(y) **Worst of Digital Memory Coupon 2**

If this Condition 5(y) (*Worst of Digital Memory Coupon 2*) is specified as applicable in the relevant Final Terms, then the Interest Amount for the relevant Interest Period will be calculated by multiplying the Calculation Amount by the Participation Ratio, and the higher of: (i) the Coupon Level less the Paid Coupon and (ii) zero. The Holders will also be entitled to receive an amount equal to the Principal Amount of the Notes on the Redemption Date.

The "**Coupon Level**" means, on any Interest Determination Date, the higher of: (i) the Coupon Level on the immediately preceding Interest Determination Date (or in the case of the Initial Valuation Date, the Initial Coupon) (ii) and the product of N, the Coupon Barrier Level and the Bonus Level.

"N" will be the number of Valuation Dates, as specified in the Final Terms

The "**Annual Coupon**" will be the value specified in the applicable Final Terms, and

The "**Coupon Barrier Level**" will be 1 if the Reference Asset Return (as determined in accordance with Condition 6(a)(ii)(*Basket Long structure*)) for every Reference Asset within the

Basket is greater than, or equal to, the Barrier Level on each Interest Determination Date, otherwise it will be zero.

The "**Paid Coupon**" means the sum of all coupons which have been paid up to (but excluding) the relevant Interest Determination Date.

(z) **Digital Podium Long**

If this Condition 5(z) (*Digital Podium Long*) is specified as applicable in the relevant Final Terms, then:

If the Reference Asset Return of each Reference Asset on any Interest Determination Date is equal to or greater than the relevant Barrier Level, the Interest Amount for the relevant Interest Period will be the Calculation Amount multiplied by the Coupon.

If the Reference Asset Return of each of the N best performing Reference Assets equal to or greater than the relevant Barrier Level on any Interest Determination Date, the Interest Amount for the relevant Interest Period will be the Calculation Amount multiplied by the Coupon 2.

The "**N best performing**" Reference Assets will be the pre-specified number of Reference Assets with the best Reference Asset Return, as determined in accordance with Condition 6(a)(ii) ("*Basket Long*" Structure), as specified in the Final Terms.

If the Reference Asset Return of each of the N best performing Reference Assets is not equal to or greater than the relevant Barrier Level on any Interest Determination Date, the Interest Amount for the relevant Interest Period will be zero.

(aa) **Digital Podium Short**

If this Condition 5(aa) (*Digital Podium Short*) is specified as applicable in the relevant Final Terms, then:

If the Reference Asset Return of each Reference Asset on any Interest Determination Date is equal to or below the relevant Barrier Level, the Interest Amount for the relevant Interest Period will be the Calculation Amount multiplied by the Coupon.

If the Reference Asset Return of each of the N best performing Reference Assets is equal to or below the relevant Barrier Level on any Interest Determination Date, the Interest Amount for the relevant Interest Period will be the Calculation Amount multiplied by the Coupon 2.

The "**N best performing**" Reference Assets will be the pre-specified number of Reference Assets with the best Reference Asset Return, as determined in accordance with Condition 6(a)(iii) ("*Basket Short*" Structure), as specified in the Final Terms.

If the Reference Asset Return of each of the N best performing Reference Assets is not equal to or below the relevant Barrier Level on any Interest Determination Date, the Interest Amount for the relevant Interest Period will be zero.

(bb) **Series of Digitals**

If this Condition 5(bb) (*Series of Digitals*) is specified as applicable in the relevant Final Terms, then the Interest Amount for the relevant Interest Period will be equal to the Adjusted Calculation Amount multiplied by the Coupon.

The "**Adjusted Calculation Amount**" will be the Calculation Amount multiplied by the fraction of which the numerator is the number of Reference Assets with a Closing Price which is equal to or above the relevant Barrier Level on each day up to and including the relevant Interest Determination Date and the denominator is the number of Reference Assets within the Basket.

(cc) **Cash Settled Swaption Straddle**

If this Condition 5(cc) (*Cash Settled Swaption Straddle*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be the sum of the Cash Settled Payer Swaption and the Cash Settled Receiver Swaption.

The "**Cash Settled Payer Swaption**" means an amount equal to the Calculation Amount multiplied by:

- (a) the Gearing Payer;
- (b) the higher of zero and the result obtained by subtracting the Payer Strike from the Reference Rate on the relevant Valuation Date; and
- (c) the Payer Annuity (Cash).

The "**Gearing Payer**" means the value specified in the applicable Final Terms.

The "**Payer Strike**" means the value specified in the applicable Final Terms.

The "**Payer Annuity (Cash)**" means the present value of an annuity payment of 1 based on the same payment dates and conventions as the fixed rate leg in the underlying swap of the swaption and calculated by the Calculation Agent on the Valuation Date using the Reference Rate as discount rate.

The "**Cash Settled Receiver Swaption**" means an amount equal to the Calculation Amount multiplied by:

- (a) the Gearing Receiver;
- (b) the higher of zero and the result obtained by subtracting the Reference Rate at the Valuation Time on the relevant Valuation Date from the Receiver Strike; and
- (c) the Receiver Annuity (Cash).

The "**Gearing Receiver**" means the value specified in the applicable Final Terms.

The "**Receiver Strike**" means the value specified in the applicable Final Terms.

The "**Receiver Annuity (Cash)**" means the present value of an annuity payment of 1 based on the same payment dates and conventions as the fixed rate leg in the underlying swap of the swaption and calculated by the Calculation Agent on the Valuation Date using the Reference Rate as discount rate.

(dd) **Power Cap/Floor**

If this Condition 5(dd) (*Power Cap/Floor*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the Calculation Amount multiplied by:

- (a) the Interest Rate;
- (b) the Day Count Fraction.

The "**Interest Rate**" is the lower of the Maximum Interest Rate and the Power Return.

The "**Power Return**" means the higher of: i) zero and ii) the Adjusted Reference Rate, in either case raised to the power of the Power Factor.

The "**Adjusted Reference Rate Return**" means the product of the Gearing and the result obtained by subtracting the Strike Level from the Reference Rate at the Valuation Time on the relevant Valuation Date.

The "**Gearing**" means the value specified in the applicable Final Terms.

The "**Power Factor**" means the value specified in the applicable Final Terms.

(ee) ***Compounding Floater***

If this Condition 5(ee) (*Compounding Floater*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be paid on the Redemption Date and will be equal to the Calculation Amount multiplied by the Compounded Interest Rate.

The "**Compounded Interest Rate**" is the periodically compounded Interest Rate, taking the applicable day count fraction into account.

The "**Interest Rate**" is the lower of the Maximum Interest Rate and the Adjusted Reference Rate Return.

The "**Adjusted Reference Rate Return**" means the higher of:

- (i) the Floor; and
- (ii) the Gearing multiplied by the sum of the Reference Rate on the applicable Valuation Date and the Spread.

The "**Spread**" means the value specified in the applicable Final Terms.

The "**Gearing**" means the value specified in the applicable Final Terms.

(ff) ***Lock-In 1***

If this Condition 5(ff) (*Lock-In 1*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Interest Rate and the applicable Day Count Fraction.

The "**Interest Rate**" means:

- (a) if the Reference Rate has fulfilled the Lock in Condition at the Valuation Time on any Valuation Date, then the Interest Rate will be equal to the Fixed Rate;
- (b) if the Reference Rate has not fulfilled the Lock in Condition at the Valuation Time on any Valuation Date, the Interest Rate will be the lower of the Maximum Interest Rate and the Adjusted Reference Rate Return.

The "**Lock in Condition**" is fulfilled if the Reference Rate is either greater than the Strike Upper or lower than the Strike Lower.

The "**Fixed Rate**" means the value specified in the applicable Final Terms.

The "**Adjusted Reference Rate Return**" means the higher of:

- (i) the Floor; and
- (ii) the sum of the Reference Rate at the Valuation Time on the relevant Valuation Date and the Spread, less the Strike Level.

The "**Spread**" means the value specified in the applicable Final Terms.

(gg) ***Lock-In 2***

If this Condition 5(gg) (*Lock-In 2*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Interest Rate and the applicable Day Count Fraction.

The "**Interest Rate**" means:

- (a) if the Reference Rate has not fulfilled the Lock in Condition at the Valuation Time on any Valuation Date, then the Interest Rate will be equal to the Fixed Rate;

- (b) if the Reference Rate has fulfilled the Lock in Condition at the Valuation Time on any Valuation Date, the Interest Rate will be the lower of the Maximum Interest Rate and the Adjusted Reference Rate Return.

The "**Lock in Condition**" is fulfilled if the Reference Rate is either greater than the Strike Upper or lower than the Strike Lower.

The "**Fixed Rate**" means the value specified in the applicable Final Terms.

The "**Adjusted Reference Rate Return**" means the higher of:

- (i) the Floor; and
- (ii) the sum of the Reference Rate at the Valuation Time on any Valuation Date and the Spread, less the Strike Level.

The "**Spread**" means the value specified in the applicable Final Terms.

(hh) ***Snowball***

If this Condition 5(hh) (*Snowball*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Interest Rate and the applicable Day Count Fraction.

The "**Interest Rate**" will be equal to the sum of the Coupon Return for each applicable Valuation Period.

The "**Coupon Return**" will be:

- (i) on the Initial Valuation Date, the Coupon;
- (ii) on each subsequent Valuation Date, the Adjusted Coupon.

The "**Adjusted Coupon**" will be the higher of:

- (i) zero; and
- (ii) the sum of:
  - (a) Coupon Return on the immediately preceding Valuation Date; and
  - (b) the product of (X) the result obtained by subtracting the Reference Rate at the Valuation Date on the applicable Valuation Date from the Strike Level, and (Y) K.

"K" means the value specified in the applicable Final Terms.

(ii) ***Accumulator***

If this Condition 5(ii) (*Accumulator*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Interest Rate and the applicable Day Count Fraction.

The "**Interest Rate**" will be equal to the Coupon Return for each applicable Valuation Period.

The "**Coupon Return**" will be:

- (i) on the Initial Valuation Date, the Initial Coupon;
- (ii) on each subsequent Valuation Date, the sum of:
  - (a) the Coupon Return on the immediately preceding Valuation Date; and

- (b) the Adjusted Coupon

The "**Adjusted Coupon**" will be the Gearing multiplied by the higher of:

- (i) the Floor; and
- (ii) the result obtained by subtracting the Strike Level from the Reference Rate at the Valuation Time on the applicable Valuation Date.

"**Gearing**" means the value specified in the applicable Final Terms.

"**Floor**" means the value specified in the applicable Final Terms.

(jj) ***Binary Accumulator***

If this Condition 5(jj) (*Binary Accumulator*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Interest Rate and the applicable Day Count Fraction.

The "**Interest Rate**" will be equal to the Coupon Return for each applicable Valuation Period.

The "**Coupon Return**" will be:

- (i) on the Initial Valuation Date, the Initial Coupon;
- (ii) on each subsequent Valuation Date, the sum of:
  - (a) the Coupon Return on the immediately preceding Valuation Date; and
  - (b) the Adjusted Coupon.

The "**Adjusted Coupon**" will be the higher of:

- (i) the Floor; and
- (ii) the Coupon Rate.

"**Floor**" means the value specified in the applicable Final Terms.

"**Coupon Rate**" means:

- (a) if the Reference Rate at the Valuation Time on the applicable Valuation Date is less than or equal to X and greater than or equal to Y, the Coupon; or
- (b) otherwise, zero.

(kk) ***Contingent Cap/Floor***

If this Condition 5(kk) (*Contingent Cap/Floor*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Interest Rate and the applicable Day Count Fraction.

The "**Interest Rate**" will be:

- (a) if the Reference Rate 2 at the Valuation Time on the applicable Valuation Date is greater than or equal to Strike 2 the higher of:
  - (i) zero; and
  - (ii) the Gearing multiplied by the result obtained by subtracting the Strike Level from the Reference Rate on the applicable Valuation Date;
- (b) if the Reference Rate 2 on the applicable Valuation Date is less than Strike 2, zero.

"**Reference Rate 2**" means the value specified in the applicable Final Terms.

"**Strike 2**" means the value specified in the applicable Final Terms.

The "**Gearing**" means the value specified in the applicable Final Terms.

(ll) **Dual Digital Cap**

If this Condition 5(ll) (*Dual Digital Cap*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Interest Rate and the applicable Day Count Fraction.

The "**Interest Rate**" will be:

- (a) if the Reference Rate at the Valuation Time on the applicable Valuation Date is greater than or equal to the Strike Level and the Reference Rate 2 at the Valuation Time on the applicable Valuation Date is greater than or equal to Strike 2, the Coupon;
- (b) if the Reference Rate at the Valuation Time on the applicable Valuation Date is lower than the Strike Level and/or the Reference Rate 2 at the Valuation Time on the applicable Valuation Date is lower than Strike 2, zero.

"**Reference Rate 2**" means the value specified in the applicable Final Terms.

"**Strike 2**" means the value specified in the applicable Final Terms.

(mm) **Dual Digital Floor**

If this Condition 5(mm) (*Dual Digital Floor*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Interest Rate and the applicable Day Count Fraction.

The "**Interest Rate**" will be:

- (a) if the Reference Rate at the Valuation Time on the applicable Valuation Date is less than or equal to the Strike Level and the Reference Rate 2 at the Valuation Time on the applicable Valuation Date is less than or equal to Strike 2, the Coupon;
- (b) if the Reference Rate at the Valuation Time on the applicable Valuation Date is greater than the Strike Level and/or the Reference Rate 2 at the Valuation Time on the applicable Valuation Date is greater than Strike 2, zero.

"**Reference Rate 2**" means the value specified in the applicable Final Terms.

"**Strike 2**" means the value specified in the applicable Final Terms.

(nn) **Binary Inflation Cap**

If this Condition 5(nn) (*Binary Inflation Cap*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Interest Rate and the applicable Day Count Fraction.

The "**Interest Rate**" will be:

If the Inflation Rate is greater than or equal to the Strike Level as at the Valuation Time on the applicable Valuation Date, the Interest Rate will be equal to the Coupon, otherwise the Interest Rate will be zero.

(oo) **Binary Inflation Floor**

If this Condition 5(oo) (*Binary Inflation Floor*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Interest Rate and the applicable Day Count Fraction.

The "**Interest Rate**" will be:

If the Inflation Rate is less than or equal to the Strike Level as at the Valuation Time on the applicable Valuation Date, the Interest Rate will be equal to the Coupon, otherwise the Interest Rate will be zero.

(pp) ***Binary Inflation Range***

If this Condition 5(pp) (*Binary Inflation Range*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Interest Rate and the applicable Day Count Fraction.

The "**Interest Rate**" will be:

If the Inflation Rate is greater than or equal to the Strike Lower and less than or equal to the Strike Upper as at the Valuation Time on the applicable Valuation Date, the Interest Rate will be equal to the Coupon, otherwise the Interest Rate will be zero.

(qq) ***Inflation Range Accrual***

T If this Condition 5(qq) (*Inflation Range Accrual*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Interest Rate and the applicable Day Count Fraction.

The "**Interest Rate**" will be equal to the Coupon multiplied by the result of the fraction where the numerator is the number of Valuation Periods that satisfy the Range Accrual Condition, and the denominator is the total number of Valuation Periods.

The "**Range Accrual Condition**" means that the Inflation Rate is greater than or equal to the Strike Lower and less than or equal to the Strike Upper as at the Valuation Time on the applicable Valuation Date.

(rr) ***Inflation Cap/Floor***

If this Condition 5(rr) (*Inflation Cap/Floor*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Gearing, the Inflation Return and the applicable Day Count Fraction.

The "**Gearing**" will be the value specified in the applicable Final Terms.

The "**Inflation Return**" will be the higher of:

- (a) zero; and
- (b) the product of the Flag and the result of subtracting the Strike Level from the Inflation Rate as at the Valuation Time on the applicable Valuation Date.

The "**Flag**" will be the value specified in the applicable Final Terms.

(ss) ***Inflation Straddle***

If this Condition 5(ss) (*Inflation Straddle*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the sum of the Inflation Cap and the Inflation Floor, the Calculation Amount and the applicable Day Count Fraction.

The "**Inflation Cap**" will be equal to the product of the Gearing (Cap) and the higher of:

- (a) the result obtained by subtracting the Strike (Cap) from the Inflation Rate at the Valuation Time on the on the applicable Valuation Date; and
- (b) zero.

The "**Inflation Floor**" will be equal to the product of the Gearing (Floor) and the higher of:

- (a) the result obtained by subtracting the Strike (Floor) from the Inflation Rate at the Valuation Time on the on the applicable Valuation Date; and
- (b) zero.

"**Gearing (Cap)**" means the value specified in the applicable Final Terms.

"**Gearing (Floor)**" means the value specified in the applicable Final Terms.

"**Strike (Cap)**" means the value specified in the applicable Final Terms.

"**Strike (Floor)**" means the value specified in the applicable Final Terms.

(tt) ***Inflation Cap Floor Spread***

If this Condition 5(tt) (*Inflation Cap Floor Spread*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the sum of the Inflation Cap Spread and the Inflation Floor Spread, the Calculation Amount and the applicable Day Count Fraction.

The "**Inflation Cap Spread**" will be equal to the product of:

- (a) The Cap Value;
- (b) the Leverage (Cap); and
- (c) the Cap Return.

The "**Cap Value**" will be either 1, minus 1 or zero, as specified in the applicable Final Terms.

The "**Leverage (Cap)**" will be the value specified in the applicable Final Terms.

The "**Cap Return**" will be the lower of:

- (a) the result obtained by subtracting the Cap Strike Lower from the Cap Strike Upper; and
- (b) the higher of (x) the result obtained by subtracting the Cap Strike Lower from the Inflation Rate as at the Valuation Time on the applicable Valuation Date; and (y) zero).

The "**Inflation Floor Spread**" will be equal to the product of:

- (a) The Floor Value;
- (b) the Leverage (Floor); and
- (c) the Floor Return.

The "**Floor Value**" will be either 1, minus 1 or zero, as specified in the applicable Final Terms.

The "**Leverage (Floor)**" will be the value specified in the applicable Final Terms.

The "**Floor Return**" will be the lower of:

- (a) the result obtained by subtracting the Floor Strike Lower from the Floor Strike Upper; and
- (b) the higher of (x) the result obtained by subtracting the Inflation Rate as at the Valuation Time on the applicable Valuation Date from the Floor Strike Upper and (y) zero).

(uu) ***ZC Inflation Cap Floor***

If this Condition 5(uu) (*ZC Inflation Cap Floor*) is specified as applicable in the relevant Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Gearing and the higher of:

- (a) zero; and
- (b) the Inflation Return.

The "**Gearing**" will be the value specified in the applicable Final Terms.

The "**Inflation Return**" means the product of:

- (i) the Flag; and
- (ii) the result of subtracting the Strike Deductible from the Inflation Rate as at the Valuation Time on the applicable Valuation Date.

The "**Strike Deductible**" means:

- (i) the sum of 1 and the Strike Level;
- (ii) raised to the power of the Tenor;
- (iii) less 1.

The "**Flag**" will be the value specified in the applicable Final Terms.

The "**Tenor**" means the value specified in the applicable Final Terms.

(vv) ***Inflation Linker 1***

If this Condition 5(vv) (*Inflation Linker 1*) is specified as applicable in the relevant Final Terms the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Gearing and the Inflation Return.

The "**Gearing**" will be the value specified in the applicable Final Terms.

The "**Inflation Return**" will be the higher of:

- (i) zero; and
- (ii) the sum of the Inflation Rate as at the Valuation Time on the applicable Valuation Time on the relevant Valuation Date and the Spread.

The "**Spread**" will be the value specified in the applicable Final Terms.

(ww) ***Inflation Linker 2***

If this Condition 5(ww) (*Inflation Linker 2*) is specified as applicable in the relevant Final Terms the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount, the Coupon and the Inflation Adjustment.

The "**Inflation Adjustment**" will be the result obtained by dividing the Inflation Index as at the Valuation Time on the applicable Valuation Date by the Inflation Index on the Initial Valuation Date.

The "**Inflation Index**" will be the value specified in the applicable Final Terms.

(xx) ***Strip of Call Spreads***

If this Condition 5(xx) (*Strip of Call Spreads*) is specified as applicable in the Final Terms, the Interest Amount for the applicable Interest Period will be equal to the product of the Calculation Amount and the higher of:

- (a) Minimum Basket Return; and

(b) the lower of: (i) the Coupon and (ii) the Basket Return (Interest).

The "**Basket Return (Interest)**" will be the sum of the Weighted Asset Return (Interest) for each Reference Asset (Interest) in the Basket.

The "**Weighted Asset Return (Interest)**" is the average of the Reference Asset Return (Interest) multiplied by the applicable Basket Participation (Interest) for the relevant Reference Asset (Interest) on each Interest Determination Date.

The "**Reference Asset Return (Interest)**" will be the result obtained by dividing the Final Price for the relevant Reference Asset (Interest) on the applicable Interest Determination Date by the Initial Price and subtracting the Strike Level.

(yy) ***General Conditions relating to Interest***

If an Interest Rate cannot be determined for any reason, whether due to an inability to value a particular Reference Asset, due to an event referred to in the first paragraph of Condition 22 (*Limitation of liability etc.*) or for any other reason, interest shall continue to accrue on the Notes at the rate applicable to the then current Interest Period. The Issuing Agent (or, where applicable, the Calculation Agent) or the Issuer shall, as soon as the relevant event has ceased, calculate the new Interest Rate which shall apply from the second Business Day after the date of calculation until the expiry of the then current Interest Period.

The Issuer may appoint another person or entity to perform calculations pursuant to these Terms and Conditions (the "**Calculation Agent**"). The name of any such Calculation Agent shall be specified in the applicable Final Terms.

If the Issuer determines, in its sole and absolute discretion, that the amount of interest actually paid to Noteholders on any Interest Payment Date was in excess of the amount of interest due and payable to Noteholders on such Interest Payment Date, as calculated in accordance with this Condition 5 (such amount an "**Overpayment**"), the Issuer may reduce the amount of interest payable on any subsequent Interest Payment Date in order to compensate the Issuer for such Overpayment. The amount of interest to be deducted on any Interest Payment Date shall not exceed the aggregate of all Overpayment in respect of the relevant Notes, less any previous deductions in accordance with this Condition 5(yy). The Issuer shall notify Noteholders of any reduction in the amount of interest scheduled to be paid on an Interest Payment Date, and the reasons therefor, at least 2 Business Days prior to that Interest Payment Date. Such notice shall be given to Noteholders in accordance with the provisions of Condition 16 (*Notices*).

6. **Redemption and Purchase**

(a) ***Redemption at Maturity***

The Issuer shall redeem the Notes at their Redemption Amount on the Redemption Date specified in the Final Terms. The Redemption Amount will be determined in accordance with one or more of the performance structures specified below subject always to Condition 6(c) (*Minimum Redemption*) or 6(d) (*Inflation-Protected Principal*), if applicable, and the Final Terms will specify which of the following performance structures is applicable to each Series of Notes. If the Interest Amount payable on the Redemption Date is a negative number, then it will be deducted from the Redemption Amount determined in accordance with this Condition 6(a) (*Redemption at Maturity*), but subject to the proviso that the Redemption Amount shall never be less than zero.

If the performance structure specified in the Final Terms is the:

(i) ***"Par" structure***

the Redemption Amount will be equal to the Principal Amount of the Notes.

(ii) *"Basket Long" structure*

the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by: (a) the Basket Return and (b) the Participation Ratio.

The "**Basket Return**" will be the sum of the Weighted Asset Return for each Reference Asset in the Basket **provided that**, if "Basket Floor" is specified as applicable in the relevant Final Terms, the Basket Return shall be the higher of a) the Minimum Basket Return, and b) the sum of the Weighted Asset Return for each Reference Asset in the Basket.

The "**Weighted Asset Return**" is the Reference Asset Return multiplied by the applicable Basket Participation.

The "**Reference Asset Return**" will be the result obtained by dividing the Final Price for each Reference Asset by the Initial Price and subtracting the Strike Level.

(iii) *"Basket Short" structure*

the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and by the Basket Return.

The "**Basket Return**" will be the sum of the Weighted Asset Return for each Reference Asset in the Basket **provided that**, if "Basket Floor" is specified as applicable in the relevant Final Terms, the Basket Return shall be the higher of a) the Minimum Basket Return, and b) the sum of the Weighted Asset Return for each Reference Asset in the Basket.

The "**Weighted Asset Return**" is the Reference Asset Return multiplied by the applicable Basket Participation.

The "**Reference Asset Return**" will be determined by subtracting from the Strike Level the result obtained by dividing the Final Price for each Reference Asset by the Initial Price.

(iv) *"Barrier outperformance" structure*

if the Basket Return (as determined in accordance with Condition 6(a)(ii) ("*Basket Long*" Structure) or Condition 6(a)(iii) ("*Basket Short*" Structure)), as specified in the Final Terms, on any Valuation Date exceeds the Barrier Level, the Redemption Amount will be the Maximum Basket Return. If the Basket Return does not exceed the Barrier Level on any Valuation Date, the Redemption Amount will be the Principal Amount of the Notes.

(v) *"Barrier Underperformance" structure*

if the Basket Return (as determined in accordance with Condition 6(a)(ii) ("*Basket Long*" Structure) or Condition 6(a)(iii) ("*Basket Short*" Structure)), as specified in the Final Terms, on any Valuation Date falls below the Barrier Level, the Redemption Amount will be the Maximum Basket Return. If the Basket Return does not fall below the Barrier Level on any Valuation Date, the Redemption Amount will be the Principal Amount of the Notes.

(vi) *"Best of/Worst of Barrier Outperformance" structure*

if the Reference Asset Return of the Nth best performing Reference Asset (as determined in accordance with Condition 6(a)(ii) ("*Basket Long*" Structure), as specified in the Final Terms, or Condition 6(a)(iii) ("*Basket Short*" Structure)), as specified in the Final Terms, on any Valuation Date exceeds the Barrier Level, the Redemption Amount will be the Maximum Basket Return. If the Reference Asset Return of the Nth best performing

Reference Asset does not exceed the Barrier Level on any Valuation Date, the Redemption Amount will be the Principal Amount of the Notes.

The "Nth best performing" Reference Asset shall be the Reference Asset with the Nth highest Reference Asset Return, where "N" shall be the value specified in the Final Terms.

(vii) *"Best of/Worst of Barrier Underperformance" structure*

if the Reference Asset Return of the Nth best performing Reference Asset (as determined in accordance with Condition 6(a)(ii) ("*Basket Long*" Structure) or Condition 6(a)(iii) ("*Basket Short*" Structure)), as specified in the Final Terms, on any Valuation Date falls below the Barrier Level, the Redemption Amount will be the Maximum Basket Return. If the Reference Asset Return of the Nth best performing Reference Asset does not fall below the Barrier Level on any Valuation Date, the Redemption Amount will be the Principal Amount of the Notes.

The "Nth best performing" Reference Asset shall be the Reference Asset with the Nth highest Reference Asset Return, where "N" shall be the value specified in the Final Terms.

(viii) *"Max" structure*

the Redemption Amount will be the lesser of: a) the Redemption Amount determined in accordance with one or more of the other performance structures specified in this Condition 6(a)(*Redemption at Maturity*) and b) the Maximum Redemption Amount.

(ix) *"Autocallable Structure Long"*

If the Notes have not been subject to early redemption in accordance with Condition 6(j) (*Early Redemption of Notes with Autocallable performance structure*), then the Redemption Amount will be calculated as follows:

- (A) If the Basket Return on the final Valuation Date is below the final Barrier Level minus the Basket Strike Level, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and the Basket Return;
- (B) If the Basket Return on the final Valuation Date is at or above the final Barrier Level minus the Basket Strike Level, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount equal to the higher of a) the Basket Return multiplied by the Participation Ratio 2 or b) the Minimum Basket Return; or
- (C) For the avoidance of doubt, a Coupon (if any) may be payable in accordance with Condition 5(g) (*Coupon Bearing Autocallable Notes*);

The "**Basket Return**" will be calculated in the same manner as for the "Basket Long" structure set out in Condition 6(a)(ii).

For the purposes of calculating the Basket Return, the "**Reference Asset Return**" will be the result obtained by dividing the Final Price for each Reference Asset by the Initial Price, and subtracting the Strike Level.

(x) *"Autocallable Structure – Short"*

If the Notes have not been subject to early redemption in accordance with Condition 6(j) (*Early Redemption of Notes with Autocallable Performance Structure*), then the Redemption Amount will be calculated in the same manner as the Autocallable Structure – Long described in Condition 6(a)(ix) (*Autocallable Structure Long*) above, save that the definition of "**Reference Asset Return**" shall be as follows:

The "**Reference Asset Return**" will be determined by subtracting from the Strike Level the result obtained by dividing the Final Price for the relevant Reference Asset by the Initial Price and expressed as a percentage.

(xi) *"Best of/Worst of Autocallable" structure*

If the Notes have not been subject to early redemption in accordance with Condition 6(k) (*Early Redemption of Notes with Best of/Worst of Autocallable Structure*), then the Redemption Amount will be as follows:

(A) If the Final Price of the Nth best performing Reference Asset on the final Valuation Date divided by the Initial Price of the Nth best performing Reference Asset is below the final Barrier Level, the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes with the Participation Ratio 2 and the Reference Asset Return of the Nth best performing Reference Asset.

(B) If the Final Price of the Nth best performing Reference Asset on the final Valuation Date divided by the Initial Price of the Nth best performing Reference Asset is at or above the final Barrier Level, the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes with the Participation Ratio and the greater of a) the Basket Return and b) zero, or

For the purposes of this Condition 6(a)(xi), the "Nth best performing" Reference Asset shall be the Reference Asset with the Nth highest Reference Asset Return, where "N" shall be the value specified in the Final Terms.

The "Reference Asset Return" will be the result obtained by dividing the Final Price for the relevant Reference Asset by the Initial Price and subtracting the Strike Level.

(xii) *"Replacement Basket" structure*

the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and the Basket Return.

The "**Basket Return**" will be the sum of the Weighted Asset Return for each Reference Asset in the Basket.

The "**Weighted Asset Return**" is the Reference Asset Return multiplied by the applicable Basket Participation, **provided that** the Reference Asset Return of the N Best Performing Reference Assets, will be replaced with the Replacement Factor for the purposes of determining the Weighted Asset Return of the relevant Reference Assets.

The "**N Best Performing Reference Assets**" will be the number "N" of Reference Assets (as specified in the Final Terms) with the highest Reference Asset Return.

The "**Reference Asset Return**" will be the result obtained by dividing the Final Price for each Reference Asset by the Initial Price and subtracting the Strike Level.

(xiii) *"Locally Capped Basket" structure*

the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and by the Basket Return.

The "**Basket Return**" will be the sum of the Weighted Asset Return for each Reference Asset in the Basket.

The "**Weighted Asset Return**" is the lower of: (i) the Reference Asset Return and (ii) the Maximum Performance, multiplied in either case by the applicable Basket Participation.

The "**Reference Asset Return**" will be the result obtained by dividing the Final Price for each Reference Asset by the Initial Price and subtracting the Strike Level.

(xiv) *"Rainbow Basket" structure*

the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and by the Basket Return.

The "**Basket Return**" will be the sum of the Weighted Asset Return for each Reference Asset in the Basket.

The "**Weighted Asset Return**" is the Reference Asset Return multiplied in each case by the applicable Basket Participation.

The "**Reference Asset Return**" will be the result obtained by dividing the Final Price for each Reference Asset by the Initial Price and subtracting the Strike Level.

The "**Basket Participation**" will be determined on the basis of the Rainbow Basket Participation.

(xv) *"Booster Short" structure*

If the Basket Return is positive, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and by the Basket Return.

If the Basket Return is negative, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio 2 and the Basket Return (which will result in a Redemption Amount of less than the Principal Amount of the Notes).

The "**Basket Return**" will be calculated in the same manner as for the "Basket Short" structure set out in Condition 6(a)(iii) ("*Basket Short*" Structure).

For the purposes of calculating the Basket Return, the "**Reference Asset Return**" will be the result obtained by subtracting from the Strike Level the result obtained by dividing the Final Price for each Reference Asset by the Initial Price.

(xvi) *"Booster Long" structure*

If the Basket Return is positive, the Redemption Amount will be the sum of the principal amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and by the Basket Return.

If the Basket Return is negative, the Redemption Amount will be the sum of the principal amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio 2 and the Basket Return (which will result in a Redemption Amount of less than the Principal Amount of the Notes).

The "**Basket Return**" will be calculated in the same manner as for the "Basket Long" structure set out in Condition 6(a)(ii) ("*Basket Long*" Structure).

(xvii) *"Booster Risk Barrier Short" structure*

If the sum of the Basket Return and 1 is at or above the Initial Basket Level on the final Valuation Date, the Redemption Amount will be the sum of the Principal Amount of the

Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and by the Basket Return.

If the sum of the Basket Return and 1 is at or above the Barrier Level on all Valuation Dates but below the Initial Basket Level on the final Valuation Date, the Redemption Amount will be the Principal Amount of the Notes.

If the sum of the Basket Return and 1 is below the Barrier Level on any Valuation Date and below the Initial Basket Level on the final Valuation Date, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio 2 and the Basket Return (which will result in a Redemption Amount of less than the Principal Amount of the Notes).

The "**Basket Return**" will be calculated in the same manner as for the "Basket Short" structure set out in Condition 6(a)(iii) ("*Basket Short*" Structure).

(xviii) "*Booster Risk Barrier Long*" structure

If the sum of the Basket Return and 1 is at or above the Initial Basket Level on the final Valuation Date, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and by the Basket Return.

If the sum of the Basket Return and 1 is at or above the Barrier Level on all Valuation Dates but below the Initial Basket Level on the final Valuation Date, the Redemption Amount will be the Principal Amount of the Notes.

If the sum of the Basket Return and 1 is below the Barrier Level on any Valuation Date and below the Initial Basket Level on the final Valuation Date, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio 2 and the Basket Return (which will result in a Redemption Amount of less than the Principal Amount of the Notes).

The "**Basket Return**" will be calculated in the same manner as for the "Basket Long" Structure set out in Condition 6(a)(ii) ("*Basket Long*" Structure).

For the purposes of calculating the Basket Return, the "**Reference Asset Return**" will be the result obtained by dividing the Final Price for each Reference Asset by the Initial Price, and subtracting the Strike Level.

(xix) "*Bonus Booster Short*" structure

If the sum of the Basket Return and 1 is at or above the Initial Basket Level on the final Valuation Date, the Redemption Amount will be the sum of the principal amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and by the Basket Return.

If the sum of the Basket Return and 1 is below the Barrier Level on any Valuation Date and below the Initial Basket Level on the final Valuation Date, the Redemption Amount will be the sum of the principal amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio 2 and the Basket Return (which will result in a Redemption Amount of less than the Principal Amount of the Notes).

If the sum of the Basket Return and 1 is never below the Barrier Level on any Valuation Date, the Redemption Amount will be the sum of the principal amount of the Notes and an additional amount equal to the higher of:

- (A) the Coupon; and

- (B) the amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and by the Basket Return.

The "**Basket Return**" will be calculated in the same manner as for the "Basket Short" structure set out in Condition 6(a)(iii) ("*Basket Short*" Structure).

For the purposes of calculating the Basket Return, the "**Reference Asset Return**" will be the result obtained by subtracting from the Strike Level the result obtained by dividing the Final Price for each Reference Asset by the Initial Price.

(xx) "*Bonus Booster Long*" structure

If the sum of the Basket Return and 1 is at or above the Initial Basket Level on the final Valuation Date, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and by the Basket Return.

If the sum of the Basket Return and 1 is below the Barrier Level on any Valuation Date and below the Initial Basket Level on the final Valuation Date, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio 2 and the Basket Return (which will result in a Redemption Amount of less than the Principal Amount of the Notes).

If the sum of the Basket Return and 1 is never below the Barrier Level on any Valuation Date, the Redemption Amount will be the sum of the principal amount of the Notes and an additional amount equal to the higher of:

- (A) the Coupon; and
- (B) the amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and by the Basket Return.

The "**Basket Return**" will be calculated in the same manner as for the "Basket Long" structure set out in Condition 6(a)(ii) ("*Basket Long*" Structure).

For the purposes of calculating the Basket Return, the "Reference Asset Return" will be the result obtained by dividing the Final Price for each Reference Asset by the Initial Price, and subtracting the Strike Level.

(xxi) "*Cliquet*" structure

the Redemption Amount will be the sum of the Principal Amount of the Notes and an amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and the highest of:

- (i) the Final Lock-in Level;
- (ii) the Cliquet Return; and
- (iii) the Global Floor.

The "**Final Lock-in Level**" means the highest Lock-in Level which is reached or exceeded by the Aggregate Basket Return on any Valuation Date.

"**Lock-in Level**" means each level specified as such in the applicable Final Terms.

The "**Cliquet Return**" means the lower of:

- (i) the Global Cap; and
- (ii) the Adjusted Coupon.

The "**Adjusted Coupon**" means the Initial Coupon plus the Aggregate Basket Return as at the most recently occurring Valuation Date.

The "**Global Cap**" means the value specified in the applicable Final Terms. If the Global Cap is specified as not applicable in the Final Terms, the Global Cap shall be ascribed a notional value of infinity for the purposes of calculating the Redemption Amount.

The "**Global Floor**" means the value specified in the applicable Final Terms. If the Global Floor is specified as not applicable in the Final Terms, the Global Floor shall be ascribed a notional value of zero for the purposes of calculating the Redemption Amount.

The "**Initial Coupon**" means the value specified in the applicable Final Terms.

The "**Aggregate Basket Return**" for each Valuation Period (the "**relevant Valuation Period**") will be the sum of the Adjusted Periodic Basket Returns for each Valuation Period up to and including the relevant Valuation Period.

The "**Adjusted Periodic Basket Return**" for each applicable Valuation Period will be the higher of:

- (A) The Local Floor; and
- (B) the lower of: (a) the Local Cap and (b) the Unadjusted Periodic Basket Return.

The "**Local Cap**" means the value specified in the applicable Final Terms. If the Local Cap is specified as not applicable in the Final Terms, the Local Cap shall be ascribed a notional value of infinity for the purposes of calculating the Redemption Amount.

The "**Local Floor**" means the value specified in the applicable Final Terms. If the Local Floor is specified as not applicable in the Final Terms, the Local Floor shall be ascribed a notional value of zero for the purposes of calculating the Redemption Amount.

The "**Unadjusted Periodic Basket Return**" is the result obtained by taking the sum of the Weighted Asset Returns as at the applicable Valuation Date, and subtracting the sum of the Weighted Asset Returns as at the immediately preceding Valuation Date, and expressing that result as a percentage of the sum of the Weighted Asset Returns as at the immediately preceding Valuation Date.

The "**Weighted Asset Return**" is the Reference Asset Return multiplied by the applicable Basket Participation.

The "**Reference Asset Return**" will be the result obtained by dividing the Final Price for each Reference Asset by the Initial Price and subtracting the Strike Level.

(xxii) *"Reverse Cliquet" structure*

the Redemption Amount will be calculated in the same manner as for the "*Cliquet*" structure set out in Condition 6(a)(xxi), save that the definition of "Adjusted Coupon" shall read as follows:

The "**Adjusted Coupon**" means the Initial Coupon less the Aggregate Basket Return as at the most recently occurring Valuation Date

(xxiii) *"Replacement Cliquet" structure*

the Redemption Amount will be calculated in the same manner as for the "*Cliquet*" structure set out in Condition 6(a)(xxi), save that the definition of "Adjusted Periodic Basket Return" shall read as follows:

The "**Adjusted Periodic Basket Return**" for each applicable Valuation Period will be the Unadjusted Periodic Basket Return, save that in respect of the Valuation Periods with the N highest Unadjusted Periodic Basket Returns, the Unadjusted Periodic Basket

Return shall be replaced with the relevant Fixed Periodic Basket Return specified in the Final Terms.

"N" shall have the value given to it in the applicable Final Terms.

"**Fixed Periodic Basket Return**" shall be as specified in the applicable Final Terms.

(xxiv) *"Reverse Replacement Cliquet" structure*

the Redemption Amount will be calculated in the same manner as for the *"Reverse Cliquet"* structure set out in Condition 6(a)(xxii), save that the definition of *"Adjusted Periodic Basket Return"* shall read as follows:

The **"Adjusted Periodic Basket Return"** for each applicable Valuation Period will be the Unadjusted Periodic Basket Return, save that in respect of the Valuation Periods with the N highest Unadjusted Periodic Basket Returns, the Unadjusted Periodic Basket Return shall be replaced with the relevant Fixed Periodic Basket Return specified in the Final Terms.

"N" shall have the value given to it in the applicable Final Terms.

"**Fixed Periodic Basket Return**" shall be as specified in the applicable Final Terms

(xxv) *"Rainbow Replacement Cliquet" structure*

the Redemption Amount will be the sum of the principal amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and the higher of:

- (i) the Minimum Basket Return; and
- (ii) the sum of the Weighted Replacement Cliquet Performance of each Reference Asset in the Basket.

The **"Weighted Replacement Cliquet Performance"** will be the Replacement Cliquet Performance of the relevant Reference Asset multiplied by the applicable Basket Participation.

The **"Basket Participation"** will be determined on the basis of the Replacement Cliquet Basket Participation.

The **"Replacement Cliquet Performance"** will be the sum of the Adjusted Periodic Reference Asset Returns of the relevant Reference Asset for each Valuation Period.

The **"Adjusted Periodic Reference Asset Return"** for each applicable Valuation Period will be the Periodic Reference Asset Return, save that in respect of the Valuation Periods with the N highest Periodic Reference Asset Returns, the Reference Asset Return shall be replaced with the relevant Fixed Reference Asset Return specified in the Final Terms.

"N" shall have the value given to it in the applicable Final Terms.

"**Fixed Reference Asset Return**" shall be as specified in the applicable Final Terms.

The **"Periodic Reference Asset Return"** will be the result (expressed as a percentage) obtained by dividing the Final Price for each Reference Asset by the Start Price and subtracting 100 per cent.

The **"Start Price"** will be the Closing Price of the relevant Reference Asset on the Valuation Date immediately preceding the start of the application Valuation Period.

The **"Final Price"** will be the Closing Price of the relevant Reference Asset on the Valuation Date at the end of the applicable Valuation Period.

(xxvi) *Reverse Convertible structure*

If the sum of the Basket Return and 1 is equal to or above the Initial Basket Level, the Redemption Amount will be equal to the Principal Amount of the Notes.

If the sum of the Basket Return and 1 is below the Initial Basket Level, the Redemption Amount will be calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and the Basket Return and adding the resulting negative amount to the Principal Amount of the Notes (in this case the Redemption Amount will be less than the Principal Amount of the Notes).

The "**Basket Return**" will be calculated in the same manner as for the "Basket Long" structure set out in Condition 6(a)(ii).

(xxvii) *Reverse Convertible Risk Barrier structure*

If the sum of the Basket Return and 1 is equal to or above the Initial Basket Level on the final Valuation Date, the Redemption Amount will be equal to the Principal Amount of the Notes.

If the sum of the Basket Return and 1 is below the Barrier Level on any Valuation Date, and on the final Valuation Date the Basket Return is below the Initial Basket Level, the Redemption Amount will be calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and the Basket Return and adding the resulting negative amount to the Principal Amount of the Notes (in this case the Redemption Amount will be less than the Principal Amount of the Notes).

The "**Basket Return**" will be calculated in the same manner as for the "Basket Long" structure set out in Condition 6(a)(ii).

For the purposes of calculating the Weighted Asset Return (save for in relation to calculating the Basket Return), the "**Reference Asset Return**" will be the result obtained by dividing the Closing Price for each Reference Asset by the Initial Price and subtracting the Strike Level.

(xxviii) *"Worst of" Reverse Convertible structure*

If the sum of the Worst Reference Asset Return and 1 is equal to or above the Barrier Level, the Redemption Amount will be equal to the Principal Amount of the Notes.

If the sum of the Worst Reference Asset Return and 1 is below the Initial Basket Level, the Redemption Amount will be calculated by multiplying the Principal Amount of the Notes by the Participation Ratio and the Worst Reference Asset Return and adding the resulting negative amount to the Principal Amount of the Notes. In this case the Redemption Amount will be less than the Principal Amount.

The "**Worst Reference Asset Return**" is the Reference Asset Return in respect of which the Reference Asset Return is the lowest.

The "**Reference Asset Return**" is the result obtained by dividing the Final Price for each Reference Asset by the Initial Price and subtracting the Strike Level.

(xxix) *Up and In Long*

The Redemption Amount will be equal to the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio, the Knock-In Factor and the higher of:

- (A) zero; and
- (B) the Basket Return.

The "**Knock-In Factor**" means:

- (A) a value equal to 1 if the sum of the Basket Return and 1 on any Valuation Date is at or above the Barrier Level;
- (B) a value equal to zero if the sum of the Basket Return and 1 is not at or above the Barrier Level on any Valuation Date.

The "**Basket Return**" will be calculated in the same manner as for the "Basket Long" structure set out in Condition 6(a)(ii).

(xxx) *Up and Out Long*

The Redemption Amount will be equal to the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes and the highest of:

- (A) zero;
- (B) the result of multiplying the Rebate and the Knock Out Factor; and
- (C) the result of multiplying the Participation Ratio, the Knock-Out Differential and the Basket Return.

The "**Knock-Out Factor**" means:

- (A) a value equal to 1 if the sum of the Basket Return and 1 on any Valuation Date is above the Barrier Level;
- (B) a value equal to zero if the sum of the Basket Return and 1 is not above the Barrier Level on any Valuation Date.

The "**Rebate**" means the value specified in the applicable Final Terms.

The "**Knock-Out Differential**" means the difference between 1 and the Knock-Out Factor; and

The "**Basket Return**" will be calculated in the same manner as for the "Basket Long" structure set out in Condition 6(a)(ii).

(xxxi) *Worst of Down and Out Basket Long*

The Redemption Amount will be equal to the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the highest of:

- (A) zero; and
- (B) the result of multiplying the Rebate and the Knock-Out Factor; and
- (C) the result of multiplying the Participation Ratio, the Knock-Out Differential and the Basket Return.

The "**Knock-Out Factor**" means:

- (A) a value equal to 1 if the sum of the Minimum Performance and 1 on any Valuation Date is less than or equal to the Barrier Level
- (B) a value equal to zero if the sum of the Minimum Performance and 1 is above the Barrier Level on any Valuation Date.

The "**Knock-Out Differential**" means the difference between 1 and the Knock-Out Factor

The "**Minimum Performance**" means the lowest Reference Asset Performance of all Reference Assets within the Basket

The "**Reference Asset Performance**" means the result of dividing:

- (A) the Closing Price of the relevant Reference Asset the applicable Valuation Date, as specified in the Final Terms, by
- (B) the average of the Closing Prices of the relevant Reference Asset on each Initial Valuation Date.

The "**Rebate**" means the value specified in the applicable Final Terms.

The "**Basket Return**" will be calculated in the same manner as for the "Basket Long" structure set out in Condition 6(a)(ii).

(xxxii) *Down and Out Basket Long*

The Redemption Amount will be equal to the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the highest of:

- (A) zero;
- (B) the result of multiplying the Rebate and the Knock Out Factor; and
- (C) the result of multiplying the Participation Ratio, the Knock-Out Differential and Basket Return.

The "**Knock-Out Factor**" means:

- (A) a value equal to 1 if the sum of the Basket Return and 1 on any Valuation Date is less than or equal to the Barrier Level;
- (B) a value equal to zero if the sum of the Basket Return and 1 is above the Barrier Level on any Valuation Date.

The "**Rebate**" means the value specified in the applicable Final Terms.

The "**Knock-Out Differential**" means the difference between 1 and the Knock-Out Factor.

The "**Basket Return**" will be calculated in the same manner as for the "Basket Long" structure set out in Condition 6(a)(ii) ("*Basket Long*" Structure).

(xxxiii) *Worst of Digital Memory Coupon 1*

The Redemption Amount will be equal to the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio, and the higher of: (i) zero, and (ii) the Coupon Level.

The "**Coupon Level**" means, on any Valuation Date, the higher of: (i) the Coupon Level on the immediately preceding Valuation Date (or, in the case of the Initial Valuation Date, the Initial Coupon) and (ii) the product of N, the Coupon Barrier Level and the Coupon.

"N" will be the number of Valuation Dates, as specified in the Final Terms.

The "**Coupon Barrier Level**" will be 1 if the Reference Asset Return (as determined in accordance with Condition 6(a)(ii) ("*Basket Long*" structure)) for every Reference Asset within the Basket is greater than, or equal to, the Barrier Level on each Valuation Date, otherwise it will be zero.

(xxxiv) *Worst of Call Option*

The Redemption Amount will be equal to the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio, and the higher of: (i) the Minimum Performance and (ii) zero.

The "**Minimum Performance**" means the lowest Reference Asset Performance of all Reference Assets within the Basket

The "**Reference Asset Performance**" means the result of dividing:

- (A) the Closing Price of the relevant Reference Asset on the applicable Valuation Date, as specified in the Final Terms, by
- (B) the average of the Closing Prices of the relevant Reference Asset on each Initial Valuation Date.

and subtracting the Strike Level.

(xxxv) *Outperformance Option*

The Redemption Amount will be equal to the sum of the Principal Amount of the Notes and an additional amount calculated by multiplying the Principal Amount of the Notes by the Participation Ratio, and the higher of:

- (A) zero; and
- (B) the lower of:
  - (1) the Maximum Payout, and
  - (2) the Performance Differential.

The "**Maximum Payout**" will be the value specified in the applicable Final Terms.

The "**Performance Differential**" will be calculated by subtracting the Short Performance from the Long Performance.

The "**Long Performance**" will be calculated in the same manner as "Basket Return" for the "Basket Long" structure set out in Condition 6(a)(ii) ("*Basket Long*" structure); and

The "**Short Performance**" will be calculated in the same manner as "Basket Return" for the "Basket Short" structure set out in Condition 6(a)(vi) ("*Basket Short*" structure).

The Reference Assets used for the purposes of calculating the Long Performance and the Short Performance will be grouped into two separate Baskets (the "**Long Basket**" and the "**Short Basket**" respectively, and each a "**Basket**"), as specified in the applicable Final Terms. References in Condition 6(a)(ii) to the "**Basket**" shall be construed as references to the Long Basket, and reference in Condition 6(a)(iii) to the "**Basket**" shall be construed as references to the Short Basket for the purposes of this Condition 6(a)(xxxv).

(xxxvi) *Non-Tranched CLN Structure*

the Redemption Amount will be equal to the Principal Amount of the Notes multiplied by the sum of:

- (A) 1 minus the Portfolio Exposure; and
- (B) the product of the Portfolio Exposure, the Target Redemption Amount and the Portfolio Return.

The "**Portfolio Return**" means the difference between 1 and the Portfolio Loss.

The "**Portfolio Loss**" means the sum of the Weighted Asset Loss for each Reference Entity within the Basket.

The "**Weighted Asset Loss**" means the product of the Basket Participation and the Reference Entity Loss for the relevant Reference Entity.

The "**Reference Entity Loss**" will be determined by subtracting the Recovery Value in respect of the relevant Reference Entity from 1.

The "**Recovery Value**" will be 100 per cent. if a Credit Event (as defined in Part 3: *Additional Conditions for Credit-Linked Notes*) has not occurred in relation to that Reference Entity during the period commencing on the Observation Start Date and ending on the Observation End Date, or if such a Credit Event has occurred, it will be either a Fixed Recovery Value or a Market Recovery Value, as specified in the applicable Final Terms.

(xxxvii) *Tranched CLN Structure*

the Redemption Amount will be equal to the Principal Amount of the Notes multiplied by the sum of:

- (A) 1 minus the Portfolio Exposure; and
- (B) the product of the Portfolio Exposure, the Target Redemption Amount and the Portfolio Return.

The "**Portfolio Return**" means the result obtained by subtracting the Adjusted Tranche Loss from 1.

The "**Adjusted Tranche Loss**" means the result obtained by dividing the lower of a) the Tranche Attachment Range and b) the Tranche Loss, by the Tranche Attachment Range.

The "**Tranche Loss**" means the higher of:

- (A) zero and
- (B) the result obtained by subtracting the Tranche Attachment Point from the sum of the Weighted Asset Loss for each Reference Entity within the Basket.

The "**Weighted Asset Loss**" means the product of the Basket Participation and the Reference Entity Loss for the relevant Reference Entity.

The "**Reference Entity Loss**" will be the result obtained by subtracting the Recovery Value in respect of the relevant Reference Entity from 1.

The "**Recovery Value**" will be 100 per cent. if a Credit Event (as defined in Part 3: *Additional Conditions for Credit-Linked Notes*) has not occurred in relation to that Reference Entity during the period commencing on the Observation Start Date and ending on the Observation End Date, or if such a Credit Event has occurred, it will be either a Fixed Recovery Value or a Market Recovery Value, as specified in the applicable Final Terms.

(xxxviii) *Nth to Default CLN Structure*

the Redemption Amount will be equal to the Principal Amount of the Notes multiplied by the sum of:

- (A) 1 minus the Portfolio Exposure; and
- (B) the product of the Portfolio Exposure, the Target Redemption Amount and the Portfolio Return.

The "**Portfolio Return**" means the difference between 1 and the Portfolio Loss.

The "**Portfolio Loss**" means:

- (A) if the number of Credit Events that have occurred in relation to any Reference Entity within the Basket during the period commencing on the Observation Start Date and ending on the Observation End Date, is greater than or equal to N, the Reference Entity Loss for the Nth Reference Entity within the Basket in respect of which a Credit Event occurs; or
- (B) if the number of Credit Events that have occurred in relation to any Reference Entity within the Basket during the period commencing on the Observation Start Date and ending on the Observation End Date, is less than N, zero.

"N" shall be the figure specified in the Final Terms.

The "**Reference Entity Loss**" will be the difference between 1 and the Recovery Value in respect of the relevant Reference Entity.

The "**Recovery Value**" will be 100 per cent. if a Credit Event (as defined in Part 3: *Additional Conditions for Credit-Linked Notes*) has not occurred in relation to that Reference Entity during the period commencing on the Observation Start Date and ending on the Observation End Date, or if such a Credit Event has occurred, it will be either a Fixed Recovery Value or a Market Recovery Value, as specified in the applicable Final Terms.

(xxxix) *Nth and Nth+1 to Default CLN Structure*

the Redemption Amount will be equal to the Principal Amount of the Notes multiplied by the sum of:

- (A) 1 minus the Portfolio Exposure; and
- (B) the product of the Portfolio Exposure, the Target Redemption Amount and the Portfolio Return.

The "**Portfolio Return**" means the result obtained by subtracting the Portfolio Loss from 1.

The "**Portfolio Loss**" means:

- (A) if the number of Credit Events that have occurred in relation to any Reference Entity within the Basket during the period commencing on the Observation Start Date and ending on the Observation End Date, is greater than N the sum of the Weighted Asset Loss for the Nth Reference Entity to default and the Nth plus 1 (i.e. the immediately succeeding) Reference Entity to default within the Basket; or
- (B) if the number of Credit Events that have occurred in relation to any Reference Entity within the Basket during the period commencing on the Observation Start Date and ending on the Observation End Date is equal N, an amount equal to the Weighted Asset Loss of the Nth Reference Entity in respect of which a Credit Event occurs;
- (C) if the number of Credit Events that have occurred in relation to any Reference Entity within the Basket during the period commencing on the Observation Start Date and ending on the Observation End Date, is less than N, zero.

"N" shall be the figure specified in the Final Terms.

The "**Weighted Asset Loss**" means the product of the Basket Participation and the Reference Entity Loss for the relevant Reference Entity.

The "**Reference Entity Loss**" will be the result obtained by subtracting the Recovery Value in respect of the relevant Reference Entity from 1.

The "**Recovery Value**" will be 100 per cent. if a Credit Event (as defined in Part 3: *Additional Conditions for Credit-Linked Notes*) has not occurred in relation to that Reference Entity during the period commencing on the Observation Start Date and ending on the Observation End Date, or if such a Credit Event has occurred, it will be either a Fixed Recovery Value or a Market Recovery Value, as specified in the applicable Final Terms.

(xl) *Digital Long*

If the Basket Return on the final Valuation Date exceeds the Basket Strike Level, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount equal to the Principal Amount of the Notes multiplied by the Coupon.

If the Basket Return does not exceed the Basket Strike Level on the final Valuation Date, the Redemption Amount will be the Principal Amount of the Notes.

The Basket Return will be calculated on the basis of the either the "Basket Long" Structure in accordance with Condition 6(a)(ii)(*Basket Long Structure*) or the "Basket Short Structure" in accordance with Condition 6(a)(iii)(*Basket Short Structure*), as specified in the Final Terms.

(xli) *Digital Short*

If the Basket Return on the final Valuation Date is below the Basket Strike Level, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount equal to the Principal Amount of the Notes multiplied by the Coupon.

If the Basket Return on the final Valuation Date is equal to or above the Basket Strike Level, the Redemption Amount will be the Principal Amount of the Notes.

The Basket Return will be calculated on the basis of the either the "Basket Long" Structure in accordance with Condition 6(a)(ii)(*Basket Long Structure*) or the "Basket Short Structure" in accordance with Condition 6(a)(iii)(*Basket Short Structure*), as specified in the Final Terms.

(xlii) *Worst of Digital Long*

If the Reference Asset Return of the worst performing Reference Asset on the final Valuation Date exceeds the relevant Barrier Level, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount equal to the Principal Amount of the Notes multiplied by the Coupon.

If the Reference Asset Return of the worst performing Reference Asset on the final Valuation Date does not exceed the relevant Barrier Level, the Redemption Amount will be the Principal Amount of the Notes.

The "worst performing" Reference Asset will be the Reference Asset with the lowest Reference Asset Return (as defined in Condition 6(a)(ii) ("*Basket Long Structure*") or Condition 6(a)(iii) ("*Basket Short Structure*").

(xliii) *Worst of Digital Short*

If the Reference Asset Return of the worst performing Reference Asset on the final Valuation Date is below the relevant Barrier Level, the Redemption Amount will be the sum of the Principal Amount of the Notes and an additional amount equal to the Principal Amount of the Notes multiplied by the Coupon.

If the Reference Asset Return of the worst performing Reference Asset on the final Valuation Date is equal to or above the relevant Barrier Level the Redemption Amount will be the Principal Amount of the Notes.

The "worst performing" Reference Asset will be the Reference Asset with the lowest Reference Asset Return (as defined in Condition 6(a)(ii) ("*Basket Long Structure*") or Condition 6(a)(iii) ("*Basket Short Structure*").

(xliv) *"Series of Digitals"*

The Redemption Amount will be equal to the Principal Amount of the Notes multiplied by the fraction of which the numerator is the number of Reference Assets with a Closing Price which is at or above the relevant Barrier Level on each Business Day up to and including the relevant Valuation Date and the denominator is the number of Reference Assets within the Basket.

(xlv) *Delta 1 Structures*

The occurrence of a Deferred Redemption as specified below, the Redemption Amount will payable on the Scheduled Redemption Date and will be an amount equal to the Redemption Proceeds in relation to the relevant Reference Asset(s), less the Fee Amount and less any applicable Taxes.

The "**Fee Amount**" means a structuring fee payable to the Issuer in an amount calculated as a percentage per annum. of the aggregate Principal Amount of the Notes specified in the applicable Final Terms multiplied by the relevant Day Count Fraction.

The "**Hedging Party**" means any of the Issuer, any other entity within the Nordea Group (as selected by the Issuer from time to time in its sole discretion), or a hypothetical investor located in Denmark, Finland or Sweden, that will be deemed to hold the Reference Assets.

"**Taxes**" means all taxes, fees or other deductions relating to a Hedging Party's purchase, ownership, redemption or transfer of the Reference Assets, any dividends pertaining to the Reference Assets, or any currency conversion in respect of the exchange of the Note proceeds for the currency of the relevant Reference Asset(s).

*Deferred Redemption*

If it is not possible for the Hedging Party to redeem Reference Assets before the Scheduled Redemption Date or Early Redemption Date because the Reference Assets are subject to a restriction on redemptions or for any other reason, or if the Hedging Party determines that it will not receive the full amount of any Redemption Proceeds on or before the Scheduled Redemption Date or the Early Redemption Date (as applicable) (each such event a "**Deferred Redemption**"), then the Issuer shall promptly notify the Holders of such event (a "**Deferred Redemption Notice**").

Following a Deferred Redemption Notice the Issuer shall make a partial redemption of the Notes on (i) the Scheduled Redemption Date or the Early Redemption Date, as applicable, provided and to the extent that the Hedging Party has received (or is deemed to have received) any part of the Fund Redemption Proceeds no later than on the tenth Business Day prior to such date, and thereafter (ii) within five Business Days after each date on which the Hedging Party receives (or is deemed to have received) all or part of the Redemption Proceeds (each such date, a "**Deferred Redemption Date**").

The amount of each such partial redemption of the Notes shall be calculated in accordance with the formula for calculating the Redemption Amount set out above, and for such purpose the "Redemption Proceeds" shall be deemed to be the most recent partial amount of the Redemption Proceeds received (or deemed to have been received) by the Hedging Party prior to the relevant Deferred Redemption Date and the "Fee Amount" shall be deemed to be the aggregate Fee Amount as of the relevant Deferred Redemption Date less any part of the Fee Amount that has previously been deducted from (i) the Redemption Proceeds or (ii) the Redemption Amount in connection with any prior partial redemption of the Notes.

The sum of all partial redemption payments shall never exceed the aggregate Redemption Proceeds which the Hedging Party has received (or is deemed to have received) on or prior to the Back Stop Date less (i) the aggregate Fee Amount and less (ii) the aggregate amount of all Taxes.

If the Issuer has determined that a Deferred Redemption has occurred and is continuing and that it can be reasonably expected that any amount of the Redemption Proceeds will not be received by the Hedging Party on or prior to the Back Stop Date, then the Issuer (i) may extend the Back Stop Date in order for it to be in alignment with expected future receipts of Redemption Proceeds as determined by the Issuer, or (ii) by notice to the Holders and to the relevant Clearing System(s) cancel the Notes with immediate effect, whereupon the Issuer shall not be obliged to make, and no Holder shall be entitled to receive, any redemption payment or other amount in respect of the Notes.

Any Redemption Proceeds received by the Issuer or the Hedging Party after the Back Stop Date shall not be payable to Holders and the Holders shall have no claim to receive any such remaining part of the Redemption Amount after the Back Stop Date.

(xlv) *TOM Cumulative Strategy*

If this Condition 6(a)(xlv) (*TOM Cumulative Strategy*) is specified in the applicable Final Terms, the Redemption Amount will be equal to the Principal Amount of the Notes multiplied by the Participation and multiplied by the TOM Value.

The "**TOM Value**" will be 100 on the Initial Valuation Date, and thereafter will be equal to the TOM Value on the preceding Business Day multiplied by the applicable TOM Performance applicable to the relevant Business Day.

The "**TOM Performance**" will be equal to the Basket Return for the TOM Period, and the Reference Rate Return for each Business Day that does not fall within the TOM Period.

The "**Basket Return**" will be calculated as the sum of the Weighted Reference Asset Performance for each Reference Asset within the Basket.

The "**Weighted Reference Asset Performance**" will be the Reference Asset Performance multiplied by the applicable Basket Participation of the relevant Reference Asset.

The "**Reference Asset Performance**" will be the result obtained by dividing the Closing Price of the relevant Reference Asset on the Business Day at the end of the applicable TOM Period by the Closing Price of the relevant Reference Asset on the Business Day at the start of the applicable TOM Period.

The "**Reference Rate Return**" will be equal to the applicable Reference Rate multiplied by the relevant Day Count Fraction.

(xlvii) *FX Components*

(A) *FX Component - Basket*

If "FX Component – Basket" is specified as applicable in the relevant Final Terms, then the Basket Return determined in accordance with whichever of the foregoing provisions of this Condition 6(a) (*Redemption at Maturity*) is specified in the applicable Final Terms, will be further multiplied by the applicable FX Factor for the purposes of determining the total Redemption Amount payable to the Holders on the Redemption Date. The FX Component Basket may only apply if the Basket Return is positive, or may only apply if the Basket Return is negative, in either case as specified in the Final Terms.

(B) *FX Component - Reference Asset*

If "FX Component – Reference Asset" is specified as applicable in the relevant Final Terms, then the Reference Asset Return of one or more Reference Assets specified in the Final Terms, as determined in accordance with whichever of the foregoing provisions of this Condition 6(a) (*Redemption at Maturity*) is specified in the applicable Final Terms, will be further multiplied by the

applicable FX Factor for the purposes of determining the relevant Redemption Amount in the manner specified in that Condition.

(xlviii) *Best of/Worst of Modifier*

If this Condition (xlviii) (*Best of/Worst of Modifier*) is specified as applicable in the relevant Final Terms, then references to the Basket Return shall be replaced by references to the "Reference Asset Return of the Nth best performing Reference Asset" for the purposes of calculating the Redemption Amount in accordance with all of the foregoing performance structures set out in this Condition 6(a).

The Nth best performing Reference Asset shall be the Reference Asset with the Nth highest Reference Asset Return, where "N" shall be the value specified in the Final Terms.

If the performance structure specified in the Final Terms is the:

(xlix) *Inflation Linker 2*

The Redemption Amount will be the Principal Amount of the Notes multiplied by the higher of:

- (A) 1; and
- (B) the result obtained by dividing the Inflation Rate on the Final Valuation Date by the Inflation Rate on the Initial Valuation Date.

(l) *"Barrier outperformance" structure 2*

if the Basket Return (as determined in accordance with Condition 6(a)(ii) ("*Basket Long*" Structure) or Condition 6(a)(iii) ("*Basket Short*" Structure)), as specified in the Final Terms, on any Valuation Date exceeds the Barrier Level, the Redemption Amount will be the Principal Amount of the Notes plus an additional amount calculated as the Principal Amount of the Notes multiplied by the Participation Ratio and multiplied by the higher of the Coupon and the Basket Return. If the Basket Return does not exceed the Barrier Level on any Valuation Date, the Redemption Amount will be the Principal Amount of the Notes.

(li) *"Barrier Underperformance" structure 2*

if the Basket Return (as determined in accordance with Condition 6(a)(ii) ("*Basket Long*" Structure) or Condition 6(a)(iii) ("*Basket Short*" Structure)), as specified in the Final Terms, on any Valuation Date falls below the Barrier Level, the Redemption Amount will be the Principal Amount of the Notes plus an additional amount calculated as the Principal Amount of the Notes multiplied by the Participation Ratio and multiplied by the higher of the Coupon and the Basket Return. If the Basket Return does not fall below the Barrier Level on any Valuation Date, the Redemption Amount will be the Principal Amount of the Notes.

(b) ***Combination of Structures***

If "Combination of Structures" is specified as applicable in the Final Terms, the Redemption Amount payable to the Holders on the Redemption Date may be a combination of two or more of the performance structures specified in the foregoing provisions of this Condition 6(a) (*Redemption at Maturity*). The Redemption Amounts determined in accordance with each applicable sub-paragraph of this Condition 6(a) (*Redemption at Maturity*) shall be multiplied by the applicable Performance Percentage and then aggregated for the purposes of calculating the total Redemption Amount payable by the Issuer on the applicable Redemption Date.

The "**Performance Percentage**" will be the percentage of the overall Redemption Amount that is attributable to the relevant performance structure, as specified in the applicable Final Terms.

(c) **Minimum Redemption**

If this Condition 6(c) (*Minimum Redemption*) is specified as applicable in the relevant Final Terms, the Redemption Amount shall be the greater of the amount determined in accordance with Condition 6(a) (*Redemption at Maturity*), and the Minimum Redemption Amount.

(d) **Inflation-Protected Principal**

If this Condition 6(d) (*Inflation – Protected Principal*) is specified as applicable in the relevant Final Terms, the Redemption Amount determined in accordance with Condition 6(a) (*Redemption at Maturity*) will be multiplied by the ratio obtained by dividing the Final CPI by the Base CPI.

(e) **Instalment Redemption**

If specified in the Final Terms, certain Notes may be amortising. If so, the Redemption Amount will be paid in instalments equal to the Instalment Amount on one or several Instalment Dates, as specified in the Final Terms.

(f) **Early Redemption for Taxation Reasons**

If, in relation to any Series of Notes, as a result of any change in the laws of the Issuer's jurisdiction or of any political subdivision thereof or any authority or agency therein or thereof having power to tax or in the interpretation or administration of any such laws or regulations which becomes effective on or after the date of issue of such Notes or any earlier date specified in the relevant Final Terms on the occasion of the next payment due in respect of such Notes the Issuer would be required to pay additional amounts as provided in Condition 7 (*Taxation*), the Issuer may, at its option having given not less than thirty nor more than sixty days' notice, or such other period as may be specified in the Final Terms (ending, in the case of Notes which bear interest at a floating rate, on a day upon which interest is payable) to the Holders in accordance with Condition 16 (*Notices*) (which notice shall be irrevocable) redeem in whole (but not, unless and to the extent that the relevant Final Terms specifies otherwise, in part) the Notes of the relevant Series at its principal amount (or such other redemption amount as may be specified in the relevant Final Terms), together with accrued interest (if any) thereon.

In the event withholding tax is introduced in Finland or Sweden and, pursuant to such Finnish or Swedish withholding tax the Issuer is obliged to effect deductions as referred to in the preceding paragraph, the Issuer reserves the right to obtain the following information regarding each Holder:

- (i) the Holder's name, personal identification number or other identification number and postal address; and
- (ii) the number of Notes held by the Holder and their Principal Amount.

The information referred to above need only be provided in relation to Notes issued under this Programme.

A request for information pursuant to this Condition 6(f) (*Early Redemption for Taxation Reasons*) shall be submitted to Euroclear Sweden or Euroclear Finland (as applicable) in sufficient time for Euroclear Sweden or Euroclear Finland to process.

(g) **Optional Early Redemption (Call)**

If specified in the relevant Final Terms, the Issuer may redeem Notes early, in whole or in part, at the Early Redemption Amount together with accrued interest (if any), on the date or dates specified in the Final Terms.

The Issuer shall notify the Holders of any early redemption in accordance with Condition 16 (*Notices*) not later than 10 days prior to the relevant Early Redemption Date. Such notice of early redemption shall be irrevocable.

(h) **Optional Early Redemption (Put)**

If specified in the relevant Final Terms, the Holder shall be entitled to demand early redemption of Notes at their Early Redemption Amount together with accrued interest (if any) thereon, on the date or dates set out in the Final Terms and subject to any conditions specified in the Final Terms.

In order to exercise such option, the Holder, must not less than 45 days prior to the relevant Early Redemption Date give notice to the Issuer. Such notice of early redemption shall be irrevocable.

(i) **Early Redemption of non-interest bearing Notes**

Upon early redemption of Zero Coupon Notes, the relevant Notes shall be repaid in an amount determined on the Record Date (or, in the case of Bearer Notes, the due date for payment) in accordance with the following formula:

$$\frac{\text{Principal Amount}}{(1 + r)^t}$$

$$(1 + r)^t$$

r = the Reference Yield stated in the Final Terms.

t = the remaining term of the Notes, expressed as a number of days divided by 360 (whereby each month shall be deemed to consist of 30 days) or based on the actual number of days/actual number of days.

(j) **Early Redemption of Notes with Autocallable performance structure**

If the Basket Return on any Valuation Date (other than the final Valuation Date) is at or above the relevant Call Barrier Level minus the Basket Strike Level, then the Issuer will give notice to Holders in accordance with Condition 16 (*Notices*) and redeem the Notes early, in whole but not in part, on the next following Early Redemption Date at their Early Redemption Amount which will be the Principal Amount of the relevant Notes together with any Coupon (if any) payable in accordance with Condition 5(g) (*Coupon bearing Autocallable Notes*).

(k) **Early Redemption of Notes with Best of/Worst of Autocallable Structure**

If the Final Price of the N<sup>th</sup> best performing Reference Asset (as defined in Condition 6(a)(xi) (*Best of/Worst of Autocallable Structure*)) on any Valuation Date (other than the final Valuation Date) divided by the Initial Price of the N<sup>th</sup> best performing Reference Asset is at or above the relevant Call Barrier Level, then the Issuer will give notice to Holders in accordance with Condition 16 (*Notices*) and redeem the Notes early, in whole but not in part, on the next following Early Redemption Date at their Early Redemption Amount which will be the Principal Amount of the relevant Notes together with any Coupon (if any) payable in accordance with Condition 5(g) (*Coupon bearing Autocallable Notes*).

(l) **Early Redemption of Credit Linked Notes**

If "Accelerated CLN Payment" is specified as applicable in the relevant Final Terms, then in the event that the Recovery Value in relation to one or more Reference Entities (each a "**Defaulted Reference Entity**") is determined prior to the scheduled Redemption Date for the Notes, the Issuer may elect to make an early repayment of all or part of the Notes on any Interest Payment Date by giving notice thereof to Holders in accordance with Condition 16 (*Notices*). The applicable Early Redemption Amount shall be determined by the Issuer in good faith and in a commercially reasonable manner, and shall be calculated on a pro-rata basis such that the Holder receives a share of the Redemption Amount that would (notwithstanding the early redemption of the Notes in accordance with this Condition 6(l) (*Early Redemption of Credit Linked Notes*)) otherwise be due and payable on the Redemption Date in accordance with the applicable provisions of Condition 6(a) (*Redemption at Maturity*) which is proportionate to the weighting of the relevant Defaulted Reference Entity or Defaulted Reference Entities in relation to the Basket as a whole.

(m) ***Purchase of Notes***

The Issuer and its subsidiaries (if any) may at any time purchase Notes in the open market or otherwise and at any price **provided that**, in the case of interest-bearing Definitive Notes, any unmatured Receipts and Coupons appertaining thereto are purchased therewith.

(n) ***Procedure for Payment upon Redemption***

Any redemption of the VP Notes, VPS Notes, Swedish Notes or Finnish Notes pursuant to this Condition 6 (*Redemption and Purchase*) shall be in accordance with, in the case of VP Notes, the VP Rules, in the case of VPS Notes, the VPS Rules, in the case of Swedish Notes, the Euroclear Sweden Rules and in the case of Finnish Notes, the Euroclear Finland Rules.

(o) ***Payment of Unwind Amount on Early Redemption***

If this Condition 6(o)(*Payment of Unwind Amount on Early Redemption*) is specified as applicable in the Final Terms, the Early Redemption Amount payable to the Holders shall be reduced by any applicable Unwind Amount, where: "**Unwind Amount**" means an amount determined by the Calculation Agent in its sole discretion in a commercially reasonable manner equal to the sum of (without duplication) all costs, expenses (including loss of funding), tax and duties incurred by the Issuer in connection with such early redemption, and the related termination, settlement or re-establishment of any hedge or related trading position, plus any amount payable by the relevant hedge counterparty or swap counterparty to the Issuer or minus any amount payable by the Issuer to the relevant hedge counterparty or swap counterparty equal to any amount payable as a result of the unwind of any swap transaction entered into in connection with the Notes, **provided that** such amount is greater than zero.

7. **Taxation**

(a) All amounts payable (whether in respect of principal, redemption amount, interest or otherwise) in respect of the Notes will be made free and clear of and without withholding or deduction for, or on account of, any present or future taxes or duties of whatever nature imposed or levied by or on behalf of the Issuer's jurisdiction of incorporation or any political subdivision thereof or any authority or agency therein or thereof having power to tax, unless the withholding or deduction of such taxes or duties is required by law. In that event, the Issuer will pay such additional amounts as may be necessary in order that the net amounts receivable by the Holders after such withholding or deduction shall equal the respective amounts which would have been receivable in the absence of such withholding or deduction; except that no such additional amounts shall be payable in respect of payment in respect of any Note or Coupon presented for payment:

- (i) in the Issuer's jurisdiction of incorporation;
- (ii) by or on behalf of a Holder who is liable to such taxes or duties in respect of such Note or Coupon by reason of such Holder having some connection with the Issuer's jurisdiction of incorporation other than the mere holding of such Note or Coupon; or
- (iii) more than thirty days after the Relevant Date, except to the extent that the relevant Holder would have been entitled to such additional amounts on presenting the same for payment on the expiry of such period of thirty days; or
- (iv) by or on behalf of, a Holder who would not be liable or subject to the withholding or deduction by making a declaration of non-residence or other similar claim for exemption to the relevant tax authority; or
- (v) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to European Council Directive 2003/48/EC or any law implementing or complying with, or introduced in order to conform to, such Directive; or
- (vi) by or on behalf of a holder who would have been able to avoid such withholding or deduction by presenting the relevant Note, Receipt or Coupon to another Paying Agent in a Member State of the European Union.

- (b) For the purposes of these Conditions, the "**Relevant Date**" means the date on which such payment first becomes due and payable, but if the full amount of the moneys payable has not been received by the Fiscal Agent or, as the case may be, the Registrar on or prior to such due date, it means the first date on which the full amount of such moneys has been so received and notice to that effect shall have been duly given to the Holders of the Notes of the relevant Series in accordance with Condition 16 (*Notices*).
- (c) Any reference in these Conditions to principal, redemption amount and/or interest in respect of the Notes shall be deemed also to refer to any additional amounts which may be payable under this Condition 7 (*Taxation*) or any undertaking given in addition thereto or in substitution therefore.
- (d) Notwithstanding anything in this Condition 7 (*Taxation*) or in Condition 8 (*Payments*) to the contrary, the Issuer shall be permitted to withhold and deduct for or on account of any taxes imposed pursuant to sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended, and the regulations promulgated thereunder, pursuant to any inter-governmental agreement, or implementing legislation adopted by another jurisdiction in connection with these provisions, or pursuant to any agreement with the U.S. Internal Revenue Service, on any amount payable in respect of the Notes and shall not be required to pay any additional amounts in respect of any such taxes.

## 8. **Payments**

### (1) ***Payments — Bearer Notes***

- (a) This Condition 8(1) is applicable in relation to Bearer Notes.
- (b) Payment of amounts (including accrued interest) due on the redemption of Bearer Notes will be made against presentation and, save in the case of a partial redemption by reason of insufficiency of funds or payment of an Instalment Amount (other than the final Instalment Amount), surrender of the relevant Bearer Notes to or to the order of any of the Paying Agents.

Payment of Instalment Amounts (other than the final Instalment Amount) in respect of an Instalment Note will be made against presentation of the Bearer Note together with (where applicable) the relevant Receipt and surrender of such Receipt.

The Receipts are not and shall not in any circumstances be deemed to be documents of title and if separated from the Bearer Note to which they relate will not represent any obligation of the Issuer.

Accordingly, the presentation of a Bearer Note without the relative Receipt or the presentation of a Receipt without the Bearer Note to which it appertains shall not entitle the Holder to any payment in respect of the relevant Instalment Amount.

- (c) Payment of amounts due in respect of interest on Bearer Notes will be made:
  - (i) in the case of a Temporary Global Note or Permanent Global Note, against presentation of the relevant Temporary Global Note or Permanent Global Note at the specified office of any of the Paying Agents outside the United States and, in the case of a Temporary Global Note, upon due certification as required therein;
  - (ii) in the case of Definitive Notes without Coupons attached thereto at the time of their initial delivery, against presentation of the relevant Definitive Notes at the specified office of any of the Paying Agents outside the United States; and
  - (iii) in the case of Definitive Notes delivered with Coupons attached thereto at the time of the initial delivery, against surrender of the relevant Coupons at the specified office of any of the Paying Agents outside the United States.
- (d) If the due date for payment of any amount due (whether in respect of principal, interest or otherwise) in respect of any Bearer Notes is not a Business Day, then the Holder

thereof will not be entitled to payment thereof until the next following such Business Day and no further payment shall be due in respect of such delay save in the event that there is a subsequent failure to pay in accordance with these Conditions.

- (e) Each Definitive Note initially delivered with Coupons or Receipts attached thereto should be surrendered for final redemption together with all unmatured Coupons or Receipts appertaining thereto, failing which:
  - (i) in the case of Definitive Notes which bear interest at a fixed rate or rates, the amount of any missing unmatured Coupons will be deducted from the amount otherwise payable on such final redemption, the amount so deducted being payable against surrender of the relevant Coupon at the specified office of any of the Paying Agents at any time prior to the tenth anniversary of the due date of such final redemption or, if later, the fifth anniversary of the date of maturity of such Coupon; and
  - (ii) in the case of Definitive Notes which bear interest at, or at a margin above or below, a floating rate, all unmatured Coupon relating to such Definitive Notes (whether or not surrendered therewith) shall become void and no payment shall be made thereafter in respect of them.
  - (iii) in the case of Bearer Notes initially delivered with Receipts attached thereto, all Receipts relating to such Bearer Notes in respect of a payment of an Instalment Amount which (but for such redemption) would have fallen due on a date after such due date for redemption (whether or not surrendered therewith) shall become void and no payment shall be made thereafter in respect of them.

(2) ***Payments — Registered Notes***

- (a) This Condition 8(2) is applicable in relation to Registered Notes.
- (b) Payments of amounts (including accrued interest) due on the final redemption of Registered Notes will be made against presentation and, save in the case of a partial redemption by reason of insufficiency of funds, surrender of the relevant Registered Notes as the specified office of the Registrar. If the due date for payment of the final redemption amount of Registered Notes is not a Business Day, the Holder thereof will not be entitled to payment thereof until the next following such Business Day and no further payment shall be due in respect of such delay save in the event that there is a subsequent failure to pay in accordance with these Conditions.
- (c) Payment of amounts (whether principal, interest or otherwise) due (other than in respect of the final redemption of Registered Notes) in respect of Registered Notes will be paid to the Holders thereof (or, in the case of joint Holders, the first-named) as appearing in the register kept by the Registrar as at opening of business (New York time) on the fifteenth New York Banking Day before the due date for such payment (the "**Record Date**").
- (d) Notwithstanding the provisions of Condition 8(8)(b), payments of interest due (other than in respect of the final redemption of Registered Notes) in respect of Registered Notes will be made by a cheque drawn on a bank in the Relevant Financial Centre and posted to the address (as recorded in the register held by the Registrar) of the Holder thereof, (or, in the case of joint Holders, the first-named) on the Business Day immediately preceding the relevant date for payment unless prior to the relevant Record Date the Holder thereof (or, in the case of joint Holders, the first named) has applied to the Registrar and the Registrar has acknowledged such applications for payment to be made to a designated account (in the case aforesaid, a non-resident account with an authorised foreign exchange bank).

(3) ***Payments—Swiss Franc Notes***

This Condition 8(3) is applicable in relation to Swiss Franc Notes.

Payment of principal and/or interest shall be made in freely disposable Swiss francs without collection costs in Switzerland to the Noteholders and/or Couponholders, without any restrictions, whatever the circumstances may be, irrespective of nationality, domicile or residence of the Noteholders and/or Couponholders and without requiring any certification, affidavit or the fulfilment of any other formality.

Payment to the Swiss Paying Agent by the Issuer and the receipt by the Swiss Paying Agent of the due and punctual payment of the funds in Swiss francs in Switzerland shall release the Issuer of its obligations under the Notes and Coupons for the purposes of payment of principal and interest due on the respective payment dates to the extent of such payments.

(4) **Payments—VP Notes**

Payments of principal and/or interest in respect of the VP Notes shall be made to the Holders as appearing registered in the register kept by the VP as such on the fifth business day (as defined by the then applicable VP Rules) before the due date for such payment, such day being a Danish Business Day, or such other business day falling closer to the due date as then may be stipulated in VP Rules and will be made in accordance with said VP Rules. Such day shall be the "**Record Date**" in respect of the VP Notes in accordance with VP Rules.

(5) **Payments—VPS Notes**

Payments of principal and/or interest in respect of the VPS Notes shall be made to the Holders registered in the VPS System as defined by the applicable VPS Rule) as shown in the relevant records of the VPS before the due date for such payment, or such other business day falling closer to the due date as then may be stipulated in the VPS Rules and will be made in accordance with said VPS Rules. Such day shall be the "**Record Date**" in respect of the VPS Notes in accordance with the VPS Rules. *As of the date of this Prospectus the default VPS record date for the Redemption Amount is two business days prior to the relevant payment date. Record dates for interest payments are fifteen business days prior to the relevant payment day.*

(6) **Payments—Swedish Notes**

Payments of principal and/or interest in respect of the Swedish Notes shall be made to the Holders as appearing registered in the register kept by Euroclear Sweden as such on the fifth business day (as defined by the then applicable Euroclear Sweden Rules) before the due date for such payment, such day being a Stockholm Business Day, or such other business day falling closer to the due date as then may be stipulated in Euroclear Sweden Rules and will be made in accordance with said Euroclear Sweden Rules. Such day shall be the "**Record Date**" in respect of the Swedish Notes in accordance with Euroclear Sweden Rules.

(7) **Payments — Finnish Notes**

Payments of principal and/or interest in respect of the Finnish Notes shall be made to the Holders as appearing registered in the register kept by Euroclear Finland as such on the fifth business day (as defined by the then applicable Euroclear Finland Rules) before the due date for such payment, such day being a Helsinki Business Day, or such other business day falling closer to the due date as then may be stipulated in the Euroclear Finland Rules and will be made in accordance with said Euroclear Finland Rules. Such day shall be the "**Record Date**" in respect of the Finnish Notes in accordance with the Euroclear Finland Rules.

(8) **Payments — General Provisions**

- (a) Save as otherwise specified herein, this Condition 8 (*Payments*) is applicable in relation to Notes whether in bearer or in registered form.
- (b) Payments of amounts due (whether in respect of principal, interest or otherwise) in respect of Notes denominated in a currency other than euro will be made by cheque drawn on, or by transfer to, an account maintained by the payee with, a bank in the Relevant Financial Centre and in respect of a Note denominated in euro by cheque drawn on, or by transfer to, an euro account (or any other account to which euro may be credited or transferred) maintained by the payee with a bank in the principal financial centre of any member state of the European Union. Payments will, without prejudice to

the provisions of Condition 7 (*Taxation*), be subject in all cases to any applicable fiscal or other laws and regulations.

- (c) For the purposes of these Conditions:

Fixed Rate Notes, Inflation-Linked Interest Notes, Rate Adjustment Notes or Zero coupon Notes shall be subject to the Following Business Day Convention, unless otherwise specified in the Final Terms. Interest will then only be payable up to and including the Redemption Date or Early Redemption Date, as applicable.

Floating Rate Notes shall be subject to the Modified Following Business Day Convention, unless otherwise specified in the Final Terms. Interest will then be calculated on an adjusted or unadjusted basis, as set out in the Final Terms.

Other Notes shall be subject to the Following Business Day Convention, unless otherwise specified in the Final Terms.

If Notes are subject to a Business Day Convention other than those specified above, then the applicable Business Day Convention shall be specified and described in the Final Terms.

- (d) In the event that the applicable Clearing System is prevented from making any payment in accordance with the above provisions due to a delay in performance by the Issuer or for any other reason, the applicable Clearing System will make such payment to each person that is registered as a Holder on the relevant Record Date as soon as payment is received from the Issuer or the reason for delay has ceased.
- (e) If the Issuer is prevented from making payments to the Holders through the applicable Clearing System because the applicable Clearing System is affected by an event or circumstance set out in the first paragraph of Condition 22 (*Limitation of liability etc.*), then the Issuer shall be entitled to defer payment until such time as the event or circumstance affecting the applicable Clearing System has ceased. In such case, interest shall be payable in accordance with Condition 8(9) (*Default Interest*).
- (f) If a person or entity to whom payment was made in accordance with the above provisions was not entitled to receive such payment, the Issuer and the applicable Clearing System shall nevertheless be deemed to have discharged their respective payment obligations, unless the Issuer or the applicable Clearing System had knowledge that payment was made to a person or entity that was not entitled to receive the payment or if the Issuer or the applicable Clearing System did not act with due care.

(9) ***Default Interest***

- (a) In the event of any default in payment, default interest shall be payable on the due and unpaid amount from its due date up to and including the day on which payment is made at a Interest Rate equal to the Interest Base Rate (as specified in the Final Terms) for a period of one week, plus two percent. The Interest Base Rate shall thereupon be determined by the Issuer on the first Business Day of each calendar week during the period of default. Notwithstanding the aforesaid, the default interest rate on interest bearing Notes shall not (except in circumstances set out in paragraph (b) below) be lower than the rate which applied to the relevant Notes on the relevant due date plus two percent. Default interest shall not be capitalised.
- (b) If any default in payment under the Notes is due to any event or circumstance affecting the Issuer or the relevant Clearing System as referred to in the first paragraph of Condition 22 (*Limitations on liability etc.*) the default interest rate shall, with respect to interest bearing Notes, not exceed the Interest Rate which applied to the relevant Notes on the relevant due date (without the addition of two per cent. in accordance with the preceding paragraph) and, with respect to non-interest bearing Notes, no default interest shall accrue or be payable.

9. **Change in Law**

The following provisions shall apply if "Change in Law" is stated to be applicable in the relevant Final Terms.

- (a) Where, in the Issuer's opinion, as a consequence of any changes in any law, ordinance, regulation or equivalent or decision by a public authority or any change in the application thereof, or if a decree of moratorium, currency restriction, embargo, blockade or boycott of a central bank, national government or other public authority such as the United Nations or the European Union, (each a "**Change in Law**") it would be unlawful, significantly more difficult or cause significant reputational damage to the Issuer to issue and to hold Notes, or if it becomes unlawful or more difficult for the Issuer or a third party or cause significant reputational damage to the Issuer to hold, acquire or divest Reference Assets or to enter into derivative transactions with respect to a Reference Asset, which may be entered into to hedge the Issuer's exposure under the Notes, the Issuer may determine that the Affected Reference Asset shall be replaced by a replacement Reference Asset (as selected by the Issuer in its discretion), or alternatively adjust the calculation of the Redemption Amount.
- (b) Where the Issuer determines that it would not provide a reasonable result to replace the Affected Reference Asset or to adjust the applicable calculation, the Issuer may perform an early calculation of the Redemption Amount and/or the yield. Such calculation shall be based on the most recently published value of the Reference Asset. When the Issuer has determined the Redemption Amount and/or the yield, the Issuer shall notify the Holders of the amount of the Redemption Amount and/or the yield and the Interest Rate which shall continue to accrue on the Notes, which shall be a market rate. The Redemption Amount (including accrued interest, if applicable) shall be paid on the Redemption Date.
- (c) The Issuer shall be entitled to make any addition, adjustment or amendment to the Conditions as the Issuer deems necessary in connection with a Change in Law.

10. **Increased Costs of Hedging**

The following terms and conditions shall apply if "Increased Costs of Hedging" is stated to be applicable in the relevant Final Terms:

- (a) Where, in the Issuer's opinion, as a consequence of any change in any law, ordinance, regulation or equivalent or decision by a public authority or the application thereof, or any other event or circumstance not directly attributable to the Issuer's deteriorated credit rating which, in the opinion of the Issuer, would affect the Issuer's costs for holding, acquiring or divesting Reference Assets or entering into, maintaining or terminating derivative instruments relating to the Reference Asset for the purpose of managing the Issuer's exposure under the Notes, would increase in a manner which is not insignificant for the Issuer or if the Issuer's risk management costs, for a reason other than as listed above would, in the opinion of the Issuer, increase, or where, in the Issuer's opinion, the risk management costs significantly increase (each an "**Increased Cost**"), the Issuer may determine that the Affected Reference Asset shall be replaced by a Replacement Reference Asset or alternatively adjust the calculation of the Redemption Amount.
- (b) Where the Issuer believes that it would not provide a commercially reasonable result to replace the Affected Reference Asset or to adjust the applicable calculation, the Issuer may perform an early calculation of the Redemption Amount and/or the yield. Such early calculation shall be based on the most recently published value of the Reference Asset. When the Issuer has determined the Redemption Amount and/or the yield, the Issuer shall notify the Holders of the amount of the Redemption Amount and/or the yield and the Interest Rate which shall continue to accrue on the Notes, which shall be a market rate. The Redemption Amount (including accrued interest, if applicable) shall be paid on the Redemption Date.
- (c) The Issuer shall be entitled to make any addition, adjustment or amendment to the Conditions as the Issuer deems necessary in connection with Increased Costs.

## 11. **Hedging Disruption**

The following terms and conditions shall apply if "Hedging Disruption" is stated to be applicable in the relevant Final Terms:

- (a) Where, in the Issuer's opinion, after using commercially reasonable efforts, it would be substantially more difficult or impossible to hold, acquire, establish, re-establish, substitute, maintain, unwind or dispose of Reference Assets or enter into transactions or acquire financial instruments for the purpose of hedging/risk management with reference to Reference Assets which have been acquired to secure the Issuer's exposure/delivery obligation under the Notes), (each such event a "**Hedging Disruption**") the Issuer may determine that Affected Reference Asset shall be replaced by a Replacement Reference Asset or alternatively adjust the calculation of the Redemption Amount.
- (b) If the Issuer believes it would not provide a fair result to replace the Affected Reference Asset or to adjust the applicable calculation, the Issuer may perform an early calculation of the Redemption Amount and/or the yield. When the Issuer has determined the Redemption Amount and/or the yield, the Issuer shall notify the Holders of the Additional Amount and/or the amount of the yield and at which Interest Rate which shall continue to accrue on the Notes, which shall be a market rate. The Redemption Amount (including accrued interest, if applicable) shall be paid on the Redemption Date.

## 12. **Prescription**

- (a) Bearer Notes and the related Coupons will become void unless presented for payment within ten years (or, in the case of Coupons and save as provided in Condition 8(1)(e), five years) after the due date for payment.
- (b) Claims against the Issuer in respect of Registered Notes will be prescribed unless made within 10 years (or, in the case of claims in respect of interest, five years) after the due date for payment.
- (c) Claims in respect of Finnish Notes shall become statute barred three years after the relevant payment date (in the case of claims for both principal and interest).
- (d) Claims against the Issuer for the payment of a Redemption Amount in respect of Swedish Notes, or VPS Notes will be statute barred unless made within ten years after the relevant Redemption Date. Claims against the Issuer for the payment of interest or other yield in respect of Swedish Notes or VPS Notes shall be statute barred unless made within three years after the relevant Interest Payment Date.

If the limitation period in respect of Swedish Notes is interrupted a new limitation period of ten years will commence for claims in respect of Redemption Amounts and three years for claims in respect of interest amounts and other yield. Where the limitation period is interrupted through any acknowledgement, claim or reminder a new limitation period shall commence on the date of the interruption or, where the limitation period is interrupted through legal proceedings or the claims for payment is brought before in a court of law, enforcement authority or in arbitration proceedings, bankruptcy proceedings or proceedings for a judicial composition with creditors, a new limitation period shall commence on the date on which a judgment or final decision is rendered or the procedure is otherwise terminated.

## 13. **The Paying Agents and the Registrar**

The initial Paying Agents and Registrar and their respective initial specified offices are specified below. The Issuer reserves the right at any time to vary or terminate the appointment of any Paying Agent (including the Fiscal Agent) or the Registrar and to appoint additional or other Paying Agents or another Registrar **provided that** it will at all times maintain (i) a Fiscal Agent, (ii) a Registrar, (iii) a Paying Agent with a specified office in continental Europe but outside the Issuer's jurisdiction of incorporation, (iv) a Paying Agent in an European Union Member State that will not be obliged to withhold or deduct tax pursuant to the European Council Directive 2003/48/EC or any law implementing or complying with, or introduced to conform to, such Directive, (v) so long as any VPS Notes are cleared through VPS, a Paying Agent with a specified office in Norway, (vi) so long as any Swedish Notes are cleared through Euroclear Sweden, an Issuing Agent with a specified office in Sweden, and (vii) so long as any Finnish

Notes are cleared through Euroclear Finland, an Issuing Agent with a specified office in Finland. The Paying Agents and the Registrar reserve the right at any time to change their respective specified offices to some other specified office in the same city, and *provided further that* so long as any VP Notes are cleared through VP, the Issuer, the Fiscal Agent and the VP Issuing Agent shall have the respective rights and obligations arising under the Fiscal Agency Agreement and no other Paying Agent shall have any rights and obligations in relation thereto. Notice of all changes in the identities or specified offices of the Paying Agents or the Registrar will be notified promptly to the Holders.

In respect of Swiss Franc Notes, the Issuer will at all times maintain a paying agent having its specified office in Switzerland and at no time maintain a paying agent having its specified office outside of Switzerland.

14. **Replacement of Notes**

If any Note, Receipt or Coupon is lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Fiscal Agent (in the case of Bearer Notes and Coupons) or of the Registrar (in the case of Registered Notes), subject to all applicable laws and the requirements of any stock exchange and/or listing authority on which the relevant Notes are listed, upon payment by the claimant of all expenses incurred in such replacement and upon such terms as to evidence, security, indemnity and otherwise as the Issuer and the Fiscal Agent or, as the case may be, the Registrar may require. Mutilated or defaced Notes, Receipts and Coupons must be surrendered before replacements will be delivered.

15. **Meetings of Holders; Modifications**

The Fiscal Agency Agreement contains provisions, which are binding on the Issuer and the Holders of Notes or Coupons, for convening meetings of the Holders of Notes of any Series to consider matters affecting their interests, including the modification or waiver of the Conditions applicable to any Series of Notes.

In relation to VPS Notes only, meetings of Holders shall be held in accordance with the Fiscal Agency Agreement and in compliance with the relevant regulations of the VPS. For the purposes of a meeting of Holders, the person named in the certificate from the VPS shall be treated as the Holder specified in such certificate **provided that** he has given an undertaking not to transfer the VPS Notes so specified (prior to the close of the meeting).

In relation to Swedish Notes and Finnish Notes, meetings of Holders shall be held in accordance with the Fiscal Agency Agreement.

The Issuer is entitled to make any amendment to these Conditions that is approved at a meeting of Holders or is approved by all Holders of the relevant Notes. The Issuer shall promptly notify the Holders of any amendment to the Terms and Conditions in accordance with Condition 16 (*Notices*).

In addition to the foregoing the Issuer is entitled, without the consent of Holders, to amend these Conditions: (i) in order to correct any manifest error or (ii) to the extent appropriate upon a change in applicable mandatory law, or (iii) to the extent that any such amendment would not, in the opinion of the Issuer, be materially prejudicial to the Holders of the Notes.

16. **Notices**

(a) **To Holders of Bearer Notes**

Notices to Holders of Bearer Notes will, save where another means of effective communication has been specified in the relevant Final Terms, be deemed to be validly given if published in a leading daily newspaper having general circulation in the United Kingdom (which is expected to be the *Financial Times*) or, in the case of a Temporary Global Note or Permanent Global Note if delivered to Euroclear and Clearstream, Luxembourg for communication by them to the persons shown in their respective records as having interests therein **provided that**, in the case of Notes admitted to listing and/or trading on any stock exchange, the requirements of such stock exchange or listing authority have been complied with. Any notice so given will be deemed to

have been validly given on the date of such publication (or, if published more than once, on the date of first such publication) or, as the case may be the date of such delivery.

(b) ***To Holders of Registered Notes***

Notices to Holders of Registered Notes will be deemed to be validly given if sent by first class mail to them (or, in the case of joint Holders, to the first-named in the register kept by the Registrar) at their respective addresses as recorded in the Register kept by the Registrar, and will be deemed to have been validly given on the fourth Business Day after the date of such mailing.

(c) ***To the Issuer***

Notices to NBAB will be deemed to be validly given if delivered to Smålandsgatan 17, SE-105 71, Stockholm and clearly marked on their exterior "Urgent — Attention: Group Treasury" and to NBF if delivered to Aleksanterinkatu 36 B FIN-00020 Nordea (Helsinki and clearly marked on their interior "Urgent – Attention: Group Treasury (or at such other address and for such other attention as may have been notified to the Holders of the Notes in accordance with this Condition 16) and will be deemed to have been validly given at the opening of business on the next day on which the Issuer's principal office is open for business.

(d) ***Notices in respect of Swiss Franc Notes***

Notices in respect of Swiss Franc Notes will, so long as the Notes are listed on the SIX Swiss Exchange and the rules of the SIX Swiss Exchange so require, be deemed to have been given if published by the Swiss Paying Agent at the expense of the Issuer, (i) by means of electronic publication on the internet website of the SIX Swiss Exchange under the section headed "Official Notices" (where notices are currently published under the address: [http://www.six-exchange-regulation.com/publications/published\\_notifications/official\\_notices\\_en.html](http://www.six-exchange-regulation.com/publications/published_notifications/official_notices_en.html)) or (ii) otherwise in accordance with the regulations of the SIX Swiss Exchange. Notices shall be deemed to be validly given on the date of such publication or, if published more than once, on the date of the first such publication.

For Swiss Franc Notes that are not listed on the SIX Swiss Exchange, notices to Noteholders shall be given by communication through the Swiss Paying Agent to SIS (or such other intermediary) for forwarding to the holders of the Notes. Any notice so given shall be deemed to be validly given with the communication to SIS (or such other intermediary).

(e) ***Notices in respect of VP Notes***

Notices in respect of VP Notes will be in writing and shall be addressed to such Holders of the VP Notes at the address appearing in the Danish Note Register maintained by the VP Issuing Agent in accordance with the VP Rules.

(f) ***Notices in respect of VPS Notes***

Notices in respect of VPS Notes will be in writing, sent by first class mail or electronic mail, addressed to such Holders at the address appearing in the VPS Register in accordance with the VPS Rules, and will be deemed to have been validly given on the fourth Business Day after the date of such mailing.

(g) ***Notices in respect of Swedish Notes***

Notices in respect of Swedish Notes will be in writing, addressed to such Holders at the address appearing in Euroclear Sweden Register and will be deemed to have been validly given on the fourth Business Day after the date of such mailing.

(h) ***Notices in respect of Finnish Notes***

Notices regarding Finnish Notes shall be published by the Issuer in a national daily newspaper in the jurisdictions in which Notes have been offered to the public or on the Issuer website [www.nordea.fi/joukkolainat](http://www.nordea.fi/joukkolainat) or on any other website as specified in the Final Terms for the respective Notes. Written notice may also be sent to Holders at the address recorded in the Issuer's register. Where Notes have been issued as dematerialised securities, notice to Holders

may be sent via Euroclear Finland and Account Operators. Notices shall be deemed received by Holders on the day on which they are published in a national daily newspaper, on a relevant website or in Euroclear Finland or, where the notice has been sent by letter, on the seventh day after despatch of the letter.

17. **Provision of Information**

In relation to VP Notes, each Holder agrees and gives consent to the VP to provide to the VP Issuing Agent, upon request, information registered with the VP relating to the VP Notes and the Holders of the VP Notes in order that the VP Issuing Agent may provide any relevant Danish authorities, including the Financial Supervisory Authority of Denmark (*Finanstilsynet*) and the Danish tax authorities with any information required under applicable Danish laws. Such information shall include, but not be limited to, the identity of the holder of the VP Notes, the residency of the holder of the VP Notes, the number of VP Notes of the relevant holder and the address of the relevant holder.

The VPS Paying Agent is obligated, upon request, to provide any relevant Norwegian authorities, including the Financial Supervisory Authority of Norway and the Norwegian tax authorities, with any information registered on the relevant VPS account(s). Such information may include the identity of the registered Holder of the Notes, the residency of the registered Holder of the Notes, the number of Notes registered with the relevant Holder, the address of the relevant Holder, the account operator in respect of the relevant VPS account and whether or not the Notes are registered in the name of a nominee and the identity of any such nominee

In relation to Finnish Notes, each Holder agrees and gives consent to Euroclear Finland to provide to the Finnish Issuing Agent, upon request, information registered with Euroclear Finland relating to the Finnish Notes and the Holders of the Finnish Notes in order that the Finnish Issuing Agent may provide any relevant Finnish authorities, including the Finnish Financial Supervisory Authority (in Finnish: *Finanssivalvonta*) and the Finnish tax authorities, with any information required under applicable Finnish laws. Such information shall include, but not be limited to, the identity of the registered holder of the Finnish Notes, the residency of the registered holder of the Finnish Notes, the number of Finnish Notes registered with the relevant holder, the address of the relevant holder, the account operator in respect of the relevant Euroclear Finland account (in Finnish: *Tilinhoitaja*) and whether or not the Finnish Notes are registered in the name of a nominee and the identity of any such nominee.

18. **Further Issues**

The Issuer may from time to time without the consent of the Holders of any Notes of any Series create and issue further notes and other debt securities having terms and conditions the same as those of the Notes of such Series or the same except for the amount of the first payment of interest (if any), which may be consolidated and form a single Series with the outstanding Notes of such Series.

19. **Obtaining Information**

The Issuer shall be entitled to obtain information from the Euroclear Sweden Register in respect of the Swedish Notes and Holders thereof.

The Issuer has the right, with respect to Notes other than Swedish notes, to request and obtain from the relevant Clearing System certain information relating to an account in the relevant Clearing System's noteholders register, including but not limited to: (i) the Holder's name, personal identification number or other identification number as well as postal address, (ii) Notes held and the terms and conditions of such Notes and (iii) where applicable, the number of Notes and their nominal amount.

20. **Law and Jurisdiction**

- (a) The Notes and all non-contractual obligations arising out of or in connection with them may be governed by English law, Swedish law, Finnish law, Danish law or Norwegian law, as specified in the Final Terms. In relation to VP Notes, Danish law and jurisdiction will be applicable with regard to the registration of such Notes in the VP and VP Notes must comply with the Danish Securities Trading etc. Act (*Lov om værdipapirhandel m.v.*), as amended from time to time, and

the Danish Executive Order on Book Entry, etc. of dematerialised Securities in a Central Securities Depository (*Bekendtgørelse om registrering m.v. af fondsaktiver i en værdipapircentral*), as amended from time to time. Norwegian law and jurisdiction will be applicable with regard to the registration of such VPS Notes in the VPS. Swedish law and jurisdiction will be applicable with regard to the registration of such Swedish Notes in Euroclear Sweden and the Swedish Notes must comply with the SFIA Act. Finnish law and jurisdiction will be applicable with regard to the registration of such Finnish Notes in Euroclear Finland and the Finnish Notes must comply with the Finnish Act on the Book-Entry Securities System and Clearing Activity (*laki arvo-osuusjärjestelmästä ja selvitystoiminnasta (749/2012)*), as amended, and the Finnish Act on Book-Entry Accounts (*laki arvo-osuustileistä*), as amended, as well as the rules and regulations of Euroclear Finland.

- (b) Subject to the provisions of Condition 20(a), the Issuer irrevocably agrees for the benefit of the Holders of the Notes that the Courts of England shall have jurisdiction to hear and determine any suit, action or proceedings, and to settle any disputes, which may arise out of or in connection with Notes governed by English law (including a dispute relating to any non-contractual obligation arising out of or in connection with the Notes) (respectively, "**Proceedings**" and "**Disputes**") and, for such purposes, irrevocably submit to the jurisdiction of such courts. The Issuer irrevocably waives any objection which it might now or hereafter have to the courts of England being nominated as the forum to hear and determine any Proceedings and to settle any Disputes and agrees not to claim that any such court is not a convenient or appropriate forum. The Issuer agrees that the process by which any Proceedings in England are begun may be served on it by being delivered to Nordea Bank Finland Plc, London Branch at its registered address in London from time to time, being presently at 8th Floor, City Place House, 55 Basinghall Street, London EC2V 5NB or, if different, its registered office for the time being or at any address of the Issuer in Great Britain at which process may be served on it in accordance with the Companies Act 2006. If such person is not or ceases to be effectively appointed to accept service of process on behalf of the Issuer, the Issuer shall forthwith appoint a further person in England to accept service of process on its behalf and, failing such appointment within 15 days, any Noteholder shall be entitled to appoint such a person by written notice addressed to the Issuer and delivered to the Issuer or to the Fiscal Agent. Nothing contained herein shall affect the right to serve process in any other manner permitted by law. The submission to the jurisdiction of the Courts of England shall not (and shall not be construed so as to) limit the right of the Holders of the Notes or of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in any one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not) if and to the extent permitted by applicable law.
- (c) If Swedish law is specified in the Final Terms as the governing law, then disputes concerning the interpretation or application of these terms and conditions shall be settled in Swedish courts. The Stockholm District Court shall be court of first instance.
- (d) If Finnish law is specified in the Final Terms as the governing law, then disputes concerning the interpretation or application of these terms and conditions shall be settled in Finnish courts. The court of first instance shall be *Helsingin käräjäoikeus*.
- (e) If Danish law is specified in the Final Terms as the governing law, then disputes concerning the interpretation or application of these terms and conditions shall be settled by Danish courts. The court of first instance shall be *Københavns Byret*.
- (f) If Norwegian law is specified in the Final Terms as the governing law, then disputes concerning the interpretation or application of these terms and conditions shall be settled by Norwegian courts. The court of first instance shall be *Oslo Tingrett*.
- (g) Notwithstanding that, under the SFIA Act or the operating procedures, rules and regulations of Euroclear Sweden (together, the "**Swedish Remedies**"), Holders of Swedish Notes may have remedies against the Issuer for non-payment or non-performance under the Conditions applicable to such Swedish Notes, a Swedish Note Holder must first exhaust all available remedies under the applicable governing law for non-payment or non-performance before any Proceedings may be brought against the Issuer in Sweden in respect of the Swedish Remedies. Notwithstanding Condition 20(b), and in this limited respect only, a Holder of Swedish Notes may therefore not take concurrent Proceedings in Sweden.

21. **Third Parties Rights**

No person shall have any right to enforce any term or condition of any Notes under the Contracts (Rights of Third Parties) Act 1999.

22. **Limitation of liability etc.**

The Issuer and the relevant Clearing System shall not, in connection with the discharge or purported discharge of any of their respective obligations in respect of the Notes, be held liable for any damage arising out of any legal enactment, or any measure undertaken by a public authority, or war, strike, lockout, boycott, blockade or any other similar circumstance. The reservation in respect of strikes, lockouts, boycotts and blockades applies even if an aforementioned entity takes such measures, or is subject to such measures.

The Issuer or the relevant Clearing System shall not be held liable for any other damage or loss incurred if such entity has exercised due care. The aforementioned entities shall not in any case be held responsible for any indirect damage, consequential damage and/or loss of profit, otherwise than as a result of or in relation to the gross negligence of the Issuer or the relevant Clearing System.

Should there be an impediment to the Issuer or the relevant Clearing System taking any action pursuant to these terms and conditions due to any circumstance set out in the first paragraph of this Condition 22 (*Limitation of liability etc.*), such action may be postponed until the impediment has ceased.

The provisions of this Condition 22 (*Limitation of liability etc.*) shall apply unless otherwise provided by applicable law.

## **PART 2: ADDITIONAL CONDITIONS FOR CERTAIN STRUCTURED NOTES**

### **1. Market Disruption**

The following provisions will apply if "Market Disruption" is specified as being applicable in the Final Terms.

- (a) Market Disruption with respect to a Reference Asset exists where, in the Issuer's opinion, any of the following events occurs:
  - (i) the quotation of an official final price for a Reference Asset or significant portion of the Reference Assets included in the Reference Asset does not exist, is unavailable or ceases;
  - (ii) where applicable, if a compilation and/or publication of the value of the Reference Asset's value ceases;
  - (iii) the Relevant Exchange and/or Options or Futures Exchange does not open for trading during its normal trading hours or closes for trading earlier than its normal closing time;
  - (iv) trading in a Reference Asset or a significant portion of the underlying assets included in a Reference Asset or options or futures contracts related to a Reference Asset, which is/are traded on the Relevant Exchange or Options or Futures Exchange ceases, is suspended or is significantly restricted;
  - (v) the ability of market participants to carry out trades in, or obtain the market value for, a Reference Asset or a significant portion of the underlying assets included in a Reference Asset or options or futures contracts related to a Reference Asset, which is/are traded on the Relevant Exchange or Options or Futures Exchange ceases, is discontinued or significantly deteriorates due to any other event; or
  - (vi) in respect of Fund-linked Notes only, the valuation of a Reference Asset, which comprises funds or fund units, on a Valuation Date for the Reference Asset does not take place or full payment of the redemption amount with respect to such Reference Asset does not take place on a redemption day for the Fund.
- (b) A limitation on the number of hours or days when trading occurs shall not be deemed to constitute a Market Disruption where the restriction is due to a published change in the normal trading hours for the Relevant Exchange and/or Options or Futures Exchange.
- (c) A restriction in trading which is introduced during the course of a day due to changes in prices which exceeds permitted levels pursuant to the Relevant Exchange and/or Options or Futures Exchange shall be deemed to constitute a Market Disruption.
- (d) Where, in the Issuer's opinion, a Market Disruption has occurred on an Observation Date, Rebalancing Date, Initial Valuation Date or Valuation Date, the Observation Date, Rebalancing Date, Initial Valuation Date or Valuation Date shall, with respect to determination of the Closing Price, Initial Price and/or Final Price be the Following Exchange Business Day (for each Affected Reference Asset, respectively) on which Market Disruption does not exist; however, where Market Disruption exists on the eight Exchange Business Days (for each Affected Reference Asset, respectively) that follows immediately after the original Start Date, Rebalancing Date, Initial Valuation Date or Valuation Date or another relevant day as stated in the Final Terms, such eighth Exchange Business Day (for each Affected Reference Asset, respectively) shall be deemed the Observation Date, Rebalancing Date, Initial Valuation Date or Valuation Date (or such other relevant day is stated in the Final Terms) irrespective of the existence of Market Disruption, and the Issuer shall thereupon determine the value of the Closing Price, Initial Price and/or Final Price to be applied upon calculation of the Redemption Amount, Interest Amount or in conjunction with another calculation in accordance with the Conditions.

The Issuer shall be entitled to make any addition, adjustment, or amendment to the Conditions as the Issuer deems necessary in connection with Market Disruption or Disruption.

2. **Market Disruption Commodity**

The following provisions will apply if "Market Disruption Commodity" is specified as being applicable in the Final Terms:

- (a) Market Disruption with respect to a Reference Asset exists where, in the Issuer's opinion, any of the following events occurs:
- (i) the quotation, compilation, calculation or publication of official final prices for a Reference Asset or the underlying assets included in the Reference Asset does not exist, unavailable or ceases;
  - (ii) the quotation, compilation, calculation or publication of the value of a Reference Asset or the value of the underlying assets included in the Reference Asset does not exist, is unavailable or ceases;
  - (iii) the Relevant Exchange is not open for trading during its normal trading hours;
  - (iv) trading in a Reference Asset or the underlying assets included in a Reference Asset or options or futures contracts related to a Reference Asset, which is/are traded on the Stock Exchange ceases, is suspended or significantly restricted;
  - (v) the possibilities for parties on the market to carry out trades in or obtain the market value for a Reference Asset or a significant portion of the underlying assets included in a Reference Asset or options or futures contracts related to a Reference Asset, which is/are traded on the Relevant Exchange ceases, is discontinued or significantly deteriorates due to any other event;
  - (vi) the manner of calculating a Reference Asset or the underlying assets included in the Reference Asset or the value thereof changes significantly;
  - (vii) the content, compilation or structure of a Reference Asset or the underlying assets included in a Reference Asset or relevant options or futures contract changes significantly; or
  - (viii) the introduction, change or repeal of tax provisions with respect to a Reference Asset or tax provisions regarding tax calculated by way of reference to the underlying assets included in a Reference Asset (however, not tax on, or which is calculated by reference to, gross or net income) after the Initial Observation Date or Initial Valuation Date, Start Date, as a consequence of which the final price on the relevant Initial Observation Date or Initial Valuation Date changes as compared to what it would have been had the tax provisions not been introduced, changed or repealed.
- (b) Where, in the opinion of the Issuer, a Market Disruption has occurred on an Observation Date, Rebalancing Date, Initial Valuation Date or Valuation Date such Observation Date, Rebalancing Date, Initial Valuation Date or Valuation Date for determination of the Closing Price, Initial Price and/or Final Price shall be the immediately following Exchange Business Day (for each Affected Reference Asset) where Market Disruption does not exist (for each Affected Reference Asset) or the Initial Price, Final Price or Closing Price may be determined or replaced by the Issuer in another appropriate manner; however, where Market Disruption occurs during the five Exchange Business Days (for each Affected Reference Asset) immediately following the Observation Date, Rebalancing Date, Initial Valuation Date or Valuation Date (or another relevant day as stated in the Final Terms) and the Initial Price, Final Price or Closing Price may be determined or replaced by the Issuer in another appropriate manner, such fifth Exchange Business Day (for each Affected Reference Asset) shall be deemed to be the Observation Date, Rebalancing Date, Initial Valuation Date or Valuation Date (or another relevant day as stated in the Final Terms) irrespective of whether Market Disruption exists, and the Issuer shall thereupon determine or replace the prevailing value of the Initial Price, Final Price or Closing Price upon calculation of the Reference Asset Return or another relevant value.
- (c) Where the Issuer believes that it is not possible or would not provide a fair result to determine or replace the value of the Affected Reference Asset at the time of such Market Disruption, the Issuer may perform an early calculation of the Redemption Amount and/or the yield or Interest

Amount and determine the Redemption Amount and/or the yield or Interest Amount. Where the Issuer has determined the Redemption Amount and/or the yield or Interest Amount the Issuer shall notify the Holders of the amount of the Redemption Amount and the yield and the interest rate which will continue to accrue on the Notes. The Issuer shall pay market interest on the Principal Amount. The Redemption Amount (including accrued interest, if any) shall be paid on the Redemption Date.

- (d) The Issuer shall be entitled to make any addition, adjustment, or amendment to the Terms and Conditions and to the Final Terms as the Issuer deems necessary in connection with Market Disruption.

### 3. **Disruption Currency**

The following provisions will apply if "Disruption Currency" is specified as applicable in the Final Terms:

- (a) **"Disruption"** with respect to an FX Rate (including an FX Rate which is a Reference Asset) exists where, in the Issuer's opinion, any of the following events occurs:
  - (i) spot or futures prices are not available for the FX Rate or the underlying assets included in the FX Rate;
  - (ii) calculation or publication of any final price/exchange rate/currency price on a specified reference source for an FX Rate or the underlying assets included in the FX Rate does not exist, is unavailable or ceases to be published on the specified reference source;
  - (iii) a material price deviation occurs between the price of various currencies, exchange rates and/or currency prices;
  - (iv) a quotation of spot and/or futures prices cannot be obtained on a stated minimum amount in one or a reasonable number of currency transactions which together amount to a predetermined minimum sum; or
  - (v) the introduction of any currency exchange regulations or currency exchange restrictions which affect the ability to exchange a currency which constitutes an FX Rate into another currency and/or to transfer the relevant currency from the relevant jurisdiction.
- (b) Where, in the opinion of the Issuer, Disruption has occurred on an Observation Date, Observation Date, Rebalancing Date, Initial Valuation Date, Valuation Date, Initial FX Valuation Date or FX Valuation Date, the Issuer shall determine the value of the FX Rate, FX Factor, Closing Price, Initial Price, Final Price or Closing Price based on all available information which the Issuer believes to be relevant in conjunction with calculation of the Redemption Amount, Interest Amount or any other relevant value.
- (c) The Issuer shall be entitled to make any addition, adjustment, or amendment to the Conditions as the Issuer deems necessary in connection with Disruption.

### 4. **Calculation Adjustment**

The following provisions will apply if "Calculation Adjustment" is specified as applicable in the Final Terms.

- (a) Where, in the opinion of the Issuer, the compilation, calculation or publication of any Reference Asset ceases in whole or in part, or the characteristics of the Reference Assets are changed significantly, the Issuer shall be entitled, upon calculation of the Redemption Amount, to replace such Affected Reference Asset with a comparable alternative. Where, in the Issuer's opinion, a comparable alternative to such Affected Reference Asset is not compiled, calculated and published or where, in the opinion of the Issuer, the method of calculating any Affected Reference Asset or the value thereof is changed significantly, the Issuer shall be entitled to make such adjustments in the calculation as the Issuer, based reasonable grounds deems necessary, in order for the calculation of the value of the Affected Reference Asset to reflect and be based on the manner in which such was previously compiled, calculated and published. The value thereby

calculated shall replace the value of the Affected Reference Asset in calculations of the relevant Redemption Amount or Interest Amount.

- (b) Where the Issuer believes that it would not provide a fair result to replace the Affected Reference Asset or adjust the applicable calculation, the Issuer may perform an early calculation of the Redemption Amount and/or the yield or Interest Amount and determine the Redemption Amount and/or the yield or Interest Amount. Such calculation shall be based on the most recently published value of the Reference Asset. When the Issuer has determined the Redemption Amount and/or the yield, the Issuer shall notify the Holders of the amount of the Redemption Amount and/or the yield and the Interest Rate which will continue to accrue on the Notes. The Issuer shall pay market interest on the Principal Amount. The Redemption Amount (including accrued interest, if any) shall be paid on the Redemption Date.
- (c) The Issuer is entitled to make any addition, adjustment or amendment to the Conditions as the Issuer deems necessary in connection with Calculation Adjustment.

5. **Corrections**

The following provisions will apply if "Corrections" is specified as applicable in the Final Terms:

Where the official closing price for a Reference Asset is corrected within the number of days from the original publication as normally elapse between a trade and settlement day in conjunction with spot trading in the Reference Asset or in the underlying assets included in the Reference Asset, however not later than three Exchange Business Days after the Valuation Date, or Observation Date and such price is used to determine a Closing Price and/or Initial Price and/or Final Price, the Issuer shall be entitled to make a corresponding correction.

6. **Correction Commodity**

The following provisions will apply if "Correction Commodity" is stated as applicable in the Final Terms:

Where the official closing price for a Reference Asset is corrected within 30 days of the original publication and such a price is used to determine a Closing Price and/or Initial Price and/or Final Price, the Issuer shall be entitled to make a corresponding correction to the Closing Price and/or Initial Price and/or Final Price.

7. **Correction Currency**

The following provisions will apply if "Correction Currency" is specified as applicable in the Final Terms:

Where the official closing price for a Reference Asset is corrected and such price is used to determine a Closing Price and/or Initial Price and/or Final Price, the Issuer shall be entitled to make a corresponding correction not later than six Currency Business Days after the official closing price for the Reference Asset was published.

8. **Extraordinary Events**

The following provisions will apply if "Extraordinary Events" is specified as applicable in the relevant Final Terms:

- (a) Where, in the Issuer's opinion, delisting, nationalisation, bankruptcy proceedings, liquidation, company reorganisation, compulsory redemption, merger, demerger, asset transfer, share swap, swap offer, public tender offer or other similar event occurs with respect to equities which constitute a Reference Asset or a company whose shares are included in an equities basket which constitutes a Reference Asset; or where, in the Issuer's opinion, a subdivision, new issue, bonus issue, issuance of warrants or convertible debentures, reverse split, or buy-back occurs with respect to such an equity or basket of equities as constitute a Reference Asset, or any other event occurs as specified in the Final Terms or which, in accordance with practice on the market for equity-related derivative products, may lead to an adjustment in the calculation during outstanding transactions (each an "**Extraordinary Event**"), the Issuer shall be entitled to make such adjustments in the calculation of the Redemption Amount, Interest Amount and/or

compilation of Reference Assets, or to replace the Affected Reference Asset with a Replacement Reference Asset which the Issuer thereby deems necessary in order to achieve a calculation of the Redemption Amount which reflects, and is based on, the manner in which such was previously calculated.

- (b) Where the Issuer believes that it would not provide a fair result to replace the Affected Reference Asset or adjust the applicable calculation or the structure of the Reference Asset, the Issuer may perform an early calculation of the Redemption Amount and/or the yield or Interest Amount and determine the Redemption Amount and/or the yield or Interest Amount. Such early calculation shall be based on the most recently published value for the Reference Asset. When the Issuer has determined the Redemption Amount and/or the yield or Interest Amount, the Issuer shall notify the Holders of the amount of the Redemption Amount and the yield or Interest Amount and the rate at which interest will continue to accrue on the Notes. The Issuer shall pay market interest on the Principal Amount. The Redemption Amount (including accrued interest, if applicable) shall be paid on the Redemption Date.
- (c) The Issuer shall be entitled to make any addition, adjustment or amendment to the Conditions as the Issuer deems necessary in connection with Extraordinary Events.

### PART 3: ADDITIONAL CONDITIONS FOR CREDIT-LINKED NOTES

The provisions below shall apply when specified in the Final Terms.

Credit Event: The occurrence of one or more of the following events (as specified in the Final Terms), as determined by the Issuer in its sole discretion:

- (a) in relation to a Reference Entity which is not a Sovereign: (i) Failure to Pay, (ii) Restructuring or (iii) Bankruptcy;
- (b) in relation to a Reference Entity which is a Sovereign: (i) Failure to Pay, (ii) Repudiation/moratorium or (iii) Restructuring and, in relation to east European and central Asian Sovereigns, also (iv) Obligation Acceleration;

whereupon a Credit Event shall be deemed to exist notwithstanding that the event is directly or indirectly caused by, or an obligation is contested by reference to, any of the following: (i) lack of authority, lack of legal capacity, lack of capacity to enter into legal relations or similar in respect of a Reference Entity; (ii) actual or alleged invalidity, illegality or unenforceability of Debt Obligations; (iii) applicable law, regulations, public authority decisions, judgments, court decisions, decisions of arbitrators or similar procedures or the implementation of, or amendment to, or interpretation of applicable law or regulations on order of any court of arbitration or public authority; or (iv) the introduction of, or changes to, currency regulations, monetary restrictions or similar provisions by any monetary or other authority (including central banks).

Repudiation/Moratorium: Means the occurrence of both of the following events: (i) an authorised officer of a Reference Entity or a Governmental Authority (x) disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, one or more Debt Obligations in an aggregate amount of not less than the Failure to Pay Amount or (y) declares or imposes a moratorium, standstill, roll-over or deferral, whether de facto or de jure, with respect to one or more Debt Obligations in an aggregate amount of not less than the Failure to Pay Amount and (ii) a Failure to Pay or a Restructuring, determined without regard to the Failure to Pay Amount, with respect to any such Debt Obligation occurs on or prior to the Repudiation/Moratorium Evaluation Date.

Governmental Authority: Means any de facto or de jure government (or any agency, instrumentality, ministry or other department therefore), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of a Reference Entity or of the jurisdiction of organisation of a Reference Entity.

Repudiation/Moratorium Evaluation Date: If a Potential Repudiation/Moratorium occurs on or prior to the scheduled Redemption Date (determined by reference to Greenwich Mean Time), (i) if the Debt Obligations to which such Potential Repudiation/Moratorium relates include Bonds, the date that is the later of (A) the date that is 60 days after the date of such Potential Repudiation/Moratorium and (B) the first payment date under any such Bond after the date of such Potential Repudiation/Moratorium (or, if later, the expiration date of any applicable Grace Period in respect of such payment date) and (ii) if the Obligations to which such Potential Repudiation/Moratorium relates do not include Bonds, the date that is 60 days after the date of such Potential Repudiation/Moratorium; **provided that**, in either case, the Repudiation/ Moratorium Evaluation Date shall occur no later than the scheduled Redemption Date.

Bond: Any Debt Obligation which is in the form of, or represented by, a bond, note, certificated debt security or other debt security.

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Grace Period:                     | Means (i) the applicable grace period with respect to payments under the relevant Debt Obligation pursuant to the terms of the Debt Obligation in effect as at the later of the relevant Issue Date for the Notes or the date on which such Debt Obligation is issued or incurred <b>provided that</b> (ii) if the terms of the Debt Obligation do not contain a grace period or if such grace period is less than 3 Business Days the Grace Period shall be deemed to be 3 Business Days but in no circumstances shall the Grace Period end later than the Redemption Date.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Publicly Available Information:   | Means information confirming that a Credit Event has occurred and: <ul style="list-style-type: none"> <li>(i) That have been published in at least one Public Source;</li> <li>(ii) Which is information that has been published by the relevant Reference Entity or an agent, trustee or similar in respect of the relevant Debt Obligation; or</li> <li>(iii) Which is information based on the content of a bankruptcy filing, bankruptcy resolution, correspondence with authorities, courts or similar, or other similar information.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Potential Repudiation/Moratorium: | Means the occurrence of an event described in clause (i) of the definition of Repudiation/Moratorium.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Replacement Reference Entity:     | Such Reference Entity as may be determined by the Issuer.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Bankruptcy:                       | means that a Reference Entity: <ul style="list-style-type: none"> <li>(a) is dissolved (other than through a consolidation, amalgamation or merger);</li> <li>(b) becomes insolvent, is unable to pay its debts as they fall due, suspends payments or admits or declares in writing in judicial proceedings, administrative proceedings, regulatory proceedings or otherwise admits or declares a general inability to pay its debts as they fall due;</li> <li>(c) generally assigns, settles, reconstruct or take similar measures with respect to assets or liabilities to the benefit of its creditors;</li> <li>(d) institutes or has instituted against it a proceeding seeking a judgment or decision regarding insolvency, inability to pay or bankruptcy, or any other decision pursuant to bankruptcy-, insolvency- or similar statutes or regulations which affect creditors' rights, or a petition to dissolve or place the Reference Entity into liquidation has been filed and such proceedings or such a petition <ul style="list-style-type: none"> <li>(i) result in a judgment or a decision of insolvency, inability to make payment or bankruptcy, a judgment or a decision which generally affects creditors' rights, or a decision to place the Reference Entity into liquidation; or</li> <li>(ii) is not withdrawn, dismissed, discharged, stayed or restrained or generally restricted within thirty days after the proceedings have been commenced or the petition filed;</li> </ul> </li> <li>(e) has a resolution passed for its winding-up, official management or liquidation (other than pursuant to consolidation, amalgamation or merger);</li> </ul> |

- (f) seeks or becomes subject to the appointment of a trustee (including every form of bankruptcy or insolvency administration), receiver, investigator, administrator or other similar office with respect to the Reference Entity and all or a significant part of the Reference Entity's assets;
- (g) has a secured party take possession of all or substantially all of the Reference Entity's assets, or the Reference Entity becomes the subject of execution, attachment or other similar measure or procedure with respect to all or a significant part of its assets, and such creditor retains possession or such procedure is not, dismissed, discharged or stayed within thirty days; or
- (h) causes or is subject to an event or circumstance which, according to law applicable to the Reference Entity, has an analogous effect to any of the events specified in clauses (a) – (g).

**Basket:** the group of Reference Entities set forth in the Final Terms.

**Public Source:** a public source such as Bloomberg Service, Dow Jones Telerate Service, Reuter Monitor Money Rates Services, Dow Jones News Wire, Wall Street Journal, New York Times, NihonKezain Shinbun, Asahi Shinbun, Yomiuri Shinbun, Financial Times, La Tribune, Les Echos, The Australian Financial Review (or a replacement publication or electronic public source), the main source of business news in the relevant Reference Entity's jurisdiction and every other internationally recognised or electronically displayed public source.

**Sovereign:** means a state or its administrative organs or political subdivisions (such as the government, ministries, civil service and suchlike), agencies conducting business operations, authorities, central bank, municipalities, cities, or other units which may enjoy legal immunity.

**Restructuring:**

- (a) Restructuring means, with respect to one or more Debt Obligations, that (A) either voluntarily by the Reference Entity or a court of law, arbitral board, central bank, authority or other body with regulatory power, an agreement is reached with the holder(s) of Debt Obligations with binding effect on all holders of Debt Obligations with the purpose set forth in any of items (i) – (v) below; or (B) that the Reference Company or a court of law, arbitral board, central bank, authority or other body with regulatory power publishes or orders one or more of the measures mentioned in points (i) – (v) below with binding effect on all holders of Debt Obligations. In addition, it is assumed that the Debt Obligation(s) that are subject to the measure(s) in points (i) – (v) below equals or exceeds, in total, the amount specified in the Final Terms at the time the Credit Event occurs (the "**Restructuring Amount**").
  - (i) a reduction in the rate or amount of interest or the amount of scheduled interest accruals;
  - (ii) a reduction in any amount of principal, charges or similar amounts which fall due for payment at maturity or another scheduled payment date;
  - (iii) a postponement or other deferral of (A) the due date for payment of interest or date for interest calculation or (B) the due date for payment of principal, charges or similar amounts;

- (iv) a change in the ranking in priority of payment of any Debt Obligation causing the subordination of such Debt Obligation to any other Debt Obligation; or
- (v) a change in the currency (or composition of currencies) in which payment of interest, principal or charges under the Debt Obligation shall be made, provided the change is made to any currency other than a currency which is:
  - (A) legal tender in any of the G7 countries (including additional G7 countries, where new members are admitted to the G7 group); or
  - (B) legal tender in any country which, at the time of the change in question, is an OECD member and the domestic currency of which has a long-term rating of at least AAA by Standard & Poor's, a division of The MacGraw-Hill Companies, Inc (or any successor to their rating operations), at least Aaa by Moody's Investor Service, Inc (or any successor to their rating operations) or at least AAA by Fitch Ratings (or any successor to their rating operations).
- (b) None of the following shall constitute a Restructuring:
  - (i) payment in euros of interest or principal in relation to a Debt Obligation determined in a currency of a Member State of the European Union that adopts or has adopted the single currency in accordance with the Treaty establishing the European Community;
  - (ii) in the event any of the measures referred to in points (a) (i)-(v) above occurs, is agreed upon or is announced as a consequence of an administrative, accounting, or tax adjustment or other technical adjustment occurring in the ordinary course of business;
  - (iii) where any of the events mentioned in points (a) (i)-(v) above occurs, is agreed upon or is announced in circumstances where such event is not a direct or indirect consequence of a deterioration in the credit rating or financial condition of the Reference Company.
- (c) In paragraphs (a) and (b) above, "Debt Obligation" also includes the Reference Company acting as provider of a guarantee undertaking or surety, whereupon "Reference Company" in paragraph (a) shall mean the debtor under the obligation for which the guarantee or surety is issued and in paragraph (b) shall mean the Reference Company.

Reference Company: each entity (including Replacement Reference Entity) which from time to time constitutes a Reference Entity.

Reference Entity: each Reference Company and Sovereign which from time to time is included in a Basket.

Debt Obligation: means each Reference Entity's current, future, conditional or other payment obligations under (a) agreements having the commercial effect of borrowings, e.g. loan agreements, notes or commercial paper (irrespective of term to maturity) or financing limits, payment obligations regarding deposits or letters of credit and (b) guarantees or other sureties or commitments which the Reference Entity has provided or provides with

respect to the payment obligations of a third party.

|                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Obligation Acceleration:    | one or more Debt Obligations in an aggregate amount of at least the amount specified in the Final Terms (the " <b>Obligation Acceleration Amount</b> ") have become due and payable before they would otherwise become due and payable (through acceleration or any other reason) as a result of, or on the basis of the occurrence of a default or other similar condition or event relating to the Reference Entity (and such breach of contract does not relate to Failure to Pay).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Failure to Pay:             | a Reference Company's or a Sovereign's failure to pay when due, in accordance with the terms and conditions for one or more Debt Obligations, any amount due for payment provided the amount which is due and payable or the total of the amounts that are due and payable equals or exceeds the amount specified in the Final Terms (the " <b>Failure to Pay Amount</b> ").                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Successor:                  | <p>means one or more companies which (directly or indirectly) succeed to 25 per cent. or more of the Debt Obligations through a Succession Event and less than 25 per cent. of the Debt Obligations remain with the Reference Entity, in which case such company shall constitute a Successor in lieu of the Reference Entity. Where any company succeeds to 75 per cent. or more of the Debt Obligations through a Succession Event, such company alone shall constitute a Successor. Where one or more companies individually succeed to less than 25 per cent. of the Debt Obligations through a Succession Event and the Reference Entity ceases to exist, the company or companies that succeed to the largest portion of the Debt Obligations shall constitute a Successor.</p> <p>The Issuer shall perform any calculations and assessments required to determine whether the thresholds set forth above have been met and shall notify the parties of any such determination. The Issuer shall perform the appropriate adjustments of the Final Terms to reflect a Successor and the scope of the Debt Obligations as well as any other amendments that the Issuer deems necessary upon the occurrence of a Succession Event.</p> |
| Succession Event:           | <p>Means that all or substantially all of a Reference Entity's Debt Obligations by law or agreement, directly or indirectly, is transferred to one or several legal entities by merger, consolidation, transfer of assets or liabilities, demerger or other similar event, whereby what is stated under Effect of Succession Event shall apply.</p> <p>The Issuer shall determine whether a Succession Event has occurred and carry out those calculations and determinations which is required under "<i>Successor</i>" and shall notify the holders of the outcome thereof.</p> <p>The Issuer has the right to, with binding effect on the Holders, make such adjustments to the terms and conditions of the Notes which the Issuer determines necessary as a result of the Succession Event, including replacing the relevant Reference Entity with a Replacement Reference Company.</p>                                                                                                                                                                                                                                                                                                                                               |
| Effect of Succession Event: | In case the Issuer deems that a Succession Event has occurred (which Succession Event can have occurred up to 90 days prior to the Observation Start Date, in accordance with the definition of "Succession Event Backstop Date" in the ISDA Definitions (see " <i>Other Terms</i> " below), the Successor, or the Replacement Reference Entity, shall, from the day the Issuer so determines, replace the Reference Entity as a "Reference Entity" in respect of that Note. The Issuer shall have the right to, in case of a Succession Event, adjust the relative basket weights of one or several Reference Entities in the Basket.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

Payment Deferral:

If it is not possible for the Issuer to determine the Recovery Value in respect of one or more Reference Entities before the Scheduled Redemption Date or Early Redemption Date because an auction settlement procedure has not yet been concluded, or for any other reason, or if the Issuer or applicable Hedging Party reasonably determines that it will not receive the full amount of any Redemption Proceeds on or before the Scheduled Redemption Date or the Early Redemption Date (as applicable) (each such event a "**Deferred Redemption**"), then the Issuer shall promptly notify the Holders of such event (a "**Deferred Redemption Notice**").

Following a Deferred Redemption Notice the Issuer shall make a partial redemption of the Notes on (i) the Scheduled Redemption Date or the Early Redemption Date, as applicable, provided and to the extent that the Hedging Party has received (or is deemed to have received) any part of the Redemption Proceeds no later than on the tenth Business Day prior to such date, and thereafter (ii) within five Business Days after each date on which the Hedging Party receives (or is deemed to have received) all or part of the Redemption Proceeds (each such date, a "**Deferred Redemption Date**").

The amount of each such partial redemption of the Notes shall be calculated in accordance with the formula for calculating the Redemption Amount set out above, and for such purpose the "**Redemption Proceeds**" shall be deemed to be the most recent partial amount of the Redemption Proceeds received (or deemed to have been received) by the Hedging Party prior to the relevant Deferred Redemption Date.

The sum of all partial redemption payments shall never exceed the aggregate Redemption Proceeds which the Hedging Party has received (or is deemed to have received) on or prior to the Back Stop Date.

If the Issuer has determined that a Deferred Redemption has occurred and is continuing and that it can be reasonably expected that any amount of the Redemption Proceeds will not be received by the Hedging Party on or prior to the Back Stop Date, then the Issuer (i) may extend the Back Stop Date in order for it to be in alignment with expected future receipts of Redemption Proceeds as determined by the Issuer, or (ii) by notice to the Holders and to the relevant Clearing System(s) cancel the Notes with immediate effect, whereupon the Issuer shall not be obliged to make, and no Holder shall be entitled to receive, any redemption payment or other amount in respect of the Notes.

Any Redemption Proceeds received by the Issuer or the Hedging Party after the Back Stop Date shall not be payable to Holders and the Holders shall have no claim to receive any such remaining part of the Redemption Amount after the Back Stop Date.

Other Terms:

In case of dispute regarding the interpretation of the conditions for Credit Linked Notes, guidance shall be sought in the definitions issued by ISDA in the "2003 ISDA Credit Derivatives Definitions" together with all from time to time published addendums, protocols, updates and similar (the "**ISDA Definitions**").

#### PART 4: ADDITIONAL CONDITIONS FOR FUND-LINKED NOTES

The following provisions will apply if stated in the Final Terms.

|                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| <b>"Fund"</b>         | As specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>"Fund Manager"</b> | Means in respect of a Fund, any person who is appointed to provide services, directly or indirectly, for that Fund, whether or not specified under law or the constitutive and governing documents, subscription agreements and other agreements, applicable to the Fund, including any fund adviser, fund administrator, operator, management company, depository, custodian, sub-custodian, prime broker, administrator, trustee, registrar and transfer agent, domiciliary agent and any other person specified as such in the Final Terms.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>"Fund Event":</b>  | <p>The Issuer may, in its own discretion, determine that a Fund Event has occurred, if any of the following events should occur following the initial Observation Date or Initial Valuation Date:</p> <ol style="list-style-type: none"><li>1. the Net Asset Value ("<b>NAV</b>") in respect of the Fund is not calculated and not published on such a day or in such a way as stated in the provisions for the Fund and the terms of the Fund and Fund Manager's operations;</li><li>2. the occurrence of any event or circumstance affecting the Fund or the fund units which has (or may potentially have) a negative effect on the value of the Fund or the fund units;</li><li>3. the Fund or the Fund Manager refuses subscription or redemption (in whole or partially) of fund units of the Fund on such a day when subscription or redemption should be possible in accordance with the provisions of the Fund and in accordance with the terms of the Funds operation;</li><li>4. the proceeds that the Fund pays out as a result of a redemption consists of assets other than cash;</li><li>5. the Fund or the Fund Manager restricts the ability to subscribe for or redeem fund units, introduces or amends fees or any additional taxes or other charges arises in connection with subscription or redemption after the Initial Observation Date or Initial Valuation Date;</li><li>6. a material change of the Reference Assets of the Fund occurs, which includes expropriation or similar event, such event resulting in the assets being transferred to or taken over by an authority or similar institution or organisation, or by other by instruction from an authority or similar institution or organisation, which has a negative effect on the value of the fund units;</li><li>7. the Fund or the Fund Manager becomes insolvent, negotiations are initiated in regard to declaring either the Fund or the Fund Manager bankrupt, either the Fund or the Fund Manager seeks or becomes subject to winding up, seeks the appointment of an administrator, makes a composition or is subject to any similar event;</li><li>8. the Fund or the Fund Manager merges with or into or becomes subject to sale (in whole or partially);</li><li>9. the Fund breaches any terms applicable to the Fund's operations, including its investment guidelines and its constitutive documents;</li></ol> |

10. the Fund or the Fund Manager makes any changes in the terms applicable to the Fund's or the Fund Manager's operations such as changes in the risk profile of the Fund, changes in regard to the right to vote in respect of the fund units, change of the investment guidelines of the Fund, change of the denomination of the fund units or such other change that is adverse in the Issuer's opinion;
11. the Fund breaches any agreements to which it is party or any court order or governmental order;
12. any change in law, regulation or other set of rules (including tax legislation and accounting rules), or resolution is passed by governmental agency, court or other body which has a negative impact on the Fund or the Fund Manager or the Issuer's possibilities to subscribe for or redeem the Reference Asset;
13. the Fund, the Fund Manager, the administrator, the account operator or the board of directors becomes subject to investigation, lawsuit or similar action by an authority or other due to breach of relevant legislation or other rules applicable to the Fund, the Fund Manager, the administrator, the account operator or the board of directors or the relevant license for any of these is withdrawn;
14. the Fund Manager, the administrator, the account operator or the board of directors are replaced;
15. any conversion of the Reference Asset into other fund units;
16. any compulsory transfer or redemption of fund units occur;
17. the Fund experience difficulties, or is not able, to carry out investments;
18. any change of the derivative instruments of the Fund which has a negative effect on the value of the fund units or the possibility of the fund to admit redemption;
19. the Fund, the Fund Manager or the administrator fails to provide such information within such grace period as The Fund, the Fund Manager or the administrator has undertaken to provide information to any investor;
20. any other event or circumstance occurs which, as determined by the Issuer, has a negative effect on the application of the Conditions of the Notes.

If a Fund Event occurs with respect to one or more Funds which constitutes a Reference Asset, the Issuer shall be entitled to make such adjustments in the calculation of the Redemption Amount, Interest Amount and/or compilation of Reference Assets, or to replace the Affected Reference Asset with a Replacement Reference Asset which the Issuer thereby deems necessary in order to achieve a calculation of the Redemption Amount which reflects, and is based on, the manner in which such was previously calculated.

Where the Issuer believes that it would not provide a fair result to replace the Affected Reference Asset or adjust the applicable calculation or the structure of the Reference Asset, the Issuer may either elect to extend the Back Stop Date to such future date as may be determined by the Issuer, or perform an early calculation of the Redemption Amount and/or the yield or Interest Amount and determine the Redemption Amount and/or the yield or Interest Amount. Such early calculation shall be based on the most recently published value for the Reference Asset. When the Issuer has determined

the Redemption Amount and/or the yield or Interest Amount, the Issuer shall notify the Holders of the amount of the Redemption Amount and the yield or Interest Amount and the rate at which interest will continue to accrue on the Notes. The Issuer shall pay market interest on the Principal Amount. The Redemption Amount (including accrued interest, if applicable) shall be paid on the Redemption Date.

The Issuer shall be entitled to make any addition, adjustment or amendment to the Conditions as the Issuer deems necessary in connection with Fund Events.

## VILLKOR FÖR LÅN

Den svenska översättningen är uteslutande för att underlätta för investerare att få en övergripande bild och en investerare i Lån måste ta till sig och förstå villkoren på engelska.*

*Följande Allmänna Villkor utgör, tillsammans med Slutliga Villkor för respektive emission, de fullständiga Villkoren för varje Serie av Lån.*

### DEL 1: – ALLMÄNNA VILLKOR

Utgivandet av Lån regleras i ett fiscal agency-avtal ("**Fiscal Agency-avtalet**") daterat 16 April 2013 mellan Nordea Bank AB (publ) ("**NBAB**"), Nordea Bank Finland Plc ("**NBF**"), Citibank, N.A., London Branch i egenskap av fiscal agent ("**Fiscal Agent**", vilket ska inkludera varje efterträdare till Citibank, N.A., London Branch som sådan agent), Citibank N.A. genom sitt New York-kontor som registreringsagent ("**Registreringsagent**", avseende varje Serie av Lån förutom Svenska Lån, vilket ska inkludera en efterträdare till Citibank N.A. som sådan agent), vissa finansiella institutioner angivna däri som betalningsagenter ("**Betalningsagenter**", vilket ska inkludera fiscal agent och eventuella efterträdare till denna samt eventuella ytterligare betalningsagenter utsedda i enlighet med Fiscal Agency-avtalet), Nordea Bank Danmark A/S som administrerande institut för VP-Lån (som definierat nedan) ("**VP-Administrerande Institut**"), Nordea Bank Norge ASA i egenskap av norsk betalningsagent för VPS-Lån ("**VPS-Betalningsagent**"), Nordea Bank AB (publ) i egenskap av svenskt administrerande institut för Svenska Lån ("**Svenska Administrerande Institutet**") och Nordea Bank Finland Plc i egenskap av finskt administrerande institut för Finska Lån ("**Finska Administrerande Institutet**"). NBAB och NBF har undertecknat en så kallad deed of covenant ("**Deed of Covenant**") daterad 16 April 2013 (såsom ändrad, bekräftad eller ersatt från tid till annan) avseende Lånen. Kopior av Fiscal Agency-avtalet och Deed of Covenant finns tillgängliga på de kontor som är angivna för Betalningsagenterna respektive Registreringsagenten. Varje person som från tid till annan har de rättigheter som följer av ett innehav av Lån ska anses ha vetskap om och vara bunden av samtliga villkor i Fiscal Agency-avtalet och Deed of Covenant i den utsträckning dessa villkor är tillämpliga på det relevanta Lånet. En hänvisning till "**Emittenten**" i dessa Allmänna Villkor är en hänvisning till den av NBAB och NBF som anges som emittent i tillämpliga Slutliga Villkor.

Lånen emitteras i serier (en "**Serie**") Tranched i en eller flera trancher (en "**Tranch**"). Till varje Tranch hör specifika slutliga villkor ("**Slutliga Villkor**"). I de fall ansökan har gjorts om att en Serie ska noteras på officiella listan vid Irish Stock Exchange, och sedan tas upp till handel på dess reglerade marknad, kommer en kopia av de Slutliga Villkoren att lämnas in till Irish Stock Exchange och finnas tillgänglig på det kontor som anges för Fiscal Agent, alternativt Registreringsagenten, senast på emissionsdagen för Lån i den specifika Serien. Clearing av Lån kommer att ske genom VP Securities A/S ("**VP-Lån**" respektive "**VP**"). Central värdepappersförvarare i Norge kommer att vara Verdipapirsentralen ASA ("**VPS-Lån**" respektive "**VPS**"). Central värdepappersförvarare i Sverige kommer att vara Euroclear Sweden AB, reg. nr. 556112-8074 ("**Svenska Lån**" och "**Euroclear Sverige**"). Central värdepappersförvarare i Finland kommer vara Euroclear Finland Ltd, med finskt registreringsnummer 1061446-0 ("**Finska Lån**" och "**Euroclear Finland**").

Lån i Schweiziska Franc kommer att ges ut som fysiska värdepapper och kommer att representeras av ett så kallat permanent globalt Lån, vilket kommer att förvaras av den Schweiziska Betalningsagenten hos SIX SIS AG, Olten, Schweiz ("**SIS**") eller hos en annan förvarare godkänd av SIX Regulatory Board vid SIX Swiss Exchange. En hänvisning i dessa Villkor till "**Euroclear**" och/eller "**Clearstream, Luxembourg**" ska avseende Lån i Schweiziska Franc tolkas som att inkludera SIS (vilket också ska inkludera ett eventuell annat clearinginstitut som erkänns av SIX Swiss Exchange och hos vilken det permanenta globala Lånet från tid till annan kan komma att förvaras), vilket också ska anses vara ett alternativt clearingsystem inom ramen för dessa Villkor.

VP-Lånen kommer att registreras på ett värdepapperskonto i VP varför inga fysiska värdepapper kommer att utfärdas. VP-Lån registrerade i VP är överlåtbara värdepapper vilka inte är föremål för några överlåtelsebegränsningar under dansk rätt.

Eftersom inga fysiska VP-Lån kommer att utfärdas ska de Allmänna Villkoren för VP-Lånen anses införlivade genom hänvisning i, och vara en del av, den Deed of Covenant till vilken VP-lånen är hänförliga.

VPS-Lånen kommer att registreras på ett värdepapperskonto i VPS varför inga fysiska värdepapper kommer att utfärdas. VPS-Lån registrerade i VPS är överlåtbara värdepapper vilka inte är föremål för några överlåtelsebegränsningar under norsk rätt.

Eftersom inga fysiska VPS-Lån kommer att utfärdas ska de Allmänna Villkoren för VPS-Lånen anses införlivade genom hänvisning i, och vara en del av, den Deed of Covenant till vilken VPS-lånen är hänförliga.

Ett registreringsagentavtal daterat 16 April 2013 (såsom ändrat, bekräftat eller ersatt från tid till annan, "**VPS-Registreringsagentavtalet**") har ingåtts mellan Emittenten och VPS-Betalningsagenten avseende VPS-Lånen.

Central värdepappersförvarare för en Serie av Svenska Lån kommer att vara Euroclear Sverige ("**Svensk CSD**") i enlighet med vid var tid gällande lag (1998:1479) om kontoföring av finansiella instrument ("**Kontoföringslagen**").

Svenska Lån kommer att registreras på ett värdepapperskonto i Euroclear Sverige varför inga fysiska värdepapper kommer att utfärdas. Svenska Lån registrerade i Euroclear Sverige är överlåtbara värdepapper vilka inte är föremål för några överlåtelsebegränsningar under svensk rätt.

Eftersom inga fysiska Svenska Lån kommer att utfärdas ska de Allmänna Villkoren för Svenska Lån anses införlivade genom hänvisning i, och vara en del av, den Deed of Covenant till vilken de Svenska Lånen är hänförliga.

Finska Lån kommer att registreras på ett värdepapperskonto i Euroclear Finland varför inga fysiska värdepapper kommer att utfärdas. Finska Lån registrerade i Euroclear Finland är överlåtbara värdepapper vilka inte är föremål för några överlåtelsebegränsningar under finsk rätt.

Finska Lån kommer att registreras för Innehavares räkning på ett värdepapperskonto i enlighet med den finska lagen om "kontoförda värdepapperssystem och clearingverksamhet" (Fin. *laki arvo-osuujärjestelmästä ja selvitystoiminnasta* (749/2012)), såsom ändrad från tid till annan, och den finska lagen om "kontoförda konton" (Fin. *laki arvo-osuustileistä* (827/1991)), såsom ändrad från tid till annan, varför inga fysiska värdepapper kommer att utfärdas. Begäran om en registreringsåtgärd avseende Finska Lån ska adresseras till kontoförande institut ("**Kontoförande Institut**") i enlighet med den finska lagen om kontoförda värdepapperssystem och clearingverksamhet" (Fin. *laki arvo-osuujärjestelmästä ja selvitystoiminnasta* (749/2012)), såsom ändrad från tid till annan, och Euroclear Finlands regelverk.

En hänvisning i dessa Allmänna Villkor ("**Villkoren**") till Lån är en hänvisning till Lån i den relevanta Serien. En hänvisning till Kupong eller Payment Receipts (båda såsom definierade nedan) är en hänvisning till Kupong och Payment Receipts hänförliga till Lån i den relevanta Serien.

## 1. Definitioner

I dessa Allmänna Villkor ska följande definitioner gälla.

|                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| "Additional Financial Centre(s)" | means the city or cities specified as such in the relevant Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| "Ytterligare Finanscentrum"      | avser den stad eller de städer såsom angivna i relevanta Slutliga Villkor;                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| "Affected Reference Asset"       | a Reference Asset that is affected by one or more of Market Disruption, Disruption, Calculation Adjustment, Corrections, or Extraordinary Events, Change in Law or Increased Costs. If the Reference Asset is constituted by a basket of underlying assets, Market Disruption, Market Disruption Commodity, Disruption, Calculation Adjustment, Corrections, or Extraordinary Events, Change in Law or Increased Costs shall be deemed to have occurred only for such underlying asset or assets which are affected; |

|                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| "Påverkad Referenstillgång" | Referenstillgång som påverkas av Marknadsavbrott, Avbrott, Ändrad Beräkning, Korrigering eller Särskilda Händelser, Ändring i Lag eller Ökade Riskhanteringskostnader. För det fall Referenstillgång utgörs av en Korg av Referenstillgångar ska Marknadsavbrott, Marknadsavbrott Råvara, Avbrott, Ändrad Beräkning, Korrigering eller Särskilda Händelser, Ändring i Lag eller Ökade Riskhanteringskostnader, anses ha inträffat endast för de respektive Referenstillgångar som är påverkade;                                                                                                                                                                                                                                                                                                                                                                                      |
| "Back Stop Date"            | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| "Back Stop-Datum"           | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| "Barrier Level"             | means each barrier level specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| "Barriärnivå"               | avser varje barriärnivå såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| "Base CPI"                  | the value of the relevant Inflation Rate as determined at the Valuation Time on the Initial Valuation Date(s);                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| "Bas-KPI"                   | avser den relevanta Inflationstakten bestämd vid Värderingstidpunkten på Startdagen;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| "Base Currency"             | the currency in which the Reference Asset is denominated;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| "Basvaluta"                 | avser den valuta i vilken Referenstillgång anges;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| "Basket"                    | means the basket of Reference Assets or Reference Entities specified in the applicable Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| "Korg"                      | avser den korg av Referenstillgångar eller Referensbolag vilka närmare anges i tillämpliga Slutliga Villkor;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| "Basket Participation"      | means the proportionate share of the Basket represented by each Reference Asset, determined as follows:<br><br>If " <b>Fixed Basket Participation</b> " is specified as applicable in the Final Terms, the Basket Participation will be the fixed percentage specified in the Final Terms in relation to the relevant Reference Asset.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| "Korgandel"                 | avser den andel av en Korg som representeras av en enskild Referenstillgång, bestämd enligt följande:<br><br>Om en " <b>Fast Korgandel</b> " anges i de Slutliga Villkoren ska Korgandelen vara den fasta procentsats som anges i de Slutliga Villkoren avseende den relevanta Referenstillgången.<br><br>If " <b>Rainbow Basket Participation</b> " is specified as applicable in the Final Terms, the Basket Participation will be determined by reference to the relative Reference Asset Return. Each Reference Asset will be assigned a ranking based on the Reference Asset Return as determined by the Issuer in accordance with the relevant performance structure specified in Condition 6(a) ( <i>Redemption at Maturity</i> ), and the Basket Participation of each Reference Asset will correspond to the Basket Participation shown against the relative ranking in the |

applicable Final Terms.

Om "**Rainbow Basketandel**" anges i de Slutliga Villkoren ska Korgandelen avgöras genom hänvisning till den relativa Referenstillgångsvärdeutvecklingen. Varje Referenstillgång kommer att ges en ranking baserad på Referenstillgångsvärdeutvecklingen, vilken fastställs av Emittenten i enlighet med relevant index i Punkt 6(a) (*Återbetalning på Förfallodagen*) och varje Referenstillgångs Korgandel kommer att motsvara den Korgandel som anges för respektive ranking i Slutliga Villkoren.

If "**Replacement Periodsumme Basket Participation**" is specified as applicable in the Final Terms, the Basket Participation will be determined by reference to the relative Replacement Periodsumme Performance of the relevant Reference Asset. Each Reference Asset will be assigned a ranking based on the Replacement Periodsumme Performance of the relevant Reference Asset as determined by the issuer, and the Basket Participation of each Reference Asset will correspond to the Basket Participation shown against the relative ranking in the applicable Final Terms.

Om "**Korgandel Ersättande Periodsummering**" anges i de Slutliga Villkoren ska Korgandelen avgöras genom hänvisning till den relativa Ersättande Periodsummevärdeutvecklingen för den relevanta Referenstillgången. Varje Referenstillgång kommer att ges en ranking baserad på Ersättande Periodsummeavkastningen för respektive Referenstillgång, vilken fastställs av Emittenten. Varje Referenstillgångs Korgandel kommer att motsvara den Korgandel som anges för respektive ranking i Slutliga Villkoren.

If "**Momentum Basket Participation**" is specified as applicable in the relevant Final Terms, the Basket Participation of each Reference Entity will initially be the value specified in the applicable Final Terms. Thereafter, the Basket Participation will be rebalanced on each applicable Rebalancing Date by reference to the relative Rebalancing Performance of each Reference Asset. Each Reference Asset will be assigned a ranking based on the Rebalancing Performance of the relevant Reference Asset during the period from (and including) the immediately preceding Rebalancing Date to (and including) the current Rebalancing Date, and the Basket Participation of each Reference Asset for the Rebalancing Period commencing on the current Rebalancing Date will correspond to the Basket Participation shown against the relevant ranking in the applicable Final Terms.

Om "**Korgandel Momentum**" anges i de Slutliga Villkoren ska Korgandelen för varje Referensbolag initialt vara den andel som anges i tillämpliga Slutliga Villkor. Därefter ska Korgandelen ombalanseras vid varje Ombalanseringsdag med hänvisning till den relativa Ombalanseringvärdeutvecklingen för den relevanta Referenstillgången. Varje Referenstillgång kommer att ges en ranking baserad på Ombalanseringsvärdeutvecklingen för respektive

Referenstillgång under perioden från och med den omedelbart föregående Ombalanseringsdagen till och med nuvarande Ombalanseringsdag och varje Referenstillgångs Korgandel under den Ombalanseringsperiod som påbörjas på nuvarande Ombalanseringsdag kommer att motsvara den Korgandel som anges för respektive ranking i Slutliga Villkoren.

If "**Accumulating Rainbow Basket Participation**" is specified as applicable in the Final Terms, the Basket Participation will be determined by reference to the relative Reference Asset Return. Each Reference Asset will be assigned a ranking on the Issue Date, as specified in the applicable Final Terms, and thereafter the Basket Participation will be recalculated on each Valuation Date based on the Reference Asset Return as determined by the Issuer in accordance with the relevant performance structure specified in Condition 6(a) (*Redemption at Maturity*), and the Basket Participation of each Reference Asset for the next following Valuation Period will be reset and correspond to the Basket Participation shown against the relative ranking in the applicable Final Terms.

Om "**Ackumulerande Rainbow Basketandel**" anges i de Slutliga Villkoren ska Korgandelen avgöras med hänvisning till den relativa Referenstillgångsvärdeutvecklingen. Varje Referenstillgång kommer att ges en ranking på Lånedatumet angiven i relevanta Slutliga Villkor. Därefter kommer Korgandelen att omräknas på varje Värderingsdag baserat på Referenstillgångsvärdeutvecklingen vilken fastställs av Emittenten i enlighet med relevant index i Punkt 6(a) (*Återbetalning på Förfallodagen*). Korgandelen för varje Referenstillgång för nästkommande Värderingsperiod kommer att återställas och motsvara den Korgandel som anges för respektive ranking i Slutliga Villkoren.

**"Basket Participation (Interest)"**

means the Basket Participation of each Reference Entity (Interest), determined as follows:

**"Korgandel (Ränta)"**

avser Korgandel för varje Referensbolag (Ränta), bestämd enligt följande:

If "**Fixed Basket Participation (Interest)**" is specified as applicable in the Final Terms, the Basket Participation (Interest) will be the fixed percentage specified in the Final Terms in relation to the relevant Reference Entity (Interest).

Om "**Fast Korgandel (Ränta)**" anges i de Slutliga Villkoren ska Korgandelen (Ränta) vara den fasta procentsats som anges i de Slutliga Villkoren avseende det relevanta Referensbolaget (Ränta).

If "**Rainbow Basket Participation (Interest)**" is specified as applicable in the Final Terms, the Basket Participation (Interest) will be determined by reference to the relative Reference Entity Return. Each Reference Entity (Interest) will be assigned a ranking based on the Reference Entity Return as determined by the Issuer in accordance with the relevant performance structure

specified in Condition 6(a) (*Redemption at Maturity*), and the Basket Participation (Interest) of each Reference Entity (Interest) will correspond to the Basket Participation (Interest) shown against the relative ranking in the applicable Final Terms.

Om "**Rainbow Basketandel (Ränta)**" anges i de Slutliga Villkoren ska Korgandelen (Ränta) avgöras genom hänvisning till den relativa Referensbolagsvärdeutvecklingen. Varje Referensbolag (Ränta) kommer att ges en ranking baserad på Referensbolagsvärdeutvecklingen, vilken fastställs av Emittenten i enlighet med relevant index i Punkt 6(a) (*Återbetalning på Förfallodagen*) och varje Referensbolags (Ränta) Korgandel (Ränta) kommer att motsvara den Korgandel (Ränta) som anges för respektive ranking i Slutliga Villkoren.

If "**Replacement Periodsumme Basket Participation (Interest)**" is specified as applicable in the Final Terms, the Basket Participation (Interest) will be determined by reference to the relative Replacement Periodsumme Performance of the relevant Reference Entity (Interest). Each Reference Entity (Interest) will be assigned a ranking based on the Replacement Periodsumme Performance of the relevant Reference Entity (Interest) as determined by the issuer, and the Basket Participation (Interest) of each Reference Entity (Interest) will correspond to the Basket Participation (Interest) shown against the relative ranking in the applicable Final Terms.

Om "**Korgandel Ersättningssummering (Ränta)**" anges i de Slutliga Villkoren ska Korgandelen (Ränta) bestämmas genom hänvisning till den relativa Ersättande Periodsummetvärdeutvecklingen för det relevanta Referensbolaget (Ränta). Varje Referensbolag (Ränta) kommer att ges en ranking baserad på Ersättande Periodsummetvärdeutvecklingen för respektive Referensbolag (Ränta), vilken fastställs av Emittenten. Varje Referensbolags (Ränta) Korgandel (Ränta) kommer att motsvara den Korgandel (Ränta) som anges för respektive ranking i Slutliga Villkoren.

If "**Momentum Basket Participation (Interest)**" is specified as applicable in the relevant Final Terms, the Basket Participation (Interest) of each Reference Entity (Interest) will initially be the value specified in the applicable Final Terms. Thereafter, the Basket Participation (Interest) will be rebalanced on each applicable Rebalancing Date by reference to the relative Rebalancing Performance of each Reference Entity (Interest). Each Reference Entity (Interest) will be assigned a ranking based on the Rebalancing Performance of the relevant Reference Entity (Interest) during the period from (and including) the immediately preceding Rebalancing Date to (and including) the current Rebalancing Date, and the Basket Participation (Interest) of each Reference Entity (Interest) for the Rebalancing Period commencing on the current Rebalancing Date will correspond to the Basket Participation (Interest) shown against the relevant ranking in the applicable Final Terms.

Om "**Korgandel Momentum (Ränta)**" anges i de Slutliga Villkoren ska Korgandelen (Ränta) för varje Referensbolag (Ränta) initialt vara den andel som anges i tillämpliga Slutliga Villkor. Därefter ska Korgandelen (Ränta) ombalanseras vid varje Ombalanseringsdag med hänvisning till den relativa Ombalanseringvärdeutvecklingen för det relevanta Referensbolaget (Ränta). Varje Referensbolag (Ränta) kommer att ges en ranking baserad på Ombalanseringvärdeutvecklingen för respektive Referensbolag (Ränta) under perioden från och med den omedelbart föregående Ombalanseringsdagen till och med nuvarande Ombalanseringsdag och varje Referensbolags (Ränta) Korgandel (Ränta) under den Ombalanseringsperiod som påbörjas på nuvarande Ombalanseringsdag kommer att motsvara den Korgandel (Ränta) som anges för respektive ranking i Slutliga Villkoren.

If "**Accumulating Rainbow Basket Participation (Interest)**" is specified as applicable in the Final Terms, the Basket Participation (Interest) will be determined by reference to the relative Reference Asset Return (Interest). Each Reference Asset (Interest) will be assigned a ranking on the Issue Date, as specified in the applicable Final Terms, and thereafter the Basket Participation (Interest) will be recalculated on each Interest Determination Date based on the Reference Asset Return (Interest) as determined by the Issuer in accordance with the relevant performance structure specified in Condition 6(a) (*Redemption at Maturity*), and the Basket (Interest) of each Reference Asset (interest) for the next following Interest Period will be reset and correspond to the Basket Participation (Interest) shown against the relative ranking in the applicable Final Terms.

Om "**Ackumulerande Rainbow Basketandel (Ränta)**" anges i de Slutliga Villkoren ska Korgandelen (Ränta) avgöras med hänvisning till den relativa Referenstillgångsvärdeutvecklingen (Ränta). Varje Referenstillgång (Ränta) kommer att ges en ranking på Lånedatumet angiven i relevanta Slutliga Villkor. Därefter kommer Korgandelen (Ränta) att omräknas på varje Räntebestämningsdag baserat på Referenstillgångsvärdeutvecklingen (Ränta) vilken fastställs av Emittenten i enlighet med relevant index i Punkt 6(a) (*Återbetalning på Förfallodagen*). Korgandelen (Ränta) för varje Referenstillgång (Ränta) för nästkommande Ränteperiod kommer att återställas och motsvara den Korgandel (Ränta) som anges för respektive ranking i Slutliga Villkoren.

**"Basket Strike Level"**

as specified in the Final Terms;

**"Korglösennivå"**

såsom närmare anges i Slutliga Villkor;

**"Bonus Factor"**

as specified in the Final Terms;

**"Bonusfaktor"**

såsom närmare anges i Slutliga Villkor;

**"Business Day"**

(a) means in relation to any sum payable in euro, a TARGET Settlement Day and a day on which

commercial banks and foreign exchange markets settle payments generally in each (if any) Additional Financial Centre;

- (b) means in relation to any sum payable in a currency other than euro, a day on which commercial banks and foreign exchange markets settle payments generally in London, in the Principal Financial Centre of the relevant currency and in each (if any) Additional Financial Centre; and
- (c) in relation to Fund-Linked Notes only, a day on which units or shares in the relevant Fund may be subscribed or redeemed in accordance with the rules of the relevant Fund, and which is also a Scheduled Trading Day in respect of the relevant Fund.

**"Bankdag"**

- (a) avser, när en betalning ska ske i euro, en TARGET Avvecklingsdag och varje dag då affärsbanker och valutamarknader generellt kan avveckla betalningar i varje Ytterligare Finanscentrum (om sådant finns);
- (b) när en betalning ska ske i annan valuta än euro, dag då affärsbanker och valutamarknader generellt kan avveckla betalningar i London, i Huvudsakligt Finansiellt Centrum för den relevanta valutan och i varje Ytterligare Finanscentrum (om sådant finns); och
- (c) avseende endast Fondobligationer, en dag då andelar eller aktier i relevant Fond kan tecknas eller lösas in i enlighet med reglerna för Fonden, och som också är en Planerad Handelsdag för den relevanta Fonden.

**"Business Day Convention"**

means the convention applicable for the purposes of adjusting a relevant day where the day would otherwise occur on a day which is not a Business Day. The adjustment may be made in accordance with any of the conventions listed below, and the applicable convention in respect of each Series of Notes will be specified in the relevant Final Terms;

**"Bankdagskonvention"**

avser den konvention som är tillämplig för att justera en relevant dag om dagen annars skulle infalla på en dag som inte är en Bankdag. Justeringen kan göras i enlighet med någon av nedan angivna konventioner, och den konvention som är tillämplig för en specifik Serie kommer att anges i relevanta Slutliga Villkor.

**Following Business Day**

where an Interest Payment Date or another relevant date occurs on a day which is not a Business Day, it shall be deferred to the immediately following Business Day;

**Efterföljande Bankdag**

Om en Ränteförfallodag eller annan relevant dag infaller på en dag som inte är en Bankdag ska den skjutas upp till

påföljande Bankdag.

### **Modified Following Business Day**

### **Modifierad Efterföljande Bankdag**

Om en Ränteförfallodag eller annan relevant dag infaller på en dag som inte är en Bankdag ska den skjutas upp till påföljande Bankdag såvida inte den påföljande Bankdagen infaller under nästkommande kalendermånad. I sådant fall ska Ränteförfallodagen eller annan relevant dag infalla närmast föregående Bankdag.

### **Preceding Business Day**

where an Interest Payment Date occurs on a day which is not a Business Day, it shall instead occur on the immediately preceding Business Day;

### **Föregående Bankdag**

Om en Ränteförfallodag eller annan relevant dag infaller på en dag som inte är en Bankdag ska den istället infalla på närmast föregående Bankdag.

|                          |                                                                                                                                                                                                                       |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| "Calculation Adjustment" | as specified in section Part 2: <i>Additional Conditions for Certain Structured Notes</i> to these Conditions;                                                                                                        |
| "Justerad Beräkning"     | såsom närmare anges i Del 2: <i>Särskilda villkor för vissa strukturerade Lån</i> i dessa Villkor;                                                                                                                    |
| "Calculation Agent"      | the agent for the Issuer specified in the relevant Final Terms;                                                                                                                                                       |
| "Beräkningsagent"        | den agent för Emittenten som anges i Slutliga Villkor;                                                                                                                                                                |
| "Calculation Amount"     | has the meaning given in the relevant Final Terms;                                                                                                                                                                    |
| "Beräkningsbelopp"       | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                               |
| "Call Barrier Level"     | as specified in the Final Terms;                                                                                                                                                                                      |
| "Inlösenbarriärnivå"     | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                               |
| "Cap Strike"             | means the value specified in the Final Terms;                                                                                                                                                                         |
| "Lösenpristak"           | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                               |
| "Cap Strike Lower"       | means the value specified in the Final Terms;                                                                                                                                                                         |
| "Lösenpristak Lägre"     | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                               |
| "Cap Strike Upper"       | means the value specified in the Final Terms;                                                                                                                                                                         |
| "Lösenpristak Övre"      | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                               |
| "Change in Law"          | as specified in Condition 9 ( <i>Change in Law</i> );                                                                                                                                                                 |
| "Ändring i Lag"          | såsom närmare anges i Punkt 9 ( <i>Ändring i Lag</i> );                                                                                                                                                               |
| "CIBOR"                  | the Interest Rate which, (1) at or about 11.00 am Central European Time on the relevant day is published on Reuters' "DKNA13" screen for the relevant period (or through such other system or on such other screen as |

replaces the aforementioned system or screen) or, in the absence of such quotation, the Interest Rate which (2) at the aforementioned time corresponds to (a) the arithmetic mean of the rates for deposits in DKK for the relevant period on the Copenhagen interbank market as quoted by the Reference Banks or, where only one or no such quotation is given – (b) the Issuer's determination of the Interest Rate offered by Danish commercial banks for loans in DKK for the relevant period on the Copenhagen interbank market;

**"CIBOR"**

Den räntesats som (1) kl. 11.00 CET aktuell dag publiceras på Reuters sida "DKNA13" (eller genom sådant annat system eller på sådan annan sida som ersätter nämnda system respektive sida) eller, om sådan notering inte finns, (2) vid nyss nämnda tidpunkt motsvarar (a) genomsnittet av Referensbankers erbjudna räntor till ledande affärsbanker i Danmark för depositioner DKK för aktuell period på interbankmarknaden i Köpenhamn eller, om endast ett eller inget sådant erbjudande ges – (b) den ränta ledande affärsbanker i Köpenhamn erbjuder för utlåning av DKK för aktuell period på interbankmarknaden i Köpenhamn;

**"Clearing System"**

means one or more of Euroclear, Clearstream Luxembourg, Euroclear Finland, Euroclear Sweden, VP and VPS, as specified in the applicable Final Terms;

**"Clearinginstitut"**

avser någon eller några av Euroclear, Clearstream Luxembourg, Euroclear Finland, Euroclear Sverige, VP och VPS, såsom närmare anges i Slutliga Villkor;

**"Closing Price"**

the value of the relevant Reference Asset at the Valuation Time on the applicable Rebalancing Date(s), Valuation Date(s) or Initial Valuation Date(s), as determined by the Issuer in the manner specified in the Final Terms;

**"Stängningskurs"**

avser värdet av relevant Referenstillgång vid Värderingstidpunkten på den eller de tillämpliga Ombalanseringsdagen/arna, Värderingsdagen/arna eller Startdagen/arna, såsom fastställs av Emittenten såsom närmare anges i Slutliga Villkor;

**"Correction"**

as specified in Part 2: *Additional Conditions for Certain Structured Notes* to these Conditions;

**"Korrigerig"**

såsom närmare anges i Del 2: *Särskilda villkor för vissa strukturerade Lån* i dessa Villkor;

**"Coupon"**

the value specified in the relevant Final Terms;

**"Kupong"**

såsom närmare anges i Slutliga Villkor;

**"Coupon 2"**

the value specified in the relevant Final Terms;

**"Kupong 2"**

såsom närmare anges i Slutliga Villkor;

**"Coupon Barrier Level"**

each coupon barrier level specified in the relevant Final Terms;

**"Kupongbarriärnivå"**

såsom närmare anges i Slutliga Villkor;

| "Coupon Rate"           | each coupon rate as specified in the relevant Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| "Kupongnivå"            | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| "Credit Event"          | as specified in Part 3: <i>Additional Conditions for Credit-Linked Notes</i> to these Conditions;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| "Kredithändelse"        | såsom närmare anges i Del 3: <i>Särskilda villkor för Kreditlänkade Lån</i> i dessa Villkor;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| "Currency Business Day" | means any day in which commercial banks are open for business (including dealings in foreign exchange and foreign currency deposits) in the principal financial centre for the relevant currency. In respect of any transaction where the Notes and/or Reference Asset(s) are denominated in Euro, each TARGET Settlement Day shall be a Currency Business Day.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| "Handelsdag Valuta"     | avser varje dag då kommersiella banker är öppna (inklusive för handel och insättningar i utländsk valuta) i det huvudsakliga finansiella centrumet för den relevanta valutan. För varje transaktion där Lånen och/eller Referenstillgång/ar är angivna i Euro, ska varje TARGET Avvecklingsdag vara en Handelsdag Valuta;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| "Day Count Fraction"    | means, in respect of the calculation of an amount for any period of time (the " <b>Calculation Period</b> "), such day count fraction as may be specified in these Conditions or the relevant Final Terms and:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| "Dagberäkningsmetod"    | <p>avser, vid beräkningen av ett belopp med avseende på en tidsperiod ("Beräkningsperioden"), den beräkningsgrund som anges i dessa Villkor eller de relevanta Slutliga Villkoren och:</p> <ul style="list-style-type: none"> <li>(i) if "<b>Actual/Actual (ICMA)</b>" is so specified, means:</li> <li>(i) om "<b>Actual/Actual (ICMA)</b>" anges som tillämplig, avses: <ul style="list-style-type: none"> <li>(a) where the Calculation Period is equal to or shorter than the Regular Period during which it falls, the actual number of days in the Calculation Period divided by the product of (1) the actual number of days in such Regular Period and (2) the number of Regular Periods in any year; and</li> <li>(a) om Beräkningsperioden är lika med eller Shortare än den Ordinarie Perioden till vilken den är hänförlig, det faktiska antalet dagar i Beräkningsperioden dividerat med produkten av (1) det faktiska antalet dagar i sådan Ordinarie Period och (2) antalet Ordinarie Perioder under ett år; och</li> <li>(b) where the Calculation Period is longer than one Regular Period, the sum of:</li> <li>(b) om Beräkningsperioden är längre än en</li> </ul> </li> </ul> |

Ordinarie Period, summan av:

- (A) the actual number of days in such Calculation Period falling in the Regular Period in which it begins divided by the product of (1) the actual number of days in such Regular Period and (2) the number of Regular Periods in any year; and
  - (A) antalet dagar i sådan Beräkningsperiod som infaller under den Ordinarie Period i vilken den inleds dividerat med produkten av (1) det faktiska antalet dagar i sådan Ordinarie Period och (2) antalet Ordinarie Perioder under ett år; och
  - (B) the actual number of days in such Calculation Period falling in the next Regular Period divided by the product of (1) the actual number of days in such Regular Period and (2) the number of Regular Periods in any year;
  - (B) det faktiska antalet dagar i sådan Beräkningsperiod som infaller under nästa Ordinarie Period dividerat med produkten av (1) det faktiska antalet dagar i sådan Ordinarie Period och (2) antalet Ordinarie Perioder under ett år;
- (ii) if "**Actual/Actual (ISDA)**" is so specified, means the actual number of days in the Calculation Period divided by 365 (or, if any portion of the Calculation Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Calculation Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Calculation Period falling in a non-leap year divided by 365);
- (ii) Om "**Actual/Actual (ISDA)**" anges vara tillämplig, avses det faktiska antalet dagar i en Beräkningsperiod dividerat med 365 (eller, om någon del av Beräkningsperioden infaller under ett skottår, summan av (A) det faktiska antalet dagar i sådan del av Beräkningsperioden som infaller under ett skottår dividerat med 366 och (B) det faktiska antalet dagar i den del av Beräkningsperioden som löper under ett icke-skottår dividerat med 365);
- (iii) if "**Actual/365 (Fixed)**" is so specified, means the actual number of days in the Calculation

Period divided by 365;

- (iii) om "**Actual/365 (Fixed)**" anges vara tillämplig, avses det faktiska antalet dagar i Beräkningsperioden dividerat med 365;
- (iv) if "**Actual/365 (Sterling)**" is so specified, means the actual number of days in the Calculation Period divided by 365 or, in the case of an Interest Payment Date falling in a leap years, 366;
- (iv) om "**Actual/365 (Sterling)**" anges vara tillämplig, avses det faktiska antalet dagar i Beräkningsperioden dividerat med 365 eller, vad avser en Räntebetalningsdag som infaller under ett skottår, 366;
- (v) if "**Actual/360**" is so specified, means the actual number of days in the Calculation Period divided by 360;
- (v) om "**Actual/360**" anges vara tillämplig, avses det faktiska antalet dagar i Beräkningsperioden dividerat med 360;
- (vi) if "**30/360**", "**360/360**" or "**Bond Basis**" is so specified, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:
- (vi) om "**30/360**", "**360/360**" eller "**Bond Basis**" anges vara tillämplig, avses antalet dagar i Beräkningsperioden dividerat med 360, beräknat enligt följande formel;

Day Count Fraction =

Dagberäkningsmetod =

$$\frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

vari:

"**Y<sub>1</sub>**" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"**Y<sub>1</sub>**" är året, uttryckt som ett nummer, under vilket den första dagen i Beräkningsperioden infaller;

"**Y<sub>2</sub>**" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"**Y<sub>2</sub>**" är året, uttryckt som ett nummer, under vilket den dag som omedelbart efterföljer den sista dagen i Beräkningsperioden infaller;

"**M<sub>1</sub>**" is the calendar month, expressed as a number, in which the first day of the Calculation

Period falls;

"**M<sub>1</sub>**" är kalendermånaden, uttryckt som ett nummer, under vilken den första dagen i Beräkningsperioden infaller;

"**M<sub>2</sub>**" is the calendar month, expressed as number, in which the day immediately following the last day included in the Calculation Period falls;

"**M<sub>2</sub>**" är kalendermånaden, uttryckt som ett nummer, under vilken den dag som omedelbart efterföljer den sista dagen i Beräkningsperioden infaller;

"**D<sub>1</sub>**" is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D1 will be 30; and

"**D<sub>1</sub>**" är den första kalenderdagen, uttryckt som ett nummer, i Beräkningsperioden, om inte sådant nummer skulle vara 31, i vilket fall D1 ska vara 30; och

"**D<sub>2</sub>**" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31 and D1 is greater than 29, in which case D2 will be 30";

"**D<sub>2</sub>**" är den kalenderdag, uttryckt som ett nummer, som infallet direkt efter den sista dagen i Beräkningsperioden, om inte sådant nummer skulle vara 31 och D1 är större än 29, i vilket fall D2 ska vara 30;

- (vii) if "**30E/360**" or "**Eurobond Basis**" is so specified, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:  
om "**30E/360**" eller "**Eurobond Basis**" anges vara tillämplig, avses antalet dagar i Beräkningsperioden dividerat med 360, beräknat enligt följande formel;

$$\frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

"**D<sub>1</sub>**" är den första kalenderdagen, uttryckt som ett nummer, i Beräkningsperioden, om inte (i) sådan dag är sista dagen i februari eller (ii) sådant nummer skulle vara 31, i vilket fall D1 ska vara 30; och

"**D<sub>2</sub>**" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless (i) that day is the last day of February but not the Redemption Date or (ii) such number would be 31, in which case D2 will be 30,

"**D<sub>2</sub>**" är den kalenderdag, uttryckt som ett nummer, som infaller direkt efter den sista dagen i Beräkningsperioden, om inte (i) sådan dag är sista dagen i februari men inte utgör Återbetalningsdagen eller (ii) sådant nummer

skulle vara 31, i vilket fall D2 ska vara 30,

*provided, however, that* in each such case the number of days in the Calculation Period is calculated from and including the first day of the Calculation Period to but excluding the last day of the Calculation Period; dock med förbehåll för att i varje sådant fall beräknas antalet dagar i Beräkningsperioden från och med den första dagen i Beräkningsperioden till, men inte med, den sista dagen i Beräkningsperioden;

**"Regular Period"** means:

**"Ordinarie Period"** avser:

- (i) in the case of Notes where interest is scheduled to be paid only by means of regular payments, each period from but excluding the Issue Date to and including the first Interest Payment Date and each successive period from but excluding one Interest Payment Date to and including the next Interest Payment Date;
- (i) med avseende på Lån för vilka ränta avses att betalas endast på sedvanligt sätt, varje period från, men inte med, Lånedatum som infaller under ett år till och med den första Räntebetalningsdagen och varje efterföljande period från, men inte med, en Räntebetalningsdag till och med nästa Räntebetalningsdag;
- (ii) in the case of Notes where, apart from the first Interest Period, interest is scheduled to be paid only by means of regular payments, each period from but excluding a Regular Date falling in any year to and including the next Regular Date, where **"Regular Date"** means the day and month (but not the year) on which any Interest Payment Date falls; and
- (ii) med avseende på Lån för vilka, förutom avseende den första Ränteperioden, ränta avses att erläggas endast genom regelbundna betalningar, varje period från men inte med ett Ordinarie Datum som infaller under ett år till och med nästa Ordinarie Datum, där **"Ordinarie Datum"** avser den dag och månad (men inte år) på vilken en Räntebetalningsdag infaller; och
- (iii) in the case of Notes where, apart from one Interest Period other than the first Interest Period, interest is scheduled to be paid only by means of regular payments, each period from but excluding a Regular Date falling in any year to and excluding the next Regular Date, where **"Regular Date"** means the day and month (but not the year) on which any Interest Payment Date falls other than the Interest Payment Date falling at the end of the irregular Interest Period;
- (iii) med avseende på Lån för vilka, förutom avseende den första Ränteperioden, ränta avses

att erläggas endast genom regelbundna betalningar, varje period från men inte med ett Ordinarie Datum som infaller under ett år till, men inte med, nästa Ordinarie Datum, där "**Ordinarie Datum**" avser den dag och månad (men inte år) på vilken en Räntebetalningsdag infaller förutom Räntebetalningsdagen som infaller i slutet av den oregelbundna Ränteperioden;

|                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| <b>"Euroclear Sweden"</b>                 | Euroclear Sweden AB;                                                                                                                                                                                                            |
| <b>"Euroclear Sweden"</b>                 | Euroclear Sweden AB;                                                                                                                                                                                                            |
| <b>"European Reference Banks"</b>         | four major commercial banks which, at the time in question, quote EURIBOR and are appointed by an Issuing Agent (or, where applicable, the Calculation Agent) or the Issuer;                                                    |
| <b>"Europeiska Referens-banker"</b>       | fyra större affärsbanker som vid aktuell tidpunkt kvoterar EURIBOR och som utses av Administrerande Institut (i förekommande fall av Beräkningsagenten) eller Emittenten;                                                       |
| <b>"Exchange Business Day "</b>           | means any Scheduled Trading Day on which each Relevant Exchange and each Options or Futures Exchange is open for trading during its regular trading sessions;                                                                   |
| <b>"Börsdag"</b>                          | dag på vilken handel är avsedd att äga rum vid Relevant Börs och vid varje Options- eller terminsbörs                                                                                                                           |
| <b>"Exchange Business Day Convention"</b> | means the applicable convention for the purposes of adjusting a relevant day where the day occurs on a day which is not a Scheduled Trading Day. Adjustment may take place in accordance with any of the following conventions: |
| <b>"Börsdagskonvention"</b>               | avser den konvention som är tillämplig för att justera en relevant dag om dagen skulle infalla på en dag som inte är en Bankdag. Justeringen kan göras i enlighet med någon av nedan angivna konventioner:                      |

#### **Following Scheduled Trading Day**

##### **Efterföljande Börsdag**

where a relevant day occurs on a day which is not a Scheduled Trading Day, it shall be deferred until the Following Exchange Business Day;

Om en Ränteförfallodag eller annan relevant dag infaller på en dag som inte är en Bankdag skall den skjutas upp till påföljande Börsdag.

#### **Modified Following Scheduled Trading Day**

##### **Modifierad Efterföljande Börsdag**

where a relevant day occurs on a day which is not a

Scheduled Trading Day, it shall be deferred to the immediately following Scheduled Trading Day in the same calendar month unless that day would fall in the next calendar month, in which case the relevant day shall occur on the immediately preceding Scheduled Trading Day;

Om en Ränteförfallodag eller annan relevant dag infaller på en dag som inte är en Börsdag skall den skjutas upp till påföljande Börsdag såvida inte den påföljande Bankdagen infaller under nästkommande kalendermånad. I sådant fall skall Ränteförfallodagen eller annan relevant dag infalla närmast föregående Börsdag.

### **Preceding Scheduled Trading Day**

#### **Föregående Börsdag**

where a relevant day or another relevant day occurs on a day which is not a Scheduled Trading Day, it shall instead occur on the immediately preceding Scheduled Trading Day;

Om en Ränteförfallodag eller annan relevant dag infaller på en dag som inte är en Börsdag skall den istället infalla på närmast föregående Börsdag.

#### **"Extraordinary Events"**

as specified in Part 2: *Additional Conditions for Certain Structured Notes* to these Conditions;

#### **"Särskilda händelser"**

såsom anges i Del 2: *Särskilda Villkor för vissa Strukturerade Lån* till dessa Villkor;

#### **"Final CPI"**

the value of the relevant Inflation Rate as determined at the Valuation Time on the Valuation Date(s);

#### **"Slutligt KPI"**

värdet av den relevanta Inflationstakten så som det bestäms vid Värderingstidpunkten på Värderingsdagen;

#### **"Final Currency Value"**

as specified in the Final Terms;

#### **"Slutvärde Valuta"**

såsom närmare anges i Slutliga Villkor;

#### **"Final FX Rate"**

unless otherwise specified in these Conditions means the FX Rate, or the average value of the FX Rate, on the applicable Valuation Date(s) specified in the Final Terms;

#### **"Slutlig Valutakurs"**

avser, om inte annat anges i dessa Villkor, Valutakursen, eller det genomsnittliga värdet av Valutakursen, på den eller de tillämpliga Värderingsdagen eller Värderingsdagarna, såsom anges i Slutliga Villkor;

#### **"Final Price"**

unless otherwise specified in these Conditions, means the Closing Price, or the average of the Closing Prices, for the relevant Reference Asset, on the applicable Valuation Date(s) as specified in the Final Terms;

#### **"Slutkurs"**

avser, om inte annat anges i dessa Villkor, Stängningskursen, eller genomsnittet av Stängningskurserna, för den relevanta Referenstillgången på den eller de tillämpliga Värderingsdagen eller Värderingsdagarna, såsom anges i Slutliga Villkor;

#### **"Fixed Price"**

as specified in the Final Terms;

#### **"Fastställd Kurs"**

såsom närmare anges i Slutliga Villkor;

|                                                      |                                                                                                                                                              |
|------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| "Fixed Rate Notes"                                   | has the meaning given to it in Condition 5(a) ( <i>Interest – Fixed Rate</i> );                                                                              |
| "Fasträntelån"                                       | såsom närmare anges i Punkt 5(a) ( <i>Ränta – Fast Räntesats</i> );                                                                                          |
| "Fixed Recovery Value"                               | as specified in the relevant Final Terms;                                                                                                                    |
| "Fast Återbetalningsbelopp"                          | såsom närmare anges i Slutliga Villkor;                                                                                                                      |
| "Floating Rate Notes"                                | has the meaning given to it in Condition 5(d) ( <i>Interest – FRNs</i> );                                                                                    |
| "FRN (Floating Rate Notes)" / "Lån med Rörlig Ränta" | såsom definierat i Punkt 5(c) ( <i>Ränta – FRNs</i> );                                                                                                       |
| "Floor Strike"                                       | means the value specified in the applicable Final Terms;                                                                                                     |
| "Lösenprisgolv"                                      | avser det värde såsom närmare anges i Slutliga Villkor;                                                                                                      |
| "Floor Strike Lower"                                 | means the value specified in the applicable Final Terms;                                                                                                     |
| "Lösenprisgolv Lägre"                                | avser det värde såsom närmare anges i Slutliga Villkor;                                                                                                      |
| "Floor Strike Upper"                                 | means the value specified in the applicable Final Terms;                                                                                                     |
| "Lösenprisgolv Högre"                                | avser det värde såsom närmare anges i Slutliga Villkor;                                                                                                      |
| "Fund"                                               | as specified in the Final Terms;                                                                                                                             |
| "Fond"                                               | såsom närmare anges i Slutliga Villkor;                                                                                                                      |
| "Fund Event"                                         | as further specified in Part 4: <i>Additional Conditions for Fund-Linked Notes</i> to these Conditions;                                                      |
| "Fondhändelse"                                       | såsom närmare anges i Del 4: <i>Särskilda villkor för Fondobligationer</i> till dessa Villkor;                                                               |
| "Fund-Linked Notes"                                  | means Notes in respect of which the Reference Asset(s) consist(s) of units or shares in a fund (or funds), as further specified in the relevant Final Terms; |
| "Fondobligationer"                                   | avser Lån med Referenstillgång(ar) bestående av fondandelar, såsom närmare anges i Slutliga Villkor;                                                         |
| "FX Factor"                                          | means the value obtained by dividing the Initial FX Rate by the Final FX Rate;                                                                               |
| "Valutakvot"                                         | avser den kvot som beräknas genom att dividera Valutakursen på Startdag Valuta med Slutlig Valutakurs;                                                       |
| "FX Rate"                                            | means the currency exchange rate specified in the Final Terms;                                                                                               |
| "Valutakurs"                                         | avser den valutaväxlingskurs som närmare anges i Slutliga Villkor;                                                                                           |
| "FX Valuation Date"                                  | as specified in the Final Terms;                                                                                                                             |
| "Värderingsdag Valuta"                               | såsom närmare anges i Slutliga Villkor;                                                                                                                      |
| "Hedging Disruption"                                 | as specified in Condition 11 ( <i>Hedging Disruption</i> );                                                                                                  |
| "Avbrott i Riskhantering"                            | såsom närmare anges i Punkt 11 ( <i>Avbrott i Riskhantering</i> );                                                                                           |

|                                             |                                                                                                                                                                                                                             |
|---------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>"Holder"</b>                             | a person or entity identified as the holder of one or more Notes in accordance with these Conditions;                                                                                                                       |
| <b>"Innehavare"</b>                         | en person som identifierats som innehavare av ett eller flera Lån i enlighet med dessa Villkor;                                                                                                                             |
| <b>"Increased Costs"</b>                    | as specified in Condition 10 ( <i>Increased Costs of Hedging</i> );                                                                                                                                                         |
| <b>"Ökade Kostnader"</b>                    | Såsom närmare anges i Punkt 10 ( <i>Ökade Riskhanteringskostnader</i> );                                                                                                                                                    |
| <b>"Inflation-Linked Interest"</b>          | the amount of interest determined in accordance with Condition 5(d) ( <i>Inflation-Linked Interest</i> );                                                                                                                   |
| <b>"Inflationslänkad Ränta"</b>             | Det räntebelopp som fastställs i enlighet med Punkt 5(d) ( <i>Inflationslänkad Ränta</i> );                                                                                                                                 |
| <b>"Inflation-Linked Interest Notes"</b>    | has the meaning given to it in Condition 5(d) ( <i>Inflation-Linked Interest</i> );                                                                                                                                         |
| <b>"Inflationslänkade Räntebärande Lån"</b> | såsom det definieras i Punkt 5(d) ( <i>Inflationslänkad Ränta</i> );                                                                                                                                                        |
| <b>"Inflation Rate"</b>                     | as specified in the Final Terms;                                                                                                                                                                                            |
| <b>"Inflationstakt"</b>                     | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                     |
| <b>"Initial Basket Level"</b>               | as specified in the Final Terms;                                                                                                                                                                                            |
| <b>"Korgs Startvärde"</b>                   | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                     |
| <b>"Initial FX Valuation Date(s)"</b>       | as specified in the Final Terms;                                                                                                                                                                                            |
| <b>"Startdag Valuta"</b>                    | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                     |
| <b>"Initial FX Rate"</b>                    | unless otherwise specified in these Conditions means the FX Rate, or the average value of the FX Rate, on the applicable Initial Valuation Date(s) as specified in the Final Terms;                                         |
| <b>"Valutastartkurs"</b>                    | om inte annat anges i de Slutliga Villkoren, Valutakursen, eller genomsnittet av Valutakursen, på den tillämpliga Startdagen såsom närmare anges i Slutliga Villkor;                                                        |
| <b>"Initial Price"</b>                      | unless otherwise specified in these Conditions, means the Closing Price, or the average of the Closing Prices, of the relevant Reference Asset on the applicable Initial Valuation Date(s) as specified in the Final Terms; |
| <b>"Startkurs"</b>                          | om inte annat anges i de Slutliga Villkoren, Stängningskursen, eller genomsnittet av Stängningskurserna, för den relevanta Referenstillgången på den tillämpliga Startdagen såsom närmare anges i Slutliga Villkor;         |
| <b>"Initial Valuation Date"</b>             | as specified in the Final Terms;                                                                                                                                                                                            |
| <b>"Startdag"</b>                           | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                     |
| <b>"Instalment Amount"</b>                  | means, in relation to an Instalment Note, the amount of each instalment as may be specified in, or determined in accordance with the provisions of, the Final Terms. To the extent that an Instalment Amount requires       |

|                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|--------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                      | determination, such amount may be determined by the Calculation Agent;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>"Amorteringsbelopp"</b>           | avser, för ett Amorteringslån, beloppet för respektive amortering såsom närmare anges i, eller bestäms i enlighet med, Slutliga Villkor. För det fall ett Amorteringsbelopp behöver fastställas äger Beräkningsagenten rätt att fastställa detta.                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>"Instalment Date"</b>             | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>"Amorteringsdag"</b>              | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>"Interest Base Rate"</b>          | EURIBOR, STIBOR, LIBOR, NIBOR or CIBOR as may be specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| "Record Date"          | the Business Day on which the entitlement of Holders to receive payment under these Conditions, is determined, as specified in Condition 8 ( <i>Payments</i> );                                                                                                                                                                                                     |
| "Bokföringsdag"        | den Bankdag på vilken rätten för Innehavare att erhålla betalning under dessa Villkor, avgörs, såsom närmare anges i Punkt 8 ( <i>Betalningar</i> );                                                                                                                                                                                                                |
| "Redemption Amount"    | the amount calculated in accordance with Condition 6 ( <i>Redemption and Purchase</i> ) or such other amount as may be specified in the applicable Final Terms;                                                                                                                                                                                                     |
| "Återbetalningsbelopp" | det belopp som beräknats i enlighet med Punkt 6 ( <i>Återbetalning och Förvärv</i> ) eller sådant annat belopp såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                                              |
| "Redemption Date"      | as specified in the Final Terms – the day on which the Notes shall be redeemed;                                                                                                                                                                                                                                                                                     |
| "Återbetalningsdag"    | såsom närmare anges i Slutliga Villkor - dagen då Lånen ska återbetalas;                                                                                                                                                                                                                                                                                            |
| "Redemption Proceeds"  | meant the amount(s) received by the Issuer or other applicable Hedging Party as a result of unwinding any hedge position entered into by the Issuer or relevant Hedging Party in order to hedge any obligation of the Issuer to make payments in respect of the Notes.                                                                                              |
| "Inlösenbelopp"        | avser det eller de belopp som Emittenten eller annan så kallad Hedging Party mottar i samband med att någon position som ingåtts av Emittenten eller relevant Hedging Party i syfte att säkra Emittentens åtagande att genomföra betalningar i enlighet med Lånen avvecklas;                                                                                        |
| "Reference Asset(s)"   | as specified in the Final Terms – Reference Assets may include equities, shares (including private equity)/depository receipts, indices, interest rates, currencies, fund units, commodities, credit risks or baskets thereof, combinations or relationships between assets, the change in price or performance of which affects the size of the Redemption Amount; |
| "Referenstillgång(ar)" | såsom närmare anges i Slutliga Villkor – Referenstillgångarna kan bestå av värdepapper, index, räntor, valutor, fondandelar, råvaror, kreditexponeringar eller korgar av kreditexponeringar, kombinationer eller förhållanden mellan tillgångar, vilkas förändring i pris och värdeutveckling påverkar storleken på Återbetalningsbeloppet;                         |
| "Reference Banks"      | four major commercial banks which, at the relevant time, quote the relevant Interest Base Rate and are appointed by the Issuing Agent (or, where applicable, the Calculation Agent) or Issuer;                                                                                                                                                                      |

|                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|--------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>"Referensbanker"</b>              | fyra stora affärsbanker som vid aktuell tidpunkt kvoterar relevant Basränta och som utses av Administrerande Institut (eller, i förekommande fall, Beräkningsagenten) eller Emittenten;                                                                                                                                                                                                                                                                                                                     |
| <b>"Reference Entity"</b>            | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>"Referensbolag"</b>               | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>"Reference Entity (Index)"</b>    | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>"Referensbolag (Index)"</b>       | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>"Reference Entity (Interest)"</b> | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>"Referensbolag (Ränta)"</b>       | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>"Reference Rate"</b>              | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>"Referenskurs"</b>                | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>"Reference Yield"</b>             | the yield specified in the Final Terms for calculation of the Redemption Amount under certain Zero Coupon Notes where the Issuer or, where applicable, a Holder, is entitled to require early redemption of the Notes pursuant to the Conditions;                                                                                                                                                                                                                                                           |
| <b>"Referensavkastning"</b>          | den avkastning som anges i de Slutliga Villkoren för att beräkna Återbetalningsbeloppet för vissa Nollkupongslån där Emittenten eller, i förekommande fall, en Innehavare, har rätt att kräva förtida inlösen av Lånen i enlighet med Villkoren;                                                                                                                                                                                                                                                            |
| <b>"Relevant Exchange"</b>           | the stock exchange(s) on which the underlying Reference Asset(s) is/are traded, as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>"Relevant Börs"</b>               | Den börs eller de börser där den underliggande Referenstillgången eller de underliggande Referenstillgångarna handlas, såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                                                                              |
| <b>"Replacement Factor"</b>          | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>"Ersättningsfaktor"</b>           | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>"Replacement Reference Asset"</b> | means an alternative Reference Asset, as selected by the Issuer in a commercially fair and reasonable manner;                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>"Ersättande Referenstillgång"</b> | avser en alternativ Referenstillgång som Emittenten bestämmer på ett affärsmässigt rättvist och rimligt sätt;                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>"Scheduled Redemption Date"</b>   | as specified in the Final Terms;                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>"Planerad Återbetalningsdag"</b>  | såsom närmare anges i Slutliga Villkor;                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>"Scheduled Trading Day"</b>       | unless otherwise specified in the Final Terms and irrespective of whether a Market Disruption has occurred, with respect to each Reference Asset which is an equity/depository receipts, equities index or any other type of Reference Asset which is traded on a stock exchange or market place, a day on which (i) trading is intended to take place in a Reference Asset on a Relevant Exchange and on an Options or Futures Exchange and/or (ii) the relevant index sponsor is scheduled to publish the |

level of the index; and, with respect to Reference Assets which comprise a currency or a currency index or any other type of Reference Asset for which the price is published, a day on which the price for such Reference Asset or currency included in a Reference Asset is published or is intended to be published in accordance with the provisions of the Final Terms; and, with respect to a Reference Asset which is a fund or a fund index, a day on which it is intended that the value of the Reference Asset or units in the Reference Asset shall be published and, with respect to any other Reference Asset, such day as is specified in the Final Terms;

**"Planerad Handelsdag"**

avser, om inte annat anges i de Slutliga Villkoren och oavsett om Marknadsavbrott inträffat, med beaktande av varje Referenstillgång som är en aktie/insättningsbevis, aktieindex eller någon annan typ av Referenstillgång som handlas på en börs eller marknadsplats, en dag då (i) handel ska ske i en Referenstillgång på en Relevant Börs och på en Options- eller Terminsbörs och/eller (ii) den relevanta indexsponsorn avser att publicera nivån på indexet och, med hänsyn till Referenstillgång som omfattar en valuta eller valutaindex eller annan typ av Referenstillgång för vilken pris är publicerat, en dag på vilken priset för en sådan Referenstillgång eller valuta inkluderad i en Referenstillgång är publicerad eller kommer att publiceras i enlighet med de Slutliga Villkoren och, med hänsyn till en Referenstillgång som är en fond eller ett fondindex, en dag på vilken det avses att värdet av Referenstillgången eller enheter av Referenstillgången ska publiceras och, med hänsyn till någon annan Referenstillgång en dag såsom den definieras i de Slutliga Villkoren.

**"Specified Currency"**

SEK, EUR, DKK, NOK or such other currency as may be specified in the Final Terms;

**"Angiven Valuta"**

SEK, EUR, DKK, NOK eller sådan annan valuta såsom närmare anges i Slutliga Villkor;

**"STIBOR"**

the Interest Rate which, (1) at or about 11.00 am Central European Time on the relevant day is published on Reuters' "SIOR" screen for the relevant period (or through such other system or on such other screen as replaces the aforementioned system or screen) or, in the absence of such quotation, the Interest Rate which (2) at the aforementioned time corresponds to (a) the arithmetic mean of the rates for deposits in SEK for the relevant period on the Stockholm interbank market as quoted by the Reference Banks or, where only one or no such quotation is given – (b) the Issuer's determination of the Interest Rate offered by Swedish commercial banks for loans in SEK for the relevant period on the Stockholm interbank market;

**"STIBOR"**

Räntesatsen som (1) klockan 11.00 eller omkring kl. 11.00 CET på den relevanta dagen publiceras på Reuters "SIOR"-sida för den relevanta perioden (eller genom sådant annat system eller på sådan annan sida som ersätter det tidigare nämnda systemet) eller, i avsaknad av sådan notering, Räntesatsen som (2) vid den tidigare nämnda tidpunkten motsvarar (a) det genomsnittliga värdet av de
